An introduction to market systems, supply and demand model, and decision making in different market structures. Topics include the supply and demand framework, elasticity, government intervention, and decision making in the market structures of perfect competition, monopoly, monopolistic competition, and oligopoly. This course has been approved for correspondence, hybrid and online delivery. This course may use a free Open Education Resource textbook.

EDUCATION

ED 1 – Tools for Teaching

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This interactive course presents an overview of knowledge and skills related to designing and delivering appropriate curriculum and fostering a supportive learning environment for adult learners. The course examines the teaching and learning transaction and key teacher responsibilities and activities. Specific attention is paid to relevant learning theories and teaching techniques that maximize the effectiveness of instruction. Students will examine the teachers' role in fostering the joy of learning for adults using instructional systems design principles. Students engage in the production and presentation of an instructional package including instructional strategies, materials and technologies, classroom management practices, and the multiple measures of learning. This course has been approved for hybrid delivery.

ED 2 – Introduction to Elementary Classroom Instruction

3.0 units

CSU

C-ID EDUC 200

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This interactive course introduces students to the concepts and issues related to teaching diverse learners in today's contemporary schools, Kindergarten through grade 12 (K-12). Topics include teaching as a profession and career, historical and philosophical foundations of the American education system, contemporary educational issues, California's content standards and frameworks, and teacher performance standards. In addition to class time, the course requires a minimum of 45 hours of structured fieldwork in public school elementary classrooms that represent California's diverse student population, and includes cooperation with at least one carefully selected and campus-approved certificated classroom teacher. This course has been approved for online delivery.

EMERGENCY MEDICAL TECHNICIAN or RESPONDER

EMT 21 – Emergency Medical Responder

**2.5 units
CSU**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

36 hours lecture/29 hour lab (R)
This course meets public safety standards published by U.S. Department of Transportation's Emergency Medical Responder curriculum. The course will prepare the student for certification (two-year) by the Northern California Emergency Medical Service. This course is repeatable as necessary to maintain certification. Additional State Certification Fees will apply. This course has been approved for online and hybrid delivery.

EMT 60 - Emergency Medical Technician 1 (Basic)

6.5 units

Prerequisite: Current CPR certification or equivalent

85 hours lecture/69 hours lab (R)
Covers all techniques of emergency medical care and transportation of the sick and injured within the responsibilities of the Emergency Medical Services Authority requirements referenced in Title 22, Division 9, Chapter 2, Article 1 of the California Administrative Code. Upon successful completion, the student will be eligible to take the Certification Exam for Emergency Medical Technician-1 Ambulance or Emergency Medical Technician - B (Basic). The student will be required to complete an additional 32 hours of on-the-job emergency training outside the scheduled classroom hours to meet state requirements. The student must possess a valid CPR card from ASHI, ARC or AHA. This course may be taken as necessary for certification. Approved for online and hybrid delivery.

EMT 61 - Emergency Medical Technician-B Refresher

1.0 unit

Prerequisites: Current EMT-B, certification that has been expired for no more than one year. Must possess a valid CPR card and demonstrate ability to perform CPR skills to current ASHI, ARC, or AHA standards.

14 hours lecture/18 hours lab
A 32 hour course that provides, to the certified EMT-B (Basic) student, a review of didactic knowledge and practical skills required to recertify, as outlined by the State of California regulations. For EMT-B's who are maintaining certification with

the National Registry of EMT's (NREMT), this course is also approved for the required Transition course. Repeatable as necessary to maintain certification This course has been approved for online and hybrid delivery.

ENGLISH

ENGL 1 - College Composition

**3.0 units
CSU/UC**

General Education Area D1

CSU GE Area A2

IGETC Area 1A

C-ID ENGL 100

Prerequisite: Successful completion of ENGL105 or equivalent multiple measure placement.

51 hours lecture

A refinement of the skills of writing and critical reading, emphasizing the relationship between purpose and form, clarity, coherence and unity, accuracy of expression, the development of the writer's voice and style, the elements of critical thinking, and the development of the research paper and specific strategies to prepare for university studies. This course has been approved for online, hybrid and correspondence delivery.

ENGL 2 - Introduction to Literary Types

**3.0 units
CSU/UC**

General Education Area C

CSU GE Area C2

IGETC Area 3B

C-ID ENGL 120

Prerequisite: English 1

51 hours lecture

This course introduces representative works from major genres, develops students' close reading and analytical writing skills, and promotes appreciation and critical understanding of the cultural, historical, and aesthetic qualities of literature. This course has been approved for online and hybrid delivery.

ENGL 3 – British Literature I

**3.0 units
CSU/UC**

General Education Area C

CSU GE Area C2

IGETC Area 3B

C-ID ENGL 160

Prerequisite: English 1

51 hours lecture

This course surveys British literature from the Middle Ages to the late eighteenth century. Areas of focus include the literary traditions and context as well as relevant historical, philosophical, social

and political developments. This course has been approved for online, hybrid and correspondence delivery.

ENGL 4 – British Literature II

**3.0 units
CSU/UC**

General Education Area C

CSU GE Area C2

IGETC Area 3B

C-ID ENGL 165

Prerequisite: English 1

51 hours lecture

This course surveys British literature from the late eighteenth century to contemporary British and post-colonial texts. Areas of focus include the literary traditions and context as well as relevant historical, philosophical, social and political developments. This course has been approved for online, hybrid and correspondence delivery.

ENGL 5 – Survey of World Literature II

**3.0 units
CSU/UC**

General Education Area C

CSU GE Area C2

IGETC Area 3B

C-ID ENGL 145

Prerequisite: English 1

51 hours lecture

This course is a comparative study of selected works, in translation and in English, of literature from around the world, including Europe, the Middle East, Asia, and other areas, from the mid or late seventeenth century to the present. This course has been approved for online and hybrid delivery.

ENGL 7 – Argumentative Writing and Critical Thinking Through Literature

**4.0 units
CSU/UC**

General Education Area C

CSU GE Area A3

IGETC 1B

C-ID ENGL 110

Prerequisite: English 1

68 hours lecture

This course offers instruction in analytical, critical, and argumentative writing, critical thinking, research strategies, information literacy, and proper documentation through the study of literary works from major genres, while developing students' close reading skills and promoting an appreciation of the aesthetic qualities of literature. This course has been approved for Hybrid (online/traditional) Delivery.

ENGL 9 - Critical Thinking and Composition

3.0 units

CSU/UC

General Education Area D1

CSU GE Area A3

IGETC Area 1B

C-ID ENGL 105

Prerequisite: English 1

51 hours lecture

This course is designed to develop critical thinking, reading, and writing skills beyond the level achieved in English 1.

The course will focus on the development of logical reasoning and analytical and argumentative writing skills. This course has been approved for online, hybrid and correspondence delivery.

ENGL 10 – Shakespeare

3.0 units

CSU/UC

General Education Area C

CSU GE Area C2

IGETC Area 3B

Prerequisite: English 1

51 hours lecture

Plays of Shakespeare will be analyzed and discussed. The development and evaluation of Elizabethan and Jacobean drama will be studied and Shakespeare's achievements considered in that light. Each student will produce an independent paper on a work, character, or theme of interest. This course has been approved for online, hybrid and correspondence delivery.

ENGL 12 - Survey of American Literature II

3.0 units

CSU/UC

General Education Area C

CSU GE Area C2

IGETC Area 3B

C-ID ENGL 135

Prerequisite: English 1

51 hours lecture

This course introduces students to a wide range of American authors and their relationship to major literary and intellectual movements from the second half of the nineteenth century to the present. This course will include the emergence of realism and naturalism in the post-war industrial era. Humorists, local color writers, the revival of poetry, nationalism, cosmopolitanism, and the fiction of the early twentieth century will be studied. This course has been approved for online, hybrid and correspondence delivery.

ENGL 22 – Creative Writing

3.0 units

CSU/UC

General Education Area C

C-ID ENGL 200

Prerequisite: English 1

51 hours lecture

An introduction to the craft of creative writing through the study and analysis of works by established and peer writers. Students will practice writing in various genres and will be introduced to the workshop method. This course has been approved for hybrid and correspondence delivery.

ENGL 33 – Studies in Fiction

3.0 units

CSU/UC

General Education Area C

CSU GE Area C2

IGETC Area 3B

Prerequisite: English 1

51 hours lecture

This course will examine the nature of prose fiction and its various forms, explore periods and themes evident in a given work, and emphasize a critical apparatus that will allow students to critically reflect on and engage with various types of literature. This course has been approved for online, hybrid and correspondence delivery.

ENGL 34 – Studies in Poetry

3.0 units

CSU/UC

General Education Area C

CSU GE Area C2

IGETC Area 3B

Prerequisite: English 1

51 hours lecture

This course will examine the aesthetic, semiotic, and prosodic qualities of poetry from both the 20th and 21st centuries. Through selected readings, this course will foster close reading/analysis of contemporary poetry, providing an understanding of poetic form and function (poetics). This course has been approved for online, hybrid and correspondence delivery.

ENGL 105- Introduction to College Reading, Writing, and Critical Thinking

3.0 units

51 hours lecture

Development of reading, writing, and critical thinking skills including reading for comprehension, summarizing, paraphrasing and directly quoting, writing responses to readings, integrating ideas from multiple sources to support a single idea, appropriately citing sources and writing essays. This course has been

approved for online, hybrid and correspondence delivery.

ENGL 105A- Reading and Writing Support

1.0 units

Corequisite: ENGL 105 or ENGL 1

51 hours lab

The emphasis of this course is to provide support for students in college level reading, writing and critical thinking. Course includes review and application of the basic skills needed for clear written expression. Students will explore grammar, sentence and paragraph structure, essay organization, research and reading skills in the context of work being completed in ENGL 105 Introduction to College Reading, Writing and Thinking or ENGL 1 Freshman Composition. This course has been approved for online, hybrid and correspondence delivery.

ETHNIC STUDIES

ES 1 - Ethnic Minorities in America

3.0 units

CSU/UC

General Education Area B

CSU GE Area D3

IGETC Area 4C

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

A survey of the history, culture and folklore of the American people providing a sociological analysis of race, ethnicity and racism. This course has been approved for online and correspondence delivery.

FILM

FILM 1 - History of the Cinema

3.0 units

CSU/UC

General Education Area C

CSU GE Area C1

IGETC Area 3A

Recommended Preparation ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course is designed as an introduction to film history, focusing on methods and analysis. Works of Edison, Lumieres, Chaplin, J. Ford, Hitchcock, Wells, Allen, Brooks, Coppola and other will be examined. This course has been approved for online delivery.

FIRE TECHNOLOGY

FS 3 - Fundamentals of Fire Prevention

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

The history and philosophy of fire prevention, organization and operation of fire prevention bureaus, use of fire codes, identification and correction of fire hazards, and the relationship of fire prevention with fire safety education and detection/suppression systems. This course has been approved for online, hybrid and correspondence delivery.

FS 4 - Fire Protection Equipment and Systems

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course provides an introduction to the design and operation of fire detection and alarm systems, heat and smoke control systems, special protection and sprinkler systems, water supply for fire protection, and portable fire extinguishers. This course has been approved for online, hybrid and correspondence delivery.

FS 5 - Fire Orientation and Organization

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course provides an overview to fire protection and emergency services; career opportunities in fire protection and related fields; culture and history of emergency services; fire loss analysis; organization and function of public and private fire protection services; fire departments as part of local government; laws and regulations affecting the fire service; fire service nomenclature; specific fire protection functions; basic fire chemistry and physics; introduction to fire protection systems; introduction to fire strategy and tactics; life safety initiatives. This course has been

approved for online, hybrid and correspondence delivery.

FS 6 - Building Construction for Fire Protection

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course provides for the study of the components of building construction that relate to fire safety. The elements of construction and design of structures are shown to be key factors when inspecting buildings, preplanning fire operations and operating at fires. The development and evolution of building and fire codes will be studied in relationship to past fires in residential, commercial, and industrial occupancies. This course has been approved for hybrid and correspondence delivery.

FS 8 – Wildland Fire Suppression

2.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

16 hours lecture/48 hours lab

Training in the use of tools of wildland fire suppression, and experience in the cooperative working relationship of a wildland fire suppression crew. Subject coverage includes responsibility as a fire crewperson, safe working habits, hand tools of firepumps, map and compass, tool maintenance, pumping operations and safety, air operations and safety, tractor operations and safety, wildland fire tactics, structural fire tactics, mop-up activities, fireline location and construction and radio use.

FS 13 - Fire Behavior and Combustion

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course of study presents theories and fundamentals of how and why fires start, spread and are controlled; an in-depth study of fire chemistry and physics; fire characteristics of materials; extinguishing agents; and fire control techniques. This course has been approved for online, hybrid and correspondence delivery.

FS 14 - Principles of Fire Safety and Survival

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course will introduce the student to fundamental issues relating to firefighting safety and survival. Students will evaluate case studies in which firefighters have been killed or injured. In addition, each student will be required to give an oral presentation based on an analysis of a "near miss" fatal fire/rescue scenario. Additionally, this course will introduce the student to the National Firefighter Life Safety initiatives, which focus on the need for both cultural and behavioral change throughout the emergency services disciplines. This course has been approved for online, hybrid and correspondence delivery.

FS 20 - First Aid and CPR for the Public Safety Employee

1.5 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

26 hours lecture (R)

Introduction to injury and illness including preparation for rendering assistance for the public safety personnel including administration of first aid, CPR, and use of AED according to the standards set forth in California Code of Regulations Title 22. Social Security Division 9. Prehospital Emergency Medical Services Chapter 1.5. First Aid and CPR Standards and Training for Public Safety Personnel. This course meets Title 22 regulations and is approved by the Local Emergency Medical Services Authority (LEMSA). A \$10.00 certification fee applies. May be repeated as needed for recertification. This course has been approved for hybrid delivery.

FS 23 - Firing Operations (S-219)

1.0 units

CSU

Prerequisites: FS 75 Fire behavior (S-290)

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

16 hours lecture (2 day)

This course introduces the roles and responsibilities of a firing boss, common firing devices, and general firing operations and techniques. Although comprehensive in nature, the coursework

is not a substitute for the dynamic fire environment.

FS 26 - Basic Air Operations (S-270) 1.0 unit
CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

16 Hours Lecture (2 Day)

This course covers aircraft types and capabilities, aviation management and safety, tactical and logistical uses of aircraft, and requirements for helicopter take-off and landing areas.

FS 49 - Fire Science Work Experience

1.0-8.0 units

CSU

General Education Area E1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

600 hours lab (R)

This work based learning course is designed to assist students with educational or career goals in fire technology, who are working in the field of fire suppression, to build related job specific skills through individualized learning objectives and enhance their workplace performance. All Work Experience enrollments require attendance of a face-to-face orientation session. Instruction is also provided through online course modules and emails throughout course term, work based learning with a participating supervisor, and meetings in office or at student worksite. Instruction focuses on goal setting to develop job specific skills, enhancement of soft skills in the workplace, and career development. Subsequent enrollments require new individualized learning objectives, and completion of new course module assignments. Units are awarded based upon achievement of approved learning objectives, workplace performance, submission of course assignments, and documentation of work hours. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Career Technical Education, Occupational and General Work Experience enrollments. Title V specifies students will earn 1 unit of credit for each 75 hours of paid work, and 1 unit of credit for each 60 hours volunteer work. This course has been approved for Hybrid and correspondence delivery

FS 50 – Rapid Intervention Crew (RIC) Operations

0.5 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement. Fire Fighter I Training, FS 80 Fire Fighter Survival or equivalent. 4 hours lecture/20 hours lab

The Rapid Intervention Crew (RIC) Operations course trains fire fighters to rescue a downed fire fighter in an immediately dangerous to life and health (IDLH) environment was developed in the continuing effort to reduce the number of fire fighter injuries and deaths that occur regularly. Students train using evolutions and scenarios based off tragedies suffered by fellow fire fighters from departments across the country.

Students receive information on how to locate and use these LODD studies as training and prevention tools throughout their careers. The course focuses on the three phases of a RIC operation: 1) pre-deployment, 2) deployment, and 3) rescue. During the class, you will also gain a greater understanding of RIC operations terminology and the RIC mindset. A supplemental \$81.00 fee will be charged including a \$5.00 materials fee for student manual flash drive and a \$76.00 State Fire Training FSTEP certification fee is due to Lassen Community College and will be collected at the time of registration.

FS 51 – Introduction to Fire Technology Careers

1.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hours lecture

This course provides the basic knowledge to begin a career in the field of Fire Technology. Students will be introduced to the major branches of the fire service communities and the procedures used to complete an application for each of these departments.

FS 54 – National Incident Management System (NIMS-700a)
0.5 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

b. hours lecture

This course introduces and overviews the National Incident Management System (NIMS). NIMS provides a consistent nationwide template to enable all government, private-sector, and

nongovernmental organizations to work together during domestic incidents

FS 56 – Helicopter Crewmember (S-271) 2.0 units

Prerequisite: FS-61 Basic Firefighter Training (Basic 32)

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

32 hours lecture/8 hours lab

This course is designed to meet the training needs of a helicopter crew member. Upon completion, the student will be able to demonstrate proficiency in all identified areas of helicopter use to safely achieve efficiency and standardization.

FS 57 - Vehicle Extrication
1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

8 hours lecture/8 hours lab

This course provides students with hands-on experience in the procedures utilized during an automobile extrication incident. Course certified by of the California State Fire Marshal. Additional State Certification Fees apply. This course may be taken as needed due to the evolving extrication methods, various vehicle technological changes, and new modern tools used in the various rescue plans as well as victim care requirements. A supplemental \$81.00 fee will be charged including a \$5.00 materials fee for student manual flash drive and a \$76.00 State Fire Training FSTEP certification fee is due to Lassen Community College and will be collected at the time of registration.

FS 59 – Confined Space Awareness

0.5 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

8.5 hours lecture

This course will introduce fire service personnel to the codes that impact operations within confined spaces, the hazards of confined spaces, equipment and procedures required to deal with a confined space rescue safely and legally, basic operational positions, and their responsibilities as set forth by CAL-OSHA. A supplemental \$81.00 fee will be charged including a \$5.00 materials fee for student manual flash drive and a \$76.00 State Fire Training FSTEP certification fee is due to Lassen

Community College and will be collected at the time of registration.

FS 60 - Wildland Firefighter (CalFIRE Basic Training)

5.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

Previous or concurrently: FS 61, FS 51, FS59, FS72, FS80, FS 81 FS 20, or equivalent.

64 hours lecture/82hours lab

This course provides students with the knowledge and skills to perform basic firefighter tasks. Topics include: fire physics and terminology; fireline safety; aircraft safety; self-contained breathing apparatus; mobile equipment orientation; fire equipment orientation; wildland and structure firefighting operations. Instructor permission is required to enroll in this course.

FS 60A - Basic Fire Crew Firefighter

3.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture (2 weeks)

This course provides basic knowledge, skills and ability for those individuals seeking a position on an operational CAL FIRE hand crew. This course requires instructor authorization prior to enrollment. (CAL FIRE 58)

FS 61 - Basic Firefighter Training (Basic 32)

2.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

34 hours lecture, 8 hours lab

This course provides basic training in wildland fire suppression and crew person subject overage includes wildland fire behavior, skills of wildland fire suppression, practice with common fireline hand tools, and working safely in wildland fire environment. [Meets U.S. Forest Service and Bureau of Land Management requirements for Firefighter Type 2: L-180, S-130 and S-190.] To be awarded the certificates at the end of the course students must successfully complete the Federal Emergency Management Agency (FEMA) IS-100 (Introduction to the Incident Command System, ICS-100) and IS-700 (An introduction to the National Incident Management System) online at

<https://training.fema.gov/> (free to students).

FS 64 Instructor 1 Instructor Methodology

2.5 units

Recommended Preparation:

Introduction to the Incident Command System (IS-100.B) FEMA or National Incident Management System (IS-700.A, FEMA)

40 hours lecture

This course provides the skills and knowledge needed for the entry level professional instructor to perform his or her duties safely, effectively, and competently. The curriculum is based on the 2012 edition of NFPA 1041 Standard for Fire Service Instructor Professional Qualifications. At the end of this course, candidates for Instructor I certification will be able to teach and deliver instruction from a prepared lesson plan utilizing instructional aids and evaluation instruments. The Instructor I will also be able to adapt a lesson plan and complete the reporting requirements to the local jurisdiction. A supplemental State Fire Training CFSTES certification fee of \$141.00 is due to Lassen Community College and will be collected at the time of registration.

FS 64B Instructor II Instructional Development

2.0 units

Required Preparation

FS 64 Instructor I or equivalent
40 hours lecture

This course is designed for those seeking to become fire service instructors. It provides the skills and knowledge needed for the intermediate level professional instructor to perform his or her duties safely, effectively, and competently. At the end of this course, candidates for Instructor II certification will be able to develop lesson plans and evaluation instruments, teach and deliver instruction, and evaluate and coach other instructors. The Instructor II will also be able to analyze resources and formulate a program budget. The State Fire Training Course Fee of \$141.00 will be collected at registration.

FS 65A – Driver Operator 1A – Emergency Vehicle Operations

1.5 units

18 hours lecture/27 hours lab

This course provides the student with information on driver responsibilities, recognized standards, and related laws for fire apparatus. Topics include basic inspections, documentation,

maintenance, and troubleshooting fire apparatus, and techniques on driving and positioning fire apparatus. Each student also has the opportunity to increase his or her driving skills during simulated driving conditions. A supplemental State Fire Training CFSTES certification fee of \$141.00 is due to Lassen Community College and will be collected at the time of registration.

FS 65B – Driver Operator 1B - Pump Operations

1.5 units

Prerequisite(s): FS 65A Driver Operations 1A

18 hours lecture/27 hours lab

Course provides the student with the information, theory, methods and techniques for operating fire service pumps, including: types of pumps, engine and pump gauges maintenance, unsafe pumping conditions, pressure relief devices, cooling systems, water supplies, drafting field hydraulics, and pumping operations. A supplemental State Fire Training CFSTES certification fee of \$141.00 is due to Lassen Community College and will be collected at the time of registration.

FS 65C – Wildland Fire Apparatus Operations

0.5 units

Prerequisite(s): FS 65A Driver Operations 1A. FS 65B Driver Operator 1B, OSFM Fire Fighter I

7 hours lecture/17 hours lab

This course is designed to provide students with accepted statewide protocol and procedures for operation of a wildland fire apparatus. Course topics include: preventive maintenance, routine tests, inspections, and servicing functions on the systems and components unique to wildland fire apparatus. In addition students will participate in activities to practice proper operation of a wildland fire apparatus and production of an effective fire stream. Course certified by of the California State Fire Marshal. Additional State Certification Fees apply. A supplemental State Fire Training CFSTES certification fee of \$141.00 is due to Lassen Community College and will be collected at the time of registration.

FS 70 – Heavy Equipment Boss (S-236)

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

24 hours lecture (1 week)

This course is designed to meet training recommended for the dozer boss on an all risk incident. Trainees will be taught to ensure that a dozer has been properly inspected and signed up, ensure a dozer operator is qualified and signed up, determine the capabilities and limitations of the dozer and operator to perform an assignment, and the actions to complete an assignment. Must have Firefighter Type 1 qualifications to receive NWCG Certificate.

FS 70A - Single Resource Academy (S-230, S-231, S-232)

2.0 units

Prerequisite(s): FS 98.18 (Annual Fire Refresher Training – RT-130) and FFT 1
Recommended Preparation: ENGL105 or equivalent multiple measures placement.

28 hours lecture/4 hours lab

This course is designed as a classroom skill course to produce proficiency in the performance of all duties associated with the single resource Engine Boss, Crew Boss and Dozer Boss from initial dispatch through return to home unit. Instructional topics include: preparation and mobilization, assignment preparation, tactics and safety, off-line duties, demobilization, and post-incident activities. This course may be taken as needed to meet legally mandated training requirements.

FS 70B - Engine Boss (Single Resource)

1.0 units

Prerequisite(s): FS-70A Single Resource Academy (S-230, S-231, S-232) or Firefighter Type 1 qualifications and have successfully completed an agency S-230 course. **Recommended Preparation:** ENGL105 or equivalent multiple measures placement.

16 Hours Lecture

This course is designed as a classroom skill course to produce trainee proficiency in the performance of all duties associated with the single resource engine boss, from initial dispatch through return to home unit. Instructional topics include: preparation and mobilization, assignment preparation, tactics and safety, off-line duties, and demobilization, post-incident activities. This course may be taken as needed to meet legally mandated training requirements. Must have Firefighter Type 1 qualifications and have successfully completed an agency S-230 course, or FS-70A Single Resource Boss Academy to receive NWCG certificate.

FS 70C - Single Resource Crew Boss

1.0 units

Prerequisite(s): FS-98.18 Annual Fighter Training or Firefighter Training 1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

24 Hours Lecture

This course is designed as a classroom skill course to produce trainee proficiency in the performance of all duties associated with the single resource crew boss, from initial dispatch through return to home unit. Instructional topics include: preparation and mobilization, assignment preparation, tactics and safety, off-line duties, and demobilization, post-incident activities.

FS 72 – HazMat First Responder - Operations

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

24 hours lecture (1 week) (R)

This course provides information about basic strategies to safe-guard the health and safety of emergency responders when their work involves potential exposure to hazardous materials. Topics include detection of the presence of hazardous materials, hazardous materials references and safe work practices around potentially hazardous materials. This course may be taken as necessary to maintain certification. A \$5.00 materials fee for student manual flash drive will be collected at the time of registration.

FS 72A – HazMat First Responder - Refresher

0.5 unit

Prerequisite: FS 72 First Responder - Hazardous Materials

9 hours lecture (2 days) (R)

This course is designed to refresh students who are likely first responders to Hazardous Materials events. Within the operational role, course topics include risks and outcomes of hazardous materials, operational roles, safety procedures, stabilization of the scene, decontamination of victims and equipment and communication and coordination with agencies. This course is certified by the California Specialized Training Institute and students successfully completing the class will be issued a CSTI certificate. There will be a state certification fee for this class. This course may be taken as necessary to

maintain certification. A \$5.00 materials fee for student manual flash drive will be collected at the time of registration.

FS 72B – HazMat First Responder - Decontamination

0.5 unit

Prerequisite: FS 72 First Responder - Hazardous Materials

8.5 hours lecture

This course is designed for personnel previously trained to the Haz Mat First Responder Operations (FRO) level, to conduct responder decontamination as part of an organized response to incidents such as those involving hazardous materials (Haz Mat) releases or weapons of mass destruction. A supplemental \$81.00 fee will be charged including a \$5.00 materials fee for student manual flash drive and a \$76.00 State Fire Training FSTEP certification fee is due to Lassen Community College and will be collected at the time of registration.

FS 74 - Fire in the Interface (S-215)

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

24 hours lecture (1 week)

This course is designed to meet the training needs for initial attack incident commanders and company officers confronting wildland fires that threaten life and property and improvements in the wildland/urban interface. Must be qualified as a Firefighter Type 1 and the instructor will verify qualifications before signing the registration card.

FS 75 - Fire Behavior (S-290)

2.0 units

Prerequisite: FS 61 – Basic Firefighter Training (Basic 32) or FS 60 - Wildland Firefighter (CalFIRE Basic Training); or S-190 Certification

37 hours lecture (1 week)

This course provides instruction in the identification and prediction of wildland fire behavior problems in various fuel types and under varying weather conditions.

FS 76 - Firefighter Type 1 (Squad Boss) (S-131)

0.5 unit

Prerequisite: FS-61 Basic Firefighter Training (Basic 32) or FS-60-Wildland Firefighter (CalFIRE-Basic Training). ***This prerequisite is mandated by federal requirements through NWCG (National Wildland Coordinating Group).***

8 hours lecture

This course is designed to be interactive

in nature. It contains several tactical decision games designed to facilitate learning the objectives through class discussion.

FS 77 - Human Factors on the Fireline (L-180)

0.5 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

9 hours lecture (1 week)

This training course addresses human performance content that relates to the individual, including situation awareness, communication, decision making, risk management, and teamwork skills. The desired outcome of this training is improved awareness of human performance issues on the fireline so that individual firefighters can integrate effectively into teams/crews working in dynamic, high-risk environments.

FS 78 - Followership to Leadership (L-280)

1.0 unit

Prerequisite: This prerequisite is mandated by federal requirements through NWCG (National Wildland Coordinating Group). FS 77 Human Factors on the Fireline L-180 **and** FS 61-Basic Firefighter Training (Basic 32) **or** FS 60 – Wildland Firefighter (CDF Basic 67).

17 hours lecture (1 week)

This training course is designed as a self-assessment opportunity for individuals preparing to step into a leadership role. The course combines one day of classroom instruction followed by a second day in the field with students working through a series of problem solving events in small teams (Field Leadership Assessment Course). Must have experience on fire incident assignments in operations or support functions to receive NWCG Certificate.

FS 80 - Fire Fighter Survival

1.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hours lecture

This course will supply the student with a greater understanding of the need for situational awareness, firefighter survival skills, and the technical survival skills to help you avoid committing fatal errors on the fire ground. Avoiding situations that could cause you to become lost, trapped, or injured is the best way to prevent tragedies at a fire scene. The Fire Fighter Survival course will aid in preventing fire fighter emergencies by teaching

personnel to be resourceful when facing dangerous entrapment situations. A supplemental \$81.00 fee will be charged including a \$5.00 materials fee for student manual flash drive and a \$76.00 State Fire Training FSTEP certification fee is due to Lassen Community College and will be collected at the time of registration.

FS 81 – Wildland Fire Fighter Safety and Survival

0.5 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

8.5 hours lecture

This course is designed to look at Wildland fire entrapments, their causes and what a firefighter can do to avoid them. Several topics will be looked at, discussed and studied from near misses and entrapments in the wildland fire service. Emphasis will be learning from history and why fire entrapments occur and how they might be avoided. Using Office of the State Fire Marshall (OSFM) 4000 Policy.

FS 84 - Lessons Learned (Fatality Fire Case Studies)

1.0 unit

Prerequisite: FS 61 Basic Firefighter (Basic 32) or equivalent

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

16 hours lecture/4 hour lab (4 weeks)

The purpose of the Lessons Learned training course is by its nature firefighting is a dangerous undertaking. Wildland fires are dangerous because they are dynamic and constantly changing as the result of many complex factors. Unfortunately, sometimes wildland fires bring death and injury to firefighters. Each firefighter fatality should motivate us to study the incident, learn from it, and share the lessons of this blunt but effective teaching tool so that others may engage wildland fires without paying such a price.

FS 85 - Understanding Maps, Compass, and GPS

1.0 unit

Recommended Preparation ENGL105 or equivalent multiple measures placement.

8 hours lecture 10 hours lab

Learn to navigate using topographic and other maps used with the compass and Global Positioning Systems (GPS). Discusses topography contours, map scales, and map projections. Navigate in the field using inexpensive modern

compass and GPS receiver to define desired directions of travel and use them on the ground. Discussion of different hand-held GPS receivers, their usefulness, accuracy, and important features for use in the field. Students will learn how to use the GPS receiver and/or compass with map to determine accurate altitude information in land navigation and how to minimize navigation errors caused by the effects of weather and other natural interference. There will be a \$5.00 student materials fee for flash drive containing student text.

FS 89 – Wildland Fire Chainsaws (S-212)

1.5 unit

Prerequisite(s): FS-61 Basic Firefighter Training (Basic 32) or FS 60A or equivalent

24 hours lecture/4 hours lab (1 week)

This course provides an introduction to the function, maintenance and use of internal combustion engine powered chainsaws and their tactical wildland fire application. Field exercises support entry level training for firefighters with little or no previous experience in operating a chain saw, providing hands-on cutting experience in surroundings similar to fireline situations. Repeatable as needed for certification.

FS 90 – Portable Pumps and Water Use (S-211)

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

16 hours lecture/4 hours lab (1 week)

This course is designed to meet training needs of a Firefighter Type 1 or Incident Commander Type 5. Course content will provide the knowledge and skills needed to design, set up, operate, troubleshoot, and shut down portable water delivery systems.

FS 91- I-Suite Incident Based Automation

1.5 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

25.5 hours lecture

I-suite is a data entry system used on wildland fire incidents. This course will teach students how to use the I-suite computer system, how to enter data online, and how to interface with other data systems on a wildland fire incident.

**FS 92A Company Officer 2D:
Human Resource Management
for Company Officers**

2.1 units

Prerequisites: Meet educational requirements for FF II. A copy of your Firefighter II certificate must be presented to the instructor on the first day of class.

40 hours lecture

This course is designed for experienced firefighters seeking promotion to the rank of company officer. This course prepares or enhances the ability of first time supervisors through provision of information on the use of human resources to accomplish assignments, evaluating member performance, supervising personnel, and integrating health and safety plans, policies and procedures into daily activities as well as the emergency scene. This course is part of a series of five core professional development courses required for the California State Fire Training Company Officer Certification. Successful students in this course earn credit towards the degree while meeting California State Fire Training certification requirements. A supplemental State Fire Training CFSTES certification fee of \$141.00 is due to Lassen Community College and will be collected at the time of registration.

**FS 92B Company Officer 2D:
General Administrative Functions
for Company Officers**

1.0 units

Prerequisites: Meet educational requirements for FF II. A copy of your Firefighter II certificate must be presented to the instructor on the first day of class.

Units

20 hours lecture

This course is designed for practicing firefighters seeking promotion to the rank of company officer. This course prepares or enhances the ability of first time supervisors through provision of information on general administrative functions and the implementation of department policies and procedures and addresses conveying the fire department's role, image and mission to the public. This course part of a series of five core professional development courses required for the California State Fire Training Company Officer Certification. Successful students in this course earn credit towards the degree while meeting California State Fire Training certification requirements. A supplemental State Fire Training

CFSTES certification fee of \$141.00 is due to Lassen Community College and will be collected at the time of registration.

**FS 92C Company Officer 2C: Fire
Inspections and Investigation for
Company Officers**

2.0 units

Prerequisites: Meet educational requirements for FF II. A copy of your Firefighter II certificate must be presented to the instructor on the first day of class.

40 hours lecture

This course is designed for practicing firefighters seeking promotion to the rank of company officer. This course prepares or enhances the ability of first time supervisors through provision of information on conducting inspections, identifying hazards and addressing violations, performing a fire investigation to determine preliminary cause and securing the incident scene and preserving evidence. This course part of a series of five core professional development courses required for the California State Fire Training Company Officer Certification. Successful students in this course earn credit towards the degree while meeting California State Fire Training certification requirements. A supplemental State Fire Training CFSTES certification fee of \$141.00 is due to Lassen Community College and will be collected at the time of registration.

**FS 92D Company Officer 2D: All
Risk Command Operations**

2.0 units

Prerequisites: Meet the educational requirements of Fire Fighter II

40 hours lecture

This course provides information on conducting incident size-up, developing and implementing an initial plan of action involving single and multi-unit operations for various types of emergency incidents to mitigate the situation following agency safety procedures, conducting pre-incident planning, and develop and conduct a post-incident analysis. This course is for students seeking a California State Fire Marshal's Office course completion certification. A supplemental State Fire Training CFSTES certification fee of \$141.00 is due to Lassen Community College and will be collected at the time of registration.

**FS 92E Company Officer 2E:
Wildland Incident Operations for
Company Officers**

2.0 units

Prerequisites: Must complete or provide copy of S-290 Intermediate Fire Behavior Certificate (classroom delivery only) as well as meet the educational requirements for Fire Fighter II as stated in the California State Fire Training certification process. A copy of your Firefighter II certificate and NWCG S-290 must be presented to the instructor on the first day of class.

40 hours lecture

This course is designed for practicing firefighters seeking promotion to the rank of company officer. This course prepares or enhances the ability of first time supervisors through provision of information on evaluating and reporting incident conditions, analyzing incident needs, developing and implementing a plan of action to deploy incident resources completing all operations to suppress a wildland fire, establishing an incident command post, creating an incident action plan, and completing incident records and reports. This course part of a series of five core professional development courses required for the California State Fire Training Company Officer Certification. Successful students in this course earn credit towards the degree while meeting California State Fire Training certification requirements. For students seeking a California State Fire Training course completion certification, there is a supplemental \$81.00 SFT fee which must be paid by the second day of the class. This fee is not collected during the registration process. Additional details will be provided on the first day of class.

FS 93 Fire Fighter I

18.5 units

Prerequisite: FS 20 1st aid for Public Safety Employees or HO 120 CPR or equivalent

160 hours lecture/480 hours lab

This course provides the skills and knowledge needed for the entry level fire fighter, career or volunteer, to perform his/her duties safely, effectively, and competently. The curriculum is based on the 2013 edition of NFPA 1001 Standard for Fire Fighter Professional Qualifications, the 2012 edition of NFPA 1051 Standard for Wildland Fire Fighter Professional Qualifications, and the 2008 edition of NFPA 472 Standard for Competence of Responders to

Hazardous Materials/Weapons of Mass Destruction Incidents. The seven overarching themes of the California State Fire Fighter I curriculum are: general knowledge germane to the profession, fire department communications, fire ground operations, rescue operations, preparedness and maintenance, wildland suppression activities, and hazardous materials/WMD. Student will receive a California State Fire Marshall Fire Fighter 1 certificate

FS 94 Strike Team/Task Force Leader. All Hazards (AH-330)
1.5 unit

Prerequisite: FS 23 Firing Op, FS 74 Fire in the Interface, FS 88 Initial Attack Incident Commander or equivalent

25.5 hours lecture

This course is designed to provide the skills and knowledge needed to perform in the position of Strike Team/Task Force Leader. Topics include position overview; pre-deployment responsibilities; concept of the position; resource typing standards; pre-dispatch preparation; incident responsibilities; administration; supervision; response; assignment; demobilization; tactics and safety; risk management; entrapment avoidance; WUI; case studies; scenarios; appropriate action vs. freelancing.

A supplemental \$81.00 fee will be charged including a \$5.00 materials fee for student manual flash drive and a \$76.00 State Fire Training FSTEP certification fee is due to Lassen Community College and will be collected at the time of registration.

FS 95 Initial Attack Incident Command
0.5 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

5 hours lecture/12 hours lab

A course designed to bring out the responsibilities of the individual in charge of the initial attack of small, non-complex fires that are routinely suppressed by local initial attack forces and assure that local policies and practices are understood by the initial attack leader.

FS 96 – Low Angle Rope Rescue
0.5 unit

27 hours lab

A course designed to train firefighters and emergency medical personnel in low angle rescue techniques. Students will learn about equipment, identification, and care. Note: Students must provide their own safety equipment which will include helmet, gloves, long pants, long sleeve shirt, and work boots with aggressive soles for traction on steep slopes.

Students may re-enroll in course for credit as legally mandated to meet training requirements as a condition of continued paid or volunteer employment. A supplemental \$81.00 fee will be charged including a \$5.00 materials fee for student manual flash drive and a \$76.00 State Fire Training FSTEP certification fee is due to Lassen Community College and will be collected at the time of registration.

FS 97 – Fire Control 4: Controlling Ignitable liquids and Gases
0.5 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6.5 hours lecture/9.5 hours lab

This course provide the knowledge and skills that prepare a firefighter to extinguish an ignitable liquid fire, control a flammable gas fire, and develop an incident action plan for a pipeline emergency. Participants will learn and practice modern vehicle firefighting techniques. A supplemental \$81.00 fee will be charged including a \$5.00 materials fee for student manual flash drive and a \$76.00 State Fire Training FSTEP certification fee is due to Lassen Community College and will be collected at the time of registration.

FS 98.18 – Annual Fire Refresher Training (RT-130)
0.5 unit

Prerequisite(s): FS-61 Basic Firefighter Training (Basic 32)

8 hours lecture (1 Day)

Purpose of wildland fire suppression is to minimize damage to resources, property and the environment. This should be accomplished in the most operationally effective and fiscally responsible manner. But above all, we need to remember that no resource or property values are worth endangering life. Providing for the safety of firefighters is the number one priority and responsibility of every individual. This course requires an additional fee of \$2.00 to cover the costs of handouts and

a pocket guide. This course may be taken as legally mandated.

FS 98.20 – Annual Hired-Equipment Refresher Training
0.5 unit

8 hours lecture (1 Day) (R)

This course provides an annual review and update of regulations and guidelines for the safe operation of fire suppression equipment. This course requires an additional fee of \$2.00 to cover the costs of handouts and a pocket guide. Also required is a \$20.00 fee for State Fire Training Certification/Registration fee as mandated by Cal Fire. This course may be taken as legally mandated.

FS 98.21 – Volunteer Firefighter Academy
2.5 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

32 hours lecture/34 hours lab

This course is designed to provide an introduction of skills and methods used for structural firefighting. Students will be required to work as a team to accomplish assigned tasks and be introduced to concepts and cultures that are common to the fire service. This course is ideally suited for an entry level volunteer firefighter, wildland firefighters or anyone that would like to be familiar with basic structural firefighting skills. Curriculum is designed to incorporate IFSAC/Pro Board Firefighter 1 requirements. An additional \$10.00 materials fee will be added to the admission fee to cover consumable materials used during the course such as plywood and propane.

GEOGRAPHY

GEOG 2 - Cultural Geography
3.0 units

CSU/UC

General Education Area B

CSU GE Area D5

IGETC Area 4E

C-ID GEOG 120

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

The study of the varieties of human use and misuse of ecological landscapes. Emphasis is placed on the regional distribution of population, settlement patterns and migration, religion, ethnicity, political organization, economic systems, agriculture and industry. This course has been approved for hybrid, online and correspondence delivery.

GEOGRAPHICAL INFORMATION SYSTEMS

GIS 1 – Fundamentals of GIS

4 units

CSU/UC

Co-requisite: GIS 2 Data Concepts

This course covers theoretical and applied knowledge of Geographic Information Systems (GIS). Students will learn the basic history of GIS, as well as what it is, how it functions, and why it is used to benefit real-world, problem-solving applications. Geospatial data, and associated information, will be a core component of the course, including acquisition, development, maintenance, manipulation, analysis, and display of content. Spatial parameters (i.e., projections, coordinate systems, datum, and units of measure), geodatabase structures and use, basic cartographic skills, and simple overlay analysis and geoprocessing techniques are covered as well. This course is offered in traditional, online, and hybrid modalities.

GIS 2 – Data Concepts

3 units

CSU/UC

Co-requisite: GIS 1 Fundamentals of GIS

This course covers concepts and techniques associated with geospatial data, including detailed examination of the design and implementation of geodatabases for Geographic Information Systems (GIS). Relational database management systems (RDBMS), and their functionality in relation to GIS, are a key concept in the course. Other concepts such as data integration, organization, and quality assurance; attribute information classification; feature digitization and editing; and geocoding will be covered as well. This course has been approved for online and hybrid delivery.

GIS 3 - Cartography and Geovisualization

3 units

CSU/UC

Prerequisite: GIS 1-Fundamentals of GIS & GIS 2- Data Concepts

This course covers advanced concepts associated with cartography and geovisualization, as they relate to Geographic Information Systems (GIS). Cartographic principles will be covered in-depth, including enhanced map layout design and corresponding map element styling. Students will work with complex hardcopy and digital map outputs, including web-based visuals. Animations, 3D scenes, Story Maps, and other forms of geovisualization techniques are

examined as well. This course has been approved for online and hybrid delivery.

GIS 4 – Spatial Analysis

3 units

CSU/UC

Prerequisite: GIS 1-Fundamentals of GIS & GIS 2- Data Concepts

This course covers the advanced and specialized topic of spatial analysis, in relation to Geographic Information Systems (GIS). Spatial analysis examines the spatial relationships of features in geospatial data, such as patterns, trends, connections, etc. GIS-based spatial analysis techniques are covered extensively for both vector and raster data models. A heavy emphasis is placed on using spatial analysis operations to aid in geospatial problem-solving scenarios as well. Geospatial modelling is a key component of the course, also. This course has been approved for online and hybrid delivery.

GIS 5 - Web/Mobile Based GIS

3 units

CSU

Prerequisite: GIS 1-Fundamentals of GIS & GIS 2- Data Concepts

This course covers concepts associated with web-based data and mapping applications, as well as mobile data collection methodology, as they relate to Geographic Information Systems (GIS). Latest trends in online GIS technology are examined, including Esri's ArcGIS Online interface and ancillary components. Web Maps, Story Maps, and Web AppBuilder for ArcGIS will be explored. On the mobile side, application technologies such as Collector for ArcGIS and Survey123 will be studied, also. Students will be exposed to a basic understanding of Global Positioning Systems (GPS), too. This course has been approved for online and hybrid delivery.

GEOLOGY

GEOL 1 - Physical Geology

4.0 units

CSU/UC

General Education Area A

CSU GE Areas B1 & B3

IGETC Area 5A & 5C

C-ID GEOL 101

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture/51 hours lab
Pursuit of understanding the physical classification of rocks and minerals of the earth as a whole and its past, present and

future evolutionary processes. Unifying concepts such as plate tectonics and its implications, the magnitude of geologic time, uniformitarianism, and the ramifications of the fossil record will be explored. This course includes field trips to areas of geological interest. This course has been approved for online and hybrid delivery.

GEOL 5 - Historical Geology & Paleontology

4.0 units

CSU/UC

General Education Area A

CSU GE Areas B1 & B3

IGETC Area 5A & 5C

C-ID GEOL 111

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture/51 hours lab

This course is designed to provide a descriptive geological history of the earth using the principles and methods of interpretation and reconstruction of the changes that have occurred on the earth in the fossil record. This course has been approved for online and hybrid delivery.

GUNSMITHING

SHORT TERM COURSES

GSS 49 - Gunsmithing Work Experience

1.0-8.0 units

CSU

General Education Area E1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

600 hours lab (R)

This work based learning course is designed to assist students with educational or career goals in gunsmithing who are working in the field of law gunsmithing, to build related job specific skills through individualized learning objectives and enhance their workplace performance. All Work Experience enrollments require attendance of a face-to-face orientation session. Instruction is also provided through online course modules and emails throughout course term, work based learning with a participating supervisor, and meetings in office or at student worksite. Instruction focuses on goal setting to develop job specific skills, enhancement of soft skills in the workplace, and career development. Subsequent enrollments require new individualized learning objectives, and

completion of new course module assignments. Units are awarded based upon achievement of approved learning objectives, workplace performance, submission of course assignments, and documentation of work hours. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Career Technical Education, Occupational and General Work Experience enrollments. Title V specifies students will earn 1 unit of credit for each 75 hours of paid work, and 1 unit of credit for each 60 hours volunteer work. This course has been approved for Hybrid delivery

GSS 50.01 - Recoil Pad and Sling Swivel Installation **1.0 unit**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the installation and fitting of recoil pads and sling swivels to firearm stocks, wood, hollow wood and synthetic. Includes determining pitch, cutting stock, locating, drilling and tapping pad screw holes and sealing of stock. This also covers fitting of pads using a fixture and without one.

GSS 50.03 - Open and Optical Sight Installation **1.0 unit**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover cutting dovetails, drilling and tapping for open sights and soft soldering, sights and ramps. Covers the installation of open and peep rear sights and blade and ramp front sights. This course will also cover drifting of sights when necessary.

GSS 51.01 - Stock Inletting **1.0 unit**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to provide the student with the knowledge to inlet and install forend tips and grip caps. The students will also learn to shape a center fire rifle stock. The inletting and shaping of two-piece stocks will also be covered, as well as the use of inletting tools and markers.

GSS 51.03 - Stock Inletting **1.0 unit**

6 hours lecture/34 hours lab
This course is designed to cover the shaping and sanding of conventional rifle stocks, includes stocks for rifles, shotguns, .22's and two-piece stocks for any type of long gun.

GSS 51.05 - Glass Bedding for Strength and Accuracy **1.0 unit**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the reinforcing and glass bedding of stocks for strength as well as the repairing of broken stock and shocks for heavy recoiling calibers.

GSS 51.06 - Wood Stock Finishing **1.0 unit**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to provide the student with knowledge and skills to produce a high quality finished stock. The use of sanding techniques, stains and various finishes will be covered.

GSS 52B - Firearms Training **0.5 unit**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

8 hours lecture/8 hours lab (R)
A course certified to qualify students to meet the minimum California requirement for Carry Concealed Weapons permit. (This course shall not exceed 16 hours per California Penal Code Section 12050.) Repeatable as necessary to maintain certification.

GSS 52BR - Firearms Training Refresher **0.5 unit**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

8.5 hours lecture (R)
This course is a refresher course to meet state requirements for concealed weapons permit. Repeatable as needed to maintain certification.

GSS 52.01 - Gunsmith Machining 1 **2.0 unit**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

12 hours lecture/66 hours lab (2 weeks)
This course is designed to cover tool sharpening, types of steels, cutting speeds, use of precision measuring tools, cutting and turning steel in chuck and between centers to precise dimensions, cutting "V", square and buttress threads and the design and fabrication of simple bolt and action holding fixtures.

GSS 52.02 - Gunsmith Machining 2 **2.0 unit**

Prerequisite: GSS 52.01 - Gunsmith Machining 1

12 hours lecture/66 hours lab (1 week)
This course is designed to cover turning of short tapers between centers, grinding and use of form tools, turning inside and outside radius as well as freehand radiusing. Includes cutting of barrel cone and safety breaching as well as American and European barrel transition contours.

GSS 52.03 - Gunsmith Machining 3 **2.0 unit**

Prerequisite: GSS 52.02 - Gunsmith Machining 2

12 hours lecture/66 hours lab (1 week)
This course is designed to cover basic milling operations, cutting speeds, types of cutters and types of cutting. For hardened and unhardened firearm steels with an emphasis on safe procedures for firearm parts.

GSS 52.04 - Gunsmith Machining 4 **1.0 unit**

Prerequisite: GSS 52.03 - Gunsmith Machining 3

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the cutting of internal threads and the machining of internal tapers on a lathe as used in firearm manufacture.

GSS 52.05 - Gunsmith Machining 5 **1.0 unit**

Prerequisite: GSS 52.04 - Gunsmith Machining 4

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the use of a dividing head on a milling machine, the manufacturing of octagonal barrels; square parts and multifaceted parts are covered. Includes dimensional limits for adequate protection against barrel burst from modern high intensity cartridges.

GSS 52.06 - Gunsmith Machining 6

1.0 unit

Prerequisite: GSS 52.05 - Gunsmith Machining 5

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the turning of long work pieces such as barrels or long straight shafts. Includes taper turning, stopping chatter, turning long increasing radii.

GSS 54.05 - Hardening & Tempering of Carbon Steels

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the hardening and tempering of carbon and carbon alloy steels as used in firearms.

GSS 55.04 - Stock Refinish and Repair

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to provide the student with knowledge and skills required to repair and refinish stocks, the raising of dents, filling of cracks, reinforcing weak area and re-cutting of checkering will be covered in depth. Sealing and matching finish of repaired areas will also be covered.

GSS 56.01 - Headspace

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the measurement, dangers of and correction of headspace in all types of firearms, included are screw-in and pin-in barrels as well as pivot barrel guns. Also covered are systems where the barrel is not removable.

GSS 56.03 - Bolt Action Barrel Fitting

1.0 unit

Prerequisite: GSS 52.02 Gunsmith Machining 2

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the threading, fitting and chambering of barrel to bolt action receivers, cone breech, safety breech and mauser types.

GSS 56.04 - Barrel Contouring

1.0 unit

Prerequisite: GSS 52.02 Gunsmith Machining 2

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the lathe turning of barrels to pre-selected diameters, tapers and contours, as used in bolt action rifles. Also covered is the polishing to get all irregularities and machining marks out of the barrel.

GSS 57.01 - Bolt Action Breeching and Headspace

1.0 unit

Prerequisite: GSS 52.02 Gunsmith Machining 2

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the breeching and head spacing of bolt-action rifles. Information learned is usable for most other types of rifles. Included is threading, fitting shank to bolt and chambering.

GSS 57.02 - Action Blueprinting

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the truing of the face, lugs and threads of a bolt-action receiver and truing the lugs, lip and face of a bolt to gain the best possible accuracy from an action.

GSS 57.03 - Action and Bolt Modifications

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the preparation of military action for sporting use, covers installation and adjustment of triggers and safeties, drilling and tapping, bolt alterations and removal of clip bridges.

GSS 57.06 - Truing Exterior of Action

1.0 unit

Prerequisite: GSS 52.03 Gunsmith Machining 3

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the truing of the exterior of commercial and military actions using a lathe and/or mill depending on the type of action.

GSS 57.08 - Bottom Metal Modifications

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the custom modifications to trigger guards

and floor plates of bolt-action rifles.

Includes sculpturing of guard bows, various types of floor plate releases, filing holes and altering profiles.

GSS 57.15 - Bolt Action Rifle Feeding

1.0 unit

Prerequisite: GSS 52.04 Gunsmith Machining 4

6 hours lecture/33 hours lab (1 week)

This course covers the alteration of bolt-action fixed magazine center fire rifles, to feed a different size cartridge for which they were originally designed.

GSS 58.02 - Pressure Bedding and Pillar Bedding

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the pressure bedding of bolt-action rifle barrels in wood stocks and the pillar bedding of actions in composite and/or wood stocks.

GSS 59.02 - Metal Preparation for Refinishing and Caustic Bluing

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the metal preparation and caustic bluing of ferrous firearm parts. Includes metal preparation, degreasing, bluing, and neutralizing of firearm parts.

GSS 59.03 - Parkerizing

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to provide the student with the process of phosphate coating - parkerizing of steel firearm parts, as used on some military firearms and for extreme weather protection.

GSS 59.04 - Color Case Hardening

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to provide the student with the old style color case hardening process as used on firearm parts 100 years old. This course includes metal preparation, color hardening and after treatment.

GSS 59.05 - Rust Bluing

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.
6 hours lecture/33 hours lab (1 week)
This course is designed to cover the cold rust, niter, bluing process used until the early 20th century. This is one of the processes used for soft soldered barrels and for restoration of 19th century firearms.

GSS 59.07 - Niter Bluing and Heat Coloring 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the nitrogen and heat coloring processes commonly used until the 1930's to give firearm parts the bright royal blue straw or other selected colors as found on many antique firearms.

GSS 59.09 - Alternative Metal Finishes 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover alternative metal finishes available to the gunsmith. Topics will include Teflon Coating, Powder Coating, Aluminum Anodizing as well as other metal finishes.

GSS 60.01 - DFR Recoil Operated Auto Shotguns 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the function and repair of recoil operated Auto shotguns in use today. The base firearm studied will be the Browning A-5 and clones. Other models will be studied showing their differences with the Browning design.

GSS 60.02 - DFR Gas Operated Auto Shotguns 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the design, function and repair of gas-operated shotguns in use today. Includes all aspects of their working, what can go wrong and the correct fixes. The base gun is the Remington 1100; 11-87. Other guns will be studied where they differ

from the Remington.

GSS 60.04 - DFR Pump Shotguns 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the design, function and repair of pump shotguns in common use today. The base gun studied is the Remington 870, but also covered in detail are the Savage 30, 77 and 520; Mossberg 500, 550 and cones; the Ithaca 37 and 87 and the Winchester 1200 and 1300.

GSS 61.01 - DFR Single Action Revolvers 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the fitting, timing and repair of single action revolvers. Includes cylinder fit, barrel-cylinder gap, bolt and hand fit and timing, action shooting and modifications for cowboy and fast draw shooting.

GSS 61.02 - DFR Smith & Wesson Revolvers 1.0 unit

Recommended Preparation: Successful completion of ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to provide the student with knowledge and skills in the design, function and repair of all systems of the Smith and Wesson type revolvers. This course also covers fitting of barrels and cylinders as well as all moving parts, and smoothing of the action.

GSS 61.03 - DFR Colt and Ruger Double Action Revolvers 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the design, function and repair of Colt D, E, F and I frame revolvers, covers all phases of repair including endshake, range and throw-by.

GSS 62.03 - Misfire Correction 1.0 unit

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the causes and cures of misfiring in all types of sporting arms. Includes firing pin placement, energy and velocity and how to adjust for optimum performance.

GSS 62.04 - Correcting Oversize Firing Pin Holes 1.0 unit

Prerequisites: GSS 52.01 Gunsmith Machining 1

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the correction of oversize firing pin holes by the bushing and welding methods. Includes the refitting of firing pins and heat-treating when needed.

GSS 63.01 - Single Triggers 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the design, function and repair of single trigger systems as found in double guns. Includes single nonselective and single selective triggers as well as single double triggers and double single triggers.

GSS 63.02 - Ejectors 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the design, function and repair of ejectors as found in double guns. Includes hammer types and spring-loaded types. Fitting, timing and repair of the complete system.

GSS 63.03 - Double Gun Locks 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to provide the student with the knowledge and skills of design, function and repair of hammerless double gun locks in common usage over the past 120 years. This course also provides information covering most types of self-cocking systems.

GSS 63.04 - Double Gun Locking Systems 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to provide the student with knowledge and skills of the design, function and repair of locking systems in common use in pivot barrel guns during the past 130 years.

GSS 63.05 - Double Gun Hinge Pins and Headspace

1.0 unit

Prerequisites: GSS 52.01 Gunsmith Machining I and GSS 54.01 Oxyacetylene Welding for Gunsmiths

6 hours lecture/33 hours lab (1 week)

This course is designed to provide the student with knowledge and skills in the function, fabrication and replacement of hinge pins in pivot barrel guns and the adjustment of headspace in pivot barrel shotguns and rifles.

GSS 64.01 - Composition Stock Fitting, Bedding and Finishing

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to provide the student with the skills necessary to fit a composition stock to a barreled action, magazine and trigger guard assembly as well as bedding the stock to the action, including fitting accessories and finishing.

GSS 66.01 - Non-Bolt Action Rifle Barrel Fitting

1.0 unit

Prerequisites: GSS 52.02 Gunsmith Machining 2 and GSS 56.03 Bolt Action Barrel Fitting

6 hours lecture/33 hours lab (1 week)

This course is designed to provide the student with the skills necessary to thread and fit barrels to lever and pump action rifles in common use today, as well as single shots.

GSS 66.02 - Revolver Barrel Fitting and Ranging

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the removal and fitting of revolver barrels, screw-in and pin-in types. Includes adjusting barrel-cylinder gap, throat and tightening loose barrels.

GSS 66.03 - .22 Barrel Fitting

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the fitting of replacement barrels to the various .22 rim fire rifles in use today. Includes tightening, re-indexing and setting barrels back but does not cover adjusting of fitting barrels of pivot barrel

guns.

GSS 67.01 - Blowback Principle

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the blowback principle as a locking system. Includes troubleshooting, balancing for heavier or lighter loads, extraction-ejection problems, a thorough understanding of the principle is extremely useful in diagnosing problems in all types of automatics.

GSS 68.01 - DFR Locked Breech Single Action Auto Pistols

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the design, function and repair of common locked breech single action pistols. This course also includes locking systems, feeding, extractors, ejection, magazines, etc., with emphasis on problem solving and reliability. The base firearm is the Colt-Browning type 45 auto.

GSS 68.02 - DFR Locked Breech Double Action Auto Pistols

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course will cover the design, function and repair of double action locked breech auto pistols. Emphasis is on repair and reliability. Most current designs are studied.

GSS 68.03 - DFR Blowback Auto Pistols

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course will cover the design, function and repair of blowback operated auto pistols in use today. Most systems and types are studied, including headspace, sear systems, feeding, ramps, magazines and extractors.

GSS 69.01 - DFR Auto Rifles

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the design, function and repair of modern auto

sporting rifles excepting "assault" rifles.

GSS 69.02 - DFR Pump Rifles

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

1.0 Unit

This course is designed to provide the student with knowledge and skills in design, function and repair of center fire pump rifles in common use today. This course includes fire control, feeding, extraction, ejection and accuracy, as well as fabrication of parts for obsolete models.

GSS 69.03 - DFR Lever Action Rifles

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the design, function and repair of lever action rifles in common use today. The base gun is the Winchester 94. The Marlin 336 and Savage 99 are also studied in detail. Lesser models such as the Winchester 76, 86, 88 and Marlin 92, 94 and 95 are studied to a lesser degree.

GSS 69.04 - Non-Bolt Action Feeding

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to provide the student with skills and abilities to repair and adjust all feed systems, except those found in bolt action, center fire rifles. This course also includes tube feed and magazine feed .22's, shotguns, handguns and center fire rifles. Converting to a larger or smaller cartridge is also covered.

GSS 70 - Checkering

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

4 hours lecture/46 hours lab (1 week)

An introductory course designed to provide the students with the basic skills of checkering. Instruction includes tools and equipment and their use, pattern design, layout and transfer, cutting of patterns and borders.

GSS 70.01 - DFA Triggers 1

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the design, function and adjustment of all types of trigger systems except trigger systems with three or more sears and/or adjustable levers. Includes virtually every type of trigger system found in modern sporting firearms except high quality target guns. Conventional, articulated, cam, Colt-type and double sear-types are covered.

GSS 70.02 - DFA Triggers 2

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the design, function and adjustments of multiple sear adjustable lever triggers systems as used in high-grade firearms and air guns.

GSS 71 - Custom Rifle Seminar

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

4 hours lecture/46 hours lab (1 week)

A course designed to provide the student with an overview of advanced state of the art in design, technique and tools for the custom classic rifle maker, including tools and equipment and their use, design, checkering, metal accessories, wood finish, metal finish, laying out a blank and metal checking.

GSS 71.01 - DFR .22 Autos

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the design, function and repair of .22 automatic rifles in common use today. All aspects are studied including extraction, ejection, fire control, headspace and feeding, with emphasis on malfunction repairs.

GSS 71.02 - DFR Bolt Action .22's

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to provide the student with knowledge and skills in

design, function and repair of bolt action .22 rifles. The simplest single shots to advanced target models are studied. All systems are covered from cartridge feed systems and extraction to triggers.

GSS 71.03 - DFR Pump and Lever Action .22's

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the design, function and repair of the pump and lever action .22 rifles in common use today. Includes rifles made by Browning, Remington and Winchester but does not cover the Marlin Model 39.

GSS 71.04 - DFR Marlin Model 39

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover all aspects of the design, function and repair of these fine .22 rifles. Includes the very old models made before 1900 up to the present version and the center fire variants.

GSS 72 - Fiberglass Stockmaking

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

4 hours lecture/46 hours lab

(1 week) (R)

A course introducing skills, procedures, and techniques of finishing a fiberglass stock, including history, materials, bedding, filling, sanding, painting, accessories, and accuracy.

GSS 72.01 - Metallic Cartridge

Reloading

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the basics of metallic cartridge reloading, both pistol and rifle. Covers sorting, cleaning, lubing, sizing, de-priming, selection of charge, charging, seating and crimping.

GSS 73.02 - Spring Making

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the making of irregular shaped wire springs

from basic round spring stock, using a semi-universal spring winding fixture that the student fabricates and the making of flat or "v" springs.

GSS 75.02 - Firearm Laws and Regulations

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the study of the thousands of Federal and State Firearms Laws.

GSS 77 - Accurizing M1-M1A for Competition

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

4 hours lecture/44 hours lab (1 week)

This course is designed to present state of the art bedding techniques of M1-M1A rifles for national match competition. Mechanics aspects of tuning for accuracy and reliability will be discussed and accomplished. Participants will have an opportunity to test fire their rifles before and after accurizing. This course requires an additional fee of \$19 to cover the costs of course handouts, bedding material, sandpaper, steel, wood finish, and small parts (pins, roll pins, small springs, etc.).

GSS 78 - Design & Repair: .22

Autopistols

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

4 hours lecture/46 hours lab 1.0 Unit

An advanced course designed to train the student to fine tune .22 autopistols to very close factory specifications. Diagnosis and repair of malfunctioning pistols will be emphasized.

GSS 79 - Basic Correctional

Armorer's School

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/34 hours lab (1 week)

An introductory course designed to train correctional officers to maintain their firearms and department firearms to factory service.

GSS 82 - General Gunsmithing

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

4 hours lecture/46 hours lab (1 week)

A course designed to introduce the student to gunsmithing basics to include, firearms malfunctions, diagnosis and repair.

GSS 83 - General Gunsmithing-Advanced

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

4 hours lecture/46 hours lab (1 week)

An advanced course in general gunsmithing problems and techniques including drilling and tapping for sights, spring making and silver soldering.

GSS 84 - L.E.A.S./Design and Repair Colt & Ruger Revolvers

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/34 hours lab

A course designed to train the student to fine tune and maintain Colt and Ruger revolvers to very close factory specifications, and to diagnose malfunctions and adjust or repair malfunctioning revolvers.

GSS 85 - L.E.A.S./Design and Repair Smith & Wesson Revolvers

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/34 hours lab (1 week)

Trains the student to fine tune Smith & Wesson revolvers to very close factory specifications, and to maintain, diagnose malfunctions and adjust or repair these malfunctioning revolvers.

GSS 87 - L.E.A.S./Design & Repair Double Action Autopistols I

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/34 hours lab (1 week)

An advanced course designed to train the student to fine tune the following families of double-action autopistols to very close factory specifications and to maintain them, diagnose malfunctions and adjust or repair these malfunctions. Firearms to be covered are Smith & Wesson autopistols, Sig Sauer 220 series, Beretta and Glock.

GSS 88 - L.E.A.S./Design and Repair Single Action Autopistols

1.0 unit

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

6 hours lecture/34 hours lab (1 week)

A course designed to train the student to fine tune single action autopistols to very close factory specifications, and to maintain, diagnose malfunctions and adjust or repair these malfunctioning autopistols.

GSS 89 - L.E.A.S./Design and Repair Full Autos, Phase I

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/34 hours lab (1 week)

An advanced course designed to train law enforcement armorers in the repair and maintenance of fully automatic firearms.

GSS 90 - Customizing the Colt-Type Autopistol, Basic

2.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hour lecture/51 hours lab (1 week)

A course designed to cover the specific basic alterations and modifications to the Colt 1911A1 type autopistols as used in custom pistolsmithing today.

GSS 91 - Customizing the Colt-Type Autopistol, Advanced

2.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

8 hours lecture/88 hours lab (2 weeks)

A course designed to cover the common advanced alterations and modifications to the Colt 1911A1 type autopistols as used in custom pistolsmithing today. This course requires an additional fee of \$19 to cover the costs of course handouts, blocking, sandpaper, small parts (pins, roll pins, small springs, etc.), steel, cutting oil, welding rod and gases.

GSS 93 - L.E.A.S./Design and Repair-Counter Sniper/Varmint Rifle

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/34 hours lab (1 week)

An advanced course designed to train law enforcement officers and gunsmiths in the accurizing and maintenance of super accurate bolt action rifles. This course requires an additional fee of \$19 to cover the costs of course handouts, bedding material, small parts (pins, roll pins, small springs, etc.), and steel.

GSS 94 - Ballistics, Handloading & Testing

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

4 hours lecture/46 hours lab (1 week)

A course designed to provide the student with detailed knowledge of small arms ammunition. This course requires an additional fee of \$19 to cover the costs of course handouts, case lube, powder, primers, and bullets.

GSS 95 - Law Enforcement Armorer School-Basic

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/34 hours lab (1 week)

An introductory course designed to train law enforcement officers to maintain departmental firearms to factory service levels. Firearms to be covered are Smith & Wesson revolver, Glock, Colt AR-15 and Remington 870 shotgun.

GSS 98.02 Cowboy Action Shooting Long Guns

1.0 unit

4 hours lecture/44 hours lab (1 week)

This course is designed to present specialized techniques that deal with the fine-tuning of Winchester and Marlin lever action rifles for cowboy action shooting. The tuning of Winchester Model 97 shotguns and double shotguns will also be covered. This course requires an additional fee of \$19 to cover the costs of course handouts, bedding materials, sandpaper, small parts (pins, roll pins, small springs, etc.), steel, welding rod and gases.

GSS 98.03 Cowboy Action Shooting Short Guns

1.0 unit

4 hours lecture/44 hours lab (1 week)

This course is designed to present specialized techniques that deal with the fine-tuning of Colt, Colt style and Ruger single action revolvers for the very popular sport of cowboy action shooting. This course requires an additional fee of \$19 to cover the costs of course handouts, sandpaper, small parts (pins, roll pins, small springs, etc.), steel, welding rod and gases.

GSS 98.04 Advanced Knife Making

1.0 unit

6 hours lecture/34 hours lab (1 week)

This course is designed to present basic techniques learned in the "Introduction to Knife Making," course. This course will deal with hollow grinding working with

different metal types and handle materials.

GSS 98.05 Design, Function and Repair Smith & Wesson Revolver 1.0 unit

4 hours lecture/44 hours lab (1 week)
This course is designed to present information about Smith & Wesson revolvers in great detail. Areas of instruction will cover specifics such as: various ways to time the hand and cylinder stop, ranging sprung frames, making the revolver shoot where it points, over and under indexing, off center sights, bent sight, barrel on different axis than frame, cylinder fit, correcting bad notches, and correcting irregular ratchet pads.

GSS 98.06 L.E.A.S. Design, Function and Repair Patrol Rifles 1.0 unit

6 hours lecture/34 hours lab (1 week)
This course is designed to present instruction that will cover the repair and maintenance of the following firearms to factory specifications: Shotguns - Remington 870, Remington 700, Ruger Mini-14, and Colt AR-15.

GSS 98.08 Custom Build 1911 1.0 unit

8 hours lecture/88 hours lab (2 weeks)
This course is designed to present coverage of modifications to the Colt type 1911 auto pistols, as used in Bullseye, Carry, Open or Stock competition. The student will learn different types of compensator systems as well as ergonomic enhancement techniques to fine-tune the Colt 1911 to any specifications. Precise barrel installation or maximum accuracy and detailed trigger work will be strongly emphasized.

GSS 98.09 Color Case Hardening 1.0 unit

4 hours lecture/44 hours lab (1 week)
This course is designed to present the old methods of color case hardening. This will include learning how to fabricate a furnace with commonly found materials. This course requires an additional fee of \$19 to cover the costs of course handouts, charcoal, blocking and shielding materials, and various color compounds.

GSS 98.12 Modern and Cowboy Action Belts and Holsters 1.0 unit

4 hours lecture/44 hours lab (1 week)
This course will teach the student how to select different grades of leather to fabricate cowboy belts and holsters. The student will also become familiar with tools that are needed and their proper use. The student will learn how to lay-out

and cut their leather patterns. The course will teach leather forming techniques, gluing and bonding, punching holes for hand sewing, and will learn a variety of dyes and types of finishes used on leather. This course requires an additional fee of \$19 to cover the costs of course handouts, dye, glue, leather, and oil.

GSS 98.13 Metallurgy for Gunsmiths 1.0 unit

12 hours lecture/36 hours lab (1 week)
This course introduces gunsmithing students to the theory of metallurgy. The student will learn to predict the behavior of metals, particularly common grades of steel, when exposed to heating and cooling cycles. This course requires an additional fee of \$19 to cover the costs of various types of metal of specific composition for testing, heat treating, etc. Chemicals for altering metals, sandpaper (course, medium, fine, very fine, grits), emery cloth (course, medium, fine and very fine grits), sanding belts, polishing wheels and polishing compound.

GSS 98.21 Hand Guns Special Projects 1.0-3.0 units

151 hours lab
This course is designed to provide the student with the skill development necessary to repair hand guns in a timely manner. This course has been approved for open entry/open exit.

GSS 98.22 DFR Long Guns Special Projects 1.0-3.0 units

151 hours lab
This course is designed to provide the student with skill development necessary to repair long guns in a timely manner. This course has been approved for open entry/open exit.

GSS 98.23 Machine Shop Special Projects 1.0-3.0 units

Prerequisite(s): GSS 52.01 Gunsmith Machining 1
151 hours lab
This course is designed to provide the student with the skill development to machine custom tools and gun parts. This course has been approved for open entry/open exit.

GSS 98.24 Stockmaking Special Projects 1.0-3.0 units

151 hours lab
This course is designed to provide the student with the skill development necessary to complete gun stocks to industry standard. This course has been

approved for open entry/open exit.

GSS 112 - Machine Shop for Gunsmiths 2.0 units

8 hours lecture/92 hours lab (2 weeks)
An introductory course designed to help the beginner or the pro in the use of machine shop equipment as it relates to gunsmithing. This course requires an additional fee of \$19 to cover the costs of course handouts, cutting oil, sandpaper, small parts (pins, roll pins, small springs, etc.), and steel.

GSS 112B - Introduction to Knifemaking 1.0 unit

4 hours lecture/46 hours lab (1 week)
A course of instruction in the design, fabrication, and finishing of common sheath knives and accessories.

GSS 114 - Basic Rifle Barreling 1.0 unit

4 hours lecture/46 hours lab (1 week)
This course is designed to help the beginner or the pro in the use of machine shop equipment to barrel action rifle receivers. This course requires an additional fee of \$19 to cover the costs of course handouts, cutting oil, sandpaper, small parts (pins, roll pins, small springs, etc.), and steel.

GSS 116 - Stockmaking - Phase I 1.0 unit

4 hours lecture/46 hours lab (1 week)
This course is designed for the beginner or the pro in inletting and fitting accessories to a semi-inlet stock blank.

GSS 117 - Gas Tungsten Arc Welding for Gunsmiths 1.0 unit

50 hours lab (1 week)
This course is designed to develop the manipulative skills, technical knowledge and applications of the gas tungsten arc welding (GTAW) process as they relate to firearm repair. Students will apply the gas tungsten arc welding process (GTAW) to selected metal types, joint designs and gun parts.

GSS 119 - Advanced Rifle Barreling 1.0 unit

4 hours lecture/46 hours lab (1 week)
Providing the student with specific techniques in the manufacture of rifle barrels, in barreling rifles for precision accuracy, and barreling of less common action types. This course requires an additional fee of \$19 to cover the costs of sandpaper (course, medium, fine, very fine, grits), emery cloth (course, medium, fine and very fine grits), sanding belts,

polishing wheels and polishing compound, welding rod (STAW), cutting oil, bluing salts, cleaning chemicals, degreaser.

GSS 120 - Stockmaking-Phase II **1.0 unit**

4 hours lecture/46 hours lab (1 week)
An introductory course designed to help the beginner or the pro in the shaping and finishing of a semi-inlet stock blank.

GSS 120B - Stock Refinish and Repair/Recoil Pad Installation **1.0 unit**

4 hours lecture/46 hours lab (1 week)
A course of instruction in restoration of gunstocks involving refinishing and repairing. Installation of rubber recoil pads will be covered as well.

GSS 123 - Basic Hard Metal Engraving **1.0 unit**

8 hours lecture/92 hours lab (2 weeks)
An introductory course designed to provide the students with basic skills of firearms engraving. Instruction includes tools and equipment and their use, pattern design, design transfer, cutting, stippling and other basic engraving skills and techniques. This course requires an additional fee of \$19 to cover the costs of course handouts and practice plates.

GSS 124 - Welding Fabrication for Gunsmiths **1.0 unit**

50 hours lab (1 week)
Students will select and fabricate gunsmith related projects using appropriate welding processes and techniques. Students will also have an opportunity to learn or improve welding skills related to the gunsmith vocation.

GSS 127 - Advanced Engraving **2.0 units**

8 hours lecture/92 hours lab (2 weeks)
An advanced course designed to cover advanced metal engraving techniques applicable to major portions of the firearm. The scope of instruction includes advanced design and layout, high relief engraving, compatible background style, straight line or border inlays, inlaid game scenes.

GSS 129A - Design, Function and Repair-Spring Piston Air Guns **1.0 unit**

4 hours lecture/46 hours lab (1 week)
Present an overview of airgun power plants focusing on the spring piston air guns. Cover the initial inspection, special tools, disassembly, preparation of the compression cylinder for installation of new parts, install new parts, reassembly

and subsequent testing. Limited tuning and improving the operation will be addressed. Also proper lubrication and maintenance will be covered. The special tools used for disassembly and assembly will be introduced. This course requires an additional fee of \$19 to cover the costs of course handouts, cutting oil, glue, sandpaper, small parts (pins, roll pins, small springs, etc.), steel, welding rod and gases.

GSS 129B - Design, Function and Repair-Pneumatic Air Guns **1.0 unit**

4 hours lecture/46 hours lab (1 week)
Present an overview of airgun power plants focusing on the multi-pump and single stroke type sporting guns. Cover the initial inspection, special tools, disassembly, preparation of the compression cylinder and valve chamber for installation of new parts, install new parts, reassembly and subsequent testing. Limited tuning and improving the operation will be addressed. Also proper lubrication and maintenance will be covered. The special tools used for disassembly and assembly will be introduced. This course requires an additional fee of \$19 to cover the costs of course handouts, cutting oil, glue, sandpaper, small parts (pins, roll pins, small springs, etc.), steel, welding rod and gases.

GSS 129C - Design, Function and Repair-CO₂ Air Guns **1.0 unit**

4 hours lecture/46 hours lab (1 week)
Present an overview of airgun power plants focusing on the CO₂ air guns. Cover the initial inspection, special tools, disassembly, preparation of the air cylinder and valve chamber for installation of new parts, install new parts, reassembly and subsequent testing. Limited tuning and improving the operation will be addressed. Also proper lubrication and maintenance will be covered. The special tools used for disassembly and assembly will be introduced. This course requires an additional fee of \$19 to cover the costs of course handouts, cutting oil, glue, sandpaper, small parts (pins, roll pins, small springs, etc.), steel, welding rod and gases.

GSS 130 - Professional Engraving **1.0 unit**

4 hours lecture/46 hours lab (1 week)
An advanced course designed to cover the techniques of engraving as used by different masters in the art of firearms engraving.

GSS 133 – Scrimshaw **1.0 unit**

4 hours lecture/46 hours lab (1 week)

An introductory course designed to provide the students with the basic skills of the art of scrimshaw. Instruction includes tools and equipment and their use, pattern design, design transfer. This course requires an additional fee of \$19 to cover the costs of sandpaper (course, medium, fine, very fine, grits), emery cloth (course, medium, fine and very fine grits), sanding belts, polishing wheels and polishing compound, wood block for practice blocks, bone or facsimile bone for practice blocks, horn for practice blocks.

GSS 134 - Caustic Bluing **1.0 unit**

4 hours lecture/44 hours lab (1 week)
A course designed to introduce the student to bluing, commercial black oxide finish on firearms. Preparation of surface finish, care and use of chemicals. Understanding chemical process and control, professional technique and equipment. This course requires an additional fee of \$19 to cover the costs of course handouts, bluing salts, oil, and sandpaper.

GSS 135 - Parkerizing **1.0 unit**

4 hours lecture/46 hours lab (1 week)
A course designed to introduce the student to parkerizing, to produce a phosphate nonrusting finish on firearms. Surface preparation, mixing of chemicals, operations, techniques and controls. This course requires an additional fee of \$19 to cover the costs of sandpaper (course, medium, fine, very fine, grits), emery cloth (course, medium, fine and very fine grits), sanding belts, polishing wheels and polishing compound, chemicals for Parkerizing process, degreaser, cleaning chemicals.

GSS 136 - Cold Rust and Niter Bluing **1.0 unit**

4 hours lecture/46 hours lab (1 week)
A course designed to introduce the student to rust bluing finish on firearms. Surface preparation and use of chemicals and other appropriate equipment. Understanding control of equipment, chemicals and operating procedures. This course requires an additional fee of \$19 to cover the costs of sandpaper (course, medium, fine, very fine grits), emery cloth (course, medium, fine and very fine grits), sanding belts, polishing wheels and polishing compound, degreaser, cleaning chemicals, chemicals for Cold Rust process, chemicals for Niter Bluing process.

GSS 143 - Custom Gunmaking-Muzzleloader Kit Guns **1.0 unit**

4 hours lecture/46 hours lab (1 week)
The student will completely assemble a muzzleloading firearm during class. Working with hand tools in a small shop will be featured.

GSS 147 - Assembly and Tuning of Gas Operated LEAS Repeating Rifles

1.0 unit

6 hours lecture/34 hours lab (1 week)
An advanced course that will cover the assembly and tuning of AR-15.

GSS 148 - Advanced Correctional Armorer School

1.0 unit

6 hours lecture/34 hours lab (1 week)
An advanced level course designed to train correctional armorers to maintain the departments' specialized firearms to factory service levels.

HEALTH

HLTH 2 - Personal Health

3.0 units

CSU/UC

General Education Area E1

CSU GE Area E

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

A study of personal and community health today, emphasizing behavioral and sociological aspects of health, nutrition, weight control, diseases, drugs and narcotics, family life and environmental health. This course has been approved for online, hybrid and correspondence delivery.

HLTH 25 - Understanding Nutrition

3.0 units

CSU/UC

General Education Area E1

CSU GE Area E

C-ID NUTR 110

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

Scientific concepts of nutrition related to the function of nutrients in basic life processes and current health issues with emphasis on individual needs. Analyze your diet, construct a nutritional diet, interpret eating disorders, plan adequate diets for children, infants, pregnancy, athletes, adults and the elderly. Evaluate food additives. Appraise world hunger problems. This course has been approved for online and correspondence delivery.

HEALTH OCCUPATIONS

HO 3 - Medical Terminology

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course covers basic medical terminology and the vocabulary of medical specialties. Special emphasis is on the use of prefixes and suffixes, and non-technical explanations of medical terms and descriptions of anatomy, physiology, and pathology. Students learn to utilize medical terminology as it applies to the structure of the human body, common laboratory tests, radiological and operative procedures, as well as basic pharmacology. This course has been approved for online and hybrid delivery.

HO 49 - Health Occupations Work Experience

1.0-8.0 units

CSU

General Education Area E1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

600 hours lab (R)

This work based learning course is designed to assist students with educational or career goals in health occupations, who are working in the field of health, to build related job specific skills through individualized learning objectives and enhance their workplace performance. All Work Experience enrollments require attendance of a face-to-face orientation session. Instruction is also provided through online course modules and emails throughout course term, work based learning with a participating supervisor, and meetings in office or at student worksite. Instruction focuses on goal setting to develop job specific skills, enhancement of soft skills in the workplace, and career development. Subsequent enrollments require new individualized learning objectives, and completion of new course module assignments. Units are awarded based upon achievement of approved learning objectives, workplace performance, submission of course assignments, and documentation of work hours. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Career Technical Education, Occupational and General Work Experience enrollments. Title V

specifies students will earn 1 unit of credit for each 75 hours of paid work, and 1 unit of credit for each 60 hours volunteer work. This course has been approved for Hybrid delivery

HO 70 - Medical Assisting Core 7.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

125 Hours lecture

This course is designed to provide entry level skills training required for the profession of medical assisting. The course covers core components required for advancement in both the administration and clinical medical assisting certificate program. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to advance to the next course in the series. Uniform and lab fee of \$200 will be collected at registration. This course has been approved for hybrid and online delivery.

HO 71 - Medical Assisting Administrative 6.5 units

Prerequisites: HO 70 Medical Assisting Core

Recommended Preparation: ENGL105 and Elementary Algebra or equivalent multiple measures placement.

85 hours lecture/76.5 hours lab

This course is designed to provide entry level information and skill training required for the profession of Administrative Medical Assisting. This course covers components required to become eligible for examination by the California Certifying Board of Medical Assistants for California Certified Medical Assistant Basic and Administrative Specialty. Course content will include course work in medical office reception, records, finance, insurance billing, and office management. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to advance to the next course in the series. . This course requires a 40 hour externship at a clinical facility, all clinical compliance requirements in HO 70 must be met prior to enrolment. This course has been approved for hybrid and online delivery.

HO 72 - Medical Assisting Clinical 7.5 units

Prerequisites: HO 70 Medical Assisting Core

Recommended Preparation: ENGL105 and Elementary Algebra or equivalent multiple measures placement.

93.5 hours lecture/102 hours lab

This course is designed to provide entry

This course is designed to provide entry level information and skill training

required for the profession of Clinical Medical Assisting. This course covers components required to become eligible for examination by the California Certifying Board of Medical Assistants for California Certified Medical Assistant Basic and Clinical Specialty.

Course content will include course work in medical office exam room procedures, specialty procedures, pharmacology, minor office surgery, laboratory procedures, nutrition and patient education. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to advance to the next course in the series. . This course requires a 40 hour externship at a clinical facility, all clinical compliance requirements in HO 70 must be met prior to enrollment. This course has been approved for hybrid and online delivery

HO 80A -Geriatric (Long-Term Care) Nurse Assistant

6.0 units

Prerequisite: After enrolling in CNA program: Verify that he or she does not have a criminal record and can work in a healthcare setting, provide documentation of recent tuberculosis testing and vaccinations or titers and medical clearance required for entry in to a clinical setting.

Recommended Preparation: ENGL105 or equivalent multiple measures placement and HO 3 Medical Terminology

72 hours lecture/112 hours lab

This course will provide specific knowledge and clinical skills training required for Nurse Assistants. Geriatric and Long-Term Care are emphasized.

Areas covered will include role responsibilities, communications, infection control, safety and emergency procedures, personal care and the patient environment, nutrition and feeding, elimination needs, vital signs, charting and reporting, modified care for special needs, and restorative nursing. Students must complete all course hours and must

achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to take the California Nursing Assistant certification exam. This course requires a clinical rotation, all clinical compliance requirements must be met prior to enrolment. Uniform and lab fee of \$100 will be collected at registration. This course has been approved for hybrid and online delivery.

HO 88 – Phlebotomy Technician 3.5 units

Prerequisites: HO 3 Medical Terminology

Before beginning clinical rotation the student must:

- Show proof of vaccinations: HEP B series, MMR and varicella.
- Proof of negative tuberculosis test.
- Drug testing. This will be scheduled for you.
- High school diploma or GED.
- Background check

42.5 hours lecture/51 hours lab

This course prepares students to be able to perform venipunctures, capillary punctures, and basic laboratory tests expected of entry-level phlebotomy positions in hospitals and other health care settings consistent with health care regulations in California. With successful completion of this course, including 50 successful venipunctures and 10 successful skin punctures, the student will be eligible to sit for the exam to become a Certified Phlebotomist Technician with the State of California. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to take the California Phlebotomy Technician certification exam. This course requires a clinical rotation, all clinical compliance requirements must be met prior to enrolment. Uniform and lab fee of \$100 will be collected at registration. This course has been approved for hybrid and online delivery.

HO 120 - Cardiopulmonary Resuscitation (CPR)

0.5 units

8.5 hours lecture (1 Week)

This course is designed to teach Cardiopulmonary Resuscitation (CPR) methods and update those methods according to the most current standards. This course is certified by the American Red Cross. This course may be taken as needed for legal mandated training or certification.

HISTORY

HIST 14 - World History, Beginning to 1500

3.0 units

CSU/UC

General Education Area B & C

CSU GE Area C2 & D6

IGETC 3B & 4F

C-ID HIST 150

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

A study of the major civilizations of the world from the beginning of civilization to 1500. Covers the classical and medieval traditions of the West and the major non-western cultures of the world. This course meets a requirement for the California Elementary School Teaching Credential. This course has been approved for hybrid, online and correspondence delivery.

HIST 15 - World History, 1500 to Present

3.0 units

CSU/UC

General Education Area B & C

CSU GE Area C2 & D6

IGETC Area 3B & 4F

C-ID HIST 160

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

A study of the major civilizations of the world from 1500 to the present. Stresses the dynamism and expansion of the West, the cross-cultural interaction in the modern era and the resurgence of non-western independence into the 20th century. This course meets a requirement for the California Elementary School Teaching Credential. This course has been approved for hybrid, online and correspondence delivery.

HIST 16 - U.S. History

3.0 units

CSU/UC

General Education Area B

CSU GE Area C2 & D6

IGETC Area 3B & 4F

C-ID HIST 130

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

Traces the transition of the U.S. into a nation, stressing the development of political and economic institutions, social movements, the challenge of sectionalism and geography. This course has been

approved for hybrid, online and correspondence delivery.

HIST 17 - Post-Civil War - U.S.

History

3.0 units

CSU/UC

General Education Area B

CSU GE Area C2 & D6

IGETC Area 3B & 4F

C-ID HIST 140

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

A course tracing the development of the U.S. into a world power, stressing growth in territory, population, industry and world influence from reconstruction to the present. Also traces the continuing development of the political institution brought about by industrialization and becoming a world power. This course has been approved for hybrid, online and correspondence delivery.

HUMAN SERVICES

HUS 10 - Introduction to Social Work and Human Services

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

Survey of human services and social work, an exploration of helping skills as applied to human problems such as poverty, parenting, education, substance abuse, illness and mental health. This course has been approved for online, hybrid and correspondence delivery.

HUS 30 - Pharmacology of Drugs of Abuse

3.0 units

CSU/UC

General Education Area E1

CSU GE Area E

Recommended Preparation: ENGL105 or equivalent multiple measures placement and HUS 32 Understanding Addiction

51 hours lecture

Focus on the neurological, physiological, and psychological effects of the psychoactive substances: ethanol, marijuana, cocaine, heroin, amphetamines, PCP, LSD, and synthetic drugs such as Ecstasy (MDMA), China White (fentanyl), and Spice (cannabinoid). In addition, other non-substance addictions will be explored, i.e. gambling, food, and sexual addictions. Drug testing

and the new National Institute of Drug Abuse guidelines will be discussed. This course has been approved for correspondence, hybrid and online delivery

HUS 42 - Field Experience in Human Services

3.0 unit

CSU

Prerequisite: HUS 10 Introduction to Social Work and Human Services

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hour lecture/102 hours field

experience

This course offers the student a supervised field experience in a community organization, agency, or institution, allowing the student to apply knowledge and learn new skills outside of the classroom environment. Between 96-108 hours of field experience are required. A weekly class meeting provides the academic element to this experiential course offering and reinforces the application of concepts gained in the prerequisite course. This course is designed to provide the student with an opportunity to develop skills that would facilitate gaining employment in the human services field. This course has been approved for hybrid delivery.

HUS 49 - Human Services Work Experience

1.0-8.0 units

CSU

General Education Area E1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

600 hours lab (R)

This work based learning course is designed to assist students with educational or career goals in human services, who are working in the field of human services, to build related job specific skills through individualized learning objectives and enhance their workplace performance. All Work Experience enrollments require attendance of a face-to-face orientation session. Instruction is also provided through online course modules and emails throughout course term, work based learning with a participating supervisor, and meetings in office or at student worksite. Instruction focuses on goal setting to develop job specific skills, enhancement of soft skills in the

workplace, and career development. Subsequent enrollments require new individualized learning objectives, and completion of new course module assignments. Units are awarded based upon achievement of approved learning objectives, workplace performance, submission of course assignments, and documentation of work hours. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Career Technical Education, Occupational and General Work Experience enrollments. Title V specifies students will earn 1 unit of credit for each 75 hours of paid work, and 1 unit of credit for each 60 hours volunteer work. This course has been approved for Hybrid delivery

HUMANITIES

HUM 1 - Western Civilization: Prehistoric to 1600

3.0 units

CSU/UC

General Education Area C

CSU GE Area C2

IGETC Area 3B

C-ID HIST 170

Recommended Preparation: English 1 or equivalent multiple measures placement

51 hours lecture

Survey of the development of western culture and civilization to the Reformation. This course has been approved for, correspondence, and on-line delivery

HUM 2 - Western Civilization: 1600 to Present 3.0 units

CSU/UC

General Education Area C

CSU GE Area C2

IGETC Area 3B

C-ID HIST 180

Recommended Preparation: English 1 or equivalent multiple measures placement.

51 hours lecture

The development of Western civilization from 1600 to present, with emphasis on the inter-relations between historical occurrences and the world view revealed in philosophy, literature, music, painting, and architecture and how the respective world views evolved into our present views. This course has been approved for online and correspondence delivery.

INDUSTRIAL TECHNOLOGY

IT 22 - Operations, Maintenance and Safety

1.0 unit

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hour lecture

This course integrates personnel safety, equipment protection and safety tagging procedures with operational and maintenance events expected in a power generation, process or geothermal plant. Specific topics include material and safety data sheets (MSDS), hazardous materials (HAZ/MAT), chemical alert placards and confined space procedures. This course has been approved for online delivery.

IT 72 - Facilities Maintenance – Welding 2

2.0 units

102 hours lab

This course is designed to prepare students with basic, through increasingly advanced, skills covering aspects of maintenance and repair procedures utilizing: soldering, brazing, welding, and joining of PVC. Field work will include fabrication, as well as maintenance and repair of equipment and facilities utilizing a portable shop.

INTERDISCIPLINARY STUDIES

IDS 1 Introduction to Sign Language

4.0 units

CSU only

Recommended Preparation: English 105 or equivalent multiple measures placement.

An introductory course designed to teach students basic skills in American Sign Language vocabulary, finger spelling, culture, and grammatical structures. The student will gain the manual skills to engage in basic dialog, visual cues and the receptive skills to understand general ASL conversation. IDS 1 is equivalent to two years of high school ASL.

IDS 2 Intermediate to Sign Language

4.1 units

CSU only

Prerequisite: IDS 1 with a C or better or equivalent

This course is a continuation of Introduction to American Sign Language, designed for the student desiring to increase vocabulary and fluency in performing and receiving American Sign Language Information. Emphasis is on the structure to American Sign Language including lexical, morphemic and syntactical elements. The student will learn the intermediate skills to engage in descriptive, complex dialog and stories at a moderate skill level. Topics include American Sign Language contrast and comparisons to other languages, language development and acquisition and societal and legal issues.

MATHEMATICS

MATH 1A - Analytic Geometry and Calculus I

5.0 units

CSU/UC

General Education Area D2

CSU GE Area B4

IGETC Area 2A

C-ID MATH 211

Prerequisites: Completion of Pre-calculus or MATH 7 Trigonometry and MATH 8 Advanced Algebra with a grade of 'C' or better or equivalent multiple measures placement.

85 hours lecture

A first course in differential and integral calculus of a single variable: functions; limits and continuity; techniques and applications of differentiation and integration; Fundamental Theorem of Calculus. Primarily for science, technology, engineering & math majors. This course has been approved to be web-enhanced and online delivery. Access to a computer with internet access is required.

MATH 1B - Analytic Geometry and Calculus II

5.0 units

CSU/UC

General Education Area D2

CSU GE Area B4

IGETC Area 2A

C-ID MATH 221

Prerequisite: MATH 1A Analytic Geometry and Calculus I or equivalent multiple measures placement.

85 hours lecture

Continuation of Math 1A. A second course in differential and integral calculus of a single variable: integration,

techniques of integration; infinite sequences and series, polar and parametric equations; applications of integration. Primarily for science, technology, engineering & math majors. This course has been approved to be web-enhanced and online delivery. Access to a computer with internet access is required.

MATH 7 - Trigonometry

3.0 units

CSU

General Education Area D2

CSU GE Area B4

Prerequisite: MATH 60 Intermediate Algebra or equivalent multiple measures placement.

Co-requisite: MATH 167 Trigonometry Lab

51 hours lecture

A study of the numerical, graphical, and analytical properties of trigonometric functions, oblique triangles, inverse functions, and applications. This course has been approved for online delivery. This course uses a free Open Educational Resource textbook.

MATH 8 - Advanced Algebra

3.0 units

General Education Area D2

CSU/UC

CSU GE Area B4

IGETC Area 2A

Prerequisite: MATH 60 Intermediate Algebra or equivalent multiple measures placement.

Co-requisite: MATH 168 College Algebra Lab

51 hours lecture

This course solidifies the basic foundation needed by students planning to study the analytic geometry and calculus sequence. Topics include: general theory of equations, polynomial and rational inequalities, conic sections, exponents and logarithms; an introduction to sequences, series, matrices and their applications. This course is recommended for math, science, engineering and business students. This course has been approved for online and hybrid delivery.

MATH 11A Concepts of Elementary School Mathematics I

3.0 units

CSU/UC

General Education Area: D2

CSU GE Area: B4

C-ID MATH 120

Prerequisite: MATH 60 Intermediate Algebra or equivalent multiple measures placement.

A course focusing on the development of quantitative reasoning skills through in-depth, integrated exploration of topics in

mathematics, including real number systems and subsystems. Emphasis is one comprehension and analysis of mathematical concepts and applications of logical reasoning. One of two courses designed especially for students preparing for credentials in elementary education. This course has been approved for online delivery. Access to a computer with internet access is required.

MATH 11B Concepts of Elementary School Mathematics II

3.0 units

CSU/UC

General Education Area: D2

CSU GE Area: B4

C-ID MATH 120

Prerequisite: MATH 60 Intermediate Algebra or equivalent multiple measures placement.

A course covering the study of the real numbers, measurement, logic and mathematical reasoning, introduction to probability and statistics and some concepts of algebra, non-metric and metric geometry. One of two courses designed especially for students preparing for credentials in elementary education. This course has been approved for online delivery. Access to a computer with internet access is required.

MATH 40 - Elementary Statistics

3.0 units

CSU/UC

General Education Area D2

CSU GE Area B4

IGETC Area 2A

C-ID MATH 110

Prerequisite: MATH 60 Intermediate Algebra or equivalent multiple measures placement.

Co-requisite: MATH 164 Elementary Statistics Lab

51 hours lecture

The use of probability techniques, hypothesis testing, and predictive techniques to facilitate decision-making. Topics include descriptive statistics; probability and sampling distributions; statistical inference; correlation and linear regression; analysis of variance; chi-square and t-tests; and application of technology for statistical analysis including the interpretation of the relevance of the statistical findings. Applications using data from disciplines including business, social sciences, psychology, life science, health science, and education. This course has been approved for online, hybrid and correspondence delivery.

MATH 60 - Intermediate Algebra

4.0 units

General Education Area D2

51 hours lecture/51 hours lab

This course is a continuation of Beginning Algebra and is designed to develop the algebra skills necessary for college level math courses. Topics include: linear, quadratic, inverse, exponential, and logarithmic functions; real and complex solutions of quadratic equations; systems of equations and inequalities, sequences and the Binomial Theorem. This course satisfies the Mathematics competency requirement and AREA D2 (Language and Rationality) requirement for the AA/AS degree. This course has been approved for online, and correspondence delivery. This course has been approved to be web-enhanced. Access to a computer with internet access is required. This course has been approved for online and correspondence delivery.

MUSIC

MUS 6 - Music History from Antiquity to 1750

3.0 units

CSU/UC

General Education Area C

CSU GE Area C1

IGETC Area 3A

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

An introductory survey course in Western music history that covers music, the beginning of opera, composers, styles, genres and periods from antiquity to the end of the Baroque era. This course has been approved for online, hybrid and correspondence delivery.

MUS 7 - Music History from 1750 to Modern Era

3.0 units

CSU/UC

General Education Area C

CSU GE Area C1

IGETC Area 3A

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

An introductory survey course in Western music history that covers music, composers, styles, genres and periods from early Rococo to the modern music era. This course has been approved for online, hybrid and correspondence delivery.

MUS 12 - Music Appreciation

3.0 units

CSU/UC

General Education Area C

CSU GE Area C1

IGETC Area 3A

C-ID MUS 100

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

A survey course that covers the elements of music (melody, harmony, rhythm and form), instruments, voices, program and dramatic music, vocal and instrumental music, sacred and secular music, folk, popular, jazz, music of other cultures and historical music from primitive times to the present. Emphasis is placed on listening to music and attending performances.

This course has been approved for online, hybrid and correspondence delivery.

NURSING

Licensed Vocational Nursing

Acceptance into the Vocational Nursing Program is required before enrollment in nursing courses

VN 50 - Pharmacology

4.0 units

Corequisite: VN 51; VN 52

68 hours lecture

Introduction to the principles of pharmacology, medication administration, and computation of medication dosage. Includes the study of major drug categories. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. This course has been approved for hybrid delivery and online delivery for emergency use only. If course is provided hybrid or online, per the board of nursing students must be displayed on camera throughout entire course.

VN 51 - Nursing Fundamentals

4.0 units

Prerequisites: BIOL 25 & 26, ENGL 1, HLTH 25, HO 3, HO 120 or AHA CPR, MATH 60, PSY 1, PSY 18.

Corequisites: VN 50; VN 52

68 hours lecture

Introduction to nursing fundamentals and the healthcare profession. Topics will include history of nursing, nursing

concepts, legal and ethical issues, nursing process, basic patient needs and the nursing care required for alterations in basic needs. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. Uniform and lab fee of \$300 will be collected at registration. This course has been approved for hybrid delivery and online delivery for emergency use only. If course is provided hybrid or online, per the board of nursing students must be displayed on camera throughout entire course.

VN 52 - Clinical Lab I

7.0 units

Corequisite: VN 50; VN 51

357 hours lab

Application of basic nursing skills in a laboratory setting and experience in giving supervised nursing care to selected patients in health care facilities. Total clinical hours are 357. Clinical hours may vary from week to week. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. This course has been approved for hybrid delivery and online delivery for emergency use only. If course is provided hybrid or online, per the board of nursing students must be displayed on camera throughout entire course.

VN 53 - Adult Nursing Theory

7.0 units

Prerequisite: VN 50; VN51; VN 52

Corequisite: VN 54

119 hours lecture

Presents disease conditions in a systems based format with emphasis on pathophysiology, etiology, treatment, and nursing concerns with focus on nursing care and the nursing process. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. This course has been approved for hybrid delivery and online delivery for emergency use only. If course is provided hybrid or online, per the board of nursing students must be displayed on camera throughout entire course.

VN 54 - Clinical Lab II

6.0 units

Prerequisite: VN 50; VN 51, VN 52

Corequisite: VN 53

306 hours lab

Application of various nursing skills in a clinical setting and experience in giving supervised nursing care, with increasing levels of independence, to selected patients in health care facilities. Total clinical hours are 306. Clinical hours may vary from week to week. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. This course has been approved for hybrid delivery and online delivery for emergency use only. If course is provided hybrid or online, per the board of nursing students must be displayed on camera throughout entire course.

VN 55 – Nursing Leadership and Professional Development

2.0 units

Prerequisite: VN 51; VN 52; VN 53;

VN 54; VN 55

Corequisite: VN 56; VN 57; VN 58;

VN 60

34 hours lecture

Instruction on the transition from student to Licensed Vocational Nurse including leadership and professional development. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. This course has been approved for hybrid delivery and online delivery for emergency use only. If course is provided hybrid or online, per the board of nursing students must be displayed on camera throughout entire course.

VN 56 - Clinical Lab III

6.0 units

Prerequisite: VN 51; VN 52; VN 53;

VN 54

Corequisite: VN 55; VN 57; VN 58;

VN 60

306 hours lab

Application of various nursing skills in a clinical setting and experience in giving supervised nursing care, with increasing levels of independence, to selected patients in health care facilities including maternal and pediatric nursing. Total

clinical hours are

306. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. This course has been approved for hybrid and online delivery. This course has been approved for hybrid delivery and online delivery for emergency use only. If course is provided hybrid or online, per the board of nursing students must be displayed on camera throughout entire course.

VN 57 - Maternity Nursing

2.0 units

Prerequisite: VN 51; VN 52; VN 53;

VN 54

Corequisite: VN 55; VN 56; VN 58;

VN 60

34 hours lecture

Course includes human sexuality, conception, pregnancy, labor, delivery, postpartum and care of the newborn. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. This course has been approved for hybrid delivery and online delivery for emergency use only. If course is provided hybrid or online, per the board of nursing students must be displayed on camera throughout entire course.

VN 58 - Pediatric Nursing

2.0 units

Prerequisite: VN 51; VN 52; VN 53;

VN 54

Corequisite: VN 55; VN 56; VN 57;

VN 60

36 hours lecture

Study of the normal growth and development of the infant through the adolescent as well as common diseases affecting these groups and appropriate nursing care. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. This course has been approved for hybrid and online delivery. This course has been approved for hybrid delivery and online delivery for emergency use only. If course is provided hybrid or online, per the board of nursing

students must be displayed on camera throughout entire course.

VN 59 – Intravenous Therapy and Blood Withdrawal

2.0 units

Prerequisite: Successful completion of all Vocational Nursing courses or current LVN license in the state of California
31 hours lecture/9 hours lab
Designed for the Licensed Vocational Nurse student currently enrolled in the Licensed Vocational Nursing program to prepare for IV and Blood Withdrawal Certification through the Board of Vocational Nursing and Psychiatric Technicians. Students will demonstrate competency to the satisfaction of the BVNPT that they are properly trained and prepared to withdraw blood from a patient and start and superimpose intravenous fluids. Upon successful completion the student will be prepared to withdraw blood and start and superimpose intravenous fluids in an organized healthcare system. The student must complete 30 theory hours and 9 clinical hours and perform a minimum of 3 individually supervised successful venipunctures and 3 individually supervised skin punctures by each student on live human subjects. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. This course has been approved for hybrid delivery and online delivery for emergency use only. If course is provided hybrid or online, per the board of nursing students must be displayed on camera throughout entire course..

VN 60 –NCLEXVN Review

2.0 units

Prerequisite: VN 50; VN 51; VN 52; VN 53, VN 54
Corequisite: VN 55; VN 56, VN57, VN 58
30 hours lecture
Course designed to prepare the Licensed Vocational Nursing student for successful completion of the state board examination for licensure. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. This course has been approved for hybrid delivery and online delivery for emergency use only. If

course is provided hybrid or online, per the board of nursing students must be displayed on camera throughout entire course

PHILOSOPHY

PHIL 1 - Introduction to Philosophy

3.0 units

CSU/UC

General Education Area C

CSU GE Area C2

IGETC Area 3B

Recommended Preparation: ENGL 1 or equivalent multiple measures placement
51 hours lecture

An introduction to the writings of the most noted philosophers of the Western world along with an examination of some of the main problems in philosophy, such as the nature of knowledge, ethics, philosophy of science, free will vs. determinism and the mind-body problem. This course has been approved for online delivery.

PHIL 10 - Comparative World Religions

3.0 units

CSU/UC

General Education Area C

CSU GE Area C2

IGETC Area 3B

Recommended Preparation: ENGL 1 or equivalent multiple measures placement
51 hours lecture

This course introduces the learner to the profound ideas and practices of religions around the world - America, Africa, India, China and Japan. The history and 'world view' of each religion is examined, with readings from various religious texts. This course has been approved for online and correspondence delivery.

PHYSICAL EDUCATION

PE 15 - Introduction to Kinesiology

3.0 units

CSU/UC

CSU Area E2

General Education Area E2

C-ID KIN 100

Recommended Preparation: ENGL105 or equivalent multiple measures placement.
51 hours lecture

This course will introduce students to the interdisciplinary approach to the study of human movement. Topics include employment fields, leadership, theory, history, and principles of sport, physical education and sub-disciplines in kinesiology. This course has been approved for online and hybrid delivery.

PHYSICAL EDUCATION ACTIVITIES COURSES

PEAC 2A - Men's Varsity Soccer

3.0 units

CSU/UC (Unit limitation)

General Education Area E2

170 hours lab (R)

Intercollegiate varsity soccer competition. Since skills/proficiencies are enhanced by supervised repetition and practice, This course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 2B – Pre-Season Skills and Conditioning for Soccer

0.5 units

CSU/UC (Unit limitation)

General Education Area E2

25.5 hours lab

Pre-season skill development and strategy tactics combined with fitness conditioning to prepare interested participants for intercollegiate varsity soccer competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 2C - Women's Varsity Soccer

3.0 units

CSU/UC (Unit limitation)

General Education Area E2

170 hours lab (R)

Intercollegiate varsity soccer competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 2D – Off-Season Skills and Conditioning for Soccer

1.5 units

CSU/UC (Unit limitation)

General Education Area E2

76 hours lab

Off-season skill development and strategy tactics combined with fitness conditioning to prepare interested participants for intercollegiate varsity soccer competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 5A - Men's Varsity Basketball-Fall

2.0 units

CSU/UC (Unit limitation)

General Education Area E2

110 hours lab (R)
Fall semester intercollegiate mens varsity basketball competition (1st half of season). Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year. This course has been approved for hybrid delivery.

PEAC 5A.02 - Men's Varsity Basketball-Spring

1.0 units

CSU/UC (Unit limitation)
General Education Area E2

60 hours lab (R)
Spring semester intercollegiate mens varsity basketball competition (second half of season). Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year. This course has been approved for hybrid delivery

PEAC 5B – Pre-Season Skills and Conditioning for Basketball

1.5 units

CSU/UC (Unit limitation)
General Education Area E2

76 hours lab
Pre-season skill development and strategy tactics combined with fitness conditioning to prepare interested participants for intercollegiate varsity basketball competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year. This course has been approved for online and hybrid delivery

PEAC 5C - Women's Varsity Basketball-Fall

2.0 units

CSU/UC (Unit limitation)
General Education Area E2

110 hours lab (R)
Fall semester intercollegiate Women's Varsity Basketball competition (first half of season). Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year. This course has been approved for online and hybrid delivery

PEAC 5C.02 - Women's Varsity Basketball-Spring

1.0 units

CSU/UC (Unit limitation)
General Education Area E2

60 hours lab (R)
Spring semester intercollegiate womens varsity basketball competition (second half of season). Since skills/proficiencies are enhanced by supervised repetition

and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 5D – Off-Season Skills and Conditioning for Basketball

1.0 units

CSU/UC (Unit limitation)
General Education Area E2

51 hours lab
Off-season skill development and strategy tactics combined with fitness conditioning to prepare interested participants for intercollegiate varsity basketball competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year. This course has been approved for hybrid delivery

PEAC 6 - Varsity Wrestling

3.0 units

CSU/UC (Unit limitation)
General Education Area E2

170 hours lab (R)
Intercollegiate Varsity Wrestling Competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 6B – Pre-Season Skills and Conditioning for Wrestling

0.5 units

CSU/UC (Unit limitation)
General Education Area E2

25.5 hours lab
Pre-season skill development and strategy tactics combined with fitness conditioning to prepare interested participants for intercollegiate varsity wrestling competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 6D – Off-Season Skills and Conditioning for Wrestling

1.5 units

CSU/UC (Unit limitation)
General Education Area E2

76 hours lab
Off-season skill development and strategy tactics combined with fitness conditioning to prepare interested participants for intercollegiate varsity wrestling competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year

PEAC 7 - Varsity Baseball

3.0 units

CSU/UC (Unit limitation)

General Education Area E2

170 hours lab (R)
Intercollegiate Varsity Baseball Team Competition. This course may be taken for a total of two enrollments. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year. This course has been approved for hybrid delivery

PEAC 7D – Off-Season Skills and Conditioning for Baseball

3.0 units

CSU/UC (Unit limitation)
General Education Area E2

175 hours lab
Off-season skill development and strategy tactics combined with fitness conditioning to prepare interested participants for intercollegiate varsity baseball competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year. This course has been approved for hybrid delivery

PEAC 9 - Women's Varsity Volleyball

3.0 units

CSU/UC (Unit limitation)
General Education Area E2

170 hours lab (R)
Intercollegiate Women's Varsity Volleyball Competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 9B – Pre-Season Skills and Conditioning for Volleyball

0.5 units

CSU/UC (Unit limitation)
General Education Area E2

25.5 hours lab
Pre-season skill development and strategy tactics combined with fitness conditioning to prepare interested participants for intercollegiate varsity volleyball competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 9D – Off-Season Skills and Conditioning for Volleyball

1.5 units

CSU/UC (Unit limitation)
General Education Area E2

76 hours lab
Off-season skill development and strategy

tactics combined with fitness conditioning to prepare interested participants for intercollegiate women's varsity volleyball competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 10 - Women's Varsity Softball

3.0 units

CSU/UC (Unit limitation)

General Education Area E2

170 hours lab (R)

Intercollegiate Women's Varsity Softball Competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 10D – Off-Season Skills and Conditioning for Softball

3.0 units

CSU/UC (Unit limitation)

General Education Area E2

175 hours lab

Off-season skill development and strategy tactics combined with fitness conditioning to prepare interested participants for intercollegiate women's varsity softball competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 16 – Walking For Fitness

1.0 unit

CSU/UC (Unit limitation)

General Education Area E2

51 hours lab

Students will participate in brisk walking program that will enhance their cardiovascular conditioning and endurance. This course has been approved for online, hybrid and correspondence delivery.

PEAC 32D - Fitness Center

1.0 unit

CSU/UC (Unit limitation)

General Education Area E2

51 hours lab

Instruction in and application of physical fitness principles. Students will engage in a physical conditioning program with an emphasis in body toning, flexibility, weight control, cardiovascular development and muscular strength and endurance using equipment in the fitness center. This course has been approved for online and hybrid delivery.

PEAC 34 - Golf Skills

1.0 unit

CSU/UC (Unit limitation)

General Education Area E2

51 hours lab

Development of sufficient proficiency in golf to recognize and enjoy the game as a lifetime activity; includes U.S.G.A. rules and etiquette and the fundamental mechanics involved in the use of irons and woods. Each student must purchase a 5-play card (45 total holes of golf) from Diamond Mountain Golf Club at the prevailing rate. The registration fee includes an unlimited number of range balls during the scheduled class times. This course has been approved for hybrid delivery for emergency use only.

PEAC 44 – Yoga

1.0 unit

CSU/UC (Unit limitation)

General Education Area E2

51 hours lab

Introduction to basic yoga postures. Study and practice of exercises for self-awareness, breathing, relaxation, visualization and meditation. This course has been approved for online and hybrid delivery.

PHYSICAL SCIENCE

PHSC 1 - General Physical Science

3.0 units

CSU/UC (unit limitation)

General Education Area A

CSU GE Area B1

IGETC Area 5A

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

51 hours lecture

A brief introduction to physics, chemistry, geology, and astronomy. Not intended for science majors. This course has been approved for online delivery.

PHYSICS

PHYS 2A – General College

Physics I

4.0 units

CSU/UC

General Education Area: A

CSU GE Areas B1 & B3

IGETC Area 5A & 5C

C-ID PHYS 105

Prerequisite: Math 7 OR MATH 60

Intermediate Algebra or equivalent

multiple measures placement and

concurrent enrollment in Math 7

Trigonometry

Recommended Preparation: ENG 105

or equivalent multiple measures

placement

51 hours lecture/51 hours lab

This course provides an introduction to the principles and applications of mechanics, using the mathematical tools of algebra and right triangle trigonometry. Topics include vectors, kinematics, Newton's laws, gravity, energy and momentum, mechanics of rigid bodies, heat, fluids and simple harmonic motion. This course has been approved for web-enhanced and online delivery. Access to a computer with internet access is required.

PHYS 2B - General College Physics II

4.0 units

CSU/UC

General Education Area A

CSU GE Areas B1, B3

IGETC Area 5A, 5C

C-ID PHYS 110

Prerequisite: PHYS 2A General Physics I

51 hours lecture/51 hours lab

This course is a continuation of PHYS 2A, covering mechanical waves (including sound), electricity, magnetism, geometric optics, interference and diffraction and elementary modern physics. This course has been approved for web-enhanced and online delivery. Access to a computer with internet access is required.

POLITICAL SCIENCE

PLSC 1 - American Institutions

3.0 units

CSU/UC

General Education Area B

CSU GE Areas D8

IGETC Area 4H

C-ID POLS 110

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

51 hours lecture

Designed to acquaint the individual with the basic principles of American national, state and local governments. Content will include the U.S. Constitution (origin and development), general functions and relationships of the three levels of government, political parties and electoral processes. This course may be used for partial fulfillment of the U.S. History and American Institutions requirement for graduation from four-year colleges. This course has been approved for hybrid, online, and correspondence delivery.

PLSC 11 - Student Leadership

1.0 unit

CSU

51 hours lab

Practical experience in group leadership situations involving parliamentary procedure, organization, goal setting, budgeting, and agenda setting. This course has been approved for hybrid delivery.

PSYCHOLOGY

PSY 1 - Introduction to Psychology

3.0 units

CSU/UC

General Education Areas B & E1

CSU GE Areas D9 & E

IGETC Area 4I

C-ID PSY 110

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

51 hours lecture

Psychology is the scientific study of behavior and mental processes. The content focuses on the exploration of major psychological theories and concepts, methods, and research findings in psychology. Topics include the biological bases of behavior, perception, cognition and consciousness, learning, memory, emotion, motivation, development, personality, social psychology, psychological disorders and therapeutic approaches, and applied psychology. This course has been approved for online, correspondence, and hybrid delivery.

PSY 5 – Intro to Research Methods

3.0 units

CSU/UC

General Education Area B

CSU GE Area D9

IGETC Area 4I

C-ID PSY 200

Prerequisite: PSY 1 Introduction to Psychology and MATH 40 Statistics.

51 hours lecture

This course surveys various psychological research methods with an emphasis on research design, experimental procedures, descriptive methods, instrumentation, and the collection, analysis, interpretation, and reporting of research data. Research design and methodology will be examined through a review of research in a variety of the sub disciplines of psychology. This course has been approved for online, hybrid and correspondence delivery.

PSY 6 – Abnormal Psychology

3.0 units

CSU/UC

General Education Area B

CSU GE Area D9

IGETC Area 4I

C-ID PSY 120

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

51 hours lecture

This course introduces the scientific study of psychopathology and atypical

behaviors, broadly defined. Students investigate abnormal behavior from a variety of perspectives including biological, psychological, and sociocultural approaches. An integrative survey of theory and research in abnormal behavior, and intervention and prevention strategies for psychological disorders are also introduced. This course has been approved for correspondence, online and hybrid delivery.

PSY 18 - Life Span Development

3.0 units CSU/UC

General Education Area E1

CSU GE Area D7 & E

IGETC Area 4 G & 4I

C-ID PSY 180

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

51 hours lecture

This course is designed to provide an overview of the physical, cognitive, social and emotional development from conception through the life-span. The emphasis will be on the practical application of developmental principles. This course has been approved for online and hybrid delivery.

PSY 31 - Child Development: Conception through Adolescence

3.0 units

CSU/UC

Associate Degree Area E1

CSU GE Area D7 & E

IGETC Area 4G & 4I

C-ID CDEV 100

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

51 hours lecture

This course examines the major physical, psychological, and cognitive/language developmental milestones for children, both typical and atypical, from conception through adolescence. Emphasis will be on interactions between the maturational process and environmental factors. Students will be expected to observe children, analyze characteristic of children at different developmental stages and investigate research methodologies. This course has been approved for online, hybrid and correspondence delivery.

PSY 33 - Psychology of Personal and Social Adjustment

3.0 units

CSU

General Education Area E1

CSU GE Area E

C-ID PSY 115

Recommended Preparation: ENGL105

or equivalent multiple measures

placement.

51 hours lecture

This course provides an introduction to theory, research, and practical application relevant to personal fulfillment, human relationships, and social functioning. Topics explored in this course include personality development, interpersonal relationships including intimate relationships, stress and stress management, traditional and changing gender roles, and adjusting to our ever changing modern society. This course has been approved for online, hybrid and correspondence delivery.

SOCIOLOGY

SOC 1 - Introduction to Sociology

3.0 units

CSU/UC

General Education Area B

CSU GE Area D

IGETC Area 4J

C-ID SOCI 110

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

51 hours lecture

Basic concepts of sociology are covered with an emphasis on culture, socialization, social norms, roles, groups, community and ecology, social institutions, social classes, social changes and social policy. This course has been approved for online, hybrid (on-line/traditional), and correspondence delivery. This course uses a free Open Educational Resource textbook

SOC 2 - Social Problems

3.0 units

CSU/UC

General Education Area B

CSU GE Area D

IGETC Area 4J

C-ID SOCI 115

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

51 hours lecture

Investigation and analysis of major social problems in the United States at the present time. This course has been approved for online, correspondence and hybrid delivery.

SOC 3 - Family Relations

3.0 units

CSU/UC

General Education Areas B & E1

CSU GE Area D & E

C-ID SOCI 130

Recommended Preparation: ENGL105

or equivalent multiple measures

placement.

51 hours lecture

Sociological analysis of the family, including historical and recent changes, present nature and the socio-cultural and economic forces shaping these changes. This course has been approved for hybrid, online and correspondence delivery.

SOC 4 - Introduction to Gender

3.0 units

CSU/UC

General Education Area B

CSU GE Area D4

IGETC Area 4D

C-ID SOCI 140

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

Sociological analysis of the social construction of masculinity and femininity historically and cross-culturally. It examines the debates on sex and gender. It analyzes the impact of economic and political change on gender expectations and practices. This course has been approved for hybrid, online and correspondence delivery.

SPANISH

SPAN 1 - First Course in Spanish

4.0 units

CSU/UC

General Education Area C

CSU GE Area C2

IGETC Area 6A

C-ID SPAN 100

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

58 hours lecture/34 hours lab

This introductory course teaches beginning language acquisition in a cultural context through listening, speaking, reading and writing. The students will interact with authentic language in cultural context.

SPAN 2 - Second Course in Spanish

4.0 units

CSU/UC

General Education Area C

CSU GE Area C2

IGETC Area 3B & 6A

Prerequisite: SPAN 1 First Course in Spanish

58 hours lecture/34 hours lab

A continuation of beginning Spanish in the study of the fundamentals of Spanish grammar with practice in pronunciation,

understanding, speaking, reading, and writing. A more in depth presentation of Hispanic culture, geography, and history is included.

SPEECH

SPCH 1 – Public Speaking

3.0 units

CSU/UC

General Education Area D2

CSU GE Area A1

IGETC Area 1C

C-ID COMM 110

Prerequisite: ENGL 1 College

Composition

51 hours lecture

Theory and techniques of public speaking in democratic society. Discovery, development, and criticism of ideas in public discourse through research, reasoning, organization, composition, presentation, and evaluation of various types of speeches including informative and persuasive speeches. This course has been approved for online and hybrid delivery. Students must have regular access to a computer with Internet and be able to navigate an online learning system. This course uses a free Open Educational Resource textbook. The course has also been approved for incarcerated correspondence delivery with speeches recorded in front of a live audience.

TUTORING

TUTR 50 - Fundamentals of Peer Tutoring

0.5 unit

Recommended Preparation: ENGL105

or equivalent multiple measures

placement.

8 hour lecture

This course is designed for peer tutors working in the college tutorial center. This course will focus on the practical skills necessary to function effectively as a peer tutor in the student's chosen areas of study. Students will participate in supervised tutoring in the College's Learning Center.

VOCATIONAL NURSING

See Nursing

WELDING TECHNOLOGY

WT 20 - Power Plant and Field Pipe Welding I

3.0 units

CSU

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

17 hour lecture/102 hours lab (R)

This is the first of a four course sequence to prepare students in power plant and field welding. This course deals with shop safety, oxyacetylene cutting (OAC), air carbon arc cutting (CAC-A), shielded metal arc welding (SMAW) and pipe welding. Pipe coupons will be prepared and welded in the horizontal rolled (1G) position. American Welding Society (AWS) welding qualifications on plate and pipe will be prepared and completed. Repeatable as required for qualification by the American Welding Society (AWS) D1.1 Section 4. Period of Effectiveness. (Instructor Authorization Required for Course Repetition.) This course has been approved for hybrid delivery.

WT 21 - Power Plant and Field Pipe Welding II

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures

placement.

17 hour lecture/102 hours lab (R)

This is the second course of a four course sequence dealing with pipe welding, in the 2G and 5G positions, using the shielded metal arc welding (SMAW) process. Gas tungsten arc welding (GTAW) will be introduced to prepare the student for welding on pipe using the GTAW process. American Welding Society (AWS) welding-qualification will be prepared and completed on one inch plate in the 3G and 4G positions. Repeatable as required for qualification by the AWS D1.1 Section 4 Period of Effectiveness. (Instructor Authorization Required for Course Repetition.) This course has been approved for hybrid delivery.

WT 22 - Power Plant and Field Pipe Welding III

3.0 units

CSU

Recommended Preparation ENGL105

or equivalent multiple measures

placement.

17 hour lecture/102 hours lab (R)

This is a fundamental class dealing with pipe welding in the 6G position using the shielded metal arc welding (SMAW) process. Joint designs will be performed using the gas metal arc welding (GMAW), and the gas tungsten arc welding (GTAW) process in preparation for welding root passes on pipe. Welding symbols are presented and reviewed in order to enable students to interpret welding blueprints. This is the third of a four course sequence to prepare students for power plant and field pipe welding. American Welding Society (AWS)

qualifications in GTAW, GMAW, and flux core arc welding (FCAW) will be prepared and completed. Repeatable as required for qualification by the AWS D1.1 Section 4 Period of Effectiveness. (Instructor Authorization Required for Course Repetition.) This course has been approved for hybrid delivery.

WT 23 - Power Plant and Field Pipe Welding IV

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hour lecture/102 hours lab (R)

This class deals with pipe welding in the 2G (vertical fixed), 5G (horizontal fixed), and 6G (45° fixed) positions using gas tungsten arc welding (GTAW) for the root pass and shielded metal arc welding (SMAW) for the fill and cover passes. American Welding Society (AWS) pipe qualifications will be prepared and completed in the 2G, 5G and 6G positions. Repeatable as required for qualifications by the American Welding Society D1.1 Section 4 Period of Effectiveness. (Instructor Authorization Required for Course Repetition.) This course has been approved for hybrid delivery.

WT 25 – SolidWorks Fundamentals

3.0 units

CSU

34 hour lecture/151 hours lab

This course is the first in a two part series using computer-aided-design (CAD) software. Part of our advanced manufacturing program, this course teaches students how to use SolidWorks and mechanical design automation software to build parametric models of parts and assemblies, and how to make drawings of those parts and assemblies.

WT 31 – GTAW for Gunsmiths

3.0 units

CSU

17 hour lecture/102 hours lab

This course is designed to develop the manipulative skills, technical knowledge and application of the tungsten arc welding (GTAW) process as they relate to firearm repair. The student will be required to provide their own tungsten welding electrodes for this course at a cost of approximately \$30.00. Must be accepted into the gunsmithing program prior to enrollment. This course has been approved for hybrid delivery.

WT 32 – Advanced GTAW for Gunsmiths

3.0 units

CSU

Recommended Preparation: Concurrent enrollment or credit for WT 31 or instructor approved work experience classes.

17 hour lecture/102 hours lab

This course is designed to provide an opportunity for the student to further their understanding in applying the specialized gas tungsten arc welding (GTAW) process to aluminum and stainless steel as it relates to firearm repair. Students will work on the design, function and repair of gunparts and related equipment using the GTAW process. The student will be required to provide their own tungsten welding electrodes for this course at a cost of approximately \$30.00. Must be accepted into the gunsmithing program prior to enrollment. This course has been approved for hybrid delivery.

WT 36 - Welding Theory and Practice – Oxyacetylene

1.0-3.0 units

CSU

153 hours lab (R)

This is an elective welding course where students will apply the oxyacetylene welding (OAW) and oxyacetylene cutting (OAC) processes to selected projects. This course may be taken for a total of three enrollments, not to exceed three units. This course has been approved for open entry/open exit.

WT 37 - Welding Theory and Practice-Shielded Metal Arc Welding

1.0-3.0 units

CSU

153 hours lab (R)

This is an elective welding course where the student will apply the shielded metal arc welding (SMAW) process to selected projects. This course has been approved for open entry/open exit. This course may be taken for three enrollments not to exceed three units, or as required to maintain welding qualifications per American Welding Society (AWS) D1.1 Section 4 Period of Effectiveness. (Instructor Authorization Required for Course Repetition.)

WT 38 - Welding Theory and Practice - Gas Metal Arc Welding

1.0-3.0 units

CSU

153 hours lab (R)

This is an elective welding course where students will apply the gas metal arc

welding (GMAW) process to selected projects. This course has been approved for open entry/open exit. This course may be taken as required for qualification by the American Welding Society D1.1, Section 4.1.3. (Instructor Authorization Required for Course Repetition.)

WT 39 - Welding Theory and Practice - Gas Tungsten Arc Welding

1.0-3.0 units

CSU

153 hours lab (R)

This is an elective welding course where students will apply the gas tungsten arc welding (GTAW) process to selected projects. This course has been approved for open entry/open exit. This course may be taken as required for qualification by the American Welding Society D1.1, Section 4.1.3. (Instructor Authorization Required for Course Repetition.)

WT 42 - Intermediate Shielded Metal Arc Welding

3.0 units

CSU

153 hours lab (R)

This is the second in a three course series of fundamental elective classes dealing with the shielded metal arc welding process (SMAW). Filler rods will be selected and applied to joint designs which meet industrial specifications. Repeatable as required for qualification by the American Welding Society D1.1, Section 4 Period of Effectiveness (Instructor Authorization Required for Course Repetition.)

WT 43 - Advanced Shielded Metal Arc Welding

3.0 units

CSU

153 hours lab (R)

This is the last in a three-course sequence of fundamental elective classes dealing with the shielded metal arc welding (SMAW) process. Specialized filler rods will be selected and applied to joint designs which meet industry standards. Repeatable as required for qualification by the American Welding Society (AWS) D1.1, Section 4 Period of Effectiveness. (Instructor Authorization Required for Course Repetition.)

WT 44 - Gas Metal Arc Welding

3.0 units

CSU

153 hours lab (R)

This course is designed as an elective class to develop the manipulative skills, technical knowledge and application of the gas metal arc welding (GMAW) spray transfer process and flux core arc welding with gas (FCAW-G). The processes will be applied to recognized joint designs on

ferrous materials. GMAW will also be explored in welding nonferrous materials (aluminum). Repeatable as required for qualification by the American Welding Society (AWS) D1.1, Section 4.1.3. (Instructor Authorization Required for Course Repetition.)

WT 45 - Gas Tungsten Arc Welding **3.0 units**

CSU

153 hours lab (R)

This is an elective course designed to develop the manipulative skill, technical knowledge and application of the gas tungsten arc welding (GTAW) process. The process will be applied to selected joint designs on ferrous and nonferrous materials. Repeatable as required for qualification by the American Welding Society D1.1, Section 4.1.3. (Instructor Authorization Required for Course Repetition.)

WT 49 - Welding Technology Work Experience

1.0-8.0 units

CSU

General Education Area E1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

75-600 hours lab (R)

This work based learning course is designed to assist students with educational or career goals in welding technology, who are working in the field of welding technology, to build related job specific skills through individualized learning objectives and enhance their workplace performance. All Work Experience enrollments require attendance of a face-to-face orientation session. Instruction is also provided through online course modules and emails throughout course term, work based learning with a participating supervisor, and meetings in office or at student worksite. Instruction focuses on goal setting to develop job specific skills, enhancement of soft skills in the workplace, and career development. Subsequent enrollments require new individualized learning objectives, and completion of new course module assignments. Units are awarded based upon achievement of approved learning objectives, workplace performance, submission of course assignments, and documentation of work hours. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Career Technical Education, Occupational and General Work Experience enrollments.

Title V specifies students will earn 1 unit of credit for each 75 hours of paid work, and 1 unit of credit for each 60 hours volunteer work. This course has been approved for Hybrid delivery

WT 50 – Welding for Artists (Design and Fabrication)

2.0 unit

Co-requisite: ART-50 Welding for Artists (History of Welded Sculpture)

102 hours lab (R)

Students will become proficient in the use of oxy-acetylene, arc/stick, TIG, and MIG welding techniques in addition to metal cutting tools found in a welding studio. Students will also become knowledgeable with stationary tools common to a welding shop such as: breaks, shears, bench grinders, hand grinders and drills. This class will focus on welding and metal fabrication as a fine art medium.

WT 51- Blueprint and Symbol Reading for Welders

2.0 units

34 hours lecture

This course is an introduction to blueprint and symbol interpretation practices commonly used in the welding and metal fabrication industries. This course will cover drawing types, symbols, views, dimensions and tolerances. This course will further develop the student's range of thinking required to assemble simple components and complex assemblies from welding prints. This course has been approved for online delivery.

WT 52 – Robotic Operations and Programming

3.0 units

17 hours lecture

102 hours lab

This course is the first in a two part series in robotics. The course will provide a student with the skills to safely setup, program, and operate a robot using basic software functions. This course has been approved for hybrid delivery.

WT 53 – Robotic Welding Operations and Programming (Advanced)

3.0 units

Prerequisite: WT 52 and WT 38 or concurrent enrollment in WT 38

17 hours lecture

102 hours lab

This course is the second in a two part series that expands on robotic programming. Emphasis will be on robotic welding and Arc Tool operations and programming. The course will also demonstrate the proper use of fixturing to secure weldments.

WORK EXPERIENCE

WE 1 - General Work Experience

1.0-8.0 units/ CSU

General Education Area E1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

75-600 hours lab (R)

This work based learning course is designed to assist students in developing job specific skills, enhancing soft skills in the workplace, exploring careers, and developing an understanding of how one's current job fits into the context of career development. All Work Experience enrollments require attendance of a face-to-face orientation Instruction is also provided through online course modules and emails throughout course term, work based learning with a participating supervisor, and meetings in office or at student worksite. Instruction focuses on goal setting to develop job specific skills, enhancement of soft skills in the workplace, and career development. Subsequent enrollments require new individualized learning objectives, and completion of new course module assignments. Units are awarded based upon achievement of approved learning objectives, workplace performance, submission of course assignments, and documentation of work hours. Enrollment in this course shall not exceed 6 units per term. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Vocational, Occupational and General Work Experience enrollments. Title V specifies students will earn 1 unit of credit for each 75 hours paid work, and 1 unit of credit for each 60 hours volunteer work. This course has been approved for Hybrid Delivery.

WE 2 - Occupational Work Experience

1.0-8.0 units

CSU

General Education Area E1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

75-600 hours lab (R)

This work based learning course is designed to assist students with educational or career goals related to a transfer major at another institution, who are working in a related position, to build related job specific skills through individualized learning objectives and

enhance their workplace performance. All Work Experience enrollments require attendance of a face-to-face orientation session. Instruction is also provided through online course modules and emails throughout course term, work based learning with a participating supervisor, and meetings in office or at student worksite. Instruction focuses on goal setting to develop job specific skills, enhancement of soft skills in the workplace, and career development. Subsequent enrollments require new individualized learning objectives, and completion of new course module assignments. Units are awarded based upon achievement of approved learning objectives, workplace performance, submission of course assignments, and documentation of work hours. Enrollment in this course shall not exceed six units. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Vocational, Occupational and General Work Experience enrollments. Title V specifies students will earn 1 unit of credit for each 75 hours paid work, and 1 unit of credit for each 60 hours volunteer work. This course has been approved for Hybrid Delivery.

NON-CREDIT COURSES

AUTOMOTIVE

AT 150 Automotive Maintenance **0.0 units**

17 hours lecture 34 hours lab
This course was designed to introduce shop procedure and safety to the student. The students will also acquire skills necessary to perform vehicle maintenance procedures such as change engine oil, transmission fluid, engine coolant and other fluids. Visual inspection of other automotive systems will also be covered. This course is design to provide entry level skills for employment. The course has been approved for Hybrid delivery.

AT 151 Automotive Chassis System **0.0 units**

17 hours lecture 34 hours lab
This course was designed to introduce shop procedure and safety to the student. Students will acquire the skills necessary to perform vehicle brake overhaul procedures and suspension alignment. Visual inspection procedures for brake, steering, and suspension systems will also be covered. This course is design to provide entry level skills for employment. The course has been approved for Hybrid delivery.

BASIC SKILLS

BS 156 - Practical Writing **0.0 unit**

36-50 hours
This course uses practical applications of writing to enable students to develop and improve their basic reading and writing skills in everyday situations and the workplace. Emphasis is placed on effective use of grammar that is clear and relevant in both academic and vocational tasks. While in the classroom they will learn, through lecture and writing exercises, the importance of workplace communication in written and electronic form. They will also be instructed in basic skills writing mechanics and critical thinking skills that will help them become more successful in college, career, and everyday life.

BS 170 Basic Skills: Pre High School Equivalency Preparation I **0.0 units**

68 hours lecture/68 hours lab
This course is designed for students who complete the basic skills pre-test in the five core curricular areas of language arts reading, language arts writing, science, social studies, and math. This course provides review and practice in these areas to provide the necessary basic skills foundation required in preparing for the high school equivalency test. Instruction is provided at designated reading and math levels to maximize student learning and to acquire the higher level thinking skills necessary to prepare for the high school equivalency test. This course may be repeated until student has demonstrated readiness for taking the high school equivalency tests in all five core curricular areas. This course has been approved for open entry/open exit. This course has been approved for online delivery.

BS 171 Basic Skills: Pre High School Equivalency Preparation II **0.0 units**

40 hours lab
This course is designed for students who complete the basic skills pre-test at the 10th grade level or higher in reading and math and who need additional review and practice before taking the test. The course provides short term, in depth instruction focused on content areas of the high school equivalency test, higher level thinking skills, test taking practice, and testing strategies needed to successfully pass the test. This course may be repeated until the High School Equivalency test is passed. This course has been approved for open entry/open exit.

CAREERS

CARS 151 - Career Life Skills **0.0 unit**

34 hours lecture (R)
This course is designed to aid the student to assess and develop the personal and workplace skills and behaviors needed to be an effective employee. Skills include positive self-esteem, decision-making, goal-setting, and stress management, among others. This course may be taken for a total of four enrollments.

CARS 153 - Career/Employment Strategies **0.0 unit**

34 hours lecture (R)
This course is designed to help the student develop the skills to locate the best employment opportunities, to write winning resumes and to successfully interview. The course also looks at students making realistic self-appraisal of values, interests and capacities and applying these toward the selection of a future career. This course may be taken for a total of four enrollments.

COMPUTER APPLICATIONS

CA 150 - Computer Skills for Senior Adults **0.0 unit**

8 hours lecture/24 hours lab (R)
This course is designed to provide the senior adults with an opportunity to familiarize themselves with various computer technologies. Subjects will include, but not be limited to, the Windows operating system, Windows applications (e.g. NotePad, Calculator, Paint, and WordPad), spreadsheets, the Internet, and E-mail. While the course is open to all ages and levels of expertise, it is geared toward the older adult who has little to no previous experience with the computer. This course may be taken for a total of four enrollments.

COMPUTER SCIENCE

CS 150-Technical Support Fundamentals **0.0 units**

30 hours lecture
This course is the first of a series that aims to prepare you for a role as an entry-level IT Support Specialist. In this course, you'll be introduced to the world of Information Technology, or IT. You'll learn about the different facets of Information Technology, like computer hardware, the Internet, computer software, troubleshooting, and customer service. This course covers a wide variety of

topics in IT that are designed to give you an overview of what's to come in this certificate program. This course has been approved for online and hybrid delivery.

CS 151-The Bits and Bytes of Computer Networking

0.0 units
30 hours lecture

This is the second of five courses that aims to prepare students for a role as an entry-level IT Support Professional. Once all five courses are completed students will be eligible for the IT Support Professional Certificate. This course provides a full overview of computer networking. Students will learn everything from the **fundamentals of modern networking technologies and protocols** to an overview of the cloud to practical applications and network troubleshooting. This course covers a wide variety of IT topics and can be taken as a standalone course and will give students entry level IT skills in Troubleshooting, Ipv4, the Network Model and Domain Name Systems (DNS). This course has been approved for online and hybrid delivery.

CS 152 Operating Systems and You: Becoming a Power User

0.0 units
30 hours lecture

This is the third of five courses that aims to prepare students for a role as an entry-level IT Support Professional. Once all five courses are completed students will be eligible for the IT Support Professional Certificate. In this course through a combination of video lectures, demonstrations, and hands-on practice - students will learn about the main components of an operating system and how to perform critical tasks like managing software and users, and configuring hardware. This course covers a wide variety of IT topics and can be taken as a standalone course and will give students entry level IT skills in Linux, Linux File Systems, PowerShell and Command Line Interface. This course has been approved for online and hybrid delivery.

CS 153-System Administration and IT Infrastructure Services

0.0 units
30 hours lecture

This is the fourth of five courses that aims to prepare students for a role as an entry-level IT Support Professional. Once all five courses are completed students will be eligible for the IT Support Professional Certificate. In this course, students learn about the infrastructure services that keep all organizations, big and small, up and running. Students will focus on cloud to understand everything from typical cloud infrastructure setups to how to manage

cloud resources. Students also learn how to manage and configure servers and how to use industry tools to manage computers, user information, and user productivity. Finally, students will learn how to recover your organization's IT infrastructure in the event of a disaster. This course covers a wide variety of IT topics and can be taken as a standalone course and will give students entry level IT skills in Directory Services, Backup and Lightweight Directory Access Protocol (LDAP). This course has been approved for online and hybrid delivery.

CS 154-IT Security: Defense against the digital dark arts

0.0 units
30 hours lecture

This is the fifth of five courses that aims to prepare students for a role as an entry-level IT Support Professional. Once all five courses are completed students will be eligible for the IT Support Professional Certificate. In this course, students are introduced to IT security concepts, tools, and best practices. It discusses the three As of information security: authentication, authorization, and accounting. It also covers network security solutions, ranging from firewalls to Wi-Fi encryption options. The course is rounded out by putting all these elements together into a multi-layered, in-depth security architecture, followed by recommendations on how to integrate a culture of security into an organization or team. This course has been approved for online and hybrid delivery.

COUNSELING & GUIDANCE

CG 150 - College Success Skills Workshop Series

0.0 unit

48 hours lecture (R)
By attending success skills workshops, students will develop strategies to improve college success. This course has been approved for online and hybrid delivery.

CG 155 - Study Strategies Lab

0.0 unit

90 hours lab (R)
This lab course is designed to provide students with study skills as well as course specific help in classes in which the student is experiencing difficulty. Student to student tutorial assistance, study strategies and instructor intervention will provide the student with the academic support to be successful in the classroom.

The second year students will be expected to expand on the skills learned in first year and implement opportunities to support first year students. This course may be taken for a total of four enrollments. This course has been approved for online and hybrid delivery.

CG 158 - New Student Orientation

0.0 unit

15 hours lecture
A workshop designed to assist new students in their transition to Lassen Community College. During orientation, new students are provided with opportunities to meet other students, faculty staff, participate in course placement testing, a campus tour, information about college programs and services, financial assistance, multiple measures, counseling and registration. This course has been approved for online delivery.

DEVELOPMENTAL STUDIES

DS 153 - Developmental Studies-Community Awareness I

0.0 unit

68 hours lecture (R)
For the non-reading, non-writing, and/or non-verbal student who wishes to explore their community and their place within it. This course may be taken as needed. This course has been approved for online and hybrid delivery.

DS 155 – Adaptive Aquatics for the Physically Limited

0.0 unit

24 hours lab (8 weeks) (R)
This course is designed to give adapted physical education students, including students with a need for rehabilitation and students with chronic medical diagnoses or permanent disabilities, an opportunity to improve strength, cardiovascular endurance, flexibility, balance, and/or gait through aquatic skills and movement. A \$40 fee will be charged at registration to cover the cost of aquatic facility usage.

DS 158 - Developmental Studies – Adaptive Arts & Crafts

0.0 unit

68 hours lab (R)
This course is designed for students with developmental disabilities or senior citizens with disabilities to increase skill development in a broad range of arts and crafts techniques. The focus will be on completion of arts and crafts projects

using a variety of methods and materials based on individual needs, skills, and abilities. This course may be taken as needed. The students will construct a take home craft project at \$1.50 per project per week plus additional consumable materials for each project (glue, glue sticks, paints, gems, etc.) at a value of \$4.50 per student for the 17 week semester. An additional fee of \$30.00 will be charged at time of registration to cover the cost of materials. This course has been approved for online and hybrid delivery.

ENGLISH

ENGL 150 - ESL Basic Skills

0.0 unit

34 hours lecture/51 hours lab (R)
This skills development course is for the ESL/foreign student will provide, through a combination of lecture and lab, individualized instruction in the acquisition of basic language skills, including reading comprehension, vocabulary development, oral and written expression, and critical thinking. This course may be taken for a total of four enrollments.

ENGL 151 - ESL Intermediate Skills

0.0 unit

Prerequisite: ENGL 150 ESL Basic Skills.

34 hours lecture/51 hours lab
This noncredit course reinforces and expands non-native English speakers' literacy and speaking skills from basic level to an intermediate level. Students will engage in collaborative activities that integrate reading, writing, speaking, and listening. New vocabulary will be stressed and basic grammar introduced in context. All instruction is conducted in English and emphasis is on developing language which will enable students to become successful workers in the U.S. job market. This course may be taken for a total of four enrollments.

ENGL 155 - English Writing Lab – Basic Skills

0.0 unit

68 hours lab (R)

This lab course is designed to provide

students with general study skills as well as course specific help in the Basic English and Writing courses (ENGL 103 and ENGL 102). Student to student tutorial assistance, study strategies and instructor intervention will provide the student with the academic support to be successful in the classroom. This course may be taken for a total of four enrollments. This course has been approved for online, hybrid and correspondence delivery.

ENGLISH AS A SECOND LANGUAGE

ESL 155 - Citizenship Test Preparation

0.0 unit

18 hours lecture/36 hours lab (9 weeks) (R)

This course is a developmental course for ESL/foreign students, which may be repeated as often as needed until naturalization is attained. A combination of lecture, lab, class discussion, workbook assignments, computer programs, videos and individualized instruction will present concepts related to US history and civic responsibilities. The student will practice language skills essential to obtaining and completing the INS application and practice the written and oral naturalization test. This course may be taken for a total of three enrollments.

FIRE TECHNOLOGY

FS 156 - Pump Operations

0.0 unit

16 hours lab (1 week) (R)

This course provides the student with the information, theory, methods, and techniques for operating fire service pumps. (Course Certified by the California State Fire Marshal.) This course may be taken for a total of four enrollments.

MATHEMATICS

MATH 164 – Elementary Statistics Lab

0.0 units

Co-requisite: MATH 40 Elementary Statistics.

51 hours Lab

The purpose of this course is to help Math 40 students with math deficiencies which impede their successes in the course. Students will learn how to use technologies to solve problems related to course work, develop skills to solve word problems, strengthen their weaknesses related to topics in algebra and learn good study habits. This course has been approved for online, hybrid and correspondence delivery.

MATH 167 – Trigonometry Lab

0.0 units

Co-requisite: MATH 7 Trigonometry.

51 hours Lab

This course is to assist students in their successful completion of college level Trigonometry. Students will study numerical, graphical, and analytical properties of trigonometric functions, oblique triangles, inverse functions, and applications as well as the algebraic properties required for these topics. This course uses the text required in MATH 7 and additional materials supplied by the instructor. This course has been approved for online and hybrid delivery.

MATH 168 – College Algebra Lab

0.0 units

Co-requisite: MATH 8 Advanced Algebra.

51 hours Lab

This course is to assist students in their successful completion of College Algebra. Students will study the general theory of equations, polynomial and rational inequalities, conic sections, exponents and logarithms; sequences, series, matrices and their applications. This course uses the text required in MATH 8 and additional materials supplied by the instructor. This course has been approved for online and hybrid delivery.

Administration

Dr. Trevor Albertson

Interim Superintendent/President

Ph.D. World Cultures & History, University of California, Merced

M.A. International Affairs, Catholic University of America

Carie Camacho

Interim Dean of Instructional Services

M.S., School Counseling, University of Laverne

B.A., Sociology, California State University, Chico

Roxanna Haynes

Hi Sue,

The content of AP 4235 (previously titled Credit by Exam but is now titled Credit for Prior Learning) has been updated. I couldn't figure out how to email it to you from Board Docs but I have heard you have access. Do you mind pulling AP 4235 and making sure the content is included in the catalog for next year? This will provide us with evidence for ACCJC recommendation 4. Please let me know if you have any questions.

Thank you for your help.

Alison

April 14, 2021

April 28, 2021

May 12, 2021

May 26, 2021

Academic Senate Meeting February 24, 2021 @ 3:00 p.m. Virtual Via Zoom

1. Call to Order at 3:00pm

1.01 Roll Call

Senators Present: Downing, Lin, Rupley, Runyan, Wisser

Guests: Carie Camacho, Lisa Gardiner, Roxanna Haynes, Randy Joslin, Sue Kelley, Chad Lewis, Anna Pasqua

1.02 Approval of Agenda

(Rupley/Downing MSCU)

1.03 Approval of the Minutes for the 2/3/2021 special meeting

(Rupley/Runyan MSCU)

1.04 Approval of the Minutes for the 2/10/21 meeting

(Rupley/Lin MSCU)

2. Public Comment

None

3. Action

3.01 Fire Technology IPR

Second review of IRP for approval. Suggested changes made and curriculum form updated. Motion to approve.

(Runyan/Rupley MSCU)

3.02 Nursing/Allied Health/EMT IPR

Second review of IRP for approval. Suggested changes made and curriculum form updated. Motion to approve.

(Lin/Wisser MSCU)

3.03 Transcript Evaluation Form

Prior process for transcripts being evaluated was informal, often handled via email. Through the accreditation process, it was identified we should have a formal form for the workflow/approval of other institution's transcripts.

Motion to approve.

(Rupley/Runyan MSCU)

3.04 Committee Assignments

Assign Jennifer Lawler, new Incarcerated Counselor Faculty member, to a committee for the rest of the 2020-2021 Academic Year. Lawler requested to be assigned Guided Pathways and Curriculum Committee. Motion to assign to Guided Pathways and encourage to attend Curriculum Committee without assignment. The Curriculum Committee membership for faculty is currently full.

(Downing/Lin MSCU)

4. Discussion

4.01 Physical Education IPR

First review. Senators Rupley and Lin are mentors for this IPR. It is planned to come back for approval next meeting.

4.02 Humanities IPR

First review. Senator Baker is mentor. She and President Runyan are reviewing. Will come back at next meeting for approval.

4.03 AGR IPR

First review. President Runyan has been in communication with Brian Wolfe for several months for updates and mentoring with this IPR. The IPR is planned to return for approval at the next meeting.

4.04 Review Institutional Set Standards

We received an accreditation finding that we had no process to periodically review some set standards. Those standards included Student Achievement, Job Placement in CTE, and Licensure Exams Pass Rates. Dr. Joslin presented the standards currently, requesting Senators review and update for approval at later meeting.

4.05 Academic Renewal Policy

Discuss best practices for time lapsed in order to complete Academic Renewal. Currently, 2 years must have elapsed. It is suggested that we adopt a 1 year policy as a best practice. Research indicated majority of other institutions adopted the 1 year policy. Item will come back for discussion/approval at a later meeting.

4.06 AP/BP Policy Review Schedule

A need for this schedule was born out of the accreditation process, finding we had no formal schedule for the review of Board and Academic Policies. It is suggested that a 6 years review schedule be adopted for the review of all policies. This would allow approximately one chapter of the policies to be reviewed each year. The review process is lengthy as the policies will need to be reviewed in the appropriate department first, then go through the shared governance process, with the Board of Trustees ratifying, as necessary. This review schedule will come back to a later senate meeting for approval.

5. Information

5.01 Credit for Prior Learning Webinar Series

Webinars offered in March for CPL. All are encouraged to attend some of these webinars to assist us with this process moving forward.

5.02 Spring Plenary

The Academic Senate invites you to attend the virtual 2021 Spring Plenary Session on April 15-17, 2021 to be held on Pathable! The theme this spring is "Working Collectively: Transforming and Decolonizing Institutions." Join us this April to attend impactful breakout sessions, discuss statewide matters, vote on important Resolutions, and connect digitally with

faculty across our system. Registration is open and prices go up March 15th!

Register today and find more information at the [2021 Spring Plenary - Virtual Event Website](#).
Early Registration: \$275 (March 15, 2021 before 5:00 pm)

6. Reports

6.01 Administration

None

6.02 Senators

None

6.03 LCFA

Faculty, check your email for updates. TA's have been sent to the District awaiting signatures. A lot of positive movement in this area.

6.04 Guided Pathways

A \$5,000.00 grant was received to hire more students.

7. Closed Session

Entered Closed Session – 4:11pm

Senators Present: Downing, Lin, Rupley, Runyan, Wisner

Guests: Lisa Gardiner

7.01 Consideration of Faculty Minimum Qualifications and Equivalency

1 – Instructional Designer

Return from Closed Session – 4:20pm

Report action from Closed Session

Instructional Designer Candidate denied for equivalency.

8. Meeting Closing

8.01 Adjournment – 4:21 pm

(Downing/Wisner MSCU)

Respectfully Submitted,

T. Downing

Counseling Office

Lassen Community College

PO Box 3000 Susanville, CA 96130

Phone: (530) 251-8842 - Fax: (530) 251-8885 email: evaluator@lassencollege.edu

Transcript Evaluation Request

Instructions: Complete this form if you have completed coursework at any college AND you have submitted official transcripts for colleges previously attended to Lassen Community College. Once completed, submit this form to the Counseling Office, by fax, email, or mail – see above.

Step 1 – Student Information

Date Completed: _____

Last Name: _____ First Name: _____ Prior Last Name(s): _____

LCC Student ID #: _____ Phone #: _____ Email: _____

Mailing Address: Street: _____ City: _____ State: _____ Zip: _____

Step 2 – Transcript Information

You must submit all official transcripts to the Admissions and Records office. Requests will not be processed until all transcripts are submitted and received and this request form is complete. Please list colleges you attended below:

Transcript #1 from: _____ Transcript #3 from: _____

Transcript #2 from: _____ Transcript #4 from: _____

Advanced Placement Exam: _____ IB or CLEP: _____

** Foreign transcripts must be submitted to an independent evaluation agency for U.S. equivalencies and then submitted to our Admissions and Records Office.

*** You **DO NOT** need to have official transcripts evaluated to meet a prerequisite for a course you are trying to enroll in. Please contact the Counseling Office at (530)251-8842 for prerequisite questions.

Step 3 – Evaluation Information

LCC Associate Degrees and Certificates: Please check below and list major

- Associate Degree for Transfer Major: _____
- Associate Degree Major: _____
- Certificate Major: _____

LCC Vocational Nursing Program:

- Prerequisites
- Associate Degree General Education

Transfer Certifications:

- CSU GE
- IGETC

Upon completion of the Transcript Evaluation, an email will be sent to you. If you have any questions, please contact the Counseling Office at 530-251-8842 or evaluator@lassencollege.edu.

Transcript Evaluation Information

Evaluations are processed within 2 to 4 weeks, not including open registration or graduation periods. Students must have applied to Lassen College and have an LCC ID number to qualify for a transcript evaluation.

Official Transcripts from all regionally accredited colleges and/or universities must be on file before an evaluation will occur. It is the responsibility of the student to provide official transcripts, photocopies will not be accepted. AP exam results and IB or CLEP documentation is needed to be considered for credit.

Equivalencies are granted based on course description and content comparison. If Lassen Community College does not offer a comparable course, other resources are used to determine transferability. These additional resources are ASSIST- the official repository of articulation for California's colleges and universities, and TES/CollegeSource.

Transcript Evaluation FAQ's

1. Do I need to have my former transcripts evaluated?

If you are planning to complete a Certificate or Degree at Lassen Community College, you should have your transcripts evaluated. If you are not pursuing a certificate or degree, you do not need to submit transcripts for an evaluation.

2. What is required for a transcript to be evaluated?

All of the following:

- A sealed official transcript must be submitted, or electronically submitted from the college
- Submit a completed Transcript Evaluation Request form
- Must have applied to Lassen Community College and have an ID number
- Previously attended institutions must be regionally accredited in order to receive transfer credit

3. Where do I have my transcripts sent to?

Lassen Community College, Admissions and Records, PO Box 3000, Susanville, CA 96130

4. Where do I send my Transcript Evaluation Request form?

Mail to: Lassen Community College, Counseling Office, PO Box 3000, Susanville, CA 96130

Email to: evaluator@lassencollege.edu

Fax to: 530-251-8885

Lassen Community College

Incarcerated Student Orientation

Hi, and welcome to Lassen Community College. We're so glad that you're choosing to pursue higher education with us. This orientation is meant to help you understand the entire process as an incarcerated student. The more you understand, the more successful you will be. You may even want to get some paper and pencil and take some notes for later. Let's get started.

Assessment

Lassen College has undergone a few changes to benefit you, the student. One change is that we no longer require a placement test to determine your Math and English class. You, the student, now have the option to choose the Math and English course that best fits your needs, preparation and the degree you are working toward. Please refer to AB 705 letter for additional information. Please read the success considerations and the descriptions to determine which course is best for you. If you have any questions please contact us at Lassen College Correspondence Office, P.O. Box 3000 Susanville, CA 96130 or 530-251-8875.

Admission and Records

If you previously attended any other colleges, please request official transcripts to be sent to LCC prior to registration. It is important to note that official transcripts must be in a sealed envelope straight from your previous institution. This will ensure classes are not repeated and you receive an accurate educational plan. You may also be exempt from the Writing or Math placement if you have passed English or Math classes at another college or university. Be advised, DSPS/ EOPS/ and Veteran students receive priority registration.

Financial Aid

All students are required to pay enrollment fees at the time of registration unless you are a California resident and qualify for the California College Promise Grant CCPG (Formally known as the Board of Governors Fee Waiver, BOG). It is extremely important to be aware that in order to continue receiving the CCPG, students must complete at least 50% of units attempted with a "C" Grade Point Average or better. With this new rule, even withdrawing from a course would count against you. An appeal process will be available for students who have extenuating circumstances. Unfortunately, due to the limited eligibility for an incarcerated student, Federal Student Aid is not available. Lastly, you will also be responsible for purchasing or renting your textbooks. This can be done by having a family member or friend contact the LCC Bookstore. Unfortunately, the LCC Bookstore does not rent out books.

Counseling

We have a counselor here to assist you. The counselor are able to answer all questions you may have regarding your education plan, dropping or adding courses, petitioning to repeat a course, career exploration or transferring to a university. Be advised, some courses change due to availability. Be sure to complete all contents of the enrollment packet and return to the correspondence office at your earliest convenience. Please make sure to direct all communication through our correspondence office, and they will be able to direct it to the appropriate parties. We will do our best to answer you in a timely manner.

Degree and Program

We offer a comprehensive Associate of Arts Degree with an emphasis in Social Science. When you let us know that you are interested in our program, our correspondence office will send you a sample education plan. The degree requires at least 60 degree applicable units with a minimum GPA of 2.0 and a grade of “C” or better in each core course. Social Science courses emphasize the study of human social, political, and economic institutions and behaviors. Students will examine problems and issues in these areas in their contemporary as well as historical setting.

This may get a little confusing but let us try to break it down for you. Students are required to complete 6 core courses, 8 free elective courses with no more than 6 units from any one discipline. For example, you can’t count more than two history classes in the free elective section. Next, you will have to complete at least one natural science course, one social science course, one humanities course, English 1, Intermediate Algebra, and one health and activities course. Once you successfully complete all of these courses you will have your degree!

Academic Success

It is important to us that you are successful and we realize that in order to help with that goal, we need to give you some pertinent information. For example, what does a unit even mean? A unit or credit, we use them interchangeably, signifies time. One unit means one hour per week. So a three unit class means that you would have that class for three hours per week. It is recommended that you study a minimum of two hours per class unit. So, if you’re scheduled for six units, you can expect to study twelve hours per week.

Next, there are some important dates to remember such as when to register each semester, when to drop a course without a Withdraw of “W” showing up on your transcript, and the last day to

withdraw from a course. These important dates are included in your instruction packet for each course you register for.

Student Conduct

This seems to be an area that there are a lot of questions, so please pay attention.

Academic Dishonesty

Dishonesty, such as cheating, plagiarism, or knowingly furnishing false information to the college could be subject to discipline.

Academic Probation

A student who has attempted at least 12 units will be placed on probation if the student has earned 2.0 GPA (C average) or less. So that you better understand, an F=0.0 GPA, a D=1.0, C=2.0, B= 3.0 and an A=4.0. It is important to remember that your GPA significantly affect your CCPG, California College Promise Grant.

Progress Probation

A student who has enrolled in at least 12 units will be placed on progress probation when they are not passing at least half of their classes. Grades that they may see on their transcript showing that they are not passing may be “W”, “I”, “NP” or “F”.

Academic and Progress Dismissal

A student who is on academic probation will be subject to dismissal if the student earned a cumulative grade point average of less than 2.0 (C average) for three consecutive semesters. If this happens, students will have to petition the Dean of Student Services to be reinstated and will have to take one semester off, either fall, spring or summer.

Repeatability

Students may attempt any course up to two times. If unsuccessful after the second attempt, they must petition the dean of student services to retake the course. Examples of an unsuccessful attempt are receiving a “W”, “I”, “NP”, or “F”. For English and Math an unsuccessful attempt includes a D. If they are unsuccessful a third time, they cannot take the course at LCC. Petitions to repeat can be obtained by the correspondence office.

FERPA

All student record at LCC are kept in accordance with the provisions of the Family Education Rights and Privacy Act Of 1974. Students may request access to those records which personally identify them. Student consent is needed for the release of records covered by the act to outside parties. We will not disclose your information unless we have a signed consent form. Release of information forms can be obtained by the correspondence office.

Petitioning to Graduate

Once you are close to graduation, we require you to fill out a petition to graduate. We recommend completing the petition at least 6 months before you complete the degree. Please understand that once you graduate, the process of receiving your diploma will take time. The petition to graduate can be obtained by the correspondence office. Please review the catalog to check for academic calendar, description of programs, support services, financial aid and other pertinent information which could assist you throughout your academic enrollment.

Conclusion

Once again, welcome to LCC, we thank you for choosing to study with us. We hope this orientation was beneficial for you. Remember, if you have any questions or concerns; please direct all communication through our correspondence department. We wish you all the best in your academic endeavors!

Lassen Community College Counseling Office

Incarcerated Student Orientation

Hi, and welcome to Lassen Community College. We're so glad that you're choosing to pursue higher education with us. This orientation is meant to help you understand the entire process as an incarcerated student. The more you understand, the more successful you will be. You may even want to get some paper and a pencil and take some notes for later. Let's get started.

Assessment

If this is your first time attending LCC, you must take the assessment test in reading, writing, and math before you register for any classes. This test allows placement into the appropriate classes. The test takes approximately three hours to complete. It will be up to you to locate a proctor at your facility that will administer the placement test. A placement test along with the registration materials will be mailed to the proctor, after the proctor contacts the Correspondence office.

Admissions and Records

If you previously attended any other colleges, please request official transcripts to be sent to LCC prior to registration. It is important to note that official transcripts must be in a sealed envelope straight from your previous institution. This will ensure classes are not repeated and you receive an accurate educational plan. You may also be exempt from taking the Writing or Math portion of the assessment test if you have passed English or math classes at another college or university.

Financial Aid

All students are required to pay enrollment fees at the time of registration unless you are a California resident and qualify for the California Board of Governors Fee Waiver. It is extremely important to be aware that in order to continue receiving the BOG, students must complete at least 50% of units attempted with a C Grade Point Average or better. With this new rule, even withdrawing from a course will count against you. An appeal process will be available for students who have extenuating circumstances. Unfortunately, due to the limited eligibility for an incarcerated student, Federal Student Aid is not available. Lastly, you will also be responsible for purchasing or renting your textbooks. COUNSELING

Lassen College (/Pages/Home.aspx) » Student Services (/student-services/Pages/default.aspx) » Counseling

Academic Counseling

LIMITED IN-PERSON OFFICE HOURS AVAILABLE MON, WED & THURS - 9am to 4pm

Counselors are available in-person in the Welcome Center to assist students with class selection and registration - Mon, Wed, Thurs 9am to 4pm. They are also available via phone calls and emails. Current students can email their counselor directly. If you don't know your counselor's email or who your counselor is, please email: lccounseling@lassencollege.edu or call (530) 251-8842. Brand new or returning students should complete the New Student steps first (see info below). Email lccounseling@lassencollege.edu when completed or if you have questions or need help.

Welcome to the Lassen College Counseling Office! Our academic counselors are available to assist students with course selection, evaluating transcripts, developing vocational and educational plans, and identifying and solving problems which may interfere with academic progress.

COUNSELING SERVICES

- Assistance with choosing a major

- Help with course selection - adding and dropping classes
- Creating an Education Plan
- Assistance with accessing academic support services

OFFICE HOURS - We are currently meeting students in the Welcome Center - Mon, Wed, Thurs 9am to 4pm.

Counselors are available for **walk-in** visits **8:00am - 4:00pm** Mon - Fri. Comprehensive Education Plans require an appointment. The Counseling Office is located in the Student Services Building.

NEW STUDENTS

All the information on how to become a student is on our NEW STUDENTS (/new-students/Pages/default.aspx) page. When meeting with a counselor, please bring any transcripts or testing scores you have, so course placement can be determined.

Bring to Counseling:

- High school transcripts and/or transcripts from any other college you have attended (unofficial is okay)
- SAT, ACT, AP, CLEP or EAP test scores

STUDENTS TRANSFERRING FROM ANOTHER COLLEGE

In order to have your coursework from another college evaluated, please have OFFICIAL transcripts sent to: Lassen College, Attn: Admissions & Records, P.O. Box 3000, Susanville, CA 96130. Then complete and return the Transcript Evaluation Request.  Transcript Eval Request form.pdf (/student-services/counseling/Documents/Transcript%20Eval%20Request%20form.pdf)

DEGREES AND CERTIFICATES OFFERED AT LASSEN

Choosing a degree or certificate can be difficult. Take a Career, Interest and Skills survey at the **Career & Transfer Center**. This survey can help you determine the right career or major for you. Bring the results when you meet with your counselor. This list of our DEGREES & CERTIFICATES (/student-services/counseling/Documents/DEGREES%20offered%20at%20LCC.pdf) will get you started. You can also pick up curriculum guides for every degree/certificate we offer from the racks outside the Counseling Office.

CURRENT STUDENTS

It's best to meet with your counselor at least once every semester, and more often if you are having academic or personal concerns. Be sure to make an appointment for a comprehensive Education Plan during your 2nd semester.

More Information and FREQUENTLY ASKED QUESTIONS (</student-services/counseling/Pages/Counseling-Office-FAQ.aspx>)

EDUCATION PLANS

- An Education Plan is a semester by semester guide to ensure you are taking all the classes you need to complete your degree or certificate.
- An Ed Plan prevents you from taking classes you don't need - saving you time and money.
- A comprehensive Ed Plan should be completed by your second semester at Lassen College.
- Appointments for Ed Plans are made in Sept/Oct (Fall Semester) and Feb/March (Spring Semester)

Academic Affairs

AP 4235 CREDIT FOR PRIOR LEARNING

Reference:

Education Code Section; 66025.71, 70500

Title 5 Sections 55050 (Links to an external site) and 55052 (Links to an external site)

ACCJC Accreditation Standard II.A.10

Students may demonstrate proficiency in a course eligible for Credit for Prior Learning and receive college credit through the approved methods for awarding credit listed below:

- Credit from regionally accredited post-secondary institution
- Achievement of a satisfactory score on an Advanced Placement (AP) examination
- Achievement of a satisfactory score on an International Baccalaureate (IB) examination.
- Achievement of a satisfactory score on the College Level Examination Program (CLEP)
- Evaluation of Joint Service Transcripts (JST)
- Industry Recognized Credentials Assessment
- Student – Created Portfolio Assessment
- Evaluation of Foreign Coursework
- Satisfactory completion of an institutional examination, known as Credit by Examination, administered by the college in lieu of completion of an active course listed in the current college catalog

- Internal Examination 2+2 CTE Transitions approved coursework

Determination of Eligibility for Credit for Prior Learning

- The student must be in good standing in the district
- The student must not be currently enrolled in the course
- The student must have previously earned credit or noncredit from the district or be currently registered in the district
- The course is listed in the current college catalog

Credits deemed as Credit for Prior Learning are not applicable to meeting of such unit load requirements as Selective Service deferment, Veterans, or Social Security benefits. Credits for Prior Learning shall not be counted in determining the 12 semester hours of credit in residence required for an associate's degree.

Credit from a regionally accredited post-secondary institution

- Lassen College recognizes college credit earned at any institution of higher education which is accredited by one of the regional accrediting associations of schools and colleges recognized by the US Department of Education and/or the Council for Higher Education Accreditation.
- An official transcript is required to use coursework for certificates or degrees

Students should contact their previous college and request that official transcripts be sent to LCC Admissions & Records Office. Transcripts may be submitted electronically directly from the other college, or mailed to Lassen Community College, Attn: Admissions & Records, P.O. Box 3000, Susanville, CA 96130.

- We strongly recommend completing this process prior to registering or with in the first term of enrollment to reduce duplication of coursework a request for coursework to be evaluated can be made by contacting the counseling office.
- Transfer coursework can be used to meet core course, general education, pre-requisite or co-requisites
- Quarter units will be converted to semester or semester to quarter, to benefits the students.

Advanced Placement Credit

- With a score of 3 or higher, credit can be granted to meet general education, graduation requirements, and/or advance placement in LCC's sequence of courses. Students should have test scores sent to the Counseling Office. Each transfer institution will determine the number of units awarded and courses satisfied according to individual campus policies.

International Baccalaureate (IB) Credit

- With a score of 5 or higher, credit can be granted to meet general education, graduation requirements, and/or advance placement in LCC's sequence of courses. Students should have test scores sent to the Counseling office. Each transfer institution will determine the number of units awarded and the courses satisfied according to individual campus policies.

College Level Examination Program (CLEP) Credit

- LCC may award general education credit towards associate degrees for successful performance on CLEP General Examinations. Upon submission of CLEP Examination Reports to the Counseling Office, units of credit may be awarded, provided a specific score for awarding credit is obtained (minimum score of 50). Credit awarded may be substituted for coursework applicable to degree and certificate requirements, and also may be used for transfer to four year colleges and universities, subject to limitations imposed by those institutions. UC do not award credit for CLEP.

Military Service Schools/Formal Military Service Schools

- College units may be allowed for the successful completion of college-level training in formal service schools as recommended in "The Guide to Evaluation of Educational Experience in the Armed Services", published by the American Council on Education (ACE). LCC will grant college credit if the person has served at least six months in active service. Active duty personnel should submit a copy of DD295 (Veterans submit DD214) to the Financial Aid Office and the Veteran's Counselor for evaluation.
- The District will award three (3) units towards General Education (Associate Degree Cat. 5 or CSU Cat. E), with proof of a student's official completion of Basic Training provided through the United States Armed Forces on a DD-2586, or equivalent, for Service Members not currently discharged, or a DD-214 for Veterans.

Industry Recognized Credentials Assessment

- Students interested in Credit for Prior Learning using industry recognized credential(s) shall receive credit as recommended by the appropriate department chair or faculty designee:
 - The student shall complete the Credit for Prior Learning Assessment Petition available in the Counseling or the Admissions and Records office.
 - Enrollment services shall grant credit for industry recognized credential(s) that have already been evaluated and approved by the appropriate department chair or faculty designee.
- If an industry recognized credential has not yet been evaluated and approved by the appropriate faculty:
 - The student meets with the department chair or faculty designee to receive further instructions for industry recognized credential(s) assessment.
 - The student submits all industry recognized credential documents to the department chair or faculty designee for assessment of prior learning
 - If the department chair or faculty designee determine the industry certification adequately measures mastery of the course content as set forth in the Course Outline of Record, the appropriate faculty shall sign the petition with the recorded grade, attach the industry recognized credential(s), and forward the completed petition and supporting documents to the Admissions and Records Office to be recorded on the student transcript.

Student-Created Portfolio Assessment

- Students interested in Credit for Prior Learning using a student-created portfolio shall receive credit as recommended by the appropriate department chair or faculty designee under the following circumstances:
 - A department-approved portfolio assessment rubric for the course is on file with the Division Dean

- The student shall complete the Credit for Prior Learning assessment petition available in the Counseling or Admissions and Records Office.
- The student meets with the department chair or faculty designee to receive further instructions for student-created portfolio assessment.
- The student submits all portfolio documents to the department chair or faculty designee for assessment of prior learning.
- If the department chair or faculty designee determine the student-created portfolio adequately measures mastery of the course content as set forth in the Course Outline of Record, the appropriate faculty shall sign the petition with the appropriate grade and forward it to the Admissions and Records Office to be recorded on the student transcript.
- The student may enroll in a Portfolio Development course when requesting portfolio assessment for the first time.

Evaluation of Foreign Coursework

- Per AP 5012, Students who have satisfactorily completed courses from a foreign nation's appropriately accredited university may be able to apply the course credits toward an Associate degree at Lassen Community College.
- National Association of Credential Evaluation Services (NACES), evaluations must include if upper or lower division, how many semester unit the course is equivalent to, and letter grades
- No Foreign Course work can be used for core classes, CSU GE Breath or IGETC pattern, except for Language Other than English, can be used for meeting pre-requisites, LCC terminal degrees or certificates

Credit by Exam

- In order to permit students to demonstrate that they have met the objectives of a course through experience in the work place or some other process outside the conventional academic setting, students may earn credit by receiving a passing grade on an examination administered by the appropriate instructional department/program. The completion of Credit by Examination may require the demonstration of other skills or the completion of assignments in addition to an examination. It is important to be aware that state and federal financial aid does not cover the fees of Credit by Exam. Cost is 1/3 the price of tuition. The CIO/CSSO or designee can waive the fee with proof of financial hardship.

How to Petition:

For any questions relating to the college's policy on credit by examination, see the Director of Enrollment Services. Students wishing to petition shall observe the following steps:

1. The student obtains the Credit by Exam form from the Admissions & Records Office.
2. The student is to complete the Credit by Exam form and submit it to the Director of Enrollment Services so that eligibility may be determined.
3. The student obtains counselor approval (academic review).
4. The student meets with the full-time instructor that will be the instructor of record of the course for which credit is sought. The instructor will determine whether credit by exam is an appropriate option for the course and will appraise the student's background for such an examination.

5. If the instructor agrees to allow credit by exam for the course being challenged, the instructor will sign the petition for those students having adequate background and will then arrange with the student a time, date and place for taking the examination. The instructor will decide the nature of the test (i.e. standardized, instructor's own test, or other option).
6. The student obtains final approval from Academic Services.

Recording of Results:

At the end of the semester the instructor will receive a grade report for the credit-by-exam course offered. The student's academic records shall be clearly annotated to reflect that credit was earned by examination. Grading shall be according to the regular grading system approved by the governing board pursuant to Title 5, Section 55023, except that students shall be offered a "pass-no pass" option if that option is ordinarily available for the course. The student's academic records will also reflect unsuccessful credit by exam attempts with the grade D, F, or NP.

Credit by Exam – Internal Examinations: 2+2 Transitions Procedures

After completing an articulated 2+2 class with a grade of "B" or better, a high school student can qualify for college credit at Lassen Community College in the articulated course(s) by following these requirements at the college level:

- The student obtains and completes the Lassen College 2+2 forms from the Admissions & Records Office at Lassen Community College or their high school counselor.
- The student attaches a copy of the high school transcript to the Lassen College 2+2 form. The student must have earned a grade of "B" or better in the articulated 2+2 course.
- The student will submit the completed 2+2 form and high school transcripts to the counselor for signature.
- The student will submit the fully completed Lassen College 2+2 form to the Admissions & Records Office. The Admissions & Records Office will then apply the high school grade earned in the 2+2 articulated course to the student's permanent record.
- Credit will be identified on the students' transcript as "Credit by Exam."

Lassen Community College credit is only available up to five years after graduation. "Credit by Exam" is granted based on articulated course content and final exam or alternate assessments.

Counseling Office

Lassen Community College

PO Box 3000 Susanville, CA 96130

Phone: (530) 251-8842 - Fax: (530) 251-8885 email: evaluator@lassencollege.edu

Transcript Evaluation Request

Instructions: Complete this form if you have completed coursework at any college AND you have submitted official transcripts for colleges previously attended to Lassen Community College. Once completed, submit this form to the Counseling Office, by fax, email, or mail – see above.

Step 1 – Student Information

Date Completed: _____

Last Name: _____ First Name: _____ Prior Last Name(s): _____

LCC Student ID #: _____ Phone #: _____ Email: _____

Mailing Address: Street: _____ City: _____ State: _____ Zip: _____

Step 2 – Transcript Information

You must submit all official transcripts to the Admissions and Records office. Requests will not be processed until all transcripts are submitted and received and this request form is complete. Please list colleges you attended below:

Transcript #1 from: _____ Transcript #3 from: _____

Transcript #2 from: _____ Transcript #4 from: _____

Advanced Placement Exam: _____ IB or CLEP: _____

** Foreign transcripts must be submitted to an independent evaluation agency for U.S. equivalencies and then submitted to our Admissions and Records Office.

*** You **DO NOT** need to have official transcripts evaluated to meet a prerequisite for a course you are trying to enroll in. Please contact the Counseling Office at (530)251-8842 for prerequisite questions.

Step 3 – Evaluation Information

LCC Associate Degrees and Certificates: Please check below and list major

- Associate Degree for Transfer Major: _____
- Associate Degree Major: _____
- Certificate Major: _____

LCC Vocational Nursing Program:

- Prerequisites
- Associate Degree General Education

Transfer Certifications:

- CSU GE
- IGETC

Upon completion of the Transcript Evaluation, an email will be sent to you. If you have any questions, please contact the Counseling Office at 530-251-8842 or evaluator@lassencollege.edu.

Transcript Evaluation Information

Evaluations are processed within 2 to 4 weeks, not including open registration or graduation periods. Students must have applied to Lassen College and have an LCC ID number to qualify for a transcript evaluation.

Official Transcripts from all regionally accredited colleges and/or universities must be on file before an evaluation will occur. It is the responsibility of the student to provide official transcripts, photocopies will not be accepted. AP exam results and IB or CLEP documentation is needed to be considered for credit.

Equivalencies are granted based on course description and content comparison. If Lassen Community College does not offer a comparable course, other resources are used to determine transferability. These additional resources are ASSIST- the official repository of articulation for California's colleges and universities, and TES/CollegeSource.

Transcript Evaluation FAQ's

1. Do I need to have my former transcripts evaluated?

If you are planning to complete a Certificate or Degree at Lassen Community College, you should have your transcripts evaluated. If you are not pursuing a certificate or degree, you do not need to submit transcripts for an evaluation.

2. What is required for a transcript to be evaluated?

All of the following:

- A sealed official transcript must be submitted, or electronically submitted from the college
- Submit a completed Transcript Evaluation Request form
- Must have applied to Lassen Community College and have an ID number
- Previously attended institutions must be regionally accredited in order to receive transfer credit

3. Where do I have my transcripts sent to?

Lassen Community College, Admissions and Records, PO Box 3000, Susanville, CA 96130

4. Where do I send my Transcript Evaluation Request form?

Mail to: Lassen Community College, Counseling Office, PO Box 3000, Susanville, CA 96130

Email to: evaluator@lassencollege.edu

Fax to: 530-251-8885

Message from the Superintendent/President

Welcome to Lassen Community College!

We are glad you are here and can assure you that you will never regret the decision to pursue an educational goal. As your partner on this journey ahead, we want to ensure that you have the tools and support you need to make this trip a successful one. What is contained in this catalog forms your map and guide along the way. For any questions you have, the answer is likely found herein—but, the faculty and staff are always willing to assist in helping you find and stay on your pathway to success.

In the end, however, we believe that the most important key to completing your educational goal is your own commitment and hard work. You certainly have it in you to reach your dreams! We believe in you and your goals, and that you will succeed. Between our faculty, staff, and administrative teams you will find a wealth of support. Do not fail to ask for help. If you reach out, someone will assist you. It is an aspect of what we do that we take great pride in as an institution.

Most importantly, enjoy the ride. College—whatever path you are taking—is a transformative experience. Take an opportunity to appreciate all the prospects this journey will afford you. From academics to athletics to student life and friendships, this is the time to grow. Enjoy the experience—it will be one of the most important of your life.

Once a Cougar—always a Cougar!

Trevor Albertson, PhD, President (Interim)

Message from the Associated Student Body

Welcome to Lassen Community College!

You will find that the Associated Student Body (ASB) is a vital organization made up entirely of students like you. We have a vision of a diverse, sustainable campus with a thriving culture, where students can find all the resources they need to succeed. In pursuit of that vision we sit on all campus committees, organize and sponsor events, oversee clubs, attend state-wide events, work to improve student success, and much, much more! Do you want to see what clubs are available to join? Do you want to learn about, or participate in shared governance? Do you want to start a club of your own? It's easy, and we will show you how. Contact us at asb@lassencollege.edu

The ASB is students helping students, so if you would be interested in joining our team to work on any of the many different projects we have going, start your own, or just give your input, you would be more than welcome.

Have a great year.

Lassen Community College District Strategic Plan

Recommendation for revisions by Consultation Council – October 12, 2020

Approved by Board of Trustees – December 15, 2020

Vision

- ❖ Lassen College will be a highly efficient self-sustaining rural community college, a Catalyst for the region's image, economy, and human capital, and an example of a "we can" culture of collective impact by being:
 - The academic leader by ensuring quality instruction and encouraging student success
 - The educational leader by expanding outreach and student access with an equity mindset
 - A trusted steward by providing capable leadership and accountability
 - The economic and workforce development leader for the community
 - The cultural leader in the community
 - The Civic and Social Leader in the community

Mission

Lassen Community College provides educational programs for all pursuing higher education goals. The core programs offer a wide range of educational opportunities including transfer degrees and certificates, economic and workforce development, and basic skills instruction. The College serves students, both on campus and in outreach areas in its effort to build intellectual growth, human perspective and economic potential.

Strategic Goals

1. **Institutional Effectiveness:** Provide the governance, leadership, integrated planning and accountability structures, and processes to effectively support the learning environment, while ensuring responsible stewardship of public trust and resources.
2. **Learning Opportunities:** Provide an array of rigorous academic programs delivered via a variety of modalities that promote student learning and meet the needs of the local and global community.
3. **Resource Management:** Manage human, physical, technological and financial resources to sustain fiscal stability and to effectively support the learning environment.
4. **Student Success:** Provide a college environment that reaches-out-to and supports students, minimizes barriers, and increases opportunity and success through access and retention to enable student attainment of educational goals including completion of degrees and certificates, transfer, job placement and advancement, improvement of basic skills, and self-development through lifelong learning.

Institutional Student Learning Outcomes

1. **Communication** - Ability to listen and read with comprehension and the ability to write and speak effectively
2. **Critical Thinking** - Ability to analyze a situation, identify and research a problem, propose a solution or desired outcome, implement a plan to address the problem, evaluate progress and adjust the plan as appropriate to arrive at the solution or desired outcome
3. **Life Long Learning** - Ability to engage in independent acquisition of knowledge; ability to access information including use of current technology; ability to use the internet and/or library to access and analyze information for relevance and accuracy; ability to navigate systems
4. **Personal/Interpersonal Responsibility** - Ability to develop and apply strategies to set realistic goals for personal, educational, career, and community development; ability to apply standards of personal and professional integrity; ability to cooperate with others in a collaborative environment for accomplishment of goals; ability to interact successfully with other cultures

Lassen College Values:

Student Success:

- Students reaching their goals
- Students being prepared for transfer to four-year institutions
- Students being prepared for employment
- Doing what is best for students
- Learning as a priority over teaching
- Students needs; they are paramount in the learning process
- Recognizing and minimizing barriers to student success

Educational Excellence:

- Equitable student learning as the focal point of every experience
- High quality educational delivery
- Highly qualified instructors
- High quality technology and materials
- Well-equipped classrooms

Honesty/ Integrity:

- Trust in relationships
- Dependability
- Transparency
- Collaboration
- Sustainability
- Accountability

Dignity/Respect:

- Open forum for exchange of ideas
- Civility
- Collegiality
- Diversity
- Active listening and communication

NON-DISCRIMINATION POLICY

Lassen Community College is committed to equal opportunity in education and employment, regardless of sex, race, color, religion or national origin. This includes admissions to the college, enrollment in courses, student services, activities, financial aid and employment in accordance with provisions of Title VI of the 1964 Civil Rights Act, Title IX of the Educational Amendment of 1972 (45CRF 86); Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA). Student, staff and all others associated with the college should understand the importance of reporting concerns about possible violations of the policy. Lassen's commitment to equal opportunity demands full investigation of possible violations and an opportunity for a full and impartial hearing on any matter relating to these laws and policies. Further related inquiries should be directed to the Equal Employment Opportunity Officer at (530) 251.8811.

DISCLAIMER

The college reserves the right to amend, modify or otherwise revise any provision in this catalog for reasons including but not limited to: changes in State Law, Education Code, Title 5 or other governing regulations pursuant to the operation of the college; changes in Board of Trustee Policies or Administrative Regulations or changes relating to funding, fees, instruction, support services or staffing of the college or any program or course thereof. These changes may be made without prior notice and may supersede this publication or portion thereof.

CONSUMER INFORMATION

In full accord with Section 504 of the Rehabilitation Act of 1973 which prohibits discrimination on the basis of disability and federal and state legislation to prohibit discrimination, Lassen Community College pledges that its policies and practices aim at providing all persons equal opportunity for education, school or interschool activity and employment regardless of age, race, religion, color, sex, marital status, national origin or disability. Further related inquiries should be directed to Equal Employment Opportunity Officer, Lassen Community College, PO Box 3000, Susanville, CA 96130.

Board Policies and Administrative Procedures are available to the public and may be viewed from our website or by following this link: <http://www.boarddocs.com/ca/lccca/board.nsf/public>.

College Guiding Principles

Vision

Be a catalyst influencing the region's positive image, economy and human capital by fostering a "we can" culture of collective impact by being:

- The academic leader by ensuring quality instruction and encouraging student success
- The educational leader by expanding outreach and student access
- A trusted steward by providing capable leadership and accountability
- The economic and workforce development leader for the community
- The cultural leader in the community
- The civic and social leader in the community

Mission Statement

Lassen Community College provides outstanding programs for all pursuing higher education goals. The core programs offer a wide range of educational opportunities including transfer degrees and certificates, economic and workforce development, and basic skills instruction. The college serves students, both on campus and in outreach areas in its effort to build intellectual growth, human perspective and economic potential.

Institutional Student Learning Outcomes

Upon the completion of any course, educational activity, or program, the student will demonstrate improvement in one or more of these areas:

- **Communication**
Ability to listen and read with comprehension and the ability to write and speak effectively
- **Critical Thinking**
Ability to analyze a situation, identify and research a problem, propose a solution or desired outcome, implement a plan to address the problem, evaluate progress and adjust the plan as appropriate to arrive at the solution or desired outcome
- **Life Long Learning**
Ability to engage in independent acquisition of knowledge; ability to access information including use of current technology; ability to use the internet and/or library to access and analyze information for relevance and accuracy; ability to navigate systems
- **Personal/Interpersonal Responsibility**
Ability to develop and apply strategies to set realistic goals for personal, educational, career, and community development; ability to apply standards of personal and professional integrity; ability to cooperate with others in a collaborative environment for accomplishment of goals; ability to interact successfully with other cultures.

Philosophy and Criteria for Associate Degree and General Education AP 4025

Lassen Community College offers a breadth of courses that are intended to prepare students to think and communicate clearly and effectively; to use mathematics; to understand the modes of inquiry in the major disciplines; to be aware of other cultures and times; to achieve insights gained through experience in thinking about ethical problems, and to develop the capacity for self-understanding. These courses will give students sufficient depth in a field of knowledge to contribute to lifetime interest as well as give the student the tools to navigate through complex life experiences.

General Education, included in the Associate Degree, is designed to introduce students to a variety of means to comprehend the modern world. This experience will assist students in their evaluation and appreciation of the physical environment, the culture and the society in which they live.

The criteria used to determine inclusion in the Associate Degree and General Education offerings includes those classes that foster understanding and evaluation of the natural sciences, social and behavioral sciences, humanities, language and rationality, and physical health and activities.

Lassen Community College programs are consistent with the institutional mission, purposes, demographics, and economics of the community it serves.

General Information

History and Location

The forerunner of Lassen Community College began on May 4, 1925, when the Junior College department of the Lassen Union High School District was established and began conducting classes on the Lassen High School Campus.

A separate facility was created in 1941 with the remodeling of a Main Street garage into a classroom building. In 1945, because of increasing enrollment, a new building was built adjacent to the high school. The modern era of Lassen Community College began in March 1965 with the establishment of the Lassen Community College District and the separation from the high school district. A separate Board of Trustees was elected and planning began for a new campus.

The new campus, located on Highway 139, today consists of 165 acres and 39 structures, including 19 main buildings. It began operations in September 1971. In addition to classrooms, laboratories and offices, it has a library, college union, computer rooms, a large gymnasium and outdoor recreation facilities.

Lassen Community College is located in Susanville in the high mountain lake country of northeastern California. The campus looks out over the city to Diamond Mountain and the Sierra Nevada Mountains. Eagle Lake, the third largest lake wholly contained in California, is only 20 miles away.

Accreditation

Lassen Community College is accredited by the Accrediting Commission for Community and Junior Colleges, Western Association of Schools and Colleges, 10 Commercial Blvd., Suite 204, Novato, CA 94949, (415) 506-0234, an institutional accrediting body recognized by the Council for Higher Education Accreditation and the U.S. Department of Education. Additional information about accreditation, including the filing of complaints against member institutions, can be found at: www.accic.org.

College Catalog

This catalog serves as a guide to Lassen Community College providing information on entering college, on courses, programs, services, degree/certificate requirements, and campus activities.

Catalog Rights

A catalog is in essence an agreement between the student and the college. Students earn degrees and certificates under the programs and policies outlined in a specific catalog. Students, who maintain continuous enrollment, meaning they attended at least one semester or summer session during the academic year, may choose to graduate under the catalog in effect at the time they first enrolled at Lassen Community College or any catalog up to the time of graduation. Students who are considered returning students without continuous enrollment must follow the catalog requirements in effect at the time of re-enrollment.

For the purposes of catalog rights, the academic year begins each fall and ends with the subsequent summer session.

Choice of Catalog

Degree requirements are published in each academic catalog and include: major requirements, general education requirements, reading, writing and math competencies, and other college requirements such as residency and grade point average. Degree requirements may be fulfilled under different catalog years provided the student is eligible to use the respective catalogs.

Eligibility is determined by:

1. **Major requirements:** All major courses must be selected from any one catalog in effect during the student's most recent period of continuous enrollment.
2. **General Education requirements:** A course may be used to fulfill an area requirement if it is on the approved general education list at the time the course is taken. A General Education course taken at another college can meet an area requirement when a Lassen Community College counselor determines that the course is equivalent to a Lassen Community College course listed in that area; or the course is listed in that area at the College where the course was taken.
3. **Other district requirements** may be completed by fulfilling those requirements listed in any one catalog in effect during the student's most recent period of continuous enrollment.

Class Schedule

Each semester, Lassen Community College publishes a schedule of courses that will be offered during the semester. The schedule of courses contains the most updated information on courses and is considered an addendum to this catalog.

Lassen Community College offers day and evening courses. Courses are also offered via online, hybrid or by correspondence delivery. Courses are usually semester length, although shorter-term courses could be offered.

The current semester course schedule can be accessed online at www.lassencollege.edu. The online schedule is searchable by location, course number, instructor name, start date, time, and course title. The online schedule is updated daily. Not all courses listed in the college catalog are offered every semester.

How to Use this Catalog

This catalog is designed to assist all types of students - those just beginning college for the first time, those considering transferring to another community college or four-year institution, and those already attending Lassen Community College – in choosing the program of study that best fits their aspirations and goals. In this catalog, you will find information regarding the admissions process and registration issues, financial aid information and academic requirements. In addition, the catalog describes aspects of student life and opportunities to assist you in having a successful experience at Lassen Community College.

Student Success and Support Program

The statewide California Community College program emphasizing student success previously called “Matriculation” assists students in successfully completing their educational and career goals. The program includes student services in the areas of admissions, self-guided placement, orientation, counseling, advising and follow-up. New students who are taking English or Mathematics, who are seeking a degree or certificate, or participating in collegiate activities are required to participate in orientation, self-guided placement and counseling. Students are exempt from the requirement to participate in the student success program steps (orientation and educational planning) if they provide documentation of having completed an associate degree or higher from an accredited institution. Other criteria for exemption from specific components can be found in the Counseling Office located in Student Services building or by contacting 530.251.8842.

Students Rights Regarding the Student Success Program

Students who meet the exemption criteria may choose whether or not to participate in the student success program planning (orientation and educational planning).

Students may challenge required participation in the Student Success program by filing a complaint with the Vice President of Student Services. If the matter is not resolved, it may be appealed to the Superintendent/President. The Vice President of Student Services shall keep a record of all petitions filed regarding the Student Success program.

Students who are planning to pursue exemption status for any of the components must:

- Contact a counselor

Students who believe they have been the victims of unlawful discrimination as it relates to the implementation of matriculation may file a complaint with the Director of Human Resources.

Quick Guide to LCC Enrollment

New Student Registration

STEP 1 – Complete an online Application for Admission-OpenCCC

Go to our website: www.lassencollege.edu. Click on **APPLY** to begin the 2-step application process. First create a user account, *then* sign-in to complete and submit the 9-part application. You will see a confirmation page. Once your application is processed, you will be *emailed* your **Student ID #, Username and temporary password**. Your log-in information can be used to access **MyLassen LCC Portal** where you can register for classes, check financial aid, access student email, see department information, and view LCC announcements.

STEP 2 – Login to MyLassen-LCC Portal. (In Student Resources or upper right corner of website)

Use your LCC email address (username@cougars.lassencollege.edu) and the temporary password to log into MyLassen Portal. Change your password and choose security questions.

STEP 3 – Complete the MANDATORY online New Student Orientation.

STEP 4 – Go to FINANCIAL AID. (* International Students are ineligible for federal financial Aid)

Fill out the **FAFSA** (*Free Application for Federal Student Aid*) at www.fafsa.ed.gov and/or apply for the Promise Grant (CA Residents only) for your opportunity to qualify for financial aid.

STEP 5 – Obtain a copy of your high school, college, and/or military transcripts for LCC Counselor

Transcripts from high school, other colleges or the military as well as SAT or ACT scores can be helpful for course placement. You may be able to receive course credit for AP or CLEP test scores. Please bring them to counseling.

CSU Advanced Placement chart at: <https://www2.calstate.edu/apply/transfer/pages/advanced-placement-ap.aspx>

IGETC Advanced Placement chart at: <https://admission.universityofcalifornia.edu/counselors/files/ap-satisfy-admission-and-igetc-req.pdf>

CLEP chart at: https://clep.collegeboard.org/develop-your-clep-program/create-a-clep-policy/ace-credit-recommendations/b-level-score-recommendations*

International Students must also demonstrate English proficiency through additional testing prior to admission.

STEP 6 – See a COUNSELOR.

You can see a counselor on a first come, first serve basis once you have completed the New Student Orientation. Meeting with a counselor provides you with information on which courses are required to meet your educational goals.

STEP 7 – Register for classes on MyLassen LCC Portal – On the LCC homepage

If unable to register online, fill out a registration card and submit to Admissions & Records. Payment is required two business days before classes begin.

STEP 8 – Evaluation of other college course work

Please complete the Transcript Evaluation Request form here is the link: <http://www.lassencollege.edu/get-started/Documents/Transcript%20Evaluation%20Request.pdf>

Optional Steps – If applicable

- **Transfer students** - Send all official college transcripts to Admissions and Records
- **Apply for Housing** – If interested in on-campus housing (dorms) – Contact Housing Office
- **Apply for EOP&S (If Eligible)** – Extended Opportunity Program and Services (CA residents only)
 - Must have completed ALL 7 steps above, and have all official college transcripts on file in Admissions.
 - Check EOP&S for additional details on eligibility and requirements.
- **Attend College Success “BOOTCAMP” Student Orientation**-August 2nd - 13th, 2021
- **Get your Books at** <http://bookstore.lassencollege.edu>

QUESTIONS? CONTACT US!

Apply to Lassen Community College

Lassen Community College Students

Lassen Community College is an open enrollment institution to the following prospective students:

1. California residents who are high school graduates, who possess a high school diploma, High School Equivalency (HiSET) diploma, or a General Education Development (GED) Certificate.
2. Non-high school graduates over the age of 18 who can benefit from the instruction offered in a college.*
3. A Special Admit student, defined as any person under the age of 18 without a high school diploma who can benefit from the instruction offered in a college.*
4. International students who qualify in accordance with the Lassen Community College District policy.*
5. Out of state students who qualify in accordance with (1) or (2) above.

**The Lassen Community College Governing Board establishes admission criteria for students in these groups.*

Application Process

To enroll at Lassen Community College you must submit a completed application through our website:

- Go to the college web site at www.lassencollege.edu select the Apply box on the main page to begin the application process for admission to Lassen Community College.

Transcripts

From High School – Students should bring their high school transcripts to their first counseling session. These will be used as part of the multiple measures for placement and course scheduling.

From Other Colleges- Students who have attended other colleges or universities should provide an official transcript to Lassen College Admission and Records prior to meeting with a counselor.

Transcripts can be mailed to: Lassen Community College, Admissions and Records, P.O. Box 3000 Susanville, CA 96130

Military Transcripts- Military transcripts can be evaluated by providing an official copy to Lassen Community College Attn: Veterans' Office PO Box 3000 Susanville, CA 96130.

Lassen College can evaluate transcripts from other institutions to meet Associate degree, or certificate, general education, program requirements and/or elective unit. Lassen College accepts credits from colleges/universities that maintain regional accreditation at the time of attendance. Please bring your transcripts to the Counseling Department to be evaluated. Once evaluated the student and counselor can determine what coursework will be required to complete their education goal.

Special Admission Procedures

Certain populations of students have additional requirements for admission.

Special Admit Students – Lassen College Board Policy only admits special part-time students in grades 9-12 who do not have a high school diploma or have not passed the California High School Proficiency or GED examinations.

The Special Admit forms with special admit criteria are available in the Admissions and Records Office or the Counseling Office.

International Students -Lassen Community College encourages and supports students from other countries who have the academic background and potential to succeed in college. To be considered for admission the applicant must complete and return the **International Application for Admission** by June 15th, for the Fall semester and October 15th, for the Spring semester. For specific requirements go to www.lassencollege.edu Admission/international students or email lccadmissions@lassencollege.edu.

An international student with an F-1 Student Visa status must also:

1. Provide a copy of your high school transcripts.
2. Enroll each semester and complete a minimum of 12 units with a minimum 2.0 grade point average to maintain F-1 student status. Failure to maintain a full course of study may lead to dismissal from Lassen Community College and deportation from the United States.
3. Visa and I-20 must be valid at least six months ahead of the expiration date at all times.
4. Comply with all U.S. Immigration and Naturalization Service and Lassen Community College requirements.
5. Pay the non-resident tuition and other fees as required at registration.

International students are subject to the same academic standards for grading, probation and disqualification as all other students.

Vocational Gunsmithing Program-The College has limited enrollment in the Vocational Gunsmithing program. There is a process that students must follow to get themselves on the Gunsmithing waitlist. Information about the program may be found online at: <http://www.lassencollege.edu/academics/programs/gunsmithing/Pages/default.aspx>

Vocational Nursing Program -The College has limited enrollment in the Vocational Nursing program. There is an application process that students must follow. Information and program packets, including current requirements (page 81of catalog), can be obtained by contacting 530-251-8870 or email LCCNursing@lassencollege.edu

Residency Information

Residency Requirements - The California Education Code requires that Lassen Community College shall apply uniform rules determining a student's residency classification. A residency classification is to be determined for each student at the time of each registration and whenever a student has not been in attendance for more than one semester. Each student shall provide the required information and evidence of residency outlined in "Establishing Residency" below. The day immediately preceding the first day of instruction for any term shall be the residency determination date and is determined when the student completes the Application for Admission.

Establishing Residency - In order to establish California residency, a student must first be a citizen of the United States, a permanent resident or an applicant for permanent residency, or on a visa status that does not preclude him/her from establishing domicile in the United States. The law also requires that the students show no contrary intent, that is, they must not have maintained residence status in their former state; driver license, taxes, car registration, etc. **The burden of proof rests with the student, not the District.** The residency laws do not permit campus officials to waive any portion of the residency requirements. Students must submit a request for reclassification prior to registration.

Determining Residency - Non-resident students do not automatically become California residents by merely living in the state more than one year. State law requires proof of intent to establish California residency.

Indications of intent include, but are not limited to, the following:

1. A record of filing a California state income tax return
2. A W-2 form with a California address
3. Maintaining permanent military address or "Home of Record" in California while in the armed forces
4. The possession of a California driver's license
5. Registering to vote in California
6. Establishing and maintaining an active California bank account
7. The possession of a California hunting or fishing license
8. Owning residential property in California
9. Financial independence from a parent or guardian to include the following:
 - a. not be claimed on parent or guardian's income tax return for the school year;
 - b. not receive more than \$750 in support from parents or guardians in any one year;
 - c. not live with parents or guardian for more than six weeks in any one year.

Appeal of Non-Resident Classification - Students who have been classified as non-residents have the right to review their classification and make a written appeal. Appeals are to be processed as follows:

1. The written appeal is to be submitted to the Admissions and Records Office within 30 calendar days of final notification by Lassen Community College regarding their classification.
2. The Admissions and Records Office will forward the appeal, within five working days of receipt, to the CSSO with a copy of the original application for admission, the residency questionnaire, and evidence or documentation provided by the student with a cover statement indicating upon what basis the residence classification decision was made.
3. Within 30 calendar days of receipt, the CSSO shall send a written determination to the student. The determination shall state specific facts on which the appeal decision was made.

Incorrect Classification – If the college incorrectly classifies your residency on the basis of false or miss leading facts, you will be required to pay the nonresident fees.

Financial Aid

Apply for Financial Aid

Every student should apply for financial aid, regardless of income. Not all types of aid are based on financial need. You cannot know for sure if you are eligible for assistance unless you apply.

1. Complete the Free Application for Federal Student Aid (FAFSA) online at www.fafsa.ed.gov listing Lassen Community College; school code 001217. FAFSA applications need to be filed annually and will be available October 1st of the current year. Since some forms of funding are limited, for best consideration you are encouraged to file your FAFSA annually by March 2nd. FAFSA applications are accepted and funds awarded to students throughout the school year.
2. California residents should complete and submit a California College Promise Grant (CCPG) prior to registering for classes. This application is available in the Financial Aid Office and online. Those who qualify as an AB540 admission should submit a CA Dream Act application to determine their eligibility for the California College Promise Grant (CCPG). The CA Dream act application is at www.dream.csac.ca.gov.
3. The U.S. Department of Education randomly selects some FAFSA applicants for what is called verification. Those selected for verification will be asked to submit the required additional forms.
4. Once all verification requirements have been satisfied you will be issued a Financial Aid Award Letter. The Award Letter will list the types of awards and amounts available to you. Student Loans and Work Study have additional requirements.
5. Students seeking federal and state assistance are expected to declare an education goal and to meet with an Academic

Counselor to complete and follow an Educational Plan, successfully completing courses each semester as you progress toward your educational objective.

Orientation

Mandatory Online Orientation

To learn about college policies, practices, and procedures, as well as answer any questions you may have, new students who plan to earn a degree, certificate, or transfer must complete Lassen College's orientation. Orientation must be done before you can register for classes. Online orientation can be found under new students tab on the LCC website. For more information please call 530.251.8842.

College Success "BOOTCAMP" Student Orientation

A series of workshops, along with a free daily lunch, geared towards helping LCC students discover what it takes to succeed in higher education. For more information please call 530.257-6181 x8911.

Counselor

Meet With a Counselor

All students are encouraged to meet with a counselor. After completing orientation to discuss course selection. Students, with the assistance of a counselor, are encouraged to plan a program of study that will follow their education plan. In addition, counselors are available all year from 8:00AM to 4:00PM and evening hours during the first week prior to registration and the first week of classes. If you have further questions, contact the Counseling Office at 530.251.8842.

15 TO FINISH

Why would a counselor encourage you to take 15 units a semester, or 30 in a year?

- Saves you time and money in tuition and living expenses!
- 15 units a semester and in good standing? You could be eligible for the Completion Grant, an additional \$1,500 (see the Financial Aid office for more details and page 29).
- You can graduate with your degree in 2 years!
- Ready for fall cycle of admission into a four year university.
- Start your career and earn a livelihood sooner.

Register

Register

After you have completed your application for admission, your financial aid application, orientation, and counseling, you will be ready to register. Registration is the process by which students officially enroll in courses. Lassen Community College has three terms; fall, spring and summer in which a student may register. Students may register online at the Lassen Community College web site: www.lassencollege.edu, via My Lassen LCC Portal or in person at the Admissions and Records Office.

Money Matters

Enrollment Fees and Non-Resident Tuition

Students (California and non-residents) are required to pay an enrollment fees and, if applicable, non-resident tuition. California High School students are exempt from paying any registration fees according to Lassen College Administrative Procedure 5030. All fees are due at the time of registration. The fees structure is as follows:

California Resident Enrollment Fee

1 unit or more\$46 per unit
0.5 units\$23 per ½ unit

Non-Resident Tuition for 6.5 or More Units

6.5 or more units, including Enrollment Fee \$316 per unit

Non-Resident Tuition for 6 or Less Units

1 - 6 units, including Enrollment Fee\$92 per unit
0.5 units, including Enrollment Fee\$52 per ½ unit

NOTE: The fees listed in this catalog are those in effect at the time of printing. Enrollment fees are subject to change through California State Legislation. Other fees are subject to change through Lassen Community College Board of Trustees action as judged to be in the best interest of the College. Please consult the current course schedule for the appropriate fees.

Non-Resident Fee Exemption—AB540

Effective January 1, 2002, AB540 provides an exemption from paying non-resident fees for certain non-resident students. While this exemption allows students to pay resident fees, it does not grant them resident status that would give them eligibility for any state funded program. To be eligible for this exemption a student must meet both of the following criteria:

- Attendance at a high school in California for three or more years.
 - Graduation or attainment of a high school equivalency from a California high school.
- Effective January 1, 2013, financial aid is available to students who qualify for the Dream Act.

Priority Registration (AP 5055)

Registration Priority, enrollment five working days prior to the first day of regular enrollment, shall be provide to continuing students not on academic or progress probation for two consecutive terms and who have completed orientation, assessment and developed a student education plan while meeting one of the following categories:

- Armed forces or a veteran
- Former or current foster youth
- Students receiving services through Disabled Student Program or Extended Opportunity Program and Services (EOPS)
- Students Participating in the CalWORKs program
- First time students who have completed orientation, and developed a student education plan
- Continuing students who have not lost registration priority as defined in these policies and procedures.

Credit by Examination

Credit by Examination, also known as Credit for Prior Learning. A student may challenge a course for college credit by completing a Credit by Examination application using the procedure adopted by the Lassen Community College Curriculum/Academic Standards Committee. Students can also see if credit can be issued for prior experiences. Credit for Prior learning cannot be counted in determining 12 semester hours of credits in residence required for an associate’s degree. Students interested in transferring to a university need to be aware if credit will be accepted at the receiving institution or if there is a unit limitation. More information can be found at AP 4235 Specific information as to the procedure to be used in applying is available at the Admissions and Records Office.

Health Fee

The Health fee is collected to cover the cost of student accident insurance. Health fees are as follows:

Fall and/or Spring Semester

Part time students - 0 to 11.5 units..... \$5.00
 Full time students - 12 or more units..... \$7.50

Summer Session

Part time students – 0 to 5.5 units..... \$3.50
 Full time students – 6 or more units..... \$5.00

Health Fee Waivers/Exemptions - this fee can be waived for students who depend exclusively upon prayer for healing in accordance with the teachings of a bona fide religious sect, denomination or organization. A student may request to be exempted by petitioning through the Vice President of Student Services Office. The Health fee may not be waived when a student qualifies for a California College Promise Grant (CCPG). Health Fees are not optional.

Health Fee Refunds – The Health fee is automatically refunded on cancelled classes. It is also refunded to students who totally withdraw within the first two weeks of full term courses. For the refund status on short-term classes, contact the Admissions and Records Office.

Instructional and Other Material Fees

In addition to enrollment fees, the College may charge an instructional materials fee to students for instructional and other materials necessary for some courses. Check with the Admissions and Records Office for the most current fee information. These fees may not be waived with the California College Promise Grant (CCPG) and are not optional.

Instructional and Other Material Fees Refunds - The instructional and other materials fees are automatically refunded on cancelled classes or for classes dropped by the end of the second week of a full term class. Check with the Admissions and Records Office on refund status for short-term classes.

Student Activities Fee

The Student Activity Fee -This optional \$3.00 per semester student activities fee (fall and spring terms only) is assessed on all students taking 6 units or more. The money collected from this fee supports the activities of the Associated Student Body (ASB) at Lassen Community College. This fee pays for ASB sponsored social activities, recreational and athletic activities, and other programs. A list of students who paid this optional fee will be provided to the Lassen Community College Associated Student Body and they will use the list to provide you with access to their sponsored activities, entrance to college athletic contests, etc.

The Student Activity Fee Waiver - Students may complete a waiver request or submit a signed and dated written request when registering for the course to opt out of paying this fee.

Student Activity Fee Refunds - Because this is an optional fee, it is not refundable.

Transcript Request Fees

Transcript requests must be submitted to the Admissions and Records Office. The first two Official Transcripts are provided for free. Charges for additional transcripts are as follows:

- \$5 per Official Transcript request – please allow five (5) business days.
- \$10 per express Official/Non-Official Transcript request – please allow twenty-four (24) hours.
- \$15 per On-Demand Rush Official/Non-Official Transcript request – not available during busy times.

All transcript requests must be submitted to the Admissions and Records Office lccadmissions@lassencollege.edu.

Lassen Community College transcripts will be withheld for any indebtedness due until satisfactory repayment arrangements are made with the Business Office. Transcript Request Forms are available at the Admissions and Records Office or may be printed from the Admission and Records page at the college website - www.lassencollege.edu.

Student Representation Fee

This is an optional fee of \$1.00 per semester. The money collected from this fee is used to provide support for students or representatives who state positions and view-points before city, county and district governments and before offices and agencies of the state and federal government. Payment of this fee provides the student with ASB (Associated Student Body) membership.

Student Representation Fee Waiver - Students may petition in writing, at the time of registration, to waive this fee for religious, political, financial or moral reasons through the Admissions and Records Office.

Student Representation Fee Refunds - Because this is an optional fee, it is not refunded.

After Enrollment

Buy Your Textbooks

The bookstore carries required textbooks and supplies for classes offered at the college. Miscellaneous school supplies are available along with logo clothing, art supplies, and various snacks. The community is invited to stop by and see what the bookstore has to offer. The bookstore is located in the Student Union – housed with the Cougar Café: Cougar Café hours are Monday – Thursday from 7:30 a.m. to 6:30 p.m. and Friday from 7:30 a.m. to 2:00 p.m. Bookstore is staffed from 8:30 a.m. to 4:00 p.m.

All college texts are now ordered online. Go to <http://bookstore.lassencollege.edu> to purchase your texts. It's a simple process. Select Textbooks and follow the directions. Once you have chosen all of your textbooks you will be directed to Checkout where you will pay for your books. The Bookstore accepts payment by credit Visa & Master card (only these books can be shipped), Scholarship, Department of Rehabilitation, EOP&S, Cal Works, or you can pay when you pick up your books.

After you have completed the process you will receive an e-mail confirming your order. When the Bookstore has completed your order, you will receive an e-mail notifying you your books are ready. Books can be picked up between 8:30 a.m. to 4:00 p.m. Students must bring their student identification card with them in order to pick up their books. If you are unable to pick your books up at these times you may either have your texts mailed directly to your home or you may contact 530.251.8881 to make special arrangements for pick up.

Refunds

Students are eligible for a refund during the first 2 weeks of class (full semester classes) and must have the current receipt. The refund will be processed through the student accounts office at the conclusion of the semester or upon written request from the student. It is the responsibility of the student to officially withdraw from a course to be eligible for a refund.

College books are often as expensive or more expensive, than the tuition costs paid by most California residents. There are several ways to save money on book costs:

- 1 Buy used books in the bookstore or check the bulletin boards. The Bookstore works with several vendors to purchase as many used books as possible.
- 2 Use the Lending Library. All students may use the Lending Library located in the ARC/Library. It is on a first come first serve basis. For specific information please call 530.251.8830.
- 3 See if you qualify for CalWORKs or EOP&S and they can assist you in book vouchers or with their lending libraries.

Education Plan

All students are encouraged to meet with a counselor during their first semester of enrollment to prepare an educational plan. The educational plan outlines the courses that a student will need to complete in order to reach his or her educational goal. Plans can be revised at any time whenever the counselor and student believe it is appropriate or necessary. College research shows that students with firm educational goals are more successful in their college careers.

Lassen Community College counselors are knowledgeable about prerequisites and transfer requirements. They will assist you in arranging your academic plan so that you will fulfill all the requirements for graduation and/or transfer to another institution. To avoid any misunderstanding in this regard, the student should schedule to complete an education plan during their first semester and also must see a counselor when a change of educational plan is considered.

Course Enrollment Policies

Attendance

A student must be officially enrolled to attend classes. The student is responsible for adding and dropping classes. Regular attendance is a critical factor in student success. A student withdrawing from Lassen Community College has the responsibility of

notifying Admissions and Records and completing all necessary paperwork.

Changes in Course Enrollment

The last day to add or drop a course is advertised as Important Dates every term in your portal and on our website.

Adding Courses - There is an acceptable time frame for adding classes after they have already begun. Students may enroll in open courses that begin in the first week of the semester through the end of the first calendar week of instruction without the instructor's signature. Students may enroll during the second week of a full-term class with instructor and counselor signature. For courses that begin after the first day of a term please ask for assistance from the Admissions and Records Office.

Dropping Courses - A student may drop a full term course at any time through the end of the second week of a semester without the course appearing on the student's record. After that time, a student officially withdrawing will receive a "W" on their academic transcript. Students may drop a course with a "W", up to the end of the fourteenth week or 75% of the course whichever is less. **It is the students' responsibility to drop a course.** Failure of a student to drop from a course may result in an "F" in the course. The instructor may also initiate the dropping of a student.

Withdrawal from College - Withdrawal from college is defined as the cancellation of enrollment in all classes in which the student is enrolled. Responsibility for withdrawal rests with the student. This may be done online using My Lassen LCC Portal or by submitting a completed Add/Drop form in the Admissions and Records Office. Ceasing to attend classes does not constitute official withdrawal.

Refunds on dropped or withdrawn courses - For information on refunds for dropped or withdrawn courses see Money Matters page 10.

If you received Federal Financial Aid and then withdrew from all of your courses, you may owe money back to the federal government. See the Financial Aid Office staff for options available to you. For more information see "Financial Aid and Scholarships" in this catalog.

Audit Policy (AP 4070)

When a student audits a course, this means the student intends to sit in on that course on a regular basis, but does not wish to receive any academic credit for it. Auditing is allowed at Lassen Community College under the following conditions.

1. The fee for auditing a course is \$15 per semester unit. Students enrolled in courses for 10 or more semester credit units shall not be charged a fee to audit three or fewer units per semester.
2. Students may audit classes only when they have exhausted repetition opportunities for the course and have met all prerequisites.
3. Auditing a course is allowed on a space available basis. The determination may not be made until after the first class meeting, to ensure that priority is given to students enrolled in the course for credit towards a degree or certificate.
4. The instructor must approve any student wishing to audit a class. Students auditing a course shall not be permitted to change his or her enrollment to receive credit for the course.

For more information regarding fees and refunds on audited courses, refer to "Money Matters" found on page 10 in this catalog.

Audited courses appear on the student's academic transcript and are annotated as such by each course audited with 'AU'. Auditing forms are available in the Admissions and Records Office.

Cancellation of Courses

Lassen Community College reserves the right to cancel planned or scheduled courses due to insufficient enrollment, inability to assign a qualified instructor, or for other circumstances unforeseen at the time of the Schedule of Classes publication. In the event a course is cancelled, efforts will be made to help students enroll in other courses consistent with their interests.

Course Conflict/Overlapping Courses

State law prohibits students from enrolling in courses that meet at the same time. Students that have classes overlapping may pick up the *Alternate Time Petition* form from the Admissions and Records or counseling offices to request approval to take courses that overlap. Special permission may be granted if a solution to the overlap can be found.

Repetition of Courses

Courses may be repeated when the following conditions exist:

1. **Student Repetition – Satisfactory Grade Received**
 - a. Satisfactory grade as indicated by a grade of A, B, or C.
 - b. Students earning a satisfactory grade may not enroll in that course again unless an exception applies (see number 3 below).

or

 - c. The District has designated the course as repeatable in the catalog - repeatability is limited to:
 - 1) Courses in which student athletes enroll to participate in an organized competitive sport sponsored by the District or a conditioning course which supports the organized competitive sport,
 - 2) Active participatory courses in physical education, and visual or performing arts that are related in content are limited to up to four enrollments total in levels and/or variations. (A course related in content includes any course with similar primary educational activities in which skill levels or various are separated into distinct courses with different student learning outcomes for each level or variation.)
 - d. Students may enroll for a maximum of 3 non-satisfactory attempts, including summer sessions, in each course taken for credit. Enrollments include any combination of "W" and repetition with a grade.
2. **Student Repetition– Unsatisfactory Grade Received**

- a. Unsatisfactory grade as indicated by a grade of D, F, FW, or NP.
 - b. Students may enroll for a maximum of 3 non-satisfactory attempts, including summer sessions, in each course taken for credit. Enrollments include any combination of "W" and repetition with a grade. The third attempt requires completion of paperwork and the signature of the Vice President of Student Services or designee.
3. **Exceptions that permit additional enrollments:**
- a. A satisfactory grade may or may not have been recorded; and
 - b. Required for legally mandated training; or
 - c. A minimum of thirty-six (36) months have elapsed and the District has established a recency prerequisite for the course or an institution of higher education to which the student seeks to transfer has established a recency requirement that applies to the course or
 - d. Significant change in industry or licensure standards such that repetition of the course is necessary for that student's employment or licensure. Documentation is required from agency to repeat course or
 - e. Extenuating circumstances exist which justify such repetition (i.e. verified cases of accidents, illness or other circumstances beyond the control of the student) or
 - f. Complete one time the entire curriculum of the course for variable unit courses offered on an open-entry/open-exit basis
4. **Students Eligible for Disabled Student Programs and Services (DSP&S)** are permitted additional repetitions of developmental studies courses to provide accommodations for a student's educational limitations, pursuant to state and federal nondiscrimination laws, under the following circumstances:
- a. When continuing success of the student in other general and/or developmental studies courses is dependent on additional repetitions of a developmental studies course;
 - b. When additional repetitions of a specific developmental studies course is essential to completing a student's preparation for enrollment into other regular or developmental studies courses; or
 - c. When the student has a student educational contract, which involves a goal other than completion of the developmental studies course in question and repetition of the course will further the achievement of that goal.
 - d. Questions can be directed to the Disabled Students Coordinator at 530.251.8867.

Whenever course repetition occurs, the permanent academic record shall be annotated in such a manner that all work remains legible, insuring a true and complete academic history.

For certain exceptions, a petition must be filed by the student and signed by the Vice President of Academic Services or designee granting permission for the repetition.

Note: Financial Aid may not be awarded for some repeated courses.

Basic Skills Limitation

Enrollment in pre-collegiate basic skills course work (generally numbered 100-109) is limited to 30 units of instruction except for students enrolled in English as a Second language courses or who are identified as having a learning disability. The 30 unit limitation may be waived if a student shows significant, measurable progress toward the development of skills appropriate to their enrollment in college-level courses.

Waiver or Substitution of Courses

A student may request permission to waive or substitute a course for one that is required to complete degree or certificate requirements. Petitions regarding requirements must be approved by the Vice President of Academic Services. Students may petition through the Counseling Office.

Change of Records

Any change of a student's address or residence, phone number, email address or change of major must be reported in writing to the Admissions and Records Office. Although this may not seem crucial at the time the change is made, financial aid checks, paychecks, tax documents, and important registration and graduation information from the college may not reach its intended destination if this information is not kept up to date. For a change or correction of a student's name, the student must provide a valid photo ID.

Academic Policies

Lassen Community College has a number of policies, regulations and requirements that students must follow. Some of these are locally established by the Lassen Community College District Board of Trustees, while others are set by the State of California in the Education Code and Title 5. They cover such areas as grades, course credit, honors, probation, dismissal and graduation.

Academic Calendar

Lassen Community College operates on a semester basis with a summer session. The Academic Calendar is available online at www.lassencollege.edu or on the inside front cover of this catalog.

Academic Freedom

The Lassen Community College District seeks to encourage and protect academic freedom and responsibility in all academic environments. The District is committed to the free pursuit and dissemination of knowledge, and supports the integrity of the teaching-learning process. The Board of Trustees, administration, faculty, staff and students all bear an obligation to protect, preserve and

promote academic freedom. For faculty, academic freedom constitutes the right to interpret their fields and to communicate without interference or penalty. For students, academic freedom allows them to think critically and to express and defend their views without penalty from the faculty or college.

Classifications of Students

- Full-time – Enrolled in 12 or more units for the fall or spring semester or in six or more units for summer
- Part-time – Enrolled in less than 12 units for the fall and spring semester or for less than six units for summer
- Freshman – A student who has completed less than 30 units
- Sophomore – A student who has completed 30 units or more
- Graduate – A student who has been awarded an associate degree

Final Examinations

The college requires final examinations in all lecture courses. The college publishes a time schedule for final examinations early in each semester, so that students may be notified in sufficient time regarding the examination schedule.

Grade Reports

As soon as possible following final examinations at the end of each semester, a student’s grades will be accessible through My Lassen LCC Portal or through the Admissions and Records Office.

Grading

A student’s work, upon the completion of each course, is graded using one of the following grading categories:

1. Letter grades only A, B, C, D, F
2. Pass (credit)/No Pass (no credit)
3. Letter or Pass (credit)/No Pass (no credit)
4. Failure to withdrawal – FW

Every course for which a student registers will be posted on the student’s transcript with the following exceptions:

- A course dropped prior to the end of the second week of instruction of a full term course or 30 percent for shorter than term length courses.
- A course that Lassen Community College cancels.
- A course dropped in order to transfer to a parallel course.
- The table below shows the possible grades and the corresponding grade points.

A – Excellent	4 grade points per unit
B – Good	3 grade points per unit
C – Satisfactory	2 grade points per unit
D – Passing less than satisfactory	1 grade point per unit
F – Failing	0 grade points per unit
P – Pass at least satisfactory	0 grade points per unit
NP – Less than satisfactory or failing	0 grade points per unit
FW – Failure to withdraw	
I– Incomplete	Does not affect grade point standing
W – Withdrawal	Does not affect grade point standing
IP – In progress	Does not affect grade point standing
RD – Report delayed	Does not affect grade point standing
MW – Military withdrawal	Does not affect grade point standing

Incomplete Grades - Incomplete academic work for unforeseeable, emergency, and justifiable reasons at the end of the term may result in an “I” symbol being entered in a student’s record. The condition for the removal of the “I” shall be stated by the instructor in a written record. This record shall contain the conditions for the removal of the “I”, the grade assigned in lieu of its removal, and the period of time allowed, as determined by the instructor, to make up the “I” grade. This record must be given to the student with a copy on file with the registrar until the “I” is made or the time limit has passed.

IP - In Progress Grade – The “IP” symbol shall be used only following the grade point averages. If a student enrolled in an open-entry, open-exit course is assigned an “IP” at the end of an attendance period and does not enroll in that course during subsequent attendance period, the appropriate faculty will assign an evaluative symbol (grade) to be recorded on the student’s permanent record

of the course.

RD - Report Delayed - The "RD" symbol can be assigned by the registrar only. It is used only when there is a delay in reporting the grade of a student due to circumstances beyond the control of the student. It is a temporary notation to be replaced by a permanent symbol as soon as possible. "RD" shall not be used in calculating grade point averages.

W – Withdrawal - Withdrawal from a course or from the college is defined as the cancellation of enrollment in courses in which the student is enrolled. **Responsibility for withdrawal rests with the student.** This may be done online using My Lassen LCC Portal or by submitting a completed Add/Drop form in the Admissions and Records Office. Ceasing to attend classes does not constitute official withdrawal. Failure of a student to withdraw formally may result in an "F" in the courses in which the student is enrolled.

Pass/No Pass (Formerly Credit/No Credit)

It is the policy of Lassen Community College to enable students to enroll in designated courses on a pass/no pass basis. This can be done at the Admissions and Records Office.

Eligibility Requirements for Pass/No Pass (Credit/No Credit) - The student must elect to be evaluated on a pass/no pass basis no later than:

1. The end of the fifth week of a regular, full-term course.
2. Thirty percent of a class shorter than full-term, but longer than two weeks.
3. The time of enrollment for a class two weeks or shorter length

Military Withdrawal

Military Withdrawal occurs when a student who is a member of an active or reserve United States military service receives orders compelling a withdrawal from courses. Military withdrawals shall not be counted in progress probation and dismissal calculations. Contact the VP of Student Service to initiate the withdrawal.

Grade Point Average (GPA) Calculation

GPA is computed by dividing the total number of grade points earned by the total number of units attempted, not including units in courses where the grade is P-Pass (CR-Credit), NP-No Pass (NC-No Credit), I, IP, RD or W. In calculating degree-applicable grade point averages, grades earned in non-degree applicable courses are not included.

The GPA is used in determining eligibility for academic achievement, academic and progress probation/dismissal, eligibility for an associate degree and/or certificate of completion, graduation with honors/high honors, and some scholarships. Students are encouraged to pay constant attention to their grade point average.

Prerequisites, Co-requisites and Recommended Preparation

Prerequisites - Some courses have prerequisites. A prerequisite is a course that a student must take prior to another course and usually has information that is needed in the next course. For example, you must complete, BUS 1A Accounting Principles Financial to be eligible for BUS 1B Accounting Principles Managerial. When a course is listed as a prerequisite, that course must have been completed with a grade of "C" or better. Sometimes you can fulfill the need to take a prerequisite through the use of multiple measures. These multiple measures include completion of a course taken at another institution, plus other measures of your readiness to successfully complete courses with a prerequisite.

Co-requisites - are courses that a student is required to take concurrently in order to enroll in a particular course.

Recommended Preparation - Some courses have "recommended preparation" which means that the student is advised to, but not required to complete, before or in conjunction with enrollment in the recommended preparation course.

Prerequisite Challenge - Students have the right to challenge a course prerequisite. A challenge by a student can be made under any of the following conditions:

- Prerequisite or co-requisites has not been properly established.
- A prerequisite or co-requisite is either unlawfully discriminatory or is being applied in an unlawfully discriminatory manner.
- The student has the knowledge and ability to succeed in the course despite not meeting the requirements.
- The student will be subject to undue delay in attaining the goal of his/her educational plan because the prerequisite or co-requisite course has not been made reasonably available.
- The student seeks to enroll in a course which has a prerequisite established to protect health and safety and the student demonstrates that he or she does not pose a threat to himself/herself or others.

For additional information and the appropriate forms, please contact the Counseling Office at 530.251.8842 or stop by the office.

Student/Faculty Grade Disputes

Students are responsible for maintaining standards of academic performance established for each course in which they are enrolled. Situations creating concern should first be discussed directly with the instructor. If this action does not produce adequate clarification of the issue and a satisfactory resolution, a student may process an appeal. The Vice President of Academic Services will administer the appeal process.

Academic Renewal

It is the intent of the Lassen Community College District to alleviate previously recorded, substandard academic performance that is

not reflective of a student's demonstrated ability. The petition eligibility requirements and the application are available from the Admissions and Records Office or on the Lassen Portal/Menu/Student Service/Student forms.

Non-Traditional Ways to Earn Credit (Credit for Prior Learning AP4235)

Credit by Examination

Credit by Examination, also known as Credit for Prior Learning. A student may challenge a course for college credit by completing a Credit by Examination application using the procedure adopted by the Lassen Community College Curriculum/Academic Standards Committee. Students can also see if credit can be issued for prior experiences. Credit for Prior learning cannot be counted in determining 12 semester hours of credits in residence required for an associate's degree. Students interested in transferring to a university need to be aware if credit will be accepted at the receiving institution or if there is a unit limitation. More information can be found at AP 4235

Credit by Examination Fees -The fee for Credit by Examination is equal to the per unit enrollment fee set by the State of California for California Community Colleges. If a student is eligible for the California College Promise Grant (CCPG) it does not pay for credit earned through Credit by Examination. Credit by Examination units will not be counted for Financial Aid purposes. Payment is due at the time the Credit by Examination is entered by Admissions and Records staff.

Credit by Examination Refunds - No refund is given after a student has officially submitted their completed petition to the Admissions and Records Office.

Advanced Placement Examination Credit for General Education Credit

Lassen Community College may award general education credit toward associate degrees to the students scoring a 3, 4, or 5 on Advanced Placement examinations. Students should have test scores sent to the Counseling Office. Each transfer institution will determine the number of units awarded and courses satisfied according to individual campus policies. For specific course information, students are encouraged to meet with a counselor or refer to LCC District Procedure AP 4235. The California State University (CSU) and University of California (UC) campuses award Advanced Placement credit to general education. Please see the appropriate links <https://www2.calstate.edu/apply/transfer/pages/advanced-placement-ap.aspx>

<https://admission.universityofcalifornia.edu/counselors/files/ap-satisfy-admission-and-igetc-req.pdf>

Each CSU and UC campus determines how they use AP credit in the major. Please see chart as to how Lassen College awards AP credit to meet general education credit.

International Baccalaureate (IB) Credit for General Education Credit

Lassen Community College may award general education credit towards associate degrees to students scoring a 5, 6, or 7 on International Baccalaureate tests. Students should have test scores sent to the Counseling Office. Each transfer institution will determine the number of units awarded and the courses satisfied according to individual campus policies. For specific course information, students are encouraged to meet with a counselor.

College Level Examination Program (CLEP) Credit for General Education Credit

Lassen Community College may award general education credit towards associate degrees for successful performance on CLEP General Examinations. Upon submission of CLEP Examination Reports to the Counseling Office, units of credit may be awarded, provided a specific score for awarding credit is obtained. Credit awarded may be substituted for coursework applicable to degree and certificate requirements, and also may be used for transfer to four year colleges and universities, subject to limitations imposed by those institutions. For specific course information, students are encouraged to meet with a counselor. The California State Universities requires a passing score of at least 50 on the CLEP exam. Each campus in the CSU system issues CLEP credit for general education yet each campus determines how it will apply external examinations toward credit in the major. Please click on CSU link to see how they award CLEP credit, <https://www2.calstate.edu/apply/transfer/Pages/college-level-examination-program.aspx#:~:text=The%20CSU%20requires%20a%20passing%20score%20of%20at,apply%20external%20examinations%20toward%20credit%20in%20the%20major> Please see chart on how Lassen College awards general education credit.

Please meet with your counselor if you have any questions.

Honors

Students who have completed 12 or more semester units of letter-graded work at Lassen Community College are recognized for their academic achievements. Graduation honors will be indicated in the commencement program and on the student's transcript. The designation of honors in the commencement program is based on the cumulative grades earned during the semester preceding a student's graduation. Transferable units from other colleges will be reviewed to determine units attempted, but will not be included in the students cumulative GPA.

Academic Honors Awarded

Dean's Honors – a cumulative GPA of 3.25 to 3.49 for students enrolled in 12 or more academic units (overall).

Vice Presidential Honors – a cumulative GPA of 3.5 to 3.74 for students enrolled in 12 or more academic units (overall).

Presidential Honors – a cumulative GPA of 3.75 or higher for students enrolled in 12 or more academic units (overall).

Probation and Dismissal

Pursuant to the Education Code and District Policy, a student can be placed on probation for two reasons:

- Unsatisfactory academic performance.
- Unsatisfactory progress in course work.

Failure to fulfill academic responsibility is considered to be a serious matter by the college. Accordingly, the following probation and suspension policies have been adopted:

1. **Academic Probation:** A student who has attempted at least 12 semester units at Lassen College as shown by the official academic record shall be placed on probation if the student has earned a Lassen College grade point average of less than 2.0.
2. **Progress Probation:** A student who has enrolled in at least 12 semester units at Lassen College as shown by the official academic record shall be placed on progress probation when the percentage of all units in which entries of "W", "I" and "NP" are recorded reaches or exceeds fifty percent from Lassen College units.
3. **Removal of Academic Probation:** A student on academic probation for a grade point deficiency shall be removed from probation when the student's accumulated grade point average from Lassen College units is 2.0 or higher.
4. **Removal of Progress Probation:** A student on progress probation because of an excess of units for which entries of "W", "I" and "NP" are recorded shall be removed from probation when the percentage of units in this category drops below fifty percent for Lassen College units.
5. **Academic Dismissal:** A student who is on academic probation shall be subject to dismissal if the student earned a cumulative grade point average from Lassen College of less than 2.0 for three consecutive semesters, including summer.
6. **Progress Dismissal:** A student who is on progress probation shall be subject to dismissal if the percentage of units in which the student has been enrolled at Lassen College, for which entries of "W", "I" and "NP" are recorded for three consecutive semesters reaches or exceeds fifty percent, including summer.
7. **Notification of Probation and Dismissal:** Lassen Community College shall make every reasonable effort to notify a student of academic probation or dismissal at or near the beginning of the semester in which it will take effect; but in any case, no later than the start of the fall semester. Lassen Community College shall also make every reasonable effort to provide counseling and other support services to a student on probation to help the student overcome any academic difficulties.

Reinstatement – Students will be eligible for reinstatement following a semesters' absence upon petition to the Vice President of Student Services and approval.

Unit of Work

College work is measured in terms of the "semester unit". A semester unit calls for one-hour of lecture, three hours of laboratory or any combination thereof per week for one semester. In lecture type courses, one hour in the classroom and two hours of outside preparation ordinarily constitute a unit of work. In the laboratory, three hours in the classroom may constitute one unit of work. The number of units of credit offered for each course may be found under "Course Descriptions".

Unit Limitations

Students who wish to register for more than 18 units must have the written approval of a counselor and must petition to the Vice President of Student Services. Students, who enroll in more than 18 units without obtaining the required approval, will be administratively dropped from the most recently added courses. The student and instructor will be notified should this occur.

Non-Traditional Learning

Lassen Community College recognizes that people have had learning experiences in many non-college situations equivalent to those obtained in college courses. We provide for evaluation of such non-traditional learning experience as Advanced Standing, USAFI/DANTES, formal military service schools and military service.

Students interested in transferring to a university need to be aware if credit will be accepted at the receiving institution or if there is a unit limitation

Students planning to transfer to a four-year college or university should note that non-traditional credit accepted by Lassen Community College may not be acceptable for transfer.

Students should check with prospective transfer colleges regarding their policies on non-traditional credit. Re-evaluation at the four-year institution may be an advantage to the transfer student since upper division credit may be allowed.

Student Life and Activities

Associated Student Body

The Associated Student Body (ASB) is the representative body of Lassen Community College students. All currently enrolled Lassen Community College students who have purchased a current ASB card shall be members of the ASB. All members are entitled to reduced or free admission to all of its activities, bookstore services and local merchant's discounts.

During the spring semester, students will elect ASB officers to represent the students to the college administration and the District Governing Board. The elected officers include the President, Vice-President, fifteen Senators, and Student Trustee. The Associated Student Body appointed officers are the Secretary and Treasurer.

The Associated Student Body President appoints students to serve on Lassen Community College committees. The Executive Council and Student Body Council exercise the powers and duties of the ASB Government.

The Associated Student Body and the Vice President of Student Services will approve new clubs and student organizations. If students are interested in becoming a member of a club or if they want to start their own organization, they should contact the ASB.

The ASB officers meet once each week. ASB meetings are open to the public and include an opportunity for students and others to share their views. Stop by the help desk in BaseCamp to find out more.

Organizations

In order to secure the most from college life, students are encouraged to participate in one or more of the many clubs on campus. These clubs offer many diversified opportunities to students for both social and educational contracts. Each club elects its officers and plans its own program for the semester. How successful it becomes depends largely upon the enthusiasm of its membership. If students are interested in becoming part of a club or if they want to start their own organization they should stop by the Associated Student Body Office, located in the Student Dormitory Building.

Athletics

Lassen Community College athletics emphasizes and takes pride in their athlete's pursuit of their educational goals. The College provides a well-rounded program of intercollegiate athletics. Lassen Cougar teams compete in men and women's basketball, soccer and rodeo, men's baseball and wrestling, and women's softball and volleyball. Lassen Community College is a member of the California Community College Athletic Association (CCCAA) participating in both the Golden Valley Conference, as well as the Big Eight Conference in wrestling. Lassen Community College is also a member of the National Intercollegiate Rodeo Association (NIRA). Eligibility Criteria:

1. No student shall represent the college in any athletic contest unless they are enrolled in a minimum of twelve units (15 units for rodeo) of academic work in regular or special courses as defined in the LCC curriculum.
2. All athletes must follow a current Educational Plan approved by their academic counselor.

Questions regarding athletic eligibility should be directed to the Director of Athletic Operations at 530-251-8815 or check the website at www.lassenathletics.com

Campus Activities

Student engagement opportunities for Lassen Community College students extend beyond the classroom to events on and off campus. Orientation and Student Success, located at Basecamp, in CA 209, is a center dedicated to enhancing the college experience for all students. OSS provides avenues to develop leadership skills through the student ambassador program, and enhance the college experience through various student engagement activities. Through these interactions, students form relationships with friends, staff and faculty that will benefit them during their time at Lassen College and beyond. Without these connections to the campus, many students would lack the support system they need to be successful:

- Lassen Fest Pool Party
- WOW Week of Welcome
- Bagel Thursdays
- LCC Meetups
- Cougar Countdown
- Winter Welcome
- Study Place
- College Success Huddles
- Student Help Desk

For questions regarding student engagement contact the Director of Orientation and Student Success at 530.257.6181 x8911 or email tupper@lassencollege.edu.

Students Rights, Freedoms And Responsibilities

Responsibility

Students are responsible for their own academic success. Regular attendance and participation are crucial factors in student success.

Rights and Freedoms

Lassen Community College is an academic community with membership consisting of students, faculty and staff. Its purpose is to provide an agreeable atmosphere for developing men and women both scholastically and socially. Free inquiry and expression are necessary aids in the development of resourceful and analytic thought processes.

This community requires a system of guidelines for organized activity on campus. Primary responsibility for preserving the system of order rests with individuals of the community. Students must accept responsibility for their actions and values, recognizing that they reflect upon the entire college community.

Access

Within the limits of its facilities, this institution shall be open to all students who are qualified according to its admission standards. Under no circumstances shall a student be barred on the basis of race, color, sex, creed, religion, nationality, age, marital status, or disability.

Expression

Students are free to express their views on issues of institutional policy and on matters of general interest to the student body. They are free to support causes by orderly means, which do not disrupt the regular and essential operation of the college. Students, through established school committees, may help establish policies concerning student academic and nonacademic affairs.

Association

Students are free to form and join associations according to standards set by the Associated Student Body and the Student Rules of Conduct.

Disclosure

Information about students or student's beliefs and views, which teachers, counselors or administrators may obtain, are confidential. Students can consent to the disclosure of judgments on ability and character if circumstances warrant.

Student Rules of Conduct

Standards of conduct are applicable to all members of the college community, visitors, and guests. Student rules of conduct are designed to promote individual and group governance in accordance with dignity, decency, and maturity.

In particular, such standards are directed toward social and living relationships pertinent to the college. The following misconduct for which students are subject to college discipline applies at all times on campus and applies to any off campus function sponsored or supervised by the college

- Dishonesty, such as cheating, plagiarism, or knowingly furnishing false information to the college.
- Forgery, alteration, or misuse of college documents, records or identification.
- Obstruction or disruption of teaching, research, administration, disciplinary proceedings, or other college activities, including its public service functions or of other authorized activities.
- Physical abuse of any person or conduct, which threatens or endangers the health or safety of any such person.
- Theft of or damage to, property of the college, its officers, employees, students, or visitors.
- Unauthorized entry to or use of college facilities.
- Violation of college policies or of campus regulations, including campus regulations concerning the registration of a student organization or the time, place, and manner of public expression.
- Intoxication from the use of alcohol or being under the influence of unlawful drugs or unlawfully distributing, selling, or possessing of the same on college property or at events sponsored by the college.
- Failure to comply with directions of college officials acting in performance of their duties.
- Gambling on college property.
- Hazing or any act that injures, degrades, or disgraces any fellow student or person attending the college.
- Sexual harassment.

Student Discipline

The Vice President of Student Services shall exercise general supervision over the conduct of students. The authority for sanctions for students who fail to accept responsibility to abide by Standards of Conduct is provided in the Lassen Community College Policy Book, Section 5380 and in compliance with the California Education Code.

The following shall comprise the range of official college sanctions, which may be taken as a result of any disciplinary hearing. Sanctions may be imposed only after a disciplinary hearing at which the student has had the opportunity to be present.

1. **Warning** - Notice to the student that continuation or repetition of specified conduct may be cause for other disciplinary action.
2. **Censure** - Written reprimand for violation of specified regulation.
3. **Conduct Probation** - Exclusion from participation in designated privileges or extracurricular college activities for a specified period of time.
4. **Restitution** - Reimbursement for damage or misappropriation of property. Reimbursement may take the form of appropriate service to repair or otherwise compensate for damages.
5. **Interim Suspension** - Exclusion from Classes and other designated privileges or activities for a definite period of time. (Education Code Section 10601)
6. **Expulsion** - Permanent termination of the student's status without possibility of re-admission to the college. (Code of Conduct cf. 5412.2)

Student Grievance and Appeals

The Governing Board of Lassen Community College authorizes the establishment of procedures through which students can resolve issues concerning potential violations of their rights related to alleged misinterpretation, misapplication, or violation of specific district policies. These procedures are outlined in the following Board Policies: AP 4236 and AP 5530.

Any student who has a grievance related to college instruction or student services (other than an alleged criminal or discriminatory violation) should make a reasonable effort to resolve the matter on an informal basis prior to submitting a formal "statement of grievance". If not resolved at this level, students have the option of writing and sending a complaint via an online grievance portal. A link to this portal is available on the LCC main webpage. Complaints or grievances that are academic in nature, as well as alleged violations related to financial aid, student accounts, illegal discrimination, and/or Title IX (sexual misconduct, sexual harassment, etc.)

may be documented and submitted via the online portal. Once a complaint is submitted, it will first be retrieved and reviewed by the Office of Human Resources and will be dealt with by HR or sent to the appropriate area administrator to address the issue.

Students will be contacted within ten days of a submitted complaint, and will be given further directions as needed. Usually it will be required to meet with the appropriate educational administrator to discuss resolution of the grievance. After a discussion and/or written correspondence with the appropriate administrator, an attempt will be made to resolve the grievance, and the administrator will render a decision and notify the student no later than ten school days later.

If a student is not satisfied with the decision rendered, they may appeal within ten school days to have their case reviewed by the Grievance/Appeals Committee. The student has a right to appear before the committee at some point during its deliberations to present relevant witnesses or information concerning their grievance. The committee shall render a decision within ten school days of its meeting, and the decision of the committee shall be final.

Grade Changes, Academic Grievances and Appeals

Education Code, Title 3, Section 76224, states in the absence of mistake, fraud, incompetence or bad faith, the determination of a student's grades by an instructor shall be final once they have been filed with the Admissions and Records Office. If the presence of mistake, fraud, bad faith or incompetence is determined, the Vice President of Academic Services may delete the grade from the transcript.

Students are responsible for maintaining standards of academic performance established for each course in which they are enrolled. Situations creating concern should first be discussed directly with the instructor. If this action does not produce adequate clarification of the issue and a satisfactory resolution, a student may process an appeal. The Vice President of Academic Services will administer the appeal process.

Drug Free Campus

The Lassen Community College District is committed to providing a safe and healthy working environment and to ensure a drug free campus. In compliance with the Drug Free Schools and Campuses Act of 1990 the following regulations are in effect:

1. The unlawful manufacturing, distributing, dispensing, possession, or use of a controlled substance is prohibited on campus.
2. The term "controlled substance" is defined in the schedules I through V of Section 202 of the Controlled Substance Act 21USC812.
3. Penalties for Campus Drug Use: State and Federal penalties apply to anyone convicted of the manufacturing, distributing, dispensing, possessing, or use of controlled substances.

Misdemeanor Convictions for campus drug use can result in a fine and incarceration of up to a year in a county jail.

Felony Convictions for campus drug use can result in a substantial fine and a lengthy jail sentence in state prison. Felony convictions include the manufacture, possession for sale or use of substances such as amphetamines (whites, uppers), barbiturates, codeine, cocaine/ crack, heroin, L.S.D., methamphetamine, (crank, crystal), marijuana, P.C.P., and Quaaludes.

Dangers of Drugs in the Workplace

Drug Addiction is a major health problem. The death, disabilities and diseases stemming from drug abuse excel the morbidity and mortality rate of any other disease.

The campus is harmed. Excellent students and their careers are affected. Students are excessively sick, produce inferior work or perform unsatisfactorily. The detrimental effects of this problem are reflected everywhere.

People who abuse drugs affect public health and safety. The losses suffered must not be measured in dollars and cents alone but also in lives.

Dangers of Drug Use

Alcohol

- Decreased performance
- Poor judgment and coordination
- More accidents
- Drowsiness and mood swings
- Lower morale and increased conflicts with others
- Shortened attention span
- Impairment of judgment and decision-making ability

Cocaine/Crack Cocaine

- Lack of dependability
- Irritability and depression
- Crime (stealing to cover cost of drug)

Marijuana

- Disruption of space and distance
- Slower physical reflexes and poor coordination
- Forgetfulness and diminishing mental powers
- Drowsiness and mood swings

Opiates

Heroin, Pain Pills, Codeine, Darvon, Vicodin, and Percodan

- Impaired judgment and lowered efficiency
- Disinterest in classroom safety
- Increase in illness
- Drowsiness and mood swings

Smoking

To provide a safe and healthy environment to learn and work smoking in District facilities and vehicles is prohibited. Smoking is prohibited within 20 feet of a main exit, entrance or operable window of any campus building. It is the intent of this policy to promote comfort, health, and well-being of all district students, staff and visitors and maintain the safety of District facilities. Smoking means the carrying or holding of lighted cigarettes, cigars, cloves, bidis, pipes, hookah, marijuana, other lighted weed or plant, electronic

cigarettes, or other similar smoking device or equipment; OR emitting or exhaling the smoke of lighted cigarettes, cigars, cloves, bidis, pipes, hookah, marijuana, other lighted weed or plant, electronic cigarettes, or other similar smoking device or equipment. Smoking also includes the use of mouth or smokeless tobacco (to include dipping, chewing, etc.) or similar chew or spit product. (AP3570)

Student Assistance Program

A student desiring additional information regarding drug abuse may contact one of the counselors.

Student Acknowledgment

Part of the Drug Free Schools and Campus Act requires that students be given information regarding substance abuse. This information can be found in the college Catalog, Class Schedule, Student Handbook and Counseling Office. (Education Codes 87009, 87011, 87405, 87732, 87733, 88002)

Sexual Harassment Policy

The Lassen Community College District enforces a policy prohibiting sexual harassment and will respond promptly and effectively to reports of sexual harassment. Sexual harassment is unlawful discrimination in the form of unwelcome sexual advances, request for sexual favors and other verbal, visual or physical conduct of a sexual nature, made by someone from or in the workplace or in the educational setting. The District will take appropriate action to prevent, to correct and if necessary, to discipline behavior that violates this policy. For a complete copy of the policy prohibiting sexual harassment or to make a complaint, contact the Office of Human Resources.

Family Education Rights and Privacy Act (FERPA)

The confidentiality of student records shall be maintained in accordance with the Education Code and in compliance with federal regulation as outlined in the Family Education Rights and Privacy Act. Lassen Community College will release directory information only as specified in Board Policy 5040 to include the students name, honors and involvement in ASB or other extracurricular activities. Release of any other information requires the student's written permission.

Access to Educational Records

All former and present students have the right to review and inspect their educational records in the Office of Admissions and Records provided they make a written request fifteen (15) days in advance. Such a review will be under the direct supervision of a classified or certificated employee in the Admissions and Records Office. Expressly exempted from the right of review and inspection are the following materials:

- Financial records of the parents or legal guardians of the student(s).
- Confidential letters and statements of recommendation maintained by the College on or before January 1, 1975, provided that such letters or statements are not used for purposes others than those for which they were specifically intended.
- Records of instructional, supervisory, counseling, and administrative personnel which are in the sole possession of such personnel and are not accessible or revealed to any other person except a substitute.
- Records of employees of Lassen Community College, made and maintained in the normal course of business which relate exclusively to such person in that person's capacity as an employee, are not available for use for any other purpose.

Vaccinations/Immunizations

California Community Colleges do not require proof of immunization for enrollment however students are urged to update their immunization status. Upon transfer, many universities require MMR and Hepatitis B clearance as a condition of admission. Depending on the major, immunizations may be necessary prior to acceptance into selected programs. Students should consult with the specific department for further information.

College Services

Academic Resource Center (ARC) – Library & Learning Center

The Lassen Community College Academic Resource Center (ARC), located on the campus' center in the Humanities building, presents a picturesque view of the campus, Honey Lake Valley and Sierras via its two-story windows. The ARC offers a wide array of resources and services to students, faculty and staff including Wi-Fi, a café, comfortable seating, instruction and tutoring. Fully technologically equipped, two study rooms allow for quiet or group study sessions. Over 12,000 books, hundreds of course reserves, a textbook lending program, periodicals and media are easily reachable in-house; twenty-five online databases, nearly 200,000 eBooks, the library catalog and tutoring are accessible 24/7, both on and off-campus. Computers on both levels are equipped with Microsoft Office, the Internet and free limited printing. In addition, students may checkout textbooks, laptops and calculators without charge. Friendly research help is always obtainable. One-on-one assistance from trained peer tutors and instructors in a variety of subjects including math, writing, reading and the sciences is available. Also, small group tutoring as well as online tutoring are complimentary. Proctoring is attainable for those requiring supervised test-taking. Additional information about the ARC may be found at <http://lassencollege.libguides.com> or by contacting the Library at (530) 251-8830.

Admissions and Records

The Admissions and Records Office is responsible for the admissions and registration process of the College. Services include:

- Registration - online
- Maintenance of student's transcripts
- Transcript requests
- Residency

- International student admission
- Petitions for exceptions

All inquiries for Admissions and Records services may be directed by sending correspondence to Lassen Community College, Admissions and Records, P.O. Box 3000, Susanville, CA 96130 or by calling 530.251.8808 or by faxing 530.251.8802.

BaseCamp

Basecamp is here to assist all students in the process of attending and completing their educational program at Lassen Community College. The mission of BaseCamp is to ensure ALL students no matter their cultural, ethnic, religious, gender, sexual orientation, or socio-economic standing are afforded every opportunity to meet their educational and career goals at Lassen Community College. BaseCamp meets our mission through initiatives, programs and collaboration with all departments on campus in student, academic and business services. Some of the services available through Basecamp are bulleted below. For more information and the most current list of services and programs, visit our website at www.lassencollege.edu/student-services/basecamp. If you have suggestions for ways we can better serve students, please contact Interim VP of Student Services, Brady Reed at breed@lassencollege.edu. We are located in Creative Arts room 209 or you can reach Basecamp by calling 530.257.6181 ext. 8946.

• CalWORKs

We are a California Community College program serving CalWORKs students and their families by providing educational and career opportunities combined with an array of high-quality support services that enable students to complete their educational goals, find meaningful employment, and successfully transition into the workforce. Through collaboration and advocacy with our college and community partners, we prepare a segment of California's workforce by promoting the economic self-sufficiency of CalWORKs students through the attainment of a higher education.

Students currently receiving Temporary Assistance for Needy Families (TANF) Cash Aid are potentially eligible for services through the CalWORKs program. Call 530.257.6181 ext. 8991, for information on supplementary childcare funding, job placement, career and job search assistance, CalWORKs work study and advisement and support services.

• Career and Transfer Center – Student Services/Vocational Trades Building

The Lassen Community College Career and Transfer Center is located in the Student Services/Vocational Trades Building in the middle of campus, with a white location flag out front. Opened in August of 2019 it is a spacious welcoming center for all students. The Career and Transfer Center offers a wide variety of resources and services for students and staff including Wi-Fi, computers, classroom seating, and white board. Technologically equipped, the center has six individual computer stations, and a twelve seat classroom which allows for individual career and transfer exploration, as well as seminars and workgroup presentations. Computers are equipped with Microsoft Office, the Internet and free limited printing. Open daily M-F 8:00-4:30 or by appointment, the friendly staff is trained to assist with career and college transfer needs. Drop in assistance is offered for: Career assessments, selecting a major, exploring jobs & salaries, searching for college transfer degrees, typing tutor, and job board. By appointment services offered: College transfer applications, job applications, interviewing skills, resume, cover letter and high school equivalency testing. Monthly workshops and seminars are offered to help students move toward a successful career and college degree, advertised in the portal. Additional information about the Career and Transfer Center may be found at <http://www.lassencollege.edu/student-services/counseling/career-and-transfer-center/Pages/default.aspx> or by calling (530) 251-8833.

• DSPS - Disabled Student Programs & Services

Special courses and services are offered for students with verified disabilities on an ongoing basis. Psycho-educational diagnostic testing is also available for students with possible learning disabilities or acquired brain injuries. Counseling and registration assistance is available for all students with disabilities. Students may contact the DSPS Office at 530.251.8867 or the Learning Disabilities Program at 530.251.8867. For more information see:

www.lassencollege.edu/student-services/basecamp/dsps/Pages/default.aspx

High Tech Center – The High Tech Center is a computer lab designed to serve students with various disabilities and special needs. The computers are designed or equipped with special software that accommodates or assists students with their learning and college course work. Special software is available for disabled students. Students may contact the High Tech Center at 530.251.8867.

• EOP&S - Extended Opportunity Programs & Services

The Extended Opportunity Programs and Services (EOP&S) is a state funded program which provides special Above and Beyond Services to eligible students. It serves about 300 students a year providing above and beyond student success services to assist them in reaching their educational goals. The services provided to students eligible for the EOP&S program include:

- Academic Advising and Counseling
- Health & ASB Fees Paid
- Caps and Gowns
- Develop Educational Plans
- Meal tickets
- Lap Top Loans
- Book Grants and Book Lending
- Gas Cards
- Tutoring
- Progress Reporting
- School supplies
- Computer Lab
- Transfer Assistance/Fee Waivers
- Priority Registration
- 4 year college campus tours
- Various Support Services

Access to higher education is not a privilege for a chosen few, but a right for all that desire to learn. EOP&S services provide positive encouragement to qualified applicants who are full time, low income, underrepresented, and under prepared. This program is funded by a state grant and provides services above and beyond those already provided by Lassen Community College.

To be eligible for EOP&S services a student must meet the following criteria.

1. Be a California resident
2. Be enrolled as a full-time student (12 or more units per term)
3. Have fewer than 70 units of degree applicable college credits
4. Complete and submit the California College Promise Grant (CCPG)
5. Be educationally disadvantaged

The EOP&S Program creates an environment that is responsive to the needs of the students it serves and is culturally sensitive to the diversity of students that qualify for the EOP&S student success driven services it provides. For more information call 530.257.6181 ext. 8953.

• **CARE - Cooperative Agencies Resources for Education**

The Lassen Community College Cooperative Agencies Resources for Education program (CARE) is a state funded program focusing on providing financial, educational and emotional assistance and support to students who are CalWORKs/TANF eligible, single head of household wanting to attend college. The program provides off-campus childcare reimbursement for infants and children under the age of 14 years. CARE Student Support Group meetings are held monthly to discuss issues and concerns of the student. The aim of CARE is to help students with the cost of coming to school, increase their educational skills, become more confident and self-sufficient, enhance their employability, and move from welfare to independence.

Services provided to students eligible for CARE include:

- Child care allowances
- Transportation
- Textbooks and school supplies
- Uniforms
- Informational workshops for single parents
- Conferences
- Grants

To be eligible for the CARE program, student must meet the following criteria;

1. Eligible for the EOP&S Program
2. Maintain a full-time program of study (12 units or more).
3. TANF/CalWORKs as a single head of household and currently receiving cash aid.
4. 18 years of age or older.

For more information call 530.251.8837.

• **Foster Youth Services Success Initiative (FYSI)**

The purpose of the FYSI is to remove barriers that youth from foster care often encounter when attempting to access or attend an institute of higher education. The FYSI aims to improve outcomes for foster youth students by improving the following key areas:

- Access to student services and resources
- Access to academic support
- Outreach and retention
- Academic performance
- Completion of units
- Completion of programs and degrees
- Transfer rates to baccalaureate

Lassen Community College has a designated FYSI Liaison located within BaseCamp in CA 209. For more information please contact Brady Reed, Interm VP of Student Services at breed@lassencollege.edu

• **Kinship Care**

The mission of Lassen Community College Kinship Care Education is to provide needed training and support for Kinship Care Providers in the Lassen Community College District. Kinship providers who are caring for relatives (siblings, grandchildren, nieces, nephews, or family friend, etc.) are presented with unique challenges. The Lassen Community College Kinship Care Education program recognizes these challenges and strives to support the providers by offering free educational training workshops, providing high quality resource material and much needed support. Some of the training topics offered are: Parenting Skills, Effects of Fetal Alcohol Syndrome, Anger Management, and Strategies for Working with Difficult Children, Separation and Attachment, and many more. For more information please call 530.257.6181 ext. 8901 or email kinship@lassencollege.edu

• **Orientation and Student Success**

The Orientation and Student Success program supports students and the College by providing programs and services aimed at helping students at LCC. This includes everything from Orientation and Welcome Week, to student led activities to a quiet place to study.

• **TRIO TRACS” at Lassen College**

TRIO Student Support Services (SSS) is a federally-funded program and is called “TRIO TRACS” at Lassen College. It supports college success for low-income and first-generation college students, as well as students with disabilities. It provides academic counseling, personal coaching, workshops, fieldtrips, and other support necessary for eligible students to persist at LCC and to reach

their educational goals. The TRIO TRACS Program can make college less difficult by helping students with college coursework, exploring career options, and managing life's demands. TRIO is actively engaged in creating a positive caring community that promotes diversity, leadership, and student success.

Bookstore

The bookstore carries required textbooks and supplies for classes offered at the college. Miscellaneous school supplies are available along with logo clothing, art supplies, and various snacks. The community is invited to stop by and see what the bookstore has to offer. The bookstore is located in the Student Union – housed with the Cougar Café: Bookstore is staffed from 8:30 a.m. to 4:00 p.m.

Student Union/ Cougar Café

The student union café also serves a wide variety of items for breakfast and lunch. The community is invited to stop by and see what the student union has to offer. Cougar Café is open from Monday-Thursday 7:30 a.m. to 6:30 p.m. and Friday 7:30 a.m. to 2:00 p.m.

Work Experience & Internships

Work Experience Education is an academic program in which students build work skills through specified learning that they pursue in their individual work settings. There are three types of Work Experience courses: General Work Experience (WE 1), Vocational Work Experience (vocational courses numbered '49' such as AJ 49 or HUS 49), and Occupational Work Experience (WE 2). Upon completion of their Work Experience course students earn transferable credit with a letter grade. For more information contact Lisa Gardiner @ lgardiner@lassencollege.edu or 530-251-8856.

General Work Experience - assists students in learning about the world of work and is open to students regardless of major or job. Through this course, students develop and/or improve basic work habits and entry level job skills. No more than 6 units may be earned in General Work Experience (WE-1).

Vocational Work Experience - provides students with opportunities to develop or add marketable skills that are related to their vocational career objective.

Work Experience - provides students with opportunities to develop or add marketable skills related to their transfer major at California State Universities and Colleges. Students transferring to private or out of state universities and colleges should meet with their counselor to determine the transferability of work experience credits. The University of California does **not** allow transfer credit for Work Experience.

How the Work Experience Program Works – At the beginning of the semester students attend one of several Work Experience Orientations listed on the class schedule. During the orientation, students are given all the information they need to successfully complete the program. Students begin by meeting with their supervisor to create individualized measurable occupational learning objectives that identify new skills to be learned on the job by the end of the semester. Next they submit their objectives to the Work Experience Education office for approval. Throughout the course, students work toward accomplishing their learning objectives and demonstrating good basic work skills on the job. The Work Experience Instructor/Coordinator visits the worksite to complete an evaluation and provides support and assistance to student and employer throughout the program. Grades for Work Experience are based on completion of identified learning objectives, demonstration of good basic work skills and timely submission of all Work Experience assignments. Eligible students must meet the following criteria:

1. Be working in a paid or volunteer position for a licensed business. Students who do not have a job or internship and would like assistance should contact the Work Experience Education office. Students must have a cooperative employer by the end of their third week of their Work Experience course (end of the first week summer session) to remain in the program.
2. Register for 1-8 units of Vocational or Work Experience or 1-6 units of General Work Experience. Students who are working in a position related to their college major, and are taking or have taken a course in that area should enroll in the area's Work Experience class. Interested vocational students may earn college credit in the following majors: Administration of Justice, Agriculture, Art, Automotive Technology, Business, Child Development, Correctional Science, Fire Technology, Gunsmithing, Health Occupations, Human Services, Journalism, and Welding Technology. One unit of credit may be earned for every 75 hours of paid work experience or for every 60 hours of volunteer experience. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Vocational, Occupational and General Work Experience enrollments. Enrollment limitations exist. See a counselor or the Work Experience Coordinator for further information.
3. Attend a Work Experience Orientation during the first two weeks of the course to get started in the program and receive all necessary course materials.

Counseling

The Counseling Office, located in the Student Services Building, provides services to help students define their academic and career goals including academic counseling and advising, personal counseling, student orientation, career assistance, and information regarding transferring to a four year college or university.

Academic Counseling: Counselors are available to assist students in interpreting multiple measures placement, selecting courses, formulating an educational plan, discussing educational concerns, and providing guidance toward student educational goals.

Articulation Agreements: Articulation is an agreement between Lassen Community College and four-year colleges and universities that identify Lassen Community College courses that will transfer and meet four-year college and university requirements. These agreements are maintained by the Counseling Office and are listed at www.assist.org, the website for ASSIST, California's

official statewide repository of transfer course information.

Personal Counseling: Lassen College now has a Behavioral Health Program Manager to assist students with mental health needs, along with providing workshops and trainings. If you or a classmate is feeling depressed, anxious, or has any other mental health concerns please do not hesitate to reach out at (530) 257-6181 ext. 8902 or by email sharrington@lassencollege.edu. Staff and faculty may also consult with the Behavioral Health Program Manager if they have any questions or would like to refer a student for services.

New Student Orientation: Student Orientation is designed to help incoming students familiarize themselves with the programs, facilities, policies, and procedural expectations of the College. It is common for colleges to use their own language, terms and vocabulary that are often very unfamiliar to students. Orientation programs provide students the tools to navigate their college experiences successfully. All new students must complete an online orientation session. Online orientation can be found under new students tab on the LCC website.

Educational Plans: Your educational plan is developed in consultation between you and your assigned counselor and it outlines all course work necessary for you to reach your educational goal. All new students whose educational goal is to transfer or complete a degree or certificate should complete an educational plan by the beginning of their second semester. Plans are subject to revision whenever a student changes their anticipated major or field of study or if they change the course pattern outlined in their current educational plan. Educational research has verified that students are more successful in college when they have a firm educational plan. They also take less time to accomplish their educational goals. You can make an appointment by contacting the Counseling Office at 530.251.8842.

Financial Aid

For more information on Financial Aid see the next section on “Financial Aid and Scholarships” in this catalog. (Page 27)

Housing

The residence hall provides accommodations for students with two and four person rooms. For an additional fee a student can request a single room, which will be assigned if availability allows. Laundry facilities, a common kitchen, and a television lounge are available for student use. At the west end of the building you will find two-story game room with floor to ceiling windows. Various nights during the semester you will find both table pool and foosball tournaments in this room as part of the Lassen Intramural Activities Program. In addition to foosball and pool table, various sports programs (indoor touch football, three-on-three basketball, dodge ball and lots more) make up the Lassen Intramural Competitive Activities Program on Monday and Thursday evenings. The non-competitive lunchtime activities occur Monday through Friday in the lounge and internet gaming has been implemented into the program as well. Most rooms accommodate two students; however, there are also some four-person rooms. A common bathroom joins the suites for two person rooms and a single bathroom is shared in the rooms that accommodate four residents. The room is furnished with a desk, chair, drawers, bookshelf, closet, sink/vanity area and an extra-long twin bed for each student. Students are **not** to bring their own furniture, as no storage is available. The rooms are controlled individually for heat. Telephone service is not provided. However Wi-Fi service is provided. The beds use extra-long twin sheets. Students will need to bring a good study lamp, trash can and personal items to decorate their room. No drugs, alcohol or sexually provocative material is allowed as decorations. The Vice President of Student Services and other college staff are responsible for the residential program. The Housing Office is located in the Residence Hall and is open Monday through Friday. The Residence Manager is on duty Monday- Friday during the day. Six Residential Advisors assist in maintaining a safe and secure facility including locked doors and visitor check-in after 10:00 PM. The guidelines for living in the Lassen Community College Residence Hall have been established to protect the health, safety, and social welfare of all community members, to provide a climate conducive to study, to discourage dishonesty, vandalism, and personal abuse. Rules are enforced to avoid infringement of the rights of others.

Each resident is responsible for his or her actions and each is entitled to a safe, secure, and mature atmosphere in which to reside and a living environment conducive to succeeding in his or her educational objectives. In order to maintain that environment, the residence hall has multiple cameras observing hallways and entry/exits on a 24/7 basis.

Information regarding rates is included in the residence hall application packet. Upon return, the completed dorm application must be accompanied by a security deposit to reserve a room. Applications can be obtained by writing to: Lassen Community College, Housing Office, PO Box 3000, Susanville, CA 96130 or via email to fbeaujon@lassencollege.edu or from the Lassen Community College website www.lassencollege.edu/campus-lif/residence-hall

Check-in times are scheduled on specific days during the two weeks prior to the first day of school. For more information please contact the residential life staff by phone at 530.251.8879 or by email at fbeaujon@lassencollege.edu

Career Technical Education CTE/Transitions (Formerly Tech Prep 2+2)

The Career Technical Education (CTE)/Transitions program offers high school students the opportunity to take an approved technical preparation class during their high school years and receive Lassen Community College credit. Students are able to develop high academic and employability competencies through approved technical preparation and instruction. This opportunity eases the transition from the high school to the college and offers an incentive for students to continue their education at a more advanced level. After completing an articulated CTE/Transitions class with a grade of “B” or better at the high school level, a high school student qualifies to receive earned credit at Lassen Community College in the articulated course(s) without having to repeat the course at the college level by submitting your high school transcripts and required form from the Credit Guidelines packet to the LCC Admissions

and Records Office and enroll.

CTE/Transitions credit is only available up to five years after high school graduation. "Credit by Exam" is granted based on articulated course content and exams or alternate assessments. Students must be in good standings and complete all requirements.

For a Credit Guidelines Packet or more information on the CTE/Transitions program visit the Lassen Community College Counseling Office or speak with your high school counselor.

Veteran's Services

Lassen Community College is approved for veteran training under Public Law 890-358, as well as under the California State program. The Lassen Community College Veteran's Certifying Official is a liaison between the Veteran's Administration and the individual veterans, insuring timely educational benefit payments. Veterans or veteran family members eligible for government benefits should contact the college Financial Aid Office in the Student Services Building. All students expecting Veterans Benefits, degrees or certificates must file an official transcript of their record from all colleges previously attended.

After completing all necessary paperwork, the veteran is ready to meet with the veteran's counselor to complete their schedule. Call 530.251.6181 ext. 8950 to receive more information.

Military Service Schools/Formal Military Service Schools

College units may be allowed for the successful completion of college-level training in formal service schools as recommended in "The Guide to the Evaluation of Educational Experience in the Armed Services", published by the American Council on Education.

Lassen Community College will grant college credit if the person has served at least six months in active service.

Active duty personnel should submit a copy of DD295 (veterans submit DD214) to the Financial Aid Office and the Veteran's Counselor for evaluation.

Financial Aid and Scholarships

Financial Aid is dedicated funding that assist students with the costs of attending college, it is meant to help students achieve their academic goals. Funding sources include the Federal and State government as well as other public and private entities.

Every student interested in receiving Financial Aid is first required to fill out a FAFSA- **F**ree **A**pplication for **F**ederal **S**tudent **A**id on the web every academic year. The on-line application is found at www.fafsa.ed.gov ; this is the only viable website to file a FAFSA. (The school code for LCC is 001217.) Each student receiving Financial Aid is expected to enroll only in classes/courses that are needed to complete their education goal at LCC.

Eligibility Requirements

1. Submit a Free Application for Federal Student Aid (FAFSA) to the U.S. Department of Education to establish eligibility.
2. Have demonstrated financial aid eligibility according to federal and state regulations.
3. Have a high school diploma or the equivalent. Students who do not have a high school diploma or the equivalent may not be eligible for federal financial aid, but may be eligible for state and locally funded aid programs.
4. Enroll in an eligible program to complete an associate degree or an eligible certificate program or transfer requirements. Most forms of financial aid are only available to students enrolled in an eligible program.
5. Declare a major and obtain an education plan as approved by a Lassen Community College counselor, which must be on file.
6. Most important!! Students must maintain satisfactory academic progress (SAP). Once a student's aid has been verified and awarded it is the student's responsibility to maintain SAP in order to keep their eligibility for Federal financial Aid.

Satisfactory Academic Progress (SAP)

Lassen Community College complies with federal requirements to monitor financial aid recipients' SAP toward a declared and eligible educational objective of an associate degree, certificate or transfer to a baccalaureate degree granting institution. Students receiving financial aid are expected to maintain a cumulative grade point average of at least 2.0, and to successfully complete each course that they attempt .Also students are expected to complete their educational goal within a reasonable timeframe. Beginning July 1, 2012 the maximum lifetime eligibility to receive a PELL grant has decreased from 9 full time years to 6 full time years.

In accordance with Federal Student Aid regulations, SAP procedures measure each student's progress three unique ways qualitative, quantitative and incremental. Student's failure to maintain SAP will first result in a semester on warning, if the student fails to meet SAP the next semester the student will be placed on Financial Aid Suspension along with disqualification of receiving Federal Financial Aid previously awarded. LCC has an appeal process that exists for those students who have had extraordinary and unexpected circumstances which caused the failure to maintain SAP.

Estimated Cost of Attendance (COA)

The table below is an estimate of the average annual cost of attendance (COA) at Lassen Community College. These are estimated and averaged costs as provided by the California Student Aid Commission with the exception of Fees and On Campus Housing, which are actual. The Student COA cannot be exceeded by the sum of all aid the student receives for the academic school year.

In State	Student Living With Parent		Student Living On Campus		Student Living Off Campus	
	Annual	Semester	Annual	Semester	Annual	Semester
Tuition and Fees (12 units/term @ \$46/unit & \$12.50/term)	\$1,130	\$565	\$1,130	\$565	\$1,130	\$565
Books & Supplies	\$1,126	\$563	\$1,126	\$563	\$1,126	\$563
Food	\$9,082	\$4,541	\$7,098	\$3,549	\$5,572	\$2,786
Housing	\$0	\$0	\$3,000	\$1,500	\$11,182	\$5,841
Transportation	\$1000	\$500	\$342	\$171	\$918	\$459
Personal	\$3,276	\$1,638	\$2,638	\$1,319	\$3,844	\$1,9222
TOTAL COA	<u>\$15,614</u>	<u>\$7,077</u>	<u>\$15,334</u>	<u>\$7,667</u>	<u>\$24272</u>	<u>\$12,136</u>
Out of State						
Tuition (\$270/unit)	\$6,480	\$3,240	\$6,800	\$3,240	\$6,480	\$3,240
TOTAL COA Out of State	<u>\$22,094</u>	<u>\$11,047</u>	<u>\$21,814</u>	<u>\$10,907</u>	<u>\$30,752</u>	<u>\$15,376</u>

*Resident Tuition is \$46.00 per unit. Non-Resident Tuition is \$326.00 per unit (health & student fees included in total.)

Students enrolled at a less-than-half-time status for a term will be subject to adjustments to their COA budget and award eligibility.

Enrollment Status

Eligibility for many types of aid is based on a student's enrollment status in the term. Types of aid that is prorated based on a students' enrollment status include Pell Grant, Osher Scholarship and Cal Grant. Full-time 12+ units 100%, 9-11.5 units 75%, 6-8.5 50%, and 6 or fewer units check with financial aid.

Effects of Withdrawing, Dropping or Failing

For purpose of Financial Aid, every class/course attempted is counted towards you maximum lifetime eligibility usage; all drops, withdrawal, no-pass, and fail are calculated as zero points towards the students cumulative GPA. Federal financial aid recipients with no-show withdraw, or drop courses any time before completing more than 60% of the term are subject to repayment of some of the federal aid they received.

Determination of Withdrawal

The date of withdrawal and no-show dates are based on the official records of the college in accordance with federal regulations. The federal repayment calculation is called R2T4 (Return to Title IV) and the amount the student must repay before receiving any more federal financial aid such as the Pell Grant, FSEOG, work-study and Stafford Loan, is based on a comparison of the amount the student actually received in federal aid to the length of time enrolled for the term.

Repaying the Debt

You will be notified if you are required to repay a portion of your aid and will have 45 days to repay in full. If the amount owed is not repaid within those 45 days the debt will be referred to the U.S. Department of Education and you will not be eligible to receive any additional federal financial aid at any school until the amount due is repaid in full or satisfactory payment arrangements have been made with the U.S. Department of Education.

Repeating Courses

Federal Student Aid regulations allow students to repeat a previous passed course once with an A,B,C,D, or P grade and have it included in the determination of their enrollment status for calculating Federal Student Aid.

Types of Financial Aid Available

- **Federal Assistance Programs**

Federal Pell Grant is a federally funded entitlement aid program providing from \$600 to \$6,495 per school year to those students with demonstrated financial need as measured and determined by the FAFSA.

- **Federal Supplemental Educational Opportunity Grant (FSEOG)** is a federally funded aid program that provides assistance to students with exceptional financial need as measured and determined by the FAFSA. Limited funding

is available and is intended to supplement Pell Grant funding.

- **Bureau of Indian Affairs** provides grants to help eligible Native American students meet their college costs. To be eligible students must be at least one-fourth American Indian, Eskimo or Aleut as certified by a tribal group served by the Bureau of Indian Affairs (BIA). Students must apply for BIA Higher Education Grants through their tribal agency.
- **Federal Work Study** provides part-time employment to students with a demonstrated financial need as measured and determined by the FAFSA to help meet the cost of their education. Students must work to earn their award. Positions are available on and off campus. Students must be enrolled full-time and funding is limited.
- **Federal Direct Loans** are subsidized and unsubsidized federally guaranteed low interest rate student loans and are not based on credit history. Students must attend a pre-loan entrance interview workshop to understand their borrowing responsibilities. To apply a separate loan request must be completed.
- **Federal Direct Subsidized Loan** is a need-based student loan program designed to assist students with educational expenses while attending at least half-time in an eligible program of study. The interest is subsidized by the federal government as long as the student is enrolled at least half-time.
- **Federal Direct Unsubsidized Loan** can be need based or non-need based. The interest on this loan is not subsidized by the federal government and begins to accrue when it is funded. Students have the option of making interest payments or deferring the interest payment.

State Assistance Programs

- **California College Promise Grant**

The California College Promise Grant is available to California residents attending California Community Colleges and waives the enrollment fee for eligible students. Students may be eligible in a number of ways including as a recipient of public assistance benefits, meeting income standards or by demonstrating at least \$1,104.00 of need as measured by the filing of a FAFSA.

Students must reapply each school year.

Those who qualify as an AB540 admission should submit a CA Dream Act application to determine their eligibility for the California College Promise Grant. The CA Dream act application is at www.dream.csac.ca.gov

SB 1456 Establishes the Student Success Act of 2012 and requires students qualifying for the BOG Fee Waiver meet specific academic progress requirements; maintain a cumulative GPA of 2.0 and completion of at least 50% of the coursework attempted.

- **Cal Grant B/C** - Cal Grant funding is a state aid program with additional details of each type available at www.dream.csac.ca.gov. There are three types of Cal Grant awards that students may be eligible to receive.

- **Student Success Completion Grant (SSCG)**

The Student Success Completion Grant (SSCG) is a financial aid program for Cal Grant B and C recipients attending a California Community College full-time (12 units or more). On top of the Cal Grant B or C award paid at community colleges, the Student Success Completion Grant pays full-time Cal Grant B or C recipients a maximum of \$1,298 annually at \$649 per semester for eligible students who enroll and attend 12 through 14.99 units per term and a maximum of \$4,000 annually at \$2,000 per semester for eligible students who enroll and attend 15 units or more per term.

Eligibility Criteria

- Must be a Cal Grant B or C recipient that received a full-time Cal Grant payment
- Must be enrolled full-time (12 units or more)
- Must be meeting Federal Satisfactory Academic Progress (SAP) standards
- Must have unmet need to receive the SSCG

The purpose of the SSCG grant is to provide students with additional financial aid to help offset the total cost of community college attendance, and to encourage full-time attendance and successful on-time completion.

Extended Opportunity Programs & Services (EOP&S) is a state program that provides special services and assistance to full-time eligible students who are California residents.

Institutional Assistance Programs

Scholarships

There are many scholarships available to assist you with the cost of education. Remember, scholarships are a form of gift aid and do not need to be repaid. You are encouraged to seek outside scholarships. Scholarship search websites like www.fastweb.com can provide many resources.

LCC has an annual scholarship and awards night in May. Scholarship applications are available in the Financial Aid office usually the first week of March. All students are encouraged to pick up the scholarship packet and apply.

Definition of College Terms

Academic Probation - A student may be placed on probation for failure to maintain a 2.0 G.P.A. or failure to complete sufficient number of units.

Academic Progress - Maintaining a 2.0 G.P.A. in at least twelve units each semester.

Academic Renewal - A petition to have previous Lassen Community College work (grades and credits) excluded from current grade point average, if that prior work is at least one year old.

Academic Suspension - A situation caused by low academic or progress performance, in which the suspended student cannot enroll without approval from the appropriate dean.

Academic Year - Fall and Spring semesters.

Administrative Unit Outcomes (AUO) - Administrative Unit Outcomes (AUOs) are based on what a "client" will experience, receive or understand as a result of the services provided by the unit. AUOs are also based on the specific contributions the unit makes to the effective operation of the college in supporting student learning.

Associate Degree (A.A. or A.S.) - A degree (Associate in Arts or Associate in Science) granted by a community college.

Associate Degree for Transfer (A.A.-T or A.S.-T) - A degree (Associate in Arts or Associate in Science) granted by a community college that guarantees admission to a CSU campus.

Bachelor's Degree (B.A. or B.S.) - A degree granted by a four-year college or university.

Basic Skills Courses - Courses in reading, writing, computation or English as a Second Language designed to prepare students to succeed in college level course work. Numbered 100-120 at Lassen Community College.

Certificate of Accomplishment - A Certificate of Accomplishment will be awarded for degree-applicable credit course work ranging from three (3) units to less than sixteen (16) units unless statutory or license requirements necessitate a higher unit value (appropriate statutory or license documentation must be attached). The course work must be within a specific educational program.

Certificate of Achievement - A Certificate of Achievement will be awarded for degree-applicable credit course work ranging from sixteen (16) units to forty-two (42) units. The course work must be within a specific educational program and approved to be offered at Lassen Community College by the Chancellor's Office of the California Community Colleges.

Certificate of Competency (Noncredit) - A noncredit Certificate of Competency will be awarded for a program or sequence of courses that result in the student demonstrating achievement of a set of competencies that prepare him/her to progress in a career path or to undertake degree-applicable or non-degree applicable credit courses. The certificate is in a recognized career field articulated with degree-applicable coursework, completion of an associate

degree or transfer to a baccalaureate institution.

Certificate of Completion (Noncredit) - A noncredit Certificate of Completion will be awarded for a program or sequence of courses that prepare a student to progress in a career path or to undertake degree-applicable or non-degree applicable credit courses. The certificate is designed to result in improved employability or job opportunities.

Community Service Course - A course where the student pays for the full cost of instruction. Community service courses are not applicable to degrees or certificates, nor do they appear on a student's transcript.

Co-requisite - A course which must be taken at the same time as another course.

Course - A particular portion of a subject selected for study. This is identified by a course number, for example, Psychology 1.

Course Description - Brief statement about the content of a particular course.

Course Identification Numbering System (C-ID) - number next to a course signals that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses.

Credit - Refers to the units earned by completing a class.

Credit by Examination - Course or unit credits granted for demonstrated proficiency in a given area as determined by an examination.

Credit Course - Courses that are applicable to degrees and certificates. Numbered 1 -99 at Lassen Community College.

CSU - California State University System.

Education Plan - A list of courses required to complete educational goal.

Elective - Courses which are not required for the major or general education but are acceptable for credit. An elective course may be in the student's major area of study or any department of a college.

Federal Work Study (FWS) - A program of federal aid, which provides funds for student jobs.

Full-time Student - A student taking twelve or more units in the Fall or Spring semester, or six or more units in the summer semester.

General Education Requirements - Courses covering the broad area of thought and experience common to every person. The general education requirements for the Associate Degree and Transfer Degree may differ.

Good Standing - Indicates that a student's grade point average in the previous semester and cumulative grade point average is 'C' (2.0 G.P.A.) or better.

Grade Point Average - Grade point average (G.P.A.) indicates an overall level of academic achievement.

Hour - Same as credit, same as unit. (See Credit)

IGETC - The Intersegmental General Education Transfer

Curriculum permits a student to transfer from Lassen to a campus in either the California State University or some campuses of the University of California system without the need to take additional lower-division, general education courses to satisfy General Education requirements.

Lower Division/Upper Division - Lower Division are courses taken at the freshman and sophomore level and may be taken at a community college. Upper Division courses are taken at four-year institutions and may not be taken at the community college level.

Major - An organized program of courses leading to an Associate Degree, Occupational Certificate or Bachelor's Degree.

Matriculation - A process which brings a college and a student who enrolls for credit into an agreement for the purpose of realizing the student's educational objective.

Methods of Instructional Delivery - ways in which an instructor delivers course material and interacts with a student.

- **Traditional Classroom Delivery:** Instructor and student meet face to face in a classroom setting. Class format may vary to include lecture, lab, discussion or small group work.
- **Correspondence Delivery:** Instructor and student interact via mail or email. Packets of instructional material are sent to students to be completed and returned.
- **Hybrid Course** – A course in which some portion of the hours scheduled for traditional face to face delivery of instruction is replaced by online delivery. Exams and summative assessments must be administered during scheduled face-to-face hours. Access to a computer with internet access is required. [Requires separate Curriculum/Academic Standards Committee approval].
- **Online Delivery:** Instructor and student interact and deliver/receive instructional material online via email or course delivery software. Access to a computer with internet access is required
- **Online Course:** 100% of instruction delivered online, may include face to face proctored exams and instructor contact (for attendance accounting purposes more than 51% of course delivered by online instruction is considered online). [Requires separate Curriculum/Academic Standards Committee approval.]
- **Web-Enhanced Course** - A course in which additional information and resources may be made available to students online, and students may be required to do research and complete and/or submit assignments online. Quizzes may be administered online, but exams and summative assessments must be administered face-to-face. Access to a computer with internet access is

required. [Requires separate Curriculum/Academic Standards Committee approval.]

Noncredit Courses - These courses are not applicable to degrees or certificates and are non-transferable. They are numbered 150-189 at Lassen Community College.

OER- Open Educational Resource textbook indicates course uses digital course textbook that is free of charge to students.

Open Entry/Open Exit - Courses that may be added to a program of study throughout the semester; and may be completed upon fulfillment of course requirements at any time during the semester.

Pass/No Pass - A grading system by which units of credit, where credit indicated is a least a 'C' level, may be earned but no letter grade is assigned. Such units are not used in computing the grade point average.

Prerequisite - A course that a student must complete prior to enrollment in a higher level course.

Recommended Preparation - A course that a student is encouraged to complete prior to enrollment in a particular course to enhance academic success.

Student Learning Outcome (SLO) - Student Learning Outcomes refer to overarching specific observable characteristics developed by local faculty that allow them to determine or demonstrate evidence that learning has occurred as a result of a specific course, program, activity or process.

Transcript - A list of all credit courses taken at a college or university showing the final grade received for each course.

Transfer - Changing from one college to another.

Transferable Course - A course acceptable for credit at another institution.

Units - The measure of college credit given a course, usually on the basis of one unit for each lecture hour per week; or one unit for two to three laboratory hours per week.

Units Attempted - (UA) Total number of units in the courses for which a student has enrolled and received an A, B, C, D, F, W, Pass/No Pass.

Units Completed - (UC) Total number of units in the courses for which a student has received a grade of A, B, C, D, F or Pass/ No Pass.

U.C. or UC - The University of California System.

Variable Units - The range of units that may be earned in a given course.

Withdrawal - Dropping all classes.

Lassen College Career Pathways

For additional Career information please reach out to our Career/Transfer Center at
lcccareertransfer@lassencollege.edu.

Agricultural Studies

The Agricultural Studies Career Pathway will teach you effective animal husbandry skills, how to analyze the agricultural business market, and ranch management. This pathway prepares students to enter the workforce or to continue their education at a four year university. Certificates and nontransferable degrees would lead you to employment in occupations such as a landscaper, farm worker, artificial insemination (AI) of cattle, farm accountant, livestock feed sales, or park maintenance operator. Completing the transferrable degrees could lead to the following careers: agricultural sales/marketing, animal nutritionist, agricultural teacher, soil conservationist, veterinarians, or plant/animal geneticist.

TRANSFER DEGREES (AA & AS) 60 Units	NON-TRANSFER DEGREES (AA & AS) 60 Units	CERTIFICATES OF ACHEIVEMENT (CA) 16-42 Units	CERTIFICATES OF ACCOMPLISHMENT (COA) 3-15 Units
<ul style="list-style-type: none"> • Agriculture Animal Science AS-T • Agriculture Business AS-T • University Studies Agriculture Science AA 	<ul style="list-style-type: none"> • Agriculture Science & Technology AS 	<ul style="list-style-type: none"> • Agriculture Science & Technology CA 	<ul style="list-style-type: none"> • Animal Science COA • Agriculture Business COA • Horsemanship COA • Agriculture Irrigation COA

Arts & Humanities

The Arts and Humanities Career Pathway will explore literary traditions, media studies, and the importance of the historical perspective. The Art/Humanities Career Pathways prepares students to transfer to a four year university and achieve their Bachelor of Arts degree. Earning a Bachelor's degree in this pathway could lead to a career as a writer, teacher, museum curator, artist, or gallery director.

Business

If you choose the Business Career Pathway, you will explore careers opportunities such as accounting, finance, management, leadership, human resource management, and economic concepts. This pathway will prepare students to enter the workforce or continue their education at a four year university. Examples of careers f in this area may include data entry/word processing, Information Technician (IT) specialist, Database administrator, help desk technician, bookkeeper, administrative assistant, and frontline management Those earning a four year degree may find themselves working as a general manager, accountant, business owner, marketing manager, or data analyst/statistician.

Social Sciences & Education

This pathway will focus on understanding human beings, social problems, human diversity, and influences on development. Social Science and Education Career Pathway will prepare students to enter the workforce or continue their education at a four year university. Immediate workforce opportunities could include working as a child care site supervisor, classroom aide, or human services paraprofessional. If you decide to transfer to a four year university you could earn employment as a social worker, primary/secondary teacher, sociologist researcher, or college counselor.

Graduation:

Graduation is a time to celebrate achieving your academic accomplishment. Lassen College holds one graduation at the close of the spring term. Please submit your Petition to Graduate Form, found in your portal under forms, to the Counseling Office on or before the 10th week of the semester of graduation. This form must be submitted in order to participate in graduation and to receive your diploma. Nursing graduation is a separate, additional event for the nursing students. Please contact the nursing department for date and time.

Transfer:

If you are a student interesting in transferring to a four year institution please reach out to your counselor. It is critical to create an educational plan in order to adequately prepare to the institution of your choice. The Career/Transfer Center can assist you with career, program, and university exploration. A College/Career fair is hosts the annual event to help you explore a variety of opportunities on your journey.

Application assistance is provided as many institutions require you to apply 10 months before you intend to transfer. Please reach out to our Career/Transfer Center at lcctransfer@lassencollege.edu.

Degrees and Certificates

Philosophy and Criteria for Associate Degree & General Education

Courses that are designated to fulfill the general education and depth requirements shall meet the following philosophy. Lassen Community College offers a breadth of courses that are intended to prepare students to think and communicate clearly and effectively; to use mathematics; to understand the roles of inquiry in the major disciplines; to be aware of other cultures and times; to achieve insights gained through experience in thinking about ethical problems; and to develop the capacity for self-understanding. These courses will give students sufficient depth in a field of knowledge to contribute to lifetime interests as well as give the student the tools to navigate through complex life experiences. General education, included in the Associate Degree, is designed to introduce students to a variety of means to comprehend the modern world. This experience will assist students in their evaluation and appreciation of the physical environment, the culture, and the society in which they live. The criteria used to determine inclusion in the Associate Degree and General Education offerings includes those classes that foster understanding and evaluation of the natural sciences; social and behavioral sciences; humanities; language and rationality, including English composition and communication and analytical thinking; and physical health and activities. Lassen Community College programs are consistent with the institutional mission, purposes, demographics, and economics of the community it serves. (AP4025 Title V section 55061)

Associate Degree Requirements

Either an Associate in Arts or Associate in Science Degree shall be conferred upon those who satisfy all of the following requirements (Title V 51620-51626):

- Completion of at least sixty (60) units of courses (numbered 1 – 99) used toward the degree, 12 of which must be completed 'in residence' at Lassen Community College.
- Completion of a minimum of eighteen (18) units in a major or discipline as outlined in the college catalog.
- A minimum grade of 'P' (Pass) or 'C' is required in each core course toward a degree or certificate of achievement with an overall 2.0 grade point average required in all course work. Please see the general education areas and courses that are applicable for the associate degree.
- Completion of eighteen semester units of general education is required to give breadth. Students must complete one course from each of the following areas for a total of eighteen units:
 - Natural Science (3 Units)
 - Social and Behavioral Sciences (3 Units)
 - Humanities (3 Units)
 - Language and Rationality
 - English Composition (3 Units)
 - Communication and Analytical Thinking (3 Units)
 - Health and Physical Activities (3 Units)
- Mathematics Competency Requirement:** In order to obtain the Associate Degree from Lassen Community College, a student

must meet the math competency requirement. This requirement may be satisfied by either:

A 'C' or better in any three to five unit mathematics course at or above the Math 60 level from an accredited college or university. Or Score 3 or higher on the AP Calculus or Statistics exam.

6. **Reading Competency Requirement:** In order to obtain an Associate Degree from Lassen Community College, a student must meet the reading competency requirement. This requirement may be satisfied by:
 - A. A "C" or better in a transfer level composition course (ENGL-1); or higher or equivalent from an accredited college or university
 - B. Score 3 or higher on the AP Language and Composition or AP Composition and Literature exam; or
 - C. Possess an AA or AS degree.
7. **Writing Competency Requirement:** In order to obtain the Associate Degree from Lassen Community College, a student must meet the writing competency requirement. This requirement may be satisfied by completion of English 1 or a higher level course, with a 'C' or better or the equivalent from an accredited college or university.
8. **Remedial Courses:** Courses numbered 100-109 do not count toward an Associate Degree.
9. **Applying for Your Degree/Certificate:** You must apply (petition to graduate) for your degree or certificate in the Counseling Office approximately Forms are due Oct 15 for December graduation and March 15 for May or August graduation. Forms can be found in your portal or on our website.

Associate Degrees for Transfer

The Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code sections 66746-66749) guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer", a newly established variation of the associate degrees traditionally offered at a California Community College. The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. In order to earn one of these degrees, students must complete a minimum of 60 required semester units of CSU-transferable coursework with a minimum GPA of 2.0. Students transferring to a CSU campus that does accept the AA-T or AS-T will be required to complete no more than 60 semester units after transfer to earn a bachelor's degree (unless the major is a designated "high unit" major). This degree may not be the best option for students intending to transfer to a particular CSU campus or to university or college that is not part of the CSU system.

Associate Degree
for Transfer
A Degree with a Guarantee.™

Students should consult with an academic counselor when planning to complete the degree for more information on university admission and transfer requirements.

The following are required for all AA-T and AS-T degrees:

1. Completion of a minimum of 60 CSU-transferable semester units.
2. Minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. (While a minimum of 2.0 is required for admission, some majors may require a higher GPA. Please consult with an academic counselor for more information.)
3. Completion of a minimum of 18 semester units with a "C" or better (or a "P" if the course is taken on a "pass-no pass basis") in all courses required as a part of an AA-T or AS-T major as identified by the college catalog. (Title 5 § 55063)
4. Certified completion of the California State University General Education-Breadth pattern (CSU GE Breadth) OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern general education requirements (37-39 units).

Course Identification Numbering System (C-ID)

The Course Identification Numbering System (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. A C-ID number next to a course signals that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number. Thus, if a schedule of classes or catalog lists a course bearing a C-ID number, for example COMM 110, students at that college can be assured that it will be accepted in lieu of a course bearing the C-ID COMM 110 designation at another community college. In other words, the C-ID designation can be used to identify comparable courses at different community colleges. However, students should always go to www.assist.org to confirm how each college's course will be accepted at a particular four-year college or university for transfer credit.

The C-ID numbering system is useful for students attending more than one California community college and is applied to many of the transferable courses students need as preparation for transfer. Because these course requirements may change and because courses may be modified and qualified for or deleted from the C-ID database, students should always check with a counselor to determine how C-ID designated courses fit into their educational plans for transfer.

Credit Certificates

Certificate of Accomplishment

A Certificate of Accomplishment will be awarded for degree-applicable credit course work ranging from 3 units to 15.5 units unless statutory or license requirements necessitate a higher unit value (appropriate statutory or license documentation must be attached). The course work must be within a specific educational program. Does not have to be approved by the Chancellor's Office.

Certificate of Achievement

A Certificate of Achievement will be awarded for degree-applicable credit course work ranging from 16 units to 42 units. The course work must be within a specific educational program and approved to be offered at Lassen Community College by the Chancellor's Office. 8-15.5 units can be considered a certificate of Achievement if approved by the Chancellor's Office.

Noncredit Certificates

Noncredit Certificate of Completion

A noncredit Certificate of Completion will be awarded for a program or sequence of courses that prepare a student to progress in a career path or to undertake degree-applicable or non-degree applicable credit courses. The certificate is designed to result in improved employability or job opportunities.

Noncredit Certificate of Competency

A noncredit Certificate of Competency will be awarded for a program or sequence of courses that result in the student demonstrating achievement of a set of competencies that prepare him/her to progress in a career path or to undertake degree-applicable or non-degree applicable credit courses. The certificate is in a recognized career field articulated with degree-applicable coursework, completion of an associate degree or transfer to a baccalaureate institution.

General Education Student Learning Outcomes for Associate Degrees

Upon completion of this certification the student will be able to:

1. Understand and apply methods of inquiry for a variety of disciplines including the scientific method for scientific inquiry and appropriate methods for social and behavior science inquiries.
2. Explain and analyze relationships between science and other human activities.
3. Apply knowledge of the ways people act and have acted in response to their societies to express an appreciation for how diverse societies and social subgroups operate to understand social dynamics within historical and contemporary communities.
4. Understand ways in which people throughout the ages and in Western and non-Western cultures have responded to themselves and the world around them in artistic and cultural creation; apply this knowledge to make value judgments on cultural activities and artistic expressions and demonstrate an understanding of the interrelationship between the creative arts, the humanities and self.
5. Engage in verbal communication by participating in discussions, debates, and oral presentations utilizing proper rhetorical perspective, reasoning and advocacy, organization, accuracy, and the discovery, critical evaluation and reporting of information.
6. Compose effective written communications and essays with correct grammar, spelling, punctuation and appropriate language, style and format utilizing academically accepted means of researching, evaluating and documenting sources within written works.
7. Analyze, evaluate and explain theories, concepts and skills within varied disciplines using inductive and deductive processes and quantitative reasoning and application.
8. Demonstrate appreciation of themselves as living organism through their choices for physical health, activities, stress management, relationships to the social and physical environment, and responsible decision-making.

Courses that fulfill Career Technical Education And Non-Transfer Associate Degree General Education Requirements

AREA A. Natural Science (At least 3 units)

Agriculture 10, 19, 20

Anthropology 1

Biology 1, 4, 10, 20, 25, 26, 32, 32L

Chemistry 1A, 1B, 8, 45

Geology 1, 5

Physical Science 1

Physics 2A, 2B

AREA B. Social and Behavioral Science (At least 3 units)

Administration of Justice 5, 8, 10, 12, 20

Agriculture 2

Anthropology 2

Business 22

Child Development 31

Economics 10, 11

Ethnic Studies 1

Geography 2

History 14, 15, 16, 17

Political Science 1

Psychology 1, 5, 6, 18, 31, 33

Sociology 1, 2, 3, 4

AREA C. Humanities (At least 3 units)

Art 1A, 1B, 2, 3, 6, 7, 8, 10A, 19A

25, 30, 36A

English 2, 3, 4, 5, 7, 10, 12, 22, 33, 34

Film 1

History 14, 15, 16, 17

Humanities 1, 2

Interdisciplinary Studies 1, 2

Music 6, 7, 12

Philosophy 1, 10

Spanish 1, 2

AREA D. Language and Rationality (At least 3 units from AREA D1 and 3 units from AREA D2)

D1. English Composition

English 1, 9

D2. Communication and Analytical Thinking

Mathematics 1A, 1B, 7, 8, 11A, 11B, 40, 60

AREA E Health and Physical Activities (At least 3 units)

E1. Health and Activities

Biology 25, 26

Child Development 12, 22, 31

Counseling & Guidance 1

Health 2, 25

Administration of Justice

DEGREES

Associate in Science in Administration of Justice for Transfer
Associate in Arts in Administration of Justice

CERTIFICATE OF ACHIEVEMENT

Administration of Justice

CERTIFICATE OF ACCOMPLISHMENT

Administration of Justice

Many career opportunities are open to students who complete the Administration of Justice Program, which is designed to prepare students for employment following graduation or for transfer to a California State University offering an upper division major in Administration of Justice. Curriculum covers prevention, discovery, control and treatment of crimes and criminals, evidence collection, criminal law, community relations and other elements of the profession. Professionally rewarding jobs are available in local, state and federal law enforcement. The program is updated with the assistance of an advisory committee consisting of law enforcement and correctional science professionals.

As an Administration of Justice major, you will:

- Study the history, philosophy and theories of crime; the structure of the criminal justice, courts and correctional systems; elements of community relations and current careers.
- Develop skills in criminal investigations and prosecution, community relations and communication.
- Identify an area of specialization in the administration of justice field.

Career Options

Police Officer
Sheriff's Deputy
Court Personnel
Parole Agent
Probation Officer
Correctional Officer
Juvenile Services
Detention Personnel
Community Relations Officer

Internships in Administration of Justice may be available for students interested in Work Experience opportunities

Career Preparation

The Associates in Science Degree in Administration of Justice for Transfer prepares the student for transfer to a California State University.

The Associates in Arts Degree and Certificate of Achievement in Administration of Justice are designed to prepare students for local employment upon graduation.

Program Highlights

Lassen Community College offers its Administration of Justice Degrees by way of traditional classroom study or by correspondence delivery.

Associate Degree and Certificate of Achievement in Administration of Justice can be completed within two (2) years.

Some positions however require a four-year degree for which Lassen Community College's program is a good base for transfer.

Note to Transfer Students:

The benefit for students completing the AS-T degree is that the California State University (CSU) system is required to grant admission with junior status to any community college student who meets all of the requirements. "CSU is required to grant priority admission for a student with this associate degree to his or her local CSU campus and to a program or major that is similar to this major, as determined by the CSU campus to which the student is admitted."

Associate Degree
for Transfer™

Associate in Science in Administration of Justice for Transfer

Total units for the Associate in Science Degree with a minimum grade point average of 2.0: 60 units

Required Core Courses minimum grade of 2.0: 18 Units

Complete the following 6 Units:

Course No	Course Title	Units
AJ 12	Introduction to Criminal Justice	3.0
AJ 20	Criminal Law	3.0
Select 6 additional Units from the following:		
AJ 5	Introduction to Forensics	3.0
AJ 8	Criminal Court Process	3.0
AJ 9	Introduction to Correctional Science	3.0
AJ 14	Juvenile Procedures	3.0
AJ 23	Criminal Evidence	3.0

AJ 24	Community Relations	3.0
AJ-35	Investigative Techniques	3.0
Select 6 additional Units from the following:		
MATH 40	Elementary Statistics	3.0
PSY 1	Introduction to Psychology	3.0
SOC 1	Introduction to Sociology	3.0

Completion of either the CSU General Education or IGETC Option

Remaining Units to Total 60 Units may be selected from electives. Courses must be numbered 1 – 49

Program Student Learning Outcomes

Upon completion of the **Associate in Science Degree in Administration of Justice for Transfer**, the student will be able to:

1. Demonstrate an understanding of the workings of the criminal justice system by applying definitions, concepts, and principles to law enforcement, corrections and the courts.
2. Apply critical thinking to research, evaluate, analyze and synthesize the appropriate procedures for the collection of evidence and data in criminal case preparation for law enforcement agencies.
3. Develop, organize and write an objective report that meets the legal and detailed requirements of law enforcement agencies.

Agriculture

DEGREES

Associate in Science in Agriculture Animal Science for Transfer
Associate in Science in Agriculture Business for Transfer
Associate in Arts University Studies:
Emphasis in Agriculture Sciences
Associate in Science in Agriculture Science and Technology

CERTIFICATE OF ACHIEVEMENT

Agriculture Science and Technology

CERTIFICATES OF ACCOMPLISHMENT

Agriculture Business
Animal Science
Horsemanship
Agriculture Irrigation

Agriculture is a vital component of our local, state, and national economies and offers many exciting employment opportunities. LCC's Agriculture program offers courses of study for students interested in completing an associate degree or certificates and students interested in transferring to a California State University. The curricula are updated with the assistance of an industry advisory committee.

Agriculture Animal Science for Transfer

The Associate in Science in Agriculture in Animal Science for Transfer degree is designed to provide students with the common core of lower division courses required by most universities to transfer and pursue a baccalaureate degree in agriculture or animal science. Students completing the 60 units required for the degree are guaranteed transfer to an Agriculture Science, Animal Science, or Agriculture Studies program at a California State University, where only 60 more units will be required for a baccalaureate degree.

Agriculture Business for Transfer

The Associate in Science in Agriculture Business for Transfer degree is designed to provide students with the common core of lower division courses required by most universities to transfer and pursue a baccalaureate degree in agriculture business or agriculture studies. Students completing the 60 units required for the degree are guaranteed transfer to an Agriculture Business, Agriculture Studies, Agribusiness, Ag Business or Food Industry Management program at a California State University, where only 60 more units will be required for a baccalaureate degree.

Agriculture Sciences

The Associate in Arts University Studies: Emphasis in Agriculture Science provides students with an opportunity to build a broad foundation of knowledge and skills in core agriculture areas including plants, soils, and livestock designed to enhance their vocational future in a constantly changing society. It can also provide transfer opportunities for those seeking an advanced degree.

Agriculture Science and Technology

The Associate in Science in Agriculture Science and Technology degree provides a broad set of courses to prepare students for employment in the field of agriculture.

The Agriculture Irrigation

The Agriculture Irrigation Certificate of Accomplishment will prepare students with the knowledge and hands-on experience to operate and maintain selected irrigation systems.

As an Agriculture major, you will:

- Study an agriculture curriculum including: agriculture business, plant science and animal science.
- Identify the agricultural career you are most interested in and build a course of study to better qualify you for a profession.

Career Options

Management
Supervision
Government
Marketing
Distribution
Sales and Service
Nursery Management and
Operations Park Maintenance
Landscape Design
Teaching
Contracting & Maintenance
Fertilizer & Insecticide
Application
Retail/Wholesale
Estimator

Some positions however require a four-year degree for which Lassen Community College's program is a good base for transfer.

Program Highlights

- Lassen has A.I./Embryo Transfer classes which train students to be an A.I./Embryo Technician.
- The Agriculture Department sponsors a rodeo team that competes against other schools from California and Nevada in the National Intercollegiate Rodeo Association.
- An 336 sq. ft. All-Season Greenhouse
- One program designed to provide the student with a very specific set of skills in areas such as general agriculture, animal science and plant science
- Depending on the selected course of study, a student will be provided with the skills to acquire an entry-level position in the industry.

Note to Transfer Students:

The benefit for students completing the AS-T degree is that the California State University (CSU) system is required to grant admission with junior status to any community college student who meets all of the requirements. "CSU is required to grant priority admission for a student with this associate degree to his or her local CSU campus and to a program or major that is similar to this major, as determined by the CSU campus to which the student is admitted."

Program Student Learning Outcomes

Upon completion of the **Certificate of Accomplishment in Horsemanship**, the student will be able to:

1. Analyze pedigrees, evaluate horses for correct structure and balance, and select the most complete horse for the required task and design appropriate training program.
2. Demonstrate comprehension of correct procedures for horses and apply those practices in order to produce a well-trained horse in the Western or English disciplines.

Certificate of Accomplishment: Agriculture Irrigation

Total Units for the Certificate of Accomplishment–Agriculture Irrigation: 11 Units

Required Core Courses: 11 Units

Course No	Course Title	Units			
AGR 19	Introduction to Soil Science	3.0	AGR 42	Farm Surveying, Irrigation and Drainage	3.0
AGR 20	Introduction to Plant Science	4.0	AGR 49	Agricultural Work Experience	1.0

Program Student Learning Outcomes

Upon completion of the **Certificate of Accomplishment in Agriculture Irrigation** the student will be able to:

1. Analyze and make recommendation to improve the soil and positively impact the successful propagation of Plants.
2. Students will be able to implement at least two different irrigation systems.
3. Explain water movement in soil and understand water holding capacity.

Allied Health

DEGREES

Emphasis in Allied Health

Associate in Arts Degree University Studies:

AA Degree University Studies: Emphasis in Allied Health

The emphasis in Allied Health is designed to provide the lower division major courses to transfer to a university and earn a Bachelor's degree in a health or medical field. Students must meet with a counselor to ensure completion required coursework for chosen major and specific college/university.

As an Allied Health major, you will:

- Complete prerequisite courses for degrees in nursing, health care, occupational health and safety, or health care related fields.
- Explore a variety of science and general education courses.

Career Options

Community Health Educator
Family Planning Educator
Environmental Health Specialist
Health Program Coordinator
Physician's Assistant
Physical Therapist
Public Health Educator
Registered Nurse

Program Highlights

- Prerequisite courses for Registered Nursing (RN) upgrade programs
- Small class size
- Hands-on activities
- Associate Degree and Certificate of Achievement in Nursing and Allied Health can be completed within two (2) years.

Note to Transfer Students:

If you are interested in transferring to a four-year college or university to pursue a bachelor's degree in this major, it is critical that you meet with a counselor to select and plan the courses for your major. Schools vary widely in terms of the required preparation. The courses that Lassen Community College require for an associate degree in this major may be different from the requirements needed for the bachelor's degree.

Associate in Arts Degree University Studies: Emphasis in Allied Health

Total Units for the Associate in Arts Degree: 60 Units

Required Core Courses: 20 Units

Course No	Course Title	Units			
BIOL 20	Microbiology	5.0	ANTH 2	Cultural Anthropology	3.0
BIOL 25	Human Anatomy and Physiology I	4.0	CD/PSY 31	Child Development: Conception Through Adolescence	3.0
BIOL 26	Human Anatomy and Physiology II	4.0	HLTH 25	Understanding Nutrition	3.0
CHEM 8	Introduction to Organic and Biochemistry	4.0	SOC 1	Introduction to Sociology	3.0
PSY 1	Introduction to Psychology	3.0			

The following courses are generally required for health and medical degrees at four year colleges and universities. Please discuss with your counselor whether you need these and how they will fit into your General Education coursework:

Completion of either the CSU General Education or IGETC Option

Remaining Units to total 60 Units may be selected from courses numbered 1-49

Program Student Learning Outcomes

Upon completion of the **Associate in Arts Degree University Studies: Emphasis in Allied Health**, the student will be able to:

1. Analyze information available regarding risk factors to a healthy lifestyle as well as behaviors that promote a healthy lifestyle; understand the impact of positive and negative factors on one's own health; and make lifestyle choices and changes to best promote a wellness balance for one's own life.
2. Relate the structures and functions of the various body systems in a human organism to the metabolic activities of a single selected body cell.
3. Analyze and relate the appropriate identification techniques to be utilized in the diagnosis of a potential life threatening infection.
4. Demonstrate an understanding of the basic methodologies of science.

Art

DEGREE

Associate in Arts in Studio Art for Transfer

The Associate in Arts Degree in Art History for Transfer and the Associate in Arts Degree in Studio Art for Transfer are designed to provide students with strong foundations for the study of art history and studio art in order to transfer to a California State University.

Lassen's art curriculum offers introductory and intermediate level courses in painting, watercolor, computer art, drawing, sculpture, ceramics, printmaking and design, as well as courses in art appreciation and art history. Through the program's art theory and art practice classes, students develop an awareness and understanding of the materials, tools, rationale and significance of art in society.

The art curriculum's critical thinking and technical skills components encourage students to utilize independent thought processes and problem solving. This program provides transfer and employment opportunities as well as personal enrichment for students.

As an Art major, you will:

- Study a general visual arts curriculum that includes traditional course in drawing, painting, ceramics, photography, design, and art history, as well as digital imaging, courses using the latest software.
- Develop the techniques and skills necessary to begin to achieve your goals in the visual arts.
- Identify possible career courses and individual styles that suit your aims.

Career Options

Painter
Sculptor
Ceramist
Art Instructor
Illustrator
Printmaker
Computer Publishing Specialist
Graphic Designer
Gallery Director
Graphic Artist
Computer Artist

- An excellent full service facility, including studios for ceramics, traditional photography and jewelry design.
- Experience instructors who continued to create their own work, sharing their passion with you.
- Small class sizes that allow personal dialog with instructors.
- The subtle beauty of the Great Basin for inspiration.
- Work experience positions are available for students to broaden their studies.

Some positions however require a four-year degree for which Lassen Community College's program is a good base for transfer.

Associate Degree in Art can be completed within two (2) years

Internships in Art may be available for students interested in Work Experience opportunities.

Program Highlights

Note to Transfer Students:

The benefit for students completing the AA-T degree is that the California State University (CSU) system is required to grant admission with junior status to any community college student who meets all of the requirements. "CSU is required to grant priority admission for a student with this associate degree to his or her local CSU campus and to a program or major that is similar to this major, as determined by the CSU campus to which the student is admitted."

Associate Degree
for Transfer™

Associate in Arts in Studio Arts for Transfer

Total units for the Associate in Arts Degree with a minimum grade point average of 2.0: 60 units

ART 7	Survey of Art History Renaissance Through Contemporary	3.0	ART 30	Introduction to Sculpture	3.0
			ART 36A	Beginning Ceramics	3.0
Select 3 additional units from the following:			Completion of either the CSU General Education or IGETC Option		
ART 6	Survey of Art History: Prehistoric To Renaissance	3.0	Remaining Units to total 60 Units may be selected from courses numbered 1-49		
Select 9 additional units from the following:					
ART 3	Beginning Life Drawing	3.0			

Program Student Learning Outcomes

Upon completion of the **Associate in Arts in Studio Art for Transfer** the student will be able to:

1. Solve basic problems of visual expression using various techniques and mediums.
2. Produce basic realistic and nonrealistic drawings of various subjects using alternate styles.
3. Produce visual works of art in a variety of mediums.
4. Interpret, evaluate and critiques orally and in writing visual works of art.
5. Demonstrate knowledge of specific historical and cultural art styles.

Automotive Technology

DEGREE

Associate in Science in Automotive Technology

CERTIFICATES OF ACHIEVEMENT

Advanced Mechanics
Engine Repair

CERTIFICATES OF ACCOMPLISHMENT

Basic Mechanics
Electrical

CERTIFICATE OF COMPLETION

Automotive Chassis and Maintenance

The Automotive Technology Program is designed to prepare the student with the necessary skills to acquire an entry-level position in the automotive industry. The Program is also designed to assist those already employed in the industry and those in the community to improve their skills. The Automotive Program offers course work in engine repair, chassis electrical, automatic transmissions and other components. The curriculum is updated with the assistance of industry advisory committee.

As an Automotive major, you will:

- Study the diagnostic procedures necessary to determine simple and complex problems, fix them and provide ongoing maintenance.
- Develop an in-depth understanding of why cars work the way they do, allowing you to better fix and maintain vehicles, and provide a higher level of service.
- Identify terms associated with automobiles as well as automotive components along with basic identification and proper use of various hand and power tools and shop equipment.

Career Options

Mechanic
Parts Person
Service writer
Service manager
Fleet Repair

Some positions however require a four-year degree for which Lassen Community College's program is a good base for transfer.

Program Highlights

- Fully equipped auto shop
- Hands-on training
- One-on-one instruction

Internships in Automotive Technologies may be available for students interested in Work Experience opportunities

Associate in Science Degree Automotive Technology

Total Units for the Associate in Science Degree: 60 Units

Required Core Courses: 39 Units

Course No	Course Title	Units
AT 50	Car Care Basics	3.0
AT 54	Brakes	3.0
AT 56	Steering and Suspension	3.0
AT 58	Automotive Heating and Air Conditioning	3.0

AT 80	Basic Electrical	3.0			

Program Student Learning Outcomes

Upon completion of the **Certificate of Accomplishment – Automotive Electrical** the student will be able to:

- 1 Diagnose basic automotive electrical system malfunctions; execute the appropriate corrective steps and verify the problem has been resolved.
- 2 Perform preventative maintenance and basic electrical system testing to verify proper operation of automotive starting, charging, and lighting systems.

.....
Certificate of Completion in Automotive Chassis and Maintenance

Total Hours for the Certificate of Completion in Automotive Chassis and Maintenance: 102 Hours

Course No	Course Title	Hours
AT 150	Basic Skills: Pre High School Equivalency I	51
AT 151	Basic Skills: Pre High School Equivalency II	51

Program Student Learning Outcome

Upon completion of the **Certificate of Completion in Automotive Chassis and Maintenance** the student will be able to:

1. Inspect steering and suspension components for wear.
2. Perform common chassis alignment adjustments.
3. Perform common brake system repairs.
4. Perform automotive maintenance in accordance with industry standards.
5. Perform standard documentation found on automotive repair orders.

Biological Science

DEGREE

Associate in Science in Biology for Transfer
Associate in Arts University Studies:
Emphasis in Allied Health

The Associate in Science in Biology for Transfer is designed to provide students with a strong foundation for the study of entry-level biological science, chemistry and physics in preparation for transfer to a California State University. It is an excellent starting point for students interested in pursuing a baccalaureate degree in any area of biological science (general biology, cellular and molecular biology, ecological, evolution, & organismal biology, animal biology, plant biology, or microbiology). The biology major is designed to provide undergraduate preparation leading to careers in health professions and education.

As a Biology major, you will:

- Study a broad overview of biological science including molecular & cellular biology and evolutionary, organismal, & ecological biology in addition to physical science including chemistry and physics.
- Develop a solid foundation in the basic elements of scientific inquiry.
- Prepare to study and complete a baccalaureate degree in one of the biological sciences at a California State University.

The University Studies Degree with an emphasis in Allied Health is designed to provide the lower division major courses to transfer to a university and earn a Bachelor's degree in a health or medical field. Students must meet with a counselor to ensure completion of required coursework for chosen major and specific college or university

As an Allied Health major, you will:

- Complete prerequisite courses for degrees in nursing, health care, occupational health and safety, or health care related fields.
- Develop a solid foundation in the basic elements of scientific inquiry.

Career Options

Clinical Laboratory Scientist
Field Biologist
Forensic Scientist
Medical Doctor
Pharmacist
Physical Therapist
Public Health Educator
Registered Nurse
Teacher
Veterinarian

Program Highlights

- The Associate in Science in Biology for Transfer degree includes the core curriculum of transfer to a California State University.
- Small class size.
- Individual tutoring.
- Laboratory opportunities.

Note to Transfer Students:

The benefit for students completing the AS-T degree is that the California State University (CSU) system is required to grant admission with junior status to any community college student who meets all of the requirements. "CSU is required to grant priority admission for a student with this associate degree to his or her local CSU campus and to a program or major that is similar to this major, as determined by the CSU campus to which the student is admitted."

Associate Degree
for Transfer™

Associate in Science Degree in Biology for Transfer

Total units for the Associate in Science Degree with a minimum grade point average of 2.0: 60 units

Required Core Courses minimum grade 2.0: 32 Units

Course No	Course Title	Units			
BIOL 1	Principles of Molecular and Cellular Biology	4.0	MATH 1A	Analytic Geometry and Calculus I	5.0
			PHYS 2A	General Physics I	4.0
BIOL 4	Principles of Evolutionary and Organismal and Ecological Biology	5.0	PHYS 2B	General Physics II	4.0
CHEM 1A	General Chemistry I	5.0			
CHEM 1B	General Chemistry II	5.0			

Completion of either the CSU STEM (33 units) or IGETC STEM (31 units)

Remaining Units to total 60 Units may be selected from courses numbered 1-49

Program Student Learning Outcomes

Upon completion of the **Associate in Science Degree in Biology for Transfer** the student will be able to:

1. Apply the scientific method by stating a question; researching the topic; determining appropriate tests; performing tests; collecting, analyzing, and presenting data; and finally proposing new questions about the topic.
2. Apply critical thinking to the examination of the principles of biology, chemistry, and physics using proper laboratory techniques and procedures.
3. Demonstrate a basic understanding of the language, laws, theories and processes that are essential to the understanding of the structure of matter and how the structure determines its physical and chemical properties.
4. Describe the structure and function of molecular and cellular components and explain how they interact in a living cell.
5. Describe how cells interact to develop tissues and organs and how these contribute to a functional organism.
6. Demonstrate an understanding of the mechanisms driving evolution and describe similarities and differences of the major taxonomic groups.
7. Describe how organisms interact with one another, and to their environment and are able to explain interactions at the population and community levels.

Business

DEGREE

Associate in Science in Business
Administration for Transfer
Associate in Science in Accounting
Associates in Arts Degree in Economic for Transfer
Associate in Science in
Administrative Office Technician

CERTIFICATE OF ACHIEVEMENT

Administrative Office Technician
Small Business Management

Business Administration for Transfer

The Associate in Science Degree in Business Administration for Transfer is designed to provide students with the common core of lower division courses required by most universities to transfer and pursue a baccalaureate degree in Business Administration. This includes business degrees with options such as accounting, finance, human resources management, management, and marketing. Students must meet with a counselor to ensure completion of required coursework for chosen major and specific college/university.

Accounting

The Business Program's purpose is to provide students with the opportunity to build a solid foundation in core business skills, accounting, and develop new skills designed to enhance their vocational future in a constantly changing society, and provide transfer opportunities for those seeking an advanced degree. The student will study an introductory business curriculum including accounting, economics, small business management and mathematics.

Economics for Transfer

The Associate in Arts in Economics for Transfer is designed to provide students with the common core of lower division courses required by most universities to transfer and pursue a baccalaureate degree in Economics. This includes economic degrees with the options such as environmental and international economics.

Administrative Office Technician

The Administrative Assistant portion of the Business program is designed to define and develop knowledge, skills and attitudes needed by office professionals. The program offers preparation for first-time employment, re-entry, or career advancement. The curriculum is periodically updated with the assistance of a business advisory committee. The student will study a variety of topics including keyboarding/word processing, integrated office applications, organization and supervision of office activities, business communication, and general office procedures.

Small Business Management

The Certificate of Achievement in Small Business Management provides the knowledge and skills for students to be employed in entry level management positions and/or small business ownership. The student completing this certificate will have the basic knowledge of the stakeholder theory, legal implications in the business setting, structuring a small business, analyzing business documents, and contemporary U.S. business practices.

Career Options

Business Administration
Certified Public Accountant
Management Accounting
Auditor
Budget Analysis
Financial Accounts
Administrative Assistant
Bank Employee
Clerk
Data-Entry
Receptionist
Retail/Industrial Sales/Management
Small Business Ownership
Word Processor

Program Highlights

- Develop the skills needed for today's workplace by identifying your areas of interest early.
- Explore seemingly endless career opportunities from small retail shops to international corporations, every kind of company, organization and government agency relies on business expertise.
- Office Administrative Technician is among the most ubiquitous and comprehensive of professions with duties ranging from program management, content administration, staff supervision, and office administration to management analysis, travel arrangement, office machine maintenance, and dictation.

Associate Degree and Certificate of Achievement in Business can be completed within two (2) years.

Note to Transfer Students:

The benefit for students completing the AA-T or AS-T degree is that the California State University (CSU) system is required to grant admission with junior status to any community college student who meets all of the requirements. "CSU is required to grant priority admission for a student with this associate degree to his or her local CSU campus and to a program or major that is similar to this major, as determined by the CSU campus to which the student is admitted."

BUS 10	Human Resource Management	3.0	BUS 27	Business Communications	3.0

Program Student Learning Outcomes

Upon completion of the **Certificate of Achievement in Small Business Management**, the student will be able to:

1. Demonstrate an understanding of contemporary business principles, practices and organizational structures.
2. Write, proofread and revise common business communications.
3. Define common business terms, ideas, phrases and integrity as it applies to business stakeholders.
4. Demonstrate a basic understanding of the legal framework that surrounds contemporary U.S. business.
5. Identify human resource issues and their economic costs and benefits.

Careers

Certificate of Completion IT Support Professional

High School Equivalency Certificate of Completion

The purpose of the Certificate of Completion in High School Equivalency is to provide short term courses with small group instruction in the basic skills areas (Reading, writing, mathematics, science, and social studies). Students will be prepared with the knowledge and success required on a high school equivalency exam.

The IT Support Professional Certificate is designed to prepare students for an entry level job in Information Technology. The program offers five courses that cover key topics in IT support: troubleshooting, customer service, networking, system administration, security, and operating systems. Coursework includes a dynamic mix of video lectures, quizzes, and hands-on labs. Participants also will hear from Google employees with unique backgrounds and perspectives, whose own foundation in IT support served as a jumping-off point for their careers. By earning the Career Pathway Entry Certificates you will:

Goals

- Gain knowledge of basic skills
- Career Advancement
- Work Based Learning

Program Highlights

- Short term and flexible scheduling
- Small class size
- Individualized tutoring
- Hands on learning opportunities

Certificate of Completion in High School Equivalency

Total Hours for the Certificate of Completion in High School Equivalency: 176 Hours

Course No	Course Title	Hours
BS 170	Basic Skills: Pre High School Equivalency I	136
BS 171	Basic Skills: Pre High School Equivalency II	40

Program Student Learning Outcome

Upon completion of the **Certificate of Completion in High School Equivalency** the student will be able to:

Demonstrate the basic skills foundation required to take the high school equivalency test.

Certificate of Completion in IT Support Professional

Total Hours for the Certificate of Completion in Career Pathway Entry: 150 Hours

Course No	Course Title	Hours	Course No	Course Title	Hours
CS 150	Tech Support	30	CS 153	System Administration	30
CS 151	Bits and Bytes	30	CS 154	IT Security	30
CS 152	Operating Systems	30			

Program Student Learning Outcome

Upon completion of the **Certificate of Completion in IT Support Professional** the student will be able to:

1. Assemble a computer from scratch and install an operating system
2. Build a network layer and compile the five-layer network model
3. Explain the components of the Windows and Linux operating systems and through a series of hands-on labs, perform critical tasks like managing software and users, working with system logs and remote connection tools, and configuring hardware
4. Describe the different facets of information technology, like computer hardware, the Internet, computer software, troubleshooting, and customer service
5. Upon completion of this course, the student will be able to describe the different facets of information technology, like computer hardware, the Internet, computer software, troubleshooting, and customer service
6. Grasp the fundamentals of computer networking, from modern networking technologies and protocols to an overview of the cloud to practical applications and network troubleshooting
7. Apply infrastructure service management techniques that keep all organizations up and running, like managing and configuring servers, managing cloud resources, and using industry tools to manage computers, user information, and user productivity
8. And describe a wide variety of IT security concepts, tools, and best practices, including how to safeguard data, types of network security solutions, and how to integrate a culture of security into your organization or team

Child Development

DEGREES

Associate in Science in Early Childhood Education
for Transfer
Associate in Arts Child Development

CERTIFICATE OF ACHIEVEMENT

Child Development

CERTIFICATE OF ACCOMPLISHMENT

Child Development Associate Teacher

The Associate in Science Degree in Early Childhood Education for Transfer is designed to provide the lower division major courses to transfer to a California State University and earn a Bachelor's degree in Child Development or Early Childhood Education.

Child Development is a vital component to our local, state and national system of care and education for young children and offers many exciting career opportunities. The program is designed to prepare students to qualify for a variety of permits issued by Teacher Credentialing, State of California. These permits include an associate teacher, teacher, master teacher, and site supervisor permit. Receiving an A.A. in Child Development also meets the requirement to teach in a National Head Start Program.

As a Child Development major you will:

- Study effective principle and practices of child development, in order to provide quality care and education to children 0-5.
- Develop a disposition for and strategies to communicate effectively with children, parents, peers and the community.
- Identify the theoretical base for child development and the different curriculum structures to form your own philosophy of how to best meet the whole child needs of children.
- Identify a wide range of career opportunities and gear your course of study to that career.

Career Options

Assistant Teacher	Parent Educator
Associate Teacher	Family Service Worker

Master Teacher	Classroom Aide
Site Supervisor	

Program Highlights

- Two specialty areas for a master teacher
- Courses in early literacy
- Courses in violence prevention
- Variety of courses in creative arts
- Correspondence courses in the core curriculum

Associate Degree and Certificate of Achievement in Child Development can be completed within two (2) years.

Internships in Child Development may be available for students interested in Work Experience opportunities.

Some positions however require a four-year degree for which LCC's program is a good base for transfer.

Note to Transfer Students:

The benefit for students completing the AS-T degree is that the California State University (CSU) system is required to grant admission with junior status to any community college student who meets all of the requirements. "CSU is required to grant priority admission for a student with this associate degree to his or her local CSU campus and to a program or major that is similar to this major, as determined by the CSU campus to which the student is admitted."

Associate Degree
for Transfer™

Associate in Science Degree in Early Childhood Education for Transfer

Total units for the Associate in Science Degree with a minimum grade point average of 2.0: 60 units

Required Core Courses minimum grade 2.0: 25 Units

Course No	Course Title	Units	CD 25	Teaching in a Diverse Society	3.0
CD 11	Observation and Assessment	3.0	CD/PSY 31	Child Development: Conception	3.0
CD 12	Child, Family and Community	3.0		Through Adolescence	
CD 16	Introduction to Curriculum	3.0			
CD 19	Children's Nutrition, Health and Safety	3.0			
CD 20	Principles and Practices of Teaching Young Children	3.0			
CD 24	Practicum	4.0			

Completion of either the CSU General Education or IGETC Option

Remaining Units to total 60 Units may be selected from courses numbered 1-49

Program Student Learning Outcomes

Upon completion of the **Associate in Science Degree in Early Childhood Education for Transfer**, students will be able to:

1. Integrate understanding of the needs, the characteristics and multiple influences on development of children birth to age eight as related to high quality care and education of young children.
2. Design, implement and evaluate environments and activities that support positive, developmental play and learning outcomes for all young children.
3. Apply effective guidance and interaction strategies that support all children's social learning, identity, and self-confidence.
4. Develop strategies that promote partnerships between programs, teachers, families and their communities.
5. Demonstrate ethical standards and professional behaviors that deepen understanding, knowledge and commitment to the EC/CD profession.

Associate in Arts Degree Child Development

Total Units for the Associate in Arts Degree: 60 Units

Required Core Courses: 38 Units

Course No	Course Title	Units
CD 11	Observation and Assessment	3.0
CD 12	Child, Family and Community	3.0
CD 16	Introduction to Curriculum	3.0
CD 19	Children's Nutrition, Health and Safety	3.0
CD 20	Principles and Practices of Teaching Young Children	3.0
CD 22	The Infant/Toddler	3.0
CD 23	Adult Supervision in the Child Care Setting	3.0
CD 24	Practicum	4.0
CD 25	Teaching in a Diverse Society	3.0
CD/PSY 31	Child Development: Conception Through Adolescence	3.0
CD 50	ECE Child Health and Safety	1.0

Students must complete six units from either the Site Supervisor or Master Teacher paths:

Site Supervisor

Course No	Course Title	Units
CD 15	Pre-School Administration	3.0
CD 26	Administration II	3.0

Master Teacher

Course No	Course Title	Units
CD 17	Children's Literature	3.0
CD 30	Early Steps to Reading Success	3.0

Required Electives: The student must complete 3 units from the following courses:

Course No	Course Title	Units
CD 15	Pre-School Administration	3.0
CD 17	Children's Literature	3.0
CD 26	Administration II	3.0
CD 27	Children with Special Needs	3.0
CD 28	Child Guidance	3.0
CD 30	Early Steps to Reading Success	3.0
CD 49	Child Development Work Experience	1.0-8.0

Electives: 4 Units - The student may select from any courses numbered 1-99 to satisfy this requirement.

General Education Requirements: 18 Units

Certificate of Achievement Child Development

Total Units for the Certificate of Achievement: 26 Units

Required Core Courses: 26 Units

Course No	Course Title	Units
CD 12	Child, Family and Community	3.0
CD 16	Introduction to Curriculum	3.0
CD 19	Children's Nutrition, Health, and Safety	3.0
CD 20	Principles and Practices of Teaching Young Children	3.0
CD 22	The Infant/Toddler	3.0
CD/PSY 31	Child Development: Conception Through Adolescence	3.0
CD 50	ECE Child Health and Safety	1.0

Program Student Learning Outcomes

Upon completion of the **Associate in Arts Degree** or the **Certificate of Achievement in Child Development**, the student will be able to:

1. Analyze the influence of culture, family, society, and environment on an individual's development.
2. Design, implement and evaluate environments and activities that support positive, developmental play and learning outcomes for all young children.
3. Apply effective guidance and interaction strategies that support all children's social learning, identity, and self-confidence.

English

DEGREE

Associate in Arts in English for Transfer

The Associate in Arts Degree in English for Transfer is designed to provide students with a strong foundation for the study of literature and composition in order to transfer to a California State University. It is an excellent starting point for students interested in pursuing a baccalaureate degree in English. The core course work is designed to provide undergraduate preparation analyzing written works, recognizing crucial elements of poetry, fiction and drama, and utilizing primary and secondary sources to effectively support a premise.

As an English major, you will:

- Be exposed to the field of English through courses that are academically rigorous and content appropriate.
- Learn the skills necessary to gather, interpret, and analyze quantitative and qualitative data.

Career Options

Poet
 Writer
 Lawyer
 Teacher
 Journalist
 Any career in which writing is important

Associate Degree in English for transfer can be completed within two (2) years.

Career Preparation

The Associates in Arts Degree in English for Transfer prepares the student for transfer to a four-year college or university.

Program Highlights

Core curriculum in English for transfer to a California State University
 Small class size
 Individualized tutoring

Note to Transfer Students:

The benefit for students completing the AA-T degree is that the California State University (CSU) system is required to grant admission with junior status to any community college student who meets all of the requirements. "CSU is required to grant priority admission for a student with this associate degree to his or her local CSU campus and to a program or major that is similar to this major, as determined by the CSU campus to which the student is admitted."

for Transfer™

Associate in Arts Degree in English for Transfer

Total Units for the Associate in Arts Degree with a minimum grade point average 2.0: 60 Units

Required Core Courses minimum grade 2.0: 18 Units

Course No Course Title Units

Take the following 6 units

ENGL 2 Introduction to Literary Types 3.0

ENGL 9 Critical Thinking and Composition 3.0

List A – Take 6 units (Select 2)

ENGL 3 British Literature I 3.0

ENGL 4 British Literature II 3.0

ENGL 12 Survey of American Literature II 3.0

List B – Take 3 units

ENGL 5 Survey of World Literature II 3.0

ENGL 10 Shakespeare 3.0

List C – Take 3 units

ENGL 1 College Composition 3.0

ENGL 22 Creative Writing 3.0

ENGL 33 Studies in Fiction 3.0

ENGL 34 Studies in Poetry 3.0

Completion of either the CSU General Education or IGETC Option

Remaining Units to total 60 Units may be selected from courses numbered 1-49

Program Student Learning Outcomes

Upon completion of the **Associate in Arts Degree in English for Transfer** student will be able to:

1. Demonstrate analytical and critical thinking skills through the production of written and oral critical responses to texts
2. Given an assignment to read a literary work, the student will identify and analyze crucial elements of fiction, poetry and drama
3. Demonstrate the ability to find, evaluate, and interpret primary and secondary sources, utilize summary, paraphrase and direct quotes to support a premise, and apply guidelines for MLA documentation to appropriately document information within written essays.

Fire Technology

DEGREE

Associate in Science in Fire Technology

CERTIFICATE OF ACHIEVEMENT

Fire Technology

The Associate in Science Degree in Fire Technology is designed to provide students with updated skills and knowledge necessary to successfully compete for fire service positions. The curriculum serves as an in-service program as well as pre-employment program for students seeking employment or advancement in the profession of urban firefighting and wildland fire suppression.

As a fire technology major, you will:

- Study a broad overview of fire technology including: fire behavior, fire prevention, fire protection equipment and systems.
- Study the organizational structures and management techniques used in wildland fire suppression.
- Study the tactics used in urban firefighting.

Career Options

Firefighter
Inspector
Investigator
Supervisor
Manager

Some positions however require a four-year degree for which

LCC's program is a good base for transfer.

Basic Wildland Firefighter

CERTIFICATE OF ACCOMPLISHMENT

Fire Technology

Program Highlights

* Up-to-date technical information

Associate Degree and Certificate of Achievement in Fire Technology can be completed within two (2) years.

Internships in Fire Technology may be available for students interested in Work Experience opportunities.

Associate in Science Degree in Fire Technology

Total Units for the Associate in Science Degree: 60 Units

Required Core Courses: 18 Units

Course No	Course Title	Units
FS 3	Fundamentals of Fire Prevention	3.0
FS 4	Fire Protection Equipment and Systems	3.0
FS 5	Fire Orientation and Organization	3.0
FS 6	Building Construction for Fire Protection	3.0
FS 13	Fire Behavior and Combustion	3.0
FS 14	Principles of Fire Safety and Survival	3.0
Required Elective: 12 Units: select from the following listing:		
BUS 25	Small Business Management	3.0
BUS 27	Business Communications	3.0
EMT 21	Emergency Medical Responder	2.5
EMT 60	Emergency Medical Technician-1 (Basic)	6.5
FS 8	Wildland Fire Suppression	2.0
FS 20	First Aid/CPR for Public Safety Employees	0.5
FS 23	Firing Operations (S-219)	1.0
FS 26	Basic Air Operations (S-270)	1.0
FS 49	Fire Technology Work Experience	1.0-8.0
FS 50	Rapid Intervention Crew	0.5
FS 51	Introduction to Fire Technology Careers	1.0
FS 54	National Incident Management Systems	0.5
FS 56	Helicopter Crewmember (S-271)	2.0
FS 57	Vehicle Extrication	1.0
FS 59	Confined Space Awareness	0.5
FS 60	Wildland Firefighter (CDF Basic 67)	3.0
FS 60A	Basic Fire Crew Firefighter	3.0
FS 61	Basic Firefighter Training (Basic 32)	2.0

FS 64	Instructor 1 Instructional Methodology	2.5
FS 65A	Driver/Operator 1A: Emergency Vehicle	1.5
FS 65B	Driver Operator 1B: Pump Operations	1.5
FS 65C	Wildland Fire Apparatus Operation	0.5
FS 70	Heavy Equipment Boss (S-236)	1.0
FS 70A	Single Resource Boss Academy	2.5
FS 70B	Engine Boss (Single Resource)	1.0
FS 72	HazMat First Responder Operations	1.0
FS 72A	HazMat First Responder Refresher	0.5
FS 74	Fire in the Interface (S-215)	1.5
FS 75	Fire Behavior (S290)	2.0
FS 76	Firefighter Type 1 (Squad Boss S-131)	0.5
FS 77	Human Factors on the Fireline (L-180)	0.5
FS 78	Fellowship to Leadership (L-280)	1.0
FS 79A	Ground Support Unit Leaders (S-355)	2.0
FS 80	Firefighter Survival	0.5
FS 81	Wildland Firefighter Safety and Survival	0.5
FS 84	Lessons Learned (Fatalities Fire Case Studies)	1.0
FS 85	Understanding Maps, Compass And GPS	1.0
FS 89	Wildland Fire Chainsaws (S-212)	1.5
FS 90	Portable Pumps and Water Use S-211	1.0
FS 97	Fire Control 4	0.5
FS 98.18	Annual Fireline Safety Refresher Training	0.5
FS 98.20	Annual Hired-Equipment Refresher Training	0.5
FS 98.21	Volunteer Firefighter Academy	2.5

Electives: 12 Units (The student may select any courses numbered 1-99 to satisfy this requirement.)

General Education Requirements: 18 Units

Certificate of Achievement Fire Technology

Total units for the Certificate of Achievement: 30 Units

Required Core Courses: 18 Units

Course No	Course Title	Units
FS 3	Fundamentals of Fire Prevention	3.0
FS 4	Fire Protection Equipment and Systems	3.0
FS 5	Fire Orientation and Organization	3.0
FS 6	Building Construction for Fire Protection	3.0
FS 13	Fire Behavior and Combustion	3.0
FS 14	Principles of Fire Safety and Survival	3.0

FS 60A	Basic Fire Crew Firefighter	3.0
FS 61	Basic Firefighter Training (Basic 32)	2.0
FS 64	Instructor 1 Instructional Methodology	2.5
FS 65A	Driver/Operator 1A: Emergency Vehicle	1.5
FS 65B	Driver/Operator 1B: Pump Operations	1.5
FS 65C	Wildland Fire Apparatus Operations	0.5
FS 70	Heavy Equipment Boss (S-236)	1.0
FS 70A	Single Resource Boss Academy	2.5
FS 70B	Engine Boss (Single Resource)	1.0
FS 72	HazMat First Responder Operations	1.0
FS 72A	HazMat First Responder Refresher	0.5

Required Elective: 12 Units (Select from the following)

Course No	Course Title	Units
BUS 25	Small Business Management	3.0
BUS 27	Business Communications	3.0
EMT 21	Emergency Medical Responder	2.5
EMT 60	Emergency Medical Technician-1 (Basic)	6.5
FS 8	Wildland Fire Suppression	2.0
FS 20	First Aid/CPR for Public Safety Employees	0.5
FS 23	Firing Operations (S291)	1.0
FS 26	Basic Air Operations (S-270)	1.0
FS 49	Fire Technology Work Experience	1.0-8.0
FS 50	Rapid Intervention Crew	0.5
FS 51	Introduction to Fire Technology Careers	1.0
FS 54	National Incident Management System	0.5
FS 56	Helicopter Crewmember (S-271)	2.0
FS 57	Vehicle Extrication	1.0
FS 58	Introduction to Wildland Fire Behavior	0.5
FS 59	Confined Space Awareness	0.5
FS 60	Wildland Firefighter (CDF Basic 67)	3.0

FS 74	Fire in the Interface (S-215)	1.5
FS 75	Fire Behavior (S-290)	2.0
FS 76	Firefighter Type 1 (Squad Boss S-131)	0.5
FS 77	Human Factors on the Fireline (L-180)	0.5
FS 78	Followership to Leadership (L-280)	1.0
FS 79A	Ground Support Unit Leaders (S-355)	2.0
FS 80	Firefighter Survival	0.5
FS 81	Wildland Firefighter Safety and Survival	0.5
FS 84	Lessons Learning (Fatalities Fire Case Studies)	1.0
FS 85	Understanding Maps, Compass And GPS	1.0
FS 89	Wildland Fire Chainsaws (S-212)	1.5
FS 90	Portable Pumps and Water Use S-211	1.0
FS 97	Fire Control 4	0.5
FS 98.18	Annual Fireline Safety Refresher Training	0.5
FS 98.20	Annual Hired-Equipment Refresher Training	0.5
FS 98.21	Volunteer Firefighter Academy	2.5

Program Student Learning Outcomes

Upon completion of the **Associate in Science Degree** or the **Certificate of Achievement in Fire Technology**, the student will be able to:

Safely perform basic firefighting skills as part of the Incident Command System in preparation for an entry-level position at most firefighting agencies.

Certificate of Achievement Basic Wildland Firefighter

Total units for the Certificate: 19 – 19 Units

Required Core Courses: 18-19 Units

Course No	Course Title	Units
FS 5	Fire Organization and Management	3.0
FS 8	Wildland Fire Suppression	2.0
FS 20 OR	First Aid/CPR for Public Employees	0.5
EMT 21	Emergency Medical Responder	2.5
FS 51	Introduction to Fire Careers	1.0
FS 61	Basic Firefighter Training (Basic 32)	2.0

FS 72	HazMat First Responder Operations	1.0
FS 74	Fire in the Interface (S 2-15)	1.5
FS 78	Followership to Leadership (L-280)	0.5
FS 81	Wildland Firefighter Safety and Survival	0.5
FS 85	Understanding Maps Compass & GPS	1.0
FS 89	Wildland Fire Chainsaws (S-212)	1.5
FS 98.21	Volunteer Firefighter Academy	2.5

Program Student Learning Outcomes

Upon successful completion of the **Certificate of Achievement Basic Wildland Firefighter**, the student will be able to:

1. Demonstrate basic knowledge of fire physics and behavior.
2. Understand and demonstrate the physical requirements to become a wildland firefighter.
3. Understand the basic skills needed to respond to all risks in emergency incidents
4. Perform the basic duties of an entry level firefighter such as line construction, safe and proper use of fire line hand tools including chain saws, safe and proper use of pumps, first aid/CPR, recognizing and dealing with hazardous situations involving hazardous materials, ability to complete an application for employment, fire line safety, radio operation.

.....
Certificate of Accomplishment Fire Technology

Total units for the Certificate: 13.5 Units

Required Core Courses: 13.5 Units

Course No	Course Title	Units	FS 61	Basic Firefighter Training (Basic 32)	2.0
EMT 21	Emergency Medical Responder	2.5	FS 72	HazMat First Responder Operations	1.0
FS 20	First Aid/CPR for Public Employees	0.5	FS 80	Firefighter Survival	1.0
FS 59	Confined Space Awareness	0.5	FS 81	Wildland Firefighter Safety and Survival	0.5
FS 60	CAL-FIRE Basic Training	3.0	FS 98.21	Volunteer Firefighter Academy	2.5

Program Student Learning Outcomes

Upon successful completion of the **Certificate of Accomplishment Fire Technology**, the student will be able to:

1. Demonstrate an understanding of fire behavior.
2. Identify Command staff and how they fit into ICS structure
3. Recognize Critical structural fire ground factors
4. Be able to perform CPR

General Education Transfer Curriculum

CERTIFICATES OF ACHIEVEMENT

CSU General Education
Intersegmental General Education Transfer Curriculum (IGETC)

The Certificates of Achievement are inclusive of requirements for CSU General Education Certification or IGETC Certification. These certifications may be requested by the student to be sent to UC or CSU campus of their choice.

California State University General Education Certificate of Achievement

CSU General Education Certification of Achievement requires a minimum of 39 units.
Minimum GPA of **2.00** overall and Area A and B4 must be a "C" or better.

AREA A - English Language and Critical Thinking

The student must take one course from each area:

1. Oral Communications: Speech 1
2. Written Communications: English 1
3. Critical Thinking: English 7, English 9

AREA B - Scientific Inquiry and Quantitative Reasoning

The student must take one course from each area including one (L) Lab Science course:

1. Physical Universe:

- Agriculture 19 (L)
- Chemistry 1A (L), 1B (L), 8 (L), 40, 40L (L), 45 (L)
- Geology 1 (L), 5 (L)
- Physical Science 1
- Physics 2A (L), 2B (L)

2. Life Forms:
 - Agriculture 10 (L), 20 (L)
 - Anthropology 1
 - Biology 1 (L), 4 (L), 10 (L), 20 (L), 21 (L), 22 (L), 25 (L), 26 (L), 32, 32L (L)
3. Laboratory Science (L):
 - Any of the above (L) courses
4. Mathematics/Quantitative Reasoning:
 - Math 1A, 1B, 7, 8, 11A, 11B, 40

AREA C - Arts and Humanities

The student must take 3 of the following courses, limit 2 in one area.

1. Arts (Art, Dance, Music, Theater):
 - Art 1A, 1B, 2, 3, 6, 7, 8, 10A, 30, 36A
 - Film 1
 - Music 6, 7, 12

2. Humanities (Literature, Philosophy, Foreign Languages):
 - English 2, 3, 4, 5, 10, 12, 33, 34
 - History 14, 15, 16, 17
 - Humanities 1, 2
 - IDS 1, 2
 - Philosophy 1, 10
 - Spanish 1, 2

AREA D - Social Sciences

The student must take a minimum of 9 units with courses taken from at least two disciplinary perspectives.

- Administration of Justice 10, 12, 20
- Anthropology 2
- Agriculture 2
- Child Development 31
- Economics 10, 11
- Ethnic Studies 1

- Geography 2
- History 14, 15, 16*, 17*
- Political Science 1*
- Psychology 1, 5, 6, 18, 31
- Sociology 1, 3, 4

* **CSU Graduation Requirement:** US History, Constitution, and American Ideals - Completion of one course in American History and one course in American Government is a requirement to graduate from any CSU campus. Students may select one combination from the following to fulfill this requirement; these courses may be double counted with Area D:

- (1) History 16 and 17
- (2) History 16 and Political Science 1
- (3) History 17 and Political Science 1

AREA E - Lifelong Understanding and Self-Development

The student must take one course or 3 units from the following courses:

- Child Development 31
- Counseling & Guidance 1
- Health 2, 25
- Human Services 30

- Physical Education 15
- Psychology 1, 18, 31, 33
- Sociology 3

Intersegmental General Education Transfer Curriculum (IGETC) Certification

IGETC General Education Certificate of Achievement requires 37 Units. Minimum GPA of **2.00** overall and a grade of “C” or better in each course. Completion of Areas 1, 2, 3, 4, 5; Demonstrate Foreign Language Proficiency. ** Indicates that transfer credit may be limited by either UC or CSU or both. Please consult with a Counselor.

AREA 1: English Communication 9 units (One from each group)

English 1

English 7 or 9

Speech 1

AREA 2: Mathematical Concepts and Quantitative Reasoning 3 units

Math 1A, 1B, 8, 40

AREA 3: Arts and Humanities 9 units - At least 3 courses, with at least one from Arts and one from Humanities.

Arts:

Art 6, 7, 8

Film 1

Music 6, 7, 12

Humanities:

English 2, 3, 4, 5, 10, 12, 33, 34

History 14, 15, 16, 17

Humanities 1, 2

Philosophy 1, 10

Spanish 2

AREA 4: Social and Behavioral Sciences 9 units -At least three courses from at least 2 disciplines.

A. Anthropology/Archaeology: ANTH 2, 3

B. Economics: AGR 2, ECON 10, 11

C. Ethnic Studies: ES 1

D. Gender Studies: SOC 4

E. Geography: GEOG 2

F. History: HIST 14, 15, 16*, 17*

G. Interdisciplinary: CD 31

H. Political Science: PLCS 1*

I. Psychology: PSY 1, 5, 6, 18, 31

J. Sociology/Criminology: AJ 12, SOC 1, 2, 3

AREA 5: Physical and Biological Sciences 7 – 9 units. At least 2 courses, one Physical Science and one Biological Science; at least one must include a laboratory (indicated by “L” in parentheses).

Physical Sciences:

Agriculture 19

Chemistry 1A (L), 1B (L), 8 (L), 40, 40 (L), **45 (L)

Geology 1 (L), 5 (L)

**Physical Science 1

Physics 2A (L), 2B (L)

Biological Sciences:

Agriculture 10, 20

Anthropology 1

Biology 1 (L), 4 (L), 10 (L), 20 (L), 21 (L), 22 (L), 25 (L),

26 (L), 32, 32L (L)

Language Other Than English (UC Requirement Only) Complete 2 years of the same Foreign Language of high school level work with a grade of “C” or better or earn a score of 3 or higher on the Foreign Language Advanced Placement Test, or 550 on the College Board Achievement Test in Foreign Language or complete 4 units from the courses below.

The following course at this institution fulfills the requirement (1 course, 4 semester units): Spanish 1, IDS 1, IDS 2

*** CSU Graduation Requirement Only - U.S. History, Constitution and American Ideals, 6 semester units**

Courses may not be applied to Area 4 if used to meet Constitution requirements for CSU

Group 1 Political Science 1

Group 2 History 16, 17

Program Student Learning Outcomes

California State University General Education Certificate of Achievement Intersegmental General Education Transfer Certificate of Achievement (IGETC)

Upon completion of this certification the student will be able to:

1. Understand and apply methods of inquiry for a variety of disciplines including the scientific method for scientific inquiry and appropriate methods for social and behavior science inquiries.
2. Explain and analyze relationships between science and other human activities.
3. Apply knowledge of the ways people act and have acted in response to their societies to express an appreciation for how diverse societies and social subgroups operate to understand social dynamics within historical and contemporary communities.
4. Understand ways in which people throughout the ages and in Western and non-Western cultures have responded to themselves and the world around them in artistic and cultural creation; apply this knowledge to make value judgments on cultural activities and artistic expressions and demonstrate an understanding of the interrelationship between the creative arts, the humanities and self.
5. Engage in verbal communication by participating in discussions, debates, and oral presentations utilizing proper rhetorical perspective, reasoning and advocacy, organization, accuracy, and the discovery, critical evaluation and reporting of information.
6. Compose effective written communications and essays with correct grammar, spelling, punctuation and appropriate language, style and format utilizing academically accepted means of researching, evaluating and documenting sources within written works.
7. Analyze, evaluate and explain theories, concepts and skills within varied disciplines using inductive and deductive processes and quantitative reasoning and application.
8. Demonstrate appreciation of themselves as living organism through their choices for physical health, activities, stress management, relationships to the social and physical environment, and responsible decision-making.

Geographic Information Systems

Certificate of Achievement

Certificate of achievement in Geographic Information Systems

A Geographic Information System (GIS) is a combination of hardware, software, data, people, and protocols, and is primarily used for the acquisition, maintenance, and analysis of geospatial data and information. GIS was founded in the art and science of geography, and more specifically was born from forestry and its associated applications (i.e., natural resources). Its main purpose is to serve as a tool for analyzing geospatial phenomena, via various data overlay operations, to provide information in the form of visualizations (i.e., maps), which ultimately provide greater insight into such phenomena from the perspective of geospatial patterns and real-world feature relationships. The end goal of a GIS is to provide meaningful analysis results to better understand real-world situations and help end-users of such information make better decisions regarding how best to handle geospatial phenomena.

As a GIS student you will:

Study the history of GIS, learn what it is and how it is used, and discover the foundational concepts that allow it to be a successful system

Develop skills in using hardware and software applications, in conjunction with relevant data and information, to learn how to approach and help solve potential real-world geospatial phenomena

Acquire critical thinking skills that will allow you to view and analyze geospatial patterns and feature relationships from a scientific perspective

Gain knowledge in the dissemination of geospatial information to web-based data and information delivery environments, as well as exposure to ancillary geospatial technologies such as Global Positioning Systems (GPS), Remote Sensing, and Computer-Aided Drafting (CAD) data and their respective applications

Career Options

GIS Technician for private entity or government agency

Supplemental GIS education to add to existing or future education in another field, which will help to strengthen overall knowledge from a technical standpoint

Program Highlights

Lassen Community College offers its Geographic Information Systems certificate as an entirely online program of study. No physical classroom involvement is required. Courses may be offered via traditional face-to-face or hybrid instructional modalities as well. The Geographic Information Systems certificate can be completed in just two semesters.

The Geographic Information Systems certificate is well suited to provide individuals with the education necessary to enter the workforce as an entry-level GIS Technician, or add to an existing or future bachelor's degree education to help strengthen and solidify the technical nature of said degree. For example, a combination of a bachelor's degree in wildlife biology and a certificate in GIS can be a very valuable and powerful combination to potential employers.

Certificate of Achievement Geographic Information Systems

Total Units for the Certificate of Achievement: 16

Course No	Course Title	Units	GIS 3	Cartography and Geovisualization	3.0
GIS 1	Fundamentals of GIS	4.0	GIS 4	Spatial Analysis	3.0
GIS 2	GIS Data Concepts	3.0	GIS 5	Web/Mobile-based GIS	3.0

Program Student Learning Outcomes

Upon completion of the **Certificate of Achievement in Geographical Information Systems** student will be able to:

1. Demonstrate an understanding of what a GIS is, how it can be used, and how the technology has come to be.
2. Explain, in detail, the nature of geospatial data and associated systems – types, formats, structures, models, acquisition, maintenance, manipulation, and display.
3. Apply critical thinking skills to the approach of establishing a basic GIS and using said GIS to analyze pertinent data and information to derive results that can or may help to better understand a perceived real-world geospatial phenomenon.
4. Use the latest, basic GIS-based software technologies on the market with effective and efficient application.
5. Be academically prepared to obtain an entry-level position directly in GIS, or to greatly supplement and enhance another chosen career field that can benefit from the technical nature of GIS knowledge.

Gunsmithing

DEGREES

Associate in Science in Firearms Repair
Associate in Science in General Gunsmithing

CERTIFICATES OF ACHIEVEMENTS

Firearms Repair
General Gunsmithing

CERTIFICATES OF ACCOMPLISHMENTS

Gunsmith Machinist and Metal Finishing
Long Gun
Pistolsmith
Riflesmith

The Gunsmithing Program offers two degrees, two Certificates of Achievement, and four Certificates of Accomplishment, that each provide the student with a very specific set of skills in areas such as general gunsmithing, firearms repair, firearms customization and in the recognized specialty areas. Depending on the selected course of study, a student is provided with the skills to acquire an entry-level position in the industry. This program is also designed to assist those already employed in the industry and those in the community to improve or expand their skills. The curriculum is updated with the assistance of a business and industry advisory committee. In accordance with the provisions of the state penal code section numbers: (12021, 12021.5, 12050, and 12054), prospective students must file an approved affidavit with the Lassen Community College District as a prerequisite to program enrollment.

As a Gunsmithing major, you will:

- Study course work in design, function and repair, firearm laws and regulations, machining, metallurgy, stock fabrication and welding.
- Develop skills on how to install and replace components, clean, maintain, and service handguns, rifles and shotguns.
- Identify a particular type of firearm you are most interested in and build a course of study to better qualify you for a profession.

Career Options

Gunsmith Firearms Repair
Firearms Salesman
Law Enforcement Armorer
Department of Corrections
Armorer

Owner/Manager of a Gunsmith
Shop or Sporting Goods Store
Specialist in Custom Built Firearms
Factory Service Representative

Some positions require a four-year degree for which Lassen Community College's program is a good base for transfer.

Associate Degree and Certificate of Achievement in Gunsmithing can be completed within two (2) years.

Associate in Science Degree: Firearms Repair

Total Units for the Associate in Science Degree: 60 units.

Required Core Courses: 42 Units

GSS 50.01	Recoil Pad and Sling Swivel Installation	1.0	GSS 63.02	Ejectors	1.0
GSS 50.03	Open and Optical Sight Installation	1.0	GSS 63.03	Double Gun Locks	1.0
GSS 51.01	Stock Inletting	1.0	GSS 64.01	Composition Stock Fitting, Bedding and Finishing	1.0
GSS 51.05	Glass Bedding for Strength and Accuracy	1.0	GSS 66.02	Revolver Barrel Fitting and Ranging	1.0
GSS 51.06	Wood Stock Finishing	1.0	GSS 67.01	Blowback Principle	1.0
GSS 52.06	Gunsmith Machining 6	1.0	GSS 68.01	DFR Locked Breech Single Action Auto Pistols	1.0
GSS 54.05	Hardening and Tempering of Carbon Steels	1.0	GSS 68.02	DFR Locked Breech Double Action Auto Pistols	1.0
GSS 56.03	Bolt Action Barrel Fitting	1.0	GSS 68.03	DFR Blowback Auto Pistols	1.0
GSS 57.01	Bolt Action Breeching and Headspace	1.0	GSS 69.01	DFR Auto Rifles	1.0
GSS 57.02	Action Blueprinting	1.0	GSS 69.02	DFR Pump Rifles	1.0
GSS 57.03	Action and Bolt Modifications	1.0	GSS 69.03	DFR Lever Action Rifles	1.0
GSS 59.02	Metal Preparation for Refinishing And Caustic Bluing	1.0	GSS 70.01	DFR Triggers 1	1.0
GSS 60.01	DFR Recoil Operated Auto Shotguns	1.0	GSS 71.01	DFR .22 Autos	1.0
GSS 60.02	DFR Gas Operated Auto Shotguns	1.0	GSS 71.02	DFR Bolt Action .22's	1.0
GSS 60.04	DFR Pump Shotguns	1.0	GSS 71.03	DFR Pump and Lever Action .22's	1.0
GSS 61.01	DFR Single Action Revolvers	1.0	GSS 71.04	DFR Marlin Model 39	1.0
GSS 61.02	DFR Smith and Wesson Revolvers	1.0	GSS 75.02	Firearm Laws and Regulations	1.0
GSS 61.03	DFR Colt & Ruger Double Action Revolvers	1.0	WT 31	GTAW for Gunsmiths	3.0
GSS 62.03	Misfire Correction	1.0	WT 32	Advanced GTAW for Gunsmiths	3.0
			General Education Requirements: 18 Units		

Certificate of Achievement: Firearms Repair

Total units for the Certificate of Achievement: 42 Units

Course No	Course Title	Units			
GSS 50.01	Recoil Pad and Sling Swivel Installation	1.0	GSS 63.02	Ejectors	1.0
GSS 50.03	Open and Optical Sight Installation	1.0	GSS 63.03	Double Gun Locks	1.0
GSS 51.01	Stock Inletting	1.0	GSS 64.01	Composition Stock Fitting, Bedding and Finishing	1.0
GSS 51.05	Glass Bedding for Strength and Accuracy	1.0	GSS 66.02	Revolver Barrel Fitting and Ranging	1.0
GSS 51.06	Wood Stock Finishing	1.0	GSS 67.01	Blowback Principle	1.0
GSS 52.06	Gunsmith Machining 6	1.0	GSS 68.01	DFR Locked Breech Single Action Auto Pistols	1.0
GSS 54.05	Hardening and Tempering of Carbon Steels	1.0	GSS 68.02	DFR Locked Breech Double Action Auto Pistols	1.0
GSS 56.03	Bolt Action Barrel Fitting	1.0	GSS 68.03	DFR Blowback Auto Pistols	1.0
GSS 57.01	Bolt Action Breeching and Headspace	1.0	GSS 69.01	DFR Auto Rifles	1.0
GSS 57.02	Action Blueprinting	1.0	GSS 69.02	DFR Pump Rifles	1.0
GSS 57.03	Action and Bolt Modifications	1.0	GSS 69.03	DFR Lever Action Rifles	1.0

GSS 60.01	DFR Recoil Operated Auto Shotguns	1.0	GSS 71.01	DFR .22 Auto's	1.0
GSS 60.02	DFR Gas Operated Auto Shotguns	1.0	GSS 71.02	DFR Bolt Action .22's	1.0
GSS 60.04	DFR Pump Shotguns	1.0	GSS 71.03	DFR Pump and Lever Action .22's	1.0
GSS 61.01	DFR Single Action Revolvers	1.0	GSS 71.04	DFR Marlin Model 39	1.0
GSS 61.02	DFR Smith and Wesson Revolvers	1.0	GSS 75.02	Firearm Laws and Regulations	1.0
GSS 61.03	DFR Colt & Ruger Double Action Revolvers	1.0	WT 31	GTAW for Gunsmiths	3.0
GSS 62.03	Misfire Correction	1.0	WT 32	Advanced GTAW for Gunsmiths	3.0

Program Student Learning Outcomes

Upon completion of the **Associate in Science Degree** or the **Certificate of Achievement in Firearms Repair**, the student will be able to:

1. Diagnose a specific firearm malfunction, execute the appropriate corrective step and verify the problem has been resolved.
2. Perform firearms repair and maintenance procedures on the large variety of firearms common to a retail gunsmithing operation.

Associate in Science Degree in General Gunsmithing

Total Units for the Associate in Science Degree: 60 Units

Required Core Courses: 36 Units

Course No	Course Title	Units			
GSS 50.01	Recoil Pad and Sling Swivel Installation	1.0	GSS 59.02	Metal Preparation for Refinishing and Caustic Bluing	1.0

GSS 56.03	Bolt Action Barrel Fitting	1.0	WT 32	Advanced GTAW for Gunsmiths	3.0
GSS 57.02	Action Blueprinting	1.0	Electives: 6 Units (The student may select any courses numbered 1-99 to satisfy this requirement.)		
GSS 57.03	Action and Bolt Modifications	1.0			
GSS 58.02	Pressure Bedding and Pillar	1.0			

Program Student Learning Outcomes

Upon completion of the **Associate in Science Degree** or the **Certificate of Achievement in General Gunsmithing**, the student will be able to:

1. Perform appropriate custom alterations and modifications as related to a specific custom field in Gunsmithing.
2. Diagnose a specific firearm malfunction, execute the appropriate corrective step and verify the problem has been resolved.

Certificate of Accomplishment: Gunsmith Machinist and Metal Finishing

Total Units for the Certificate of Accomplishment Gunsmith Machinist and Metal Finishing: 15 Units

Course No	Course Title	Units			
GSS 50.03	Open and Optical Sight Installation	1.0	GSS 54.05	Hardening and Tempering of Carbon Steels	1.0
GSS 52.01	Gunsmith Machining 1	2.0	GSS 59.02	Metal Preparation for Refinishing And Caustic Bluing	1.0
GSS 52.02	Gunsmith Machining 2	2.0	GSS 59.03	Parkerizing	1.0
GSS 52.03	Gunsmith Machining 3	2.0	GSS 59.04	Color Case Hardening	1.0
GSS 52.04	Gunsmith Machining 4	1.0	GSS 59.09	Alternative Metal Finishing	1.0
GSS 52.05	Gunsmith Machining 5	1.0			
GSS 52.06	Gunsmith Machining 6	1.0			

Program Student Learning Outcomes

Upon completion of the **Certificate of Accomplishment - Gunsmith Machinist and Metal Finishing**, the student will be able to:

1. Design and machine firearm parts and fixtures using the appropriate tools and techniques.
2. Apply the appropriate polishing technique and finish to metal firearms parts.

Certificate of Accomplishment: Long Gun

Total Units for the Certificate of Accomplishment Long Gun: 13 Units

Course No	Course Title	Units			
GSS 51.06	Wood Stock Finishing	1.0	GSS 60.04	DFR Pump Shotguns	1.0
GSS 52.06	Gunsmith Machining 6	1.0	GSS 66.01	Non-Bolt Action Rifle Barrel Fitting	1.0
GSS 54.05	Hardening and Tempering of Carbon Steels	1.0	GSS 69.01	DFR Auto Rifles	1.0
GSS 60.01	DFR Recoil Operated Auto Shotguns	1.0	GSS 69.02	DFR Pump Rifles	1.0
GSS 60.02	DFR Gas Operated Auto Shotguns	1.0	GSS 69.03	DFR Lever Action Rifles	1.0
			WT 32	Advanced GTAW for Gunsmiths	3.0

Program Student Learning Outcomes

Upon completion of the **Certificate of Accomplishment - Long Gun**, the student will be able to:

1. Diagnose specific long gun malfunction, execute the appropriate corrective step and verify the problem has been resolved.

Certificate of Accomplishment: Pistolsmith

Total Units for the Certificate of Accomplishment Pistolsmith: 13 Units

Course No	Course Title	Units			
GSS 52.06	Gunsmith Machining 6	1.0	GSS 67.01	Blowback Principle	1.0
GSS 54.05	Hardening and Tempering of Carbon Steels	1.0	GSS 68.01	DFR Locked Breech Single Action Auto Pistols	1.0
GSS 61.01	DFR Single Action Revolvers	1.0	GSS 68.02	DFR Locked Breech Double Action Auto Pistols	1.0
GSS 61.02	DFR Smith and Wesson Revolvers	1.0	GSS 68.03	DFR Blowback Auto Pistols	1.0
GSS 61.03	DFR Colt & Ruger Double Action Revolvers	1.0	WT 32	Advanced GTAW for Gunsmiths	3.0
GSS 66.02	Revolvers Barrel Fitting and Ranging	1.0			

Program Student Learning Outcomes

Upon completion of the **Certificate of Accomplishment Pistolsmith**, the student will be able to:

1. Diagnose specific handgun malfunction, execute the appropriate corrective step and verify the problem has been resolved.

Certificate of Accomplishment: Riflesmith

Total Units for the Certificate of Accomplishment Riflesmith: 15 Units

Course No	Course Title	Units			
GSS 51.01	Stock Inletting	1.0	GSS 57.02	Action Blueprinting	1.0
GSS 51.05	Glass Bedding for Strength and Accuracy	1.0	GSS 57.03	Action and Bolt Modifications	1.0
GSS 51.06	Wood Stock Finishing	1.0	GSS 57.06	Trueing Exterior of Action	1.0
GSS 55.04	Stock Refinish and Repair	1.0	GSS 57.08	Bottom Metal Modifications	1.0
GSS 56.01	Headspace	1.0	GSS 57.15	Bolt Action Rifle Feeding	1.0
GSS 56.03	Bold Action Barrel Fitting	1.0	GSS 58.02	Pressures and Pillar Bedding	1.0
GSS 56.04	Barrel Contouring	1.0	GSS 64.01	Composition Stock Fitting, Bedding and Finishing	1.0
GSS 57.01	Bold Action Breeching and Headspace	1.0			

Program Student Learning Outcomes

Upon completion of the **Certificate of Accomplishment Riflesmith**, the student will be able to:

1. Perform appropriate custom rifle alterations and modifications.
2. Diagnose specific rifle malfunction, execute the appropriate corrective step and verify the problem has been resolved.

Health Occupations

Certificate of Achievement

Medical Assisting

Certificate of Accomplishment

Administrative Medical Assisting

Clinical Medical Assisting

Red Cross Certification

Cardiopulmonary Resuscitation (CPR)

Standard First Aid

Lassen College offers coursework that leads to eligibility for external certifications in CPR, First Aid, and EMT-I in addition to certificates in Clinical and Administrative Medical Assisting.

Certificate of Accomplishment in Administrative Medical Assisting

The program of courses for this certificate is designed to prepare a student to perform office-related duties including scheduling and billing as a medical office assistant.

Certificate of Accomplishment in Clinical Medical Assisting

The program of courses for the clinical certificate offers information, skill development, and practice for student seeking employment as a medical assistant who makes direct patient contact and assists nurses and doctors with clinical procedures.

Career Options

Medical Assistant

Clinic Assistant

Medical Office Assistant

EMT - I

EMT - II

EMT – Paramedic

Program Highlights

- Hands-on-training for entry-level employment.
- Continuing education units (CEUs) available.

Internships in health occupations are available for students interested in Work Experience opportunities.

Certificate of Achievement Medical Assisting

Total Units for the Certificate of Achievement in Administrative Medical Assisting: 21 Units

Course No	Course Title	Units	Course No	Course Title	Units
HO 49	Health Occupations Work Experience	2.0	HO 71	Medical Assisting Administrative	6.5
HO 70	Medical Assisting Core	7.0	HO 72	Medical Assisting Clinical	7.5

Program Student Learning Outcomes

Upon completion of the **Certificate of Achievement Medical Assisting** the student will be able to:

1. Demonstrate the Knowledge about medical assisting and other allied health professions.
2. Demonstrate beginning level medical assisting skills.
3. Display understanding of basic medical terminology, anatomy and physiology.
4. Access and navigate basic computer systems.
5. Perform exam room procedures autonomously.
6. Demonstrate knowledge of Pharmacology.
7. Assist with minor surgery and laboratory procedures.
8. Provide Patient education.

Certificate of Accomplishment in Administrative Medical Assisting

Total Units for the Certificate of Accomplishment in Administrative Medical Assisting: 13.5 Units

Course No	Course Title	Units	Course No	Course Title	Units
HO 70	Medical Assisting Core	7.0	HO 71	Medical Assisting Administrative	6.5

Program Student Learning Outcomes

Upon completion of the **Certificate of Accomplishment in Administrative Medical Assisting** the student will be able to:

1. Demonstrate the Knowledge about medical assisting and other allied health professions.
2. Demonstrate beginning level medical assisting skills.
3. Display understanding of basic medical terminology, anatomy and physiology.
4. Access and navigate basic computer systems.
5. Demonstrate professionalism in the role of administrative medical assisting and office reception.
6. Prepare and properly manage medical office records.
7. Demonstrate medical office finance and billing skills.
8. Display medical office management abilities.

Certificate of Accomplishment in Clinical Medical Assisting

Total Units for the Certificate of Accomplishment in Clinical Medical Assisting: 14.5 Units

Course No	Course Title	Units				
HO 70	Medical Assisting Core	7.0	HO 72	Medical Assisting Clinical		7.5

Program Student Learning Outcomes

Upon completion of the **Certificate of Accomplishment in Clinical Medical Assisting** the student will be able to:

1. Demonstrate knowledge about medical assisting and other allied health professions
2. Demonstrate beginning level medical assisting skills.
3. Display understanding of basic medical terminology, anatomy and physiology.
4. Access and navigate basic computer systems.
5. Perform exam room procedures autonomously.
6. Demonstrate knowledge of pharmacology.
7. Assist with minor surgery and laboratory procedures.
8. Provide patient education.

History

DEGREES

Associate in Arts in History for Transfer

The Associates in Arts Degree in History is designed to provide students with a strong foundation for the study of the historical past in order to transfer to a California State University. It is an excellent starting point for students interested in pursuing a baccalaureate degree in history. The core course work is designed to provide undergraduate preparation leading to knowledgeable individuals who recognized that society cannot deal with the present or prepare to cope with the future without an understanding of the past. Students will examine contemporary problems and issues from a historical perspective.

As a history major, you will:

- Study a comprehensive introduction to the field of history through courses that are academically rigorous and content appropriate.
- Acquire the knowledge and skills to apply the “historical perspective” to your own life and to the social environment of which you are a part.
- Analyze the news of the day as well as changes in the global economy and other major social institutions within a historical context.
- Identify an area of specialization in history.

Career Options

Government Service
Historian
Lawyer
Military Officer
Museum Curator
Teacher

Career Preparation

The Associates in Arts Degree in History for Transfer prepares the student for transfer to a California State University.

Program Highlights

Lassen Community College offers its History by way of traditional classroom study, online, or by correspondence delivery.

Associate Degree in History can be completed within two (2) years

Note to Transfer Students:

The benefit for students completing the AA-T degree is that the California State University (CSU) system is required to grant admission with junior status to any community college student who meets all of the requirements. “CSU is required to grant priority admission for a student with this associate degree to his or her local CSU campus and to a program or major that is similar to this major, as determined by the CSU campus to which the student is admitted.”

Associate Degree
for Transfer™

Associate in Arts Degree in History for Transfer

Total Units for the Associate in Arts Degree with a minimum grade point average of 2.0: 60 Units

Required Core Courses minimum grade 2.0: 18-19 Units

Complete the following 12 Units:

Course No	Course Title	Units
HIST 16	U.S. History	3.0
HIST 17	Post-Civil War – U.S. History	3.0
HIST 14	World History-Prehistoric to 1500	3.0
HIST 15	World History-1500 to Present	3.0

Select 6 additional Units from the following:

ES 1	Ethnic Minorities in America	3.0
HUM 1	Western Civilization-Prehistoric to 1600	3.0
HUM 2	Western Civilization-1600 to Present	3.0
IDS 1	Introduction to Sign Language	3.0
PLSC 1	American Institutions	3.0

Completion of either the CSU General Education or IGETC Option

Remaining Units to Total 60 Units may be selected from courses numbered 1 – 49.

Program Student Learning Outcomes

Upon completion of the **Associate in Arts Degree in History for Transfer** student will be able to:

1. Explain four transitions that the United States has undergone from colonization to the present. Examples may include but are not limited to: the colonial period to the revolutionary period; launching a new government to the growth of a union; the civil war to reconstruction; the U.S. industrial revolution to the U.S. as a world power; WWI and WWII; or WWII to the age of affluence.
2. Analyze the American political system including the reasons behind the separation of power and the constant struggle between the executive, legislative, and judicial branches of government.
3. Given a current historical topic, demonstrate the ability to conduct research using traditional and technological skills to write an organized, factually correct, well-documented paper.
4. Develop an appropriate and factually correct theme on a specific topic comparing and contrasting works, events or values of two eras or cultures of Western Civilization.
5. Given an era in time, explain the differences between the ideas and cultural values of Western and non-Western societies.

Humanities

DEGREE

Associate in Arts Degree University Studies: Emphasis in Humanities

These courses emphasize the study of cultural, literary, humanistic activities and artistic expression of human beings. With careful planning, the Humanities emphasis will satisfy the lower division major courses to transfer to a university and earn a Bachelor's degree in the various fields of Humanities. Students must meet with a counselor to ensure completion of required coursework for chosen major and specific college/university.

Associate Degree in Humanities can be completed within two (2) years

Some positions, however, require a four-year degree for which LCC's program is a good base for transfer

Note to Transfer Students:

If you are interested in transferring to a four-year college or university to pursue a bachelor's degree in this major, it is critical that you meet with a counselor to select and plan the courses for your major. Schools vary widely in terms of the required preparation. The courses that Lassen Community College requires for an associate degree in this major may be different from the requirements needed for the bachelor's degree.

Associate in Arts Degree University Studies: Emphasis in Humanities

Total Units for the Associate in Arts Degree: 60 Units

Required Core Courses: 18 Units

Select 18 units from the following:

Course No	Course Title	Units			
ART 6	Survey of Art History: Prehistoric Through Renaissance	3.0	HUM 1	Western Civilization-Prehistoric to 1600	3.0
ART 7	Survey of Art History: Renaissance Through Contemporary	3.0	HUM 2	Western Civilization-1600 to Present	3.0
ART 8	Art Appreciation	3.0	IDS 1	Introduction to sign Language	4.0
ART 9	History of Asian Art	3.0	IDS 2	Intermediate Sign Language	4.0
ENGL 2	Introduction to Literary Types	3.0	MUS 6	Music History from Antiquity to 1750	3.0
ENGL 3	British Literature I	3.0	MUS 7	Music History from 1750 to Modern Era	3.0
ENGL 4	British Literature II	3.0	MUS 12	Music Appreciation	3.0
ENGL 5	Survey of World Literature II	3.0	PHIL 10	Comparative World Religions	3.0
ENGL 10	Shakespeare	3.0			
ENGL 12	Survey of American Literature II	3.0			
ENGL 22	Creative Writing	3.0			
ENGL 33	Studies in Fiction	3.0			
ENGL 34	Studies in Poetry	3.0			
FILM 1	History of the Cinema	3.0			
HIST 14	World History-Beginning to 1500	3.0			
HIST 15	World History-1500 to Present	3.0			

Completion of either the CSU General Education or IGETC Option

Remaining Units to total 60 Units may be selected from courses numbered 1-49

Program Student Learning Outcomes

Upon completion of the **Associate in Arts Degree University Studies: Emphasis in Humanities**, the student will be able to:

1. Demonstrate an understanding of cultural, literary, humanistic activities and artistic expression of human beings.
2. Identify, recognize, define and describe various important works, creators, schools, styles and events in art, literature, philosophy and history from a variety of cultures and relate how they are relevant to the present.

Natural Sciences

DEGREE

Associate in Arts Degree University Studies:
Emphasis in Natural Science

Associate in Arts Degree General Studies:
Emphasis in Natural Science

The Natural Sciences emphasis is designed to provide lower division major courses to transfer to a university and pursue baccalaureate degrees in life science and physical science areas. Students must meet with a counselor to ensure completion required coursework for chosen major and specific college/university. Associate Degree in Natural Science can be completed within two (2) years.

Associate in Arts Degree University Studies: Emphasis in Natural Science

Total Units for the Associate in Arts Degree: 60 Units

Required Core Courses: 18 Units

Select 18 units from the following:

Course No	Course Title	Units			
AGR 10	Introduction to Animal Science	3.0	CHEM 1A	General Chemistry I	5.0
AGR 19	Introduction to Soil Science	3.0	CHEM 1B	General Chemistry II	5.0
AGR 20	Introduction to Plant Science	4.0	CHEM 8	Introduction to Organic and Biochemistry	4.0
ANTH 1	Biological Anthropology	3.0			
BIOL 1	Principles of Molecular and Cellular Biology	4.0	CHEM 45	Introduction to Inorganic Chemistry	4.0
BIOL 4	Principles of Evolutionary, Organismal and Ecological Biology	5.0	GEOL 1	Physical Geology	4.0
			GEOL 5	Historical Geology and Paleontology	4.0
BIOL 10	Natural History of Plants and Animals	4.0	PHSC 1	General Physical Science	3.0
BIOL 20	Microbiology	5.0	PHYS 2A	General Physics I	4.0

BIOL 25	Human Anatomy and Physiology I	4.0	Electives: 24 (no more than 6 units from any one discipline). <i>The student may select from any courses numbered 1 – 99 to satisfy this requirement.</i>		
BIOL 26	Human Anatomy and Physiology II	4.0	General Education Requirements: 18 Units		
BIOL 32	General Biology	3.0	Note: This degree does not prepare a student to transfer to a University.		
BIOL 32L	General Biology with Lab	4.0			
CHEM 1A	General Chemistry I	5.0			

Program Student Learning Outcomes

Upon completion of the **Associate in Arts Degree University Studies** or the **Associate in Arts Degree General Studies: Emphasis in Natural Science**, the student will be able to:

1. Demonstrate an understanding of the basic methodologies of science.
2. Examine the influence that the acquisition of scientific knowledge has on the development of the world's civilizations.
3. Demonstrate a basic understand of the language, laws, theories, and processes that are fundamental to anthropology, astronomy, biology, chemistry meteorology, geology, and/or physics, through the observation and analysis of real life examples.

Nursing

DEGREES

Associate in Science in Vocational Nursing

Certificate of Achievement

Vocational Nursing

ASSOCIATE IN SCIENCE DEGREE VOCATIONAL NURSING

The one-year Vocational Nursing Program will begin each new class in August and will be completed by the end of July. The Program is designed to provide the student with a strong academic foundation and clinical skill level necessary for entry level as a Licensed Vocational Nurse. The Program seeks to provide information and experiences for the student to be prepared to work as an integral member of the health care system. The Vocational Nursing Program offers both an Associate in Science Degree and a Certificate of Achievement in Vocational Nursing. Courses are offered in the traditional lecture/laboratory format. A minimum letter grade of "C" is required in each core course with a minimum overall grade point average of 2.00 to receive the Degree or Certificate.

As a Vocational Nursing major, you will:

- Study specific vocational nursing curriculum that prepares for a variety of career options.
- Develop skills that pertain to vocational nursing in the hospital, clinic and skilled nursing facility setting.
- Identify the areas of nursing that best suit the student.

Career Options as an LVN in:

Hospitals
Prisons
Physician Offices
Community Clinics

Public Health

Program Highlights

- One year program reduces the time required to graduate
- Quality clinical sites

Note to Transfer Students:

If you are interested in transferring to a four-year college or university to pursue a bachelor's degree in this major, it is critical that you meet with a counselor to select and plan the courses for your major. Schools vary widely in terms of the required preparation. The courses that Lassen Community College requires for an associate degree in this major may be different from the requirements needed for the bachelor's degree.

Associate in Science Degree in Vocational Nursing

Vocational Nursing Program

The Program is accredited by the California State Board of Vocational Nursing and Psychiatric Technicians. The individuals who successfully complete the Program are eligible to take the California Council Licensure Examination for licensure as a Vocational Nurse. A declaration of any record of convictions and fingerprinting is required to obtain a license. Persons with a conviction may be denied a license. Prior to registering for courses within the LVN Program, students must be accepted into the Program. The prerequisite requirements apply to both the Associate in Science Degree and the Certificate of Achievement. Students may contact the Director of Vocational Nursing at 530-257-6181 x8994 for any questions, concerns, or additional information.

Prerequisite Requirements

1. Completion of all application materials
2. Graduation from High School or equivalency through GED or California Proficiency Examination
3. A current, valid CPR card or AHA CPR
4. Completion of ENGL 1 with a grade of "C" or better or equivalent multiple measures placement.
5. Completion of MATH 60 Intermediate Algebra with a grade "C" or better or equivalent multiple measures placement.
6. Completion of the required prerequisite courses with a grade of "C" or better.

Required Prerequisite Courses: 20 Units

Program Student Learning Outcomes

Upon completion of the **Associate in Science Degree** or the **Certificate of Achievement in Vocational Nursing**, the student will be able to:

1. Successfully pass the National Council Licensure Examination state board examination for licensure as a Vocational Nurse.
2. Work in a variety of health care settings performing safe and effective nursing care.

Nutrition and Dietetics

DEGREES

Associate in Science in Nutrition and Dietetics for Transfer

The AS-T in Nutrition and Dietetics for transfer is designed to prepare the student for transfer into a Bachelor program at a California State University. As a Nutrition and Dietetics major, you will:

- Develop a strong foundation of the scientific method.
- Analyze nutritional facts and the effects from the environment and culture.
- Prepare to transfer to a California State University by completing undergraduate major preparation.

Careers Related to this Field include*:

Clinical Nutritionist/Dietitian
Community and Public Health
Food Service Management
Consultant

*Some careers will require a four-year degree for which LCC's program is a good base for transfer.

Program Highlights

- Core curriculum for transfer to a California State University.
- Small class sizes.
- Individualized tutoring.
- Projected growth for Nutritionists/Dieticians from 2012-2022
- Laboratory opportunities.

Note to Transfer Students:

The benefit for students completing the AS-T degree is that the California State University (CSU) system is required to grant admission with junior status to any community college student who meets all of the requirements. "CSU is required to grant priority admission for a student with this associate degree to his or her local CSU campus and to a program or major that is similar to this major, as determined by the CSU campus to which the student is admitted."

Associate Degree
for Transfer™

Associate in Science Degree in Nutrition and Dietetics for Transfer

Total Units for the Associate in Science Degree with a minimum grade point average of 2.0: 60 units

Required Core Courses minimum grade 2.0: 28 Units

Required Core: 20 Units

Course No	Course Title	Units	Select 8 Units From the following	
BIOL 20	Microbiology	5.0	BIOL 25 &	Human Anatomy and Physiology I 4.0
CHEM 1A	General Chemistry I	5.0	BIOL 26	Human Anatomy and Physiology II 4.0
CHEM 45	Introduction to Chemistry	4.0	OR	
HLTH 25	Understanding Nutrition	3.0	CHEM 1B &	General Chemistry II 5.0
PSY 1	Introduction to Psychology	3.0	MATH 40	Elementary Statistics 3.0

Completion of either the CSU General Education or IGETC Option

Remaining Units to total 60 Units may be selected from courses numbered 1-49

Program Student Learning Outcomes

Upon completion of the **Associate in Science Degree in Nutrition and Dietetics**, the student will be able to:

1. Analyze and evaluate nutritional information, lifestyle, and special needs to make recommendations for an adequate and balanced diet as well as to make recommendations for dietary improvement.
2. Use the scientific method to develop and conduct laboratory experiments utilizing accepted laboratory practices.
3. Identify, describe, and investigate the influence of environmental and culture on the development of individual behavior as it relates to nutrition and dietetics.
4. Display skills and knowledge necessary to continue study at a California State University in preparation for certification and a career as registered dietician.

Physical Education/Kinesiology

DEGREES

Associate in Arts in Kinesiology for Transfer

Associate in Arts Degree University Studies:
Emphasis in Physical Education

The AA-T in Kinesiology is designed to provide students with a strong foundation for the study of the human body and body mechanics in preparation for transfer to a California State University. It is an excellent starting point for students interested in pursuing a baccalaureate degree in Kinesiology, Physical Education, and Sports Administration. The kinesiology major is designed to provide under graduate preparation leading to careers in physical fitness, physical therapy, sports medicine, coaching and education.

As a Kinesiology major, you will:

- Study a comprehensive introduction to the field of kinesiology through courses that are academically rigorous and content appropriate.
- Develop a solid foundation in the basic elements of scientific inquiry.
- Identify an area of specialization in kinesiology.

The University Studies and General Studies degrees with an emphasis in physical education provide an introduction to theories, principles, and practices utilized in sports, fitness, and education-related fields. Although the physical education emphasis prepares a student for further study of physical education, kinesiology, physiology of exercise, movement science or athletic training, the transfer of lower division major courses to a university for pursuit of a baccalaureate degree is depending on the transfer institution requirements. Students must meet with a counselor to ensure completion of required coursework for chosen major and specific college or university.

As a Physical Education major, you will:

- Study the history and theory of physical education and sport.
- Develop skills in areas related to fitness and individual and team sports.

Career Options

Athletics Coach
Physical Education Teacher
Personal Fitness Trainer
Physical Therapist
Athletic Trainer
Sports Official

*Some positions however require a four-year degree for which LCC's program is a good base for transfer.

Associate Degree and Certificate of Achievement in Physical Education can be completed within two (2) years.

Internships in Physical Education may be available for students interested in Work Experience opportunities.

Program Highlights

- The Associate in Arts in Kinesiology for Transfer degree includes the core curriculum for transfer to a California State University.
- Small class sizes.
- Individualized tutoring.
- Laboratory opportunities.
- Intercollegiate Athletics – Lassen College fields sports teams that compete throughout California. Men's sports are baseball, basketball, soccer and wrestling; women's sports are basketball, soccer, softball and volleyball.
- Fitness Courses – Many options are available to students wanting to adopt active lifestyles, manage weight, or are interested in practicing a new sport.
- Fitness Center and Yoga are some fitness favorites at LCC.

Note to Transfer Students:

The benefit for students completing the AS-T degree is that the California State University (CSU) system is required to grant admission with junior status to any community college student who meets all of the requirements. "CSU is required to grant priority admission for a student with this associate degree to his or her local CSU campus and to a program or major that is similar to this major, as determined by the CSU campus to which the student is admitted."

PEAC 6	Varsity Wrestling	3.0			

Completion of either the CSU General Education or IGETC Option

Remaining Units to Total 60 Units may be selected from electives. Courses must be numbered 1 – 49.

Program Student Learning Outcomes

Upon completion of the **Associate in Arts Degree University Studies: Emphasis in Physical Education**, the student will be able to:

1. Develop and apply techniques and strategies for development of personal physical fitness.
2. Think critically and apply logic to situational game play through intercollegiate athletics.
3. Cooperate with others in a collaborative environment for accomplishment of personal fitness and/or team goals.
4. Implement a healthy lifestyle/physical fitness plan to enhance physical health and fitness.
5. Analyze trends and problems in physical education through historical comparisons; draw conclusions relevant to today's population and society.
6. Demonstrate mastery of a variety of skills and techniques specific to sport and fitness.
7. Demonstrate an understanding of the basic methodologies of science.

Psychology

DEGREE

Associate in Arts in Psychology for Transfer

The Associate in Arts Degree in Psychology for Transfer is designed to provide students with a strong foundation for the study of Psychology in order to transfer to a California State University. It is an excellent starting point for students interested in pursuing a baccalaureate degree in Psychology. The core course work is designed to provide undergraduate preparation in an overview of the study and practice of psychology as well as skill in analyzing and interpreting psychological research.

As a Psychology major, you will:

- Be exposed to the field of psychology through courses that are academically rigorous and content appropriate.
- Develop the skills necessary to gather, interpret, and analyze quantitative and qualitative data.

Career Options

Human or Social Services Careers in these possible areas:

Case Management
Social Work
Career Counselor
Rehabilitation Specialist
Mental Health Services

Career Preparation

The Associates in Arts Degree in Psychology for Transfer prepares the student for transfer to a California State University.

Program Highlights

Sociology

DEGREE

Associate in Arts in Sociology for Transfer

The Associate in Arts Degree for Transfer in Sociology is designed to provide students with a strong foundation for the study of society and social behavior. The sociology major is designed to provide undergraduate preparation leading to careers in social work, politics, law, public administration, the nonprofit sector, international development, marketing, urban and environmental planning, public relations, human resource management, counseling and other social service professions. It is an excellent starting point for students interested in pursuing a baccalaureate degree in sociology. Students will examine problems and issues in their contemporary as well as historical setting.

As a Sociology major you will:

- Study a comprehensive introduction to the field of sociology through courses that are academically rigorous and content appropriate.
- Acquire the knowledge and skills to apply the “sociological perspective” to your own life and to the social environment of which you are a part.
- Gain the knowledge and ability to use sociological concepts creatively in analyzing and critically thinking about social phenomena.
- Analyze the news of the day as well as changes in the global economy and other major social institutions.
- Identify an area of specialization in sociology

Associate Degree in Sociology can be completed within two (2) years.

Note to Transfer Students:

The benefit for students completing the AA-T degree is that the California State University (CSU) system is required to grant admission with junior status to any community college student who meets all of the requirements. “CSU is required to grant priority admission for a student with this associate degree to his or her local CSU campus and to a program or major that is similar to this major, as determined by the CSU campus to which the student is admitted.”

Program Student Learning Outcomes

Upon completion of the **Associate in Arts Degree in Sociology for Transfer** student will be able to:

1. Identify and explain basic concepts of sociology, research and theory.
2. Identify processes of social control and how they shape our social institutions and lives.
3. Display knowledge of the impact of social institutions on everyday lives.
4. Effectively work in teams, managing time, tasks, and personality differences sharing results and analysis to arrive at a final collaborative product.
5. Systematically collect, organize, and present appropriate data from a variety of sources including independent research, written journals and the Internet. Assess the validity of the data and interpret it correctly.

Welding Technology

DEGREE

Associate in Science in Welding Technology

CERTIFICATES OF ACHIEVEMENT

Welding Technology Two-Year Plan
Welding Technology One-Year Plan

CERTIFICATE OF ACCOMPLISHMENT

Welding Technology

The Welding Technology Program is designed to prepare the student with the necessary skills to acquire an entry-level position in the various industries that require the different welding processes available through the Program. The Welding Program is also designed to assist those already employed in the industry and those in the community to improve their skills. The Program offers course work in Oxyacetylene Welding (OAW), Gas Metal Arc Welding (GMAW), Shielded Metal Arc Welding (SMAW), Gas Tungsten Arc Welding (GTAW) and American Welding Society (AWS) qualifications in plate and pipe welding. The curriculum is updated with the assistance of an industry advisory committee.

As a Welding major, you will:

- Study a general welding curriculum including welding plate and pipe and qualifications in multiple welding processes to American Welding Society standards.
- Develop leadership and communication skills.
- Identify the welding careers you are most interested in and build a course of study to better qualify you to succeed in that career.

Career Options

Welding Technician
Sales
Inspection
Supervision & Management
Aerospace
Welding Engineering
Construction
Trucking & Automotive
Welding Instructor

Some positions however require a four-year degree for which LCC's program is a good base for transfer.

Program Highlights

- Classes for beginning through advanced welders.
- Welding qualifications through the American Welding Society.
- Practical hands-on training with classroom theory.
- Short term courses.

Associate Degree and Certificate of Achievement in Welding can be completed within two (2) years.

Internships in welding are available for students interested in Work Experience opportunities.

Associate in Science Degree Welding Technology

Total Units for the Associate in Science Degree: 60 Units

Required Core Courses: 24 Units

Course No	Course Title	Units			
WT 20	Power Plant and Field Pipe Welding I	3.0	CA 31	Computer Applications I	2.0
WT 21	Power Plant and Field Pipe Welding II	3.0	IT 22	Operations Maintenance and Safety	1.0
WT 22	Power Plant and Field Pipe Welding III	3.0	IT 72	Facilities Maintenance: Welding	2.0
WT 23	Power Plant and Field Pipe Welding IV	3.0	WT 42	Intermediate Shielded Metal Arc Welding	3.0
WT 36	Welding Theory and Practice: Oxyacetylene	3.0	WT 43	Advanced Shielded Metal Arc Welding	3.0
WT 37	Welding Theory and Practice: Shielded Metal Arc Welding	3.0	WT 44	Gas Metal Arc Welding	3.0
WT 38	Welding Theory and Practice: Gas Metal Arc Welding	3.0	WT 45	Gas Tungsten Arc Welding	3.0
WT 39	Welding Theory and Practice: Gas Tungsten Arc Welding	3.0	WT 51	Blueprint and Symbol Reading for Welders	2.0
			WT 52	Robotic Welding Operations and Programming	3.0
			WT 53	Robotic Welding Operations and Programming Advanced	3.0
Required Electives: 18 Units			General Education Requirements: 18 Units		
BUS 25	Small Business Management	3.0			

Program Student Learning Outcomes

Upon completion of the **Associate in Science Degree Welding Technology**, the student will be able to:

1. Demonstrate the safe setup and application of various welding and cutting processes to specific metals and joint designs, which meet or exceed industry standards and the American Welding Society Structural Welding Code, DI.1.

Certificate of Achievement: Welding Technology - Two Year

Total Units for the Two-Year Certificate of Achievement: 44 Units

Required Core Courses: 29 Units

Course No	Course Title	Units	WT 51	Blueprint and Symbol Reading for Welders	2.0
IT 22	Operations Maintenance and Safety	1.0			
IT 72	Facilities Maintenance: Welding	2.0			
WT 20	Power Plant and Field Pipe Welding I	3.0			
WT 21	Power Plant and Field Pipe Welding II	3.0			
WT 22	Power Plant and Field Pipe Welding III	3.0			
WT 23	Power Plant and Field Pipe Welding IV	3.0			
WT 36	Welding Theory and Practice: Oxyacetylene	3.0			
WT 37	Welding Theory and Practice: Shielded Metal Arc Welding	3.0			
WT 38	Welding Theory and Practice: Gas Metal Arc Welding	3.0			
WT 39	Welding Theory and Practice: Gas Tungsten Arc Welding	3.0			

Required Electives: 15 Units

BUS 25	Small Business Management	3.0
CA 31	Computer Applications I	2.0
WT 42	Intermediate Shielded Metal Arc Welding	3.0
WT 43	Advanced Shielded Metal Arc Welding	3.0
WT 44	Gas Metal Arc Welding	3.0
WT 45	Gas Tungsten Arc Welding	3.0
WT 52	Robotic Welding Operations and Programing	3.0
WT 53	robotic Welding Operations and Programing Advanced	3.0

Program Student Learning Outcomes

Upon completion of the **Certificate of Achievement in Welding Technology Two-Year**, the student will be able to:

1. Demonstrate the safe setup and application of various welding and cutting processes to specific metals and joint designs, which meet or exceed industry standards and the American Welding Society Structural Welding Code, DI.1.

Certificate of Achievement: Welding Technology - One Year

Total Units for the One-Year Certificate of Achievement: 23 Units

Required Core Courses: 17 Units

Course No	Course Title	Units	Required Electives: 6 Units		
IT 22	Operations Maintenance and Safety	1.0	WT 42	Intermediate Shielded Metal Arc Welding	3.0
IT 72	Facilities Maintenance: Welding	2.0			
WT 20	Power Plant and Field Pipe Welding I	3.0	WT 43	Advanced Shielded Metal Arc Welding	3.0
WT 21	Power Plant and Field Pipe Welding II	3.0	WT 44	Gas Metal Arc Welding	3.0
WT 37	Welding Theory and Practice: Shielded Metal Arc Welding	3.0	WT 45	Gas Tungsten Arc Welding	3.0
WT 38	Welding Theory and Practices: Gas Metal Arc Welding	3.0	WT 52	Robotic Welding Operations and Programing	3.0
WT 51	Blueprint and Symbol Reading for Welders	2.0	WT 53	Robotic Welding Operations and Programing Advanced	3.0

Program Student Learning Outcomes

Upon completion of the **Certificate of Achievement in Welding Technology One-Year**, the student will be able to:

1. Demonstrate the safe set-up and application of Oxyacetylene Cutting (OAC), Oxyacetylene Welding (OAW), Carbon Arc Cutting (CAC), Gas Tungsten Arc Welding (GTAW), Gas Metal Arc Welding (GMAW), Flux Cored Arc Welding (FCAW), and Shielded Metal Arc Welding (SMAW) to ferrous, alloy and nonferrous metals.
2. Apply the SMAW, GTAW, GMAW, and FCAW processes to steel plate and pipe that meet or exceed industry standards and the American Welding Society Structural Welding Code, DI.1.

Certificate of Accomplishment: Welding Technology

Total Units for the Certificate of Accomplishment Welding Technology: 12 Units

Required Core Courses: 9 Units

Course No	Course Title	Units	Required	Electives: 3 Units	
WT 20	Power Plant and Field Pipe Welding I	3.0	IT 22	Operations Maintenance and Safety	1.0
WT 37	Welding Theory and Practice: Shielded Metal Arc Welding	3.0	IT 72	Facility Maintenance: Welding	2.0
WT 38	Welding Theory and Practice: Gas Metal Arc Welding	3.0	WT 36	Welding Theory and Practice	3.0
			WT 51	Blueprint and Symbol Reading for Welders	2.0

Program Student Learning Outcomes

Upon completion of the **Certificate of Accomplishment in Welding Technology**, the student will be able to:

1. Demonstrate the safe set-up and application of Oxyacetylene Cutting (OAC), Oxyacetylene Welding (OAW), Carbon Arc Cutting (CAC), Gas Tungsten Arc Welding (GTAW), Gas Metal Arc Welding (GMAW), Flux Cored Arc Welding (FCAW), and Shielded Metal Arc Welding (SMAW) to ferrous metals.

Course Descriptions

Abbreviations

The following Lassen Community College Courses include the following abbreviations and notations:

UC	Transferable to U niversity of C alifornia
CSU	Transferable to C alifornia S tate U niversity
IGETC	Intersegmental G eneral E ducation T ransfer C urriculum, Area Requirements
CSU GE	C alifornia S tate U niversity G eneral E ducation Certification, Area Requirements
CL	C redit L imit. See a counselor.
R	Course may be R epeated
C-ID	C ourse I dentification Number (<i>See Catalog Definition on page 35</i>)

Course Numbering

The following course numbering system has been adopted for Lassen Community College courses.

Numbers 1-49	Associate Degree Applicable Credit Course, Transfer
Numbers 50-99	Associate Degree Applicable Credit Course, Non-Transfer
Numbers 100-109	Non-degree Applicable Pre-Collegiate Basic Skills Course
Numbers 110-149	Other Non-degree Applicable Credit Course
Numbers 150-189	Non-credit Course

Selected Topic Courses

Selected topic courses are numbered 48 or 98.

In selected career technical education degrees and certificates, selected topic courses can be used to meet elective requirements.

Work Experience Courses

Work experience courses are numbered 49.

Distance Education

Lassen Community College has distance learning instruction that includes online courses and hybrid courses. For additional information on distance-learning courses, please contact Academic Services at 530.251.8819.

ADMINISTRATION OF JUSTICE

AJ 5 - Introduction to Forensics

3.0 units

CSU/UC

C-ID AJ 150

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course provides an introduction to the role of forensics in criminal investigations. It examines the methods utilized in the forensic analysis of crime scenes, pattern evidence, instruments, firearms, questioned documents and controlled substances. This course has been approved for hybrid and online delivery.

AJ 8 – Criminal Court Process

3.0 units

CSU/UC

C-ID AJ 122

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course focuses on the structural outlay and philosophy of the court system, with special emphasis on criminal law and procedure, court processes, and structures, constitutional guarantees, the trial process, and the roles of judges, prosecutors, defense attorneys and juries. Stages of the criminal process to include the Fifth, Sixth, Eight, and Fourteenth Amendments will be covered. This course has been approved for hybrid and online delivery.

AJ 9 - Introduction to Correctional Science

3.0 units

CSU

C-ID AJ 200

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course is designed to provide the student with the history of and critical analysis of punishment, alternatives to punishment, and the impact of punishment on the Criminal Justice System and corrections. It will provide a critical examination of the various types of correctional institutions, the special populations housed in these institutions as well as community prisons, alternatives to incarceration and other innovative programs. Students will also

study the political and economic ramifications of juvenile delinquents and their rights of Due Process. This course has been approved for online, hybrid and correspondence delivery.

AJ 10 – Criminology

3.0 units

CSU/UC

General Education Area B

CSU GE Area D

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course is designed to help students develop an understanding of the nature, organization and consequences of the American criminal justice system. The course includes the examination of the foundations of criminology, theories of crime and criminology, and crime typology. This course has been approved for online, hybrid and correspondence delivery.

AJ 11 – Youth Gangs in America

3.0 units

CSU/UC

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course explores youth gang activity in the United States. Focusing primarily on contemporary street gangs. The social conditions that lead to their emergence are considered, as well as perceptions of the gang problem. Also considered are racial and ethnic differences between gangs and potential solutions to the challenges that youth gangs present. This course has been approved for correspondence, hybrid and online delivery.

AJ 12 - Introduction to Criminal Justice

3.0 units

CSU

C-ID AJ 110

General Education Area B

CSU Area D

IGETC Area 4

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hour lecture

This course explores the roots of our current justice system and the interaction of its various subsystems (law enforcement/prosecution, judicial and corrections). It emphasizes the organizational structure and legal considerations relevant to each

subsystem. Topics include the origin of law, theories of crime causation, criminal procedure, and sentencing philosophies and alternatives. This course has been approved for correspondence, hybrid and online delivery.

AJ 14 - Juvenile Procedures

3.0 units

CSU

C-ID AJ 220

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course is designed to give the student an understanding of the juvenile justice system. Emphasis will be placed on basic organization, function, and jurisdiction of the various juvenile related law enforcement agencies. The study of the processing and detention of juveniles, their court procedures, dispositions and juvenile diversion will be examined. The development of an understanding of juvenile delinquency will be explored while gaining insight into the numerous rules of evidence, basic criminal laws, and the tactics used in dealing with juvenile offenders. This course has been approved for online, hybrid and correspondence delivery.

AJ 16 – Supervision in Law Enforcement

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hour lecture

This course will focus on the skills and knowledge of supervision as applied in law enforcement. The course surveys the practical, theoretical and experiential aspects of the job. The course spans topics from the supervisor's role and leadership and command presence to productivity and performance measurement. Emphasis is placed on both individual and organizational development. This course has been approved for online delivery.

AJ 20 - Criminal Law

3.0 units

CSU/UC

General Education Area B

CSU GE Area D

C-ID AJ 120

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course offers an overview of the origin and development of law, including English Common Law. It provides an analysis of the doctrines of criminal liability in the United States and the classification of crimes against persons, property, morals, and public welfare. The distinction between torts and crimes, felonies and misdemeanors, and venue and jurisdiction will be examined. Crimes against persons and property and crimes popularly deemed to be victimless will be discussed. This course utilizes case law and case studies to introduce students to criminal law. This course is also approved for online, hybrid and correspondence delivery.

AJ 23 - Criminal Evidence

3.0 units

CSU

C-ID AJ 124

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

A course dealing with the concepts of evidence, types and rules governing admissibility. Judicial decisions, interpretation of individual rights and prosecution decisions are examined. Developing trends in the laws of criminal evidence are discussed. This course has been approved for correspondence and online delivery.

AJ 24 - Community Relations

3.0 units

CSU/UC

C-ID AJ 160

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course examines the complex, dynamic relationship between communities and the justice system in addressing crime and conflict with an emphasis on the challenges and prospects of administering justice within a diverse multicultural population. An overview of multicultural concepts and issues, including those related to gender, age, and sexual preference is covered as well as an examination of strategies to

overcome these problems. This course has been approved for correspondence, hybrid and online delivery.

AJ 35 - Investigative Techniques

3.0 units

CSU

C-ID AJ 140

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

A semester course with instruction and hands-on training regarding fundamentals of investigation; crime scene search and recording; collection and preservation of physical evidence; scientific aids; modus operandi; sources of information; interviews and interrogation; follow-up and case preparation. This course has been approved for online and correspondence delivery.

AJ 49 - Administration of Justice Work Experience

1.0 – 8.00 units

CSU

General Education Area E1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

600 hours lab (R)

This work based learning course is designed to assist students with educational or career goals in administration of justice, who are working in the field of law enforcement, to build related job specific skills through individualized learning objectives and enhance their workplace performance. All Work Experience enrollments require attendance of a face-to-face orientation session. Instruction is also provided through online course modules and emails throughout course term, work based learning with a participating supervisor, and meetings in office or at student worksite. Instruction focuses on goal setting to develop job specific skills, enhancement of soft skills in the workplace, and career development. Subsequent enrollments require new individualized learning objectives, and completion of new course module assignments. Units are awarded based upon achievement of approved learning objectives, workplace performance, submission of course assignments, and documentation of work hours. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Career Technical Education, Occupational and General Work Experience enrollments. Title V specifies students will earn 1 unit

of credit for each 75 hours of paid work, and 1 unit of credit for each 60 hours volunteer work. This course has been approved for Hybrid delivery

AJ 52A - Arrest Methods and Procedures

2.5 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

40 hours lecture total (R)

A course certified by the California Peace Officer Standards and Training to qualify students for reserve level law enforcement functions. An interactive course to effectively train the student in the important powers and duties of a California Peace Officer. Repeatable as necessary to maintain certification.

AJ 52B - Firearms P.C. 832

0.5 unit

Co-requisite: AJ 52A

24 hours lab (R)

A course certified by the California Peace Officer Standards and Training to qualify students to meet the requirement of P.C. 832. Enrollment limited to those with Department of Justice criminal history clearance (non-sponsored trainees only). Repeatable as necessary to maintain certification.

AJ 52BR - Firearms Training-Refresher

0.5 units

8 hours lecture (R)

An 8 hour course on firearms care, cleaning and shooting principle. Includes range combat shoot based on requirement of the 832 P.C. Basic Course. This course is a refresher course to meet state requirements for concealed weapons permit. Enrollment limited to those with Department of Justice criminal history clearance (non-sponsored trainees only). Repeatable as needed.

AJ 53 – Basic Force and Weaponry

2.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

40 hours lecture

This course is designed for probation officers, fire investigators, and other personnel who are planning to work or who have been assigned to work an armed position. The course meets the California Peace Officers Standards and Training (POST) 832 Firearms requirements and will provide students with practical and realistic tactical exercises to build confidence and improve weapon handling skills. Enrollment

limited to current California peace officers who are sponsored by their agency. Course instructor signature required for enrollment. Material fees of \$15.00 per student collected at time of registration. Repeatable as necessary to maintain certification.

AJ 57 – Firearms/Tactical Rifle **1.0 units**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hours lecture

This course provides students introduction to the patrol rifle, its uses and specific understanding and familiarization of the rifle in conjunction with its abilities and deployment options. Includes weapon nomenclature, maintenance, storage, California Penal Code sections, and review of Department policies of utilizing the patrol rifle. Successful completion of this course satisfies the legislative training mandate to possess short barrel rifles as specified in Penal Code section 33220(b) and the California POST training requirement to possess long barrel rifles as specified in POST Commission Regulation 1081. Must be a current California Peace Officer sponsored by an Agency. Instructor will verify qualifications before signing registration card. To cover the cost of handouts and targets a material fee of \$10.00 per student will be collected at the time of registration. Repeatable as necessary to maintain certification.

AJ 58 – Perishable Skills for Peace Officers **1.0 units**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hours lecture

This Course is designed for current peace officers to meet California Peace Officer Standards and Training (POST) mandated bi-annual perishable skills training requirements. Students will receive refresher knowledge and skills in officer safety, proper and safe firearms handling, storage and cleaning techniques, proper and safe tactical movement, arrest and control techniques, safe and efficient driver awareness techniques, and effective verbal and non-verbal communication used in policing. Enrollment limited to current California peace officers. Course instructor signature required for enrollment. Material fees of \$10.00 per student collected at time of registration. Course may be repeated as needed for recertification.

AJ 59 – First Aid/CPR/AED Refresher for Peace Officers **0.5 units**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

8 hours lecture

This course is designed to meet the content and testing requirement of Title 22 of the California Code of Regulation and the Emergency Medical Services Authority (EMSA) requirements for peace officer refresher training related to the administration of First Aid, Cardiopulmonary Resuscitation and Automated External Defibrillators. Course may be repeated as needed for recertification. Material fees of \$10.00 per student collected at time of registration. Enrollment limited to current California peace officers. Course instructor signature required for enrollment.

AJ 60-Adult Correctional Officer Core Course **9.50 units**

Prerequisites: Must be 18 years of age and have High School Diploma or GED.

Recommended Preparation: Successful completion of ENGL105 or equivalent multiple measures placement.

This course presents and meets the required training for entry level local correctional officers by the Board of State and Community Corrections, Standards and Training for Corrections (STC). Topics include: criminal justice System, professionalism and ethics, gangs, oral and written communication, maintaining security, booking, receiving and releasing offenders, supervising offenders, medical issues, classification of offenders, cultural awareness, report writing and record keeping, emergency procedures, visitation, screening and distribution of supplies and mail, transportation, testifying in court, assault and abuse, defensive tactics and restraint techniques, behavioral health and personal physical conditioning basics. This course is designed to provide practical hands on training in correctional officer tactics and weapon usage, participants in this course will engage in physically demanding classroom training exercises that include a potential risk of injury to the participants. Students need to be prepared for the rigor of the physical conditioning and defensive tactics training. Pre-existing medical conditions may interfere with successful completion of these sections and/or the course.

Course instructor signature required for enrollment. Material fees of \$50.00 per student collected at time of registration.

AJ 71 – CDCR Off Post Training for Custody Staff **1.0 unit**

Pre-requisites: Basic Correctional Academy including POST Training 51 hours lab (R)

This course is designed to provide annual off post training to California Department of Corrections and Rehabilitation (CDCR) custody staff. This course is repeatable when legally mandated for continued paid or volunteer employment.

AGRICULTURE

AGR 1 - Agricultural Accounting **3.0 units** **CSU**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

34 hours lecture/51 hours lab

The Study of the principles of agricultural accounting systems and types of records, their use and how to compute, and use measures of earnings and cost of production to improve agribusiness efficiency. Also included are farm income tax, Social Security, and employee payroll records. Application of these concepts and methods through hands-on projects developing computer-based solutions for agriculture business. This course has been approved for hybrid delivery.

AGR 2 - Agricultural Economics **3.0 units** **CSU/UC**

General Education Area B

CSU GE Area D2

IGETC Area 4B

C-ID AG-AB 124

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

Study of agriculture and farming in the economic system; basic economic concepts, and problems of agriculture; pricing and marketing problems, factors of production; and state and federal farm programs affecting the farmer's economic position. This course has been approved for hybrid delivery

AGR 3 - Introduction to Agriculture Business

3.0 units

CSU/UC

C-ID AG-AB 104

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course is a survey and basic understanding of the business and economics of the agriculture industry. It is an introduction to the economic aspects of agriculture and their implications to the agricultural producer, consumer and the food system. The management principles encountered in the day-to-day operation of an agricultural enterprise are stressed as they relate to the decision-making process. This course has been approved for hybrid delivery.

AGR 4 – Agricultural Sales and Communication

3.0 units

CSU

34 hours lecture/51 hours lab

The study of principles and practices of the selling process: Selling strategies and approaches, why and how people buy, prospecting, territory management and customer service. Self-management, communication, and interpersonal skills necessary in developing leadership qualities and facilitating teamwork within the agribusiness sector will be explored. Students will gain experience through role-play, formal sales presentations, and job shadowing. The course content is organized to give students an in-depth understanding of the factors and influences that affect the agribusiness industry on a day to day basis. This course has been approved for hybrid delivery.

AGR 8 - Introduction to Animal Production

3.0 units

CSU/UC (Unit limitation)

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course is specifically designed for students planning to raise livestock for personal use with limited resources, with emphasis placed on its importance in agriculture and to the local and national economy; common breeds, specialty breeds, terminology, and cycles of production; and its importance and use of the basic sciences in the livestock industry. This course has been approved for hybrid delivery.

AGR 9 - Food Animal Selection

3.0 units

CSU/UC (Unit limitation)

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

34 hours lecture/51 hours lab

An introductory survey of the factors involved in the evaluation of market and breeding livestock used for human consumption. Class activities will be a combination of lecture, visual appraisal, performance data, record keeping, and oral presentation. Introductory course does not require student to compete past the local level. This course has been approved for hybrid delivery.

AGR 10 - Introduction to Animal Science

3.0 units

CSU/UC (Unit limitation)

General Education Area A

CSU GE Area B2 B3

IGETC Area 5B

C-ID AS 104

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

34 hours lecture/51 hours lab

This is a course in principles of Animal Science. Topics will include anatomy, physiology, endocrinology, reproduction, molecular and classical genetics, animal health and animal behavior. The course will provide an overview of the origin, characteristics, adaptation and contribution of farm animals to the agriculture industry. Laboratory exercises will provide an introduction to the empirical method including data collection and analysis. This course has been approved for hybrid delivery.

AGR 11 - Beef Cattle Production

3.0 units

CSU/UC (Unit limitation)

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

34 hours lecture/51 hours lab

Principles and practices of purebred and commercial beef production on farm and range. Feeding, breeding management, housing, health, equipment, marketing, record keeping and other basic factors underlying successful beef production. This course has been approved for hybrid delivery.

AGR 12 – Animal Health and Disease

3.0 units

CSU/UC

34 hours lecture/51 hours lab

Study of common livestock diseases and fundamentals of immunity; includes the livestock technicians role in promoting animal health and the foundation of disease control programs. This course has been approved for hybrid delivery.

AGR 13 - Feeds and Feeding

3.0 units

CSU/UC

C-ID AG-AS 132L

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

34 hours lecture/51 hours lab

The science of animal nutrition; the fundamentals of digestion and absorption in both ruminants and non-ruminants is discussed. The nutritive value of feedstuffs as they related to the formulation of livestock rations will be emphasized. This course has been approved for hybrid delivery.

AGR 14 – Equine Science

3.0 units

CSU/UC

C-ID AG-AS 116L

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

34 hours lecture/51 hours lab

Survey of the equine industry, encompassing the evolution and role of the equine species throughout history, breed selection and development, nutrition, disease, preventative health, reproductive management, basic horsemanship and stabling alternatives. This course has been approved for hybrid delivery.

AGR 19 – Introduction to Soil Science

3.0 units

CSU/UC

GE Area A

CSU GE Area B1 B3

IGETC Area 5A

C-ID AG-PS 128L

34 hours lecture/51 hours lab

The study of soil, physical, chemical and biological properties. Soil classification, derivation, use, function and management; including erosion, moisture retention, structure, cultivation, organic matter and microbiology. Laboratory topics include soil type, classification, soil reaction, soil fertility and physical properties. This course has been approved for hybrid delivery.

AGR 20 - Introduction to Plant Science

4.0 units

CSU/UC

General Education Area A

CSU GE Area B2 B3

IGETC Area 5B

C-ID AG-PS 106L

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture/51 hours lab

This course is an introduction to plant science including structure, growth processes, propagation, physiology, growth media, biological competitors, and post-harvest factors of food, fiber, and ornamental plants. This course has been approved for hybrid delivery.

AGR 21B - Intercollegiate Rodeo

3.0 units

CSU

General Education Area E2

170 hours lab (R)

Intercollegiate rodeo competition – men and women. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year. This course has been approved for online and hybrid delivery for emergency use only.

AGR 22 - Rodeo Skills

3.0 units

CSU

General Education Area E2

153 hours lab

This course is an introduction and practice in the basics of Rodeo Skills. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year. This course has been approved for online and hybrid delivery for emergency use only.

AGR 23 - Western Riding and Training

2.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hour lecture/51 hours lab

This course specializes in the many phases of Western riding and training. It will bring together material which is important to the student interested in horses as a career. This course will enable the student to show and compete more successfully in the horse industry. It prepares the student to enter the horse business as a riding instructor, trainer or

manager. This course has been approved for hybrid delivery.

AGR 31 - Bovine Embryo Transfer

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

42.5 hours lecture/25.5 lab

This course is designed to present Bovine Embryo Transfer subject matter in a seminar format. The embryo transfer process and how it relates to the cattle industry will be studied. This course has been approved for hybrid delivery.

AGR 40 - Basic Agricultural Mechanics

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hour lecture/102 hours lab

A course designed to teach basic skills required in a farm shop, which includes, but is not limited to equipment repair, metal work, hydraulics and farm construction. This course has been approved for hybrid delivery.

AGR 41 - Farm Tractors and Farm Power

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hour lecture/102 hours lab

The selection, use, application, operation, service, maintenance, adjustment and handling of minor repairs of wheel and track-type farm tractors. Principles of operation of internal combustion engines will be taught through practical application. This course has been approved for hybrid delivery.

AGR 42 - Farm Surveying, Irrigation and Drainage

3.0 units

CSU

17 hour lecture/102 hours lab

Student will be involved in irrigation and drainage problems concerning pumps, motors, sprinkler systems, pipe lines, ditches, and wells. The use of survey or leveling equipment will be applicable to this course as fields are prepared for irrigation systems. This course has been approved for hybrid delivery.

AGR 49 - Agricultural Work Experience 1.00–8.00 units

CSU

General Education Area E1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

75-600 hours lab (R)

This work based learning course is designed to assist students with educational or career goals in agriculture, who are working in the field of agriculture, to build related job specific skills through individualized learning objectives and enhance their workplace performance. All Work Experience enrollments require attendance of a face-to-face orientation session. Instruction is also provided through online course modules and emails throughout course term, work based learning with a participating supervisor, and meetings in office or at student worksite. Instruction focuses on goal setting to develop job specific skills, enhancement of soft skills in the workplace, and career development. Subsequent enrollments require new individualized learning objectives, and completion of new course module assignments. Units are awarded based upon achievement of approved learning objectives, workplace performance, submission of course assignments, and documentation of work hours. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Career Technical Education, Occupational and General Work Experience enrollments. Title V specifies students will earn 1 unit of credit for each 75 hours of paid work, and 1 unit of credit for each 60 hours volunteer work. This course has been approved for Hybrid delivery

AGR 50 - Basic Riding

2.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hour lecture/51 hours lab

A course designed to introduce horse care and basic western riding skills. This course covers not only the ability to ride, but an understanding of equipment, conformation, breeds, care and feeding. This course has been approved for hybrid delivery.

AGR 51 - Horsemanship

2.0 units

17 hour lecture/51 hours lab
Intermediate Level: Utilizing natural horsemanship techniques to build confidence and communication between horse and rider. Special instruction in problem solving and preparing the horse and rider for trail horse obstacles, reining and cattle handling. This course has been approved for hybrid delivery.

AGR 53 - Colt Training

2.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hour lecture/51 hours lab
This course is designed to present beginning methods of colt training to include catching, creating trust, driving, first ride, first 30 days and loading. This course has been approved for hybrid delivery.

AGR 57 - Beginning Horseshoeing

3.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

24 hours lecture/68 hours lab
An introduction to the shoeing of horses, utilizing both hot and cold shoes. Also included will be the anatomy and physiology of the horse's hooves with the ability to identify blemishes and soundness. Use of the forge and the making of shoes from bar stock will be presented in addition to the instruction of actually shoeing horses. This course has been approved for hybrid delivery.

AGR 61 - Introduction to Bovine Reproduction

1.5 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hour lecture/25.5 hours lab
This course is designed to give students an understanding of bovine reproduction. This course will focus on the application of artificial insemination and estrous synchronization. During this course both male and female reproduction will be discussed. The course is designed to give students the ability to understand and master the skills of artificial insemination. This course has been approved for hybrid delivery.

AGR 70 - Rodeo Team Roping

1.0 unit

48 hours lab (1 week)
This course is designed for those students interested in expanding their skills in horsemanship, cattle work and

team cooperation. This course is highly competitive and will address every phase of team roping. Skills and proficiencies in this course are enhanced by supervised repetition and practice within class periods.

AGR 116 - Pesticide Update "Continuing Education Requirements"

0.5 units

10 hours lecture (1 week) (R)
A course designed to update licensed pesticide personnel on changes in the pesticide industry, laws and regulations, and safety. Repeatable as necessary to maintain certification.

ANTHROPOLOGY

ANTH 1 - Biological Anthropology

3.0 units

CSU/UC

General Education Area A

CSU GE Area B2

IGETC Area 5B

C-ID ANTH 110

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture
This course introduces the concepts, methods of inquiry, and scientific explanations for biological evolution and its application to the human species. Issues and topics will include, but are not limited to genetics, evolutionary theory, human variation and biocultural adaptations, comparative primate anatomy and behavior and the fossil evidence for human evolution. This course has been approved for correspondence, hybrid and online delivery.

ANTH 2 - Cultural Anthropology

3.0 units

CSU/UC

General Education Area B

CSU GE Area D1

IGETC Area 4A

C-ID ANTH 120

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture
Explore diversity of cultures through the unique methodologies of cultural anthropology. Investigate differences in language, economic systems, social structures, family, kinship, gender, politics, social and economic inequality, religion, worldview, racial and ethnic labels, globalization and art. Ethnographic case studies will be used to highlight similarities and differences

among the 1200 cultures of the world. Students will be introduced to types of work anthropologists perform including research practices and standard professional ethics. This course has been approved for correspondence, hybrid and online delivery.

ART

ART 1A - Two-Dimensional Design

3.0 units

CSU/UC

General Education Area C

CSU GE Area C1

C-ID ARTS 100

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

25.5 hours lecture/76.5 hours lab
An introductory studio design course based on communicating visually through practical applications of design and composition including: line, shape, form, texture, value, color, and spatial illusion in two dimensions. Traditional mediums and digital imaging using industry standard Adobe Creative Cloud software will be emphasized. Graphic design, commercial art, and fine art principles will be explored from historical, aesthetic and cultural points of view. This course has been approved for hybrid and online delivery. To cover the costs of printing each project assignment, a \$10.00 lab fee will be charged at the time of registration. Students must provide additional materials and supplies at an estimated cost of \$25. This course has a free Open Educational Resource textbook.

ART 1B - Three-Dimensional Design

3.0 units

CSU/UC

General Education Area C

CSU GE Area C1

C-ID ARTS 101

Recommended Preparation: ART 1A ENGL105 or equivalent multiple measures placement.

25.5 hours lecture/76.5 hours lab
An introductory (no previous art experience required) studio design course based on communicating visually through practical applications of design, color, spatial relationships and imagery in three dimensions. This class will introduce students to computer design methods and basic computer design Software. Assignments will rely on student access to a computer and basic computer proficiency will be expected. Traditional construction methods and mediums plus digital imaging using industry standard

computer software will be emphasized. Graphic design, commercial art and fine art principles will be explored from historical, aesthetic and cultural points of view. This course has been approved for hybrid and online delivery. To cover materials cost including printing, a \$10.00 lab fee will be charged at the time of registration.

ART 2 - Drawing

3.0 units

CSU/UC

General Education Area C

CSU GE Area C1

C-ID ARTS 110

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

25.5 hours lecture/76.5 hours lab

An introductory (no previous art experience necessary) drawing class using a variety of drawing materials to portray a variety of subjects. Realism will be emphasized, but other methods such as Cubism and Non-Representationalism will be explored, and students will be encouraged to develop their own style. The elements and principles of drawing will be presented from historical, cultural, aesthetic and technical points of view. This course has been approved for hybrid, online and correspondence delivery. To cover the costs of printing, a \$10.00 lab fee will be charged at the time of registration.

ART 3 - Beginning Life Drawing

3.0 units

CSU/UC

General Education Area C

CSU GE Area C1

C-ID ARTS 200

Recommended Preparation: ART-2

Drawing

25.5 hour lecture/76.5 hours lab

An introduction to figure drawing from the clothed and nude model in short and extended poses, using a variety of drawing techniques and media. The elements and principles of figure drawing will be presented from historical, cultural, aesthetic, technical and digital points of view. This course has been approved for traditional and temporary emergency online delivery. Students will need to purchase approximately \$100 worth of supplies for online course.

ART 6 - Survey of Art History, Prehistoric To Renaissance

3.0 units

CSU/UC

General Education Area C

CSU GE Area C1

IGETC Area 3A

C-ID ARTH 110

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

An introductory survey of the visual arts most relevant to the development of western civilization from prehistoric through the Italian portion of the Renaissance. Comparisons and contrasts with arts of other cultures will be explored. In addition to historic and cultural viewpoints, technical and aesthetic points of view will be covered. This course has been approved for online and hybrid delivery.

ART 7 - Survey of Art History, Renaissance through Contemporary

3.0 units

CSU/UC

General Education Area C

CSU GE Area C1

IGETC Area 3A

C-ID ARTH 120

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

An introductory survey of the visual arts most relevant to the development of western civilization, from Renaissance through Contemporary art. Comparisons and contrasts with arts of other cultures will be explored. In addition to historic and cultural viewpoints, technical and aesthetic points of view will be covered. This course has been approved for hybrid and online delivery.

ART 8 - Art Appreciation

3.0 units

CSU/UC

General Education Area C

CSU GE Area C1

IGETC Area 3A

C-ID ARTH 100

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

An introductory course for both the general interest and art major student. A survey of the role of the visual arts in society. Art theory, practices and an overview of the history of art will be

covered with examples from many cultures. This course has been approved for correspondence, hybrid and online delivery.

ART 10A - Beginning Painting

3.0 units

CSU/UC

General Education Area C

CSU GE Area C1

C-ID ARTS 210

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

25.5 hour lecture/76.5 hours lab

A beginning (no previous art experience necessary) studio course in oil, acrylic, and watercolor painting techniques and materials. A variety of subject matter such as still life, landscape, wildlife and human figure will be explored. Emphasis will be on realistic representation, but other methods will be studied. Technical, historical, aesthetic and cultural points of view will be considered. This course has been approved for online delivery. To cover costs for materials used in beginning assignments, a \$10.00 lab fee will be charged at the time of enrollment. Students will need to purchase approximately \$75 worth of supplies.

ART 10B - Intermediate Painting

2.0 units

CSU/UC

Prerequisite: Art 10A Beginning Painting
102 hours lab

This course is designed as a studio course in oil, acrylic, or watercolor painting building upon basic techniques. Intermediate materials and techniques will be explored. Historical, aesthetic, and cultural points of view will be considered. This course has been approved for online delivery. To cover costs for materials used in beginning assignments, a \$10.00 lab fee will be charged at the time of enrollment. Student will need to purchase approximately \$75 worth of supplies.

ART 10C - Advanced Painting

2.0 units

CSU/UC

Prerequisite: Art 10B Intermediate Painting
102 hours lab

This course is designed as a studio course in oil, acrylic, or watercolor painting building upon intermediated techniques. Advanced materials and techniques will be explored. The student will experiment with various methods and styles in beginning to develop a personal style. Historical, aesthetic, and cultural points of view will be considered. This course has been approved for online delivery. To cover costs for materials used in beginning assignments, a \$10.00

lab fee will be charged at the time of enrollment. Student will need to purchase approximately \$75 worth of supplies.

ART 10D - Portfolio Painting
2.0 units CSU/UC

Prerequisite: Art 10C Advanced Painting
102 hours lab

This course is designed as a studio course in oil, acrylic, or watercolor painting expanding upon advanced techniques. Advanced materials and techniques will be explored. The student will experiment with various personal styles and execute a body of work for exhibition/presentation. Historical, aesthetic, and cultural points of view will be considered. This course has been approved for online delivery. To cover costs for materials used in beginning assignments, a \$10.00 lab fee will be charged at the time of enrollment. Student will need to purchase approximately \$75 worth of supplies.

ART 19A - Beginning Digital Photography

3.0 units

CSU

General Education Area C

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

34 hour lecture/51 hours lab

An introductory course in digital photography digital image capture. Basic photographic composition and subject matter, basic digital camera operation, and beginning image manipulation using Adobe Photoshop and/or Photoshop Elements will be covered. Photography as a fine art and as a commercial application will be explored. Technical, aesthetic, cultural, and historic points of view will be considered. To cover the costs of printing, a \$10.00 lab fee will be charged at the time of enrollment.

ART 19B - Intermediate Digital Photography

1.0 unit

CSU

Prerequisite: Art 19A Beginning Digital Photography
51 hours lab

An intermediate course in digital photography digital image capture. Intermediate photographic composition and subject matter, digital camera operation, and image manipulation using Adobe Photoshop and/or Photoshop Elements will be covered. Photography as a fine art and as a commercial application will be explored. Technical, aesthetic, cultural, and historic points of view will be

considered. To cover the costs of printing, a \$10.00 laboratory fee will be charged at the time of registration.

ART 19C - Advanced Digital Photography

1.0 unit

CSU

Prerequisite: Art 19B Intermediate Digital Photography
51 hours lab

An advanced course in digital photography digital image capture. Advanced photographic composition and subject matter, digital camera operation, and image manipulation using Adobe Photoshop and/or Photoshop Elements will be covered. Photography as a fine art and as a commercial application will be explored. Technical, aesthetic, cultural, and historic points of view will be considered. To cover the costs of printing, a \$10.00 laboratory fee will be charged at the time of registration.

ART 19D - Portfolio Digital Photography

1.0 unit

CSU

Prerequisite: Art 19C Advanced Digital Photography
51 hours lab

An advanced digital photography course with the aim of producing a portfolio of work demonstrating a personal style for presentation and exhibition. Photography as a fine art and as a commercial application will be explored. Technical, aesthetic, cultural, and historic points of view will be considered. To cover the costs of printing, a \$10.00 laboratory fee will be charged at the time of registration.

ART 21 - Digital Illustration Design I

3.0 units

CSU/UC

Recommended Preparation: ENGL105 or equivalent multiple measures placement. ART 2 Drawing or ART 10 Beg. Painting and ART 1A Two-Dimensional Design

25.5 hours lecture/76.5 hours lab

A course that explores conceptual ideas, image generation, manipulation, coloring, and effects for print and web media using Adobe Creative Cloud programs.

Students will develop vector and bitmap images for logo designs, icons, avatars, characters, objects, environments, and basic storyboarding. Students will draw, paint, and apply special effects and filters with the tools available within the Adobe Creative Cloud. Basic design principles, six step design process and personal expression will be used to create powerful

conceptual imagery. This course has been approved for hybrid and online delivery. To cover the costs of printing each project assignment a \$10.00 lab fee will be charged at the time of registration. Students must supply additional materials and supplies at an estimated cost of \$70.

ART 23 - Beginning Printmaking

3.0 units

CSU/UC

C-ID ARTS 220

Recommended Preparation: ENGL105 or equivalent multiple measures placement, ART 2 Drawing. 25.5 hour lecture/76.5 hours lab
An introduction to traditional and contemporary approaches to intaglio (etching), relief (woodcut and linocut), serigraphy (silkscreen) and monoprint printmaking. Both personal and commercial design will be explored. As well as a variety of subject matter and artists. Technical, historical, aesthetic and cultural points of view will be considered.

ART 25 – Graphic Design 1

3.0 units

CSU/UC

C-ID ARTS 250

General Education Area C

Recommended Preparation: ENGL105 or equivalent multiple measures placement; ART 1A Two-Dimensional Design, ART 19A Beginning Digital Photography

25.5 hours lecture/76.5 hours lab

A visual communication course using image generation/manipulation and text components in Adobe Photoshop. The integration of images, text, and graphics will be conceptualized then utilized to produce commercial based products such as posters, ad campaigns, product packaging, and cover designs.

Production, printing, presentation and critiques, emphasizing the six step design process, basic design principles, personal expression through digital graphic design processes will be used to meet crucial deadlines. This course has been approved for hybrid and online delivery. To cover the costs of printing proofs for each project assignment, a \$10.00 lab fee will be charged at the time of registration. All students will provide additional materials and supplies with an estimated cost of \$70.

ART 30 – Introduction to Sculpture

3.0 units

CSU/UC

General Education Area C

CSU GE Area C1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

26.5 hour lecture/76.5 hours lab
A course introducing contemporary art issues, historical overview, and aesthetic problem solving, utilizing a variety of materials and common techniques familiar to sculpture and 3-dimensional design as well as material use to render in the fashion of virtual three-dimensional rendering.

ART 36A - Beginning Ceramics

3.0 units

CSU/UC

General Education Area C

CSU GE Area C1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

25.5 hour lecture/76.5 hours lab

A beginning course in ceramics exploring basic handbuilding and wheelthrowing techniques. Basic methods of forming, decorating, glazing and firing ceramic materials will be covered. The elements and principles of ceramics will be presented from historical, cultural, aesthetic, and technical points of view. To cover the cost of glazes, a \$10.00 lab fee will be charged at the time of enrollment.

ART 36B - Intermediate Ceramics

2.0 units

CSU/UC

Prerequisite: Art 36A Beginning

Ceramics

102 hours lab

Further development of hand-building, and wheel-throwing, clay, glazes and firing processes. Aesthetic exploration of ideas. To cover the cost of glazes, a \$10.00 lab fee will be charged at the time of enrollment.

ART 36C - Advanced Ceramics

2.0 units

CSU

Prerequisite: Art 36B Intermediate

Ceramics

102 hours lab

Advanced development of hand-building and/or wheel-throwing techniques, clay, glazes and firing processes. Beginning to develop a personal style in ceramics. To cover the cost of glazes, a \$10.00 lab fee will be charged at the time of enrollment.

ART 36D - Portfolio Ceramics

2.0 units

CSU

Prerequisite: Art 36C Advanced

Ceramics

102 hours lab

Advanced development of handbuilding and/or wheelthrowing techniques, clay, glazes, and firing processes. Continuing to develop a personal style in ceramics.

Producing a body of work for presentation/exhibition. To cover the cost of glazes, a \$10.00 lab fee will be charged at the time of enrollment.

ART 38 – 3-D Computer Modeling and Animation

3.0 units

CSU/UC

25.5 hour lecture/76.5 hours lab

This course introduces students to the use of software techniques to create and animate three-dimensional environments and objects. Students will learn to create photo-realistic models and scenes enhanced by lighting, shadows, reflection, and textures, and will learn to produce camera fly-through and basic character animation sequences. To cover the costs of printing proofs for each project assignment, a \$10.00 lab fee will be charged at the time of registration. This course has been approved for online delivery.

ART 49 - Art Work Experience

1.0-8.0 units

CSU

General Education Area E1

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

600 hours lab (R)

This work based learning course is designed to assist students with educational or career goals in art, who are working in the field of art, to build related job specific skills through individualized learning objectives and enhance their workplace performance. All Work Experience enrollments require attendance of a face-to-face orientation session. Instruction is also provided through online course modules and emails throughout course term, work based learning with a participating supervisor, and meetings in office or at student worksite. Instruction focuses on goal setting to develop job specific skills, enhancement of soft skills in the workplace, and career development. Subsequent enrollments require new individualized learning objectives, and completion of new course module assignments. Units are awarded based upon achievement of approved learning objectives, workplace performance, submission of course assignments, and documentation of work hours. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Career Technical Education, Occupational and General Work Experience enrollments.

Title V specifies students will earn 1 unit of credit for each 75 hours of paid work, and 1 unit of credit for each 60 hours volunteer work. This course has been approved for Hybrid delivery

AUTOMOTIVE TECHNOLOGY

AT 49 - Automotive Technology

Work Experience 1.0-8.0 units

CSU

General Education Area E1

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

600 hours lab (R)

This course enables students with educational or career goals in automotive technology, who are working in the field of automotive technology to build related job specific skills through individualized learning objectives and enhance their workplace performance. Attendance of an on campus orientation session is required for all Work Experience enrollments. Students complete an online expanded orientation module addressing workplace success skills throughout the term. Subsequent enrollments require new individualized learning objectives. Units are awarded based upon achievement of approved learning objectives, workplace performance, submission of course assignments, and documentation of work hours. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Vocational, Occupational and General Work Experience enrollments. Title V specifies students will earn 1 unit of credit for each 75 hours paid work, and 1 unit of credit for each 60 hours volunteer work. This course has been approved for hybrid delivery.

AT 50 – Car Care Basics

3.0 units

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

34 Hours Lecture, 51 Hours Lab

This course was designed to:

1. Introduce shop procedure and safety to the student;
2. Give students the skills to perform vehicle maintenance and basic roadside repairs;
3. Give students the skills to diagnose and repair minor vehicle malfunctions. This course adheres to ASE Education Foundation standards. The course has been approved for hybrid delivery.

AT 54 - Brakes

3.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

34 hour lecture/51 hours lab

This course is designed to provide the student with skills in automotive brakes; disassembly and repair of drum, disc, hydraulic systems, including power and manual brakes. Several anti-lock brake systems (ABS) will be covered. Machining of drums, rotors, and adjustments will also be studied. This course adheres to ASE Education Foundation standards. This course has been approved for Hybrid Delivery.

AT 56 - Steering and Suspension

3.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

34 hour lecture/51 hours lab

This course is designed to provide the student with skills in alignment of front suspension and rear wheel alignment where applicable and inspection and repair of steering and suspension components. Basic and computerized equipment will be utilized. The contents of this course conforms to AES (Educational Foundation) standards for steering and suspension. This course has been approved for hybrid delivery.

AT 58 – Automotive Heating and Air Conditioning

3.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hour lecture/102 hours lab

This course is designed to provide the student with theory and operation of common air conditioning and heating systems including diagnosis and repair and recovery of R-12, 134A, and R1234YF refrigerants. This course meets ASE Education Foundation standards. This course has been approved for hybrid and online delivery.

AT 60 – Shop Management and Service Writer

2.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

34 hour lecture

This course is designed to provide the student with the skills needed to write service at an automotive repair shop. Shop management techniques will also be covered. Communication, organization, and filling out repair orders

to meet all legal requirements will be emphasized. This course has been approved for online and hHybrid delivery

AT 66 - Manual Drive Train

4.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

34 hours lecture/102 hours lab (R)

This course is designed to provide the student with theory and practical experience in operation, repair and adjustment of common manual transmissions, drive lines, differentials, transfer cases and 2 and 4-wheel drive systems. Clutches, wheel bearings and axle repair will also be studied. This course has been approved for hybrid delivery.

AT 68 - Automatic Transmissions

3.0 units

Recommended Preparation ENGL105 or equivalent multiple measures placement.

17 hour lecture/102 hours lab

This course is designed to provide the student with theory and operation of common automatic transmissions including diagnosis, adjustment and repair of common automatic transmission problems. This course has been approved for hybrid delivery

AT 70 - General Automotive Lab

2.0 units

Corequisite: Student must be enrolled in one additional automotive course that has a safety component.

102 hours lab

This course is designed to provide the student with skills in developing increased speed, accuracy, and expertise in all phases of automotive training.

AT 72 - Engine Repair and Machining-Short Blocks

4.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hours lecture/153 hours lab

This course is designed to prepare the student with basic, through increasingly advanced, skills in overhaul procedures for the owner or rebuilder. Safety, basic hand tools, engine removal and replacement, cleaning techniques, disassembly and assembly of engine components, measuring, diagnosis of oil consumption and poor performance with corrective measures will be covered. Emphasis will be on gasoline engine overhaul as it relates to home, small farm shop, and commercial shop. This course has been approved for hybrid delivery.

AT 74 - Engine Repair and Machining-Cylinder-Heads

3.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hours lecture/102 hours lab

This course is designed to prepare the student with basic, through increasingly advanced, skills in overhaul procedures for the owner or rebuilder. Safety, basic hand tools, cylinder head removal and replacement, cleaning techniques, disassembly and assembly of cylinder head components, measuring, diagnosis of oil consumption and poor performance with corrective measures will be covered. Emphasis will be on cylinder head overhaul as it relates to home, small farm shop, and commercial shop. This course has been approved for hybrid delivery.

AT 80 – Basic Electrical

3.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

34 hours lecture/51 hours lab

This course is designed to provide the student with theory, diagnosis and repair of chassis electrical systems. Extensive use of voltmeters, ohmmeters, and short circuit testers, and common testing tools will be emphasized. Isolate a malfunction to a specific system in which a fault exists. This course has been approved for Hybrid Delivery.

AT 82 – Engine Performance I

3.0 units

Prerequisite: AT-80 Basic Electrical

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

34 hours lecture/51 hours lab

This course was designed to provide the student basic engine performance diagnostic and repair skills. Testing with various meters and shop equipment will be studied. Ignition and fuel system principles and diagnosis will be emphasized. This course has been approved for Hybrid Delivery

AT 84 – Engine Performance II

3.0 units

Prerequisite: AT-82 – Engine Performance I

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

34 hours lecture/51 hours lab

This course is designed to provide the student with advanced theory, diagnosis, and repair of various control modules,

computer sensors and circuits. Extensive use of various meters, lab scopes, and other shop equipment will be used. Vehicle on-board diagnosis systems will be emphasized. This course has been approved for online and hybrid delivery

AT 90 – Automotive Survival

1.0 unit

18 hours lecture

This is an introductory seminar course designed for the novice from the standpoint of owner survival in the marketplace. Automotive vocabulary, preventive maintenance, and consumer issues will be addressed.

AT 90A – Automotive Survival Lab **0.5 units**

Recommended Preparation: AT 90

Automotive Survival

24 hours lab

The course is designed to provide the student with hands on experience in the areas of vehicle maintenance, preventive maintenance, minor tune-up, and simple adjustments.

AT 91 – Smog Check Training **Level 2 32-Hour Course**

1.0 unit

Prerequisites: Prior to taking the Smog Check Training, students must either satisfy BAR specified criteria, as listed below, or successfully complete the Level 1 Engine and Emission Controls Fundamentals Training. BAR specified requirements: Possess ASE A6, A8 and L1 certification; or possess an AA/AS degree or Certificate in automotive technology and have 1 year experience; or have 2 years' experience and have completed BAR specified training.

8 hours lecture/24 hours lab

The Smog Check Training 32 Hour Course is intended to provide students the knowledge, skills, and abilities needed to perform Smog Check inspections.

Students who successfully complete this training will have met the California State Bureau of Automotive Repair's training requirements to qualify to take the Smog Check Inspector state licensing examination.

AVIATION

AERO 1A - Aviation Ground School

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

An aviation ground school course specifically designed to provide complete explanations of aeronautical concepts. It

is designed to prepare the student for the Federal Aviation Administration (FAA) written examinations dealing with Visual Flight Rules (VFR) and the Private Pilot License.

BIOLOGY

BIOL 1 - Principles of Molecular and Cellular Biology

4.0 units

CSU/UC

General Education Area A

CSU GE Areas B2 & B3

IGETC Area 5B & 5C

C-ID BIOL 190

Prerequisite: MATH 60 Intermediate Algebra or equivalent multiple measures placement and Chemistry 1A General Chemistry I

51 hours lecture/51 hours lab

A course in principles of biology, with special emphasis given to molecular and cellular biology. Topics include the chemical basis of life, prokaryotic and eukaryotic cells, structure and function, cell metabolism, cellular communication, classical genetics, molecular genetics, and biotechnology. This course is designed to meet the core requirements for biology and related majors. (This course is the recommended preparation for Bio 4, Biol 20, and Biol 25.) This course has been approved for online and hybrid delivery.

BIOL 4 - Principles of Evolutionary, Organismal, and Ecological Biology

5.0 units

CSU/UC

General Education Area A

CSU GE Areas B2 & B3

IGETC Area 5B & 5C

C-ID BIOL 140

Prerequisite: MATH 60 or equivalent multiple measures placement.

Recommended Preparation: Biology 1

51 hours lecture/102 hours lab

A course in principles of biology, with special emphasis given to evolution, organismal and ecological biology. Topics include evolution, classification, diversity of life; (unicellular and multicellular organisms); animal fungus and plant structure, development and function; and ecological relationships. This course is designed to meet the core requirements for biology and related majors. This course has been approved for online and hybrid delivery.

BIOL 10 - Natural History of Plants & Animals

4.0 units

CSU/UC (Unit limitation)

General Education Area A

CSU GE Areas B2 & B3

IGETC Area 5B & 5C

Recommended Preparation: Successful completion of ENGL105 or equivalent multiple measures placement.

51 hours lecture/51 hours lab

An introductory course dedicated to the study of natural environments by integrating lecture, laboratory and field experiences. Emphasis is placed on the natural history of local forms of plants and animals, their ecological relationships, identification techniques and the integrity of nature. This course has been approved for online, hybrid and correspondence delivery. Access to a computer with internet access is required.

BIOL 20 - Microbiology

5.0 units

CSU/UC

General Education Area A

CSU GE Areas B2 & B3

IGETC Area 5B & 5C

Recommended Preparation: Biology 1

51 hours lecture/102 hours lab

This is an introductory course covering the biology (morphology, anatomy, physiology, classification, identification and development) of micro-organisms (viruses, protozoa, parasitic worms, algae, fungi, with emphasis on bacteria), their significance and their role in human affairs. This course has been approved for online and hybrid delivery.

BIOL 21 - Human Anatomy with Lab

4.0 units

CSU/UC

C-ID BIOL 110B

Recommended Preparation: ENGL 105

or equivalent placement through the multiple measures process, Math 60 - Intermediate Algebra or the equivalent placement through the multiple measures process. Biology 1 and Chem 1A
51 hours lecture/51 hours lab
One semester of a two semester sequence covering structure and function, integration and homeostasis of the human body at the cellular, tissue organ, organ system and organism level. This semester includes the structures of the integumentary, skeletal, muscular, nervous and sensory systems, cardiovascular, lymphatic, immune, respiratory, urinary, digestive, endocrine

and reproductive systems. This course has been approved for hybrid delivery.

BIOL 22 - Human Physiology with Lab

4.0 units

CSU/UC

C-ID BIOL 120B

Recommended Preparation: ENGL 105 or equivalent placement through the multiple measures process, Math 60 - Intermediate Algebra or the equivalent placement through the multiple measures process. Biology 1 and Chem 1A 51 hours lecture/51 hours lab One semester of a two semester sequence covering structure and function, integration and homeostasis of the human body at the cellular, tissue organ, organ system and organism level. This semester includes the functions of the integumentary, skeletal, muscular, nervous and sensory systems, cardiovascular, lymphatic, immune, respiratory, urinary, digestive, endocrine and reproductive systems. This course has been approved for online and hybrid delivery.

BIOL 25 - Human Anatomy and Physiology I

4.0 units

CSU/UC

General Education Area A & E1

CSU GE Areas B2 & B3

IGETC Area 5B & 5C

C-ID BIOL 115S

Recommended Preparation: ENGL 105 or equivalent placement through the multiple measures process, Math 60 - Intermediate Algebra or the equivalent placement through the multiple measures process. Biology 1 and Chem 1A 51 hours lecture/51 hours lab First semester of a two semester sequence covering structure and function, integration and homeostasis of the human body at the cellular, tissue organ, organ system and organism level. This semester includes the integumentary, skeletal, muscular, nervous and sensory systems. This course has been approved for hybrid (online/traditional) delivery. This course has been approved for online delivery for emergency us only.

BIOL 26 - Human Anatomy and Physiology II

4.0 units

CSU/UC

General Education Area A & E1

CSU GE Areas B2 & B3

IGETC Area 5B & 5C

C-ID BIOL 115S

Prerequisite: BIOL I or BIOL 25 Human Anatomy and Physiology I

51 hours lecture/51 hours lab Second semester of a two semester sequence covering the structure and function, integration and homeostasis of the human body at the cellular, tissue organ, organ system and organism level. This semester includes the cardiovascular, lymphatic, immune, respiratory, urinary, digestive, endocrine and reproductive systems. This course has been approved for hybrid (online/traditional) delivery. This course has been approved for online delivery for emergency us only.

BIOL 32 - General Biology

3.0 units

CSU/UC (unit limitation)

General Education Area A

CSU GE Area B2

IGETC Area 5B

Recommended Preparation: Successful completion of ENGL105 or equivalent multiple measures placement.

51 hours lecture

A general survey of the living world with emphasis on the basic biological principles as illustrated in plant and animal groups. This course has been approved for online, hybrid and corespondence delivery.

BIOL 32L - General Biology with Laboratory

4.0 units

CSU/UC

General Education Area A

CSU GE Area B2 B3

IGETC Area 5B 5C

Recommended Preparation: ENGL 105 or equivalent placement

51 hours lecture/51 hours lab

A general survey of the living world with emphasis on the basic biological principles as illustrated in plant and animal groups. This course includes a laboratory section supporting the basic concepts of the course. This course has been approved for hybrid delivery. This course has been approved for on line delivery for emergency us only.

BUSINESS

BUS 1A - Accounting Principles – Financial

4.0 units

CSU/UC

C-ID ACCT 110

Recommended Preparation: Successful completion of ENGL105 and Elementary Algebra or equivalent multiple measures placement.

68 hours lecture

A comprehensive course in financial accounting covering accounting information systems, the measuring and reporting of business transactions, and financial statement preparation under generally accepted accounting principles. Emphasis is placed on balance sheet valuation, quality of earnings, cash flow measurement, ethics and internal controls. This course has been approved for correspondence, online and hybrid delivery.

BUS 1B - Accounting Principles – Managerial

4.0 units

CSU/UC

C-ID ACCT 120

Prerequisite: BUS 1A – Accounting Principles-Financial

68 hours lecture

An introduction to managerial accounting, planning and decision making. The course includes a study of cost behaviors, classifications, capture and reporting. Emphasis is placed on costs systems, decision making using accounting data, budgeting and manufacturing and cost accounting and the preparation of reports based on accounting data. This course has been approved for correspondence, online and hybrid delivery.

BUS 1C - Federal Income Tax

3.0 units

CSU

Prerequisite: BUS 1A – Accounting Principles-Financial

51 hours lecture

Structure of personal income taxation, tax planning and underlying social and economic issues. Emphasis on tax concepts rather than tax return preparation. (FT) This course has been approved for online and hybrid delivery.

BUS 2 - Introduction to Business

3.0 units

CSU/UC

C-ID BUS 110

Recommended Preparation: ENGL 105 or equivalent multiple measures placement.

51 hours lecture

A survey course designed to provide students with familiarity with basic principles and practices found in contemporary business, knowledge of business terminology and an understanding of how businesses operate within the U.S. and globally. This course has been approved for correspondence and online delivery. This course uses a free Open Educational Resource textbook. This course has been approved for hybrid

delivery.

BUS 10 – Managing Diversity and Human Resources

3.0 units

CSU

Recommended Preparation ENGL105 or equivalent multiple measures placement.

51 hours lecture

A course for practicing, newly-appointed, or potential supervisors and managers who hold or who will hold from first-line up to middle-management positions. Course will develop broader perspectives and new insights in managerial skills to manage a multicultural workplace. It focuses on the workplace impact of various historical, social, and cultural experience/perspectives related to gender, age, ethnicity, and disability. This course has been approved for online, hybrid and correspondence delivery.

BUS 13 - Basic Accounting

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

A beginning course in accounting and bookkeeping principles develops entry-level accounting skills.

BUS 18 - Records Management

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture.

Develops an understanding of the scope and problems of the administrative management of records. Covers all aspects of a records management system from establishment through filing, storing and retrieving. This course has been approved for online and correspondence delivery.

BUS 19 - Office Administration

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

The student experiences the role of the office worker and performs functions that make up an office support system. A variety of tasks will be performed to sharpen office skills and knowledge of procedures. Importance of human relations and interpersonal communications

skills is stressed. This course has been approved for online, hybrid and correspondence delivery.

BUS 22 - Business Law

3.0 units

CSU/UC

General Education Area B

C-ID BUS 125

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

An introduction to the legal system with emphasis on business transactions. Topics include contracts, sales, torts, agency relationships, and commercial paper. A fundamental understanding of legal procedure, sources of law, law classifications, dispute resolution, and social /ethical considerations of law. This course has been approved for online, hybrid and correspondence delivery. This course may use a free Open Educational Resource textbook.

BUS 25 - Small Business Management

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

Provides complete coverage of small business operations including business functions; sales, production, procurement, personnel, and finance. Managerial functions; planning, organizing, actuating, and controlling, with examples of actual business situations used to emphasize important principles. This course has been approved for correspondence and online delivery. This course may use a free Open Education Resource textbook.

BUS 27- Business Communications

3.0 units

CSU

C-ID BUS 115

Prerequisite: ENGL-1 College

Composition

51 hours lecture

Instruction in the principles of effective business communications. Contemporary approaches to planning, composing and revising common written and oral business communications is explained and applied. Emphasis is on the writing of clear, concise, and effective letters, memorandums, e-mails and business reports. This course is designed for business majors. This course has been approved for correspondence, online and hybrid delivery. This course uses a free Open Educational Resource textbook.

BUS 34A - Microsoft Word, Beginning

3.0 units

CSU

Prerequisite: COT 52 Keyboarding, Level 1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

25.5 hours lecture/76.5 hours lab

Basic operations of Microsoft Word. Includes file management, navigation with menus and toolbars, document creation and revision, formatting and layout, tabs, page numbering, multi-column work, basic find and replace, tables, graphs, and envelopes/labels. In addition, a study of concepts of word processing will provide students with the background necessary to help them adapt to various situations they will encounter when employed. This course has been approved for online and Hybrid (online/traditional) delivery.

BUS 34B - Microsoft Word, Advanced

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

25.5 hours lecture/76.5 hours lab

Provides concentrated training in advanced operations of Microsoft Word, including automated form letters, advanced find/replace, sorting, advanced formatting with styles and templates, repetitive typing shortcuts, footnotes, shared documents, indexes, online forms, basic macros, and hyperlinks. In addition, a study of concepts of word processing will provide students with the background necessary to help them adapt to various situations they will encounter when employed. This course has been approved for online and hybrid (online/traditional) delivery.

BUS 49 - Business Work Experience

1.0-8.0 units

CSU

General Education Area E1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

600 hours lab (R)

This work based learning course is designed to assist students with educational or career goals in business, who are working in the field of business, to build related job specific skills through individualized learning objectives and enhance their workplace performance. All

Work Experience enrollments require attendance of a face-to-face orientation session. Instruction is also provided through online course modules and emails throughout course term, work based learning with a participating supervisor, and meetings in office or at student worksite. Instruction focuses on goal setting to develop job specific skills, enhancement of soft skills in the workplace, and career development. Subsequent enrollments require new individualized learning objectives, and completion of new course module assignments. Units are awarded based upon achievement of approved learning objectives, workplace performance, submission of course assignments, and documentation of work hours. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Career Technical Education, Occupational and General Work Experience enrollments. Title V specifies students will earn 1 unit of credit for each 75 hours of paid work, and 1 unit of credit for each 60 hours volunteer work. This course has been approved for Hybrid delivery

BUS 75 – Planning and Launching a New Business Venture **1.0 units**

17 hours lecture
An exploratory course in the fundamentals of planning and starting a new business venture. This is a project based course developing a business plan. Topics include the development of a competitive business model, assessing industry and market conditions, choosing a form of business ownership, and the structure and content found in a successful business plan.

BUS 76 – Marketing the Small Business Venture **1.0 unit**

17 hours lecture
This course provides students with the fundamentals of marketing a small business concern. The student will be introduced to the concepts of market planning, strategy, research, competitor analysis, target markets, and the development of a marketing mix for a marketing plan.

BUS 77 – Financing the New Business Venture **1.0 unit**

17 hours lecture
A course in small business and entrepreneurship financing. Topics include estimating start-up costs, projecting sales, funding new business

ventures, the basics of financial statement analysis, budgeting, cash flow management, and the time value of money. Emphasis is placed on developing useful financial information used in small businesses and business plans.

BUS 78 – The Customer Service Advantage **1.0 units**

17 hours lecture
This course provides students with the principles that support customer service excellence. The student will be introduced to the concepts of customer satisfaction, servicing the internal and external customers, interpersonal communications, consumer retention, and managing conflict.

BUS 79 – Computer Info Systems for Small Business Ventures **2.0 units**

17 hours lecture/51 hours lab
This course introduces students to information system concepts, computer technologies, and applications commonly found in small business. Students will learn the basics behind typical information technologies used to manage small business operations. Emphasis is placed on leveraging spreadsheet, database, bookkeeping, and word processing software applications.

BUS 84 – Business Mathematics **3.0 units** **Recommended Preparation:** ENGL105 or equivalent multiple measures placement.

51 hours lecture
Mathematics used in business transactions, interest, discount, mark-up, depreciation, payroll, taxes, and other business computations.

CHEMISTRY

CHEM 1A - General Chemistry I **5.0 units** **CSU/UC**

General Education Area A
CSU GE Areas B1 & B3
IGETC Area 5A & 5C
C-ID CHEM 110

Prerequisite: One year of high school chemistry or Chemistry 45 or the equivalent and MATH 60 Intermediate Algebra or equivalent multiple measures placement.

51 hours lecture/102 hours lab
This course introduces atomic structure, bonding, stoichiometry, thermochemistry, gases, matter and energy, oxidation-reduction, chemical equations, liquids and solids, solutions, chemical energetics and equilibrium. The first semester of a one-

year course in chemistry intended for majors in the natural sciences (chemistry, biochemistry, biology, physics, pre-medicine), mathematics, and engineering. This course has been approved for online and hybrid delivery.

CHEM 1B - General Chemistry II **5.0 units** **CSU/UC**

General Education Area A
CSU GE Areas B1 & B3
IGETC Area 5A & 5C
C-ID CHEM 120S

Prerequisite: Chemistry 1A General Chemistry I or the equivalent. MATH 60 Intermediate Algebra or equivalent multiple measures placement.
51 hours lecture/102 hours lab
A continuation of Chemistry 1A intended for majors in natural sciences, mathematics, and engineering. Topics covered or reinforced in both the lecture and laboratory: Chemical energetics and equilibria, solutions and ionic equilibria, acid-base chemistry, electrochemistry, coordination chemistry, oxidation-reduction, and thermodynamics, kinetics, nuclear chemistry, descriptive chemistry, organic chemistry, the chemistry of family groups of the periodic table, qualitative and quantitative analysis.

CHEM 8 - Introduction to Organic and Biochemistry **4.0 units** **CSU/UC**

General Education Area A
CSU GE Areas B1 & B3
IGETC Area 5A & 5C
C-ID CHEM 102

Prerequisite: CHEM 1A or CHEM 45
51 hours lecture/51 hours lab
An introduction to organic chemistry and biochemistry. Emphasis is on the relationship between structure, properties and function of simple and complex molecules. For nursing and allied health students. This course has been approved for online and hybrid delivery.

CHEM 40 – Survey of Chemistry and Physics **3.0 units** **CSU/UC** **C-ID CHEM 140**

Prerequisites: Elementary Algebra
51 hours of lecture
This is an investigation of the basic principles of physics and chemistry including matter, physical and chemical properties, energy, motion, light, atomic structure, bonding, solutions and chemical reactions. The interdependence of chemistry and physics will be emphasized. This course is intended for non-science majors and recommended

for students in the California State Teacher Preparation Program. This course has been approved for online and hybrid delivery.

CHEM 40L – Teaching Laboratory for Survey of Chemistry and Physics

1.0 units

CSU/UC

C-ID CHEM 140

Co-requisites: Chem 40

This is an investigation of the basic principles of physics and chemistry using laboratory instruments and hands-on experiment. The teaching laboratory will cover principles of data taking, data analysis, and technical writing skills for scientific reports. This course is intended for non-science majors and recommended for students in the California State Teacher Preparation Program. This course is web-enhanced.

CHEM 45 - Introduction to General Chemistry

4.0 units

CSU/UC (unit limitation)

General Education Area A

CSU GE Areas B1 & B3

IGETC Area 5A & 5C

C-ID CHEM 101

Prerequisite: One year of high school algebra or MATH 60 intermediate algebra or equivalent multiple measure placement

Recommended Preparation: one year high school Chemistry

51 hours lecture/51 hours lab

An introduction to chemistry, principally inorganic. Emphasis is on basic concepts and skills. This course is for students with no prior chemistry and is intended a preparation for major's in chemistry, allied health, and general education. This course has been approved for online and hybrid delivery.

CHEM 45A - Introduction to General Chemistry Discussion Session

1.0 units

CSU/UC (elective)

Co-requisite: CHEM 45

This is a required co-requisite for students enroll in CHEM 45 who have not taken any basic chemistry courses (including introduction to physical science or equivalent) in the past 4 years. It is strongly recommended for all students enroll in CHEM 45. Students will use quantitative strategies to solve chemistry in topics of atomic theory, periodic properties, chemical bonds, stoichiometry, gas laws, kinetics and equilibrium of chemical reactions, acids

and bases, redox reactions, and thermodynamics. This course has been approved for online delivery.

CHILD DEVELOPMENT

CD 11 - Observation and Assessment

3.0 units

CSU

C-ID ECE 200

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

34 hours lecture/51 hours lab

This course focuses on the appropriate use of assessment and observation strategies to document development, growth, play, and learning in order to join with families and professionals in promoting children's success and maintaining quality programs. Recording strategies, rating scales, portfolio, and multiple assessment methods are explored. This course has been approved for online and hybrid delivery.

CD 12 - Child, Family and Community

3.0 units

CSU

General Education Area E1

C-ID CDEV 110

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course addresses early childhood education competencies related to the role of the family in the care and education of the child, and the role of community in providing services to children and their families. Key concepts include acknowledgement that children develop in the context of their families and communities and that building relationships with families in an integral part of competent and professional early childhood practice. This course has been approved for online, hybrid and correspondence delivery.

CD 15 - Pre-School Administration

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course is designed to meet the State Department of Education requirements for directors of public funded child development programs, and the Supervisory Child Development Permit. Topics covered are the development, procedures and evaluation of child development programs; staff and parent handbooks; staff orientation, and in-

service; parent correspondence; marketing strategies, business plans; financial reports, evaluation and accreditation. This course has been approved for online, hybrid and correspondence delivery.

CD 16 - Introduction to Curriculum

3.0 units

CSU

C-ID ECE 130

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course presents an overview of knowledge and skills related to providing appropriate curriculum and environments for all young children from birth to 6. Students will examine teachers' role in supporting development and fostering the joy of learning for all young children using observation and assessment strategies emphasizing the essential role of play. An overview of content areas will include but not be limited to: language and literacy, social and emotional learning, sensory learning, art and creativity, math and science. This course has been approved for online, hybrid and correspondence delivery.

CD 17 - Children's Literature

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

Designed to help teachers build language opportunities into every curriculum area; to explore methods of fostering language skills of the young child, and introduce pre-reading experiences. Includes the study of children's literature, standards for evaluating books, techniques of storytelling, and puppetry. This course has been approved for online delivery.

CD 19 - Children's Nutrition, Health and Safety

3.0 units

CSU

C-ID ECE 220

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

Introduction to the laws, regulations, standards, policies and procedures and early childhood curriculum related to child health, safety and nutrition. The key components that ensure physical health, mental health and safety for both children and staff will be identified along with the importance of collaboration with families

and health professionals. This course has been approved for online, hybrid and correspondence delivery.

CD 20 - Principles and Practices of Teaching Young Children

3.0 units

CSU

C-ID ECE 120

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

An examination of the underlying theoretical principles of developmentally appropriate practices applied to programs, environments, emphasizing the key role of relationships, constructive adult-child interactions, and teaching strategies in supporting physical, social, creative, and intellectual development for all children. This course has been approved for online, hybrid and correspondence delivery.

CD 22 - The Infant Toddler

3.0 units

CSU

General Education Area E1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

Principles and philosophy of infant care for children up to three years of age including physical and mental growth, cognitive, social/emotional, language and self-identity development, health and nutrition. Parent education, community resources, inclusion and cultural/ethnic diversity will be explored. This course has been approved for online, hybrid and correspondence delivery.

CD 23 - Adult Supervision in the Child Care Setting

3.0 units

CSU

Prerequisite(s): Twelve (12) units of Early Childhood Education Prerequisite Skills

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course is a study of the methods and principles of supervising student teachers, assistant teachers, parents and volunteers in early childhood education/child development classrooms. Emphasis is on the role of classroom teachers who function as mentors to new teachers while simultaneously addressing the needs of children, parents and other staff. Required by the Child Development permit for administrators of ECE/CD

programs. This course has been approved for online and hybrid delivery.

CD 24 – Practicum

4.0 units

CSU

C-ID ECE 210

Prerequisites: CD-12; CD-16; CD-20 and PSY-31/CD-31

34 hours lecture/102 hours lab

A demonstration of developmentally appropriate early childhood teaching competencies under guided supervision. Students will utilize practical classroom experiences to make connections between theory and practice, develop professional behaviors, and build a comprehensive understanding of children and families. Child centered, play-oriented approaches to teaching, learning, and multiple measures ; and knowledge of curriculum content areas will be emphasized as student teachers design, implement and evaluate experiences that promote positive development and learning for all young children. This course has been approved for online and hybrid delivery.

CD 25 - Teaching in a Diverse Society

3.0 units

CSU

C-ID ECE 230

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

Examination of the development of social identities in diverse societies including theoretical and practical implications of oppression and privilege as they apply to young children, families, programs, classrooms and teaching. Various classroom strategies will be explored emphasizing culturally and linguistically appropriate anti-bias approaches supporting all children in becoming competent members of a diverse society. This course has been approved for online, hybrid and correspondence delivery.

CD 26 - Administration II

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course addresses advanced administration skills, knowledge, and techniques needed to organize and operate a child development facility. Emphasis will be on principle-centered leadership, staffing, and staff development opportunities, personnel policies, problem solving techniques, regulatory laws, funding

opportunities, budget and fiscal management and working with a board, parents, volunteers and the community. This course has been approved for online and hybrid delivery.

CD 27 - Children with Special Needs

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course focuses on identifying and referring children with special needs, including, physical, neurological and sensory challenges, developmental delays, learning disabilities, and giftedness and emotional and behavioral disorders. Emphasizes multidisciplinary planning to aid caregivers in modification, adaption, accommodation and teaching techniques involved in the inclusive classroom. This course has been approved for online and hybrid delivery. Access to a computer with internet access is required.

CD 28 - Child Guidance

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

A course to explore the relationship between the parenting figure and the child. Emphasis will be placed on social and emotional development; characteristic behavior patterns of both children and adults. This course would be of interest to any adult involved or interested in children. This course has been approved for online and hybrid delivery.

CD 30 - Early Steps to Reading Success

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course is designed to prepare current or future childhood teachers and caregivers to enhance the early literacy outcomes of young children by improving teacher's knowledge of early literacy development, and their skills in teaching literacy to young children from birth to age 5. This course has been approved for online and hybrid delivery.

**CD 31 - Child Development:
Conception through Adolescence**
3.0 units

CSU/UC

General Education Area E1

CSU GE Area D7 & E

IGETC Area 4G

C-ID CDEV 100

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course examines the major physical, psychological, and cognitive/language developmental milestones for children, both typical and atypical, from conception through adolescence. Emphasis will be on interactions between the maturational process and environmental factors. Students will be expected to observe children, analyze characteristic of children at different developmental stages and investigate research methodologies. This course has been approved for online, hybrid and correspondence delivery.

CD 49 - Child Development Work Experience

1.0-8.0 units

CSU

General Education Area E1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

600 hours lab (R)

This work based learning course is designed to assist students with educational or career goals in child development to build related job specific skills through individualized learning objectives and enhance their workplace performance. All Work Experience enrollments require attendance of a face-to-face orientation session. Instruction is also provided through online course modules and emails throughout course term, work based learning with a participating supervisor, and meetings in office or at student worksite. Instruction focuses on goal setting to develop job specific skills, enhancement of soft skills in the workplace, and career development. Subsequent enrollments require new individualized learning objectives, and completion of new course module assignments. Units are awarded based upon achievement of approved learning objectives, workplace performance, submission of course assignments, and documentation of work hours. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Career Technical

Education, Occupational and General Work Experience enrollments. Title V specifies students will earn 1 unit of credit for each 75 hours of paid work, and 1 unit of credit for each 60 hours volunteer work. This course has been approved for Hybrid delivery

CD 50 - ECE Child Health and Safety

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

18 hour lecture

Introduction to child health and safety to include American Red Cross or American Heart Association certification in infant, child and adult CPR/Pediatric First Aid. Course is repeatable to maintain certification. A \$20.00 lab fee will be collected at the time of registration to cover book and certification cost. This course has been approved for online and hybrid delivery.

COMPUTER APPLICATIONS

CA 31 - Computer Applications

2.0 units

CSU/UC

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hour lecture/51 hours lab

Use of currently and widely-used application software, including spreadsheets, data bases, word processors and graphics programs. Practical experience for familiarity and skill in operating software as well as problem solving in business applications will be stressed. Course is designed to meet the preparatory needs of students seeking to pass the Microsoft Office Specialist [MOS] exams in Word, Access, and Excel. This course has been approved for online and hybrid delivery. Access to a computer with internet access is required.

CA 32 - Computer Applications II

2.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hour lecture/51 hours lab

In addition to a quick review, this course covers topics that are not covered in Computer Applications I. It is designed to teach students how to use easy but powerful features available in widely used software. The emphasis will be on a word processor and a spreadsheet. This

course has been approved for online delivery.

CA 52 – Word Processing for Business
3.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

25.5 hour lecture/76.5 hours lab

This course covers a recent version of Microsoft Word for students who have a basic understanding of computers and desire comprehensive knowledge of a business tool to view, edit and create professional looking business documents. This course is designed to prepare students to take the Microsoft Office Specialist [MOS] exam on the Microsoft Word application. This course has been approved for hybrid delivery.

CA 53 – Spreadsheet Application for Business

3.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

25.5 hour lecture/76.5 hours lab

This course covers a recent version of Microsoft Excel for Windows for students who have an understanding of computers and desire comprehensive knowledge of a business tool used to organize, edit, and present data using spreadsheets. This course is designed to prepare students to take the Microsoft Office Specialist [MOS] exam on the Microsoft Excel application.

CA 55 - Using a Word Processor
0.5 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

5 hours lecture/15 hours lab

This course teaches the fundamentals of Microsoft Windows and Word for Windows. It acquaints the students with the proper way to solve word processing problems in a Windows environment. This course has been approved for online and hybrid delivery.

CA 56 - Using a Spreadsheet
0.5 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

5 hour lecture/15 hours lab

Use of a widely-used spreadsheet program. Practical experience for familiarity and skill in operating the software, as well as problem solving in

business applications will be stressed. This course has been approved for online and hybrid delivery.

CA 58 – Presentation Application for Business

1.5 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

12.75 hour lecture/38.25 hours lab
This course covers a recent version of Microsoft PowerPoint for students who have a basic understanding of computers and desire an understanding of the strategies applied to planning, preparing, and creating high-quality business presentations. This course is designed to prepare students to take the Microsoft Office Specialist [MOS] exam on the Microsoft PowerPoint application.

CA 60 – Email and Calendar Application for Business

1.5 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

12.75 hour lecture/38.25 hours lab
This course covers a recent version of Microsoft Outlook for students who have a basic understanding of computers and desire comprehensive knowledge of a business tool to organize and manage email messages, appointments, meetings, contacts and tasks. This course is designed to prepare students to take the Microsoft Office Specialist [MOS] exam on the Microsoft Outlook application.

COMPUTER OFFICE TECHNOLOGY

COT 50 - Keyboarding, Level 1

1.0 unit

51 hours lab
A course to enable a beginning keyboarding student to acquire the ability to keyboard by touch, develop proper keyboarding techniques, build speed and accuracy skills and apply these skills to personal and business communications. This course has been approved for online delivery.

COT 52 - Keyboarding, Level 2

1.0 unit

Prerequisite: COT 50

51 hours lab
Reviews basic production techniques. Presents a variety of office situations where emphasis is upon office skill development including editing, abstracting information, decision making, setting

priorities, work flow, following directions and working under pressure. This course has been approved for online delivery.

COT 59 - Business Machines: 10 Key

1.0 unit

34 hours lab
A course to enable the student to acquire ability to operate the electronic calculator by touch with correct utilization of function keys. Training on various computations using the Electronic Printing Calculator in areas of retailing, financial management and accounting.

COMPUTER SCIENCE

CS 1 - Computer Literacy

3.0 units

CSU/UC

Recommended Preparation: Successful completion of ENGL105 or equivalent multiple measures placement.

34 hours lecture/51 hours lab
This course introduces students to the following areas in computer science: An operating system such as Windows, Application programs which include a word processor, spreadsheet, database and presentation, A programming language; The Internet and the creation of web pages; Internal structure and basic functions of computers; Cultural implications of computers on our society. This course has been approved for online and hybrid delivery.

COUNSELING & GUIDANCE

CG 1 - Strategies for Creating Success in College and in Life

3.0 units

CSU/UC

**General Education Area E1
CSU GE Area E**

Recommended Preparation: Successful completion of ENGL105 or equivalent multiple measures placement.

51 hours lecture
This course is designed to enable students to develop and improve skills needed to be successful in college and in life. These skills include study techniques, goal setting, test-taking, note-taking, memory techniques, time management and personal issues such as stress management, drug and alcohol addiction, communication and decision making. This course has been approved for correspondence, hybrid and online delivery.

DEVELOPMENTAL STUDIES

DS 110 - Computer Access 1

0.5-3.0 units

25.5-153 hours lab (R)
Designed for students with learning, visual, physical, or language impairments. Provides training in computer access technologies within the context of document processing. This course has been approved for online and hybrid delivery.

DS 111 - Computer Access II

0.5-3.0 units

25.5-153 hours lab (R)
Designed for students with learning, visual, physical, or language impairments. Provides training in computer access technologies within the context of advanced document processing skills and basic spreadsheet and data base programs.

DS 112 - Computer Access Projects

0.5-3.0 units

25.5-153 hours lab (R)
Designed for students with learning, visual, physical, or language impairments. Provides an opportunity for the student who is already familiar with computers and/or adaptive technologies to work on independent projects, perfect job skills or attain greater mastery of the technology(s). This course has been approved for online and hybrid delivery.

DS 113 - Developmental Skills: Personal Assessment

0.5-1.0 unit

8.5-17 hour lecture (R)
A course designed to provide the learning disabled student with specific information about his/her own learning process. Explores existing concepts, theories, and practices related to self-appraisal, defense mechanisms, self-concept and interpersonal relations as these relate to their disability. Credit for this course will not apply to the associate degree.

DS 114 - Developmental Skills: Reading

0.5-1.5 units

25.5-76.5 hours lab (R)
An individualized program to improve the reading comprehension skills of the learning disabled student. Emphasis will be placed on reading comprehension, vocabulary, and critical thinking. This course has been approved for online, correspondence and hybrid delivery.

**DS 115 - Developmental Skills:
Writing Skills**

3.0 units

51 hours lecture (R)

A course designed to instruct the learning disabled student in writing skills.

Emphasis will be placed on vocabulary development, in-depth sentence formation, and critical thinking. This course has been approved for online, hybrid and correspondence delivery.

**DS 116 - Developmental Skills:
Math**

0.5-1.5 units

76.5 hours lab (R)

An individualized program to improve the math skills of the learning disabled student. Emphasis will be placed on developing the student's skills for vocational competency or through the beginning algebra academic level, depending upon the student's goal. This course has been approved for online, hybrid and correspondence delivery.

DS 120 - Adaptive Fitness

1.0 unit

51 hours lab (R)

This course is designed to provide development and maintenance of strength, flexibility and aerobic fitness, through sport and fitness activities, for students with a verified physical disability. Repeatable as needed, pursuant to special class repetition standards. This course has been approved for online and hybrid delivery.

**DS 121 - Adaptive Individual
Sports: Bowling**

1.0 unit

51 hours lab (R)

This course will allow students who have a substantial developmental delay or disorder in physical development regardless of ability to have the opportunity to develop and improve their bowling skills ranging from equipment adjustment to advanced bowling skills. Students will develop greater degrees of functional skills including: social independence, fundamental motor skill, object control, problem solving, physical well-being and the ability to participate in the lifelong sport of bowling. Repeatable as needed, pursuant to special class repetition standards.

**DS 122 - Adaptive Individual
Sports: Weight Training**

1.0 unit

51 hours lab (R)

This course will allow students who have a substantial developmental delay/physical limitation regardless of ability to have the opportunity to develop

and improve strength, bone health, and daily function. Weight training skills will range from proper safety guidelines in equipment usage, lifting, workout selections, spotting fundamentals and practice procedures. Students will develop a well-rounded exercise routine that will help improve their health, physical function, self-esteem, and behavior. Repeatable as needed, pursuant to special class repetition standards. This course has been approved for online and hybrid delivery.

ECONOMICS

ECON 10 - Macro-Economics

3.0 units

CSU/UC

General Education Area B

CSU GE Area D2

IGETC Area 4B

C-ID ECON 202

Prerequisite: Elementary Algebra or equivalent multiple measures placement

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

An introduction to modern macroeconomic analysis. Emphasis is placed on market systems, aggregate measures of economic activity, fiscal and monetary policy, and public policy recommendations. This course has been approved for hybrid, online and correspondence delivery. This course may use a free Open Education Resource textbook.

ECON 11 - Micro-Economics

3.0 units

CSU/UC

General Education Area B

CSU GE Area D2

IGETC Area 4B

C-ID ECON 201

Prerequisite: Elementary Algebra or equivalent multiple measures placement

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

An introduction to market systems, supply and demand model, and decision making in different market structures. Topics include the supply and demand framework, elasticity, government intervention, and decision making in the market structures of perfect competition, monopoly, monopolistic competition, and oligopoly. This course has been approved for correspondence, hybrid and online delivery. This course may use a free Open Education Resource textbook.

EDUCATION

ED 1 – Tools for Teaching

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This interactive course presents an overview of knowledge and skills related to designing and delivering appropriate curriculum and fostering a supportive learning environment for adult learners. The course examines the teaching and learning transaction and key teacher responsibilities and activities. Specific attention is paid to relevant learning theories and teaching techniques that maximize the effectiveness of instruction. Students will examine the teachers' role in fostering the joy of learning for adults using instructional systems design principles. Students engage in the production and presentation of an instructional package including instructional strategies, materials and technologies, classroom management practices, and the multiple measures of learning. This course has been approved for hybrid delivery.

**ED 2 – Introduction to Elementary
Classroom Instruction**

3.0 units

CSU

C-ID EDUC 200

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This interactive course introduces students to the concepts and issues related to teaching diverse learners in today's contemporary schools, Kindergarten through grade 12 (K-12). Topics include teaching as a profession and career, historical and philosophical foundations of the American education system, contemporary educational issues, California's content standards and frameworks, and teacher performance standards. In addition to class time, the course requires a minimum of 45 hours of structured fieldwork in public school elementary classrooms that represent California's diverse student population, and includes cooperation with at least one carefully selected and campus-approved certificated classroom teacher. This course has been approved for online delivery.

EMERGENCY MEDICAL TECHNICIAN or RESPONDER

EMT 21 – Emergency Medical Responder

**2.5 units
CSU**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

36 hours lecture/29 hour lab (R)
This course meets public safety standards published by U.S. Department of Transportation's Emergency Medical Responder curriculum. The course will prepare the student for certification (two-year) by the Northern California Emergency Medical Service. This course is repeatable as necessary to maintain certification. Additional State Certification Fees will apply. This course has been approved for online and hybrid delivery.

EMT 60 - Emergency Medical Technician 1 (Basic)

6.5 units

Prerequisite: Current CPR certification or equivalent

85 hours lecture/69 hours lab (R)
Covers all techniques of emergency medical care and transportation of the sick and injured within the responsibilities of the Emergency Medical Services Authority requirements referenced in Title 22, Division 9, Chapter 2, Article 1 of the California Administrative Code. Upon successful completion, the student will be eligible to take the Certification Exam for Emergency Medical Technician-1 Ambulance or Emergency Medical Technician - B (Basic). The student will be required to complete an additional 32 hours of on-the-job emergency training outside the scheduled classroom hours to meet state requirements. The student must possess a valid CPR card from ASHI, ARC or AHA. This course may be taken as necessary for certification. Approved for online and hybrid delivery.

EMT 61 - Emergency Medical Technician-B Refresher

1.0 unit

Prerequisites: Current EMT-B, certification that has been expired for no more than one year. Must possess a valid CPR card and demonstrate ability to perform CPR skills to current ASHI, ARC, or AHA standards.

14 hours lecture/18 hours lab
A 32 hour course that provides, to the certified EMT-B (Basic) student, a review of didactic knowledge and practical skills required to recertify, as outlined by the State of California regulations. For EMT-B's who are maintaining certification with

the National Registry of EMT's (NREMT), this course is also approved for the required Transition course. Repeatable as necessary to maintain certification This course has been approved for online and hybrid delivery.

ENGLISH

ENGL 1 - College Composition

**3.0 units
CSU/UC**

General Education Area D1

CSU GE Area A2

IGETC Area 1A

C-ID ENGL 100

Prerequisite: Successful completion of ENGL105 or equivalent multiple measure placement.

51 hours lecture

A refinement of the skills of writing and critical reading, emphasizing the relationship between purpose and form, clarity, coherence and unity, accuracy of expression, the development of the writer's voice and style, the elements of critical thinking, and the development of the research paper and specific strategies to prepare for university studies. This course has been approved for online, hybrid and correspondence delivery.

ENGL 2 - Introduction to Literary Types

**3.0 units
CSU/UC**

General Education Area C

CSU GE Area C2

IGETC Area 3B

C-ID ENGL 120

Prerequisite: English 1

51 hours lecture

This course introduces representative works from major genres, develops students' close reading and analytical writing skills, and promotes appreciation and critical understanding of the cultural, historical, and aesthetic qualities of literature. This course has been approved for online and hybrid delivery.

ENGL 3 – British Literature I

**3.0 units
CSU/UC**

General Education Area C

CSU GE Area C2

IGETC Area 3B

C-ID ENGL 160

Prerequisite: English 1

51 hours lecture

This course surveys British literature from the Middle Ages to the late eighteenth century. Areas of focus include the literary traditions and context as well as relevant historical, philosophical, social

and political developments. This course has been approved for online, hybrid and correspondence delivery.

ENGL 4 – British Literature II

**3.0 units
CSU/UC**

General Education Area C

CSU GE Area C2

IGETC Area 3B

C-ID ENGL 165

Prerequisite: English 1

51 hours lecture

This course surveys British literature from the late eighteenth century to contemporary British and post-colonial texts. Areas of focus include the literary traditions and context as well as relevant historical, philosophical, social and political developments. This course has been approved for online, hybrid and correspondence delivery.

ENGL 5 – Survey of World Literature II

**3.0 units
CSU/UC**

General Education Area C

CSU GE Area C2

IGETC Area 3B

C-ID ENGL 145

Prerequisite: English 1

51 hours lecture

This course is a comparative study of selected works, in translation and in English, of literature from around the world, including Europe, the Middle East, Asia, and other areas, from the mid or late seventeenth century to the present. This course has been approved for online and hybrid delivery.

ENGL 7 – Argumentative Writing and Critical Thinking Through Literature

**4.0 units
CSU/UC**

General Education Area C

CSU GE Area A3

IGETC 1B

C-ID ENGL 110

Prerequisite: English 1

68 hours lecture

This course offers instruction in analytical, critical, and argumentative writing, critical thinking, research strategies, information literacy, and proper documentation through the study of literary works from major genres, while developing students' close reading skills and promoting an appreciation of the aesthetic qualities of literature. This course has been approved for Hybrid (online/traditional) Delivery.

ENGL 9 - Critical Thinking and Composition

3.0 units

CSU/UC

General Education Area D1

CSU GE Area A3

IGETC Area 1B

C-ID ENGL 105

Prerequisite: English 1

51 hours lecture

This course is designed to develop critical thinking, reading, and writing skills beyond the level achieved in English 1.

The course will focus on the development of logical reasoning and analytical and argumentative writing skills. This course has been approved for online, hybrid and correspondence delivery.

ENGL 10 – Shakespeare

3.0 units

CSU/UC

General Education Area C

CSU GE Area C2

IGETC Area 3B

Prerequisite: English 1

51 hours lecture

Plays of Shakespeare will be analyzed and discussed. The development and evaluation of Elizabethan and Jacobean drama will be studied and Shakespeare's achievements considered in that light. Each student will produce an independent paper on a work, character, or theme of interest. This course has been approved for online, hybrid and correspondence delivery.

ENGL 12 - Survey of American Literature II

3.0 units

CSU/UC

General Education Area C

CSU GE Area C2

IGETC Area 3B

C-ID ENGL 135

Prerequisite: English 1

51 hours lecture

This course introduces students to a wide range of American authors and their relationship to major literary and intellectual movements from the second half of the nineteenth century to the present. This course will include the emergence of realism and naturalism in the post-war industrial era. Humorists, local color writers, the revival of poetry, nationalism, cosmopolitanism, and the fiction of the early twentieth century will be studied. This course has been approved for online, hybrid and correspondence delivery.

ENGL 22 – Creative Writing

3.0 units

CSU/UC

General Education Area C

C-ID ENGL 200

Prerequisite: English 1

51 hours lecture

An introduction to the craft of creative writing through the study and analysis of works by established and peer writers. Students will practice writing in various genres and will be introduced to the workshop method. This course has been approved for hybrid and correspondence delivery.

ENGL 33 – Studies in Fiction

3.0 units

CSU/UC

General Education Area C

CSU GE Area C2

IGETC Area 3B

Prerequisite: English 1

51 hours lecture

This course will examine the nature of prose fiction and its various forms, explore periods and themes evident in a given work, and emphasize a critical apparatus that will allow students to critically reflect on and engage with various types of literature. This course has been approved for online, hybrid and correspondence delivery.

ENGL 34 – Studies in Poetry

3.0 units

CSU/UC

General Education Area C

CSU GE Area C2

IGETC Area 3B

Prerequisite: English 1

51 hours lecture

This course will examine the aesthetic, semiotic, and prosodic qualities of poetry from both the 20th and 21st centuries. Through selected readings, this course will foster close reading/analysis of contemporary poetry, providing an understanding of poetic form and function (poetics). This course has been approved for online, hybrid and correspondence delivery.

ENGL 105- Introduction to College Reading, Writing, and Critical Thinking

3.0 units

51 hours lecture

Development of reading, writing, and critical thinking skills including reading for comprehension, summarizing, paraphrasing and directly quoting, writing responses to readings, integrating ideas from multiple sources to support a single idea, appropriately citing sources and writing essays. This course has been

approved for online, hybrid and correspondence delivery.

ENGL 105A- Reading and Writing Support

1.0 units

Corequisite: ENGL 105 or ENGL 1

51 hours lab

The emphasis of this course is to provide support for students in college level reading, writing and critical thinking. Course includes review and application of the basic skills needed for clear written expression. Students will explore grammar, sentence and paragraph structure, essay organization, research and reading skills in the context of work being completed in ENGL 105 Introduction to College Reading, Writing and Thinking or ENGL 1 Freshman Composition. This course has been approved for online, hybrid and correspondence delivery.

ETHNIC STUDIES

ES 1 - Ethnic Minorities in America

3.0 units

CSU/UC

General Education Area B

CSU GE Area D3

IGETC Area 4C

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

A survey of the history, culture and folklore of the American people providing a sociological analysis of race, ethnicity and racism. This course has been approved for online and correspondence delivery.

FILM

FILM 1 - History of the Cinema

3.0 units

CSU/UC

General Education Area C

CSU GE Area C1

IGETC Area 3A

Recommended Preparation ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course is designed as an introduction to film history, focusing on methods and analysis. Works of Edison, Lumieres, Chaplin, J. Ford, Hitchcock, Wells, Allen, Brooks, Coppola and other will be examined. This course has been approved for online delivery.

FIRE TECHNOLOGY

FS 3 - Fundamentals of Fire

Prevention

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

The history and philosophy of fire prevention, organization and operation of fire prevention bureaus, use of fire codes, identification and correction of fire hazards, and the relationship of fire prevention with fire safety education and detection/suppression systems. This course has been approved for online, hybrid and correspondence delivery.

FS 4 - Fire Protection Equipment and Systems

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course provides an introduction to the design and operation of fire detection and alarm systems, heat and smoke control systems, special protection and sprinkler systems, water supply for fire protection, and portable fire extinguishers. This course has been approved for online, hybrid and correspondence delivery.

FS 5 - Fire Orientation and Organization

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course provides an overview to fire protection and emergency services; career opportunities in fire protection and related fields; culture and history of emergency services; fire loss analysis; organization and function of public and private fire protection services; fire departments as part of local government; laws and regulations affecting the fire service; fire service nomenclature; specific fire protection functions; basic fire chemistry and physics; introduction to fire protection systems; introduction to fire strategy and tactics; life safety initiatives. This course has been

approved for online, hybrid and correspondence delivery.

FS 6 - Building Construction for Fire Protection

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course provides for the study of the components of building construction that relate to fire safety. The elements of construction and design of structures are shown to be key factors when inspecting buildings, preplanning fire operations and operating at fires. The development and evolution of building and fire codes will be studied in relationship to past fires in residential, commercial, and industrial occupancies. This course has been approved for hybrid and correspondence delivery.

FS 8 – Wildland Fire Suppression

2.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

16 hours lecture/48 hours lab

Training in the use of tools of wildland fire suppression, and experience in the cooperative working relationship of a wildland fire suppression crew. Subject coverage includes responsibility as a fire crewperson, safe working habits, hand tools of firepumps, map and compass, tool maintenance, pumping operations and safety, air operations and safety, tractor operations and safety, wildland fire tactics, structural fire tactics, mop-up activities, fireline location and construction and radio use.

FS 13 - Fire Behavior and Combustion

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course of study presents theories and fundamentals of how and why fires start, spread and are controlled; an in-depth study of fire chemistry and physics; fire characteristics of materials; extinguishing agents; and fire control techniques. This course has been approved for online, hybrid and correspondence delivery.

FS 14 - Principles of Fire Safety and Survival

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course will introduce the student to fundamental issues relating to firefighting safety and survival. Students will evaluate case studies in which firefighters have been killed or injured. In addition, each student will be required to give an oral presentation based on an analysis of a "near miss" fatal fire/rescue scenario. Additionally, this course will introduce the student to the National Firefighter Life Safety initiatives, which focus on the need for both cultural and behavioral change throughout the emergency services disciplines. This course has been approved for online, hybrid and correspondence delivery.

FS 20 - First Aid and CPR for the Public Safety Employee

1.5 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

26 hours lecture (R)

Introduction to injury and illness including preparation for rendering assistance for the public safety personnel including administration of first aid, CPR, and use of AED according to the standards set forth in California Code of Regulations Title 22. Social Security Division 9. Prehospital Emergency Medical Services Chapter 1.5. First Aid and CPR Standards and Training for Public Safety Personnel. This course meets Title 22 regulations and is approved by the Local Emergency Medical Services Authority (LEMSA). A \$10.00 certification fee applies. May be repeated as needed for recertification. This course has been approved for hybrid delivery.

FS 23 - Firing Operations (S-219)

1.0 units

CSU

Prerequisites: FS 75 Fire behavior (S-290)

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

16 hours lecture (2 day)

This course introduces the roles and responsibilities of a firing boss, common firing devices, and general firing operations and techniques. Although comprehensive in nature, the coursework

is not a substitute for the dynamic fire environment.

FS 26 - Basic Air Operations (S-270) 1.0 unit
CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

16 Hours Lecture (2 Day)

This course covers aircraft types and capabilities, aviation management and safety, tactical and logistical uses of aircraft, and requirements for helicopter take-off and landing areas.

FS 49 - Fire Science Work Experience

1.0-8.0 units

CSU

General Education Area E1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

600 hours lab (R)

This work based learning course is designed to assist students with educational or career goals in fire technology, who are working in the field of fire suppression, to build related job specific skills through individualized learning objectives and enhance their workplace performance. All Work Experience enrollments require attendance of a face-to-face orientation session. Instruction is also provided through online course modules and emails throughout course term, work based learning with a participating supervisor, and meetings in office or at student worksite. Instruction focuses on goal setting to develop job specific skills, enhancement of soft skills in the workplace, and career development. Subsequent enrollments require new individualized learning objectives, and completion of new course module assignments. Units are awarded based upon achievement of approved learning objectives, workplace performance, submission of course assignments, and documentation of work hours. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Career Technical Education, Occupational and General Work Experience enrollments. Title V specifies students will earn 1 unit of credit for each 75 hours of paid work, and 1 unit of credit for each 60 hours volunteer work. This course has been approved for Hybrid and correspondence delivery

FS 50 – Rapid Intervention Crew (RIC) Operations

0.5 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement. Fire Fighter I Training, FS 80 Fire Fighter Survival or equivalent. 4 hours lecture/20 hours lab

The Rapid Intervention Crew (RIC) Operations course trains fire fighters to rescue a downed fire fighter in an immediately dangerous to life and health (IDLH) environment was developed in the continuing effort to reduce the number of fire fighter injuries and deaths that occur regularly. Students train using evolutions and scenarios based off tragedies suffered by fellow fire fighters from departments across the country.

Students receive information on how to locate and use these LODD studies as training and prevention tools throughout their careers. The course focuses on the three phases of a RIC operation: 1) pre-deployment, 2) deployment, and 3) rescue. During the class, you will also gain a greater understanding of RIC operations terminology and the RIC mindset. A supplemental \$81.00 fee will be charged including a \$5.00 materials fee for student manual flash drive and a \$76.00 State Fire Training FSTEP certification fee is due to Lassen Community College and will be collected at the time of registration.

FS 51 – Introduction to Fire Technology Careers

1.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hours lecture

This course provides the basic knowledge to begin a career in the field of Fire Technology. Students will be introduced to the major branches of the fire service communities and the procedures used to complete an application for each of these departments.

FS 54 – National Incident Management System (NIMS-700a)

0.5 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

b. hours lecture

This course introduces and overviews the National Incident Management System (NIMS). NIMS provides a consistent nationwide template to enable all government, private-sector, and

nongovernmental organizations to work together during domestic incidents

FS 56 – Helicopter Crewmember (S-271) 2.0 units

Prerequisite: FS-61 Basic Firefighter Training (Basic 32)

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

32 hours lecture/8 hours lab

This course is designed to meet the training needs of a helicopter crew member. Upon completion, the student will be able to demonstrate proficiency in all identified areas of helicopter use to safely achieve efficiency and standardization.

FS 57 - Vehicle Extrication

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

8 hours lecture/8 hours lab

This course provides students with hands-on experience in the procedures utilized during an automobile extrication incident. Course certified by of the California State Fire Marshal. Additional State Certification Fees apply. This course may be taken as needed due to the evolving extrication methods, various vehicle technological changes, and new modern tools used in the various rescue plans as well as victim care requirements. A supplemental \$81.00 fee will be charged including a \$5.00 materials fee for student manual flash drive and a \$76.00 State Fire Training FSTEP certification fee is due to Lassen Community College and will be collected at the time of registration.

FS 59 – Confined Space Awareness

0.5 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

8.5 hours lecture

This course will introduce fire service personnel to the codes that impact operations within confined spaces, the hazards of confined spaces, equipment and procedures required to deal with a confined space rescue safely and legally, basic operational positions, and their responsibilities as set forth by CAL-OSHA. A supplemental \$81.00 fee will be charged including a \$5.00 materials fee for student manual flash drive and a \$76.00 State Fire Training FSTEP certification fee is due to Lassen

Community College and will be collected at the time of registration.

FS 60 - Wildland Firefighter (CalFIRE Basic Training)

5.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

Previous or concurrently: FS 61, FS 51, FS59, FS72, FS80, FS 81 FS 20, or equivalent.

64 hours lecture/82hours lab

This course provides students with the knowledge and skills to perform basic firefighter tasks. Topics include: fire physics and terminology; fireline safety; aircraft safety; self-contained breathing apparatus; mobile equipment orientation; fire equipment orientation; wildland and structure firefighting operations. Instructor permission is required to enroll in this course.

FS 60A - Basic Fire Crew Firefighter

3.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture (2 weeks)

This course provides basic knowledge, skills and ability for those individuals seeking a position on an operational CAL FIRE hand crew. This course requires instructor authorization prior to enrollment. (CAL FIRE 58)

FS 61 - Basic Firefighter Training (Basic 32)

2.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

34 hours lecture, 8 hours lab

This course provides basic training in wildland fire suppression and crew person subject overage includes wildland fire behavior, skills of wildland fire suppression, practice with common fireline hand tools, and working safely in wildland fire environment. [Meets U.S. Forest Service and Bureau of Land Management requirements for Firefighter Type 2: L-180, S-130 and S-190.] To be awarded the certificates at the end of the course students must successfully complete the Federal Emergency Management Agency (FEMA) IS-100 (Introduction to the Incident Command System, ICS-100) and IS-700 (An introduction to the National Incident Management System) online at

<https://training.fema.gov/> (free to students).

FS 64 Instructor 1 Instructor Methodology

2.5 units

Recommended Preparation:

Introduction to the Incident Command System (IS-100.B) FEMA or National Incident Management System (IS-700.A, FEMA)

40 hours lecture

This course provides the skills and knowledge needed for the entry level professional instructor to perform his or her duties safely, effectively, and competently. The curriculum is based on the 2012 edition of NFPA 1041 Standard for Fire Service Instructor Professional Qualifications. At the end of this course, candidates for Instructor I certification will be able to teach and deliver instruction from a prepared lesson plan utilizing instructional aids and evaluation instruments. The Instructor I will also be able to adapt a lesson plan and complete the reporting requirements to the local jurisdiction. A supplemental State Fire Training CFSTES certification fee of \$141.00 is due to Lassen Community College and will be collected at the time of registration.

FS 64B Instructor II Instructional Development

2.0 units

Required Preparation

FS 64 Instructor I or equivalent
40 hours lecture

This course is designed for those seeking to become fire service instructors. It provides the skills and knowledge needed for the intermediate level professional instructor to perform his or her duties safely, effectively, and competently. At the end of this course, candidates for Instructor II certification will be able to develop lesson plans and evaluation instruments, teach and deliver instruction, and evaluate and coach other instructors. The Instructor II will also be able to analyze resources and formulate a program budget. The State Fire Training Course Fee of \$141.00 will be collected at registration.

FS 65A – Driver Operator 1A – Emergency Vehicle Operations

1.5 units

18 hours lecture/27 hours lab

This course provides the student with information on driver responsibilities, recognized standards, and related laws for fire apparatus. Topics include basic inspections, documentation,

maintenance, and troubleshooting fire apparatus, and techniques on driving and positioning fire apparatus. Each student also has the opportunity to increase his or her driving skills during simulated driving conditions. A supplemental State Fire Training CFSTES certification fee of \$141.00 is due to Lassen Community College and will be collected at the time of registration.

FS 65B – Driver Operator 1B - Pump Operations

1.5 units

Prerequisite(s): FS 65A Driver Operations 1A

18 hours lecture/27 hours lab

Course provides the student with the information, theory, methods and techniques for operating fire service pumps, including: types of pumps, engine and pump gauges maintenance, unsafe pumping conditions, pressure relief devices, cooling systems, water supplies, drafting field hydraulics, and pumping operations. A supplemental State Fire Training CFSTES certification fee of \$141.00 is due to Lassen Community College and will be collected at the time of registration.

FS 65C – Wildland Fire Apparatus Operations

0.5 units

Prerequisite(s): FS 65A Driver Operations 1A. FS 65B Driver Operator 1B, OSFM Fire Fighter I

7 hours lecture/17 hours lab

This course is designed to provide students with accepted statewide protocol and procedures for operation of a wildland fire apparatus. Course topics include: preventive maintenance, routine tests, inspections, and servicing functions on the systems and components unique to wildland fire apparatus. In addition students will participate in activities to practice proper operation of a wildland fire apparatus and production of an effective fire stream. Course certified by of the California State Fire Marshal. Additional State Certification Fees apply. A supplemental State Fire Training CFSTES certification fee of \$141.00 is due to Lassen Community College and will be collected at the time of registration.

FS 70 – Heavy Equipment Boss (S-236)

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

24 hours lecture (1 week)

This course is designed to meet training recommended for the dozer boss on an all risk incident. Trainees will be taught to ensure that a dozer has been properly inspected and signed up, ensure a dozer operator is qualified and signed up, determine the capabilities and limitations of the dozer and operator to perform an assignment, and the actions to complete an assignment. Must have Firefighter Type 1 qualifications to receive NWCG Certificate.

FS 70A - Single Resource Academy (S-230, S-231, S-232)

2.0 units

Prerequisite(s): FS 98.18 (Annual Fire Refresher Training – RT-130) and FFT 1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

28 hours lecture/4 hours lab

This course is designed as a classroom skill course to produce proficiency in the performance of all duties associated with the single resource Engine Boss, Crew Boss and Dozer Boss from initial dispatch through return to home unit. Instructional topics include: preparation and mobilization, assignment preparation, tactics and safety, off-line duties, demobilization, and post-incident activities. This course may be taken as needed to meet legally mandated training requirements.

FS 70B - Engine Boss (Single Resource)

1.0 units

Prerequisite(s): FS-70A Single Resource Academy (S-230, S-231, S-232) or Firefighter Type 1 qualifications and have successfully completed an agency S-230 course. **Recommended Preparation:**

ENGL105 or equivalent multiple measures placement.

16 Hours Lecture

This course is designed as a classroom skill course to produce trainee proficiency in the performance of all duties associated with the single resource engine boss, from initial dispatch through return to home unit. Instructional topics include: preparation and mobilization, assignment preparation, tactics and safety, off-line duties, and demobilization, post-incident activities. This course may be taken as needed to meet legally mandated training requirements. Must have Firefighter Type 1 qualifications and have successfully completed an agency S-230 course, or FS-70A Single Resource Boss Academy to receive NWCG certificate.

FS 70C - Single Resource Crew Boss

1.0 units

Prerequisite(s): FS-98.18 Annual Fighter Training or Firefighter Training 1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

24 Hours Lecture

This course is designed as a classroom skill course to produce trainee proficiency in the performance of all duties associated with the single resource crew boss, from initial dispatch through return to home unit. Instructional topics include: preparation and mobilization, assignment preparation, tactics and safety, off-line duties, and demobilization, post-incident activities.

FS 72 – HazMat First Responder - Operations

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

24 hours lecture (1 week) (R)

This course provides information about basic strategies to safe-guard the health and safety of emergency responders when their work involves potential exposure to hazardous materials. Topics include detection of the presence of hazardous materials, hazardous materials references and safe work practices around potentially hazardous materials. This course may be taken as necessary to maintain certification. A \$5.00 materials fee for student manual flash drive will be collected at the time of registration.

FS 72A – HazMat First Responder - Refresher

0.5 unit

Prerequisite: FS 72 First Responder - Hazardous Materials

9 hours lecture (2 days) (R)

This course is designed to refresh students who are likely first responders to Hazardous Materials events. Within the operational role, course topics include risks and outcomes of hazardous materials, operational roles, safety procedures, stabilization of the scene, decontamination of victims and equipment and communication and coordination with agencies. This course is certified by the California Specialized Training Institute and students successfully completing the class will be issued a CSTI certificate. There will be a state certification fee for this class. This course may be taken as necessary to

maintain certification. A \$5.00 materials fee for student manual flash drive will be collected at the time of registration.

FS 72B – HazMat First Responder - Decontamination

0.5 unit

Prerequisite: FS 72 First Responder - Hazardous Materials

8.5 hours lecture

This course is designed for personnel previously trained to the Haz Mat First Responder Operations (FRO) level, to conduct responder decontamination as part of an organized response to incidents such as those involving hazardous materials (Haz Mat) releases or weapons of mass destruction. A supplemental \$81.00 fee will be charged including a \$5.00 materials fee for student manual flash drive and a \$76.00 State Fire Training FSTEP certification fee is due to Lassen Community College and will be collected at the time of registration.

FS 74 - Fire in the Interface (S-215)

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

24 hours lecture (1 week)

This course is designed to meet the training needs for initial attack incident commanders and company officers confronting wildland fires that threaten life and property and improvements in the wildland/urban interface. Must be qualified as a Firefighter Type 1 and the instructor will verify qualifications before signing the registration card.

FS 75 - Fire Behavior (S-290)

2.0 units

Prerequisite: FS 61 – Basic Firefighter Training (Basic 32) or FS 60 - Wildland Firefighter (CalFIRE Basic Training); or S-190 Certification

37 hours lecture (1 week)

This course provides instruction in the identification and prediction of wildland fire behavior problems in various fuel types and under varying weather conditions.

FS 76 - Firefighter Type 1 (Squad Boss) (S-131)

0.5 unit

Prerequisite: FS-61 Basic Firefighter Training (Basic 32) or FS-60-Wildland Firefighter (CalFIRE-Basic Training). ***This prerequisite is mandated by federal requirements through NWCG (National Wildland Coordinating Group).***

8 hours lecture

This course is designed to be interactive

in nature. It contains several tactical decision games designed to facilitate learning the objectives through class discussion.

FS 77 - Human Factors on the Fireline (L-180)

0.5 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

9 hours lecture (1 week)

This training course addresses human performance content that relates to the individual, including situation awareness, communication, decision making, risk management, and teamwork skills. The desired outcome of this training is improved awareness of human performance issues on the fireline so that individual firefighters can integrate effectively into teams/crews working in dynamic, high-risk environments.

FS 78 - Followership to Leadership (L-280)

1.0 unit

Prerequisite: This prerequisite is mandated by federal requirements through NWCG (National Wildland Coordinating Group). FS 77 Human Factors on the Fireline L-180 **and** FS 61-Basic Firefighter Training (Basic 32) **or** FS 60 – Wildland Firefighter (CDF Basic 67).

17 hours lecture (1 week)

This training course is designed as a self-assessment opportunity for individuals preparing to step into a leadership role. The course combines one day of classroom instruction followed by a second day in the field with students working through a series of problem solving events in small teams (Field Leadership Assessment Course). Must have experience on fire incident assignments in operations or support functions to receive NWCG Certificate.

FS 80 - Fire Fighter Survival

1.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hours lecture

This course will supply the student with a greater understanding of the need for situational awareness, firefighter survival skills, and the technical survival skills to help you avoid committing fatal errors on the fire ground. Avoiding situations that could cause you to become lost, trapped, or injured is the best way to prevent tragedies at a fire scene. The Fire Fighter Survival course will aid in preventing fire fighter emergencies by teaching

personnel to be resourceful when facing dangerous entrapment situations. A supplemental \$81.00 fee will be charged including a \$5.00 materials fee for student manual flash drive and a \$76.00 State Fire Training FSTEP certification fee is due to Lassen Community College and will be collected at the time of registration.

FS 81 – Wildland Fire Fighter Safety and Survival

0.5 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

8.5 hours lecture

This course is designed to look at Wildland fire entrapments, their causes and what a firefighter can do to avoid them. Several topics will be looked at, discussed and studied from near misses and entrapments in the wildland fire service. Emphasis will be learning from history and why fire entrapments occur and how they might be avoided. Using Office of the State Fire Marshall (OSFM) 4000 Policy.

FS 84 - Lessons Learned (Fatality Fire Case Studies)

1.0 unit

Prerequisite: FS 61 Basic Firefighter (Basic 32) or equivalent

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

16 hours lecture/4 hour lab (4 weeks)

The purpose of the Lessons Learned training course is by its nature firefighting is a dangerous undertaking. Wildland fires are dangerous because they are dynamic and constantly changing as the result of many complex factors. Unfortunately, sometimes wildland fires bring death and injury to firefighters. Each firefighter fatality should motivate us to study the incident, learn from it, and share the lessons of this blunt but effective teaching tool so that others may engage wildland fires without paying such a price.

FS 85 - Understanding Maps, Compass, and GPS

1.0 unit

Recommended Preparation ENGL105 or equivalent multiple measures placement.

8 hours lecture 10 hours lab

Learn to navigate using topographic and other maps used with the compass and Global Positioning Systems (GPS). Discusses topography contours, map scales, and map projections. Navigate in the field using inexpensive modern

compass and GPS receiver to define desired directions of travel and use them on the ground. Discussion of different hand-held GPS receivers, their usefulness, accuracy, and important features for use in the field. Students will learn how to use the GPS receiver and/or compass with map to determine accurate altitude information in land navigation and how to minimize navigation errors caused by the effects of weather and other natural interference. There will be a \$5.00 student materials fee for flash drive containing student text.

FS 89 – Wildland Fire Chainsaws (S-212)

1.5 unit

Prerequisite(s): FS-61 Basic Firefighter Training (Basic 32) or FS 60A or equivalent

24 hours lecture/4 hours lab (1 week)

This course provides an introduction to the function, maintenance and use of internal combustion engine powered chainsaws and their tactical wildland fire application. Field exercises support entry level training for firefighters with little or no previous experience in operating a chain saw, providing hands-on cutting experience in surroundings similar to fireline situations. Repeatable as needed for certification.

FS 90 – Portable Pumps and Water Use (S-211)

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

16 hours lecture/4 hours lab (1 week)

This course is designed to meet training needs of a Firefighter Type 1 or Incident Commander Type 5. Course content will provide the knowledge and skills needed to design, set up, operate, troubleshoot, and shut down portable water delivery systems.

FS 91- I-Suite Incident Based Automation

1.5 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

25.5 hours lecture

I-suite is a data entry system used on wildland fire incidents. This course will teach students how to use the I-suite computer system, how to enter data online, and how to interface with other data systems on a wildland fire incident.

**FS 92A Company Officer 2D:
Human Resource Management
for Company Officers**

2.1 units

Prerequisites: Meet educational requirements for FF II. A copy of your Firefighter II certificate must be presented to the instructor on the first day of class.

40 hours lecture

This course is designed for experienced firefighters seeking promotion to the rank of company officer. This course prepares or enhances the ability of first time supervisors through provision of information on the use of human resources to accomplish assignments, evaluating member performance, supervising personnel, and integrating health and safety plans, policies and procedures into daily activities as well as the emergency scene. This course is part of a series of five core professional development courses required for the California State Fire Training Company Officer Certification. Successful students in this course earn credit towards the degree while meeting California State Fire Training certification requirements. A supplemental State Fire Training CFSTES certification fee of \$141.00 is due to Lassen Community College and will be collected at the time of registration.

**FS 92B Company Officer 2D:
General Administrative Functions
for Company Officers**

1.0 units

Prerequisites: Meet educational requirements for FF II. A copy of your Firefighter II certificate must be presented to the instructor on the first day of class.

Units

20 hours lecture

This course is designed for practicing firefighters seeking promotion to the rank of company officer. This course prepares or enhances the ability of first time supervisors through provision of information on general administrative functions and the implementation of department policies and procedures and addresses conveying the fire department's role, image and mission to the public. This course part of a series of five core professional development courses required for the California State Fire Training Company Officer Certification. Successful students in this course earn credit towards the degree while meeting California State Fire Training certification requirements. A supplemental State Fire Training

CFSTES certification fee of \$141.00 is due to Lassen Community College and will be collected at the time of registration.

**FS 92C Company Officer 2C: Fire
Inspections and Investigation for
Company Officers**

2.0 units

Prerequisites: Meet educational requirements for FF II. A copy of your Firefighter II certificate must be presented to the instructor on the first day of class.

40 hours lecture

This course is designed for practicing firefighters seeking promotion to the rank of company officer. This course prepares or enhances the ability of first time supervisors through provision of information on conducting inspections, identifying hazards and addressing violations, performing a fire investigation to determine preliminary cause and securing the incident scene and preserving evidence. This course part of a series of five core professional development courses required for the California State Fire Training Company Officer Certification. Successful students in this course earn credit towards the degree while meeting California State Fire Training certification requirements. A supplemental State Fire Training CFSTES certification fee of \$141.00 is due to Lassen Community College and will be collected at the time of registration.

**FS 92D Company Officer 2D: All
Risk Command Operations**

2.0 units

Prerequisites: Meet the educational requirements of Fire Fighter II

40 hours lecture

This course provides information on conducting incident size-up, developing and implementing an initial plan of action involving single and multi-unit operations for various types of emergency incidents to mitigate the situation following agency safety procedures, conducting pre-incident planning, and develop and conduct a post-incident analysis. This course is for students seeking a California State Fire Marshal's Office course completion certification. A supplemental State Fire Training CFSTES certification fee of \$141.00 is due to Lassen Community College and will be collected at the time of registration.

**FS 92E Company Officer 2E:
Wildland Incident Operations for
Company Officers**

2.0 units

Prerequisites: Must complete or provide copy of S-290 Intermediate Fire Behavior Certificate (classroom delivery only) as well as meet the educational requirements for Fire Fighter II as stated in the California State Fire Training certification process. A copy of your Firefighter II certificate and NWCG S-290 must be presented to the instructor on the first day of class.

40 hours lecture

This course is designed for practicing firefighters seeking promotion to the rank of company officer. This course prepares or enhances the ability of first time supervisors through provision of information on evaluating and reporting incident conditions, analyzing incident needs, developing and implementing a plan of action to deploy incident resources completing all operations to suppress a wildland fire, establishing an incident command post, creating an incident action plan, and completing incident records and reports. This course part of a series of five core professional development courses required for the California State Fire Training Company Officer Certification. Successful students in this course earn credit towards the degree while meeting California State Fire Training certification requirements. For students seeking a California State Fire Training course completion certification, there is a supplemental \$81.00 SFT fee which must be paid by the second day of the class. This fee is not collected during the registration process. Additional details will be provided on the first day of class.

FS 93 Fire Fighter I

18.5 units

Prerequisite: FS 20 1st aid for Public Safety Employees or HO 120 CPR or equivalent

160 hours lecture/480 hours lab

This course provides the skills and knowledge needed for the entry level fire fighter, career or volunteer, to perform his/her duties safely, effectively, and competently. The curriculum is based on the 2013 edition of NFPA 1001 Standard for Fire Fighter Professional Qualifications, the 2012 edition of NFPA 1051 Standard for Wildland Fire Fighter Professional Qualifications, and the 2008 edition of NFPA 472 Standard for Competence of Responders to

Hazardous Materials/Weapons of Mass Destruction Incidents. The seven overarching themes of the California State Fire Fighter I curriculum are: general knowledge germane to the profession, fire department communications, fire ground operations, rescue operations, preparedness and maintenance, wildland suppression activities, and hazardous materials/WMD. Student will receive a California State Fire Marshall Fire Fighter 1 certificate

FS 94 Strike Team/Task Force Leader. All Hazards (AH-330)
1.5 unit

Prerequisite: FS 23 Firing Op, FS 74 Fire in the Interface, FS 88 Initial Attack Incident Commander or equivalent

25.5 hours lecture

This course is designed to provide the skills and knowledge needed to perform in the position of Strike Team/Task Force Leader. Topics include position overview; pre-deployment responsibilities; concept of the position; resource typing standards; pre-dispatch preparation; incident responsibilities; administration; supervision; response; assignment; demobilization; tactics and safety; risk management; entrapment avoidance; WUI; case studies; scenarios; appropriate action vs. freelancing.

A supplemental \$81.00 fee will be charged including a \$5.00 materials fee for student manual flash drive and a \$76.00 State Fire Training FSTEP certification fee is due to Lassen Community College and will be collected at the time of registration.

FS 95 Initial Attack Incident Command
0.5 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

5 hours lecture/12 hours lab

A course designed to bring out the responsibilities of the individual in charge of the initial attack of small, non-complex fires that are routinely suppressed by local initial attack forces and assure that local policies and practices are understood by the initial attack leader.

FS 96 – Low Angle Rope Rescue
0.5 unit

27 hours lab

A course designed to train firefighters and emergency medical personnel in low angle rescue techniques. Students will learn about equipment, identification, and care. Note: Students must provide their own safety equipment which will include helmet, gloves, long pants, long sleeve shirt, and work boots with aggressive soles for traction on steep slopes.

Students may re-enroll in course for credit as legally mandated to meet training requirements as a condition of continued paid or volunteer employment. A supplemental \$81.00 fee will be charged including a \$5.00 materials fee for student manual flash drive and a \$76.00 State Fire Training FSTEP certification fee is due to Lassen Community College and will be collected at the time of registration.

FS 97 – Fire Control 4: Controlling Ignitable liquids and Gases
0.5 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6.5 hours lecture/9.5 hours lab

This course provide the knowledge and skills that prepare a firefighter to extinguish an ignitable liquid fire, control a flammable gas fire, and develop an incident action plan for a pipeline emergency. Participants will learn and practice modern vehicle firefighting techniques. A supplemental \$81.00 fee will be charged including a \$5.00 materials fee for student manual flash drive and a \$76.00 State Fire Training FSTEP certification fee is due to Lassen Community College and will be collected at the time of registration.

FS 98.18 – Annual Fire Refresher Training (RT-130)
0.5 unit

Prerequisite(s): FS-61 Basic Firefighter Training (Basic 32)

8 hours lecture (1 Day)

Purpose of wildland fire suppression is to minimize damage to resources, property and the environment. This should be accomplished in the most operationally effective and fiscally responsible manner. But above all, we need to remember that no resource or property values are worth endangering life. Providing for the safety of firefighters is the number one priority and responsibility of every individual. This course requires an additional fee of \$2.00 to cover the costs of handouts and

a pocket guide. This course may be taken as legally mandated.

FS 98.20 – Annual Hired-Equipment Refresher Training
0.5 unit

8 hours lecture (1 Day) (R)

This course provides an annual review and update of regulations and guidelines for the safe operation of fire suppression equipment. This course requires an additional fee of \$2.00 to cover the costs of handouts and a pocket guide. Also required is a \$20.00 fee for State Fire Training Certification/Registration fee as mandated by Cal Fire. This course may be taken as legally mandated.

FS 98.21 – Volunteer Firefighter Academy
2.5 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

32 hours lecture/34 hours lab

This course is designed to provide an introduction of skills and methods used for structural firefighting. Students will be required to work as a team to accomplish assigned tasks and be introduced to concepts and cultures that are common to the fire service. This course is ideally suited for an entry level volunteer firefighter, wildland firefighters or anyone that would like to be familiar with basic structural firefighting skills. Curriculum is designed to incorporate IFSAC/Pro Board Firefighter 1 requirements. An additional \$10.00 materials fee will be added to the admission fee to cover consumable materials used during the course such as plywood and propane.

GEOGRAPHY

GEOG 2 - Cultural Geography
3.0 units

CSU/UC

General Education Area B

CSU GE Area D5

IGETC Area 4E

C-ID GEOG 120

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

The study of the varieties of human use and misuse of ecological landscapes. Emphasis is placed on the regional distribution of population, settlement patterns and migration, religion, ethnicity, political organization, economic systems, agriculture and industry. This course has been approved for hybrid, online and correspondence delivery.

GEOGRAPHICAL INFORMATION SYSTEMS

GIS 1 – Fundamentals of GIS

4 units

CSU/UC

Co-requisite: GIS 2 Data Concepts

This course covers theoretical and applied knowledge of Geographic Information Systems (GIS). Students will learn the basic history of GIS, as well as what it is, how it functions, and why it is used to benefit real-world, problem-solving applications. Geospatial data, and associated information, will be a core component of the course, including acquisition, development, maintenance, manipulation, analysis, and display of content. Spatial parameters (i.e., projections, coordinate systems, datum, and units of measure), geodatabase structures and use, basic cartographic skills, and simple overlay analysis and geoprocessing techniques are covered as well. This course is offered in traditional, online, and hybrid modalities.

GIS 2 – Data Concepts

3 units

CSU/UC

Co-requisite: GIS 1 Fundamentals of GIS

This course covers concepts and techniques associated with geospatial data, including detailed examination of the design and implementation of geodatabases for Geographic Information Systems (GIS). Relational database management systems (RDBMS), and their functionality in relation to GIS, are a key concept in the course. Other concepts such as data integration, organization, and quality assurance; attribute information classification; feature digitization and editing; and geocoding will be covered as well. This course has been approved for online and hybrid delivery.

GIS 3 - Cartography and Geovisualization

3 units

CSU/UC

Prerequisite: GIS 1-Fundamentals of GIS & GIS 2- Data Concepts

This course covers advanced concepts associated with cartography and geovisualization, as they relate to Geographic Information Systems (GIS). Cartographic principles will be covered in-depth, including enhanced map layout design and corresponding map element styling. Students will work with complex hardcopy and digital map outputs, including web-based visuals. Animations, 3D scenes, Story Maps, and other forms of geovisualization techniques are

examined as well. This course has been approved for online and hybrid delivery.

GIS 4 – Spatial Analysis

3 units

CSU/UC

Prerequisite: GIS 1-Fundamentals of GIS & GIS 2- Data Concepts

This course covers the advanced and specialized topic of spatial analysis, in relation to Geographic Information Systems (GIS). Spatial analysis examines the spatial relationships of features in geospatial data, such as patterns, trends, connections, etc. GIS-based spatial analysis techniques are covered extensively for both vector and raster data models. A heavy emphasis is placed on using spatial analysis operations to aid in geospatial problem-solving scenarios as well. Geospatial modelling is a key component of the course, also. This course has been approved for online and hybrid delivery.

GIS 5 - Web/Mobile Based GIS

3 units

CSU

Prerequisite: GIS 1-Fundamentals of GIS & GIS 2- Data Concepts

This course covers concepts associated with web-based data and mapping applications, as well as mobile data collection methodology, as they relate to Geographic Information Systems (GIS). Latest trends in online GIS technology are examined, including Esri's ArcGIS Online interface and ancillary components. Web Maps, Story Maps, and Web AppBuilder for ArcGIS will be explored. On the mobile side, application technologies such as Collector for ArcGIS and Survey123 will be studied, also. Students will be exposed to a basic understanding of Global Positioning Systems (GPS), too. This course has been approved for online and hybrid delivery.

GEOLOGY

GEOL 1 - Physical Geology

4.0 units

CSU/UC

General Education Area A

CSU GE Areas B1 & B3

IGETC Area 5A & 5C

C-ID GEOL 101

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture/51 hours lab
Pursuit of understanding the physical classification of rocks and minerals of the earth as a whole and its past, present and

future evolutionary processes. Unifying concepts such as plate tectonics and its implications, the magnitude of geologic time, uniformitarianism, and the ramifications of the fossil record will be explored. This course includes field trips to areas of geological interest. This course has been approved for online and hybrid delivery.

GEOL 5 - Historical Geology & Paleontology

4.0 units

CSU/UC

General Education Area A

CSU GE Areas B1 & B3

IGETC Area 5A & 5C

C-ID GEOL 111

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture/51 hours lab

This course is designed to provide a descriptive geological history of the earth using the principles and methods of interpretation and reconstruction of the changes that have occurred on the earth in the fossil record. This course has been approved for online and hybrid delivery.

GUNSMITHING

SHORT TERM COURSES

GSS 49 - Gunsmithing Work Experience

1.0-8.0 units

CSU

General Education Area E1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

600 hours lab (R)

This work based learning course is designed to assist students with educational or career goals in gunsmithing who are working in the field of law gunsmithing, to build related job specific skills through individualized learning objectives and enhance their workplace performance. All Work Experience enrollments require attendance of a face-to-face orientation session. Instruction is also provided through online course modules and emails throughout course term, work based learning with a participating supervisor, and meetings in office or at student worksite. Instruction focuses on goal setting to develop job specific skills, enhancement of soft skills in the workplace, and career development. Subsequent enrollments require new individualized learning objectives, and

completion of new course module assignments. Units are awarded based upon achievement of approved learning objectives, workplace performance, submission of course assignments, and documentation of work hours. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Career Technical Education, Occupational and General Work Experience enrollments. Title V specifies students will earn 1 unit of credit for each 75 hours of paid work, and 1 unit of credit for each 60 hours volunteer work. This course has been approved for Hybrid delivery

GSS 50.01 - Recoil Pad and Sling Swivel Installation **1.0 unit**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the installation and fitting of recoil pads and sling swivels to firearm stocks, wood, hollow wood and synthetic. Includes determining pitch, cutting stock, locating, drilling and tapping pad screw holes and sealing of stock. This also covers fitting of pads using a fixture and without one.

GSS 50.03 - Open and Optical Sight Installation **1.0 unit**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover cutting dovetails, drilling and tapping for open sights and soft soldering, sights and ramps. Covers the installation of open and peep rear sights and blade and ramp front sights. This course will also cover drifting of sights when necessary.

GSS 51.01 - Stock Inletting **1.0 unit**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to provide the student with the knowledge to inlet and install forend tips and grip caps. The students will also learn to shape a center fire rifle stock. The inletting and shaping of two-piece stocks will also be covered, as well as the use of inletting tools and markers.

GSS 51.03 - Stock Inletting **1.0 unit**

6 hours lecture/34 hours lab
This course is designed to cover the shaping and sanding of conventional rifle stocks, includes stocks for rifles, shotguns, .22's and two-piece stocks for any type of long gun.

GSS 51.05 - Glass Bedding for Strength and Accuracy **1.0 unit**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the reinforcing and glass bedding of stocks for strength as well as the repairing of broken stock and shocks for heavy recoiling calibers.

GSS 51.06 - Wood Stock Finishing **1.0 unit**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to provide the student with knowledge and skills to produce a high quality finished stock. The use of sanding techniques, stains and various finishes will be covered.

GSS 52B - Firearms Training **0.5 unit**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

8 hours lecture/8 hours lab (R)
A course certified to qualify students to meet the minimum California requirement for Carry Concealed Weapons permit. (This course shall not exceed 16 hours per California Penal Code Section 12050.) Repeatable as necessary to maintain certification.

GSS 52BR - Firearms Training Refresher **0.5 unit**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

8.5 hours lecture (R)
This course is a refresher course to meet state requirements for concealed weapons permit. Repeatable as needed to maintain certification.

GSS 52.01 - Gunsmith Machining 1 **2.0 unit**

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

12 hours lecture/66 hours lab (2 weeks)
This course is designed to cover tool sharpening, types of steels, cutting speeds, use of precision measuring tools, cutting and turning steel in chuck and between centers to precise dimensions, cutting "V", square and buttress threads and the design and fabrication of simple bolt and action holding fixtures.

GSS 52.02 - Gunsmith Machining 2 **2.0 unit**

Prerequisite: GSS 52.01 - Gunsmith Machining 1

12 hours lecture/66 hours lab (1 week)
This course is designed to cover turning of short tapers between centers, grinding and use of form tools, turning inside and outside radius as well as freehand radiusing. Includes cutting of barrel cone and safety breaching as well as American and European barrel transition contours.

GSS 52.03 - Gunsmith Machining 3 **2.0 unit**

Prerequisite: GSS 52.02 - Gunsmith Machining 2

12 hours lecture/66 hours lab (1 week)
This course is designed to cover basic milling operations, cutting speeds, types of cutters and types of cutting. For hardened and unhardened firearm steels with an emphasis on safe procedures for firearm parts.

GSS 52.04 - Gunsmith Machining 4 **1.0 unit**

Prerequisite: GSS 52.03 - Gunsmith Machining 3

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the cutting of internal threads and the machining of internal tapers on a lathe as used in firearm manufacture.

GSS 52.05 - Gunsmith Machining 5 **1.0 unit**

Prerequisite: GSS 52.04 - Gunsmith Machining 4

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the use of a dividing head on a milling machine, the manufacturing of octagonal barrels; square parts and multifaceted parts are covered. Includes dimensional limits for adequate protection against barrel burst from modern high intensity cartridges.

GSS 52.06 - Gunsmith Machining 6

1.0 unit

Prerequisite: GSS 52.05 - Gunsmith Machining 5

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the turning of long work pieces such as barrels or long straight shafts. Includes taper turning, stopping chatter, turning long increasing radii.

GSS 54.05 - Hardening & Tempering of Carbon Steels

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the hardening and tempering of carbon and carbon alloy steels as used in firearms.

GSS 55.04 - Stock Refinish and Repair

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to provide the student with knowledge and skills required to repair and refinish stocks, the raising of dents, filling of cracks, reinforcing weak area and re-cutting of checkering will be covered in depth. Sealing and matching finish of repaired areas will also be covered.

GSS 56.01 - Headspace

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the measurement, dangers of and correction of headspace in all types of firearms, included are screw-in and pin-in barrels as well as pivot barrel guns. Also covered are systems where the barrel is not removable.

GSS 56.03 - Bolt Action Barrel Fitting

1.0 unit

Prerequisite: GSS 52.02 Gunsmith Machining 2

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the threading, fitting and chambering of barrel to bolt action receivers, cone breech, safety breech and mauser types.

GSS 56.04 - Barrel Contouring

1.0 unit

Prerequisite: GSS 52.02 Gunsmith Machining 2

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the lathe turning of barrels to pre-selected diameters, tapers and contours, as used in bolt action rifles. Also covered is the polishing to get all irregularities and machining marks out of the barrel.

GSS 57.01 - Bolt Action Breeching and Headspace

1.0 unit

Prerequisite: GSS 52.02 Gunsmith Machining 2

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the breeching and head spacing of bolt-action rifles. Information learned is usable for most other types of rifles. Included is threading, fitting shank to bolt and chambering.

GSS 57.02 - Action Blueprinting

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the truing of the face, lugs and threads of a bolt-action receiver and truing the lugs, lip and face of a bolt to gain the best possible accuracy from an action.

GSS 57.03 - Action and Bolt Modifications

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the preparation of military action for sporting use, covers installation and adjustment of triggers and safeties, drilling and tapping, bolt alterations and removal of clip bridges.

GSS 57.06 - Truing Exterior of Action

1.0 unit

Prerequisite: GSS 52.03 Gunsmith Machining 3

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the truing of the exterior of commercial and military actions using a lathe and/or mill depending on the type of action.

GSS 57.08 - Bottom Metal Modifications

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the custom modifications to trigger guards

and floor plates of bolt-action rifles.

Includes sculpturing of guard bows, various types of floor plate releases, filing holes and altering profiles.

GSS 57.15 - Bolt Action Rifle Feeding

1.0 unit

Prerequisite: GSS 52.04 Gunsmith Machining 4

6 hours lecture/33 hours lab (1 week)

This course covers the alteration of bolt-action fixed magazine center fire rifles, to feed a different size cartridge for which they were originally designed.

GSS 58.02 - Pressure Bedding and Pillar Bedding

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the pressure bedding of bolt-action rifle barrels in wood stocks and the pillar bedding of actions in composite and/or wood stocks.

GSS 59.02 - Metal Preparation for Refinishing and Caustic Bluing

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the metal preparation and caustic bluing of ferrous firearm parts. Includes metal preparation, degreasing, bluing, and neutralizing of firearm parts.

GSS 59.03 - Parkerizing

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to provide the student with the process of phosphate coating - parkerizing of steel firearm parts, as used on some military firearms and for extreme weather protection.

GSS 59.04 - Color Case Hardening

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to provide the student with the old style color case hardening process as used on firearm parts 100 years old. This course includes metal preparation, color hardening and after treatment.

GSS 59.05 - Rust Bluing

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.
6 hours lecture/33 hours lab (1 week)
This course is designed to cover the cold rust, niter, bluing process used until the early 20th century. This is one of the processes used for soft soldered barrels and for restoration of 19th century firearms.

GSS 59.07 - Niter Bluing and Heat Coloring 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the nitrogen and heat coloring processes commonly used until the 1930's to give firearm parts the bright royal blue straw or other selected colors as found on many antique firearms.

GSS 59.09 - Alternative Metal Finishes 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover alternative metal finishes available to the gunsmith. Topics will include Teflon Coating, Powder Coating, Aluminum Anodizing as well as other metal finishes.

GSS 60.01 - DFR Recoil Operated Auto Shotguns 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the function and repair of recoil operated Auto shotguns in use today. The base firearm studied will be the Browning A-5 and clones. Other models will be studied showing their differences with the Browning design.

GSS 60.02 - DFR Gas Operated Auto Shotguns 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the design, function and repair of gas-operated shotguns in use today. Includes all aspects of their working, what can go wrong and the correct fixes. The base gun is the Remington 1100; 11-87. Other guns will be studied where they differ

from the Remington.

GSS 60.04 - DFR Pump Shotguns 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the design, function and repair of pump shotguns in common use today. The base gun studied is the Remington 870, but also covered in detail are the Savage 30, 77 and 520; Mossberg 500, 550 and cones; the Ithaca 37 and 87 and the Winchester 1200 and 1300.

GSS 61.01 - DFR Single Action Revolvers 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the fitting, timing and repair of single action revolvers. Includes cylinder fit, barrel-cylinder gap, bolt and hand fit and timing, action shooting and modifications for cowboy and fast draw shooting.

GSS 61.02 - DFR Smith & Wesson Revolvers 1.0 unit

Recommended Preparation: Successful completion of ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to provide the student with knowledge and skills in the design, function and repair of all systems of the Smith and Wesson type revolvers. This course also covers fitting of barrels and cylinders as well as all moving parts, and smoothing of the action.

GSS 61.03 - DFR Colt and Ruger Double Action Revolvers 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the design, function and repair of Colt D, E, F and I frame revolvers, covers all phases of repair including endshake, range and throw-by.

GSS 62.03 - Misfire Correction 1.0 unit

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the causes and cures of misfiring in all types of sporting arms. Includes firing pin placement, energy and velocity and how to adjust for optimum performance.

GSS 62.04 - Correcting Oversize Firing Pin Holes 1.0 unit

Prerequisites: GSS 52.01 Gunsmith Machining 1

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the correction of oversize firing pin holes by the bushing and welding methods. Includes the refitting of firing pins and heat-treating when needed.

GSS 63.01 - Single Triggers 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the design, function and repair of single trigger systems as found in double guns. Includes single nonselective and single selective triggers as well as single double triggers and double single triggers.

GSS 63.02 - Ejectors 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to cover the design, function and repair of ejectors as found in double guns. Includes hammer types and spring-loaded types. Fitting, timing and repair of the complete system.

GSS 63.03 - Double Gun Locks 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to provide the student with the knowledge and skills of design, function and repair of hammerless double gun locks in common usage over the past 120 years. This course also provides information covering most types of self-cocking systems.

GSS 63.04 - Double Gun Locking Systems 1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)
This course is designed to provide the student with knowledge and skills of the design, function and repair of locking systems in common use in pivot barrel guns during the past 130 years.

GSS 63.05 - Double Gun Hinge Pins and Headspace

1.0 unit

Prerequisites: GSS 52.01 Gunsmith Machining I and GSS 54.01 Oxyacetylene Welding for Gunsmiths

6 hours lecture/33 hours lab (1 week)

This course is designed to provide the student with knowledge and skills in the function, fabrication and replacement of hinge pins in pivot barrel guns and the adjustment of headspace in pivot barrel shotguns and rifles.

GSS 64.01 - Composition Stock Fitting, Bedding and Finishing

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to provide the student with the skills necessary to fit a composition stock to a barreled action, magazine and trigger guard assembly as well as bedding the stock to the action, including fitting accessories and finishing.

GSS 66.01 - Non-Bolt Action Rifle Barrel Fitting

1.0 unit

Prerequisites: GSS 52.02 Gunsmith Machining 2 and GSS 56.03 Bolt Action Barrel Fitting

6 hours lecture/33 hours lab (1 week)

This course is designed to provide the student with the skills necessary to thread and fit barrels to lever and pump action rifles in common use today, as well as single shots.

GSS 66.02 - Revolver Barrel Fitting and Ranging

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the removal and fitting of revolver barrels, screw-in and pin-in types. Includes adjusting barrel-cylinder gap, throat and tightening loose barrels.

GSS 66.03 - .22 Barrel Fitting

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the fitting of replacement barrels to the various .22 rim fire rifles in use today. Includes tightening, re-indexing and setting barrels back but does not cover adjusting of fitting barrels of pivot barrel

guns.

GSS 67.01 - Blowback Principle

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the blowback principle as a locking system. Includes troubleshooting, balancing for heavier or lighter loads, extraction-ejection problems, a thorough understanding of the principle is extremely useful in diagnosing problems in all types of automatics.

GSS 68.01 - DFR Locked Breech Single Action Auto Pistols

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the design, function and repair of common locked breech single action pistols. This course also includes locking systems, feeding, extractors, ejection, magazines, etc., with emphasis on problem solving and reliability. The base firearm is the Colt-Browning type 45 auto.

GSS 68.02 - DFR Locked Breech Double Action Auto Pistols

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course will cover the design, function and repair of double action locked breech auto pistols. Emphasis is on repair and reliability. Most current designs are studied.

GSS 68.03 - DFR Blowback Auto Pistols

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course will cover the design, function and repair of blowback operated auto pistols in use today. Most systems and types are studied, including headspace, sear systems, feeding, ramps, magazines and extractors.

GSS 69.01 - DFR Auto Rifles

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the design, function and repair of modern auto

sporting rifles excepting "assault" rifles.

GSS 69.02 - DFR Pump Rifles

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

1.0 Unit

This course is designed to provide the student with knowledge and skills in design, function and repair of center fire pump rifles in common use today. This course includes fire control, feeding, extraction, ejection and accuracy, as well as fabrication of parts for obsolete models.

GSS 69.03 - DFR Lever Action Rifles

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the design, function and repair of lever action rifles in common use today. The base gun is the Winchester 94. The Marlin 336 and Savage 99 are also studied in detail. Lesser models such as the Winchester 76, 86, 88 and Marlin 92, 94 and 95 are studied to a lesser degree.

GSS 69.04 - Non-Bolt Action Feeding

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to provide the student with skills and abilities to repair and adjust all feed systems, except those found in bolt action, center fire rifles. This course also includes tube feed and magazine feed .22's, shotguns, handguns and center fire rifles. Converting to a larger or smaller cartridge is also covered.

GSS 70 - Checkering

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

4 hours lecture/46 hours lab (1 week)

An introductory course designed to provide the students with the basic skills of checkering. Instruction includes tools and equipment and their use, pattern design, layout and transfer, cutting of patterns and borders.

GSS 70.01 - DFA Triggers 1

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the design, function and adjustment of all types of trigger systems except trigger systems with three or more sears and/or adjustable levers. Includes virtually every type of trigger system found in modern sporting firearms except high quality target guns. Conventional, articulated, cam, Colt-type and double sear-types are covered.

GSS 70.02 - DFA Triggers 2

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the design, function and adjustments of multiple sear adjustable lever triggers systems as used in high-grade firearms and air guns.

GSS 71 - Custom Rifle Seminar

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

4 hours lecture/46 hours lab (1 week)

A course designed to provide the student with an overview of advanced state of the art in design, technique and tools for the custom classic rifle maker, including tools and equipment and their use, design, checkering, metal accessories, wood finish, metal finish, laying out a blank and metal checking.

GSS 71.01 - DFR .22 Autos

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the design, function and repair of .22 automatic rifles in common use today. All aspects are studied including extraction, ejection, fire control, headspace and feeding, with emphasis on malfunction repairs.

GSS 71.02 - DFR Bolt Action .22's

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to provide the student with knowledge and skills in

design, function and repair of bolt action .22 rifles. The simplest single shots to advanced target models are studied. All systems are covered from cartridge feed systems and extraction to triggers.

GSS 71.03 - DFR Pump and Lever Action .22's

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the design, function and repair of the pump and lever action .22 rifles in common use today. Includes rifles made by Browning, Remington and Winchester but does not cover the Marlin Model 39.

GSS 71.04 - DFR Marlin Model 39

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover all aspects of the design, function and repair of these fine .22 rifles. Includes the very old models made before 1900 up to the present version and the center fire variants.

GSS 72 - Fiberglass Stockmaking

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

4 hours lecture/46 hours lab

(1 week) (R)

A course introducing skills, procedures, and techniques of finishing a fiberglass stock, including history, materials, bedding, filling, sanding, painting, accessories, and accuracy.

GSS 72.01 - Metallic Cartridge

Reloading

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the basics of metallic cartridge reloading, both pistol and rifle. Covers sorting, cleaning, lubing, sizing, de-priming, selection of charge, charging, seating and crimping.

GSS 73.02 - Spring Making

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the making of irregular shaped wire springs

from basic round spring stock, using a semi-universal spring winding fixture that the student fabricates and the making of flat or "v" springs.

GSS 75.02 - Firearm Laws and Regulations

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/33 hours lab (1 week)

This course is designed to cover the study of the thousands of Federal and State Firearms Laws.

GSS 77 - Accurizing M1-M1A for Competition

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

4 hours lecture/44 hours lab (1 week)

This course is designed to present state of the art bedding techniques of M1-M1A rifles for national match competition. Mechanics aspects of tuning for accuracy and reliability will be discussed and accomplished. Participants will have an opportunity to test fire their rifles before and after accurizing. This course requires an additional fee of \$19 to cover the costs of course handouts, bedding material, sandpaper, steel, wood finish, and small parts (pins, roll pins, small springs, etc.).

GSS 78 - Design & Repair: .22

Autopistols

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

4 hours lecture/46 hours lab 1.0 Unit

An advanced course designed to train the student to fine tune .22 autopistols to very close factory specifications. Diagnosis and repair of malfunctioning pistols will be emphasized.

GSS 79 - Basic Correctional

Armorer's School

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/34 hours lab (1 week)

An introductory course designed to train correctional officers to maintain their firearms and department firearms to factory service.

GSS 82 - General Gunsmithing

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

4 hours lecture/46 hours lab (1 week)

A course designed to introduce the student to gunsmithing basics to include, firearms malfunctions, diagnosis and repair.

GSS 83 - General Gunsmithing-Advanced

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

4 hours lecture/46 hours lab (1 week)

An advanced course in general gunsmithing problems and techniques including drilling and tapping for sights, spring making and silver soldering.

GSS 84 - L.E.A.S./Design and Repair Colt & Ruger Revolvers

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/34 hours lab

A course designed to train the student to fine tune and maintain Colt and Ruger revolvers to very close factory specifications, and to diagnose malfunctions and adjust or repair malfunctioning revolvers.

GSS 85 - L.E.A.S./Design and Repair Smith & Wesson Revolvers

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/34 hours lab (1 week)

Trains the student to fine tune Smith & Wesson revolvers to very close factory specifications, and to maintain, diagnose malfunctions and adjust or repair these malfunctioning revolvers.

GSS 87 - L.E.A.S./Design & Repair Double Action Autopistols I

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/34 hours lab (1 week)

An advanced course designed to train the student to fine tune the following families of double-action autopistols to very close factory specifications and to maintain them, diagnose malfunctions and adjust or repair these malfunctions. Firearms to be covered are Smith & Wesson autopistols, Sig Sauer 220 series, Beretta and Glock.

GSS 88 - L.E.A.S./Design and Repair Single Action Autopistols

1.0 unit

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

6 hours lecture/34 hours lab (1 week)

A course designed to train the student to fine tune single action autopistols to very close factory specifications, and to maintain, diagnose malfunctions and adjust or repair these malfunctioning autopistols.

GSS 89 - L.E.A.S./Design and Repair Full Autos, Phase I

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/34 hours lab (1 week)

An advanced course designed to train law enforcement armorers in the repair and maintenance of fully automatic firearms.

GSS 90 - Customizing the Colt-Type Autopistol, Basic

2.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hour lecture/51 hours lab (1 week)

A course designed to cover the specific basic alterations and modifications to the Colt 1911A1 type autopistols as used in custom pistolsmithing today.

GSS 91 - Customizing the Colt-Type Autopistol, Advanced

2.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

8 hours lecture/88 hours lab (2 weeks)

A course designed to cover the common advanced alterations and modifications to the Colt 1911A1 type autopistols as used in custom pistolsmithing today. This course requires an additional fee of \$19 to cover the costs of course handouts, blocking, sandpaper, small parts (pins, roll pins, small springs, etc.), steel, cutting oil, welding rod and gases.

GSS 93 - L.E.A.S./Design and Repair-Counter Sniper/Varmint Rifle

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/34 hours lab (1 week)

An advanced course designed to train law enforcement officers and gunsmiths in the accurizing and maintenance of super accurate bolt action rifles. This course requires an additional fee of \$19 to cover the costs of course handouts, bedding material, small parts (pins, roll pins, small springs, etc.), and steel.

GSS 94 - Ballistics, Handloading & Testing

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

4 hours lecture/46 hours lab (1 week)

A course designed to provide the student with detailed knowledge of small arms ammunition. This course requires an additional fee of \$19 to cover the costs of course handouts, case lube, powder, primers, and bullets.

GSS 95 - Law Enforcement Armorer School-Basic

1.0 unit

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

6 hours lecture/34 hours lab (1 week)

An introductory course designed to train law enforcement officers to maintain departmental firearms to factory service levels. Firearms to be covered are Smith & Wesson revolver, Glock, Colt AR-15 and Remington 870 shotgun.

GSS 98.02 Cowboy Action Shooting Long Guns

1.0 unit

4 hours lecture/44 hours lab (1 week)

This course is designed to present specialized techniques that deal with the fine-tuning of Winchester and Marlin lever action rifles for cowboy action shooting. The tuning of Winchester Model 97 shotguns and double shotguns will also be covered. This course requires an additional fee of \$19 to cover the costs of course handouts, bedding materials, sandpaper, small parts (pins, roll pins, small springs, etc.), steel, welding rod and gases.

GSS 98.03 Cowboy Action Shooting Short Guns

1.0 unit

4 hours lecture/44 hours lab (1 week)

This course is designed to present specialized techniques that deal with the fine-tuning of Colt, Colt style and Ruger single action revolvers for the very popular sport of cowboy action shooting. This course requires an additional fee of \$19 to cover the costs of course handouts, sandpaper, small parts (pins, roll pins, small springs, etc.), steel, welding rod and gases.

GSS 98.04 Advanced Knife Making

1.0 unit

6 hours lecture/34 hours lab (1 week)

This course is designed to present basic techniques learned in the "Introduction to Knife Making," course. This course will deal with hollow grinding working with

different metal types and handle materials.

GSS 98.05 Design, Function and Repair Smith & Wesson Revolver 1.0 unit

4 hours lecture/44 hours lab (1 week)
This course is designed to present information about Smith & Wesson revolvers in great detail. Areas of instruction will cover specifics such as: various ways to time the hand and cylinder stop, ranging sprung frames, making the revolver shoot where it points, over and under indexing, off center sights, bent sight, barrel on different axis than frame, cylinder fit, correcting bad notches, and correcting irregular ratchet pads.

GSS 98.06 L.E.A.S. Design, Function and Repair Patrol Rifles 1.0 unit

6 hours lecture/34 hours lab (1 week)
This course is designed to present instruction that will cover the repair and maintenance of the following firearms to factory specifications: Shotguns - Remington 870, Remington 700, Ruger Mini-14, and Colt AR-15.

GSS 98.08 Custom Build 1911 1.0 unit

8 hours lecture/88 hours lab (2 weeks)
This course is designed to present coverage of modifications to the Colt type 1911 auto pistols, as used in Bullseye, Carry, Open or Stock competition. The student will learn different types of compensator systems as well as ergonomic enhancement techniques to fine-tune the Colt 1911 to any specifications. Precise barrel installation or maximum accuracy and detailed trigger work will be strongly emphasized.

GSS 98.09 Color Case Hardening 1.0 unit

4 hours lecture/44 hours lab (1 week)
This course is designed to present the old methods of color case hardening. This will include learning how to fabricate a furnace with commonly found materials. This course requires an additional fee of \$19 to cover the costs of course handouts, charcoal, blocking and shielding materials, and various color compounds.

GSS 98.12 Modern and Cowboy Action Belts and Holsters 1.0 unit

4 hours lecture/44 hours lab (1 week)
This course will teach the student how to select different grades of leather to fabricate cowboy belts and holsters. The student will also become familiar with tools that are needed and their proper use. The student will learn how to lay-out

and cut their leather patterns. The course will teach leather forming techniques, gluing and bonding, punching holes for hand sewing, and will learn a variety of dyes and types of finishes used on leather. This course requires an additional fee of \$19 to cover the costs of course handouts, dye, glue, leather, and oil.

GSS 98.13 Metallurgy for Gunsmiths 1.0 unit

12 hours lecture/36 hours lab (1 week)
This course introduces gunsmithing students to the theory of metallurgy. The student will learn to predict the behavior of metals, particularly common grades of steel, when exposed to heating and cooling cycles. This course requires an additional fee of \$19 to cover the costs of various types of metal of specific composition for testing, heat treating, etc. Chemicals for altering metals, sandpaper (course, medium, fine, very fine, grits), emery cloth (course, medium, fine and very fine grits), sanding belts, polishing wheels and polishing compound.

GSS 98.21 Hand Guns Special Projects 1.0-3.0 units

151 hours lab
This course is designed to provide the student with the skill development necessary to repair hand guns in a timely manner. This course has been approved for open entry/open exit.

GSS 98.22 DFR Long Guns Special Projects 1.0-3.0 units

151 hours lab
This course is designed to provide the student with skill development necessary to repair long guns in a timely manner. This course has been approved for open entry/open exit.

GSS 98.23 Machine Shop Special Projects 1.0-3.0 units

Prerequisite(s): GSS 52.01 Gunsmith Machining 1
151 hours lab
This course is designed to provide the student with the skill development to machine custom tools and gun parts. This course has been approved for open entry/open exit.

GSS 98.24 Stockmaking Special Projects 1.0-3.0 units

151 hours lab
This course is designed to provide the student with the skill development necessary to complete gun stocks to industry standard. This course has been

approved for open entry/open exit.

GSS 112 - Machine Shop for Gunsmiths 2.0 units

8 hours lecture/92 hours lab (2 weeks)
An introductory course designed to help the beginner or the pro in the use of machine shop equipment as it relates to gunsmithing. This course requires an additional fee of \$19 to cover the costs of course handouts, cutting oil, sandpaper, small parts (pins, roll pins, small springs, etc.), and steel.

GSS 112B - Introduction to Knifemaking 1.0 unit

4 hours lecture/46 hours lab (1 week)
A course of instruction in the design, fabrication, and finishing of common sheath knives and accessories.

GSS 114 - Basic Rifle Barreling 1.0 unit

4 hours lecture/46 hours lab (1 week)
This course is designed to help the beginner or the pro in the use of machine shop equipment to barrel action rifle receivers. This course requires an additional fee of \$19 to cover the costs of course handouts, cutting oil, sandpaper, small parts (pins, roll pins, small springs, etc.), and steel.

GSS 116 - Stockmaking - Phase I 1.0 unit

4 hours lecture/46 hours lab (1 week)
This course is designed for the beginner or the pro in inletting and fitting accessories to a semi-inlet stock blank.

GSS 117 - Gas Tungsten Arc Welding for Gunsmiths 1.0 unit

50 hours lab (1 week)
This course is designed to develop the manipulative skills, technical knowledge and applications of the gas tungsten arc welding (GTAW) process as they relate to firearm repair. Students will apply the gas tungsten arc welding process (GTAW) to selected metal types, joint designs and gun parts.

GSS 119 - Advanced Rifle Barreling 1.0 unit

4 hours lecture/46 hours lab (1 week)
Providing the student with specific techniques in the manufacture of rifle barrels, in barreling rifles for precision accuracy, and barreling of less common action types. This course requires an additional fee of \$19 to cover the costs of sandpaper (course, medium, fine, very fine, grits), emery cloth (course, medium, fine and very fine grits), sanding belts,

polishing wheels and polishing compound, welding rod (STAW), cutting oil, bluing salts, cleaning chemicals, degreaser.

GSS 120 - Stockmaking-Phase II **1.0 unit**

4 hours lecture/46 hours lab (1 week)
An introductory course designed to help the beginner or the pro in the shaping and finishing of a semi-inlet stock blank.

GSS 120B - Stock Refinish and Repair/Recoil Pad Installation **1.0 unit**

4 hours lecture/46 hours lab (1 week)
A course of instruction in restoration of gunstocks involving refinishing and repairing. Installation of rubber recoil pads will be covered as well.

GSS 123 - Basic Hard Metal Engraving **1.0 unit**

8 hours lecture/92 hours lab (2 weeks)
An introductory course designed to provide the students with basic skills of firearms engraving. Instruction includes tools and equipment and their use, pattern design, design transfer, cutting, stippling and other basic engraving skills and techniques. This course requires an additional fee of \$19 to cover the costs of course handouts and practice plates.

GSS 124 - Welding Fabrication for Gunsmiths **1.0 unit**

50 hours lab (1 week)
Students will select and fabricate gunsmith related projects using appropriate welding processes and techniques. Students will also have an opportunity to learn or improve welding skills related to the gunsmith vocation.

GSS 127 - Advanced Engraving **2.0 units**

8 hours lecture/92 hours lab (2 weeks)
An advanced course designed to cover advanced metal engraving techniques applicable to major portions of the firearm. The scope of instruction includes advanced design and layout, high relief engraving, compatible background style, straight line or border inlays, inlaid game scenes.

GSS 129A - Design, Function and Repair-Spring Piston Air Guns **1.0 unit**

4 hours lecture/46 hours lab (1 week)
Present an overview of airgun power plants focusing on the spring piston air guns. Cover the initial inspection, special tools, disassembly, preparation of the compression cylinder for installation of new parts, install new parts, reassembly

and subsequent testing. Limited tuning and improving the operation will be addressed. Also proper lubrication and maintenance will be covered. The special tools used for disassembly and assembly will be introduced. This course requires an additional fee of \$19 to cover the costs of course handouts, cutting oil, glue, sandpaper, small parts (pins, roll pins, small springs, etc.), steel, welding rod and gases.

GSS 129B - Design, Function and Repair-Pneumatic Air Guns **1.0 unit**

4 hours lecture/46 hours lab (1 week)
Present an overview of airgun power plants focusing on the multi-pump and single stroke type sporting guns. Cover the initial inspection, special tools, disassembly, preparation of the compression cylinder and valve chamber for installation of new parts, install new parts, reassembly and subsequent testing. Limited tuning and improving the operation will be addressed. Also proper lubrication and maintenance will be covered. The special tools used for disassembly and assembly will be introduced. This course requires an additional fee of \$19 to cover the costs of course handouts, cutting oil, glue, sandpaper, small parts (pins, roll pins, small springs, etc.), steel, welding rod and gases.

GSS 129C - Design, Function and Repair-CO₂ Air Guns **1.0 unit**

4 hours lecture/46 hours lab (1 week)
Present an overview of airgun power plants focusing on the CO₂ air guns. Cover the initial inspection, special tools, disassembly, preparation of the air cylinder and valve chamber for installation of new parts, install new parts, reassembly and subsequent testing. Limited tuning and improving the operation will be addressed. Also proper lubrication and maintenance will be covered. The special tools used for disassembly and assembly will be introduced. This course requires an additional fee of \$19 to cover the costs of course handouts, cutting oil, glue, sandpaper, small parts (pins, roll pins, small springs, etc.), steel, welding rod and gases.

GSS 130 - Professional Engraving **1.0 unit**

4 hours lecture/46 hours lab (1 week)
An advanced course designed to cover the techniques of engraving as used by different masters in the art of firearms engraving.

GSS 133 – Scrimshaw **1.0 unit**

4 hours lecture/46 hours lab (1 week)

An introductory course designed to provide the students with the basic skills of the art of scrimshaw. Instruction includes tools and equipment and their use, pattern design, design transfer. This course requires an additional fee of \$19 to cover the costs of sandpaper (course, medium, fine, very fine, grits), emery cloth (course, medium, fine and very fine grits), sanding belts, polishing wheels and polishing compound, wood block for practice blocks, bone or facsimile bone for practice blocks, horn for practice blocks.

GSS 134 - Caustic Bluing **1.0 unit**

4 hours lecture/44 hours lab (1 week)
A course designed to introduce the student to bluing, commercial black oxide finish on firearms. Preparation of surface finish, care and use of chemicals. Understanding chemical process and control, professional technique and equipment. This course requires an additional fee of \$19 to cover the costs of course handouts, bluing salts, oil, and sandpaper.

GSS 135 - Parkerizing **1.0 unit**

4 hours lecture/46 hours lab (1 week)
A course designed to introduce the student to parkerizing, to produce a phosphate nonrusting finish on firearms. Surface preparation, mixing of chemicals, operations, techniques and controls. This course requires an additional fee of \$19 to cover the costs of sandpaper (course, medium, fine, very fine, grits), emery cloth (course, medium, fine and very fine grits), sanding belts, polishing wheels and polishing compound, chemicals for Parkerizing process, degreaser, cleaning chemicals.

GSS 136 - Cold Rust and Niter Bluing **1.0 unit**

4 hours lecture/46 hours lab (1 week)
A course designed to introduce the student to rust bluing finish on firearms. Surface preparation and use of chemicals and other appropriate equipment. Understanding control of equipment, chemicals and operating procedures. This course requires an additional fee of \$19 to cover the costs of sandpaper (course, medium, fine, very fine grits), emery cloth (course, medium, fine and very fine grits), sanding belts, polishing wheels and polishing compound, degreaser, cleaning chemicals, chemicals for Cold Rust process, chemicals for Niter Bluing process.

GSS 143 - Custom Gunmaking-Muzzleloader Kit Guns **1.0 unit**

4 hours lecture/46 hours lab (1 week)
The student will completely assemble a muzzleloading firearm during class. Working with hand tools in a small shop will be featured.

GSS 147 - Assembly and Tuning of Gas Operated LEAS Repeating Rifles

1.0 unit

6 hours lecture/34 hours lab (1 week)
An advanced course that will cover the assembly and tuning of AR-15.

GSS 148 - Advanced Correctional Armorer School

1.0 unit

6 hours lecture/34 hours lab (1 week)
An advanced level course designed to train correctional armorers to maintain the departments' specialized firearms to factory service levels.

HEALTH

HLTH 2 - Personal Health

3.0 units

CSU/UC

General Education Area E1

CSU GE Area E

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

A study of personal and community health today, emphasizing behavioral and sociological aspects of health, nutrition, weight control, diseases, drugs and narcotics, family life and environmental health. This course has been approved for online, hybrid and correspondence delivery.

HLTH 25 - Understanding Nutrition

3.0 units

CSU/UC

General Education Area E1

CSU GE Area E

C-ID NUTR 110

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

Scientific concepts of nutrition related to the function of nutrients in basic life processes and current health issues with emphasis on individual needs. Analyze your diet, construct a nutritional diet, interpret eating disorders, plan adequate diets for children, infants, pregnancy, athletes, adults and the elderly. Evaluate food additives. Appraise world hunger problems. This course has been approved for online and correspondence delivery.

HEALTH OCCUPATIONS

HO 3 - Medical Terminology

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

This course covers basic medical terminology and the vocabulary of medical specialties. Special emphasis is on the use of prefixes and suffixes, and non-technical explanations of medical terms and descriptions of anatomy, physiology, and pathology. Students learn to utilize medical terminology as it applies to the structure of the human body, common laboratory tests, radiological and operative procedures, as well as basic pharmacology. This course has been approved for online and hybrid delivery.

HO 49 - Health Occupations Work Experience

1.0-8.0 units

CSU

General Education Area E1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

600 hours lab (R)

This work based learning course is designed to assist students with educational or career goals in health occupations, who are working in the field of health, to build related job specific skills through individualized learning objectives and enhance their workplace performance. All Work Experience enrollments require attendance of a face-to-face orientation session. Instruction is also provided through online course modules and emails throughout course term, work based learning with a participating supervisor, and meetings in office or at student worksite. Instruction focuses on goal setting to develop job specific skills, enhancement of soft skills in the workplace, and career development. Subsequent enrollments require new individualized learning objectives, and completion of new course module assignments. Units are awarded based upon achievement of approved learning objectives, workplace performance, submission of course assignments, and documentation of work hours. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Career Technical Education, Occupational and General Work Experience enrollments. Title V

specifies students will earn 1 unit of credit for each 75 hours of paid work, and 1 unit of credit for each 60 hours volunteer work. This course has been approved for Hybrid delivery

HO 70 - Medical Assisting Core 7.0 units

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

125 Hours lecture

This course is designed to provide entry level skills training required for the profession of medical assisting. The course covers core components required for advancement in both the administration and clinical medical assisting certificate program. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to advance to the next course in the series. Uniform and lab fee of \$200 will be collected at registration. This course has been approved for hybrid and online delivery.

HO 71 - Medical Assisting Administrative 6.5 units

Prerequisites: HO 70 Medical Assisting Core

Recommended Preparation: ENGL105 and Elementary Algebra or equivalent multiple measures placement.

85 hours lecture/76.5 hours lab

This course is designed to provide entry level information and skill training required for the profession of Administrative Medical Assisting. This course covers components required to become eligible for examination by the California Certifying Board of Medical Assistants for California Certified Medical Assistant Basic and Administrative Specialty. Course content will include course work in medical office reception, records, finance, insurance billing, and office management. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to advance to the next course in the series. . This course requires a 40 hour externship at a clinical facility, all clinical compliance requirements in HO 70 must be met prior to enrolment. This course has been approved for hybrid and online delivery.

HO 72 - Medical Assisting Clinical **7.5 units**

Prerequisites: HO 70 Medical Assisting Core

Recommended Preparation: ENGL105 and Elementary Algebra or equivalent multiple measures placement.

93.5 hours lecture/102 hours lab

This course is designed to provide entry

This course is designed to provide entry level information and skill training

required for the profession of Clinical Medical Assisting. This course covers components required to become eligible for examination by the California Certifying Board of Medical Assistants for California Certified Medical Assistant Basic and Clinical Specialty.

Course content will include course work in medical office exam room procedures, specialty procedures, pharmacology, minor office surgery, laboratory procedures, nutrition and patient education. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to advance to the next course in the series. . This course requires a 40 hour externship at a clinical facility, all clinical compliance requirements in HO 70 must be met prior to enrollment. This course has been approved for hybrid and online delivery

HO 80A -Geriatric (Long-Term Care) Nurse Assistant

6.0 units

Prerequisite: After enrolling in CNA program: Verify that he or she does not have a criminal record and can work in a healthcare setting, provide documentation of recent tuberculosis testing and vaccinations or titers and medical clearance required for entry in to a clinical setting.

Recommended Preparation: ENGL105 or equivalent multiple measures placement and HO 3 Medical Terminology

72 hours lecture/112 hours lab

This course will provide specific knowledge and clinical skills training required for Nurse Assistants. Geriatric and Long-Term Care are emphasized.

Areas covered will include role responsibilities, communications, infection control, safety and emergency procedures, personal care and the patient environment, nutrition and feeding, elimination needs, vital signs, charting and reporting, modified care for special needs, and restorative nursing. Students must complete all course hours and must

achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to take the California Nursing Assistant certification exam. This course requires a clinical rotation, all clinical compliance requirements must be met prior to enrolment. Uniform and lab fee of \$100 will be collected at registration. This course has been approved for hybrid and online delivery.

HO 88 – Phlebotomy Technician **3.5 units**

Prerequisites: HO 3 Medical Terminology

Before beginning clinical rotation the student must:

- Show proof of vaccinations: HEP B series, MMR and varicella.
- Proof of negative tuberculosis test.
- Drug testing. This will be scheduled for you.
- High school diploma or GED.
- Background check

42.5 hours lecture/51 hours lab

This course prepares students to be able to perform venipunctures, capillary punctures, and basic laboratory tests expected of entry-level phlebotomy positions in hospitals and other health care settings consistent with health care regulations in California. With successful completion of this course, including 50 successful venipunctures and 10 successful skin punctures, the student will be eligible to sit for the exam to become a Certified Phlebotomist Technician with the State of California. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to take the California Phlebotomy Technician certification exam. This course requires a clinical rotation, all clinical compliance requirements must be met prior to enrolment. Uniform and lab fee of \$100 will be collected at registration. This course has been approved for hybrid and online delivery.

HO 120 - Cardiopulmonary Resuscitation (CPR)

0.5 units

8.5 hours lecture (1 Week)

This course is designed to teach Cardiopulmonary Resuscitation (CPR) methods and update those methods according to the most current standards. This course is certified by the American Red Cross. This course may be taken as needed for legal mandated training or certification.

HISTORY

HIST 14 - World History, Beginning to 1500

3.0 units

CSU/UC

General Education Area B & C

CSU GE Area C2 & D6

IGETC 3B & 4F

C-ID HIST 150

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

A study of the major civilizations of the world from the beginning of civilization to 1500. Covers the classical and medieval traditions of the West and the major non-western cultures of the world. This course meets a requirement for the California Elementary School Teaching Credential. This course has been approved for hybrid, online and correspondence delivery.

HIST 15 - World History, 1500 to Present

3.0 units

CSU/UC

General Education Area B & C

CSU GE Area C2 & D6

IGETC Area 3B & 4F

C-ID HIST 160

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

A study of the major civilizations of the world from 1500 to the present. Stresses the dynamism and expansion of the West, the cross-cultural interaction in the modern era and the resurgence of non-western independence into the 20th century. This course meets a requirement for the California Elementary School Teaching Credential. This course has been approved for hybrid, online and correspondence delivery.

HIST 16 - U.S. History

3.0 units

CSU/UC

General Education Area B

CSU GE Area C2 & D6

IGETC Area 3B & 4F

C-ID HIST 130

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

Traces the transition of the U.S. into a nation, stressing the development of political and economic institutions, social movements, the challenge of sectionalism and geography. This course has been

approved for hybrid, online and correspondence delivery.

HIST 17 - Post-Civil War - U.S.

History

3.0 units

CSU/UC

General Education Area B

CSU GE Area C2 & D6

IGETC Area 3B & 4F

C-ID HIST 140

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

A course tracing the development of the U.S. into a world power, stressing growth in territory, population, industry and world influence from reconstruction to the present. Also traces the continuing development of the political institution brought about by industrialization and becoming a world power. This course has been approved for hybrid, online and correspondence delivery.

HUMAN SERVICES

HUS 10 - Introduction to Social Work and Human Services

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

Survey of human services and social work, an exploration of helping skills as applied to human problems such as poverty, parenting, education, substance abuse, illness and mental health. This course has been approved for online, hybrid and correspondence delivery.

HUS 30 - Pharmacology of Drugs of Abuse

3.0 units

CSU/UC

General Education Area E1

CSU GE Area E

Recommended Preparation: ENGL105 or equivalent multiple measures placement and HUS 32 Understanding Addiction

51 hours lecture

Focus on the neurological, physiological, and psychological effects of the psychoactive substances: ethanol, marijuana, cocaine, heroin, amphetamines, PCP, LSD, and synthetic drugs such as Ecstasy (MDMA), China White (fentanyl), and Spice (cannabinoid). In addition, other non-substance addictions will be explored, i.e. gambling, food, and sexual addictions. Drug testing

and the new National Institute of Drug Abuse guidelines will be discussed. This course has been approved for correspondence, hybrid and online delivery

HUS 42 - Field Experience in Human Services

3.0 unit

CSU

Prerequisite: HUS 10 Introduction to Social Work and Human Services

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hour lecture/102 hours field

experience

This course offers the student a supervised field experience in a community organization, agency, or institution, allowing the student to apply knowledge and learn new skills outside of the classroom environment. Between 96-108 hours of field experience are required. A weekly class meeting provides the academic element to this experiential course offering and reinforces the application of concepts gained in the prerequisite course. This course is designed to provide the student with an opportunity to develop skills that would facilitate gaining employment in the human services field. This course has been approved for hybrid delivery.

HUS 49 - Human Services Work Experience

1.0-8.0 units

CSU

General Education Area E1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

600 hours lab (R)

This work based learning course is designed to assist students with educational or career goals in human services, who are working in the field of human services, to build related job specific skills through individualized learning objectives and enhance their workplace performance. All Work Experience enrollments require attendance of a face-to-face orientation session. Instruction is also provided through online course modules and emails throughout course term, work based learning with a participating supervisor, and meetings in office or at student worksite. Instruction focuses on goal setting to develop job specific skills, enhancement of soft skills in the

workplace, and career development. Subsequent enrollments require new individualized learning objectives, and completion of new course module assignments. Units are awarded based upon achievement of approved learning objectives, workplace performance, submission of course assignments, and documentation of work hours. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Career Technical Education, Occupational and General Work Experience enrollments. Title V specifies students will earn 1 unit of credit for each 75 hours of paid work, and 1 unit of credit for each 60 hours volunteer work. This course has been approved for Hybrid delivery

HUMANITIES

HUM 1 - Western Civilization: Prehistoric to 1600

3.0 units

CSU/UC

General Education Area C

CSU GE Area C2

IGETC Area 3B

C-ID HIST 170

Recommended Preparation: English 1 or equivalent multiple measures placement

51 hours lecture

Survey of the development of western culture and civilization to the Reformation. This course has been approved for, correspondence, and on-line delivery

HUM 2 - Western Civilization: 1600 to Present 3.0 units

CSU/UC

General Education Area C

CSU GE Area C2

IGETC Area 3B

C-ID HIST 180

Recommended Preparation: English 1 or equivalent multiple measures placement.

51 hours lecture

The development of Western civilization from 1600 to present, with emphasis on the inter-relations between historical occurrences and the world view revealed in philosophy, literature, music, painting, and architecture and how the respective world views evolved into our present views. This course has been approved for online and correspondence delivery.

INDUSTRIAL TECHNOLOGY

IT 22 - Operations, Maintenance and Safety

1.0 unit

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hour lecture

This course integrates personnel safety, equipment protection and safety tagging procedures with operational and maintenance events expected in a power generation, process or geothermal plant. Specific topics include material and safety data sheets (MSDS), hazardous materials (HAZ/MAT), chemical alert placards and confined space procedures. This course has been approved for online delivery.

IT 72 - Facilities Maintenance – Welding 2

2.0 units

102 hours lab

This course is designed to prepare students with basic, through increasingly advanced, skills covering aspects of maintenance and repair procedures utilizing: soldering, brazing, welding, and joining of PVC. Field work will include fabrication, as well as maintenance and repair of equipment and facilities utilizing a portable shop.

INTERDISCIPLINARY STUDIES

IDS 1 Introduction to Sign Language

4.0 units

CSU only

Recommended Preparation: English 105 or equivalent multiple measures placement.

An introductory course designed to teach students basic skills in American Sign Language vocabulary, finger spelling, culture, and grammatical structures. The student will gain the manual skills to engage in basic dialog, visual cues and the receptive skills to understand general ASL conversation. IDS 1 is equivalent to two years of high school ASL.

IDS 2 Intermediateto Sign Language

4.1 units

CSU only

Prerequisite: IDS 1 with a C or better or equivanant

This course is a continuation of Introduction to American Sign Language, designed for the student desiring to increase vocabulary and fluency in performing and receiving American Sign Language Information. Emphasis is on the structure to American Sign Language including lexical, morphemic and syntactical elements. The student will learn the intermediate skills to engage in descriptive, complex dialog and stories at a moderate skill level. Topics include American Sign Language contrast and comparisons to other languages, language development and acquisition and societal and legal issues.

MATHEMATICS

MATH 1A - Analytic Geometry and Calculus I

5.0 units

CSU/UC

General Education Area D2

CSU GE Area B4

IGETC Area 2A

C-ID MATH 211

Prerequisites: Completion of Pre-calculus or MATH 7 Trigonometry and MATH 8 Advanced Algebra with a grade of 'C' or better or equivalent multiple measures placement.

85 hours lecture

A first course in differential and integral calculus of a single variable: functions; limits and continuity; techniques and applications of differentiation and integration; Fundamental Theorem of Calculus. Primarily for science, technology, engineering & math majors. This course has been approved to be web-enhanced and online delivery. Access to a computer with internet access is required.

MATH 1B - Analytic Geometry and Calculus II

5.0 units

CSU/UC

General Education Area D2

CSU GE Area B4

IGETC Area 2A

C-ID MATH 221

Prerequisite: MATH 1A Analytic Geometry and Calculus I or equivalent multiple measures placement.

85 hours lecture

Continuation of Math 1A. A second course in differential and integral calculus of a single variable: intergration,

techniques of integration; infinite sequences and series, polar and paramtrice equations: applications of integration. Primarily for science, technology, engineering & math majors. This course has been approved to be web-enhancedan online delivery. Access to a computer with internet access is required.

MATH 7 - Trigonometry

3.0 units

CSU

General Education Area D2

CSU GE Area B4

Prerequisite: MATH 60 Intermediate Algebra or equivalent multiple measures placement.

Co-requisite: MATH 167 Trigonometry Lab

51 hours lecture

A study of the numerical, graphical, and analytical properties of trigonometric functions, oblique triangles, inverse functions, and applications. This course has been approved for online delivery. This course uses a free Open Educational Resource textbook.

MATH 8 - Advanced Algebra

3.0 units

General Education Area D2

CSU/UC

CSU GE Area B4

IGETC Area 2A

Prerequisite: MATH 60 Intermediate Algebra or equivalent multiple measures placement.

Co-requisite: MATH 168 College Algebra Lab

51 hours lecture

This course solidifies the basic foundation needed by students planning to study the analytic geometry and calculus sequence. Topics include: general theory of equations, polynomial and rational inequalities, conic sections, exponents and logarithms; an introduction to sequences, series, matrices and their applications. This course is recommended for math, science, engineering and business students. This course has been approved for online and hybrid delivery.

MATH 11A Concepts of Elementary School Mathematics I

3.0 units

CSU/UC

General Education Area: D2

CSU GE Area: B4

C-ID MATH 120

Prerequisite: MATH 60 Intermediate Algebra or equivalent multiple measures placement.

A course focusing on the development of quantitative reasoning skills through in-depth, integrated exploration of topics in

mathematics, including real number systems and subsystems. Emphasis is one comprehension and analysis of mathematical concepts and applications of logical reasoning. One of two courses designed especially for students preparing for credentials in elementary education. This course has been approved for online delivery. Access to a computer with internet access is required.

MATH 11B Concepts of Elementary School Mathematics II

3.0 units

CSU/UC

General Education Area: D2

CSU GE Area: B4

C-ID MATH 120

Prerequisite: MATH 60 Intermediate Algebra or equivalent multiple measures placement.

A course covering the study of the real numbers, measurement, logic and mathematical reasoning, introduction to probability and statistics and some concepts of algebra, non-metric and metric geometry. One of two courses designed especially for students preparing for credentials in elementary education. This course has been approved for online delivery. Access to a computer with internet access is required.

MATH 40 - Elementary Statistics

3.0 units

CSU/UC

General Education Area D2

CSU GE Area B4

IGETC Area 2A

C-ID MATH 110

Prerequisite: MATH 60 Intermediate Algebra or equivalent multiple measures placement.

Co-requisite: MATH 164 Elementary Statistics Lab

51 hours lecture

The use of probability techniques, hypothesis testing, and predictive techniques to facilitate decision-making. Topics include descriptive statistics; probability and sampling distributions; statistical inference; correlation and linear regression; analysis of variance; chi-square and t-tests; and application of technology for statistical analysis including the interpretation of the relevance of the statistical findings. Applications using data from disciplines including business, social sciences, psychology, life science, health science, and education. This course has been approved for online, hybrid and correspondence delivery.

MATH 60 - Intermediate Algebra

4.0 units

General Education Area D2

51 hours lecture/51 hours lab

This course is a continuation of Beginning Algebra and is designed to develop the algebra skills necessary for college level math courses. Topics include: linear, quadratic, inverse, exponential, and logarithmic functions; real and complex solutions of quadratic equations; systems of equations and inequalities, sequences and the Binomial Theorem. This course satisfies the Mathematics competency requirement and AREA D2 (Language and Rationality) requirement for the AA/AS degree. This course has been approved for online, and correspondence delivery. This course has been approved to be web-enhanced. Access to a computer with internet access is required. This course has been approved for online and correspondence delivery.

MUSIC

MUS 6 - Music History from Antiquity to 1750

3.0 units

CSU/UC

General Education Area C

CSU GE Area C1

IGETC Area 3A

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

An introductory survey course in Western music history that covers music, the beginning of opera, composers, styles, genres and periods from antiquity to the end of the Baroque era. This course has been approved for online, hybrid and correspondence delivery.

MUS 7 - Music History from 1750 to Modern Era

3.0 units

CSU/UC

General Education Area C

CSU GE Area C1

IGETC Area 3A

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

An introductory survey course in Western music history that covers music, composers, styles, genres and periods from early Rococo to the modern music era. This course has been approved for online, hybrid and correspondence delivery.

MUS 12 - Music Appreciation

3.0 units

CSU/UC

General Education Area C

CSU GE Area C1

IGETC Area 3A

C-ID MUS 100

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

A survey course that covers the elements of music (melody, harmony, rhythm and form), instruments, voices, program and dramatic music, vocal and instrumental music, sacred and secular music, folk, popular, jazz, music of other cultures and historical music from primitive times to the present. Emphasis is placed on listening to music and attending performances.

This course has been approved for online, hybrid and correspondence delivery.

NURSING

Licensed Vocational Nursing

Acceptance into the Vocational Nursing Program is required before enrollment in nursing courses

VN 50 - Pharmacology

4.0 units

Corequisite: VN 51; VN 52

68 hours lecture

Introduction to the principles of pharmacology, medication administration, and computation of medication dosage. Includes the study of major drug categories. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. This course has been approved for hybrid delivery and online delivery for emergency use only. If course is provided hybrid or online, per the board of nursing students must be displayed on camera throughout entire course.

VN 51 - Nursing Fundamentals

4.0 units

Prerequisites: BIOL 25 & 26, ENGL 1, HLTH 25, HO 3, HO 120 or AHA CPR, MATH 60, PSY 1, PSY 18.

Corequisites: VN 50; VN 52

68 hours lecture

Introduction to nursing fundamentals and the healthcare profession. Topics will include history of nursing, nursing

concepts, legal and ethical issues, nursing process, basic patient needs and the nursing care required for alterations in basic needs. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. Uniform and lab fee of \$300 will be collected at registration. This course has been approved for hybrid delivery and online delivery for emergency use only. If course is provided hybrid or online, per the board of nursing students must be displayed on camera throughout entire course.

VN 52 - Clinical Lab I

7.0 units

Corequisite: VN 50; VN 51

357 hours lab

Application of basic nursing skills in a laboratory setting and experience in giving supervised nursing care to selected patients in health care facilities. Total clinical hours are 357. Clinical hours may vary from week to week. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. This course has been approved for hybrid delivery and online delivery for emergency use only. If course is provided hybrid or online, per the board of nursing students must be displayed on camera throughout entire course.

VN 53 - Adult Nursing Theory

7.0 units

Prerequisite: VN 50; VN51; VN 52

Corequisite: VN 54

119 hours lecture

Presents disease conditions in a systems based format with emphasis on pathophysiology, etiology, treatment, and nursing concerns with focus on nursing care and the nursing process. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. This course has been approved for hybrid delivery and online delivery for emergency use only. If course is provided hybrid or online, per the board of nursing students must be displayed on camera throughout entire course.

VN 54 - Clinical Lab II

6.0 units

Prerequisite: VN 50; VN 51, VN 52

Corequisite: VN 53

306 hours lab

Application of various nursing skills in a clinical setting and experience in giving supervised nursing care, with increasing levels of independence, to selected patients in health care facilities. Total clinical hours are 306. Clinical hours may vary from week to week. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. This course has been approved for hybrid delivery and online delivery for emergency use only. If course is provided hybrid or online, per the board of nursing students must be displayed on camera throughout entire course.

VN 55 – Nursing Leadership and Professional Development

2.0 units

Prerequisite: VN 51; VN 52; VN 53;

VN 54; VN 55

Corequisite: VN 56; VN 57; VN 58;

VN 60

34 hours lecture

Instruction on the transition from student to Licensed Vocational Nurse including leadership and professional development. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. This course has been approved for hybrid delivery and online delivery for emergency use only. If course is provided hybrid or online, per the board of nursing students must be displayed on camera throughout entire course.

VN 56 - Clinical Lab III

6.0 units

Prerequisite: VN 51; VN 52; VN 53;

VN 54

Corequisite: VN 55; VN 57; VN 58;

VN 60

306 hours lab

Application of various nursing skills in a clinical setting and experience in giving supervised nursing care, with increasing levels of independence, to selected patients in health care facilities including maternal and pediatric nursing. Total

clinical hours are 306. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. This course has been approved for hybrid and online delivery. This course has been approved for hybrid delivery and online delivery for emergency use only. If course is provided hybrid or online, per the board of nursing students must be displayed on camera throughout entire course.

VN 57 - Maternity Nursing

2.0 units

Prerequisite: VN 51; VN 52; VN 53;

VN 54

Corequisite: VN 55; VN 56; VN 58;

VN 60

34 hours lecture

Course includes human sexuality, conception, pregnancy, labor, delivery, postpartum and care of the newborn. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. This course has been approved for hybrid delivery and online delivery for emergency use only. If course is provided hybrid or online, per the board of nursing students must be displayed on camera throughout entire course.

VN 58 - Pediatric Nursing

2.0 units

Prerequisite: VN 51; VN 52; VN 53;

VN 54

Corequisite: VN 55; VN 56; VN 57;

VN 60

36 hours lecture

Study of the normal growth and development of the infant through the adolescent as well as common diseases affecting these groups and appropriate nursing care. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. This course has been approved for hybrid and online delivery. This course has been approved for hybrid delivery and online delivery for emergency use only. If course is provided hybrid or online, per the board of nursing

students must be displayed on camera throughout entire course.

VN 59 – Intravenous Therapy and Blood Withdrawal

2.0 units

Prerequisite: Successful completion of all Vocational Nursing courses or current LVN license in the state of California
31 hours lecture/9 hours lab
Designed for the Licensed Vocational Nurse student currently enrolled in the Licensed Vocational Nursing program to prepare for IV and Blood Withdrawal Certification through the Board of Vocational Nursing and Psychiatric Technicians. Students will demonstrate competency to the satisfaction of the BVNPT that they are properly trained and prepared to withdraw blood from a patient and start and superimpose intravenous fluids. Upon successful completion the student will be prepared to withdraw blood and start and superimpose intravenous fluids in an organized healthcare system. The student must complete 30 theory hours and 9 clinical hours and perform a minimum of 3 individually supervised successful venipunctures and 3 individually supervised skin punctures by each student on live human subjects. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. This course has been approved for hybrid delivery and online delivery for emergency use only. If course is provided hybrid or online, per the board of nursing students must be displayed on camera throughout entire course..

VN 60 –NCLEXVN Review

2.0 units

Prerequisite: VN 50; VN 51; VN 52; VN 53, VN 54
Corequisite: VN 55; VN 56, VN57, VN 58
30 hours lecture
Course designed to prepare the Licensed Vocational Nursing student for successful completion of the state board examination for licensure. Access to a computer with internet access is required. Students must complete all course hours and must achieve a 75% on their final class grade and must achieve a final exam grade of 75% or better to be eligible to remain in the nursing program. This course has been approved for hybrid delivery and online delivery for emergency use only. If

course is provided hybrid or online, per the board of nursing students must be displayed on camera throughout entire course

PHILOSOPHY

PHIL 1 - Introduction to Philosophy

3.0 units

CSU/UC

General Education Area C

CSU GE Area C2

IGETC Area 3B

Recommended Preparation: ENGL 1 or equivalent multiple measures placement
51 hours lecture

An introduction to the writings of the most noted philosophers of the Western world along with an examination of some of the main problems in philosophy, such as the nature of knowledge, ethics, philosophy of science, free will vs. determinism and the mind-body problem. This course has been approved for online delivery.

PHIL 10 - Comparative World

Religions

3.0 units

CSU/UC

General Education Area C

CSU GE Area C2

IGETC Area 3B

Recommended Preparation: ENGL 1 or equivalent multiple measures placement
51 hours lecture

This course introduces the learner to the profound ideas and practices of religions around the world - America, Africa, India, China and Japan. The history and 'world view' of each religion is examined, with readings from various religious texts. This course has been approved for online and correspondence delivery.

PHYSICAL EDUCATION

PE 15 - Introduction to Kinesiology

3.0 units

CSU/UC

CSU Area E2

General Education Area E2

C-ID KIN 100

Recommended Preparation: ENGL 105 or equivalent multiple measures placement.
51 hours lecture

This course will introduce students to the interdisciplinary approach to the study of human movement. Topics include employment fields, leadership, theory, history, and principles of sport, physical education and sub-disciplines in kinesiology. This course has been approved for online and hybrid delivery.

PHYSICAL EDUCATION ACTIVITIES COURSES

PEAC 2A - Men's Varsity Soccer

3.0 units

CSU/UC (Unit limitation)

General Education Area E2

170 hours lab (R)

Intercollegiate varsity soccer competition. Since skills/proficiencies are enhanced by supervised repetition and practice, This course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 2B – Pre-Season Skills and Conditioning for Soccer

0.5 units

CSU/UC (Unit limitation)

General Education Area E2

25.5 hours lab

Pre-season skill development and strategy tactics combined with fitness conditioning to prepare interested participants for intercollegiate varsity soccer competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 2C - Women's Varsity Soccer

3.0 units

CSU/UC (Unit limitation)

General Education Area E2

170 hours lab (R)

Intercollegiate varsity soccer competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 2D – Off-Season Skills and Conditioning for Soccer

1.5 units

CSU/UC (Unit limitation)

General Education Area E2

76 hours lab

Off-season skill development and strategy tactics combined with fitness conditioning to prepare interested participants for intercollegiate varsity soccer competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 5A - Men's Varsity Basketball-Fall

2.0 units

CSU/UC (Unit limitation)

General Education Area E2

110 hours lab (R)

Fall semester intercollegiate mens varsity basketball competition (1st half of season). Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year. This course has been approved for hybrid delivery.

PEAC 5A.02 - Men's Varsity Basketball-Spring

1.0 units

CSU/UC (Unit limitation)

General Education Area E2

60 hours lab (R)

Spring semester intercollegiate mens varsity basketball competition (second half of season). Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year. This course has been approved for hybrid delivery

PEAC 5B – Pre-Season Skills and Conditioning for Basketball

1.5 units

CSU/UC (Unit limitation)

General Education Area E2

76 hours lab

Pre-season skill development and strategy tactics combined with fitness conditioning to prepare interested participants for intercollegiate varsity basketball competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year. This course has been approved for online and hybrid delivery

PEAC 5C - Women's Varsity Basketball-Fall

2.0 units

CSU/UC (Unit limitation)

General Education Area E2

110 hours lab (R)

Fall semester intercollegiate Women's Varsity Basketball competition (first half of season). Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year. This course has been approved for online and hybrid delivery

PEAC 5C.02 - Women's Varsity Basketball-Spring

1.0 units

CSU/UC (Unit limitation)

General Education Area E2

60 hours lab (R)

Spring semester intercollegiate womens varsity basketball competition (second half of season). Since skills/proficiencies are enhanced by supervised repetition

and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 5D – Off-Season Skills and Conditioning for Basketball

1.0 units

CSU/UC (Unit limitation)

General Education Area E2

51 hours lab

Off-season skill development and strategy tactics combined with fitness conditioning to prepare interested participants for intercollegiate varsity basketball competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year. This course has been approved for hybrid delivery

PEAC 6 - Varsity Wrestling

3.0 units

CSU/UC (Unit limitation)

General Education Area E2

170 hours lab (R)

Intercollegiate Varsity Wrestling Competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 6B – Pre-Season Skills and Conditioning for Wrestling

0.5 units

CSU/UC (Unit limitation)

General Education Area E2

25.5 hours lab

Pre-season skill development and strategy tactics combined with fitness conditioning to prepare interested participants for intercollegiate varsity wrestling competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 6D – Off-Season Skills and Conditioning for Wrestling

1.5 units

CSU/UC (Unit limitation)

General Education Area E2

76 hours lab

Off-season skill development and strategy tactics combined with fitness conditioning to prepare interested participants for intercollegiate varsity wrestling competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year

PEAC 7 - Varsity Baseball

3.0 units

CSU/UC (Unit limitation)

General Education Area E2

170 hours lab (R)

Intercollegiate Varsity Baseball Team Competition. This course may be taken for a total of two enrollments. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year. This course has been approved for hybrid delivery

PEAC 7D – Off-Season Skills and Conditioning for Baseball

3.0 units

CSU/UC (Unit limitation)

General Education Area E2

175 hours lab

Off-season skill development and strategy tactics combined with fitness conditioning to prepare interested participants for intercollegiate varsity baseball competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year. This course has been approved for hybrid delivery

PEAC 9 - Women's Varsity Volleyball

3.0 units

CSU/UC (Unit limitation)

General Education Area E2

170 hours lab (R)

Intercollegiate Women's Varsity Volleyball Competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 9B – Pre-Season Skills and Conditioning for Volleyball

0.5 units

CSU/UC (Unit limitation)

General Education Area E2

25.5 hours lab

Pre-season skill development and strategy tactics combined with fitness conditioning to prepare interested participants for intercollegiate varsity volleyball competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 9D – Off-Season Skills and Conditioning for Volleyball

1.5 units

CSU/UC (Unit limitation)

General Education Area E2

76 hours lab

Off-season skill development and strategy

tactics combined with fitness conditioning to prepare interested participants for intercollegiate women's varsity volleyball competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 10 - Women's Varsity Softball

3.0 units

CSU/UC (Unit limitation)

General Education Area E2

170 hours lab (R)

Intercollegiate Women's Varsity Softball Competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 10D – Off-Season Skills and Conditioning for Softball

3.0 units

CSU/UC (Unit limitation)

General Education Area E2

175 hours lab

Off-season skill development and strategy tactics combined with fitness conditioning to prepare interested participants for intercollegiate women's varsity softball competition. Since skills/proficiencies are enhanced by supervised repetition and practice, this course is repeatable to a maximum of three enrollments but can only be taken once per year.

PEAC 16 – Walking For Fitness

1.0 unit

CSU/UC (Unit limitation)

General Education Area E2

51 hours lab

Students will participate in brisk walking program that will enhance their cardiovascular conditioning and endurance. This course has been approved for online, hybrid and correspondence delivery.

PEAC 32D - Fitness Center

1.0 unit

CSU/UC (Unit limitation)

General Education Area E2

51 hours lab

Instruction in and application of physical fitness principles. Students will engage in a physical conditioning program with an emphasis in body toning, flexibility, weight control, cardiovascular development and muscular strength and endurance using equipment in the fitness center. This course has been approved for online and hybrid delivery.

PEAC 34 - Golf Skills

1.0 unit

CSU/UC (Unit limitation)

General Education Area E2

51 hours lab

Development of sufficient proficiency in golf to recognize and enjoy the game as a lifetime activity; includes U.S.G.A. rules and etiquette and the fundamental mechanics involved in the use of irons and woods. Each student must purchase a 5-play card (45 total holes of golf) from Diamond Mountain Golf Club at the prevailing rate. The registration fee includes an unlimited number of range balls during the scheduled class times. This course has been approved for hybrid delivery for emergency use only.

PEAC 44 – Yoga

1.0 unit

CSU/UC (Unit limitation)

General Education Area E2

51 hours lab

Introduction to basic yoga postures. Study and practice of exercises for self-awareness, breathing, relaxation, visualization and meditation. This course has been approved for online and hybrid delivery.

PHYSICAL SCIENCE

PHSC 1 - General Physical Science

3.0 units

CSU/UC (unit limitation)

General Education Area A

CSU GE Area B1

IGETC Area 5A

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

51 hours lecture

A brief introduction to physics, chemistry, geology, and astronomy. Not intended for science majors. This course has been approved for online delivery.

PHYSICS

PHYS 2A – General College

Physics I

4.0 units

CSU/UC

General Education Area: A

CSU GE Areas B1 & B3

IGETC Area 5A & 5C

C-ID PHYS 105

Prerequisite: Math 7 OR MATH 60

Intermediate Algebra or equivalent

multiple measures placement and

concurrent enrollment in Math 7

Trigonometry

Recommended Preparation: ENG 105

or equivalent multiple measures

placement

51 hours lecture/51 hours lab

This course provides an introduction to the principles and applications of mechanics, using the mathematical tools of algebra and right triangle trigonometry. Topics include vectors, kinematics, Newton's laws, gravity, energy and momentum, mechanics of rigid bodies, heat, fluids and simple harmonic motion. This course has been approved for web-enhanced and online delivery. Access to a computer with internet access is required.

PHYS 2B - General College Physics II

4.0 units

CSU/UC

General Education Area A

CSU GE Areas B1, B3

IGETC Area 5A, 5C

C-ID PHYS 110

Prerequisite: PHYS 2A General Physics I

51 hours lecture/51 hours lab

This course is a continuation of PHYS 2A, covering mechanical waves (including sound), electricity, magnetism, geometric optics, interference and diffraction and elementary modern physics. This course has been approved for web-enhanced and online delivery. Access to a computer with internet access is required.

POLITICAL SCIENCE

PLSC 1 - American Institutions

3.0 units

CSU/UC

General Education Area B

CSU GE Areas D8

IGETC Area 4H

C-ID POLS 110

Recommended Preparation: ENGL105

or equivalent multiple measures

placement.

51 hours lecture

Designed to acquaint the individual with the basic principles of American national, state and local governments. Content will include the U.S. Constitution (origin and development), general functions and relationships of the three levels of government, political parties and electoral processes. This course may be used for partial fulfillment of the U.S. History and American Institutions requirement for graduation from four-year colleges. This course has been approved for hybrid, online, and correspondence delivery.

PLSC 11 - Student Leadership

1.0 unit

CSU

51 hours lab

Practical experience in group leadership situations involving parliamentary procedure, organization, goal setting, budgeting, and agenda setting. This course has been approved for hybrid delivery.

PSYCHOLOGY

PSY 1 - Introduction to Psychology

3.0 units

CSU/UC

General Education Areas B & E1

CSU GE Areas D9 & E

IGETC Area 4I

C-ID PSY 110

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

51 hours lecture

Psychology is the scientific study of behavior and mental processes. The content focuses on the exploration of major psychological theories and concepts, methods, and research findings in psychology. Topics include the biological bases of behavior, perception, cognition and consciousness, learning, memory, emotion, motivation, development, personality, social psychology, psychological disorders and therapeutic approaches, and applied psychology. This course has been approved for online, correspondence, and hybrid delivery.

PSY 5 – Intro to Research Methods

3.0 units

CSU/UC

General Education Area B

CSU GE Area D9

IGETC Area 4I

C-ID PSY 200

Prerequisite: PSY 1 Introduction to Psychology and MATH 40 Statistics.

51 hours lecture

This course surveys various psychological research methods with an emphasis on research design, experimental procedures, descriptive methods, instrumentation, and the collection, analysis, interpretation, and reporting of research data. Research design and methodology will be examined through a review of research in a variety of the sub disciplines of psychology. This course has been approved for online, hybrid and correspondence delivery.

PSY 6 – Abnormal Psychology

3.0 units

CSU/UC

General Education Area B

CSU GE Area D9

IGETC Area 4I

C-ID PSY 120

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

51 hours lecture

This course introduces the scientific study of psychopathology and atypical

behaviors, broadly defined. Students investigate abnormal behavior from a variety of perspectives including biological, psychological, and sociocultural approaches. An integrative survey of theory and research in abnormal behavior, and intervention and prevention strategies for psychological disorders are also introduced. This course has been approved for correspondence, online and hybrid delivery.

PSY 18 - Life Span Development

3.0 units CSU/UC

General Education Area E1

CSU GE Area D7 & E

IGETC Area 4 G & 4I

C-ID PSY 180

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

51 hours lecture

This course is designed to provide an overview of the physical, cognitive, social and emotional development from conception through the life-span. The emphasis will be on the practical application of developmental principles. This course has been approved for online and hybrid delivery.

PSY 31 - Child Development: Conception through Adolescence

3.0 units

CSU/UC

Associate Degree Area E1

CSU GE Area D7 & E

IGETC Area 4G & 4I

C-ID CDEV 100

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

51 hours lecture

This course examines the major physical, psychological, and cognitive/language developmental milestones for children, both typical and atypical, from conception through adolescence. Emphasis will be on interactions between the maturational process and environmental factors. Students will be expected to observe children, analyze characteristic of children at different developmental stages and investigate research methodologies. This course has been approved for online, hybrid and correspondence delivery.

PSY 33 - Psychology of Personal and Social Adjustment

3.0 units

CSU

General Education Area E1

CSU GE Area E

C-ID PSY 115

Recommended Preparation: ENGL105

or equivalent multiple measures

placement.

51 hours lecture

This course provides an introduction to theory, research, and practical application relevant to personal fulfillment, human relationships, and social functioning. Topics explored in this course include personality development, interpersonal relationships including intimate relationships, stress and stress management, traditional and changing gender roles, and adjusting to our ever changing modern society. This course has been approved for online, hybrid and correspondence delivery.

SOCIOLOGY

SOC 1 - Introduction to Sociology

3.0 units

CSU/UC

General Education Area B

CSU GE Area D

IGETC Area 4J

C-ID SOCI 110

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

51 hours lecture

Basic concepts of sociology are covered with an emphasis on culture, socialization, social norms, roles, groups, community and ecology, social institutions, social classes, social changes and social policy. This course has been approved for online, hybrid (on-line/traditional), and correspondence delivery. This course uses a free Open Educational Resource textbook

SOC 2 - Social Problems

3.0 units

CSU/UC

General Education Area B

CSU GE Area D

IGETC Area 4J

C-ID SOCI 115

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

51 hours lecture

Investigation and analysis of major social problems in the United States at the present time. This course has been approved for online, correspondence and hybrid delivery.

SOC 3 - Family Relations

3.0 units

CSU/UC

General Education Areas B & E1

CSU GE Area D & E

C-ID SOCI 130

Recommended Preparation: ENGL105

or equivalent multiple measures

placement.

51 hours lecture

Sociological analysis of the family, including historical and recent changes, present nature and the socio-cultural and economic forces shaping these changes. This course has been approved for hybrid, online and correspondence delivery.

SOC 4 - Introduction to Gender

3.0 units

CSU/UC

General Education Area B

CSU GE Area D4

IGETC Area 4D

C-ID SOCI 140

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

51 hours lecture

Sociological analysis of the social construction of masculinity and femininity historically and cross-culturally. It examines the debates on sex and gender. It analyzes the impact of economic and political change on gender expectations and practices. This course has been approved for hybrid, online and correspondence delivery.

SPANISH

SPAN 1 - First Course in Spanish

4.0 units

CSU/UC

General Education Area C

CSU GE Area C2

IGETC Area 6A

C-ID SPAN 100

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

58 hours lecture/34 hours lab

This introductory course teaches beginning language acquisition in a cultural context through listening, speaking, reading and writing. The students will interact with authentic language in cultural context.

SPAN 2 - Second Course in Spanish

4.0 units

CSU/UC

General Education Area C

CSU GE Area C2

IGETC Area 3B & 6A

Prerequisite: SPAN 1 First Course in Spanish

58 hours lecture/34 hours lab

A continuation of beginning Spanish in the study of the fundamentals of Spanish grammar with practice in pronunciation,

understanding, speaking, reading, and writing. A more in depth presentation of Hispanic culture, geography, and history is included.

SPEECH

SPCH 1 – Public Speaking

3.0 units

CSU/UC

General Education Area D2

CSU GE Area A1

IGETC Area 1C

C-ID COMM 110

Prerequisite: ENGL 1 College

Composition

51 hours lecture

Theory and techniques of public speaking in democratic society. Discovery, development, and criticism of ideas in public discourse through research, reasoning, organization, composition, presentation, and evaluation of various types of speeches including informative and persuasive speeches. This course has been approved for online and hybrid delivery. Students must have regular access to a computer with Internet and be able to navigate an online learning system. This course uses a free Open Educational Resource textbook. The course has also been approved for incarcerated correspondence delivery with speeches recorded in front of a live audience.

TUTORING

TUTR 50 - Fundamentals of Peer Tutoring

0.5 unit

Recommended Preparation: ENGL105

or equivalent multiple measures

placement.

8 hour lecture

This course is designed for peer tutors working in the college tutorial center. This course will focus on the practical skills necessary to function effectively as a peer tutor in the student's chosen areas of study. Students will participate in supervised tutoring in the College's Learning Center.

VOCATIONAL NURSING

See Nursing

WELDING TECHNOLOGY

WT 20 - Power Plant and Field Pipe Welding I

3.0 units

CSU

Recommended Preparation: ENGL105

or equivalent multiple measures placement.

17 hour lecture/102 hours lab (R)

This is the first of a four course sequence to prepare students in power plant and field welding. This course deals with shop safety, oxyacetylene cutting (OAC), air carbon arc cutting (CAC-A), shielded metal arc welding (SMAW) and pipe welding. Pipe coupons will be prepared and welded in the horizontal rolled (1G) position. American Welding Society (AWS) welding qualifications on plate and pipe will be prepared and completed. Repeatable as required for qualification by the American Welding Society (AWS) D1.1 Section 4. Period of Effectiveness. (Instructor Authorization Required for Course Repetition.) This course has been approved for hybrid delivery.

WT 21 - Power Plant and Field Pipe Welding II

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hour lecture/102 hours lab (R)

This is the second course of a four course sequence dealing with pipe welding, in the 2G and 5G positions, using the shielded metal arc welding (SMAW) process. Gas tungsten arc welding (GTAW) will be introduced to prepare the student for welding on pipe using the GTAW process. American Welding Society (AWS) welding-qualification will be prepared and completed on one inch plate in the 3G and 4G positions. Repeatable as required for qualification by the AWS D1.1 Section 4 Period of Effectiveness. (Instructor Authorization Required for Course Repetition.) This course has been approved for hybrid delivery.

WT 22 - Power Plant and Field Pipe Welding III

3.0 units

CSU

Recommended Preparation ENGL105

or equivalent multiple measures

placement.

17 hour lecture/102 hours lab (R)

This is a fundamental class dealing with pipe welding in the 6G position using the shielded metal arc welding (SMAW) process. Joint designs will be performed using the gas metal arc welding (GMAW), and the gas tungsten arc welding (GTAW) process in preparation for welding root passes on pipe. Welding symbols are presented and reviewed in order to enable students to interpret welding blueprints. This is the third of a four course sequence to prepare students for power plant and field pipe welding. American Welding Society (AWS)

qualifications in GTAW, GMAW, and flux core arc welding (FCAW) will be prepared and completed. Repeatable as required for qualification by the AWS D1.1 Section 4 Period of Effectiveness. (Instructor Authorization Required for Course Repetition.) This course has been approved for hybrid delivery.

WT 23 - Power Plant and Field Pipe Welding IV

3.0 units

CSU

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

17 hour lecture/102 hours lab (R)

This class deals with pipe welding in the 2G (vertical fixed), 5G (horizontal fixed), and 6G (45° fixed) positions using gas tungsten arc welding (GTAW) for the root pass and shielded metal arc welding (SMAW) for the fill and cover passes. American Welding Society (AWS) pipe qualifications will be prepared and completed in the 2G, 5G and 6G positions. Repeatable as required for qualifications by the American Welding Society D1.1 Section 4 Period of Effectiveness. (Instructor Authorization Required for Course Repetition.) This course has been approved for hybrid delivery.

WT 25 – SolidWorks Fundamentals

3.0 units

CSU

34 hour lecture/151 hours lab

This course is the first in a two part series using computer-aided-design (CAD) software. Part of our advanced manufacturing program, this course teaches students how to use SolidWorks and mechanical design automation software to build parametric models of parts and assemblies, and how to make drawings of those parts and assemblies.

WT 31 – GTAW for Gunsmiths

3.0 units

CSU

17 hour lecture/102 hours lab

This course is designed to develop the manipulative skills, technical knowledge and application of the tungsten arc welding (GTAW) process as they relate to firearm repair. The student will be required to provide their own tungsten welding electrodes for this course at a cost of approximately \$30.00. Must be accepted into the gunsmithing program prior to enrollment. This course has been approved for hybrid delivery.

WT 32 – Advanced GTAW for Gunsmiths

3.0 units

CSU

Recommended Preparation: Concurrent enrollment or credit for WT 31 or instructor approved work experience classes.

17 hour lecture/102 hours lab

This course is designed to provide an opportunity for the student to further their understanding in applying the specialized gas tungsten arc welding (GTAW) process to aluminum and stainless steel as it relates to firearm repair. Students will work on the design, function and repair of gunparts and related equipment using the GTAW process. The student will be required to provide their own tungsten welding electrodes for this course at a cost of approximately \$30.00. Must be accepted into the gunsmithing program prior to enrollment. This course has been approved for hybrid delivery.

WT 36 - Welding Theory and Practice – Oxyacetylene

1.0-3.0 units

CSU

153 hours lab (R)

This is an elective welding course where students will apply the oxyacetylene welding (OAW) and oxyacetylene cutting (OAC) processes to selected projects. This course may be taken for a total of three enrollments, not to exceed three units. This course has been approved for open entry/open exit.

WT 37 - Welding Theory and Practice-Shielded Metal Arc Welding

1.0-3.0 units

CSU

153 hours lab (R)

This is an elective welding course where the student will apply the shielded metal arc welding (SMAW) process to selected projects. This course has been approved for open entry/open exit. This course may be taken for three enrollments not to exceed three units, or as required to maintain welding qualifications per American Welding Society (AWS) D1.1 Section 4 Period of Effectiveness. (Instructor Authorization Required for Course Repetition.)

WT 38 - Welding Theory and Practice - Gas Metal Arc Welding

1.0-3.0 units

CSU

153 hours lab (R)

This is an elective welding course where students will apply the gas metal arc

welding (GMAW) process to selected projects. This course has been approved for open entry/open exit. This course may be taken as required for qualification by the American Welding Society D1.1, Section 4.1.3. (Instructor Authorization Required for Course Repetition.)

WT 39 - Welding Theory and Practice - Gas Tungsten Arc Welding

1.0-3.0 units

CSU

153 hours lab (R)

This is an elective welding course where students will apply the gas tungsten arc welding (GTAW) process to selected projects. This course has been approved for open entry/open exit. This course may be taken as required for qualification by the American Welding Society D1.1, Section 4.1.3. (Instructor Authorization Required for Course Repetition.)

WT 42 - Intermediate Shielded Metal Arc Welding

3.0 units

CSU

153 hours lab (R)

This is the second in a three course series of fundamental elective classes dealing with the shielded metal arc welding process (SMAW). Filler rods will be selected and applied to joint designs which meet industrial specifications. Repeatable as required for qualification by the American Welding Society D1.1, Section 4 Period of Effectiveness (Instructor Authorization Required for Course Repetition.)

WT 43 - Advanced Shielded Metal Arc Welding

3.0 units

CSU

153 hours lab (R)

This is the last in a three-course sequence of fundamental elective classes dealing with the shielded metal arc welding (SMAW) process. Specialized filler rods will be selected and applied to joint designs which meet industry standards. Repeatable as required for qualification by the American Welding Society (AWS) D1.1, Section 4 Period of Effectiveness. (Instructor Authorization Required for Course Repetition.)

WT 44 - Gas Metal Arc Welding

3.0 units

CSU

153 hours lab (R)

This course is designed as an elective class to develop the manipulative skills, technical knowledge and application of the gas metal arc welding (GMAW) spray transfer process and flux core arc welding with gas (FCAW-G). The processes will be applied to recognized joint designs on

ferrous materials. GMAW will also be explored in welding nonferrous materials (aluminum). Repeatable as required for qualification by the American Welding Society (AWS) D1.1, Section 4.1.3. (Instructor Authorization Required for Course Repetition.)

WT 45 - Gas Tungsten Arc Welding **3.0 units**

CSU

153 hours lab (R)

This is an elective course designed to develop the manipulative skill, technical knowledge and application of the gas tungsten arc welding (GTAW) process. The process will be applied to selected joint designs on ferrous and nonferrous materials. Repeatable as required for qualification by the American Welding Society D1.1, Section 4.1.3. (Instructor Authorization Required for Course Repetition.)

WT 49 - Welding Technology Work Experience

1.0-8.0 units

CSU

General Education Area E1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

75-600 hours lab (R)

This work based learning course is designed to assist students with educational or career goals in welding technology, who are working in the field of welding technology, to build related job specific skills through individualized learning objectives and enhance their workplace performance. All Work Experience enrollments require attendance of a face-to-face orientation session. Instruction is also provided through online course modules and emails throughout course term, work based learning with a participating supervisor, and meetings in office or at student worksite. Instruction focuses on goal setting to develop job specific skills, enhancement of soft skills in the workplace, and career development. Subsequent enrollments require new individualized learning objectives, and completion of new course module assignments. Units are awarded based upon achievement of approved learning objectives, workplace performance, submission of course assignments, and documentation of work hours. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Career Technical Education, Occupational and General Work Experience enrollments.

Title V specifies students will earn 1 unit of credit for each 75 hours of paid work, and 1 unit of credit for each 60 hours volunteer work. This course has been approved for Hybrid delivery

WT 50 – Welding for Artists (Design and Fabrication)

2.0 unit

Co-requisite: ART-50 Welding for Artists (History of Welded Sculpture)

102 hours lab (R)

Students will become proficient in the use of oxy-acetylene, arc/stick, TIG, and MIG welding techniques in addition to metal cutting tools found in a welding studio. Students will also become knowledgeable with stationary tools common to a welding shop such as: breaks, shears, bench grinders, hand grinders and drills. This class will focus on welding and metal fabrication as a fine art medium.

WT 51- Blueprint and Symbol Reading for Welders

2.0 units

34 hours lecture

This course is an introduction to blueprint and symbol interpretation practices commonly used in the welding and metal fabrication industries. This course will cover drawing types, symbols, views, dimensions and tolerances. This course will further develop the student's range of thinking required to assemble simple components and complex assemblies from welding prints. This course has been approved for online delivery.

WT 52 – Robotic Operations and Programming

3.0 units

17 hours lecture

102 hours lab

This course is the first in a two part series in robotics. The course will provide a student with the skills to safely setup, program, and operate a robot using basic software functions. This course has been approved for hybrid delivery.

WT 53 – Robotic Welding Operations and Programming (Advanced)

3.0 units

Prerequisite: WT 52 and WT 38 or concurrent enrollment in WT 38

17 hours lecture

102 hours lab

This course is the second in a two part series that expands on robotic programming. Emphasis will be on robotic welding and Arc Tool operations and programming. The course will also demonstrate the proper use of fixturing to secure weldments.

WORK EXPERIENCE

WE 1 - General Work Experience

1.0-8.0 units/ CSU

General Education Area E1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

75-600 hours lab (R)

This work based learning course is designed to assist students in developing job specific skills, enhancing soft skills in the workplace, exploring careers, and developing an understanding of how one's current job fits into the context of career development. All Work Experience enrollments require attendance of a face-to-face orientation Instruction is also provided through online course modules and emails throughout course term, work based learning with a participating supervisor, and meetings in office or at student worksite. Instruction focuses on goal setting to develop job specific skills, enhancement of soft skills in the workplace, and career development. Subsequent enrollments require new individualized learning objectives, and completion of new course module assignments. Units are awarded based upon achievement of approved learning objectives, workplace performance, submission of course assignments, and documentation of work hours. Enrollment in this course shall not exceed 6 units per term. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Vocational, Occupational and General Work Experience enrollments. Title V specifies students will earn 1 unit of credit for each 75 hours paid work, and 1 unit of credit for each 60 hours volunteer work. This course has been approved for Hybrid Delivery.

WE 2 - Occupational Work Experience

1.0-8.0 units

CSU

General Education Area E1

Recommended Preparation: ENGL105 or equivalent multiple measures placement.

75-600 hours lab (R)

This work based learning course is designed to assist students with educational or career goals related to a transfer major at another institution, who are working in a related position, to build related job specific skills through individualized learning objectives and

enhance their workplace performance. All Work Experience enrollments require attendance of a face-to-face orientation session. Instruction is also provided through online course modules and emails throughout course term, work based learning with a participating supervisor, and meetings in office or at student worksite. Instruction focuses on goal setting to develop job specific skills, enhancement of soft skills in the workplace, and career development. Subsequent enrollments require new individualized learning objectives, and completion of new course module assignments. Units are awarded based upon achievement of approved learning objectives, workplace performance, submission of course assignments, and documentation of work hours. Enrollment in this course shall not exceed six units. Enrollment in Work Experience courses is limited to a maximum of 16 units, including all Vocational, Occupational and General Work Experience enrollments. Title V specifies students will earn 1 unit of credit for each 75 hours paid work, and 1 unit of credit for each 60 hours volunteer work. This course has been approved for Hybrid Delivery.

NON-CREDIT COURSES

AUTOMOTIVE

AT 150 Automotive Maintenance **0.0 units**

17 hours lecture 34 hours lab
This course was designed to introduce shop procedure and safety to the student. The students will also acquire skills necessary to perform vehicle maintenance procedures such as change engine oil, transmission fluid, engine coolant and other fluids. Visual inspection of other automotive systems will also be covered. This course is design to provide entry level skills for employment. The course has been approved for Hybrid delivery.

AT 151 Automotive Chassis System **0.0 units**

17 hours lecture 34 hours lab
This course was designed to introduce shop procedure and safety to the student. Students will acquire the skills necessary to perform vehicle brake overhaul procedures and suspension alignment. Visual inspection procedures for brake, steering, and suspension systems will also be covered. This course is design to provide entry level skills for employment. The course has been approved for Hybrid delivery.

BASIC SKILLS

BS 156 - Practical Writing **0.0 unit**

36-50 hours
This course uses practical applications of writing to enable students to develop and improve their basic reading and writing skills in everyday situations and the workplace. Emphasis is placed on effective use of grammar that is clear and relevant in both academic and vocational tasks. While in the classroom they will learn, through lecture and writing exercises, the importance of workplace communication in written and electronic form. They will also be instructed in basic skills writing mechanics and critical thinking skills that will help them become more successful in college, career, and everyday life.

BS 170 Basic Skills: Pre High School Equivalency Preparation I **0.0 units**

68 hours lecture/68 hours lab
This course is designed for students who complete the basic skills pre-test in the five core curricular areas of language arts reading, language arts writing, science, social studies, and math. This course provides review and practice in these areas to provide the necessary basic skills foundation required in preparing for the high school equivalency test. Instruction is provided at designated reading and math levels to maximize student learning and to acquire the higher level thinking skills necessary to prepare for the high school equivalency test. This course may be repeated until student has demonstrated readiness for taking the high school equivalency tests in all five core curricular areas. This course has been approved for open entry/open exit. This course has been approved for online delivery.

BS 171 Basic Skills: Pre High School Equivalency Preparation II **0.0 units**

40 hours lab
This course is designed for students who complete the basic skills pre-test at the 10th grade level or higher in reading and math and who need additional review and practice before taking the test. The course provides short term, in depth instruction focused on content areas of the high school equivalency test, higher level thinking skills, test taking practice, and testing strategies needed to successfully pass the test. This course may be repeated until the High School Equivalency test is passed. This course has been approved for open entry/open exit.

CAREERS

CARS 151 - Career Life Skills **0.0 unit**

34 hours lecture (R)
This course is designed to aid the student to assess and develop the personal and workplace skills and behaviors needed to be an effective employee. Skills include positive self-esteem, decision-making, goal-setting, and stress management, among others. This course may be taken for a total of four enrollments.

CARS 153 - Career/Employment Strategies **0.0 unit**

34 hours lecture (R)
This course is designed to help the student develop the skills to locate the best employment opportunities, to write winning resumes and to successfully interview. The course also looks at students making realistic self-appraisal of values, interests and capacities and applying these toward the selection of a future career. This course may be taken for a total of four enrollments.

COMPUTER APPLICATIONS

CA 150 - Computer Skills for Senior Adults **0.0 unit**

8 hours lecture/24 hours lab (R)
This course is designed to provide the senior adults with an opportunity to familiarize themselves with various computer technologies. Subjects will include, but not be limited to, the Windows operating system, Windows applications (e.g. NotePad, Calculator, Paint, and WordPad), spreadsheets, the Internet, and E-mail. While the course is open to all ages and levels of expertise, it is geared toward the older adult who has little to no previous experience with the computer. This course may be taken for a total of four enrollments.

COMPUTER SCIENCE

CS 150-Technical Support Fundamentals **0.0 units**

30 hours lecture
This course is the first of a series that aims to prepare you for a role as an entry-level IT Support Specialist. In this course, you'll be introduced to the world of Information Technology, or IT. You'll learn about the different facets of Information Technology, like computer hardware, the Internet, computer software, troubleshooting, and customer service. This course covers a wide variety of

topics in IT that are designed to give you an overview of what's to come in this certificate program. This course has been approved for online and hybrid delivery.

CS 151-The Bits and Bytes of Computer Networking

0.0 units
30 hours lecture

This is the second of five courses that aims to prepare students for a role as an entry-level IT Support Professional. Once all five courses are completed students will be eligible for the IT Support Professional Certificate. This course provides a full overview of computer networking. Students will learn everything from the **fundamentals of modern networking technologies and protocols** to an overview of the cloud to practical applications and network troubleshooting. This course covers a wide variety of IT topics and can be taken as a standalone course and will give students entry level IT skills in Troubleshooting, Ipv4, the Network Model and Domain Name Systems (DNS). This course has been approved for online and hybrid delivery.

CS 152 Operating Systems and You: Becoming a Power User

0.0 units
30 hours lecture

This is the third of five courses that aims to prepare students for a role as an entry-level IT Support Professional. Once all five courses are completed students will be eligible for the IT Support Professional Certificate. In this course through a combination of video lectures, demonstrations, and hands-on practice - students will learn about the main components of an operating system and how to perform critical tasks like managing software and users, and configuring hardware. This course covers a wide variety of IT topics and can be taken as a standalone course and will give students entry level IT skills in Linux, Linux File Systems, PowerShell and Command Line Interface. This course has been approved for online and hybrid delivery.

CS 153-System Administration and IT Infrastructure Services

0.0 units
30 hours lecture

This is the fourth of five courses that aims to prepare students for a role as an entry-level IT Support Professional. Once all five courses are completed students will be eligible for the IT Support Professional Certificate. In this course, students learn about the infrastructure services that keep all organizations, big and small, up and running. Students will focus on cloud to understand everything from typical cloud infrastructure setups to how to manage

cloud resources. Students also learn how to manage and configure servers and how to use industry tools to manage computers, user information, and user productivity. Finally, students will learn how to recover your organization's IT infrastructure in the event of a disaster. This course covers a wide variety of IT topics and can be taken as a standalone course and will give students entry level IT skills in Directory Services, Backup and Lightweight Directory Access Protocol (LDAP). This course has been approved for online and hybrid delivery.

CS 154-IT Security: Defense against the digital dark arts

0.0 units
30 hours lecture

This is the fifth of five courses that aims to prepare students for a role as an entry-level IT Support Professional. Once all five courses are completed students will be eligible for the IT Support Professional Certificate. In this course, students are introduced to IT security concepts, tools, and best practices. It discusses the three As of information security: authentication, authorization, and accounting. It also covers network security solutions, ranging from firewalls to Wi-Fi encryption options. The course is rounded out by putting all these elements together into a multi-layered, in-depth security architecture, followed by recommendations on how to integrate a culture of security into an organization or team. This course has been approved for online and hybrid delivery.

COUNSELING & GUIDANCE

CG 150 - College Success Skills Workshop Series

0.0 unit

48 hours lecture (R)
By attending success skills workshops, students will develop strategies to improve college success. This course has been approved for online and hybrid delivery.

CG 155 - Study Strategies Lab

0.0 unit

90 hours lab (R)
This lab course is designed to provide students with study skills as well as course specific help in classes in which the student is experiencing difficulty. Student to student tutorial assistance, study strategies and instructor intervention will provide the student with the academic support to be successful in the classroom.

The second year students will be expected to expand on the skills learned in first year and implement opportunities to support first year students. This course may be taken for a total of four enrollments. This course has been approved for online and hybrid delivery.

CG 158 - New Student Orientation

0.0 unit

15 hours lecture
A workshop designed to assist new students in their transition to Lassen Community College. During orientation, new students are provided with opportunities to meet other students, faculty staff, participate in course placement testing, a campus tour, information about college programs and services, financial assistance, multiple measures, counseling and registration. This course has been approved for online delivery.

DEVELOPMENTAL STUDIES

DS 153 - Developmental Studies-Community Awareness I

0.0 unit

68 hours lecture (R)
For the non-reading, non-writing, and/or non-verbal student who wishes to explore their community and their place within it. This course may be taken as needed. This course has been approved for online and hybrid delivery.

DS 155 – Adaptive Aquatics for the Physically Limited

0.0 unit

24 hours lab (8 weeks) (R)
This course is designed to give adapted physical education students, including students with a need for rehabilitation and students with chronic medical diagnoses or permanent disabilities, an opportunity to improve strength, cardiovascular endurance, flexibility, balance, and/or gait through aquatic skills and movement. A \$40 fee will be charged at registration to cover the cost of aquatic facility usage.

DS 158 - Developmental Studies – Adaptive Arts & Crafts

0.0 unit

68 hours lab (R)
This course is designed for students with developmental disabilities or senior citizens with disabilities to increase skill development in a broad range of arts and crafts techniques. The focus will be on completion of arts and crafts projects

using a variety of methods and materials based on individual needs, skills, and abilities. This course may be taken as needed. The students will construct a take home craft project at \$1.50 per project per week plus additional consumable materials for each project (glue, glue sticks, paints, gems, etc.) at a value of \$4.50 per student for the 17 week semester. An additional fee of \$30.00 will be charged at time of registration to cover the cost of materials. This course has been approved for online and hybrid delivery.

ENGLISH

ENGL 150 - ESL Basic Skills

0.0 unit

34 hours lecture/51 hours lab (R)
This skills development course is for the ESL/foreign student will provide, through a combination of lecture and lab, individualized instruction in the acquisition of basic language skills, including reading comprehension, vocabulary development, oral and written expression, and critical thinking. This course may be taken for a total of four enrollments.

ENGL 151 - ESL Intermediate Skills

0.0 unit

Prerequisite: ENGL 150 ESL Basic Skills.

34 hours lecture/51 hours lab
This noncredit course reinforces and expands non-native English speakers' literacy and speaking skills from basic level to an intermediate level. Students will engage in collaborative activities that integrate reading, writing, speaking, and listening. New vocabulary will be stressed and basic grammar introduced in context. All instruction is conducted in English and emphasis is on developing language which will enable students to become successful workers in the U.S. job market. This course may be taken for a total of four enrollments.

ENGL 155 - English Writing Lab – Basic Skills

0.0 unit

68 hours lab (R)

This lab course is designed to provide

students with general study skills as well as course specific help in the Basic English and Writing courses (ENGL 103 and ENGL 102). Student to student tutorial assistance, study strategies and instructor intervention will provide the student with the academic support to be successful in the classroom. This course may be taken for a total of four enrollments. This course has been approved for online, hybrid and correspondence delivery.

ENGLISH AS A SECOND LANGUAGE

ESL 155 - Citizenship Test Preparation

0.0 unit

18 hours lecture/36 hours lab (9 weeks) (R)

This course is a developmental course for ESL/foreign students, which may be repeated as often as needed until naturalization is attained. A combination of lecture, lab, class discussion, workbook assignments, computer programs, videos and individualized instruction will present concepts related to US history and civic responsibilities. The student will practice language skills essential to obtaining and completing the INS application and practice the written and oral naturalization test. This course may be taken for a total of three enrollments.

FIRE TECHNOLOGY

FS 156 - Pump Operations

0.0 unit

16 hours lab (1 week) (R)

This course provides the student with the information, theory, methods, and techniques for operating fire service pumps. (Course Certified by the California State Fire Marshal.) This course may be taken for a total of four enrollments.

MATHEMATICS

MATH 164 – Elementary Statistics Lab

0.0 units

Co-requisite: MATH 40 Elementary Statistics.

51 hours Lab

The purpose of this course is to help Math 40 students with math deficiencies which impede their successes in the course. Students will learn how to use technologies to solve problems related to course work, develop skills to solve word problems, strengthen their weaknesses related to topics in algebra and learn good study habits. This course has been approved for online, hybrid and correspondence delivery.

MATH 167 – Trigonometry Lab

0.0 units

Co-requisite: MATH 7 Trigonometry.

51 hours Lab

This course is to assist students in their successful completion of college level Trigonometry. Students will study numerical, graphical, and analytical properties of trigonometric functions, oblique triangles, inverse functions, and applications as well as the algebraic properties required for these topics. This course uses the text required in MATH 7 and additional materials supplied by the instructor. This course has been approved for online and hybrid delivery.

MATH 168 – College Algebra Lab

0.0 units

Co-requisite: MATH 8 Advanced Algebra.

51 hours Lab

This course is to assist students in their successful completion of College Algebra. Students will study the general theory of equations, polynomial and rational inequalities, conic sections, exponents and logarithms; sequences, series, matrices and their applications. This course uses the text required in MATH 8 and additional materials supplied by the instructor. This course has been approved for online and hybrid delivery.

Administration

Dr. Trevor Albertson

Interim Superintendent/President

Ph.D. World Cultures & History, University of California, Merced

M.A. International Affairs, Catholic University of America

Carie Camacho

Interim Dean of Instructional Services

M.S., School Counseling, University of Laverne

B.A., Sociology, California State University, Chico

Roxanna Haynes

Interim Dean of Instructional Services

DISTANCE LEARNING

Lassen College (/Pages/Home.aspx) » Academics (/academics/Pages/default.aspx) » Distance Learning

Distance Learning at LCC!

Lassen Community College offers a growing number of distance courses, delivered via correspondence or the internet. These classes can be a great option for anyone with a busy schedule such as a full-time job, children at home, or just transportation constraints! To be successful in these courses it's critical for you to understand the importance of time management and independent study skills prior to enrollment.

Online Courses

Lassen College use Canvas by Instructure for all online courses. When you enroll in an online course your account in Canvas will automatically be created and your online classes will be available to you at the appropriate time. The Lassen College Canvas site can be found at <https://lassencollege.instructure.com> (<https://lassencollege.instructure.com/>)

Correspondence Courses

Course packets for students enrolled in Correspondence courses are mailed prior to the term start date. For this reason, please assure the Admissions and Records Office has your current address and contact information.

Lassen Community College

Incarcerated Student Orientation

Hi, and welcome to Lassen Community College. We're so glad that you're choosing to pursue higher education with us. This orientation is meant to help you understand the entire process as an incarcerated student. The more you understand, the more successful you will be. You may even want to get some paper and pencil and take some notes for later. Let's get started.

Assessment

Lassen College has undergone a few changes to benefit you, the student. One change is that we no longer require a placement test to determine your Math and English class. You, the student, now have the option to choose the Math and English course that best fits your needs, preparation and the degree you are working toward. Please refer to AB 705 letter for additional information. Please read the success considerations and the descriptions to determine which course is best for you. If you have any questions please contact us at Lassen College Correspondence Office, P.O. Box 3000 Susanville, CA 96130 or 530-251-8875.

Admission and Records

If you previously attended any other colleges, please request official transcripts to be sent to LCC prior to registration. It is important to note that official transcripts must be in a sealed envelope straight from your previous institution. This will ensure classes are not repeated and you receive an accurate educational plan. You may also be exempt from the Writing or Math placement if you have passed English or Math classes at another college or university. Be advised, DSPS/ EOPS/ and Veteran students receive priority registration.

Financial Aid

All students are required to pay enrollment fees at the time of registration unless you are a California resident and qualify for the California College Promise Grant CCPG (Formally known as the Board of Governors Fee Waiver, BOG). It is extremely important to be aware that in order to continue receiving the CCPG, students must complete at least 50% of units attempted with a "C" Grade Point Average or better. With this new rule, even withdrawing from a course would count against you. An appeal process will be available for students who have extenuating circumstances. Unfortunately, due to the limited eligibility for an incarcerated student, Federal Student Aid is not available. Lastly, you will also be responsible for purchasing or renting your textbooks. This can be done by having a family member or friend contact the LCC Bookstore. Unfortunately, the LCC Bookstore does not rent out books.

Counseling

We have a counselor here to assist you. The counselor are able to answer all questions you may have regarding your education plan, dropping or adding courses, petitioning to repeat a course, career exploration or transferring to a university. Be advised, some courses change due to availability. Be sure to complete all contents of the enrollment packet and return to the correspondence office at your earliest convenience. Please make sure to direct all communication through our correspondence office, and they will be able to direct it to the appropriate parties. We will do our best to answer you in a timely manner.

Degree and Program

We offer a comprehensive Associate of Arts Degree with an emphasis in Social Science. When you let us know that you are interested in our program, our correspondence office will send you a sample education plan. The degree requires at least 60 degree applicable units with a minimum GPA of 2.0 and a grade of “C” or better in each core course. Social Science courses emphasize the study of human social, political, and economic institutions and behaviors. Students will examine problems and issues in these areas in their contemporary as well as historical setting.

This may get a little confusing but let us try to break it down for you. Students are required to complete 6 core courses, 8 free elective courses with no more than 6 units from any one discipline. For example, you can’t count more than two history classes in the free elective section. Next, you will have to complete at least one natural science course, one social science course, one humanities course, English 1, Intermediate Algebra, and one health and activities course. Once you successfully complete all of these courses you will have your degree!

Academic Success

It is important to us that you are successful and we realize that in order to help with that goal, we need to give you some pertinent information. For example, what does a unit even mean? A unit or credit, we use them interchangeably, signifies time. One unit means one hour per week. So a three unit class means that you would have that class for three hours per week. It is recommended that you study a minimum of two hours per class unit. So, if you’re scheduled for six units, you can expect to study twelve hours per week.

Next, there are some important dates to remember such as when to register each semester, when to drop a course without a Withdraw of “W” showing up on your transcript, and the last day to

withdraw from a course. These important dates are included in your instruction packet for each course you register for.

Student Conduct

This seems to be an area that there are a lot of questions, so please pay attention.

Academic Dishonesty

Dishonesty, such as cheating, plagiarism, or knowingly furnishing false information to the college could be subject to discipline.

Academic Probation

A student who has attempted at least 12 units will be placed on probation if the student has earned 2.0 GPA (C average) or less. So that you better understand, an F=0.0 GPA, a D=1.0, C=2.0, B= 3.0 and an A=4.0. It is important to remember that your GPA significantly affect your CCPG, California College Promise Grant.

Progress Probation

A student who has enrolled in at least 12 units will be placed on progress probation when they are not passing at least half of their classes. Grades that they may see on their transcript showing that they are not passing may be “W”, “I”, “NP” or “F”.

Academic and Progress Dismissal

A student who is on academic probation will be subject to dismissal if the student earned a cumulative grade point average of less than 2.0 (C average) for three consecutive semesters. If this happens, students will have to petition the Dean of Student Services to be reinstated and will have to take one semester off, either fall, spring or summer.

Repeatability

Students may attempt any course up to two times. If unsuccessful after the second attempt, they must petition the dean of student services to retake the course. Examples of an unsuccessful attempt are receiving a “W”, “I”, “NP”, or “F”. For English and Math an unsuccessful attempt includes a D. If they are unsuccessful a third time, they cannot take the course at LCC. Petitions to repeat can be obtained by the correspondence office.

FERPA

All student record at LCC are kept in accordance with the provisions of the Family Education Rights and Privacy Act Of 1974. Students may request access to those records which personally identify them. Student consent is needed for the release of records covered by the act to outside parties. We will not disclose your information unless we have a signed consent form. Release of information forms can be obtained by the correspondence office.

Petitioning to Graduate

Once you are close to graduation, we require you to fill out a petition to graduate. We recommend completing the petition at least 6 months before you complete the degree. Please understand that once you graduate, the process of receiving your diploma will take time. The petition to graduate can be obtained by the correspondence office. Please review the catalog to check for academic calendar, description of programs, support services, financial aid and other pertinent information which could assist you throughout your academic enrollment.

Conclusion

Once again, welcome to LCC, we thank you for choosing to study with us. We hope this orientation was beneficial for you. Remember, if you have any questions or concerns; please direct all communication through our correspondence department. We wish you all the best in your academic endeavors!

COUNSELING

Lassen College (/Pages/Home.aspx) » Student Services (/student-services/Pages/default.aspx) » Counseling

Academic Counseling

LIMITED IN-PERSON OFFICE HOURS AVAILABLE MON, WED & THURS - 9am to 4pm

Counselors are available in-person in the Welcome Center to assist students with class selection and registration - Mon, Wed, Thurs 9am to 4pm. They are also available via phone calls and emails. Current students can email their counselor directly. If you don't know your counselor's email or who your counselor is, please email: lccounseling@lassencollege.edu or call (530) 251-8842. Brand new or returning students should complete the New Student steps first (see info below). Email lccounseling@lassencollege.edu when completed or if you have questions or need help.

Welcome to the Lassen College Counseling Office! Our academic counselors are available to assist students with course selection, evaluating transcripts, developing vocational and educational plans, and identifying and solving problems which may interfere with academic progress.

COUNSELING SERVICES

- Assistance with choosing a major

- Help with course selection - adding and dropping classes
- Creating an Education Plan
- Assistance with accessing academic support services

OFFICE HOURS - We are currently meeting students in the Welcome Center - Mon, Wed, Thurs 9am to 4pm.

Counselors are available for **walk-in** visits **8:00am - 4:00pm** Mon - Fri. Comprehensive Education Plans require an appointment. The Counseling Office is located in the Student Services Building.

NEW STUDENTS

All the information on how to become a student is on our NEW STUDENTS (/new-students/Pages/default.aspx) page. When meeting with a counselor, please bring any transcripts or testing scores you have, so course placement can be determined.

Bring to Counseling:

- High school transcripts and/or transcripts from any other college you have attended (unofficial is okay)
- SAT, ACT, AP, CLEP or EAP test scores

STUDENTS TRANSFERRING FROM ANOTHER COLLEGE

In order to have your coursework from another college evaluated, please have OFFICIAL transcripts sent to: Lassen College, Attn: Admissions & Records, P.O. Box 3000, Susanville, CA 96130. Then complete and return the Transcript Evaluation Request.  Transcript Eval Request form.pdf (/student-services/counseling/Documents/Transcript%20Eval%20Request%20form.pdf)

DEGREES AND CERTIFICATES OFFERED AT LASSEN

Choosing a degree or certificate can be difficult. Take a Career, Interest and Skills survey at the **Career & Transfer Center**. This survey can help you determine the right career or major for you. Bring the results when you meet with your counselor. This list of our DEGREES & CERTIFICATES (/student-services/counseling/Documents/DEGREES%20offered%20at%20LCC.pdf) will get you started. You can also pick up curriculum guides for every degree/certificate we offer from the racks outside the Counseling Office.

CURRENT STUDENTS

It's best to meet with your counselor at least once every semester, and more often if you are having academic or personal concerns. Be sure to make an appointment for a comprehensive Education Plan during your 2nd semester.

More Information and FREQUENTLY ASKED QUESTIONS (</student-services/counseling/Pages/Counseling-Office-FAQ.aspx>)

EDUCATION PLANS

- An Education Plan is a semester by semester guide to ensure you are taking all the classes you need to complete your degree or certificate.
- An Ed Plan prevents you from taking classes you don't need - saving you time and money.
- A comprehensive Ed Plan should be completed by your second semester at Lassen College.
- Appointments for Ed Plans are made in Sept/Oct (Fall Semester) and Feb/March (Spring Semester)

Student Success And Support Program

SSSP Overview

The important steps are as follows:

- **Admissions:** If you are taking this orientation, then you have already completed this step!
- **Orientation:** The purpose of this orientation is to provide you with useful information concerning college programs, services, and student rights and responsibilities.
- **Assessment:** We no longer require an assessment test to place students. Placement is based on Multiple Measures such as High School GPA, SAT/ACT test scores, and a comprehensive conversation about the students' ability and determination.
- **Counseling:** The Counseling Office provides services to help you define and achieve your academic, career, and personal goals. Transcripts from high school, other colleges or the military as well as SAT or ACT scores can be helpful for course placement. You may be able to receive course credit for AP or CLEP test scores. Please bring them to counseling. To have OFFICIAL transcripts evaluated, complete the [Transcript Evaluation Request form](#).
- **Registration:** Once you complete all the previous steps, you will be able to register for classes. You can do this online or in person at Admissions and Records.

Tuesday, February 11, 2020
Academic Senate Meeting February 11, 3:00 p.m. HU 204

3:00PM in HU-204

1. Meeting Opening

- 1.01 Roll Call
- 1.02 Approval of Agenda
- 1.03 Approval of Minutes

2. Public Comment

3. Action

- 3.01 Senate Charge

4. Discussion

- 4.01 Program Discontinuance/Revitalization

5. Information

6. Reports

- 6.01 Administration
- 6.02 Senators
- 6.03 LCFA
- 6.04 Guided Pathways

7. Closed Session

- 7.01 Consideration of Faculty Minimum Qualifications and Equivalency

8. Meeting Closing

- 8.01 Adjournment

9. Future Agenda Items

10. Future Meeting Dates

- 10.01 Future Meeting Dates

Academic Senate Meeting February 11, 2020, Room HU 204

1. Call to Order at 3:00pm

1.01 Roll Call

Senators Present: Downing, Gardiner, Runyan

1.02 Approval of Agenda

Approval of the agenda, with a request by Senator Gardiner to reorder agenda and to move item 7, Closed Session, to beginning of agenda.

(Gardiner, Downing MSCU)

7. Closed Session

Entered closed session at 3:01pm – Ended closed session at 3:08pm;

Downing/Gardiner/Runyan present.

7.01 Consideration of Faculty Minimum Qualifications and Equivalency

Action: Fire Science Instructor Equivalency

(Downing/Runyan MSCU) – Equivalency approved.

Open Session Resumes – 3:08pm

Senators Present: Downing, Gardiner, Runyan

Guests Present: Sue Kelley

Report Action out of Closed Session:

Fire Science Instructor equivalency approved

1.03 Approval of Minutes

Approval of minutes with minor typographical error identified for correction.

(Downing/Gardiner MSCU)

2. Public Comment

None

3. Action

3.01 Senate Charge

Governance Handbook is under review and it is anticipated the Main Governing Board will have on their agenda March 10, 2020. Senate Members reviewed the Academic Senate Charge.

3:11pm: Senator Baker arrives.

Motion to approve current Senate Charge with no changes.

(Gardiner/Downing MSCU)

4. Discussion

4.01 Program Discontinuance/Revitalization

Senate President Runyan provided a draft of AP 4021 Program Viability and Discontinuance for discussion. Discussion ensued. Gardiner suggested that data accuracy and timeliness would need to be

a required and key element of the plan. It was agreed that the Senators would review and comment on the draft document to President Runyan. Item set for adding as action item at next meeting.

3:23pm: Carie Camacho, Acting Dean of Instruction, arrived and participated in this discussion, stating this AP is something that is overdue and needs to be addressed. She thanked the senate members for their efforts.

5. Information

None

6. Reports

6.01 Administration

Dean Camacho advised that Dean Haynes continues to work with Lassen High School (LHS) on bringing LHS students to campus for classes. Dean Haynes is also continuing her efforts with the strong workforce grant to establish additional instructional space.

6.02 Senators

None

6.03 LCFA

None

6.04 Guided Pathways

None

8. Meeting Closing

8.01 Adjournment – 3:44pm
(Downing/Baker MSCU)

Respectfully Submitted,
T. Downing

Tuesday, February 25, 2020
Academic Senate Meeting February 25, 3:00 p.m. HU 204

3:00PM in HU-204

1. Meeting Opening

- 1.01 Roll Call
- 1.02 Approval of Agenda
- 1.03 Approval of Minutes

2. Public Comment

3. Action

- 3.01 AP 4021 Program Viability and Discontinuance
- 3.02 Approve AJ 53, FS 92A, FS 92B, FS92C, and FS 92E and forward to the Board

4. Discussion

5. Information

- 5.01 Faculty Leadership Institute
- 5.02 Article 24.4 Adjunct Evaluation MOU and Contract Language

6. Reports

- 6.01 Administration
- 6.02 Senators
- 6.03 LCFA
- 6.04 Guided Pathways

7. Closed Session

- 7.01 Consideration of Faculty Minimum Qualifications and Equivalency
- 7.02 Faculty evaluation recommendations

8. Meeting Closing

- 8.01 Adjournment

9. Future Agenda Items

10. Future Meeting Dates

- 10.01 Future Meeting Dates

Academic Senate Meeting February 25, 2020, Room HU 204

1. Call to Order at 3:00pm

1.01 Roll Call

Senators Present: Baker, Downing, Gardiner, Runyan

Guests: Sue Kelley, Andy Rupley, Jim Uptegrove

1.02 Approval of Agenda

Motion to approve with removal of item 7.01

(Baker/Gardiner MSCU)

1.03 Approval of Minutes

(Baker/Gardiner MSCU)

2. Public Comment

None

3. Action

3.01 AP 4021 Program Viability and Discontinuance

Alison Somerville provided the following comments/questions through President Runyan: 1) There should be a comment on the purpose of the IPR regarding honest evaluation of the program. 2) Will this be a subcommittee of the Academic Senate? 3) Will the discontinuance directive be in the manner of a form or the minutes of the committee?

Andy Rupley suggested the AP be renamed "Revitalization or Discontinuance".

After robust discussion by senators and guests, language changes to include noting this AP applies to programs, as a whole, and not individual classes, certificates, or degrees; IPR language; revitalization oversight; and Alison Somerville's questions were added to the document.

Motion to table vote to next meeting pending opportunity for faculty, staff, and administration to review changes

(Downing/Baker MSCU). Runyan will distribute updated draft document.

3.02 Approve AJ 53, FS 92A, FS 92B, FS92C, and FS 92E and forward to the Board

(Gardiner/Downing MSCU)

4. Discussion

None

5. Information

5.01 Faculty Leadership Institute

2020 Faculty Leadership Institute will be Thursday, June 18, 2020 - Saturday, June 20, 2020 in Newport Beach, CA. If interested in attending let President Runyan know.

5.02 Article 24.4 Adjunct Evaluation MOU and Contract Language change.

Evaluation frequency for Adjunct Faculty has been changed to yearly for the first three years and once every three years thereafter.

6. Reports

6.01 Administration

None

6.02 Senators

Gardiner – Next senate meeting March 10, 2020 we will have our campus site visit team in meeting with us as part of accreditation.

Runyan – Scale of Adoption workshops coming out soon. More information to come.

6.03 LCFA

None

6.04 Guided Pathways

None

7. Closed Session: Started at 4:02pm: Ended at 4:10

Baker, Downing, Gardiner, Runyan present.

7.02 Faculty evaluation recommendations

Motion to table action awaiting documentation from Human Resources.

(Downing/Baker MSCU)

Report out of Closed Session – No Action

8. Meeting Closing

8.01 Adjournment – 4:12pm

(Gardiner/Baker MSCU)

Respectfully Submitted,

T. Downing

Academic Senate Meeting March 10, 2020, Room HU 204

1. Call to Order at 3:00pm

1.01 Roll Call

Senators Present: Baker, Downing, Gardiner, Runyan

Guests: Carie Camacho, Chad Lewis, Sue Kelley, Andy Rupley,

1.02 Approval of Agenda

(Baker/Gardiner MSCU)

1.03 Approval of Minutes

February 25, 2020 regular meeting minutes

(Baker/Gardiner MSCU)

March 3, 2020 special meeting minutes

(Baker/Gardiner MSCU)

2. Public Comment

None

3. Action

3.01 AP 4021 Program Revitalization or Discontinuance Policy

After sending draft version to all LCC staff, Senate President Runyan received four responses. Those responses were from Noelle Eckley, Cindy Howe, Andy Rupley, and Amanda Wattenburg. Comments were considered for inclusion into the draft document. Upon revision of the policy, motion to approve with revisions.

(Downing/Baker MSCU)

3.02 AP 4226-1 Multiple and Overlapping Enrollments

Davis Murphy requested update to form to facility more clarity for the Admissions and Records Office. Form provided and discussed.

(Gardiner/Baker MSCU)

3.03 IPR Mentor Assignment

With changes in Academic Senate members, item was brought to discuss changing mentors for IPR's. Discussed waiting until next academic year and after new election of senators. Senator Gardiner suggested the senate look at revising the IPR handbook to include a mentor checklist for feedback.

Motion to table – (Downing/Baker MSCU)

4. Discussion

4.01 Curriculum Handbook

Discussed newly updated handbook by the Curriculum Committee. It was agreed that the handbook should be also approved by the senate. Handbook approval will be added to action agenda for the next meeting.

4.02 Business IPR

First review of Business IPR for 2016-2019. Andy Rupley discussed the IPR and its findings, requesting all senators to review and provide feedback prior to approval. Rupley shared his concerns with the lack of disaggregated data he needed to make some clearer findings specifically related to the prison program. Item will be on for action at next senate meeting.

4.03 AP 4100

Senate President Runyan shared that the catalog rights section of this AP were accidentally removed at some point, and needed to be included. Agreed to bring AP back at next meeting for action.

5. Information

None

6. Reports

6.01 Administration

None

6.02 Senators

None

6.03 LCFA

Andy Rupley advised that LCFA and the District have agreed to 9 tentative agreements (TA's) related to the contract. They are still pending the signatory process, but we should see them completed hopefully soon. LCFA and the District meet again this Friday, 3/13/2020.

6.04 Guided Pathways

Meta-Majors is a continuing discussion, and being worked on. It is currently in Curriculum Committee for discussion.

7. Closed Session : Started at 4:00pm: Ended at 4:18

Baker, Downing, Gardiner, Runyan present.

7.01 Consideration of Faculty Minimum Qualifications and Equivalency

Biology Equivalency

Report out of closed session - No action to report

8.01 Adjournment – 4:19pm

(Gardiner/Baker MSCU)

Respectfully Submitted,

T. Downing

Lassen Community College

AP 4021 Program Revitalization or Discontinuance

References:

Education Code Section 78016;
Title 5 Sections 51022 and 55130
ACCJC Accreditation Standard II.A.15

Lassen Community College is committed to supporting programs and classes that fulfill the goals of the Mission Statement as these are elaborated in the Educational Master Plan. Following Title 5, section 55000, "Program" is herein defined as an organized sequence of courses leading to a defined objective, e.g., a degree, a certificate, a diploma, a license or transfer to another institution of higher education. As this applies to LCC, a program is defined as a whole and not individual degrees, certificates, or courses within the program as detailed in the LCC course catalog. Only programs with low or declining enrollment, decreasing demand for service or clear obsolescence shall be considered for discontinuance. For a program's discontinuance, primary consideration will be given to the service the program provides to the college and the community. Budget considerations should not be the primary consideration.

- A. A Program may be considered for discontinuance only if one or more of the following criteria are fulfilled:
- 1) The goals and objectives of the Program are no longer appropriate to the Mission of California Community Colleges, LCC's mission or Educational Master Plan, and/or congruent with the institutional Strategic Plan of the District.
 - 2) The Program curriculum no longer aligns with university transfer majors or, General Education requirements of the Program no longer meet industry needs and lack demand in the current job market and the Program's field is not considered an emerging industry or career path.
 - 3) The Program does not meet curriculum standards as defined by Title 5 section 55100.
 - 4) There are insufficient resources to realistically support the Program at a sufficient level of quality and the Program has experienced either consistent low enrollment (an average of 50% or more below maximum seat load capacity for courses in the Program over three or four offerings) or statistically significant declining Program persistence and completion rates over the course of three or four offerings, as evidenced by reliable, longitudinal data.
 - 5) The Program has been determined to be out of compliance with existing state or federal laws, i.e., Title 5, section 55130(d), or licensing laws in particular occupations.
 - 6) There is universal agreement among faculty in a Program that it be merged with or replaced by another related Program.

When a specific Program fulfills one or more of these criteria, the faculty in the Program, college administration, or college Curriculum Committee will contact the Department Chair directly supervising the Program and convene a Program Revitalization/Discontinuance Task Force.

- B. A Program Revitalization/Discontinuance Task Force will consist of the following voting members as well as one non-voting member:
1. At least one faculty member that teaches in the Program, or if they are not available, if necessary, the faculty from a closely related field, as selected by a faculty member who teaches in the Program.
 2. The Department Chair overseeing the Program.
 3. The Dean of Instruction supervising the Program.
 4. A representative from the office of Institutional Effectiveness.
 5. The Articulation Officer or designee from Counseling who does not teach in the Program.
 6. A representative of the Academic Senate who does not teach in the Program.
 7. The chair of the Curriculum Committee or designee who does not teach in the Program.
 8. The Vice President of Academic Services, or designee, shall chair the Task Force as a non-voting member but may vote in the case of a tie.

The Task Force will inform the college community that the Program is being considered for revitalization/discontinuance after several factors are considered using a holistic approach.

In the spirit of good intentions and future enrollment management and planning, the Task Force, a subcommittee of Senate, will consider several factors in making its determination. Possible areas of inquiry include:

- Needs of the community;
- Needs of the department as the particular class fits in as part of a program;
- Workforce development;
- Currency and accuracy of Program Review;
- Quantitative and Qualitative data;
- Core indicators from Chancellor's Office;
- Local labor market information through EDD (Employment Development Department) and or employer Program Advisory Committees and surveys; North-Far-North Consortium, Centers of Excellence;
- Reputation and skills of program and/or staff;
- FTES generated by program;
- Other funding sources, such as grants or contributions from business and industry;
- Percentage of faculty who have updated skills (staff development, industry externships, conferences, courses, etc.) documented within past three years;
- Special leadership, integration or cross discipline projects in which the program is involved;
- Possibility of merging or replacing Program with a related Program;
- Feedback from the Advisory Board from the affected CTE program.

A public comment session will be called, followed by a closed Task Force meeting in order to decide on one of three directives (see below).

- C. The Program Revitalization/Discontinuance Task Force will give one of the following directives to the college Curriculum Committee in writing:
1. Directive A – Program Continuance: The Program is accepted in its current state.
 2. Directive B – Revitalization Effort: The Task Force will assist Program faculty and other involved parties in developing a process/plan and associated time table to revitalize the Program. Resources will be allocated as necessary; in order to improve Program enrollment, retention, completion and other measures of Program success. Some areas to be considered are: in-depth revision of the Program courses, upgrading of facilities, and offering of workshops to provide re-training, changes in methodology, approaches to teaching, etc. Other considerations will involve Student Support Services, which promotes student success and retention.

The Task Force will specify the desired levels of improved performance as directed and overseen by the task force chair or designee. If there has not been a sufficient increase in key performance indicators a full academic year within the 12 months following the implementation of the process, the Administration will reconvene the Task Force and choose one of the following:

- a. Accept the Program in its current state (Directive A);
 - b. Give the Program an extension of two semesters under the current revitalization efforts and, at the end of the extension, the Task Force will reconvene and re-evaluate;
 - c. Create a new plan to improve Program performance. This plan will then be implemented over the following 12 months;
 - d. Discontinue the Program (Directive C).
3. Directive C – Program Discontinuance: The Program is discontinued in a manner that respects the needs of students and fulfills contractual obligations to faculty and staff. The discontinuance procedure will allow currently enrolled students to complete their Program(s) of study in accordance with the rights of students as stipulated in the college catalog.

Consultation Council 3:00 pm via Zoom (Monday, April 13, 2020)

Generated by Tara Bias on Monday, April 13, 2020

1. Meeting Opening

action: 1.01 Call to Order and Roll Call at 3:08 pm Zoom meeting

Tara Bias, Roxanna Haynes, Robert Schofield, Meggin Lewman, Terry Bartley, 530-251-8820, Adam Runyan, Alison Somerville, Anna Pasqua, Andy Rupley, Brady reed, Carol Montgomery, Chad Lewis, David Corley, Andy Rupley, Codi Mortell, Dana Armeson, Jennifer Tupper, Karen Clancy, Kimberly Clain, Bridget Gowin, Lisa Gardiner, Matt Lucas, Shar Murphy, Tiffany Montgomery, Tom Downing, Vickie Ramsey, Yuting Lin, Trevor Albertson, Garrett Taylor

We had quorum.

action: 1.02 Approval of Agenda-approved by consensus

minutes, action: 1.03 Approval of Minutes 03/09/2020- approved by consensus

2. Governance

information, discussion, action, governance: 2.01 Participatory Handbook and Matrix- Classified has not had the opportunity to look over this. Some of our members do not have access to internet. How will they be able to look this to approve changes? We can mail it to them.

3. Consultation

4. Guided Pathways-we have meetings on Tuesdays at 9:00 am now.

5. Other-Information/Communication

information: 5.01 M&N Buildings Update- That work has been paused for a moment. We are having discussions on restarting that conversations. Strong Workforce money will be the funding to rehab these two buildings. Updates will continue to come out to this group. A comment was made that we are not sure what Fall Semester will look like. We are reviewing all recommendations from Chancellor, State, etc. So we might even be able to resume but with social distancing in the classroom if we are directed to do it to keep us going. It seems like we would only be able to get 15 people per class. For enrollment funding, that is not cost effective. Is there going to be a change in the funding formula since we cannot get 35+ students to class?

Are we looking at the possibility of combining classes such as a face to face and online (like a hybrid)? Carie and Roxanna saw another college going to that modality for the future. Robert made the point that he is already doing that via Zoom and recording his classes so other students could watch the class later if needed. If Fall is going to look like this still, we could prepare for it in the next month or so. Is there a more clear picture of how the stimulus money might be dispersed to colleges? Trevor made a call today to clarify. We are getting around \$300,000. Half of that needs to go to students. \$150,000 is a good amount of money to get students laptops and internet access. We have 100 chromebooks and 75 hotspots coming from CalBright (the new online college) to borrow until the end of the summer. They were shipped last Friday. We are hoping to get them by the end of this week. As soon as we get them and they are tagged, we are going to reach out to students. We are trying to figure out a way to ask students if they need a chromebook. If we know any students who are in need, then please let Brady know. We are not extending the semester as far as Brady knows. Faculty has been encouraged to work with students and to be accommodating. Where will Admission and Records storage go if we rehab M&N? That has not been decided yet.

information: 5.02 Business IPR _Adam- It was approved through senate. We hope people looked over it to see the areas that might affect their area, like SSMP, etc. Does anyone have any questions about it? When we bring an IPR through, we need to make sure committees are looking at the part of the IPR that effects their area, such as budgets. An example, in the SSMP, the area that has money budgeted to it for this IPR, is hiring more ISS. We have to make sure we are looking over these. There is no guarantee that these will be fully funded, but we can't put together a comprehensive EMP and budget without getting these IPR's and NIPR's complete.
Approved by consensus

information: 5.03 AP4100 Graduation Requirements – Adam- This got approved last year without having catalogs right in it. So if you look at page 5 you can see the changes added. Any questions? It is important to be in here. Approved by consensus.

information: 5.04 AP 4021 Program Revitalization or Discontinuance – Adam- Program Revitalization and Discontinuance policy. This implements a process. It is a more measured approach. Approved by consensus.

6. Meeting Closing

information: 6.01 Future Meetings: (Information)April 27, May 11, and May 25, 2020-Are we going to be able to have any budget discussions before the end of the year? Yes, Garrett feels it is really warranted. He just needs time to narrow things down more. We have a lot of grey area still. We are asking the tough questions to the chancellor's office. As soon as he can, he will

deliver an update on the budget. Originally we decided to run with P1 numbers. If we count in a 10% deficit plus with our enrollment down, we are looking at maybe closer 2 million or so as a deficit factor. Sacramento is saying the deficit might be closer to 20-25%. They are saying “hold harmless” but then in the same sentence they are talking about increasing the deficit. Trevor is having these conversations with the state, saying we cannot handle the same percentage cut across the board. Did this Zoom meeting work the way it was sent out? Yes. Roxanna will send it out again for the next meeting.

action: 6.02 Future Agenda Items

action: 6.03 Adjourn at 3:59 pm.

Education Code Section 78016;
 Title 5 Sections 51022 and 55130
 ACCJC Accreditation Standard II.A.15

Lassen Community College is committed to supporting programs and classes that fulfill the goals of the Mission Statement as these are elaborated in the Educational Master Plan. Following Title 5, section 55000, "program" is herein defined as an organized sequence of courses leading to a defined objective, e.g., a degree, a certificate, a diploma, a license or transfer to another institution of higher education. As this applies to LCC, a program is defined as a whole and not individual degrees, certificates, or courses within the program as detailed in the LCC course catalog. Only programs with low or declining enrollment, decreasing demand for service or clear obsolescence shall be considered for discontinuance. The service provided to the college and the community by the program will be the primary consideration for a program's discontinuance. Budget concerns shall not be the primary consideration.

- A. A program may be considered for discontinuance only if one or more of the following criteria are fulfilled:
1. The goals and objectives of the program are no longer appropriate to the Mission of California Community Colleges, LCC's mission or Educational Master Plan, and/or congruent with the institutional Strategic Plan of the District.

2. The program curriculum no longer aligns with university transfer majors or, General Education requirements of the program no longer meet industry needs and lack demand in the current job market and the program's field is not considered an emerging industry or career path.
3. The program does not meet curriculum standards as defined by Title 5 section 55100.
4. There are insufficient resources to realistically support the program at a sufficient level of quality and the program has experienced either consistent low enrollment, per the Lassen College Faculty Association (LCFA) contract, or statistically significant declining program persistence and completion rates over the course of three or four offerings, as evidenced by reliable, longitudinal data.
5. The program has been determined to be out of compliance with existing state or federal laws, i.e., Title 5, section 55130(d), or licensing laws in particular occupations.
6. There is universal agreement among faculty in a program that it be merged with or replaced by another related program.

When a specific program fulfills one or more of these criteria, the faculty in the program, college administration, or college Curriculum Committee will contact the Department Chair directly supervising the program and convene a Program Revitalization/Discontinuance Task Force.

- B. A Program Revitalization/Discontinuance Task Force will consist of the following voting members as well as one non-voting member:
 1. At least one faculty member that teaches in the program, or if they are not available, if necessary, the faculty from a closely related field, as selected by a faculty member who teaches in the program.
 2. The Department Chair overseeing the program.
 3. The Dean of Instruction supervising the program.
 4. A representative from the office of Institutional Effectiveness.
 5. The Articulation Officer or designee from Counseling who does not teach in the program.
 6. A representative of the Academic Senate who does not teach in the program.
 7. The chair of the Curriculum Committee or designee who does not teach in the program.
 8. The Vice President of Academic Services, or designee, shall chair the Task Force as a non-voting member but may vote in the case of a tie.

The Task Force will inform the college community that the program is being considered for revitalization or discontinuance after several factors are considered using a holistic approach.

In the spirit of good intentions and future enrollment management and planning, the Task Force, a subcommittee of Senate, will consider several factors in making its determination. Possible areas of inquiry include:

- Needs of the community;
- Needs of the department as the particular class fits in as part of a program;
- Workforce development;
- Currency and accuracy of Program Review;
- Quantitative and Qualitative data;
- Core indicators from Chancellor's Office;
- Local labor market information through EDD (Employment Development Department) and or employer Program Advisory Committees and surveys; North-Far-North Consortium, Centers of Excellence;
- Reputation and skills of program and/or staff;
- FTES generated by program;
- Other funding sources, such as grants or contributions from business and industry;
- Percentage of faculty who have updated skills (staff development, industry externships, conferences, courses, etc.) documented within past three years;
- Special leadership, integration or cross discipline projects in which the program is involved;
- Possibility of merging or replacing program with a related program;
- Feedback from the Advisory Board from the affected CTE program.

A public comment session will be called, followed by a closed Task Force meeting in order to decide on one of three directives (see below).

C. The Program Revitalization/Discontinuance Task Force will give one of the following directives to the college Curriculum Committee in writing:

1. Directive A – Program Continuance: The program is accepted in its current state.
2. Directive B – Revitalization Effort: The Task Force will assist program faculty and other involved parties in developing a process/plan and associated time table to revitalize the program. Resources will be allocated as necessary; in order to improve program enrollment, retention, completion and other measures of program success. Some areas to be considered are: in-depth revision of the program courses, upgrading of facilities, and offering of workshops to provide re-training, changes in methodology, approaches to teaching, etc. Other considerations will involve Student Support Services, which promotes student success and retention.

The Task Force will specify the desired levels of improved performance as directed and overseen by the task force chair or designee. If there has not been a sufficient increase in key performance indicators a full academic year within the 12 months following the implementation of the process, the Administration will reconvene the Task Force and choose one of the following:

- a. Accept the program in its current state (Directive A);
- b. Give the program an extension of two semesters under the current revitalization efforts and, at the end of the extension, the Task Force will reconvene and re-evaluate;

- c. Create a new plan to improve program performance. This plan will then be implemented over the following 12 months;
- d. Discontinue the program (Directive C).

3. Directive C – Program Discontinuance: The program is discontinued in a manner that respects the needs of students and fulfills contractual obligations to faculty and staff. The discontinuance procedure will allow currently enrolled students to complete their program(s) of study in accordance with the rights of students as stipulated in the college catalog.

LASSEN COMMUNITY COLLEGE INSTRUCTIONAL PROGRAM REVIEW

OVERVIEW and GOALS

Instructional Program Review (IPR) built on the analysis of data including the assessment of student learning and outcomes, as required by the state and the Western Association of Schools and Colleges (WASC) through the Accrediting Commission for Community and Junior Colleges (ACCJC), is an integral part of the total process of integrated planning driving institutional decisions including budget allocation at Lassen Community College. The recommendations from each program review provide the basis for informed decision-making for academic planning, human resource planning, student services planning, technology planning and facilities planning and are incorporated into the LCC Comprehensive Institutional Master Plan as well as individual Master Plans. The IPR process is an effective vehicle for accountability. Through this process, colleagues can cooperatively share ideas to strengthen the college's instructional programs. In addition, with the submission of completed program review documents to Consultation Council for review by all constituent groups, the IPR process allows for dialogue between faculty, staff and administration regarding the status and future of an instructional program.

The proposed model rests on the following assumptions:

1. Statistical data that is accurate and valid is necessary for an objective review and evaluation of instructional programs and must be included in an LCC IPR.
2. Statistical data alone (Cost per FTE, WSCH/FTE, etc.) is insufficient to evaluate and assign priority to institutional programs.
3. Combined subjective judgments or empirical results of qualified professionals are valid components of the total assessment of a program when combined with evaluation of statistical data.
4. Criteria used for the purpose of evaluating one program may not be necessarily appropriate for evaluating another program.
5. Priority shall be given to educational considerations over cost considerations without ignoring those cost considerations.

The program review process is an opportunity for faculty members to actively participate in the growth of their own programs and the growth of the college as a whole. Institutional planning and budget considerations will be based on the recommendations and justifications provided by this process.

REVIEW PROCEDURE

The faculty teaching within all transfer instructional programs and special academic programs at Lassen Community College will conduct a major review by completing an IPR once every four years. All career/technical instructional programs will conduct a major review by completing an IPR once every two years. Those programs including both transfer and terminal degrees will follow the career/technical two-year program review cycle. In addition, each recognized instructional program at Lassen Community College will be encouraged to complete an annual update. A complete IPR is considered to be a one-year process with curriculum review, student evaluation and assessment occurring during the fall semester and additional student evaluation, writing and acceptance of the written report occurring during the first half of the spring semester.

Instructional Program Reviews rely on:

- Data provided by the Office of Institutional Effectiveness
- Self-evaluation based on evaluation of sound quantitative and qualitative data, provided by the Office of Institutional Effectiveness, and faculty input
- Feedback from student evaluations
- Assessment results from student learning outcomes and dialog based on the outcome assessment results

A “fill-in” IPR template is provided in Attachment A of this document, and Attachment C of this document provides a student evaluation to be used in IPR completion. Programs may modify the student evaluation to gather information specific to a program.

The IPR team is composed of faculty of the program being evaluated (see Attachment E, Faculty Reference by Program). The IPR team will be assigned at least one mentor by the Academic Senate. The function of the mentor is limited to advisement and interpretation of the program review process. Mentors will be current members of the Academic Senate familiar with the IPR process. In addition to a Senate mentor, the IPR team is encouraged to work closely with its Division Chair(s).

It is the responsibility of the Academic Senate to inform Academic Services, by September, which program(s) will have IPRs scheduled for completion in the subsequent spring semester.

The Academic Dean or Vice President and Academic Senate President will jointly send a memorandum to the faculty members of programs informing them of the upcoming IPRs.

The Academic Senate President, Academic Dean or Vice President and Director of Institutional Effectiveness will conduct joint faculty orientations for the subject area faculty of upcoming IPRs in October for program reviews scheduled for completion during the following spring semester. The orientations will cover: 1) IPR format, 2) identification of a faculty mentor (assigned by the Senate), and 3) the appropriate inclusion of statistical data in the attachments of the document.

To facilitate completion of the IPR, the following statistical data for each session (F, S, SS) during the preceding four years or as indicated will be provided by the Office of Institutional Effectiveness and Academic Services to the appropriate program area faculty at the IPR orientation meeting in October:

- FTE's generated by program.
 - Total program FTEs
 - FTEs generated separately by course, by semester, by modality, by time of day, by full-time and by part-time faculty.
 - FTEs generated per class, per semester and per class, per modality.
 - LCC FTE data to match program categories should be provided to allow for comparisons between individual programs and all instructional programs.

- Number of FTE faculty (FTEF) in program by semester and year.
 - Total FTEF
 - FTEF for full-time faculty only – including overloads
 - FTEF for full-time faculty only – without overloads
 - FTEF for full-time faculty only – overloads only
 - FTEF for part-time faculty.

- Enrollment data
 - Total program enrollment data at census and completion of course.
 - Enrollment data at census and completion of course for each class, each modality, and each time of day offering.

- Student outcomes (transfer, awarded degrees and certificates, basic skills improvement, retention, employment status, etc.)
 - Student completion, retention and success rates by program, class, modality, and time of day
 - Persistence from course to course. Initially, this is most important in sequential courses in Basic Skills, Math and English but should be expanded to include all prerequisite courses as data is made available.
 - Transfer data
 - Awarded degrees and certificates
 - Additional data requested by faculty will be considered as priorities allow

- Capital outlay equipment
 - List of equipment
 - Age of equipment
 - Replacement schedule
 - Existing maintenance/service agreements

- Student Learning Outcome (SLO) assessment results dating back to the previous IPR.

Data should be provided in a raw and visual format, either as chart, pie chart, bar graph, or other visual presentation deemed appropriate by the Office of Institutional Effectiveness.

Should the faculty of the program being reviewed disagree with the data as provided, this disagreement will be included in the final report. All areas of the IPR need to be completed regardless of whether or not statistical data has been provided.

INSTRUCTIONAL PROGRAM REVIEW PREPARATION

Preparation of the IPR is viewed as a primary vehicle for evaluating a program and its effectiveness in regards to student learning as well as developing plans and strategies for the improvement of a program. This self-evaluation approach allows the faculty (full and part-time as applicable) who are directly involved in the program to assume primary responsibility for the examination and strengthening of their program.

An IPR Template has been created to ease the work of completing the IPR (See ATTACHMENT A: IPR Template). This form is available electronically from Academic Services, on the planning webpage, or through the Lassen College portal. The data contained in the planning tables generated from completion of the IPR TEMPLATE, will be reviewed by the institutional planning committees as part of the institutional planning and budgeting processes.

The Chief Instructional Officer (CIO) and Academic Senate together will designate an IPR lead faculty member from within the program being reviewed. The lead faculty member will call the first meeting to establish the timeline and schedule meetings for all listed full-time and part-time faculty to complete the IPR.

Each IPR should begin with a title page including the name of the program, names of individuals working on the IPR (full-time faculty, part-time faculty and support staff), and the acceptance dates for Academic Senate, Consultation Council and Governing Board.

IPR FORMAT

The IPR is organized into four sections consistent with the four sections of the comprehensive institutional master plan:

1. Academic Planning Section
 - a. Program Objectives/Student Learning Outcomes
 - b. Student Outcomes/Student Learning Outcomes (program impact on student success)
 - c. Curriculum
 - d. Equipment
 - e. Outside Compliance Issues (if applicable)
 - f. May also include recommendations specific to Student Services Planning and Institutional Effectiveness Planning
2. Human Resource Planning Section
3. Facilities Planning Section

Each section and sub-section of the IPR is subdivided into two parts, plus referenced attachments, at the end of the document:

1. Description/Evaluation
2. Planning Agenda (The planning agenda should be substantiated by the description/evaluation subsection and/or referenced attachments and should be divided into plans to be implemented by program staff and plans requiring institutional resources)

Referenced Attachments

- Supporting Documentation [to be included as attachments at the end of document]

Each subsection may be completed using lists, narrative description, or attachments as appropriate. Address only those sections that apply to your program. Statements in parentheses are suggestions for your

consideration and are not prescriptive. Supporting documentation for each section should be included at the end of the document.

Upon completion of the IPR process, the final document must be compiled into PDF format and submitted to the Academic Dean and the Academic Senate for subsequent Senate approval and joint presentation to Consultation Council and the Governing Board. Upon acceptance of the document by the Governing Board, Academic Services will provide electronic IPR copies to I.T. for posting on the Lassen College website. Academic Services will provide institutional decision-making bodies copies of Prioritized Recommendations charts as they pertain to planning documents.

STUDENT EVALUATION OF PROGRAM

The Student Evaluation is designed to solicit comments concerning the program only and is not an evaluation of instructors. It is important to insure the students understand that the focus of the survey is on the program and not the faculty in the area. This is to avoid confusion with the faculty evaluation process. The recommended Student Evaluation is included as Attachment C, although programs may modify the form to gather additional information or may remove items not relevant to the program.

An anonymous questionnaire is considered to be the most effective format to obtain student input. This will encourage the students to be frank in their responses. The Student Evaluation will be scheduled and administered by the Office of Institutional Effectiveness twice, once during October of the instructional review process and again in February.

Academic Services staff will consult with the faculty members of the IPR Team to determine the student sampling and consider any program-specific revisions to the student survey. The sampling will consist of a minimum of three core courses and other courses as selected by the IPR Team. (Example: The basic skills program might wish to survey courses with high enrollment of former basic skills students.)

REVITALIZATION AND DISCONTINUANCE POLICY

Lassen Community College is committed to supporting programs and classes that fulfill the goals of the Mission Statement as these are elaborated in the Educational Master Plan. Following Title 5, section 55000, "program" is defined as an organized sequence of courses leading to a defined objective, e.g., a degree, a certificate, a diploma, a license or transfer to another institution of higher education. As this applies to LCC, a program is defined as a whole and not individual degrees, certificates, or courses within the program as detailed in the LCC course catalog. Only programs with low or declining enrollment, decreasing demand for service or clear obsolescence shall be considered for discontinuance. The service provided to the college and the community by the program will be the primary consideration for a program's discontinuance. More information regarding this policy can be found by searching AP 4021.

TIMELINE FOR PROCEDURES

- October The Vice President of Instruction, in consultation with the Academic Senate, notifies faculty of the upcoming IPR. Academic Senate appoints faculty members to the mentors list.
- October Faculty Orientation for IPRs are scheduled and held. Distribution of quantitative data by the Academic Services to the IPR Team (fiscal and census information, as previously outlined, for the previous four years, and a copy of the previous final IPR document) for reviews scheduled the following year.
- October Student evaluation #1 administered and compiled by the Office of Instruction Effectiveness
- November/December Initial meeting of the IPR Team and Senate mentor (if desired).
- November-May The IPR Team conducts the curriculum review, submitting review and revision documents to the Curriculum/Academic Standards Committee for approval.
- February Student evaluation #2 administered and compiled by the Office of Institutional Effectiveness
- August The IPR team submits the completed IPR documents to the Academic Senate and the Academic Dean.
- September The Academic Senate takes action to accept the IPR and with the Academic Dean jointly presents IPR to Consultation Council and the Governing Board.
- October IPR recommendations are distributed to planning committees for consideration in master planning and budgeting documents.
- Upon acceptance, Academic Services will maintain the original IPR electronic file online and forward electronic copies to the institutional planning committees for inclusion in the planning and budgeting processes.

LASSEN COMMUNITY COLLEGE EDUCATIONAL PROGRAMS

For the purpose of the Instructional Program Review process, a program is defined as an organized sequence of courses leading to a defined objective, a degree, certificate, diploma, a license, or transfer to another institution of higher education (Title V, Section 55000). A special academic program provides instruction in support of certificate or degree completion or as part of another certificate or degree but may not offer an organized sequence of courses that lead to a degree, certificate, license or transfer as with transfer and career/technical programs. See Attachment D for a list of degrees and certificates included within each program.

Transfer-only Programs — 4-yr cycle

- Fine Arts (including Art History and Studio Art)
- Humanities (including English)
- Mathematics/Natural Science
- History/Social Science/Sociology/Psychology/Anthropology
- Physical Education

Career/Technical Programs — 2-yr cycle

- Administration of Justice (including related POST information)
- Agriculture
- Automotive Technology
- Business (including Accounting, Business Administration, Economics, and Office Administrative Assistant) Child Development (including transfer degree in Early Childhood Education)
- Information Systems
- Graphic Design
- Fire Technology
- Gunsmithing (including related NRA)
- Human Services
- Allied Health (including Vocational Nursing, CNA, Medical Assisting)
- Welding Technology

Special Academic Programs — 4-yr cycle

- Athletics
- Developmental Studies
- Work Experience

INSTRUCTIONAL PROGRAM REVIEW CYCLE

The following IPR review cycle has been established by the Academic Senate:

<u>Scheduled Date of IPR Review</u>	<u>Transfer or Special Academic Program Completing IPR</u>
Academic Year 2020-2021	Developmental Studies including Basic Skills
Academic Year 2021-2022	Mathematics/Natural Science (Area A and D2) Physical Education (Area E2) Athletics
Academic Year 2022-2023	History/Social Science/Sociology/Psychology/Anthropology (Area B/E1) Work Experience
Academic Year 2023-2024	Fine Arts (including Art History/Studio Art) Humanities (including English) (Area C and D1)

<u>Scheduled Date of IPR Review</u>	<u>Career/Technical Program Completing IPR</u>
Academic Year 2020-2021	Fire Technology Gunsmithing Human Services Allied Health Welding
Academic Year 2021-2022	Administration of Justice Automotive Technology Agriculture Business Child Development Information Systems Graphic Design
Academic Year 2022-2023	Fire Technology Gunsmithing Human Services Allied Health Welding
Academic Year 2023-2024	Administration of Justice Automotive Technology Agriculture Business Child Development Information Systems Graphic Design

ANNUAL UPDATES & IPR REVISIONS

Given that program changes occur on an annual basis, completion of an annual update by all recognized programs, whether transfer, career/technical, or special academic programs, is encouraged to better integrate program review into the planning and budgeting processes. Basic data, including FTES, FTEF, completion, success, and program scheduling for the previous year, will be provided by the Office of Institutional Effectiveness by November of each year. Annual updates are due by the end of August or special request by office of instruction and are submitted to Academic Services and Academic Senate following the same procedures as the IPR. The purpose of the annual updates is to recognize and document changes within a program, and identify, and more effectively incorporate, emerging program needs into the budget and planning processes than the 2 or 4 year cycle currently allows. Institutional planning decisions are based on the recommendations contained within the IPR. Revisions to specific sections of the IPR may be necessary between scheduled IPRs and/or annual updates to accommodate changes in program priorities. Program faculty may revise specific IPR sections at any time. The annual update containing the revised section(s) will be forwarded to the Academic Senate and Academic Dean. The annual update will follow the same sequence of steps for acceptance as the IPR. Upon acceptance by the Governing Board, the annual update will be attached to the original IPR in Academic Services and electronic copies forwarded to the institutional planning committees.

REVIEW OF INSTRUCTIONAL PROGRAM REVIEWS OUT OF SEQUENCE

A. Early Program Reviews:

Program faculty, the President/Superintendent or the Governing Board may request an early program review for compelling reasons. Such reasons may include:

- Enrollment considerations
- Fiscal consideration
- Facilities review
- Recent loss or addition of full-time subject area faculty within the program
- Recent significant changes to the curriculum

The request for an early program review must be accompanied by written justification submitted to the Academic Senate. After reviewing the written recommendations: the Academic Senate will take action. The action will permanently move the IPR for the program within the review cycle.

B. Instructional Program Review Extensions:

Program faculty or the Academic Dean may request an extension of the due date of an IPR. Requests for due date extensions of an IPR will be accompanied by a written justification submitted to the Academic Senate. Extensions may be granted through Senate action. IPRs with granted extensions will not be considered late for budget and planning purposes and will retain their original position within the review cycle.

C. Late Instructional Program Reviews:

IPRs retain their positions within the cycle regardless of their date of acceptance. All changes of position within the review cycle require official Academic Senate action.

IPR TEMPLATE

SECTION 1: ACADEMIC PLANNING

I. . Program Overview, Objectives, and Student Learning Outcomes

[Click here to insert a brief overview of the program \(this is optional\).](#)

Description/Evaluation:

- a. Describe and evaluate the program objectives against the LCC strategic plan, specifically the mission statement and strategic goals [available online or in the current catalog].

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

- b. Identify and evaluate the Program Student Learning Outcomes including the relationship between course, program and institutional student learning outcomes utilizing information provided by the Office of Institutional Effectiveness

[Click here to enter text.](#)

- c. Evaluate any changes in the program since last review. Include summary of Annual Updates completed since last review.

[Click here to enter text.](#)

- d. Analyze program-related promotional materials/advertising as appropriate

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Student Services Planning, and/or Institutional Effectiveness Planning tables at the end of the section for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

II Student Outcomes

A. Trends and Patterns in Student Outcomes

Description/Evaluation:

1. Provide in tabular form followed by an analysis
 - a. Number of degrees and certificates awarded during the last four years.
[Click here to enter text.](#)
 - b. Transfer numbers for the last four years
[Click here to enter text.](#)
 - c. Completion, retention and success data for the last four years
[Click here to enter text.](#)
2. Analyze program effectiveness based on available quantitative data and qualitative experiences.
[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Student Services Planning, and/or Institutional Effectiveness Planning tables at the end of the section for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself, “What are we going to change?” Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

B. Student Learning Outcome Assessment

SLO assessment is important to maintain and improve an effective learning experience for LCC students. Evaluating SLO results regularly is helpful for evaluating student learning and identifying emerging program needs. By contract, faculty are required to measure at least one SLO for every class taught each semester; these records are maintained in the online Data Management and Visualization tool (CLIC) and are available for review by faculty at any time through its self-updating, interactive dashboards and reports.

Description/Evaluation:

1. Attach an SLO assessment summary as provided by Office of Institutional Effectiveness.

2. Provide an analysis of findings of the assessments completed and recommendations being made in individual assessments. Consider the impact or influence of the assessment results at the program level. Consider how SLO results may be leveraged to support equipment, facility, staffing, or other budget and planning need and include the justification in your analysis.

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

Planning Agenda:

List recommendations and actions necessitated by the above evaluation of SLO results. Complete Academic Planning, Student Services Planning, and/or Institutional Effectiveness Planning tables at the end of the section for any recommendations requiring institutional action. For any items needing Human Resources Planning, Institutional Technology Planning, or Facilities Planning action, please make sure to include the information within the appropriate section and table later in the program review document.

[Click here to enter text. Ask yourself, “What are we going to change?” Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

C. Student Evaluation Summary

The student survey portion of the evaluation procedure is designed to solicit comments concerning the program only, and is not an evaluation of instructors (See Attachment F, Student Survey).

An anonymous questionnaire is considered to be the most effective format. This will encourage the students to be frank in their responses. The student evaluation will be scheduled and administered by the Office of Instruction during October/November and February/March of each instructional review process. The Office of Instruction staff will consult with the members of the self-evaluation group to determine the student sampling and consider any program-specific revisions to the student survey. The sampling will consist of a minimum of three core courses and other courses as selected by the self-evaluation team. (Example: The basic skills program might wish to survey courses with high enrollment of former basic skills students.)

Description/Evaluation:

Attach Student Evaluation Summary provided by Office of Academic Services and provide an analysis of the results of the student evaluations

For the evaluation portion, ask yourself “How is it working?” Good? Bad?

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Student Services Planning, and/or Institutional Effectiveness Planning tables at the end of the section for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself, “What are we going to change?” Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

III. Curriculum

A. Degrees and/or Certificates

Description/Evaluation:

- List degree and/or certificates offered in the program. Review/revise two-year plan(s). Update scheduling sequence listed on course outline where needed (course outline and/or program revisions need Curriculum Committee approval) attach the approved two-year plan for each degree and certificate (see Attachment D, Degrees/Certificates by Program). Degree and certificate student learning outcomes, if different from program student learning outcomes, should be included in this section.
- Faculty should analyze progress made on the assessment of program (degree/certificate) learning outcomes
- Evaluate the need for courses, degrees and/or certificates
- Transfer programs: Evaluate the core courses against the major preparation requirements for an entering junior at receiving four-year institutions (e.g. CSU System and UC System).
- Transfer programs: Evaluate the courses against the specific area requirements needed to satisfy the general education requirements for associate degrees and transfer. Consider whether there are adequate opportunities to meet the area requirements in combination with all disciplines within each general education area. Is there an adequate number of course and discipline options within each area, and can those courses be offered in a manner that maximizes student enrollment in each section? Do courses need to be added or deleted from any general education area?
- Career/Technical programs: Attach dates of Advisory Committee meetings (a minimum of two meeting per year). Reference Committee Member Rosters and Minutes located in the Office of Academic Services. Summarize the advisory committee recommendations for program curriculum enhancement or improved student competencies

- Career/Technical programs: Use advisory committee recommendations, labor market or other standards to answer the following question: Do the core courses in the certificates and degrees meet current employer skill requirements for the field?
- Special Programs: By nature, special programs themselves do not lead to a degree or certificate. However, special programs may have coursework that is included in transfer or vocational degrees or certificates. Note the relationship between special program courses and LCC transfer or vocational degrees or certificates.

[Click here to address the items above. For the evaluation portion, ask yourself, “How is it working?” Good? Bad?](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning table at the end of the section for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

B. Courses

Description/Evaluation

1. Identify courses added or deleted from the instructional program since the last IPR.

[Click here to enter text.](#)

2. Each course offered within the instructional program must be reviewed for accuracy and currency (see Attachment I, Course List by Program). Review of each course outline should include asking the following questions:
 - Should the Disciplines of Assignment remain the same or be changed?
 - Should the Catalog/Schedule description remain the same or be updated?
 - Is the course repeatable? Is the repeatability reflected in the SLOs, Objectives, and Course Content sections? What is the basis for repeatability: legal requirement or increased skill level?
 - If the course meets a core requirement within specific degrees or certificates, is it accurately noted on the outline?
 - If the course satisfies a specific area within the general education requirement for an associate degree or transfer, is it accurately noted on the outline?
 - Are course-level student learning outcomes included on each course outline? Are learning outcomes included for each allowable repetition?
 - Does the course require a prerequisite or have recommended preparation? Are content review forms on file for each recommended preparation and/or prerequisite?

- Do any of the learning outcomes or objectives need revision?
 - Does any content need to be updated?
 - Are any changes necessary in the Methods of Instruction, Assignments, Critical Thinking or Methods of Evaluation sections?
 - Is the course being considered for distance education offering? If so, has it been approved for specific distance education delivery?
 - Is the textbook current (within the last 7 years for transfer courses) and is the publication date included?
 - Does the course outline match the two year plan with regard to sequence of course offerings?
3. Whether changes to a course outline are necessary or not, a Revision to Existing Course Form for each course must be completed and submitted to the Curriculum/Academic Standards Committee for action. When changes are necessary, indicate the revisions on the form. Where no changes are necessary, simply indicate on the Revision Form that “the course has been reviewed as part of the program review and no changes are necessary.” Revision forms will be retained in the Instructional Office with the Curriculum agenda packets.
 4. Following the Curriculum/Academic Standards Committee action on all submitted Revision to Existing Course Forms, a summary Instructional Program Curriculum Review Form will be completed by the Curriculum/Academic Standards Subcommittee Chair and given to the program faculty for inclusion in the program review.
 5. The signed Instructional Program Curriculum Review Form is to be included with your completed program review documents

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning table for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snapshot of the items in the table\(s\) below.](#)

C. Articulation/Integration of Curriculum

Description/Evaluation:

1. Attach a tabular comparison of Lassen Community College courses articulating with UC and CSU, indicating courses with approved C-ID designations as applicable (Obtain copies of Articulation Agreements from the Transfer Center)
2. Provide a narrative reviewing the Lassen Community College courses and courses at four-year institutions for course alignment. (i.e. two courses at Lassen needed to articulate with one

course at UC).and the units requirements for Lassen Community College courses as compared to four-year institutions.

[Click here to enter text.](#)

Planning Agenda:

Complete Student Services Planning table (see below) for any proposed changes to articulation or C-ID designation

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

III. Scheduling and Enrollment Patterns

Description/Evaluation:

1. Describe and explain any deviation from the two-year plan in course scheduling during the last four years.

[Click here to enter text.](#)

2. Evaluate the relationship between schedule, enrollment patterns and FTE generated statistics.

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

3. Using FTE data provided, evaluate how the scheduling of courses within the program has served the needs of a variety of students (e.g. day, evening, single parents, employed full-time). Include the following considerations:
 - a. Number of sections (too many/too few to serve student needs)
 - b. Variety of times (three times a week, twice a week, one day a week and morning/afternoon/evening)
 - c. Length of courses (traditional semester/short term)
 - d. Method of delivery (traditional/technology-mediated/correspondence delivered instruction).

[Click here to enter text.](#)

4. Evaluate student access to general education courses within the context of the scheduling of the instructional program courses.

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

Planning Agenda:

Complete Academic Planning table (see below) for any proposed changes in the schedule that might improve enrollment patterns and better meet student needs.

[Click here to enter text.](#) Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table(s) below.

IV. Equipment

Description/Evaluation:

1. List capital outlay equipment, age of equipment and replacement schedule

[Click here to enter text.](#)

2. Identify any existing equipment maintenance/service agreements

[Click here to enter text.](#)

3. Evaluate the condition of capital outlay equipment in light of the replacement schedule and available funds.

[Click here to enter text.](#) For the evaluation portion, ask yourself “How is it working?” Good? Bad?

4. Evaluate the effectiveness of and need for additional maintenance/service agreements.

[Click here to enter text.](#) For the evaluation portion, ask yourself “How is it working?” Good? Bad?

5. Justify any proposed modification or additions to equipment available for students and/or faculty/instructional assistants within the program.

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Student Services Planning, Facilities Planning, or Technology Planning tables as appropriate for any recommendations requiring institutional action.

[Click here to enter text.](#) Ask yourself, “What are we going to change?” Go into detail here and provide a snap shot of the items in the table(s) below.

V: Outside Compliance Issues (if appropriate for program)

Description:

If appropriate, describe the role of outside compliance issues on the Special Program.

[Click here to enter text.](#)

Evaluation:

Assess changes in compliance or identification of compliance-related needs and the impact on the Special Program.

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Facilities Planning, Technology Planning and Human Resource Planning Forms as appropriate for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

VI. Prioritized Recommendations

A. Prioritized Recommendations for Implementation by Program Staff

List all recommendations made in Section One that do not require institutional action (i.e. curriculum development) in order of program priority.

[Click here to enter text.](#)

B. Prioritized Recommendations for Inclusion in the Planning Process

List all recommendations made in Section One that should be included in Lassen College’s planning and budgeting process, specifically in the Educational Master Plan, Student Services Master Plan, or Institutional Effectiveness Master Plan. Separate recommendations into the appropriate plan(s). Items to be included in the Human Resource Master Plan, Institutional Technology Master Plan, or Facilities Master Plan should be addressed in Sections Two, Three or Four in lieu of or in addition to inclusion in the Academic Master Plan. See Attachment C, Master Plan Overview, in the IPR handbook to determine where recommendations are best placed.

Prioritized Recommendations for Inclusion in Education Master Plan: The EMP addresses the instructional planning needs of the college.

[Click here to enter Program Name & Year](#)

Strategic Goal	Planning Agenda Item	Implementation Time Frame	Estimated Cost (implementation & ongoing)	Expected Outcome

Prioritized Recommendation for Inclusion in Student Services Master Plan: The SSMP

highlights the services needed to maximize the student experience through a variety of key student support services.

[Click here to enter Program Name & Year](#)

Strategic Goal	Planning Agenda Item	Implementation Time Frame	Estimated Cost (implementation & ongoing)	Expected Outcome

Prioritized Recommendations for Inclusion in Institutional Effectiveness Master Plan: The IEMP addresses college needs not addressed in other plans. These needs include research, governance, outcome assessment, and administrative operations.

[Click here to enter Program Name & Year](#)

Strategic Goal	Planning Agenda Item	Implementation Time Frame	Estimated Cost (implementation & ongoing)	Expected Outcome

Section Two: Human Resource Planning

I. Program Staffing

Description/Evaluation:

1. List the current staffing for the program include: full-time and part-time faculty positions, instructional assistants and classified staff

[Click here to enter text.](#)

2. This section provides an opportunity for analysis and justification of projected staffing needs to support the program. Clerical support by the Office of Academic Services and work-study needs may be included.

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning and Human Resources Planning Forms as appropriate for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself, "What are we going to change?" Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

II. Professional Development

Description/Evaluation:

1. If available, reference Flex Contracts for full-time faculty teaching in the program for each of the last two years. [Copies may be available in the Office of Instruction].

[Click here to enter text.](#)

2. Describe the professional development and professional activities of the program faculty/instructional assistants in addition to flex obligation relevant to program improvement that has occurred during the period under review. (Workshops, conferences, staff development, sabbatical leaves, work experience, etc.)

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning and Human Resources Planning Forms as appropriate for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table below](#)

III. Student Outcomes**Description/Evaluation:**

Description/ Evaluation:

Describe any results from assessment of learning outcomes that affect human resource planning

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning and Human Resources Planning Forms as appropriate for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table below](#)

IV. Prioritized Recommendation**Prioritized Recommendations for Implementation by Program Staff**

List all recommendations made in Section Two that do not require institutional action (i.e. curriculum development) in order of program priority.

[Click here to enter text.](#)

Prioritized Recommendations for Inclusion in the Planning Process

List all recommendations made in Section Two that should be included in Lassen College’s planning and budgeting process. See Attachment C, Master Plan Overview, in the IPR handbook to determine where recommendations are best placed.

Prioritized Recommendations for Inclusion in Human Recourse Master Plan: The HRMP identifies and manages the administrative functions of recruitment, selection, evaluation, and professional development needs of the College to ensure a fully-staffed and highly functioning team of employees.

[Click here to enter Program Name & Year](#)

Strategic Goal	Planning Agenda Item	Implementation Time Frame	Estimated Cost (implementation & ongoing)	Expected Outcome

Section Three: Facilities Planning

I. . Facilities

Description/Evaluation:

1. Describe and evaluate the Lassen Community College facilities available to the program.

[Click here to enter text.](#)

2. Describe and evaluate additional facilities utilized off-campus by the program (attach any relevant rental agreements)

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

3. Describe any facilities needs identified by assessments of student learning outcomes

[Click here to enter text.](#)

4. Justify any proposed modifications or additions to existing facilities that would better serve the program planned for the next five years.

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Facilities Planning, and Technology Planning Forms as appropriate for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snapshot of the items in the table below](#)

II. . Prioritized Recommendations

Prioritized Recommendations for Implementation by Program Staff

List all recommendations made in Section Three that do not require institutional action (i.e. curriculum development) in order of program priority.

[Click here to enter text.](#)

Prioritized Recommendations for Inclusion in the Planning Process

List all recommendations made in Section Three that should be included in Lassen College’s planning and budgeting process. See Attachment C, Master Plan Overview, in the IPR handbook to determine where recommendations are best placed.

Prioritized Recommendations for Inclusion in the Facilities Master Plan: The FMP addresses the physical infrastructure, facility, and maintenance needs of the campus.

[Click here to enter Program Name & Year](#)

Strategic Goal	Planning Agenda Item	Implementation Time Frame	Estimated Cost (implementation & ongoing)	Expected Outcome

Section Four: Technology Planning

I. . Technology

Description/Evaluation:

1. Describe and evaluate technology and technology support provided for instruction and instructional support.

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

2. Describe any technology and technology support needs identified by assessment of student learning outcomes.

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Facilities Planning, Technology Planning and Human Resource Planning Forms as appropriate for any recommendations requiring institutional action.

[Click here to enter text.](#) Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table below

II. Prioritized Recommendations

Prioritized Recommendations for Implementation by Program Staff

List all recommendations made in Section Four that do not require institutional action (i.e. curriculum development) in order of program priority.

[Click here to enter text.](#)

Prioritized Recommendation for Inclusion in the Planning Process

List all recommendations made in Section Four that should be included in Lassen College’s planning and budgeting process. See Attachment C, Master Plan Overview, in the IPR handbook to determine where recommendations are best placed.

Prioritized Recommendations Inclusion in Institutional Technology Master Plan: The ITMP addresses the technology needs of the campus.

MASTER PLAN OVERVIEW**

Six master plans comprise the Comprehensive Institutional Master Plan. Recommendations from program reviews will be input into the selected master plans as determined by faculty in the prioritized recommendation spreadsheets. To better understand which master plan might be most appropriate for each program recommendation, a summary/objective of each plan is included below. More information can be found in the Shared Governance and Consultation Council Handbook and the Comprehensive Institutional Master Plan.

Educational Master Plan (EMP): The EMP addresses the instructional planning needs of the college.

Facilities Master Plan (FMP): The FMP addresses the physical infrastructure, facility, and maintenance needs of the campus.

Human Resources Master Plan (HRMP): The HRMP identifies and manages the administrative functions of recruitment, selection, evaluation, and professional development needs of the College to ensure a fully-staffed and highly functioning team of employees.

Institutional Effectiveness Master Plan (IEMP): the IEMP addresses college needs not addressed in other plans. These needs include research, governance, outcome assessment, and administrative operations.

Institutional Technology Master Plan (ITMP): The ITMP addresses the technology needs of the campus.

Student Services Master Plan (SSMP): The SSMP highlights the services needed to maximize the student experience through a variety of key student support services.

**LASSEN COMMUNITY COLLEGE
INSTRUCTIONAL PROGRAM REVIEW - STUDENT EVALUATION**

Name of Program: _____ Date Survey Completed: _____

Current Course: _____

Overview:

Instructional programs are reviewed periodically by LCC faculty. The _____ Instructional Program is currently undergoing its periodic review. The _____ Instructional Program is made up of the courses leading to a degree or certificate of achievement in _____. The courses in this program include: _____

As a student enrolled in one of these courses, your insight about the course and program can provide valuable information to assist the program faculty in making program improvements. This student survey is your opportunity to provide information to the program faculty. This is a student survey of the course and program, NOT the instructor. Instructor evaluations occur at a different time.

Instructions for Completion:

Please be as objective and concise as possible when answering the following questions. Read and evaluate each question and check the responses, which most closely relate to your views. Space has been provided at the end, for any additional comments you would like to make.

Tell Us About Yourself:

**1. Educational Goal: What is your educational objective at Lassen Community College?
(Check all that apply).**

General Education:

Transfer to a 4-year
Institution

IGETC Certification

CSU Certification

Transfer to another
Community College

Degrees/Certificates:

AA/AS

Certificate of Achievement
Certificate of Completion

Certificate of
Accomplishment

Title of Degree or Certificate:

General Interest:

Job Requirement

Continuing Education

Personal Development

2. Your Need for this Course: Why are you taking this course?

Core Requirements for degree or certificate

Job Requirements

- Elective for degree or certificate
- General Education course for degree or transfer
- Other: Please Specify _____
- Continuing Education
- Personal Development

1. **Does the course content reasonably compare with the catalog/schedule description?**
 YES NO
2. **Did the catalog clearly explain the order in which the courses in this program should be taken?**
 YES NO
3. **Was any cost for this course/program, beyond registration and books clearly identified in the catalog?**
 YES NO
4. **Did instructors use the required textbooks in the program?**
 YES NO N/A
5. **Are the textbooks purchased for this program useful to you?**
 YES NO N/A

Scheduling:

6. **Did the scheduling of this course meet your needs?**

- current schedule met my needs
- needed morning offering
- needed afternoon offering
- needed evening offering
- needed one day a week schedule
- needed summer offering
- needed week-end offering
- needed short-term (less than semester) offering
- other: Please Specify _____

Facilities/Equipment: Do the facilities for this course/program adequately meet your needs?

7. **I was provided with reasonable access to the facilities?**

- YES NO

8. **The temperature of the facilities in summer or fall is:**

- OFTEN TOO HOT FOR THE SEASON
 COMFORTABLE FOR THE SEASON
 OFTEN TOO COLD FOR THE SEASON
 N/A

9. The lighting of the facilities is?

- TOO BRIGHT ADEQUATE TOO DARK N/A

10. The chairs/tables/desks are?

- ADEQUATE INADEQUATE N/A

11. Is there enough space for you to do your work in class?

- YES NO N/A

12. Please elaborate on your responses and include any additional facilities-related comments:

13. Did the course/program provide the necessary equipment?

- YES NO N/A

14. Is enough time on equipment allowed for each student?

- YES NO N/A

15. Is equipment current?

- YES NO N/A

16. Is equipment generally in good operating condition?

- YES NO N/A

17. Describe how this course/program could be improved to better meet the needs of the students at Lassen Community College.

18. Provide any additional comments on the course or program:

**LASSEN COMMUNITY COLLEGE
EDUCATIONAL PROGRAMS AND DEGREES/CERTIFICATES/LICENSES BY PROGRAM**

For the purpose of the instructional review process, a program is defined as an organized sequence of courses leading to a defined objective, a degree, certificate, diploma, a license, or transfer to another institution of higher education (Title V, Section 55000).

Administration of Justice/Correctional Science

Associate in Science Degree in Administration of Justice for Transfer
Associate in Art Degree in Administration of Justice
Certificate of Achievement in Administration of Justice
Certificate of Accomplishment in Administration of Justice

Agriculture

Associate in Science in Agriculture Animal Science for Transfer
Associate in Science in Agriculture Business for Transfer
Associate in Arts Degree University Studies: Emphasis in Agriculture Sciences
Associate in Science Degree in Agriculture Science and Technology
Certificate of Achievement in Agriculture Science and Technology
Certificate of Accomplishment in Animal Science
Certificate of Accomplishment in Horsemanship
Certificate of Accomplishment in Agriculture Business
Certificate of Accomplishment in Agriculture Irrigation

Art History/Studio Art

Associate in Arts Degree in Art History for Transfer
Associate in Arts Degree in Studio Art for Transfer

Automotive Technology

Associate in Science Degree in Automotive Technology
Certificate of Achievement in Advanced Mechanics
Certificate of Achievement in Engine Repair
Certificate of Accomplishment Basic Mechanics
Certificate of Accomplishment in Electrical
Certificate of Accomplishment in General Mechanics
Certificate of Achievement in Auto Chassis and Maintenance

Business

Associate in Science Degree in Business Administration for Transfer
Associate in Science Degree in Accounting
Associate in Arts Degree in Economics for Transfer
Associate in Science Degree Administrative Office Technician
Certificate of Achievement Administrative Office Technician
Certificate of Achievement in Small Business Management

Child Development

Associate in Science Degree in Early Childhood Education for Transfer
Associate in Arts Degree in Child Development
Certificate of Achievement in Child Development
Certificate of Accomplishment in Child Development-Associate teacher

Fire Technology

Associate in Science Degree in Fire Technology
 Certificate of Achievement in Fire Technology
 Certificate of Accomplishment in Fire Technology
 Certificate of Accomplishment in Basic Fire Fighter

Gunsmithing

Associate in Science Degree in Firearms Repair
 Associate in Science Degree in General Gunsmithing
 Certificate of Achievement in Firearms Repair
 Certificate of Achievement in General Gunsmithing
 Certificate of Accomplishment in Gunsmith Machinist and Metal Finishing
 Certificate of Accomplishment in Long Guns
 Certificate of Accomplishment in Pistolsmith
 Certificate of Accomplishment in Riflesmith

Health Occupations/Medical Assisting

Certificate of Achievement in Medical Assisting
 Certificate of Accomplishment in Administrative Medical Assisting
 Certificate of Accomplishment in Clinical Medical Assisting

History/Social Science/Sociology/Psychology

Associate in Arts Degree University Studies: Emphasis in Social Sciences
 Associate in Arts Degree General Studies: Emphasis in Social Sciences
 Associate in Arts Degree in History for Transfer
 Associate in Arts Degree in Sociology for Transfer
 Associate in Arts Degree in Psychology for Transfer
 Associate in Science Degree in Anthropology for Transfer
 Certificate of Achievement California State University General Education
 Certificate of Achievement in Intersegmental General Education Transfer Curriculum

Human Services

Associate in Science Degree in Drug and Alcohol Paraprofessional
 Associate in Science Degree in Human Services
 Certificate of Achievement in Drug and Alcohol Paraprofessional Certificate of Achievement in Human Services

Humanities

Associate in Arts Degree University Studies: Emphasis in Humanities
 Associate in Arts Degree in English for Transfer

Information Systems

Certificate of Achievement in Geographic Information Systems

Natural Science

Associate in Arts Degree University Studies: Emphasis in Natural Sciences
 Associate in Arts Degree General Studies: Emphasis in Natural Sciences
 Associate in Science Degree in Geology for Transfer
 Associate in Science Degree in Biology for Transfer
 Associate in Science in Nutrition and Dietetics for Transfer

Physical Education

Associate in Arts Degree in Kinesiology for Transfer
 Associate in Arts Degree University Studies: Emphasis in Physical Education
 Associate in Arts Degree General Studies: Emphasis in Physical Education

Vocation Nursing/Allied Health

Associate in Arts Degree University Studies: Emphasis in Allied Health

Associate in Science Degree in Vocational Nursing

Certificate of Achievement in Vocational Nursing

Certificate of Accomplishment in Administrative Medical Assisting

Certificate of Accomplishment in Clinical Medical Assisting

Welding Technology

Associate in Science Degree in Welding Technology

Two-Year Certificate of Achievement in Welding Technology

One-Year Certificate of Achievement in Welding Technology

Certificate of Accomplishment in Welding Technology

Special Instructional Programs (no degrees or certificates)

Athletics

Developmental Studies

Work Experience

LASSEN COMMUNITY COLLEGE COURSE LIST BY PROGRAM

Administration of Justice/Correctional Science

(All AJ Courses) AJ 5, AJ 8, AJ 9, AJ 10, AJ 11, AJ 12, AJ 14, AJ 16, AJ 20, AJ 23, AJ 24, AJ 35, AJ 49, AJ 52A, AJ 52B, AJ 52BR, AJ 53, AJ 57, AJ 71, BUS 22

Agriculture

(All AGR Courses) AGR 1, AGR 2, AGR 3, AGR 4, AGR 8, AGR 9, AGR 10, AGR 11, AGR 12, AGR 13, AGR 14, AGR 19, AGR 20, AGR 21B, AGR 22, AGR 23, AGR 30, AGR 31, AGR 40, AGR 41, AGR 42, AGR 49, AGR 50, AGR 51, AGR 53, AGR 57, AGR 61, AGR 70, AGR 116

Art History/Studio Art

(All Art Courses) ART 1A, ART 1B, ART 2, ART 3, ART 6, ART 7, ART 8, ART 9, ART 10 A-D, ART 18, ART 19A-D, ART 21, ART 22, ART 23, ART 25, ART 26, ART 30, ART 36 A-D, ART 38, ART 39, ART 43A-D, ART 46, ART 49, ART 50, FILM 1

Automotive Technology

(All AT Courses) AT 49, AT 50, AT 54, AT 56, AT 58, AT 60, AT 64, AT 66, AT 68, AT 70, AT 72, AT 74, AT 76, AT 80, AT 82, AT 84, AT 88, AT 90, AT 90A, AT 91, AT 150

Business

AGR 1, AGR 2, AGR 3 (and All Bus Courses) BUS 1A, BUS 1B, BUS 1C, BUS 2, BUS 10, BUS 13, BUS 18, BUS 19, BUS 22, BUS 25, BUS 27, BUS 34A, BUS 34B, BUS 49, BUS 75, BUS 76, BUS 77, BUS 78, BUS 79, BUS 84, BUS 98, (and all CA courses) CA 31, CA 32, CA 49, CA 52, CA 53, ~~CA 54~~, CA 55, CA 56, CA 58, CA 60, CA 150 and COT 50, COT 52, COT 59 and CS 1, and ECON 10, ECON 11, and FS 91, and HO 71

Child Development

(All CD Courses) CD 11, CD 12, CD 15, CD 16, CD 17, CD 19, CD 20, CD 22, CD 23, CD 24, CD 25, CD 26, CD 27, CD 28, CD 30, CD/PSY 31, CD 49, CD 50

Graphic Design

ART 1A, ART 2, ART 8, ART 21, ART 22, ART 23, ART 25, ART 26, ART 28, ART 38, ART 39

Fire Technology

(All FS Courses) EMT 21, and FS 3, FS 4, FS 5, FS 6, FS 8, FS 13, FS 14, FS 20, FS 23, FS 26, FS 49, FS 50, FS 51, FS 52, FS 53, FS 54, FS 56, FS 57, FS 58, FS 59, FS 60, FS 60A, FS 61, FS 64, FS 65A, FS 65B, FS 65C, FS 68, FS 70, FS 70A, FS 70B, FS 70C, FS 72, FS 72A, FS 73A, FS 73B, FS 74, FS 75, FS 76, FS 77, FS 78, FS 79A, FS 80, FS 81, FS 84, FS 85, FS 86, FS 87, ~~FS 88~~, FS 89, FS 90, FS 91, FS 92A, FS 92B, FS 92C, FS 92D, FS 92E, FS 93, FS 94, FS 95, FS 97, FS 98.18, FS 98.20, FS 98.21, FS 156

Gunsmithing

(All GSS Courses) GSS 49, GSS 50, GSS 50.01, GSS 50.03, GSS 51, GSS 51.01, GSS 51.03, GSS 51.05, GSS 51.06, GSS 52, GSS 52.01, GSS 52.02, GSS 52.03, GSS 52.04, GSS 52.05, GSS 52.06, GSS 52B, GSS 52BR, GSS 54.05, GSS 55.04, GSS 56.01, GSS 56.03, GSS 56.04, GSS 57.01, GSS 57.02, GSS 57.03, GSS 57.06, GSS 57.08, GSS 57.15, GSS 58.02, GSS 59.02, GSS 59.03, GSS 59.04, GSS 59.05, GSS 59.07, GSS 59.09, GSS 60, GSS 60.01, GSS 60.02, GSS 60.04, GSS 61.01, GSS 61.02, GSS 61.03, GSS 62.03, GSS 62.04, GSS 63.01, GSS 63.02, GSS 63.03, GSS 63.04, GSS 63.05, GSS 64.01, GSS 66.01, GSS 66.02, GSS 66.03, GSS 67.01, GSS 68.01, GSS 68.02, GSS 68.03, GSS 69.01, GSS 69.02, GSS 69.03, GSS 69.04, GSS 70, GSS 70.01, GSS 70.02, GSS 71, GSS 71.01, GSS 71.02, GSS 71.03, GSS 71.04, GSS 72, GSS 72.01, GSS 73.02, GSS 75.02, GSS 77, GSS 78, GSS 79, GSS 80, GSS 81, GSS 82, GSS 83, GSS 84, GSS 85, GSS 87, GSS 88, GSS 89, GSS 90, GSS 91, GSS 93, GSS 94, GSS 95, GSS 98.02, GSS 98.03, GSS 98.04, GSS 98.05, GSS 98.06, GSS 98.08, GSS 98.09, GSS 98.12, GSS 98.13, GSS 98.21, GSS 98.22, GSS 98.23, GSS 98.24, GSS 112, GSS 112B, GSS 114, GSS 116, GSS 117, GSS 119, GSS 120, GSS 120B, GSS 123, GSS 124, GSS 127, GSS 129A, GSS 129B, GSS 129C, GSS 130, GSS 133, GSS 134, GSS 135, GSS 136, GSS 143, GSS 147, GSS 148

History/Social Science/Sociology/Anthropology

ANTH 1, ANTH 2, ANTH 3, GEOG 2, HIST 14, HIST 15, HIST 16, HIST 17, HUM 1, HUM 2, PLSC 1, PLSC 11, PSY 1, PSY 2, PSY 3, PSY 5, PSY 6, PSY 18, PSY 31/CD 31, PSY 33, SOC 1, SOC 2, SOC 3, SOC 4

Humanities

BS 156, CD 17, (and All Music Courses) MUS 1, MUS 6, MUS 7, MUS 12, ANTH 1, BUS 27, ENGL 1, ENGL 2, ENGL 3, ENGL 4, ENGL 5, ENGL 7, ENGL 9, ENGL 10, ENGL 12, ENGL 22, ENGL 33, ENGL 34, ENGL 105, ENGL 105A, ENGL 150, ENGL 151, ENGL 155, ES 1, ESL 155, FILM 1, GEOG 2, HUM 1, HUM 2, PHIL 1, PHIL 2, PHIL 10, SPAN 1, SPAN 2, SPCH 1

Human Services

(All HUS Courses) HUS 10, HUS 22, HUS 24, HUS 25, HUS 30, HUS 31, HUS 32, HUS 35, HUS 37, HUS 40, HUS 41, HUS 42, HUS 48.05, HUS 49, HUS 61

Information Systems

GIS 1, GIS 2, GIS 3, GIS 4, GIS 5

Mathematics /Natural Science

ANTH 1, ASTR 1 (and All Bio Courses) BIO 1, BIO 10, BIO 20, BIO 25, BIO 26, BIO 32, BIO 32L, BUS 84, COT 59 (and All Chem Courses) CHEM 1A, CHEM 1B, CHEM 8, CHEM 45, GEOL 1, GEOL 5, GEOG 1, (and All Phys Courses) PHY 2A, PHY 2B, PHSC 1, (and All Math Courses) MATH 1A, MATH 1B, MATH 7, MATH 8, MATH 11A, MATH 11B, MATH 40, MATH 60, MATH 156, MATH 164, MATH 187, MATH 168, and FS 91

Physical Education

HLTH 2, HLTH 25, and HO 120, HUS 30, (and All PE Courses) PE 15, PEAC 2A, PEAC 2B, PEAC 2C, PEAC 2D, PEAC 5A, PEAC 5A.02, PEAC 5B, PEAC 5C, PEAC 5C.02, PEAC 5D, PEAC 6, PEAC 6B, PEAC 6D, PEAC 7, PEAC 7D, PEAC 9, PEAC 9B, PEAC 9D, PEAC 10, PEAC 10D, PEAC 16, PEAC 32D, PEAC 34, PEAC 44

Vocational Nursing/Allied Health

CD 50, (and All HO Courses) HO 3, HO 49, HO 70, HO 71, HO 80A, HO 88, HO 120, (and All EMT Courses) EMT 21, EMT 60, EMT 61 and FS 20, (and All VN Courses) VN 50, VN 51, VN 52, VN 53, VN 54, VN 55, VN 56, VN 57, VN 58, VN 59, VN 60

Welding Technology

GSS 124, IT 22, IT 72 (and All WT Courses) WT 20, WT 21, WT 22, WT 23, WT 25, WT 31, WT 32, WT 36, WT 37, WT 38, WT 39, WT 42, WT 43, WT 44, WT 45, WT 49, WT 50, WT 51, WT 52, WT 52

Special Educational Programs:

Developmental Studies

(All DS Courses) DS 110, DS 111, DS 112, DS 113, DS 114, DS 115, DS 116, DS 120, DS 121, DS 122, DS 153, DS 155, DS 158, BS 156, BS 170, BS 171

Work Experience

CARS 2, CARS 151, CARS 153 (and all 49 courses) AGR 49, AJ 49, ART 49, AT 49, BUS 49, CD 49, CT 49, FS 49, GSS 49, HO 49, HUS 49, JOUR 49, WT 49, WE 1, WE 2

ATTACHMENT G

DEFINITION OF TERMS

Assessment.....	The process of judging student behavior or product in terms of some criteria (Clark, 1975). It includes various means of gathering information about the quantity, quality and progress of students, their performance and academic work.
Assessment Cycle.....	The assessment cycle in higher education is generally annual and fits within the academic year. In order to incorporate recommendations into Lassen Community College planning and budgeting processes, the LCC IPRs are conducted over the course of an academic year, culminating in September.
Assessment Results.....	The data/information acquired from the implementation of an assessment tool.
Assessment Tool.....	A tool that has been designed to collect objective data about students' attitudes and skill level. An appropriate learning outcomes assessment tool measures students' abilities to integrate a set of individual skills into a meaningful, collective demonstration. Some examples of assessment tools include standardized tests end-of-program skills test, student inquiries, common final exams, and comprehensive embedded test items.
C-ID.....	Course Identification Number
Core Course.....	Courses within a discipline specifically required for a degree or certificate.
Course Embedded Assessment.....	The review of materials generated in the classroom. In addition to providing a basis for grading students, such materials allow faculty to evaluate approaches to instruction and course design.
Description/Evaluation.....	A subsection provided within the IPR to allow faculty to identify and analyze the current situation within the program to justify recommended changes to the current situation.
Direct Cost per Program.....	All identified direct costs charged to a program as defined by TOP (e.g., instructor salaries, supplies, etc.).
Direct Measures of Learning.....	Students display knowledge and skills as they respond directly to the assessment itself.
Full-time Equivalent Faculty (FTEF).....	The amount of instructional employee time expressed in a proportion to that required in a full-time teaching position, with 1.0 representing one full-time position. FTE is derived by dividing the amount of time taught in a position by the amount of teaching hours required in a corresponding position.
Full-time Equivalent Student (FTES).....	For state accounting purposes, an FTES is a full-time student who attends 15 hours per week for 35 weeks (two primary terms). The rule is: 15 hours x 35 weeks = 525 total WSCH = 1 FTES. To determine FTES, multiply number of students by the number of hours per week and number of weeks, then divide by 525.

General Education or Transfer Programs	For the purposes of this review, general education refers to courses satisfying Associate degree requirements, CSU Certification, or IGETC.
Indirect Measures of Learning	Assessment tools such as surveys and interviews, which ask student to reflect on their learning rather than to demonstrate it.
IGETC	Intersegmental General Education Transfer Curriculum - completion of the IGETC guarantees that a transferring community college student has satisfied the lower division general education requirements of the CSU/UC systems.
Instructional Program	For the purpose of this review, a program shall be defined as follows: a program is an organized sequence course or series of courses leading to a definite objective, a degree, certificate, diploma, a license, or transfer to another institution of higher education.
Planning Agenda	A subsection provided within the IPR to allow faculty to make recommendations for improvement of their programs. Recommendations are divided into those that require institutional support and those to be implemented by the program faculty.
Prerequisite	A condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or program.
Program Learning Outcome	A measurable educational objective as a consequence of participation in an organized sequence of courses (i.e. ability to perform specific work place competencies).
Program Outcome	A measurable objective as a consequence of participation in an organized sequence of courses (i.e. employment, receipt of degree or certificate).
Recommended Preparation	A condition of enrollment that a student is advised, but not required, to meet before, or in conjunction with, enrollment in a course or program.
Statistical Data	The Offices of Institutional Research and Instruction will provide departmental staff with the minimum statistical data as required by the state-wide accountability model.
Student Learning Outcome	An overarching specific observable characteristic developed by local faculty that allows them to determine or demonstrate evidence that learning has occurred as result of a specific course, program, activity, or process.
Weekly Student Contact Hours (WSCH)	The class hour or contact hour is the basic unit of attendance for computing average daily attendance. A contact hour is the basic period of not less than fifty minutes of scheduled instruction. Weekly student contact hours are the total number of student contact or class hours per week.
WSCH per FTE	A ratio of weekly student contact hours to full-time faculty equivalency. This is a measure of faculty load.

LCC Meeting Minutes

Committee Name: Revitalization/Discontinuance Meeting

Meeting Date: 10/6/20

Meeting Time: 1:00 pm

Meeting Location: Zoom

Attendance: Dean Carie Camacho, Dean Roxanna Haynes, Senate President Adam Runyan, Collen Baker: Senator, Alison Somerville: Articulation Officer/Counselor, Lisa Gardiner: Division Chair, Andy Rupley: Division Chair/Senator, James Kleckner: Art Faculty, Laura Greer: Child Development Faculty

Call to Order (Time): 1:02 pm

Approval of minutes from prior meeting: n/a

Action Items: Each meeting action item should identify who motioned, who seconded, what action (approve / table, etc) and whether the action was unanimous by committee members, or not.

- 1.
- 2.
- 3.

Discussion Items: Brief notes of key points should be identified for each item. Be aware minutes become public documents

1. Reviewed Policy and procedures
2. Goals for this committee- revitalization plan for Child Development, discontinuance for Anthropology, Art History, Geology, and DGD.
3. Suggested to streamline Studio Art required elective section
4. Suggested Laura meet with her Advisory Committee
5. Suggested each instructor meet with their Division Chairs
6. Will meet again in one month with recommendations/suggestions

Adjournment (Time): 1:48 pm

Next Meeting (Dates): Nov. 3, 2020

From: [Carie Camacho](#)
To: [Richard Swanson](#); [Jeffrey L Owens](#); [Cheryl Aschenbach](#); [Cory P McClellan](#)
Cc: [Roxanna A Haynes](#); [James L Kleckner](#); [Lisa Gardiner](#); [Andrew Rupley](#); [Adam P Runyan](#); [Robert Schofield](#); [David A Corley](#); [Alison M Somerville](#); [Laura E Greer](#); [Celeste M Wiser](#); [Yuting F Lin](#); [Colleen P Baker](#)
Subject: Meeting to discuss English degree
Date: Tuesday, October 06, 2020 2:53:50 PM

Hi English Folks,

Our campus is currently reviewing several programs and degrees that may need some revitalization to increase student numbers. Academic Senate developed and approved AP 4021 Program Viability and Discontinuance last semester (an ACCJC requirement) and we're now in the process of reviewing programs. A task force met today and will continue to meet in order to work through the AP 4021 process. We would like to invite an English faculty member to join the group so we can properly review our English ADT.

We realize the English degree and courses are being reviewed through our IPR process so this is the perfect time to join the task force. The group consists of myself, Roxanna Haynes, James Kleckner, Lisa Gardiner, Andy Rupley, David Corley, Alison Somerville, Laura Greer, Adam Runyan, Celeste Wiser, Colleen Baker and an English instructor (please let me know who this will be). Once you send me a name I'll bring you up to speed.

Please feel free to reach out to me with any questions or concerns. Our next meeting is scheduled for November 3 at 1:00pm.

Thank you, Carie

LCC Meeting Notes

Committee Name: Revitalization/Discontinuance Meeting

Meeting Date: 11/3/20

Meeting Time: 1:00 pm

Meeting Location: Zoom

Attendance: Dean Carie Camacho, Alison Somerville: Articulation Officer/Counselor, Lisa Gardiner: Division Chair, Chad Lewis: Curriculum Chair, Andy Rupley: Division Chair/Senator, James Kleckner: Art Faculty, Laura Greer: Child Development Faculty, Senate President Adam Runyan,

Missing: Dean Roxanna Haynes, Collen Baker-Senator

Call to Order (Time): 1:03 pm

Approval of minutes from prior meeting: n/a

Action Items:

No action was taken.

Discussion Items:

1. Reviewed Policy and procedures
2. Discussed- revitalization plan for Child Development, discontinuance for Anthropology, Art History, Geology, and DGD.

Program Discussions:

Art

James provided FTE data on the Art. Concern with covering instructional load with many adjuncts who are in retirement. Art generates many FTE, much is incarcerated program.

ECE

Update on ECE revitalization Laura is actively working on updating curriculum, looking at scheduling for the program, licensing requirements, focused on shortening time to completion

Anthropology, Geology

These programs do not have full time faculty. Completions are virtually nonexistent.

Digital Graphic Design

Digital Graphic Design was in essence discontinued years ago, but proper procedures were not followed so we have been trying to finish students on this degree for years. This degree needs to be inactivated as soon as possible.

Adjournment (Time): 2:00 pm

Next Meeting (Dates): Nov. 10, 2020

LCC Meeting Notes

Committee/Group Name: Revitalization/Discontinuance

Meeting Date: 2/5/21

Meeting Time: 1pm

Meeting Location: Zoom

Committee Members/Invitees: Dean Carie Camacho, Dean Roxanna Haynes, James Klechner: Art Faculty, Chad Lewis: Auto Faculty, Lisa Gardiner: Work Experience Faculty, Alison Somerville: Lead Counselor/Articulation Officer, Adam Ruynan: Counselor/Senate President,

Abs: Robert Schofield: Math Faculty, Andy Rupley: Business Faculty, Colleen Baker: Social Science Faculty, David Corley: IT Director

Review/approval of minutes/notes from prior meeting: completed

Additions/Deletions to Agenda? none

Action Items:

1. Art History AD-T: inactivate the degree and deactivate Art 9 Asian Art. There is no history of graduates in the program and there is no one currently seeking the degree. Lisa 1st, Andy 2nd unanimous vote to discontinue program and Art 9. Directive C: Program Discontinuance
2. Digital Graphics program? There has been a steady decline in digital graphic students and the program lacks FTES. Classes are being ran with 2 to 3 students in them continuously. Chad 1st, Alison 2nd unanimous vote to discontinue the Digital Graphics Program. Directive C: Program Discontinuance.

Discussion Items:

Next Meeting(s): Future Agenda Items:

Monday, February 8, 2021
 Consultation Council 3:00 pm via Zoom-

Administration:	Classified:	Faculty:	Management:	Student:
Dr. Trevor Albertson		Alison Somerville		
Dr. Randy Joslin	Carol Montgomery	Yuting Lin	David Corley (ITP)	
Garrett Taylor	Tara Bias	Chad Lewis	Michell Williams	
Brady Reed	Meggin Lewman	Andy Rupley	Terry Bartley	
Carie Camacho	Alt. Karen Clancy	Robert Schofield		
		Adam Runyan		
		Lisa Gardiner		

Chairs: Chairs of Academic Planning Committee (Carie Camacho/Roxanna Haynes), Facilities Planning Committee, Human Resource Planning Committee (Sue Kelley), Institutional Effectiveness Committee, Institutional Technology Planning Committee, and Student Services Planning Committee (Brady Reed)

(if not already members) Dana Armeson, Brenda Hoffman, Tiffany Stone, Roxanna Haynes, Seaira Harrington, Tiffany Montgomery, Carol Growdon, Codi Mortell, Jennifer Tupper, Sandra Jonas (board member), Sue Kelley, Tom Downing, Cathy Harrison, Shar Murphy, Susie Rentfrow, Anna Pasqua, Greg Collins

1. Meeting Opening

1.01 Call to Order and Roll Call at 3:03 pm

1.02 Approval of Agenda –**approved by consensus**

1.03 Approval of Minutes 01/25/2020 - **approved by consensus with the deletion of to the chancellor’s office.**

2. Governance

3. Consultation

3.01 Program Vitality & Discontinuance -- five programs seeking comment -- CIO – Carie Camacho. How do we grandfather our students out that might be in these programs? We review students who have elected that major and offer them the classes they still need to graduate. Once those students graduate the program will dissolve. We did not have this policy in place, but we do now. For the size of our campus, our offerings are too big. We have too many class with only three students in them. Some programs have been revitalized. We haven’t had an Art History graduate in years, so degrees like that need to dissolve. We will still offer some classes like graphic design and geology, they just go towards a different degree. The programs being discontinued or revitalized are will be Geology for Transfer, Anthropology for Transfer, Early

Childhood Education for Transfer (being revitalized not discontinued), Art History for Transfer and Arts in Digital Graphics. This is part of accreditation.

4. Guided Pathway

4.01 Guided Pathways Update-Brady Reed – We have submitted our SOA to the Board of Trustees for tomorrow's meeting. Once it is approved then it will be submitted into NOVA. Trevor and Adam will need to sign it before it is submitted. We have received a grant for \$5,000. That money can be used to pay students for their efforts with campus for student engagement. It must be used by June 30, 2021.

5. Accreditation

5.01 Accreditation Update – Lisa Gardiner- We are reaching out to the different groups.

5.02 Senate-Adam – It is going to be a standing item for senate. We have four items to approve in senate and they are working on standard 3.

5.03 Institutional Effectiveness-David – We will be bringing the updated Institutional Set Standards next meeting after they have gone through senate. They will need our approval. Compliance requirement 2 is being worked on by faculty. We are working on mapping and SLOs. We have already received some and we really appreciate that. Faculty needs to look at the cycle and implement it so we have a circular process with that. Please make sure you turn in your curriculum form with your SLOs and PLSOs. If you have a question, please reach out to Chad Lewis.

5.04 Academic Planning-Carie Camacho- She has a draft that will be completed with all the evidence to Toni Sommer next week.

6. Other-Information/Communication

6.01 Budget update-Garrett Taylor – The today balance for fund 11 is \$16.931 million, fund 12 is 7.1 budgeted. We are taking the TRAN because they are holding back some money. We are probably good enough without the TRAN but we want to be safe. All this information is in the Board reports.

6.02 Good of the Order: Questions for Trevor- Trevor Albertson – We are slowly bringing our systems back on line from the cyber-attacks. There is zero indication that we have had any data breached. If any students need the 1098-T Susie has them and she can get them to our students. Have student email studentaccounts@lassencollege.edu. We are learning through this breach that we need to make sure our students are able to be contacted and get that information. This is something we need to figure out the logistics and process to do this. The 403 error- go to the address bar and hit enter after the hyperlink it will take you to canvas. The CANVAS app for the phone are working. They can also communicate through their app with faculty. We have been through so much and we keep preserving. Thank you!

7. Meeting Closing

7.01 Future Meetings February 22

7.02 Adjourn at 3:44pm

Tuesday, May 25, 2021
Regular Meeting of the Board of Trustees - 5:30 p.m.

*****Revised Procedures for Public Meetings**

In response to the Coronavirus crisis, the Governor has issued Executive Order N-25-20 (<https://www.gov.ca.gov/wp-content/uploads/2020/03/3.12.20-EO-N-25-20-COVID-19.pdf>), Executive Order N-29-20 (<https://www.gov.ca.gov/wp-content/uploads/2020/03/3.17.20-N-29-20-EO.pdf>), and Executive Order N-35-20 (<https://www.gov.ca.gov/wp-content/uploads/2020/03/3.21.20-EO-N-35-20-text.pdf>) modifying the Brown Act in order to facilitate essential public meetings being held through remote methods, such as telephonically or electronically.

Trustees will attend in person and via conference phone. Essential staff will attend in person and the public will attend via conference phone.

Public comment must be submitted in advance, no later than one hour before the start of the meeting (by 4:30 p.m.), via email to: jjohnston@lassencollege.edu. Such comments will be read by District staff during the meeting. Please read further below for the procedure to submit a public comment remotely, for this Board Meeting via Zoom.

6. Public Comments

Subject **6.01 Call for Requests from the Audience to Speak to any Item on the Agenda**

Meeting May 25, 2021 - Regular Meeting of the Board of Trustees - 5:30 p.m.
 Category 6. Public Comments
 Type Information, Procedural

Members of the public may wish to speak to any matter on the agenda prior to Board action; the following procedure shall be followed: Persons wishing to speak must sign in on the "sign in" sheet provided prior to the start of the meeting. Speakers will be called in the order in which they have signed in. At the beginning of the meeting the President of the Board will "Call for Requests from the Audience to Speak to Any Item on the Agenda." At that time, those wishing to speak will be called in order and should stand, state their name, and indicate the Agenda item to which they wish to speak. After the meeting begins and the Agenda item has been introduced by the Superintendent/President or his designee, and before discussion can occur, a motion for action needs to be made and seconded. The order of discussion will be members of the audience and then Members of the Board. The President of the Board will moderate the discussion and will call for a vote on this issue when asked to do so by a member Trustee. Voting on the motion will be by voice vote; either by acclamation or roll call. The decision by the Board of Trustees is Final. In accordance with Administrative Procedure 2345, formerly Board Policy #1400, comments will be limited to three minutes, thirty (30) minutes total per comment period, subject to the discretion of the President of the Board.

*****Revised Procedures for Public Meetings**

In response to the Coronavirus crisis, the Governor has issued Executive Order N-25-20 (<https://www.gov.ca.gov/wp-content/uploads/2020/03/3.12.20-EO-N-25-20-COVID-19.pdf>), Executive Order N-29-20 (<https://www.gov.ca.gov/wp-content/uploads/2020/03/3.17.20-N-29-20-EO.pdf>), and Executive Order N-35-20 (<https://www.gov.ca.gov/wp-content/uploads/2020/03/3.21.20-EO-N-35-20-text.pdf>) modifying the Brown Act in order to facilitate essential public meetings being held through remote methods, such as telephonically or electronically.

Public comment must be submitted in advance, no later than one hour before the start of the meeting (by 4:30 p.m.), via email to: jjohnston@lassencollege.edu.

Such comments will be read by District staff during the meeting. Please read further below for the procedure to submit a public comment remotely, for this Board Meeting via Zoom.

Subject 6.02 Public Comments on Items Not on the Agenda
 Meeting May 25, 2021 - Regular Meeting of the Board of Trustees - 5:30 p.m.
 Category 6. Public Comments
 Type Information, Procedural

Addressing the Board on Items Not on the Agenda: Members of the public may wish to address the Board of Trustees on an item that is not on the Agenda. Members of the public wishing to speak must sign up on the "sign in" sheet provided upon entering the Board Room. They should wait and announce their intention to do so when the President of the Board calls for "Comments from the Audience." They will be heard at that time and called in the order on the sign in sheet. The person should rise, go to the podium, make a brief statement covering the essential facts of their concern and then state what remedy or action, if any, they are requesting of the Board. However, the law (Brown Act) permits no discussion or action by the Board at that time because the item had not been previously listed on the Agenda. In accordance with Administrative Procedure 2345, formerly Board Policy #1400, comments will be limited to three minutes, thirty (30) minutes total per comment period, subject to the discretion of the President of the Board.

Revised Procedures for Public Meetings

In response to the Coronavirus crisis, the Governor has issued Executive Order N-25-20 (<https://www.gov.ca.gov/wp-content/uploads/2020/03/3.12.20-EO-N-25-20-COVID-19.pdf>), Executive Order N-29-20 (<https://www.gov.ca.gov/wp-content/uploads/2020/03/3.17.20-N-29-20-EO.pdf>), and Executive Order N-35-20 (<https://www.gov.ca.gov/wp-content/uploads/2020/03/3.21.20-EO-N-35-20-text.pdf>) modifying the Brown Act in order to facilitate essential public meetings being held through remote methods, such as telephonically or electronically.

7. Administration

Subject	7.01 Approval of Superintendent/President Contract
Meeting	May 25, 2021 - Regular Meeting of the Board of Trustees - 5:30 p.m.
Category	7. Administration
Type	Action

Recommended Action Recommend the Board of Trustees approve the Superintendent/President's, Dr. Trevor Albertson, employment contract in accordance with Education Code Section 72411 and Government Code Section 54953, subdivision (c)(3) to promote transparency in government operations, as presented.

Background

In accordance with Education Code 72411 and Government Code section 54953, subdivision (c)(3), the District must provide an oral summary of the salary and fringe benefits provided in an executive contract prior to board approval in open session.

54953. Before taking final action on an employment agreement for a local agency executive, or a salary or benefit increase for a current local agency executive, the District must make an oral report to the Board in public session as follows:

Pursuant to Government Code section 54953, subdivision (c)(3), the District will provide an oral summary of the salary and fringe benefits recommended for the local agency Superintendent as follows:

- The term of the employment contract between the District and the Superintendent/President is May 26, 2021 through May 25, 2025;
- It is recommended that the Board approve the Superintendent/President's compensation to be \$240,325.00 effective May 26, 2021 and includes Health and welfare insurance benefits in the amount of \$20,357.47;
- For each year of this Agreement, commencing July 1, 2022, and on each July 1st thereafter, the Superintendent/President's salary shall increase by three percent of the total of the prior year's salary. Excluded from this calculation shall be any compensation provided in sections 7.3, 7.5, and 8.2, below. In addition, subject to a satisfactory performance evaluation, a fixed annual adjustment equal to the funded community college district COLA paid to the District by the State for the applicable college year will be provided. No increase based on funded COLA shall exceed five percent (5%).
 - a monthly car allowance of \$1,000.00 for use of his personal automobile;
 - a mobile communications device;
 - an annual Doctoral stipend of \$2,500.00; and
 - relocation expense of \$15,000.00.

Before making a decision relating to the continued employment of a contract of the local executive this information must be shared with the public in open session.

Status and Analysis

The Superintendent/President's contract was negotiated by the Governing Board at their regular meeting May 11, 2021. Government Code Section 54953 requires that approval of an executive contract must occur in open session as part of the transparency in governmental processes of the District. As a result, the Board of Trustees desires to maintain transparency in government in accordance with the Brown Act and has requested to approve the Superintendent/President's contract in accordance with Government Code section 54953(c)(3).

For Board Discussion

How does this action achieve the College's Mission, Vision and Values and support Student Learning?

The following statement was submitted by Christi Myers and read by Julie Johnston:

Greetings Board Members, This year has been an incredible year for LCC Nursing. We will be honoring our LVN graduates this coming Saturday with a Traditional Nurse Pinning Ceremony. The ceremony will be broadcasted on Facebook live, however we would like to invite you to attend the in-person ceremony as our guests if you are available. We will be celebrating the accomplishments of our 16 graduates this Saturday May 29th, 2021 at 3:00 PM in the afternoon at Community Church at 1400 Numa Rd Susanville CA 96130. We hope you can join us online or in-person!

Thank you - **Christi Myers, RN**, Nursing & Allied Health Director

7. Administration

Action: 7.01 Approval of Superintendent/President Contract

President Sophia Wages read the following statement:

In accordance with Education Code 72411 and Government Code section 54953, subdivision (c)(3), the District must provide an oral summary of the salary and fringe benefits provided in an executive contract prior to board approval in open session.

54953. Before taking final action on an employment agreement for a local agency executive, or a salary or benefit increase for a current local agency executive, the District must make an oral report to the Board in public session as follows:

Pursuant to Government Code section 54953, subdivision (c)(3), the District will provide an oral summary of the salary and fringe benefits recommended for the local agency Superintendent as follows:

- The term of the employment contract between the District and the Superintendent/President is May 26, 2021 through May 25, 2025;
- It is recommended that the Board approve the Superintendent/ President's compensation to be \$240,325.00 effective May 26, 2021 and includes Health and welfare insurance benefits in the amount of \$20,357.47;
- For each year of this Agreement, commencing July 1, 2022, and on each July 1st thereafter, the Superintendent/President's salary shall increase by three percent of the total of the prior year's salary.

Excluded from this calculation shall be any compensation provided in sections 7.3, 7.5, and 8.2, below. In addition, subject to a satisfactory performance evaluation, a fixed annual adjustment equal to the funded community college district COLA paid to the District by the State for the applicable college year will be provided. No increase based on funded COLA shall exceed five percent (5%).

- Accrue two (2.0) days of vacation pay for each full month of employment during the term of this Agreement (24 days per year);
- A car allowance of \$1,000 per month for use of his personal

automobile;

- A mobile communications device;
- An annual Doctoral stipend of \$2,500; and
- Relocation expense of \$15,000

Before making a decision relating to the employment of a contract of the local executive this information must be shared with the public in open session.

Motion by Buck Parks, second by Louis Hamilton

Final Resolution: Motion carries.

Ayes: Louis Hamilton, Sandra Jonas, Buck Parks, David Trussell, Sophia Wages

Noes: None

Absent: Kim Dieter

Dr. Albertson advised that this is not about him. It has been a year and a half of rough times for this college and not of our doing. We would not be here without everyone. This is about those that keep this college going, the faculty and staff. Thank you to everyone. President Wages stated she wished to give a thank you to the committee that put together the applicants to come forward and brought them forward to make things easier. This included two community members. President Wages stated she does appreciate it. We got the right candidate.

8. Information Items

Information, Procedural: 8.01 Calendar of Events

President Wages referred those present to the Events tab on the website.

9. Future Dates and Reports

Information: 9.01 Future Dates and Reports

May 28, 2021	Commencement	Gymnasium	5:30 p.m.
June 8, 2021	Regular Meeting	Board Room	5:30 p.m.
July 13, 2021	Regular Meeting	Board Room	5:30 p.m.
July 27, 2021	Workshop Meeting	Board Room	12:00 p.m.
August 10, 2021	Regular Meeting	Board Room	5:30 p.m.

10. Adjournment

Action: 10.01 Adjournment of Meeting

Motion by Buck Parks, second by Louis Hamilton

Final Resolution: Motion carries.

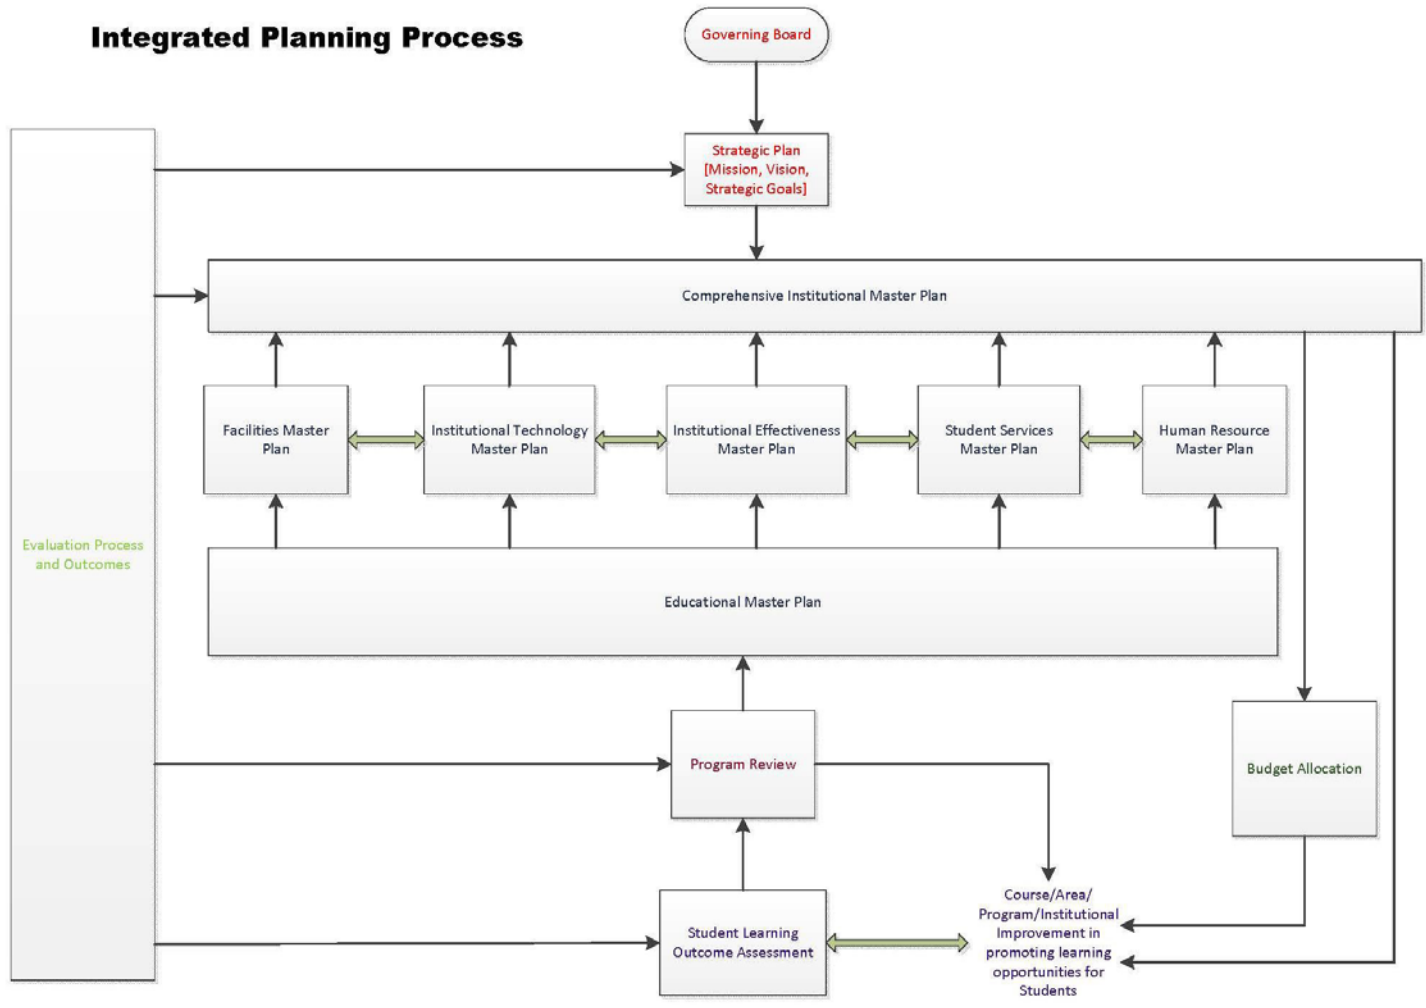

Ayes: Louis Hamilton, Sandra Jonas, Buck Parks, David Trussell, Sophia Wages

Noes: None

Absent: Kim Dieter

The meeting adjourned at 6:13 p.m.

PLANNING AND BUDGET DEVELOPMENT PROCESS

Title 5 of the California Code of Regulations requires that the “[Community College] District financial planning will include both short-term and long-term goals and objectives, and broad-based-input, and will be coordinated with the districts educational planning” (Appendix A: Title 5 Section 58311). Lassen Community College’s planning and budget development process operates within this context.

The Comprehensive Institutional Master Plan is a five-year plan that is updated and sent to the Governing Board for acceptance annually. The institutional planning document and budget will reflect the college mission statement and strategic goals as established by the Governing Board and presented in Section II – Institutional Section (Appendix B: Mission Statement and Strategic Goals).

The institutional planning and budget development process begins with the instructional program review (IPR) and non-instructional program review (NIPR). The instructional and non-instructional program reviews provide the unit level planning documents for Lassen Community College. The program goals and objectives as well as recommendations and budget requests developed during the review process integrate into the various planning sections of the Comprehensive Institutional Master Plan (Section I – Institutional Effectiveness, Section II - Educational Master Plan, Section III – Student Services Plan, Section IV - Institutional Technology Plan, Section V - Facilities Master Plan, Section VI - Human Resource Plan and Professional Development Plan).

The schedule of program reviews is provided in the Instructional and Non-instructional Program Review Handbooks. Career technical education instructional programs are reviewed every two years and academic instructional and non-instructional programs are reviewed every four years. There are also yearly updates for academic and career technical education that follow the same process when needed for changes in curriculum or budgeting. Area administrators will remind program managers when their program review is due. Academic Senate reminds faculty yearly of due dates for instructional program reviews.

The President’s Office will monitor the program review process. The Governing Board will accept each IPR and NIPR. Upon Board acceptance, the Program Review’s Prioritized Recommendations will be entered by the Director of Institutional Effectiveness and Research in a spreadsheet or database. The spreadsheet with all recommendations from the prior year will be provided to the Academic Planning, Institutional Effectiveness Planning, Facilities Planning, Student Services, Human Resource and Institutional Technology Planning Committees.

- The Office of the President is responsible for housing all the current institutional planning documents and for assuring completion of program reviews as scheduled.
- Copies of institutional planning documents and program reviews are placed on the college website.

Regarding the development of the budget, the Comprehensive Institutional Master Plan will be used as the foundation and frame upon, and within which, the Budget is built. All budgets (requests for funding) shall be developed through the budget development process as integrated into the program review process. The same budget request forms and resource allocation process will be utilized for all funding sources.

Budget principles, as presented in Appendix C, are stated in each District Budget document. The following guidelines additionally apply to the development of the Budget:

- a. One-time revenues will be allocated to one-time expenditures; on-going expenditures shall be covered from on-going revenues.
- b. Year-end balances are not budgeted for ongoing expenses.
- c. Funds are budgeted where they are expected to be spent so as to minimize transfers and protect budget integrity.
- d. Contractual obligations and fixed costs are budgeted first.
- e. New positions must be fully funded: salaries, benefits, and support expenses.

EVALUATION OF THE PLANNING AND BUDGET DEVELOPMENT PROCESS

The Planning and Budget Development Process is evaluated annually in conjunction with the Governance Process in late April through May. Adoption of the evaluation timeline and any changes to the evaluation instruments is the responsibility of Consultation Council. The evaluation process consists of distribution of evaluation instruments to each of three components:

1. Planning Committee Self-Evaluation Surveys
 - Academic Planning
 - Consultation Council/Strategic Planning
 - Human Resource Planning
 - Institutional Effectiveness Planning
 - Institutional Technology Planning
 - Student Services Planning
 - Facilities Planning
2. Constituent Group Evaluation Surveys
 - Management/Confidential
 - Associated Student Body
 - Classified
 - Administration
 - Academic Senate
3. Individual Surveys (surveymonkey).

The survey results are compiled and presented to Consultation Council by the Director of Institutional Effectiveness and Research for discussion and acceptance of recommendations for inclusion in the next year's handbook. A subcommittee of the Academic Senate including appointees from Consultation Council meets in late May or early June to revise and update the *Institutional Planning and Budget Development Handbook* based upon the accepted recommendations. The Academic Senate acts on the subcommittee recommendations by July and forwards the approved handbook to Consultation Council/Strategic Planning Committee as an information item.

Lassen Community College District Strategic Plan

Recommendation for revisions by Consultation Council – October 12, 2020

Approved by Board of Trustees – December ____, 2020

Vision

- ❖ Lassen College will be a highly efficient self-sustaining rural community college, a catalyst for the region’s image, economy, and human capital, and an example of a “we can” culture” of collective impact by being:
 - The academic leader by ensuring quality instruction and encouraging student success
 - The educational leader by expanding outreach and student access with an equity mindset
 - The trusted steward by providing capable leadership and accountability
 - The economic and workforce development leader for the community
 - The cultural leader in the community
 - The civic and social leader in the community

Mission

Lassen Community College provides educational programs for all pursuing higher education goals. The core programs offer a wide range of educational opportunities including transfer degrees and certificates, economic and workforce development, and basic skills instruction. The College serves diverse students, both on campus and in outreach areas in its effort to build intellectual growth, human perspective and economic potential.

Strategic Goals

1. **Institutional Effectiveness:** Provide the governance, leadership, integrated planning and accountability structures, and processes to effectively support an inclusive learning environment, while ensuring responsible stewardship of public trust and resources.
2. **Learning Opportunities:** Provide an array of rigorous academic programs delivered via a variety of modalities that promote student equity and learning while meeting the needs of the local and global community.
3. **Resource Management:** Manage human, physical, technological and financial resources to sustain fiscal stability and to effectively support the learning environment.
4. **Student Success:** Provide a college environment that reaches-out-to and supports students, minimizes barriers, and increases opportunity and success through access and retention to enable student attainment of educational goals including completion of degrees and certificates, transfer, job placement and advancement, improvement of basic skills, and self-development through lifelong learning.

Institutional Student Learning Outcomes

1. **Communication** - Ability to listen and read with comprehension and the ability to write and speak effectively
2. **Critical Thinking** - Ability to analyze a situation, identify and research a problem, propose a solution or desired outcome, implement a plan to address the problem, evaluate progress and adjust the plan as appropriate to arrive at the solution or desired outcome
3. **Life Long Learning** - Ability to engage in independent acquisition of knowledge; ability to access information including use of current technology; ability to use the internet and/or library to access and analyze information for relevance and accuracy; ability to navigate systems
4. **Personal/Interpersonal Responsibility** - Ability to develop and apply strategies to set realistic goals for personal, educational, career, and community development; ability to apply standards of personal and professional integrity; ability to cooperate with others in a collaborative environment for accomplishment of goals; ability to interact successfully with other cultures

Lassen College Values:

Student Success:

- Students reaching their goals
- Students being prepared for transfer to four-year institutions
- Students being prepared for employment
- Doing what is best for students
- Learning as a priority over teaching
- Student needs; they are paramount in the learning process
- Recognizing and minimizing barriers to student success

Educational Excellence:

- Equitable student learning as the focal point of every experience
- High quality educational delivery
- Highly qualified instructors
- High quality technology and materials
- Well-equipped classrooms

Honesty/Integrity:

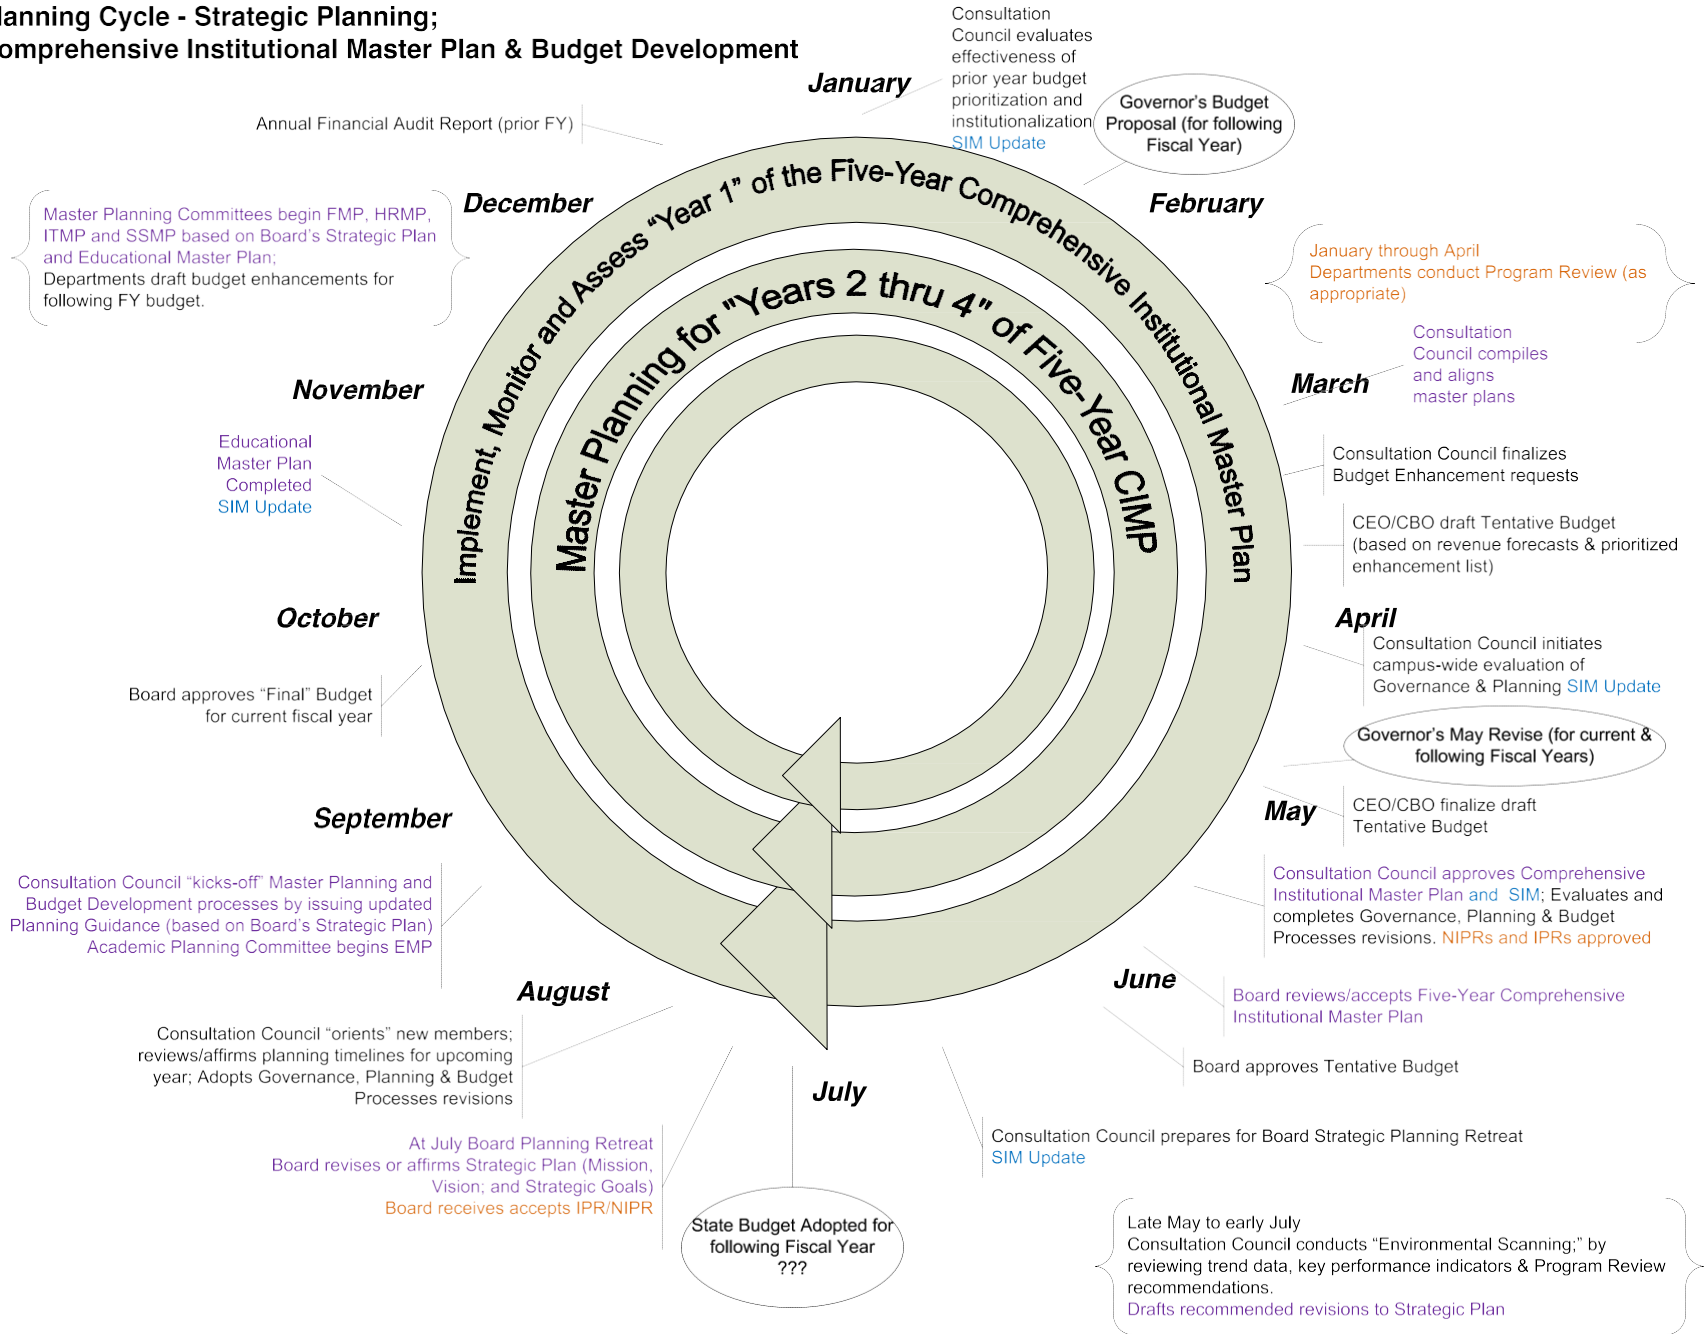

- Trust in relationships
- Dependability
- Transparency
- Collaboration
- Sustainability
- Accountability

Dignity & Respect:

- Open forum for exchange of ideas
- Civility
- Collegiality
- Diversity & Equity
- Active listening and communication

**Planning Cycle - Strategic Planning;
Comprehensive Institutional Master Plan & Budget Development**

Integrated Planning Process

Planning & Budget Input Process Flow Chart

PLANNING/BUDGET DEVELOPMENT CALENDAR

(Orange type = Planning, Black type = Budget Development)

JULY

- Governing Board Planning Retreat
 - Strategic Plan – 1st read at July Governing Board Retreat
 - Presentation of Compiled and Analyzed Data
 - Presentation of Previous Year's Action Plan Evaluation Matrix
 - Presentation of progress on Key Performance Indicators
- Update of *Annual Fact Book* published
- Adoption of revised Institutional Planning and Budget Development Process Handbook by the Academic Senate

AUGUST

- Consultation Council/Strategic Planning Committee develops annual budget prioritization criteria
- Governing Board adoption of Strategic Plan
- Presentation of revised Institutional Planning and Budget Development Process Handbook to Consultation Council

SEPTEMBER

- Presentation of instructional program reviews, non-instructional program reviews, and annual updates to Consultation Council/Strategic Planning Committee and forwarded to Governing Board
- IE office will send the IPR and NIPR data out
- Distribution of Institutional Planning and Budget Development Process Handbook, and Current Year Fiscal Updates/Budget Assumptions
- Governing Board approval of final budget
- Associate Dean of Institutional Effectiveness and Research compiles recommendation from previous years' program reviews and annual updates into spreadsheet
- Status Report of Previous Years Budget Prioritization Spreadsheet presented to Consultation Council – Budget Prioritization Tracking Matrix 1st Quarter Update
- Academic Planning Committee works on development of Educational Master Plan
- Planning Committee Chairs meet as sub-committee of Consultation Council/Strategic Planning to determine format of annual master plans.

OCTOBER

- Program Review Recommendation Spreadsheet from previous year program reviews and annual updates forwarded to planning committees by office of Institutional Effectiveness and Research. Recommendations prioritized by the program must include budget needs and requests information as well as justifications from Comprehensive Institutional Master Plan and primary budget prioritization criteria. The same resource allocation process will be utilized for all funding sources.
- Consultation Council/Strategic Planning Committee adoption of Educational Master Plan

- **Status Update on Progress on Annual Planning Agenda (Action Plan Evaluation Matrix) presented to Consultation Council**
- Unit level members (divisions for instructional areas and program areas for non-instructional areas) will meet to prioritize budget requests for unit (division or program area) based on the adopted budget prioritization criteria.
- The prioritized spreadsheet of budget requests for each area will be forwarded to area dean, the office of Institutional Effectiveness and Research, and Consultation Council for inclusion in minutes.
- **Planning Committee Chairs meet as sub-committee of Consultation Council/Strategic Planning to review budget recommendations.**
- **Facilities Planning, Human Resource Planning, Institutional Effectiveness Planning, Institutional Technology Planning and Student Services Planning Committees work on development of Master Plans based on Educational Master Plan**

NOVEMBER

- Area administrators will prioritize area budget requests on the spreadsheet based on the adopted budget prioritization criteria in consultation with appropriate planning committee.
- Prioritized list will be forwarded by the area dean to the office of Institutional Effectiveness and Research. and the Consultation Council/Strategic Planning Committee
- **Consultation Council adoption of Institutional Effectiveness Master Plan and Student Services Master Plan**

DECEMBER

- **Consultation Council adoption of Institutional Technology Master Plan**
- Budget Prioritization Tracking Matrix 2nd Quarter Update

JANUARY

- The Chief Business Officer monitors current year operations and evaluates the status of the following academic year's budget by comparing the projected revenues against the projected expenditures. The Chief Business Officer will advise the President's Cabinet of any projected budget shortfalls potentially impacting staffing levels.
- The President's Executive Cabinet will forward recommendations based on the projections to the Consultation Council/Strategic Planning Committee prior to any consideration of institutional prioritization of budgetary requests.
- Consultation Council may conduct Listening Forums for campus input
- **Consultation Council adoption of Facilities Master Plan**

FEBRUARY

- Discussions by Consultation Council/Strategic Planning Committee on the recommendations received from the President's Cabinet will occur prior to the third week in February.
- Consultation Council/Strategic Planning Committee will evaluate all budget requests prioritized by unit level managers and area deans. Institutional priorities will be assigned to each budget request.
- The prioritized list (spreadsheet) will be distributed to the campus community at the end of February.

MARCH

- Consultation Council/Strategic Planning Committee will hold open forum budget meetings.
- Funding categories will be assigned to the prioritized list by the Chief Business Officer.

- The recommended prioritized list will be forwarded to President for his consideration and published with Consultation Council minutes.
- Environmental Scan Data Compiled
- Consultation Council adoption of Human Resources Master Plan
- Budget Prioritization Tracking Matrix 3rd Quarter Update

APRIL

- Consultation Council acceptance of master plan revisions as a result of other plans developed since initial adoption.
- Consultation Council/Strategic Planning Committee adoption of the Comprehensive Institutional Master Plan

MAY

- Annual Report on NIPR SLO/AUO Assessment Results (Office of Institutional Effectiveness and Research)
- Annual Evaluation of the planning and governance process conducted by Consultation Council/Strategic Planning Committee
- The Chief Business Officer will draft the tentative budget for institutional review to include 50% Law Analysis and GANN Appropriations Unit.
- The President will finalize the ranked list into the Institutional Budget Priority List for the Comprehensive Institutional Master Plan, presentation to the campus and Governing Board.
- Cut-off date for processing of purchase requisition.

JUNE

- Budget Prioritization Tracking Matrix 4th Quarter Update
- Academic Senate/Strategic Planning Subcommittee incorporated recommendations from the annual evaluation process revising the Institutional Planning and Budget Development Process Handbook
- The President will submit the tentative budget to the Lassen Community College District Governing Board for approval

Appendix A: PRINCIPLES FOR SOUND FISCAL MANAGEMENT

Title 5. Education

Division 6. California Community Colleges

Chapter 9. Fiscal Support

Subchapter 4. Budgets And Reports

Section 58311

In any organization certain principles, when present and followed, promote an environment for growth, productivity, self-actualization, and progress. The following principles shall serve as the foundation for sound fiscal management in community college districts:

1. Each district shall be responsible for the ongoing fiscal stability of the district through the responsible stewardship of available resources.
2. Each district will adequately safeguard and manage district assets to ensure the ongoing effective operations of the district. Management will maintain adequate cash reserves, implement and maintain effective internal controls, determine sources of revenues prior to making short-term and long-term commitments, and establish a plan for the repair and replacement of equipment and facilities.
3. District personnel practices will be consistent with legal requirements, make the most effective use of available human resources, and ensure that staffing costs do not exceed estimates of available financial resources.
4. Each district will adopt policies to ensure that all auxiliary activities that have a fiscal impact on the district comport with the educational objectives of the institution and comply with sound accounting and budgeting principles, public disclosures, and annual independent audit requirements.
5. Each district's organizational structure will incorporate a clear delineation of fiscal responsibilities and establish staff accountability.
6. Appropriate district administrators will keep the governing board current on the fiscal condition of the district as an integral part of the policy- and decision-making processes.
7. Each district will effectively develop and communicate fiscal policies, objectives, procedures, and constraints to the governing board, staff, and students.
8. Each district will have an adequate management information system that provides timely, accurate, and reliable fiscal information to appropriate staff for planning, decision-making, and budgetary control.
9. Each district will adhere to appropriate fiscal policies and procedures and have adequate controls to ensure that established fiscal objectives are met.
10. District management will have a process to evaluate significant changes in the fiscal environment and make necessary, timely, financial and educational adjustments.
11. District financial planning will include both short-term and long-term goals and objectives, and broad-based-input, and will be coordinated with the district educational planning.

12. Each district's capital outlay budget will be consistent with its five-year plan and reflect regional planning and needs assessments. To the extent that the foregoing principles repeat or paraphrase mandates already in existence, these underlying mandates shall continue to be legally binding. Otherwise these principles, by themselves, shall be applied to the extent that existing state and district funding is available.

Appendix C: LCC 2019-2020 BUDGET PRINCIPLES, PRIORITIES, AND CRITERIA

BUDGETING PRINCIPLES:

- Transparency
- Broad participation
- Balanced
- Conservative
- Complete/comprehensive (including long term obligations)

BUDGET GUIDELINES AND PRIORITIES:

- Align with College's Strategic Plan (Vision/Mission/Values/Strategic Goals)
- Achieve Strategic Goals – ensuring student success, expanding services and access (growth).
- Transfer resources from indirect (internal) services to prioritize services that directly support student success and program growth.
- Mitigate future risk and avoid future cost increases by finding external (outsourced) solutions for high-risk administrative services.
- Align categorical/restricted programs with Strategic Goals; to the degree possible and allowable, use those funds to support on-going District expenditures even if on a one-time basis. Make maximum use of pro-offered “flexibility with Categorical funds.”
- Recommend level of reserves equal to 15% [approximately two (2) months of operations] – Board Policy 6200 - Budget Preparation.
- To accommodate cash flow shortfalls, implement a disciplined spending plan tied to cash-flow projections with centralized spending control.
- Use inter-fund borrowing in preference to external borrowing, due to added costs and potential conflicts between scheduling of repayment and deferred apportionment.

2019-2020 BUDGET PRIORITIZATION CRITERIA (adopted by the Consultation Council/Strategic Planning Committee – November 5, 2018):

1. **Statutory Mandates and Fixed Costs** – Items we have no control over and which are necessary for the daily operation of the college: salary step increases, benefit increases (STRS, PERS, health, workers comp, etc.), contract agreements, utility increases, software/lease agreement increases.
2. **Regulatory Mandates** – Items that are required by another body, including legislature or Chancellor's Office. These should be brought forward in a program review or addendum since advanced notice is generally given. Evidence of the mandate must be provided.
3. **Health and Safety** – Items determined by administrators to be immediate risks to health and safety will be handled immediately with existing funds and will not go through the budget process. Items addressing health and safety risks as identified in program reviews and/or by Safety Committee will be initially prioritized by Facilities Master Plan and Safety Committees.
4. **Implementation of Strategic Goals** – Items may range from maintenance of existing facilities and programs to program growth, with an emphasis on items supporting or enhancing student learning and success and on items originating in the program review process.

Appendix D: Glossary of Terms

Abatement: The return of part or all of an item of income or expenditure to its source.

Accounting System: (1) The special field concerned with the design and implementation of procedures for the accumulation and reporting of financial data. (2) The total structure of records and procedures, which discover, record, classify, and report information on the financial operations of an agency through its funds, balanced account groups, and organizational components.

Administrative Unit Outcomes (AUOs): Similar to SLOs, administrative outcomes determine what the expected outcomes are for offices and departments that provide services and administrative support rather than instruction.

Annual Appropriation Limit (Gann Limit)

Apportionment: Allocation of state or federal aid, district taxes, or other moneys to community college districts or other governmental units.

Appropriation for contingencies: (formerly termed Undistributed Reserve) That portion of current fiscal year's budget not appropriated for any specific purpose and held subject to intrabudget transfer, i.e., transfer to other specific appropriations as needed during the fiscal year. (becomes the "ending balance" at June 30, and the "beginning balance" at July 1.

Budget: A plan of financial operation for a given period for specified purposes consisting of an estimate of income and expenditures.

Budget document: The instrument used by the budget-making authority to present a comprehensive financial program (for California Community Colleges, this Form CCFS-311). Included is a balanced statement of revenues and expenditures (both actual and budgeted), as well as other exhibits.

Capital Outlay: The acquisition of fixed assets or additions to fixed asset, including land or existing buildings, improvements of grounds, construction of buildings, additions to buildings, remodeling of buildings, or equipment.

Charts of Accounts: A systematic list of accounts applicable to a specific entity.

Community Services: Educational, cultural, and recreational services, which an educational institution may provide for its community in addition to regularly scheduled classes. Community college districts receive no direct State apportionment for community services.

Contract Services: Services rendered by personnel who are not on the payroll of the college system, including all related expenses covered by the contract.

Current Expenses of Education (CEE): EC 84362, CRR 59200 et seq. The current General Fund operating expenditures of a community college district excluding expenditures for food services, community services, object classifications 6000 (except Equipment Replacement) and 7000, and other costs specified in laws and regulations.

Current Liabilities: Amount due and payable for goods and services received prior to the end of the fiscal year. Current liabilities are paid within a relatively short period of time, usually within a year.

Deferred Income: Revenue received prior to being earned such as bonds sold at a premium, advances received on federal or State program grants, or registration fees received for a subsequent period.

Deficit: Excess of liabilities over assets.

Direct Expenses or Costs: Expenses that can be separately identified and charged as a party of the cost of an activity, department, services, or a product.

Employee Benefits: Amounts paid by an employer on behalf of employees. These amounts are not included in the gross salary, but are over and above. While not paid directly to employees, they are nevertheless part of the cost of salaries and benefits. Examples are (1) group health or life insurance payments; (2) contribution to employee retirement; (3) district share of O.A.S.D.I. (Social Security) taxes; (4) worker's compensation payments.

Encumbrances: Obligations in the form of purchase orders, contracts, salaries, and other commitments for which part of an appropriation is reserved.

Entitlement: An amount of money to which an entity has a right as determined by the granting or awarding party.

Expenses of Education: This includes all General Fund expenditures, restricted and unrestricted, for all objects of expenditure 1000 through 5000 and all expenditures of activity from 0100 to 6700.

Expenses: Expenditures made or liabilities incurred for goods and services used in the current year.

Fiscal Year: For governmental entities in the State of California, the period beginning July 1 and ending June 30. Otherwise, it is usually a period of one year which can by agreement begin at any time and end one year later.

Fixed Assets: Assets of permanent character having continuing value such as land, buildings, machinery, furniture, and equipment.

Fixed Costs: Those costs, that remain relatively constant regardless of enrollment or volume of business. Examples include interest, insurance, and contributions to retirement systems.

Full-time Equivalent (FTE) Employees: Ratio of the hours worked based upon the standard work hours of one full-time employee. For example, classified employees may have a standard work-load of 40 hours per week, if several classified employees worked 380 hours in one week, the FTE conversion would be $380/40$ or 9.5 FTE.

Full-time Equivalent Students (FTES): An FTES represents 525 class (contact) hours of student instruction/activity in credit and noncredit courses. Full-time equivalent student (FTES)

is one of the workload measures used in computation of state support for California Community Colleges (see form CCF-320, “Apportionment Attendance Report”).

Fund: An independent fiscal and accounting entity with a self-balancing set of accounts for recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein.

Fund Balance: The fund equity of governmental funds and Trust Funds; the difference between assets and liabilities within a fund.

General Fund: The fund used to account for the ordinary operations of the district. It is available for any legally authorized purpose not specified for payment by other funds.

Indirect Cost: Elements of cost necessary in the operation of the Local Educational Agency (LEA) or in the performance of a service that are of such nature that the amount applicable to each accounting unit cannot be determined readily and accurately or for which the cost of such a determination exceeds the benefit of the determination.

Instructional Aide: A person employed to assist classroom instructors and other certificated personnel in the performance of their duties; in the supervision of students; and in instructional tasks which, in the judgment of the certificated personnel to whom the instructional aide is assigned, may be performed by a person not licensed as a classroom instructor (EC 88243)

Liabilities: Debt or other legal obligations (exclusive of encumbrances) arising out of transactions in the past, which must be liquidated, renewed, or refunded at some future date.

Long-term Debt: A loan that extends for more than one year from the beginning of the fiscal year.

Non-Instructional Program Review (NIPR): A program review completed by areas that do not have instructional responsibilities. In cases where a program provides instruction as well as support or services, an IPR will be completed.

Prepaid Expenses: Goods or services for which payment has been made, but for which benefits have not been realized as of a certain date; e.g., prepaid rent, prepaid interest, and premiums or unexpired insurance. Benefits and corresponding charges to expenses will be borne in future accounting periods.

Program Accounting: A system of accounting in which records are maintained to accumulate income and expenditure data by program rather than by organization or by fund.

Restricted Accounts: Cash and/or other assets, which are limited as to use or disposition by their source. Their identity is therefore maintained and their expenditure or use is also recorded separately.

Sales and Use Tax: A tax imposed upon the sale of goods and services. The use tax is paid in lieu of sales tax on goods purchased outside the state, but intended for use in the state.

Self-Insurance Fund: An Internal Service Fund designed to account for income and expenditures of self-insurance programs.

Student Learning Outcomes (SLOs): The expected knowledge, skills or attitudes students will have after completing a course, program, or leaving the institution after accomplishing an academic goal.

Appendix E: LCC Evaluation Survey – Planning Committees

Lassen College Planning, Budgeting and Governance Process Review Planning Committee Survey

Committee Name:

Date:

Members Present:

Members Absent:

Planning Section

When answering these questions consider the “planning process” the process used to create the Comprehensive Institutional Master Plan; including but not limited to the work of planning committees (Academic Planning, Student Services Planning, Institutional Effectiveness Planning, Institutional Technology Planning, Facility Planning, Human Resource Planning etc.) as well as the recommendations from IPR and NIPRs and analysis of student learning and administrative unit outcome results.

1. What works in the planning process at Lassen College?
2. What doesn't work in the planning process at Lassen College?
3. What changes would you make in the process to improve efficiency and effectiveness?
4. What additional resources (human, research data, additional information, etc.) does your committee need to perform your assigned tasks?
5. Do you feel your contribution to the planning process is necessary?

6. Do you feel your contribution to the planning process is valued?

Governance Section

1. Did your committee perform during the preceding year as identified in the committee's charge?
2. Identify results (products) of committee activities?
3. Provide suggestions to change or modify the committee charge.
4. Was the committee membership appropriate to implement its charge? If not what changes are needed?
5. Provide an analysis of the participation of the membership. Identify any individual or constituent group representation not in attendance more than fifty percent of the meetings.
6. How could communication between committees and others be improved with regards to governance?

Appendix F: LCC Evaluation Survey – Constituent Groups

Lassen College Planning, Budgeting and Governance Process Review Constituent Group Survey

1. What works in the planning process at Lassen College?
2. What doesn't work in the planning process at Lassen College?
3. What changes would you make in the process to improve efficiency and effectiveness?
4. What additional resources (human, research data, additional information, etc) do you feel the planning committees need to perform their assigned tasks?

Governance Section

1. What is working well in the Shared Governance and Collegial Consultation process?
2. Do you have any suggestions or comments to improve the function of the Share Governance and Collegial Consultation Process?
3. Do you have any suggestions for modifying, adding, or deleting any components of the governance and/or organizational structures of the institution?

Appendix G: LCC Evaluation Survey – Individuals

Lassen College Planning, Budgeting, and Governance Process Review

Individual Survey

Constituent group identification: (faculty, staff, admin, mgmt., student)

How long employed by the college: (0-1 year, 2-5 years, 6+years)

Please answer all questions using the 1 to 5 scale with 1 = Strongly Disagree, 2 = Disagree, 3 = Neutral, 4 = Agree, 5 = Strongly Agree

The planning process at Lassen College works and produces appropriate institutional plans.

I receive information about institutional planning through a variety of ways (by receiving committee minutes, through committee membership, through my group's representatives on various committees, through open forums).

I know who to ask and where to go for additional information about budgeting, planning, and governance.

The institution plans in the correct areas.

The process I follow to have my ideas heard (through open forums, through representatives, etc) is effective.

The Comprehensive Institutional Master Plan is the appropriate vehicle for institutional planning.

The institutional planning process is appropriately tied to the budget development process

Suggestions for improving the planning and/or governance processes at Lassen Community College:

COLLEGE

STUDENT LEARNING OUTCOMES HANDBOOK 2020-2021

Academic Senate Adoption: _____ 3-24-2021 _____

Curriculum Committee Review: _____ 4-6-21 _____

INTRODUCTION

The Accrediting Commission for Community and Junior Colleges (ACCJC) requires associate degree granting institutions to meet four standards that ensure that the public receives a valuable education.

The Standards measure not only the quality and effectiveness of the institution's programs and support services no matter where or how they are offered, but also the effectiveness of the institution in meeting its mission, the adequacy of resources, and the processes of leadership, governance, and decision-making to adapt the institution to meet a changing future (ACCJC.org).

The four standards are designed to foster discussion about the institutions effectiveness and ways to enhance it. The four standards are as follows:

STANDARD I

The institution demonstrates strong commitment to a mission that emphasizes student learning and student achievement. Using analysis of quantitative and qualitative data, the institution continuously and systematically evaluates, plans, implements, and improves the quality of its educational programs and services. The institution demonstrates integrity in all policies, actions, and communication. The administration, faculty, staff, and governing board members act honestly, ethically, and fairly in the performance of their duties.

STANDARD II

The institution offers instructional programs, library and learning support services, and student support services aligned with its mission. The institution's programs are conducted at levels of quality and rigor appropriate for higher education. The institution assesses its educational quality through methods accepted in higher education, makes the results of its assessments available to the public, and uses the results to improve educational quality and institutional effectiveness. The institution defines and incorporates into all of its degree programs a substantial component of general education designed to ensure breadth of knowledge and to promote intellectual inquiry. The provisions of this standard are broadly applicable to all instructional programs and student and learning support services offered in the name of the institution.

STANDARD III

The institution effectively uses its human, physical, technology, and financial resources to achieve its mission and to improve academic quality and institutional effectiveness. Accredited colleges in multi-college systems may be organized so that responsibility for resources, allocation of resources, and planning rests with the district/system. In such cases, the district/system is responsible for meeting the Standards, and an evaluation of its performance is reflected in the accredited status of the institution(s).

STANDARD IV

The institution recognizes and uses the contributions of leadership throughout the organization for promoting student success, sustaining academic quality, integrity, fiscal stability, and continuous improvement of the institution. Governance roles are defined in policy and are

designed to facilitate decisions that support student learning programs and services and improve institutional effectiveness, while acknowledging the designated responsibilities of the governing board and the chief executive officer. Through established governance structures, processes, and practices, the governing board, administrators, faculty, staff, and students work together for the good of the institution. In multi-college districts or systems, the roles within the district/system are clearly delineated. The multi-college district or system has policies for allocation of resources to adequately support and sustain the colleges.

The guidance provided in this document is specifically designed to help the institution meet Standard I and II as it pertains to Outcomes Assessment (OA), specifically, Student Learning Outcomes (SLOs). For guidance on how to meet the other standards, please refer to the ACCJC website.

Building a common language around Student Learning Outcome assessment is key to increased understanding and success. Please find a list of frequently used terms below:

SLO: (Student Learning Outcomes) State what a student is able to know or do at the completion of a course.

PSLO: (Program Student Learning Outcomes) State what a student is able to know or do at the completion of a program.

ISLO: (Institutional Learning Outcomes) Identify desired abilities of students upon completion of their education at Lassen Community College based on their whole college experience including receiving instruction and services, as well as engagement as a member of the LCC community.

GESLO: (General Education Student Learning Outcomes) Specify what a student is able to know or do at the completion of a course that relates to transferable general education criteria.

Outcome Assessment Cycle

Figure 1 *The process of outcomes assessment.*

Outcomes Assessment Cycle: The process by which we develop, assess, analyze, improve and integrate outcomes aligned with institutional mission into our planning process through program review in support of institutional strategic goals.

Student Learning Outcome and Assessment Cycle

Step 1: Develop/Modify Student Learning Outcomes (SLOs)

Course SLOs are developed and included in Curriculum submissions of new courses. Program SLOs are included in Curriculum submissions for new programs. SLO Mapping is included with initial Curriculum submissions. SLO Maps align SLOs to GESLOS and ISLOS [Appendix A: SLO Map]. Program SLO Maps align course SLOs to Program SLOs [Appendix B: PSLO Map]. Many existing programs have these maps in place; those that do not are being pushed to complete them Spring 2021. Course and program SLOs may be revised at any time through the Curriculum process. Regular review of course and program SLOs occurs during the IPR process. Special courses not mapped to PSLOs are mapped to ISLOs and GESLOs.

Step 2: Design Measure & Set Target

SLO Maps identify measure(s) and target for SLO assessment.

Step 3: Assess SLOs

Course SLOs are assessed utilizing identified measures each term a course is offered, following the course's 2 year plan cycle. Two year plans for each program are located on the Lassen Community College website. Faculty are contractually required to assess a minimum of one SLO per course per term. SLO Assessment plans are submitted to Academic Services at the beginning of the term. Faculty collect and report SLO Assessment results at the end of the term.

PSLO and ISLO assessment is integrated into the IPR process. Programs receive PSLO and ISLO assessment data during their IPR Orientation.

Step 4: Analyze/Improve Assessment Results

SLO Assessment Results include measure, target, number of students who achieved target, and a listing of proposed actions, or improvement plans, where targets are not met. Discussion of Improvement Plan design may be facilitated by Departmental Improvement Plan Brainstorming Form [Appendix C: Departmental Improvement Plan Brainstorming Form]. Discussion of SLO results, improvement plans, and impact of improvement plans is integrated into the IPR process.

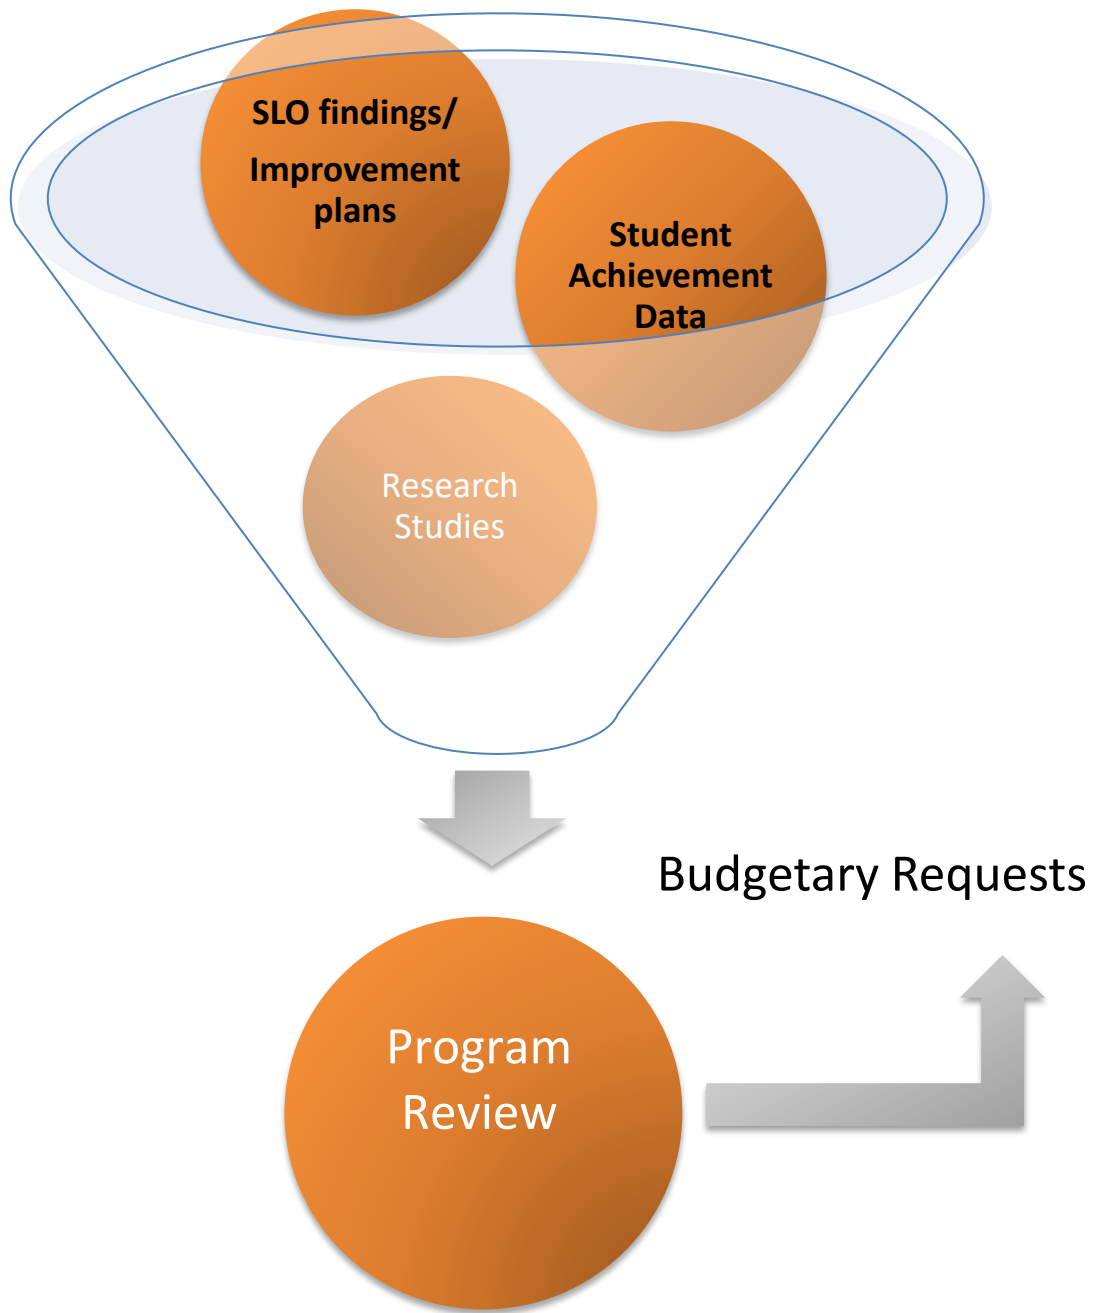

Step 5: Report & Integrate Findings

Longitudinal SLO data is provided for Instructional Program Reviews (IPRs) by the Institutional Effectiveness Office. IPRs include faculty analysis of SLO assessment results and SLO improvement plans (IPR Template Section II: Student Learning Outcomes).

The Instructional Program Review Handbook provides the mechanism by which budgetary requests identified in program reviews are supported by SLO findings and improvement plans, student achievement data, findings from research studies (where available); and are aligned with institutional strategic goals as a means to support quality improvement and evidence driven decision making (IPR Template Sections I-IV Planning Agendas and IPR Template Section VI. B: Prioritized Recommendations for Inclusion in the Planning Process).

Figure 2

The use of evidence to support budgetary decision making through program review:

SLO Process Improvement Plan Timeline

ACCJC Requirements and Recommendations identified in the June, 2020 Action letter from ACCJC brought to light improvements needed in LCC's SLO processes. As a result, a SLO Process Improvement Timeline was developed with the following goals:

Year 1: 2020-2021: Systematic Improvement

1. Consistent assessment of SLOs.
2. Consistent mapping aligning course SLOs to ISLOs, PSLO's and GESLOs.
3. Pilot project focused on PSLO and ISLO assessments targeted for inclusion in IPRs due 2021-2022.
4. Revision of IPR Handbook to emphasize discussion of SLO assessment results, "closing the loop."

Year 2: 2021-2022: Implementation

1. Integration of improved SLO data in IPRs
2. Integration of IPR prioritized recommendations in planning process
3. Analyze results of PSLO/ISLO pilot assessment project. Develop improvement plans for furthering robust SLO assessment.

STUDENT LEARNING OUTCOMES

Student Learning Outcomes (SLOs) state what a student is able to do at the completion of a course or course assignment. A student learning outcome is a statement of expectation that articulates:

- What students will know, do or think/feel as a result of our interaction with them,
- Specifies how learning will be assessed, and
- Documents the results of assessment and how those results will be used to improve learning.

SLOs are: “What can students do or produce at the end of the course that they could not at the beginning.”

Measuring SLOs

- SLOs are measurable so that the difference between the planned achievement and the learned achievement can be narrowed.
- Once outcomes are known, faculty can adjust the course or program to better accomplish the expected outcomes or the outcomes can be re-written to better reflect expected student learning.
- Expectations for student learning and assessment are *collaboratively authored* and *collectively accepted*.

Assessment

“Not everything that can be counted counts and not everything that counts can be counted.”
Albert Einstein

Assessment is an ongoing process primarily aimed at one of two things:

- 1) Improving programs and/or services, and
- 2) Understanding and increasing student learning.

Measurement is the process of collecting data for evaluation of your **Outcomes**.

- **WHAT** you are going to measure.
- This will help you determine **HOW** you are going to collect your data.

The Division/Department must:

- Make program objectives and student learning outcomes explicit and public
- Set appropriate criteria and high expectations;
- Systematically gather, analyze, and interpret data to determine how well programs and services meet those expectations and criteria

- Use the resulting data to document, explain, and improve programs, services, and student learning outcomes
- Re-evaluate criteria and modify as necessary.

Direct vs. Indirect Assessment

Direct assessment involves looking at actual samples of student work.

- Direct measures assess student performance of identified learning outcomes, such as mastery of a lifelong skill. They require standards of performance.
- Examples of direct assessments are: pre/post-test; course-embedded questions; standardized exams; portfolio evaluation; videotape/audiotape of a performance.

Indirect assessment is gathering information through means other than looking at actual samples of student work.

- Indirect measures assess opinions or thoughts about student knowledge, skills, attitudes, learning experiences, and perceptions.
- Examples of indirect measures are: student surveys about instruction; focus groups; alumni surveys; employer surveys.

Formative Assessment

Formative assessment refers to assessment that is carried out throughout the course of study, project, or time-frame to provide feedback regarding whether the outcome is being met.

Formative assessment may be conducted for the following reasons:

- Program improvement;
- To provide feedback in order to improve instruction, learning, and curricula;
- To identify students' strengths/weaknesses and
- To determine if the SLOs and instruction are in sync.

Summative Assessment

Summative assessment refers to assessment that is carried out at the end of a course, project, or time-frame to evaluate whether the outcome was achieved (i.e., the overall performance).

Summative assessment may be conducted for the following reasons:

- Evaluation and accountability;
- Decision-making regarding fund allocation;
- To aid in program level decision-making;
- To respond to demands of accrediting bodies, state and federal agencies.

FREQUENTLY ASKED QUESTIONS

The following section focuses on questions (FAQs) related to Student Learning Outcomes (SLOs)

1) What are SLOs and how do they differ from course objectives?

According to the ACCJC, Student Learning Outcomes are the “knowledge, skills, abilities, and attitudes that a student has attained at the end (or as a result) of his or her engagement in a particular set of collegiate experiences” (ACCJC Standards Adopted 2002, Standards Glossary, p.6). In other words they are the “specific observable or measurable results that are expected subsequent to a learning experience.” The SLO Glossary produced by ASCCC (2010) further clarifies by stating that,

SLOs describe a student’s ability to synthesize many discreet skills using higher level thinking skills and to produce something that asks them to apply what they’ve learned. SLOs usually encompass gathering together of smaller discrete objectives through analysis, evaluation and synthesis into more sophisticated skills and abilities (p. 13).

SLOs differ from course objectives in that the latter are specific teaching objectives that drive course content and activities (ASCCC.org). Objectives are small steps that lead toward a goal, for instance the discrete course content that faculty cover within a discipline. Objectives are usually more numerous and create a framework for the overarching student learning outcomes which address synthesizing, evaluating and analyzing many of the objectives (ASCCC, 2010, p. 10).

2) Why should I participate in this process?

The Academic Senate views outcomes assessment as a productive activity that can improve teaching practices and thus enhance student learning. For this reason, effective assessment practices are important not only to meet accreditation demands but also to benefit the college, the faculty, and the students.

Principle 11 of the Guiding Principles of SLO Assessment (2010) states, “Faculty should engage in SLO development and assessment not because it is a requirement for accreditation but rather because it is good professional practice that can benefit programs and students” (p.25). According to this, faculty’s chief responsibility is to provide students with an effective and rewarding learning experience. The responsibility involves participation in development of curriculum at the course, program and college level, and not just the responsibility for one’s own classes. Furthermore, “decisions regarding curriculum development should be based on collegial and authentic analysis of data...and for this reason SLO assessment can provide informative and beneficial input for making curricular evaluation and discussion at all levels more valuable and purposeful (Guiding Principles of SLO Assessment, 2010).

The Guiding Principles of SLO Assessment (2010) also states,

Outcomes and their assessments therefore must remain under the purview of those responsible for teaching the courses and those who are most qualified to make decisions regarding curricular practices. Faculty should have control of assessment processes and take the lead in analysis and use of the data. Collection of data should be led by the faculty members in the courses they teach. In all aspects of SLO development and assessment, faculty should assume primary responsibility (p.26).

In other words, because faculty members have the necessary expertise, curricular decisions need to remain under their control. For this reason faculty need to be the ones that engage in assessment of student learning outcomes and the curricular decisions that follow. Guiding Principles of SLO Assessment (2010) supports, “When designed and implemented appropriately, SLO assessment can provide significant benefits as a tool for evaluating and revising curriculum and for improving student learning, and these benefits should be the primary reason for faculty to participate in assessment work” (p.26).

The Guiding Principles of SLO Assessment (2010) reflects on the consequence of ignoring SLOs by stating,

If faculty do not accept these responsibilities and fail to see SLO assessment as a beneficial professional practice, both faculty and students may suffer. If assessment becomes a task done only to satisfy the ACCJC, faculty will be less likely to engage in authentic discussions of valid data, and indeed the data collected itself may well be less informative. Curricular development and decision making will be less effective, thereby depriving students of the maximum educational experience. In addition, faculty who do not engage in assessment activities may find that decisions regarding curriculum are made for them, either by smaller groups of individuals who have chosen to become involved or, worse yet, by non-faculty who have taken on the responsibilities rightly due to the instructional experts (p.26).

3) Should grades suffice for assessment?

According to the Guiding Principles of SLO Assessment (2010), Principle 8, states “SLO Assessment processes and grading are different but mutually compatible activities and should complement rather than conflict with each other” (p.21). Grades and SLOs are not the same thing because they have different approaches and have different purposes. Grading usually involves assigning a letter to some assignment or class the student participated in. The grade tells you very little or nothing about what skills the student can perform. Grades also tell you nothing about how the student can improve. According to Sholars (2009),

It is very difficult to trace back the learning of specific skills from a general grade. For example, if a student earns a “B” in the course, it is not possible to determine which skills or topics within the course were grasped well by the student simply by looking at the grade the student earned. Different faculty members teaching the same course could vary in the way they measure the combination of the different skills to produce the grade. For instance, Professor A might count the research paper for that course as 20% of the student’s overall grade, while Professor B might count the research paper for that course as 15% of the student’s overall grade. If that same research paper was used to assess an SLO, the faculty would score the skills that the faculty determined important on a faculty-

developed rubric. The faculty would have been normed on the rubric. Consequently, a student could earn an “A” in the course, but have scored 3 out of 4 on a faculty-developed rubric.

It is not just faculty that should be aware of the skills attained by a student after an assignment, but also the student. Students should be assigned a grade on an assignment and also a score that pertains to the SLO. If the student is familiar with the rating scale on the rubric, and what skills each score represents for a particular SLO, the student would be aware of what skills he or she has attained and which have not yet been mastered.

[Therefore,] formative SLO assessment involves evaluating student performance with the aim of providing feedback that will enhance student learning through improved instruction. Formative assessment helps the student and the instructor to ascertain what has been learned and what still needs to be learned and thereby can improve both teaching and learning” (p.26).

Thus, student learning outcomes are more useful for helping students understand how to improve their performance in a class and in future classes. Data from SLO assessment also provides feedback to faculty about how to improve instructional practices in a current class and in subsequent classes. Grading and outcomes assessment need not conflict with each as both serve necessary functions. “Faculty who employ only grades or only outcomes assessment may be depriving their students of important feedback. For example, a composition instructor who reads a student essay and simply assigns a letter grade or score, or even one who offers brief, general written comments to the student, has done little to improve the student’s writing. More productive comments would target specific expectations or outcomes for the paper and explain to the student where and how those expectations have or have not been satisfied. Through such feedback students can advance their skills and enhance their understanding of the course material. Thus, grading and outcomes assessment both serve important though separate roles and rather than conflicting, these processes should work in tandem to provide the different levels of input necessary for complete and effective student evaluation.

4) How do I begin? (Writing SLO’s)

The fillable Course SLO Map form (Appendix A) provides space for the description of SLOs and linkages to measures and achievement targets. Additionally, the form allows for linkages between the SLOs and the Institutional Learning Outcomes (ILOs) and the General Education Outcomes (GEOs).

According to the SLO Glossary produced by ASCCC in 2010, SLOs describe a student’s ability to synthesize many discreet skills using higher level thinking skills and to produce something that asks them to apply what they’ve learned. SLOs usually encompass gathering together of smaller discrete objectives through analysis, evaluation and synthesis into more sophisticated skills and abilities. (ASCCC, 2010, p. 13). An SLO refers to an overarching outcome for a course, program, degree or certificate, or student services area (such as the library).

Therefore, you should begin by examining at the specific course objectives listed in the Course Outline of Record (COR) for the particular course. You should then try combining 2 or 3 or more of them into one logical cohesive outcome that can be assessed.

For example, at LCC BUS 2 course has the following course objectives:

1. Cite and explain major events in U.S. history that have had a material effect on the way we conduct business in the U.S. today.
2. Compare and contrast economic systems found globally.
3. Define business ethics and explain the role of social responsibility in an organization.
4. Describe the role of information technology and the impacts it has had on business in the U.S. and globally.
5. Describe the major benefits and barriers found in international trade.
6. Compare and contrast commonly found forms of business organization by identifying primary benefits and detriments of each organizational form.
7. Describe the key management functions found in common business operations.
8. Describe the major theories and contemporary practices of business leadership.
9. Identify current production & operations processes and practices.
10. Identify key human resource management functions and the laws surrounding the management of people as a workforce.
11. Explain the primary components and functions of financial statements and conduct a simple financial statement analysis.
12. Describe the different types of common business financing options the impacts it has on various financial business positions.
13. Identify key components and functions of securities markets and the monetary system.

Objectives 8, 9, and 10 could be combined and rewritten as: Students will demonstrate an understanding of contemporary business principles and practices.

The other objectives can be combined similarly to yield other student learning outcomes.

Phrases and Words to be AVOIDED: Below is a list of words and phrases, which should be avoided when possible. These words are not forbidden. It is simply being suggested that they be avoided whenever possible or that their meaning be more fully elaborated when used by explaining how one would know if students are appreciating, enjoying, understanding, etc.

Words and Phrases to be AVOIDED when Evolving Objectives and Learning Outcomes:

believe	SHOW:	BECOME:
capacity	Appreciation for...	Acquainted with...
comprehend	Attitude of...	Adjusted to...
conceptualize	Awareness of ...	Capable of...
depth	Comprehension of...	Cognizant of...
experience	Enjoyment of...	Conscious of...
feel	Feeling for...	Familiar with...
hear	Interest in...	Interested in...
intelligence	Knowledge of...	Knowledge about...
know	Understand of...	Self-confident in...
listen		
memorize		

perceive realize see self-actualize		
--	--	--

Shopping List of VERBS: It is often very hard to find the right work to describe the students' expectation when writing an outcome or objective. The shopping list of verbs listed below may be useful in constructing course objectives and student learning outcomes.

**A Categorized “Shopping List” of Verbs
Useful for Making Objectives and Outcomes More Precise**

alter analyze appraise arrange attempt attend categorize change chart choose cite circle classify collect combine compare compile complete conclude consider contrast copy count criticize shorten structure tally	discover discriminate distinguish distribute document duplicate evaluate explain expand extend find follow formulate gather record relate reproduce return search signify sort suggest support underline signify switch tell	generate generalize identify imitate include indicate induce infer isolate itemize label list locate map mark match modify name note omit order organize paraphrase place simplify synthesize volunteer	plan point predict present propose provide question quote rearrange recall recombine reconstruct regroup rename reorder reorganize repeat rephrase restate restructure retell rewrite save select state systematize
--	--	---	--

General Applications

<u>Language</u>	<u>Mathematics</u>	<u>Science</u>	<u>Social</u>
abbreviate	add	calibrate	accept
accent	bisect	compound	agree
alphabetize	calculate	connect	aid
argue	check	convert	allow
articulate	compound	decrease	answer
capitalize	compute	demonstrate	buy
edit	count	dissect	communicate
hyphenate	derive	graft	complement
indent	divide	grow	contribute
outline	estimate	increase	cooperate
print	extrapolate	insert	disagree
pronounce	extract	lengthen	discuss
punctuate	graph	light	excuse
read	group	limit	forgive
recite	integrate	manipulate	greet
speak	interpolate	nurture	guide
spell	measure	operate	help
state	multiply	plant	inform
summarize	number	prepare	interact
syllabicate	plot	reduce	join
translate	prove	remove	lend
type	reduce	replace	meet
verbalize	solve	report	offer
write	square	reset	participate
	subtract	set	permit
	tabulate	specify	praise
	tally	straighten	react
	verify	time	relate
		transfer	serve
		weigh	share
			supply
			talk
			volunteer
			vote

Analyzing Process Complexity: It is important for the instructor to be fully aware of what the learner must do mentally with the content of the objective. Certain mental operations are obviously more difficult to accomplish than others. To recall information and report it in the same form as it was learned is a simpler task than to break the information down into previously unseen elements. Educators have noted that learning can occur at various levels of complexity. Select words which relay the degree of complexity of the learning process during the writing of objectives and outcomes.

I. Responding (simple specific responses)		
Example Verbs:		Example Outcome:
Circle	Imitate Sort	“...without the use of references, recall with 80% accuracy, the position held by key candidates on central issues of a recent local or national campaign...”
Connect	List State	
Define	Point Tell	
Duplicate	Recall Underline	
Find	Recognize	
Identify	Repeat	
II. Elaborating (demonstrating comprehension)		
Example Verbs:		Example Outcome:
Classify	Locate information	“...accurately paraphrases summary statements made by each major candidate on the central issue of the campaign to the satisfaction of the instructor.”
Compute	Measure	
Discriminate	Paraphrase	
Explain briefly	Produce	
List reasons for		
III. Investigating (simple application of basic knowledge)		
Example Verbs:		Example Outcome:
Cite evidence for	Investigate	“...distinguish editorial from factual information in over half of the instances, when provided with reviewing assignments in each of three new media (e.g. television, newspaper, magazine).”
Find more about	Omit	
Gather data on	Order	
Illustrate		
IV. Analyzing (application of complex operations)		
Example Verbs:		Example Outcome:
Compare		“...justify his or her selection of a least two different news media considered as reliable sources of information on candidates and issues. All justification to be documented from references, citing at least five types of evidence of reliability.”
Justify with logic and evidence		
Contrast		
Organize data in new forms		
Differentiate		
Interpret		

V. Concept Forming (developing simple original applications)	
<p style="text-align: center;">Example Verbs:</p> <p>Discover and document relationships Elaborate the concept of... Identify variables in Prove beyond a reasonable doubt</p>	<p style="text-align: center;">Example Outcome:</p> <p>“...document at least three reports exemplifying the concept that, ‘in a democratic process, no action is equal in effect to a positive action.’ Each report must be logically developed and consistent with factual records in the judgment of the instructor.”</p>
VI. Principle Forming (mastery and elaboration of concepts, principles or original thoughts)	
<p style="text-align: center;">Example Verbs:</p> <p>Deduce Predict Extrapolate Reorganize Infer Synthesize Integrate Rank order on varied criteria</p>	<p style="text-align: center;">Example Outcome:</p> <p>“...correctly predict (in at least four out of five instances) the action taken on given controversial issues by national political office holders; when provided case studies which clearly document voter and lobby pressures, as well as other pertinent facts, as they existed.</p>
VII. Problem Solving (fully developed original contributions)	
<p style="text-align: center;">Example Verbs:</p> <p>Discuss critically Formulate hypothesis and experiments Generalize from data Improve the process by which Prepare explanatory model Suggest refinements in Tailors logical arguments</p>	<p style="text-align: center;">Example Outcome:</p> <p>“...tailor logical appeals to peers who hold views opposing his or her own view on a controversial political issue. Over half of those persons to whom he directs the appeal, should as a result, at least agree as to the logical nature of his appeal, if not also describing themselves as less certain on the issue than before.”</p>

Bloom’s taxonomy is a well-known description of levels of educational objectives. It may be useful to consider this taxonomy when defining your SLOs.

1. **Knowledge:** Recalling or remembering information without necessarily understanding it. Includes behaviors such as describing, listing, identifying, and labeling.

2. **Comprehension:** Understanding learned material and includes behaviors such as explaining, discussing, and interpreting.

3. **Application:** The ability to put ideas and concepts to work in solving problems. It includes behaviors such as demonstrating, showing, and making use of information.

4. **Analysis:** Breaking down information into its component parts to see interrelationships and ideas. Related behaviors include differentiating, comparing, and categorizing.
5. **Synthesis:** The ability to put parts together to form something original. It involves using creativity to compose or design something new.
6. **Evaluation:** Judging the value of evidence based on definite criteria. Behaviors related to evaluation include: concluding, criticizing, prioritizing, and recommending.³ (Bloom, 1956)

5) Now SLOs are written, what do I do with them?

SLOs are specific measurable outcomes that are expected subsequent to a learning experience. Therefore, an **assessment tool** must be found or developed that can yield data that determines whether that outcome has taken place. In other words, the assessment tool should be able to tell you whether students can really do what the SLO states. According to the Guiding Principles for SLO Assessment (2010), Principle 1: “Faculty have the primary responsibility for developing assessment tools and determining the uses of data that are collected, and therefore faculty engagement and active involvement in SLO assessment is essential” (p.9).

As mentioned previously, only faculty have the necessary expertise, training, background, and experience necessary to develop effective methods of SLO assessment for their courses and programs. According to Principle 1 in the Guiding Principles for SLO Assessment (2010), “This same principle applies not only to classroom instruction, but also to student support services, library services, and all other areas of a student’s academic experience” (p.9).

At the beginning of each semester faculty prepare and submit an SLO Assessment Plan for each class within one week of the first meeting of the class.

6) What are the different types of assessments that I can use?

In *The Concept of Formative Assessment*, Boston (2002) offers the following explanation and definition of the concept of assessment: “Black and William (1998b) define assessment broadly to include all activities that teachers and students undertake to get information that can be used diagnostically to alter teaching and learning” (p. 8).

There are many different modes of assessments: The following, though by no means exhaustive, is a list of some of the most common tools:

Table 1 *Common Assessment Tools*

Academic Direct Measures	Academic Indirect Indicators	Administrative Measures
Capstone Assignment	Advisory Board	Activity Volume
Comprehensives	Alumni Survey	Benchmarking
Internship Evaluations	Benchmarking	Climate/Environ
Licensure Exam	Curriculum	Discussions

Performance	Employer Survey	Doc. Analysis
Portfolio	Exit Interviews	Efficiency
Pre/Post Test	Focus Groups	Evaluations
Presentation	Graduate Acceptance	Existing Data
Project	Honors/Awards	External Report
Standard. Test	Placement Data	Focus Groups
Thesis/Project	Satisfaction	Gov't Standards
Video/Audiotape	School Perform	Prof. Standards
Written Assignment	Student Evaluations	Satisfaction
Writing Exam	Transfer Acceptance	Service Quality

According to the Guiding Principles for SLO Assessment (2010):

If the term “assessment” refers to the process of collecting data, then “assessment results” are the data or evidence produced by this process. Such data need not always be quantifiable or measurable in numerical terms. Assessment results may take various forms, including not only quantitative data such as numerical or statistical scores but also qualitative evidence such as portfolios, narratives, performances, or other data that may be more dependent on observation than computation. Any information produced by assessment processes that can be used for analysis and improvement of student achievement and learning would fall under the category of assessment results (p. 8).

7) How do I know I have a good assessment tool for my SLOs?

This question is best answered by the Guiding Principles of SLO Assessment (2010) Principle 5: “SLO assessment should be as authentic as possible and should be minimally intrusive to the educational experience of students and the instructional planning and performance of faculty” (p.16).

Good assessment needs to simulate real world experiences and involve the application of critical thinking to tasks that approximate real world conditions like the workplace and other situations outside the classroom (Wiggins, 1990). Appropriate SLO assessment should not be simply a reproduction of information without context to anchor it. Authentic assessment is meaningful and involves application of knowledge and skills, not just simply memorization of information. The ACCJC’s 2012 SLO Rubric notes the importance of authentic assessment as an aspect of SLO proficiency: “Student learning outcomes and authentic assessment are in place for courses, programs, and degrees” (p. 5).

Faculty members also need to consider providing assessments at certain intervals of a course rather than just at the end. Such assessments are more useful because they can track student progress and provide more useful feedback to improve student learning. In other words, ongoing authentic assessment can improve the input that faculty provide to students as an aspect of instruction throughout their classes. As Chickering and Gamson’s (1987) *Seven Principles for Good Practice in Undergraduate Education* states, “In classes, students need frequent opportunities to perform and receive suggestions for improvement” (para. 15).

Assessments should also be integrated into courses so they are non-obtrusive and as least disruptive as possible. Guiding Principles of SLO Assessment (2010), Principle 5 indicates, “Other, more formal assessment practices also might be developed as a part of the standard instructional program for a course. Assessment data can be collected from work students do as required course activities, projects, or assignments, requiring minimal additional course preparation or student performance” (p. 16). Faculty members can plan for such standards assessments in advance by incorporating them into their classes as part of the normal expectations for students in the course. This insures that SLO assessment will be as efficient and practical as possible

Furthermore, according to the Guiding Principles of SLO Assessment (2010), Principle 6 states, “Rather than relying on one assessment method for all situations, effective assessment may benefit from a variety of methods, even within a single course, that can respond to different learning outcomes, teaching styles, and student learning needs” (p.16).

8) Where do we collect the data?

At the end of each semester faculty submit the results of SLO Assessment, and steps taken as result of the assessment, within eight (8) District business days after the last day of finals. Data is submitted via an electronic, “End of Term Course Student Learning Outcomes Results” form (Appendix B).

Assessment criteria must be established for each SLO prior to collecting data. Assessment criteria refer to the percentage or ratio of questions answered correctly. For example, a multiple-choice test may require that 75% of the questions be answered correctly for the SLO to be met. Therefore the assessment criteria would be 75%. Assessment criteria can also be set for more complicated assignments like papers, projects, etc. by following a rubric.

An **achievement target** must also be set for each SLO before data is collected. The achievement target refers to the overall percentage of students that successfully meet the assessment criteria for the SLO. For example, a particular course might require that 80% of the students be successful when assessed for a particular SLO. Thus, for this particular SLO, 80% would be the achievement target.

9) What do we do with the data once it is collected?

Faculty need to take part in a discussion of the SLO results for their courses. All faculty who teach a particular course need to discuss the SLO results in order to decide whether they need to modify the SLO, the assessment tool, the assessment criteria, or the achievement target. More importantly, faculty members need to decide what the results mean for that particular course in order to modify it or improve it. Improvement plans involve consideration of planned changes that result from the review of SLO assessment results. Planned changes can include changes to the structure of an assessment or course, to the forms or other tools used as part of instruction, include changes to the curriculum of the course, the curriculum of the program, scheduling or sequencing changes to curriculum, requests for new equipment, etc. Improvement Plans include planned changes as well as the proposed participants, timeline, and assessment plan to evaluate the planned changes. The Departmental Improvement Plan Brainstorming Form (Appendix C)

provides guidance and a means to capture the dialog and information needed to create robust Improvement Plan(s).

According to the Guiding Principles of SLO Assessment (2010), Principle 1 states,

Faculty are in direct contact with students, have the greatest knowledge and deepest understanding of the students' needs and abilities, and have the responsibility for developing and delivering the curriculum and course content, and therefore faculty can better understand the context of the data. By accepting and embracing their responsibility for SLO design and assessment, faculty will be in the best position to examine assessment data, ask questions about what the data suggest, and make appropriate changes to classroom and institutional practices in order to improve student learning (p.9).

10) Who should be involved in this process?

According to the Guiding Principles of SLO Assessment, (2010) Principle 2 states,

Outcomes assessment is a process that should involve all appropriate participants at each level of the college, not just select groups or individuals. SLO assessment must involve full-time faculty members, part-time faculty members, staff, administrators, and anyone else directly or indirectly serving students. Faculty members need to take primary responsibility for developing SLOs, the assessments, analyzing data, and coordinating discussions. Part-time faculty members need to be involved as well as they are a majority of the faculty at most colleges. Faculty should be the ones making curricular decisions, especially those concerning how it can be changed and improved by using SLO data. Staff members also need to be involved. Staff members need to be involved in preserving data, maintaining and recording it, as well developing software tools and systems. Staff members are thus needed to support the entire SLO assessment process.

Discussion should also be held at the college level by faculty under the leadership of the academic senate. Instructional and student support service faculty should also be involved. According to the Guiding Principles of SLO Assessment (2010), Principle 2:

A comprehensive system of support services exists, and is characterized by a high degree of integration among academic and student support services. Instructional and student support services faculty should not work in isolation from each other, but rather should collaborate and share information at all levels in order to more fully inform and strengthen the delivery of all aspects of a student's educational experience" (p.11).

There must also be assistance from college researchers to aid in the design and implementation of SLO instruments as well as evaluating their validity and applicability. Administrators also play an important role in the SLO process. Administrators need to support and facilitate the process. They need to make available sufficient staffing, technology, resources, compensation and other needs. Not only this, administrators must also support the SLO process through organization, scheduling, facilitating, coordinating, and encouraging, and approval of other necessary efforts to make the process more effective. According to the Guiding Principles of SLO Assessment (2010), Principle 2: "If the entire college is involved in assessment efforts, with each area or constituent group fulfilling its appropriate role while understanding and

respecting the faculty’s primacy in SLO processes, all areas will be able to work cooperatively toward the common goal of serving students in the most effective ways possible” (p. 11).

11) Now that SLOs have been defined, assessment tools have been developed, data and action plans have been collected. Am I done?

No. The process is supposed to be ongoing and lead to “**continuous quality improvement**” of the courses, programs and services offered by the college. According to Principle 1 of the Guiding Principles of SLO Assessment (2010), “The purposes of student learning outcomes include assessing student achievement, evaluating the strength of courses and programs, and identifying instances in which instruction and student learning can be improved” (p.9). Furthermore, According to the Guiding Principles of SLO Assessment (2010), Principle 3 states, SLOs and SLO assessment should be connected to the overall culture of the college through the college vision or values statement, program review processes, and college curriculum, planning, and budgeting processes”(p.10).

SLO assessment is not an end to itself but a vehicle for program and educational improvement. It needs to be an ongoing activity which uses current data to inform instructional practices. It should not be a periodic exercise that uses outdated assessments and data to inform current practices and decisions. The Academic Senate’s *SLO Terminology Glossary* (ASCCC, 2010) defines “**closing the loop,**” as:

Closing the Assessment Loop

The use of assessment results to improve student learning through collegial dialogue informed by the results of student service or instructional learning outcome assessment. It is part of a continuous cycle of collecting assessment results, evaluating them, and using the evaluations to identify actions that will improve student learning, implementing those actions, and then cycling back to collecting assessment results, etc. (p.4).

This requires a commitment by all people across all levels of the college. Faculty members are more likely to believe in the process and devote their effort if they feel it will lead to budgetary

decisions that will enhance students' educational experience. The college needs to make budget decisions that will support the projects and innovation that will lead to curriculum improvement. ACCJC emphasizes the importance of using assessment data as a basis for decision making throughout the college:

The institution uses assessment data and organizes its institutional processes to support student learning and student achievement (ACCJC Standard I.B.4).

Colleges must therefore integrate SLO assessment into its program review. In other words, data from SLO assessment needs to inform the decision making reflected in program review. Programs need to be analyzed based on concrete information, thus making the program review process more data driven. This allows SLO assessment to connect logically and meaningfully to both short-term and long-term college planning. SLO data can inform decisions for improvement of programs, the setting of goals and implementation of strategies, as well as allocation of resources to address these needs. Programs can use concrete data to support their budgetary requests thereby making budget discussions more meaningful and better informed. The decision making process will tie resource allocation directly to the SLO process.

Guiding Principles of SLO Assessment (2010) suggests, "Perhaps the highest level at which SLOs and SLO assessment can be incorporated into the culture of a college is by connecting general education outcomes directly to the college vision, values, or mission (p.10). Colleges might want to revise their mission statement, if necessary, to make an obvious connection with its institutional learning outcomes. Institutional learning outcomes should also have an explicit connection with the general education outcomes.

12) Do SLOs remain the same once established or can we change them?

SLOs can be revised as needed. According to the Guiding Principles of SLO Assessment (2010), Principle 3, that states:

The process and the SLOs themselves must remain open to revision and adjustment. Student needs and curricular practices change, and colleges must continuously reflect on their practices and expectations in order to serve students as fully as possible. The job of SLO development and assessment is never finished, and SLOs should not be seen as fixed or unchangeable. For SLO data to be effective in informing decision making at all levels of the college, the SLO assessment process should be revised as necessary to reflect changes in the college's curriculum, needs, and culture (p.10).

13) Okay, we are continuously assessing student learning outcomes, revising them as needed, and using them to inform program review. Now are we done?

No. Program learning outcomes, general education outcomes, and institutional outcomes must also be developed. Program learning outcomes (PLOs) have been defined by Marshall (2013) as "Broadly inclusive statements that might be considered areas of competency within a given discipline or general area of competency within a GE program." PLOs must be developed for any sequence of courses that leads to a certificate or degree.

According to the Guiding Principles of SLO assessment (2010), Principle 4, “SLOs should be clearly mapped and aligned throughout a course sequence and among various levels (course, program, institution) to achieve the most efficient and effective assessment” (p.15). The mapping of these outcomes needs to be thoughtful and involve dialogue among all necessary parties. This includes not only faculty, but also staff and administration. According to ASCCC (2010), “When dealing with outcomes and assessment, it is important to determine that course outcomes align or match up with program outcomes; that institutional outcomes align with the college mission and vision” (p.1). Doing this makes the assessment process more practical and efficient. An example within Principle 4, presents a scenario, “If program outcomes are designed and mapped to reflect direct connections to the SLO s of the courses that comprise the program, then assessment of the program outcomes may be conducted using data provided through the process of course SLO assessment” (p. 15). This means SLO assessments, if appropriately designed and assessed, can double as program learning outcomes. Furthermore, program learning outcomes assessment need not incorporate data from every course that comprises the program. Certain programs that have mastery courses, where students master a skill that was introduced in previous courses, might choose to focus assessment at the courses where mastery occurs.

Assessment of general education and institutional outcomes requires a broader dialogue. The *SLO Terminology Glossary* (2010), states that institutional learning reflect “The knowledge, skills, and abilities a student is expected to leave an institution with as a result of a student’s total experience” (p.9). Thus, they combine expertise found in several areas or a combination of areas and not a single discipline. Institutional learning outcomes include those related to institutional effectiveness (degrees, transfers, productivity) as well as learning outcomes. Principle 4 reflects on the success of the process as;

Successful attainment of general education and institutional outcomes depends on the overall educational experience that is founded on the course and program level. If students do not achieve the expected outcomes at the course and program level, then they are also unlikely to attain the college-level outcomes. For this reason, colleges should work to establish explicit alignment between program outcomes and those at the general education and institutional level. If students are successful in achieving course and program level outcomes, and if those outcomes provide direct and clear connection to the general education outcomes, then assessment will once again be simplified and the overall educational experience of students will have greater coherence and will therefore be enhanced (p. 16).

14) Can results of SLO, PLO assessment be used against me?

No. According to Guiding Principles of SLO Assessment (2010, Principle 10: “SLO assessment of student learning outcomes is a process that is separate from faculty evaluation.” (p.24). Alan Craig and Fulks (2007) support, “Placing student learning outcomes data within a faculty member’s evaluation would create a downward pressure on the rigor of the outcomes and a strong motivation to create assessments that validate or justify the content, pedagogy, and assignments” (p. 2). Thus, SLO assessment results would not be a true indicator of whether learning has taken place or whether the results should be used to improve the courses, programs, or services the college offers.

Institutional Learning Outcomes
1. Communication- Ability to listen and read with comprehension and the ability to write and speak effectively.
#2. Critical Thinking- Ability to analyze a situation, identify and research a problem, propose a solution or desired outcome, implement a plan to address the problem, evaluate progress and adjust the plan as appropriate to arrive at the solution or desired outcome.
#3. Life Long Learning- Ability to engage in independent acquisition of knowledge; ability to access information including use of current technology; ability to use the internet and/or library to access and analyze information for relevance and accuracy; ability to navigate systems.
#4. Personal/Interpersonal Responsibility- Ability to develop and apply strategies to set realistic goals for personal, educational, career, and community development; ability to apply standards of personal and professional integrity; ability to cooperate with others in a collaborative environment for accomplishment of goals; ability to interact successfully with other cultures

General Education Student Learning Outcomes for Associate Degrees
#1. Understand and apply methods of inquiry for a variety of disciplines including the scientific method for scientific inquiry and appropriate methods for social and behavior science inquires.
#2. Explain and analyze relationships between science and other human activities.
#3. Apply knowledge of the ways people act and have acted in response to their societies to express an appreciation for how diverse societies and social subgroups operate to understand social dynamics within historical and contemporary communities.
#4. Understand ways in which people throughout the ages and in Western and non-Western cultures have responded to themselves and the world around them in artistic and cultural creation; apply this knowledge to make value judgments on cultural activities and artistic expressions and demonstrate an understanding of the interrelationship between the creative arts, the humanities and self.
#5. Engage in verbal communication by participating in discussions, debates, and oral presentations utilizing proper rhetorical perspective, reasoning and advocacy, organization, accuracy, and the discovery, critical evaluation and reporting of information.
#6. Compose effective written communications and essays with correct grammar, spelling, punctuation and appropriate language, style and format utilizing academically accepted means of researching, evaluating and documenting sources within written works.
#7. Analyze, evaluate and explain theories, concepts and skills within varied disciplines using inductive and deductive processes and quantitative reasoning and application.
#8. Demonstrate appreciation of themselves as living organisms through their choices for physical health, activities, stress management, relationships to the social and physical environment, and responsible decision-making.

Measure: Ratio of achieved SLOs to SLOs assessed. **Target:** 75% of SLOs will be achieved.

APPENDIX C: Departmental Improvement Plan Brainstorming Form

Departmental Improvement Plan Brainstorming Form*

Department:

Date of Discussion: _____

Course/Department SLO(s)/AUOs discussed (Example: ENGL 1, Financial Aid): _____

Semester(s) assessment data was collected (Example: Fall 2020):

Faculty/Staff involved in discussion and analysis:

What is discussion and analysis of this data telling you?

Questions faculty may consider include:

2. Do you see gaps in the outcomes data? If so, what is the cause?
3. Do you see gaps in the skills or abilities of a student completing the course? If so, what is the cause?
4. Do you see overall gaps in their instructional experience? If so, where?
 - Do you see gaps in the evaluation process itself? If so, why? How can that be improved?
 - Do you see other issues in the student's experience? – Timing of assessment leading to low percentage of students completing assessment? Unmet student needs impacting academic performance?

Provide a summary of the conversation leading to the improvement plan.

1-Write a brief description of the improvement plan to facilitate change, including semester improvement plan is anticipated to be implemented *:

2- Write an implementation description. (How will the improvement plan be set in motion? What steps are required to complete the action plan?)*:

3- Indicate the person(s) who will implement the improvement plan*:

4-Indicate any physical or financial resources needed, including estimated requested budget amount, if any (to be included in IPR or Annual IPR Update)*:

*This information is intended to aid in the development of Improvement Plans to be finalized when reporting End of Term Course Student Learning Outcomes

LASSEN COMMUNITY COLLEGE INSTRUCTIONAL PROGRAM REVIEW

OVERVIEW and GOALS

Instructional Program Review (IPR) built on the analysis of data including the assessment of student learning and outcomes, as required by the state and the Western Association of Schools and Colleges (WASC) through the Accrediting Commission for Community and Junior Colleges (ACCJC), is an integral part of the total process of integrated planning driving institutional decisions including budget allocation at Lassen Community College. The recommendations from each program review provide the basis for informed decision-making for academic planning, human resource planning, student services planning, technology planning and facilities planning and are incorporated into the LCC Comprehensive Institutional Master Plan as well as individual Master Plans. The IPR process is an effective vehicle for accountability. Through this process, colleagues can cooperatively share ideas to strengthen the college's instructional programs. In addition, with the submission of completed program review documents to Consultation Council for review by all constituent groups, the IPR process allows for dialogue between faculty, staff and administration regarding the status and future of an instructional program.

The proposed model rests on the following assumptions:

1. Statistical data that is accurate and valid is necessary for an objective review and evaluation of instructional programs and must be included in an LCC IPR.
2. Statistical data alone (Cost per FTE, WSCH/FTE, etc.) is insufficient to evaluate and assign priority to institutional programs.
3. Combined subjective judgments or empirical results of qualified professionals are valid components of the total assessment of a program when combined with evaluation of statistical data.
4. Criteria used for the purpose of evaluating one program may not be necessarily appropriate for evaluating another program.
5. Priority shall be given to educational considerations over cost considerations without ignoring those cost considerations.

The program review process is an opportunity for faculty members to actively participate in the growth of their own programs and the growth of the college as a whole. Institutional planning and budget considerations will be based on the recommendations and justifications provided by this process.

REVIEW PROCEDURE

The faculty teaching within all transfer instructional programs and special academic programs at Lassen Community College will conduct a major review by completing an IPR once every four years. All career/technical instructional programs will conduct a major review by completing an IPR once every two years. Those programs including both transfer and terminal degrees will follow the career/technical two-year program review cycle. In addition, each recognized instructional program at Lassen Community College will be encouraged to complete an annual update. A complete IPR is considered to be a one-year process with curriculum review, student evaluation and assessment occurring during the fall semester and additional student evaluation, writing and acceptance of the written report occurring during the first half of the spring semester.

Instructional Program Reviews rely on:

- Data provided by the Office of Institutional Effectiveness
- Self-evaluation based on evaluation of sound quantitative and qualitative data, provided by the Office of Institutional Effectiveness, and faculty input
- Feedback from student evaluations
- Assessment results from student learning outcomes and dialog based on the outcome assessment results

A “fill-in” IPR template is provided in Attachment A of this document, and Attachment C of this document provides a student evaluation to be used in IPR completion. Programs may modify the student evaluation to gather information specific to a program.

The IPR team is composed of faculty of the program being evaluated (see Attachment E, Faculty Reference by Program). The IPR team will be assigned at least one mentor by the Academic Senate. The function of the mentor is limited to advisement and interpretation of the program review process. Mentors will be current members of the Academic Senate familiar with the IPR process. In addition to a Senate mentor, the IPR team is encouraged to work closely with its Division Chair(s).

It is the responsibility of the Academic Senate to inform Academic Services, by September, which program(s) will have IPRs scheduled for completion in the subsequent spring semester.

The Academic Dean or Vice President and Academic Senate President will jointly send a memorandum to the faculty members of programs informing them of the upcoming IPRs.

The Academic Senate President, Academic Dean or Vice President and Director of Institutional Effectiveness will conduct joint faculty orientations for the subject area faculty of upcoming IPRs in October for program reviews scheduled for completion during the following spring semester. The orientations will cover: 1) IPR format, 2) identification of a faculty mentor (assigned by the Senate), and 3) the appropriate inclusion of statistical data in the attachments of the document.

To facilitate completion of the IPR, the following statistical data for each session (F, S, SS) during the preceding four years or as indicated will be provided by the Office of Institutional Effectiveness and Academic Services to the appropriate program area faculty at the IPR orientation meeting in October:

- FTE's generated by program.
 - Total program FTEs
 - FTEs generated separately by course, by semester, by modality, by time of day, by full-time and by part-time faculty.
 - FTEs generated per class, per semester and per class, per modality.
 - LCC FTE data to match program categories should be provided to allow for comparisons between individual programs and all instructional programs.

- Number of FTE faculty (FTEF) in program by semester and year.
 - Total FTEF
 - FTEF for full-time faculty only – including overloads
 - FTEF for full-time faculty only – without overloads
 - FTEF for full-time faculty only – overloads only
 - FTEF for part-time faculty.

- Enrollment data
 - Total program enrollment data at census and completion of course.
 - Enrollment data at census and completion of course for each class, each modality, and each time of day offering.

- Student outcomes (transfer, awarded degrees and certificates, basic skills improvement, retention, employment status, etc.)
 - Student completion, retention and success rates by program, class, modality, and time of day
 - Persistence from course to course. Initially, this is most important in sequential courses in Basic Skills, Math and English but should be expanded to include all prerequisite courses as data is made available.
 - Transfer data
 - Awarded degrees and certificates
 - Additional data requested by faculty will be considered as priorities allow

- Capital outlay equipment
 - List of equipment
 - Age of equipment
 - Replacement schedule
 - Existing maintenance/service agreements

- Student Learning Outcome (SLO) assessment results dating back to the previous IPR.

Data should be provided in a raw and visual format, either as chart, pie chart, bar graph, or other visual presentation deemed appropriate by the Office of Institutional Effectiveness.

Should the faculty of the program being reviewed disagree with the data as provided, this disagreement will be included in the final report. All areas of the IPR need to be completed regardless of whether or not statistical data has been provided.

INSTRUCTIONAL PROGRAM REVIEW PREPARATION

Preparation of the IPR is viewed as a primary vehicle for evaluating a program and its effectiveness in regards to student learning as well as developing plans and strategies for the improvement of a program. This self-evaluation approach allows the faculty (full and part-time as applicable) who are directly involved in the program to assume primary responsibility for the examination and strengthening of their program.

An IPR Template has been created to ease the work of completing the IPR (See ATTACHMENT A: IPR Template). This form is available electronically from Academic Services, on the planning webpage, or through the Lassen College portal. The data contained in the planning tables generated from completion of the IPR TEMPLATE, will be reviewed by the institutional planning committees as part of the institutional planning and budgeting processes.

The Chief Instructional Officer (CIO) and Academic Senate together will designate an IPR lead faculty member from within the program being reviewed. The lead faculty member will call the first meeting to establish the timeline and schedule meetings for all listed full-time and part-time faculty to complete the IPR.

Each IPR should begin with a title page including the name of the program, names of individuals working on the IPR (full-time faculty, part-time faculty and support staff), and the acceptance dates for Academic Senate, Consultation Council and Governing Board.

IPR FORMAT

The IPR is organized into four sections consistent with the four sections of the comprehensive institutional master plan:

1. Academic Planning Section
 - a. Program Objectives/Student Learning Outcomes
 - b. Student Outcomes/Student Learning Outcomes (program impact on student success)
 - c. Curriculum
 - d. Equipment
 - e. Outside Compliance Issues (if applicable)
 - f. May also include recommendations specific to Student Services Planning and Institutional Effectiveness Planning
2. Human Resource Planning Section
3. Facilities Planning Section

Each section and sub-section of the IPR is subdivided into two parts, plus referenced attachments, at the end of the document:

1. Description/Evaluation
2. Planning Agenda (The planning agenda should be substantiated by the description/evaluation subsection and/or referenced attachments and should be divided into plans to be implemented by program staff and plans requiring institutional resources)

Referenced Attachments

- Supporting Documentation [to be included as attachments at the end of document]

Each subsection may be completed using lists, narrative description, or attachments as appropriate. Address only those sections that apply to your program. Statements in parentheses are suggestions for your

consideration and are not prescriptive. Supporting documentation for each section should be included at the end of the document.

Upon completion of the IPR process, the final document must be compiled into PDF format and submitted to the Academic Dean and the Academic Senate for subsequent Senate approval and joint presentation to Consultation Council and the Governing Board. Upon acceptance of the document by the Governing Board, Academic Services will provide electronic IPR copies to I.T. for posting on the Lassen College website. Academic Services will provide institutional decision-making bodies copies of Prioritized Recommendations charts as they pertain to planning documents.

STUDENT EVALUATION OF PROGRAM

The Student Evaluation is designed to solicit comments concerning the program only and is not an evaluation of instructors. It is important to insure the students understand that the focus of the survey is on the program and not the faculty in the area. This is to avoid confusion with the faculty evaluation process. The recommended Student Evaluation is included as Attachment C, although programs may modify the form to gather additional information or may remove items not relevant to the program.

An anonymous questionnaire is considered to be the most effective format to obtain student input. This will encourage the students to be frank in their responses. The Student Evaluation will be scheduled and administered by the Office of Institutional Effectiveness twice, once during October of the instructional review process and again in February.

Academic Services staff will consult with the faculty members of the IPR Team to determine the student sampling and consider any program-specific revisions to the student survey. The sampling will consist of a minimum of three core courses and other courses as selected by the IPR Team. (Example: The basic skills program might wish to survey courses with high enrollment of former basic skills students.)

REVITALIZATION AND DISCONTINUANCE POLICY

Lassen Community College is committed to supporting programs and classes that fulfill the goals of the Mission Statement as these are elaborated in the Educational Master Plan. Following Title 5, section 55000, "program" is defined as an organized sequence of courses leading to a defined objective, e.g., a degree, a certificate, a diploma, a license or transfer to another institution of higher education. As this applies to LCC, a program is defined as a whole and not individual degrees, certificates, or courses within the program as detailed in the LCC course catalog. Only programs with low or declining enrollment, decreasing demand for service or clear obsolescence shall be considered for discontinuance. The service provided to the college and the community by the program will be the primary consideration for a program's discontinuance. More information regarding this policy can be found by searching AP 4021.

TIMELINE FOR PROCEDURES

October	The Vice President of Instruction, in consultation with the Academic Senate, notifies faculty of the upcoming IPR. Academic Senate appoints faculty members to the mentors list.
October	Faculty Orientation for IPRs are scheduled and held. Distribution of quantitative data by the Academic Services to the IPR Team (fiscal and census information, as previously outlined, for the previous four years, and a copy of the previous final IPR document) for reviews scheduled the following year.
October	Student evaluation #1 administered and compiled by the Office of Instruction Effectiveness
November/December	Initial meeting of the IPR Team and Senate mentor (if desired).
November-May	The IPR Team conducts the curriculum review, submitting review and revision documents to the Curriculum/Academic Standards Committee for approval.
February	Student evaluation #2 administered and compiled by the Office of Institutional Effectiveness
August	The IPR team submits the completed IPR documents to the Academic Senate and the Academic Dean.
September	The Academic Senate takes action to accept the IPR and with the Academic Dean jointly presents IPR to Consultation Council and the Governing Board.
October	IPR recommendations are distributed to planning committees for consideration in master planning and budgeting documents. Upon acceptance, Academic Services will maintain the original IPR electronic file online and forward electronic copies to the institutional planning committees for inclusion in the planning and budgeting processes.

LASSEN COMMUNITY COLLEGE EDUCATIONAL PROGRAMS

For the purpose of the Instructional Program Review process, a program is defined as an organized sequence of courses leading to a defined objective, a degree, certificate, diploma, a license, or transfer to another institution of higher education (Title V, Section 55000). A special academic program provides instruction in support of certificate or degree completion or as part of another certificate or degree but may not offer an organized sequence of courses that lead to a degree, certificate, license or transfer as with transfer and career/technical programs. See Attachment D for a list of degrees and certificates included within each program.

Transfer-only Programs — 4-yr cycle

- Fine Arts (including Art History and Studio Art)
- Humanities (including English)
- Mathematics/Natural Science
- History/Social Science/Sociology/Psychology/Anthropology
- Physical Education

Career/Technical Programs — 2-yr cycle

- Administration of Justice (including related POST information)
- Agriculture
- Automotive Technology
- Business (including Accounting, Business Administration, Economics, and Office Administrative Assistant) Child Development (including transfer degree in Early Childhood Education)
- Information Systems
- Graphic Design
- Fire Technology
- Gunsmithing (including related NRA)
- Human Services
- Allied Health (including Vocational Nursing, CNA, Medical Assisting)
- Welding Technology

Special Academic Programs — 4-yr cycle

- Athletics
- Developmental Studies
- Work Experience

INSTRUCTIONAL PROGRAM REVIEW CYCLE

The following IPR review cycle has been established by the Academic Senate:

<u>Scheduled Date of IPR Review</u>	<u>Transfer or Special Academic Program Completing IPR</u>
Academic Year 2020-2021	Developmental Studies including Basic Skills
Academic Year 2021-2022	Mathematics/Natural Science (Area A and D2) Physical Education (Area E2) Athletics
Academic Year 2022-2023	History/Social Science/Sociology/Psychology/Anthropology (Area B/E1) Work Experience
Academic Year 2023-2024	Fine Arts (including Art History/Studio Art) Humanities (including English) (Area C and D1)

<u>Scheduled Date of IPR Review</u>	<u>Career/Technical Program Completing IPR</u>
Academic Year 2020-2021	Fire Technology Gunsmithing Human Services Allied Health Welding
Academic Year 2021-2022	Administration of Justice Automotive Technology Agriculture Business Child Development Information Systems Graphic Design
Academic Year 2022-2023	Fire Technology Gunsmithing Human Services Allied Health Welding
Academic Year 2023-2024	Administration of Justice Automotive Technology Agriculture Business Child Development Information Systems Graphic Design

ANNUAL UPDATES & IPR REVISIONS

Given that program changes occur on an annual basis, completion of an annual update by all recognized programs, whether transfer, career/technical, or special academic programs, is encouraged to better integrate program review into the planning and budgeting processes. Basic data, including FTES, FTEF, completion, success, and program scheduling for the previous year, will be provided by the Office of Institutional Effectiveness by November of each year. Annual updates are due by the end of August or special request by office of instruction and are submitted to Academic Services and Academic Senate following the same procedures as the IPR. The purpose of the annual updates is to recognize and document changes within a program, and identify, and more effectively incorporate, emerging program needs into the budget and planning processes than the 2 or 4 year cycle currently allows. Institutional planning decisions are based on the recommendations contained within the IPR. Revisions to specific sections of the IPR may be necessary between scheduled IPRs and/or annual updates to accommodate changes in program priorities. Program faculty may revise specific IPR sections at any time. The annual update containing the revised section(s) will be forwarded to the Academic Senate and Academic Dean. The annual update will follow the same sequence of steps for acceptance as the IPR. Upon acceptance by the Governing Board, the annual update will be attached to the original IPR in Academic Services and electronic copies forwarded to the institutional planning committees.

REVIEW OF INSTRUCTIONAL PROGRAM REVIEWS OUT OF SEQUENCE

A. Early Program Reviews:

Program faculty, the President/Superintendent or the Governing Board may request an early program review for compelling reasons. Such reasons may include:

- Enrollment considerations
- Fiscal consideration
- Facilities review
- Recent loss or addition of full-time subject area faculty within the program
- Recent significant changes to the curriculum

The request for an early program review must be accompanied by written justification submitted to the Academic Senate. After reviewing the written recommendations: the Academic Senate will take action. The action will permanently move the IPR for the program within the review cycle.

B. Instructional Program Review Extensions:

Program faculty or the Academic Dean may request an extension of the due date of an IPR. Requests for due date extensions of an IPR will be accompanied by a written justification submitted to the Academic Senate. Extensions may be granted through Senate action. IPRs with granted extensions will not be considered late for budget and planning purposes and will retain their original position within the review cycle.

C. Late Instructional Program Reviews:

IPRs retain their positions within the cycle regardless of their date of acceptance. All changes of position within the review cycle require official Academic Senate action.

I. . Program Overview, Objectives, and Student Learning Outcomes

[Click here to insert a brief overview of the program \(this is optional\).](#)

Description/Evaluation:

- a. Describe and evaluate the program objectives against the LCC strategic plan, specifically the mission statement and strategic goals [available online or in the current catalog].

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

- b. Identify and evaluate the Program Student Learning Outcomes including the relationship between course, program and institutional student learning outcomes utilizing information provided by the Office of Institutional Effectiveness

[Click here to enter text.](#)

- c. Evaluate any changes in the program since last review. Include summary of Annual Updates completed since last review.

[Click here to enter text.](#)

- d. Analyze program-related promotional materials/advertising as appropriate

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Student Services Planning, and/or Institutional Effectiveness Planning tables at the end of the section for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

II Student Outcomes

A. Trends and Patterns in Student Outcomes

Description/Evaluation:

1. Provide in tabular form followed by an analysis
 - a. Number of degrees and certificates awarded during the last four years.
[Click here to enter text.](#)
 - b. Transfer numbers for the last four years
[Click here to enter text.](#)
 - c. Completion, retention and success data for the last four years
[Click here to enter text.](#)
2. Analyze program effectiveness based on available quantitative data and qualitative experiences.
[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Student Services Planning, and/or Institutional Effectiveness Planning tables at the end of the section for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself, “What are we going to change?” Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

B. Student Learning Outcome Assessment

SLO assessment is important to maintain and improve an effective learning experience for LCC students. Evaluating SLO results regularly is helpful for evaluating student learning and identifying emerging program needs. By contract, faculty are required to measure at least one SLO for every class taught each semester; these records are maintained in the online Data Management and Visualization tool (CLIC) and are available for review by faculty at any time through its self-updating, interactive dashboards and reports.

Description/Evaluation:

1. Attach an SLO assessment summary as provided by Office of Institutional Effectiveness.

2. Provide an analysis of findings of the assessments completed and recommendations being made in individual assessments. Consider the impact or influence of the assessment results at the program level. Consider how SLO results may be leveraged to support equipment, facility, staffing, or other budget and planning need and include the justification in your analysis.

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

Planning Agenda:

List recommendations and actions necessitated by the above evaluation of SLO results. Complete Academic Planning, Student Services Planning, and/or Institutional Effectiveness Planning tables at the end of the section for any recommendations requiring institutional action. For any items needing Human Resources Planning, Institutional Technology Planning, or Facilities Planning action, please make sure to include the information within the appropriate section and table later in the program review document.

[Click here to enter text. Ask yourself, “What are we going to change?” Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

C. Student Evaluation Summary

The student survey portion of the evaluation procedure is designed to solicit comments concerning the program only, and is not an evaluation of instructors (See Attachment F, Student Survey).

An anonymous questionnaire is considered to be the most effective format. This will encourage the students to be frank in their responses. The student evaluation will be scheduled and administered by the Office of Instruction during October/November and February/March of each instructional review process. The Office of Instruction staff will consult with the members of the self-evaluation group to determine the student sampling and consider any program-specific revisions to the student survey. The sampling will consist of a minimum of three core courses and other courses as selected by the self-evaluation team. (Example: The basic skills program might wish to survey courses with high enrollment of former basic skills students.)

Description/Evaluation:

Attach Student Evaluation Summary provided by Office of Academic Services and provide an analysis of the results of the student evaluations

For the evaluation portion, ask yourself “How is it working?” Good? Bad?

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Student Services Planning, and/or Institutional Effectiveness Planning tables at the end of the section for any recommendations requiring institutional action.

[Click here to enter text.](#) Ask yourself, “What are we going to change?” Go into detail here and provide a snap shot of the items in the table(s) below.

III. Curriculum

A. Degrees and/or Certificates

Description/Evaluation:

- List degree and/or certificates offered in the program. Review/revise two-year plan(s). Update scheduling sequence listed on course outline where needed (course outline and/or program revisions need Curriculum Committee approval) attach the approved two-year plan for each degree and certificate (see Attachment D, Degrees/Certificates by Program). Degree and certificate student learning outcomes, if different from program student learning outcomes, should be included in this section.
- Faculty should analyze progress made on the assessment of program (degree/certificate) learning outcomes
- Evaluate the need for courses, degrees and/or certificates
- Transfer programs: Evaluate the core courses against the major preparation requirements for an entering junior at receiving four-year institutions (e.g. CSU System and UC System).
- Transfer programs: Evaluate the courses against the specific area requirements needed to satisfy the general education requirements for associate degrees and transfer. Consider whether there are adequate opportunities to meet the area requirements in combination with all disciplines within each general education area. Is there an adequate number of course and discipline options within each area, and can those courses be offered in a manner that maximizes student enrollment in each section? Do courses need to be added or deleted from any general education area?
- Career/Technical programs: Attach dates of Advisory Committee meetings (a minimum of two meeting per year). Reference Committee Member Rosters and Minutes located in the Office of Academic Services. Summarize the advisory committee recommendations for program curriculum enhancement or improved student competencies

- Career/Technical programs: Use advisory committee recommendations, labor market or other standards to answer the following question: Do the core courses in the certificates and degrees meet current employer skill requirements for the field?
- Special Programs: By nature, special programs themselves do not lead to a degree or certificate. However, special programs may have coursework that is included in transfer or vocational degrees or certificates. Note the relationship between special program courses and LCC transfer or vocational degrees or certificates.

[Click here to address the items above. For the evaluation portion, ask yourself, “How is it working?” Good? Bad?](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning table at the end of the section for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

B. Courses

Description/Evaluation

1. Identify courses added or deleted from the instructional program since the last IPR.

[Click here to enter text.](#)

2. Each course offered within the instructional program must be reviewed for accuracy and currency (see Attachment I, Course List by Program). Review of each course outline should include asking the following questions:
 - Should the Disciplines of Assignment remain the same or be changed?
 - Should the Catalog/Schedule description remain the same or be updated?
 - Is the course repeatable? Is the repeatability reflected in the SLOs, Objectives, and Course Content sections? What is the basis for repeatability: legal requirement or increased skill level?
 - If the course meets a core requirement within specific degrees or certificates, is it accurately noted on the outline?
 - If the course satisfies a specific area within the general education requirement for an associate degree or transfer, is it accurately noted on the outline?
 - Are course-level student learning outcomes included on each course outline? Are learning outcomes included for each allowable repetition?
 - Does the course require a prerequisite or have recommended preparation? Are content review forms on file for each recommended preparation and/or prerequisite?

- Do any of the learning outcomes or objectives need revision?
 - Does any content need to be updated?
 - Are any changes necessary in the Methods of Instruction, Assignments, Critical Thinking or Methods of Evaluation sections?
 - Is the course being considered for distance education offering? If so, has it been approved for specific distance education delivery?
 - Is the textbook current (within the last 7 years for transfer courses) and is the publication date included?
 - Does the course outline match the two year plan with regard to sequence of course offerings?
3. Whether changes to a course outline are necessary or not, a Revision to Existing Course Form for each course must be completed and submitted to the Curriculum/Academic Standards Committee for action. When changes are necessary, indicate the revisions on the form. Where no changes are necessary, simply indicate on the Revision Form that “the course has been reviewed as part of the program review and no changes are necessary.” Revision forms will be retained in the Instructional Office with the Curriculum agenda packets.
 4. Following the Curriculum/Academic Standards Committee action on all submitted Revision to Existing Course Forms, a summary Instructional Program Curriculum Review Form will be completed by the Curriculum/Academic Standards Subcommittee Chair and given to the program faculty for inclusion in the program review.
 5. The signed Instructional Program Curriculum Review Form is to be included with your completed program review documents

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning table for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snapshot of the items in the table\(s\) below.](#)

C. Articulation/Integration of Curriculum

Description/Evaluation:

1. Attach a tabular comparison of Lassen Community College courses articulating with UC and CSU, indicating courses with approved C-ID designations as applicable (Obtain copies of Articulation Agreements from the Transfer Center)
2. Provide a narrative reviewing the Lassen Community College courses and courses at four-year institutions for course alignment. (i.e. two courses at Lassen needed to articulate with one

course at UC).and the units requirements for Lassen Community College courses as compared to four-year institutions.

[Click here to enter text.](#)

Planning Agenda:

Complete Student Services Planning table (see below) for any proposed changes to articulation or C-ID designation

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

III. Scheduling and Enrollment Patterns

Description/Evaluation:

1. Describe and explain any deviation from the two-year plan in course scheduling during the last four years.

[Click here to enter text.](#)

2. Evaluate the relationship between schedule, enrollment patterns and FTE generated statistics.

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

3. Using FTE data provided, evaluate how the scheduling of courses within the program has served the needs of a variety of students (e.g. day, evening, single parents, employed full-time). Include the following considerations:
 - a. Number of sections (too many/too few to serve student needs)
 - b. Variety of times (three times a week, twice a week, one day a week and morning/afternoon/evening)
 - c. Length of courses (traditional semester/short term)
 - d. Method of delivery (traditional/technology-mediated/correspondence delivered instruction).

[Click here to enter text.](#)

4. Evaluate student access to general education courses within the context of the scheduling of the instructional program courses.

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

Planning Agenda:

Complete Academic Planning table (see below) for any proposed changes in the schedule that might improve enrollment patterns and better meet student needs.

[Click here to enter text.](#) Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table(s) below.

IV. Equipment

Description/Evaluation:

1. List capital outlay equipment, age of equipment and replacement schedule

[Click here to enter text.](#)

2. Identify any existing equipment maintenance/service agreements

[Click here to enter text.](#)

3. Evaluate the condition of capital outlay equipment in light of the replacement schedule and available funds.

[Click here to enter text.](#) For the evaluation portion, ask yourself “How is it working?” Good? Bad?

4. Evaluate the effectiveness of and need for additional maintenance/service agreements.

[Click here to enter text.](#) For the evaluation portion, ask yourself “How is it working?” Good? Bad?

5. Justify any proposed modification or additions to equipment available for students and/or faculty/instructional assistants within the program.

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Student Services Planning, Facilities Planning, or Technology Planning tables as appropriate for any recommendations requiring institutional action.

[Click here to enter text.](#) Ask yourself, “What are we going to change?” Go into detail here and provide a snap shot of the items in the table(s) below.

V: Outside Compliance Issues (if appropriate for program)

Description:

If appropriate, describe the role of outside compliance issues on the Special Program.

[Click here to enter text.](#)

Evaluation:

Assess changes in compliance or identification of compliance-related needs and the impact on the Special Program.

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Facilities Planning, Technology Planning and Human Resource Planning Forms as appropriate for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

VI. Prioritized Recommendations

A. Prioritized Recommendations for Implementation by Program Staff

List all recommendations made in Section One that do not require institutional action (i.e. curriculum development) in order of program priority.

[Click here to enter text.](#)

B. Prioritized Recommendations for Inclusion in the Planning Process

List all recommendations made in Section One that should be included in Lassen College’s planning and budgeting process, specifically in the Educational Master Plan, Student Services Master Plan, or Institutional Effectiveness Master Plan. Separate recommendations into the appropriate plan(s). Items to be included in the Human Resource Master Plan, Institutional Technology Master Plan, or Facilities Master Plan should be addressed in Sections Two, Three or Four in lieu of or in addition to inclusion in the Academic Master Plan. See Attachment C, Master Plan Overview, in the IPR handbook to determine where recommendations are best placed.

Prioritized Recommendations for Inclusion in Education Master Plan: The EMP addresses the instructional planning needs of the college.

[Click here to enter Program Name & Year](#)

Strategic Goal	Planning Agenda Item	Implementation Time Frame	Estimated Cost (implementation & ongoing)	Expected Outcome

Prioritized Recommendation for Inclusion in Student Services Master Plan: The SSMP

highlights the services needed to maximize the student experience through a variety of key student support services.

[Click here to enter Program Name & Year](#)

Strategic Goal	Planning Agenda Item	Implementation Time Frame	Estimated Cost (implementation & ongoing)	Expected Outcome

Prioritized Recommendations for Inclusion in Institutional Effectiveness Master Plan: The IEMP addresses college needs not addressed in other plans. These needs include research, governance, outcome assessment, and administrative operations.

[Click here to enter Program Name & Year](#)

Strategic Goal	Planning Agenda Item	Implementation Time Frame	Estimated Cost (implementation & ongoing)	Expected Outcome

Section Two: Human Resource Planning

I. Program Staffing

Description/Evaluation:

1. List the current staffing for the program include: full-time and part-time faculty positions, instructional assistants and classified staff

[Click here to enter text.](#)

2. This section provides an opportunity for analysis and justification of projected staffing needs to support the program. Clerical support by the Office of Academic Services and work-study needs may be included.

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning and Human Resources Planning Forms as appropriate for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself, "What are we going to change?" Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

II. Professional Development

Description/Evaluation:

1. If available, reference Flex Contracts for full-time faculty teaching in the program for each of the last two years. [Copies may be available in the Office of Instruction].

[Click here to enter text.](#)

2. Describe the professional development and professional activities of the program faculty/instructional assistants in addition to flex obligation relevant to program improvement that has occurred during the period under review. (Workshops, conferences, staff development, sabbatical leaves, work experience, etc.)

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning and Human Resources Planning Forms as appropriate for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table below](#)

III. Student Outcomes**Description/Evaluation:**

Description/ Evaluation:

Describe any results from assessment of learning outcomes that affect human resource planning

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning and Human Resources Planning Forms as appropriate for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table below](#)

IV. Prioritized Recommendation**Prioritized Recommendations for Implementation by Program Staff**

List all recommendations made in Section Two that do not require institutional action (i.e. curriculum development) in order of program priority.

[Click here to enter text.](#)

Prioritized Recommendations for Inclusion in the Planning Process

List all recommendations made in Section Two that should be included in Lassen College’s planning and budgeting process. See Attachment C, Master Plan Overview, in the IPR handbook to determine where recommendations are best placed.

Prioritized Recommendations for Inclusion in Human Recourse Master Plan: The HRMP identifies and manages the administrative functions of recruitment, selection, evaluation, and professional development needs of the College to ensure a fully-staffed and highly functioning team of employees.

[Click here to enter Program Name & Year](#)

Strategic Goal	Planning Agenda Item	Implementation Time Frame	Estimated Cost (implementation & ongoing)	Expected Outcome

Section Three: Facilities Planning

I. . Facilities

Description/Evaluation:

1. Describe and evaluate the Lassen Community College facilities available to the program.

[Click here to enter text.](#)

2. Describe and evaluate additional facilities utilized off-campus by the program (attach any relevant rental agreements)

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

3. Describe any facilities needs identified by assessments of student learning outcomes

[Click here to enter text.](#)

4. Justify any proposed modifications or additions to existing facilities that would better serve the program planned for the next five years.

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Facilities Planning, and Technology Planning Forms as appropriate for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snapshot of the items in the table below](#)

II. . Prioritized Recommendations

Prioritized Recommendations for Implementation by Program Staff

List all recommendations made in Section Three that do not require institutional action (i.e. curriculum development) in order of program priority.

[Click here to enter text.](#)

Prioritized Recommendations for Inclusion in the Planning Process

List all recommendations made in Section Three that should be included in Lassen College’s planning and budgeting process. See Attachment C, Master Plan Overview, in the IPR handbook to determine where recommendations are best placed.

Prioritized Recommendations for Inclusion in the Facilities Master Plan: The FMP addresses the physical infrastructure, facility, and maintenance needs of the campus.

[Click here to enter Program Name & Year](#)

Strategic Goal	Planning Agenda Item	Implementation Time Frame	Estimated Cost (implementation & ongoing)	Expected Outcome

Section Four: Technology Planning

I. . Technology

Description/Evaluation:

1. Describe and evaluate technology and technology support provided for instruction and instructional support.

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

2. Describe any technology and technology support needs identified by assessment of student learning outcomes.

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Facilities Planning, Technology Planning and Human Resource Planning Forms as appropriate for any recommendations requiring institutional action.

[Click here to enter text.](#) Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table below

II. Prioritized Recommendations

Prioritized Recommendations for Implementation by Program Staff

List all recommendations made in Section Four that do not require institutional action (i.e. curriculum development) in order of program priority.

[Click here to enter text.](#)

Prioritized Recommendation for Inclusion in the Planning Process

List all recommendations made in Section Four that should be included in Lassen College’s planning and budgeting process. See Attachment C, Master Plan Overview, in the IPR handbook to determine where recommendations are best placed.

Prioritized Recommendations Inclusion in Institutional Technology Master Plan: The ITMP addresses the technology needs of the campus.

ATTACHMENT B**LASSEN COMMUNITY COLLEGE
MASTER PLAN OVERVIEW**

Six master plans comprise the Comprehensive Institutional Master Plan. Recommendations from program reviews will be input into the selected master plans as determined by faculty in the prioritized recommendation spreadsheets. To better understand which master plan might be most appropriate for each program recommendation, a summary/objective of each plan is included below. More information can be found in the Shared Governance and Consultation Council Handbook and the Comprehensive Institutional Master Plan.

Educational Master Plan (EMP): The EMP addresses the instructional planning needs of the college.

Facilities Master Plan (FMP): The FMP addresses the physical infrastructure, facility, and maintenance needs of the campus.

Human Resources Master Plan (HRMP): The HRMP identifies and manages the administrative functions of recruitment, selection, evaluation, and professional development needs of the College to ensure a fully-staffed and highly functioning team of employees.

Institutional Effectiveness Master Plan (IEMP): the IEMP addresses college needs not addressed in other plans. These needs include research, governance, outcome assessment, and administrative operations.

Institutional Technology Master Plan (ITMP): The ITMP addresses the technology needs of the campus.

Student Services Master Plan (SSMP): The SSMP highlights the services needed to maximize the student experience through a variety of key student support services.

ATTACHMENT C

**LASSEN COMMUNITY COLLEGE
INSTRUCTIONAL PROGRAM REVIEW - STUDENT EVALUATION**

Name of Program: _____ Date Survey Completed: _____

Current Course: _____

Overview:

Instructional programs are reviewed periodically by LCC faculty. The _____ Instructional Program is currently undergoing its periodic review. The _____ Instructional Program is made up of the courses leading to a degree or certificate of achievement in _____. The courses in this program include: _____

As a student enrolled in one of these courses, your insight about the course and program can provide valuable information to assist the program faculty in making program improvements. This student survey is your opportunity to provide information to the program faculty. This is a student survey of the course and program, NOT the instructor. Instructor evaluations occur at a different time.

Instructions for Completion:

Please be as objective and concise as possible when answering the following questions. Read and evaluate each question and check the responses, which most closely relate to your views. Space has been provided at the end, for any additional comments you would like to make.

Tell Us About Yourself:

**1. Educational Goal: What is your educational objective at Lassen Community College?
(Check all that apply).**

General Education:

Transfer to a 4-year Institution

IGETC Certification

CSU Certification

Transfer to another Community College

Degrees/Certificates:

AA/AS

Certificate of Achievement
Certificate of Completion

Certificate of
Accomplishment

Title of Degree or Certificate:

General Interest:

Job Requirement

Continuing Education

Personal Development

2. Your Need for this Course: Why are you taking this course?

Core Requirements for degree or certificate

Job Requirements

- Elective for degree or certificate
- General Education course for degree or transfer
- Other: Please Specify _____
- Continuing Education
- Personal Development

1. **Does the course content reasonably compare with the catalog/schedule description?**
 YES NO
2. **Did the catalog clearly explain the order in which the courses in this program should be taken?**
 YES NO
3. **Was any cost for this course/program, beyond registration and books clearly identified in the catalog?**
 YES NO
4. **Did instructors use the required textbooks in the program?**
 YES NO N/A
5. **Are the textbooks purchased for this program useful to you?**
 YES NO N/A

Scheduling:

6. **Did the scheduling of this course meet your needs?**

- current schedule met my needs
- needed morning offering
- needed afternoon offering
- needed evening offering
- needed one day a week schedule
- needed summer offering
- needed week-end offering
- needed short-term (less than semester) offering
- other: Please Specify _____

Facilities/Equipment: Do the facilities for this course/program adequately meet your needs?

7. **I was provided with reasonable access to the facilities?**

- YES NO

8. **The temperature of the facilities in summer or fall is:**

- OFTEN TOO HOT FOR THE SEASON
 COMFORTABLE FOR THE SEASON
 OFTEN TOO COLD FOR THE SEASON
 N/A

9. The lighting of the facilities is?

- TOO BRIGHT ADEQUATE TOO DARK N/A

10. The chairs/tables/desks are?

- ADEQUATE INADEQUATE N/A

11. Is there enough space for you to do your work in class?

- YES NO N/A

12. Please elaborate on your responses and include any additional facilities-related comments:

13. Did the course/program provide the necessary equipment?

- YES NO N/A

14. Is enough time on equipment allowed for each student?

- YES NO N/A

15. Is equipment current?

- YES NO N/A

16. Is equipment generally in good operating condition?

- YES NO N/A

17. Describe how this course/program could be improved to better meet the needs of the students at Lassen Community College.

18. Provide any additional comments on the course or program:

ATTACHMENT D

**LASSEN COMMUNITY COLLEGE
EDUCATIONAL PROGRAMS AND DEGREES/CERTIFICATES/LICENSES BY PROGRAM**

For the purpose of the instructional review process, a program is defined as an organized sequence of courses leading to a defined objective, a degree, certificate, diploma, a license, or transfer to another institution of higher education (Title V, Section 55000).

Administration of Justice/Correctional Science

Associate in Science Degree in Administration of Justice for Transfer
Associate in Art Degree in Administration of Justice
Certificate of Achievement in Administration of Justice
Certificate of Accomplishment in Administration of Justice

Agriculture

Associate in Science in Agriculture Animal Science for Transfer
Associate in Science in Agriculture Business for Transfer
Associate in Arts Degree University Studies: Emphasis in Agriculture Sciences
Associate in Science Degree in Agriculture Science and Technology
Certificate of Achievement in Agriculture Science and Technology
Certificate of Accomplishment in Animal Science
Certificate of Accomplishment in Horsemanship
Certificate of Accomplishment in Agriculture Business
Certificate of Accomplishment in Agriculture Irrigation

Art History/Studio Art

Associate in Arts Degree in Art History for Transfer
Associate in Arts Degree in Studio Art for Transfer

Automotive Technology

Associate in Science Degree in Automotive Technology
Certificate of Achievement in Advanced Mechanics
Certificate of Achievement in Engine Repair
Certificate of Accomplishment Basic Mechanics
Certificate of Accomplishment in Electrical
Certificate of Accomplishment in General Mechanics
Certificate of Achievement in Auto Chassis and Maintenance

Business

Associate in Science Degree in Business Administration for Transfer
Associate in Science Degree in Accounting
Associate in Arts Degree in Economics for Transfer
Associate in Science Degree Administrative Office Technician
Certificate of Achievement Administrative Office Technician
Certificate of Achievement in Small Business Management

Child Development

Associate in Science Degree in Early Childhood Education for Transfer
Associate in Arts Degree in Child Development
Certificate of Achievement in Child Development
Certificate of Accomplishment in Child Development-Associate teacher

Fire Technology

Associate in Science Degree in Fire Technology
 Certificate of Achievement in Fire Technology
 Certificate of Accomplishment in Fire Technology
 Certificate of Accomplishment in Basic Fire Fighter

Gunsmithing

Associate in Science Degree in Firearms Repair
 Associate in Science Degree in General Gunsmithing
 Certificate of Achievement in Firearms Repair
 Certificate of Achievement in General Gunsmithing
 Certificate of Accomplishment in Gunsmith Machinist and Metal Finishing
 Certificate of Accomplishment in Long Guns
 Certificate of Accomplishment in Pistolsmith
 Certificate of Accomplishment in Riflesmith

Health Occupations/Medical Assisting

Certificate of Achievement in Medical Assisting
 Certificate of Accomplishment in Administrative Medical Assisting
 Certificate of Accomplishment in Clinical Medical Assisting

History/Social Science/Sociology/Psychology

Associate in Arts Degree University Studies: Emphasis in Social Sciences
 Associate in Arts Degree General Studies: Emphasis in Social Sciences
 Associate in Arts Degree in History for Transfer
 Associate in Arts Degree in Sociology for Transfer
 Associate in Arts Degree in Psychology for Transfer
 Associate in Science Degree in Anthropology for Transfer
 Certificate of Achievement California State University General Education
 Certificate of Achievement in Intersegmental General Education Transfer Curriculum

Human Services

Associate in Science Degree in Drug and Alcohol Paraprofessional
 Associate in Science Degree in Human Services
 Certificate of Achievement in Drug and Alcohol Paraprofessional Certificate of Achievement in Human Services

Humanities

Associate in Arts Degree University Studies: Emphasis in Humanities
 Associate in Arts Degree in English for Transfer

Information Systems

Certificate of Achievement in Geographic Information Systems

Natural Science

Associate in Arts Degree University Studies: Emphasis in Natural Sciences
 Associate in Arts Degree General Studies: Emphasis in Natural Sciences
 Associate in Science Degree in Geology for Transfer
 Associate in Science Degree in Biology for Transfer
 Associate in Science in Nutrition and Dietetics for Transfer

Physical Education

Associate in Arts Degree in Kinesiology for Transfer
 Associate in Arts Degree University Studies: Emphasis in Physical Education
 Associate in Arts Degree General Studies: Emphasis in Physical Education

Vocation Nursing/Allied Health

Associate in Arts Degree University Studies: Emphasis in Allied Health

Associate in Science Degree in Vocational Nursing

Certificate of Achievement in Vocational Nursing

Certificate of Accomplishment in Administrative Medical Assisting

Certificate of Accomplishment in Clinical Medical Assisting

Welding Technology

Associate in Science Degree in Welding Technology

Two-Year Certificate of Achievement in Welding Technology

One-Year Certificate of Achievement in Welding Technology

Certificate of Accomplishment in Welding Technology

Special Instructional Programs (no degrees or certificates)

Athletics

Developmental Studies

Work Experience

Gunsmithing

(All GSS Courses) GSS 49, GSS 50, GSS 50.01, GSS 50.03, GSS 51, GSS 51.01, GSS 51.03, GSS 51.05, GSS 51.06, GSS 52, GSS 52.01, GSS 52.02, GSS 52.03, GSS 52.04, GSS 52.05, GSS 52.06, GSS 52B, GSS 52BR, GSS 54.05, GSS 55.04, GSS 56.01, GSS 56.03, GSS 56.04, GSS 57.01, GSS 57.02, GSS 57.03, GSS 57.06, GSS 57.08, GSS 57.15, GSS 58.02, GSS 59.02, GSS 59.03, GSS 59.04, GSS 59.05, GSS 59.07, GSS 59.09, GSS 60, GSS 60.01, GSS 60.02, GSS 60.04, GSS 61.01, GSS 61.02, GSS 61.03, GSS 62.03, GSS 62.04, GSS 63.01, GSS 63.02, GSS 63.03, GSS 63.04, GSS 63.05, GSS 64.01, GSS 66.01, GSS 66.02, GSS 66.03, GSS 67.01, GSS 68.01, GSS 68.02, GSS 68.03, GSS 69.01, GSS 69.02, GSS 69.03, GSS 69.04, GSS 70, GSS 70.01, GSS 70.02, GSS 71, GSS 71.01, GSS 71.02, GSS 71.03, GSS 71.04, GSS 72, GSS 72.01, GSS 73.02, GSS 75.02, GSS 77, GSS 78, GSS 79, GSS 80, GSS 81, GSS 82, GSS 83, GSS 84, GSS 85, GSS 87, GSS 88, GSS 89, GSS 90, GSS 91, GSS 93, GSS 94, GSS 95, GSS 98.02, GSS 98.03, GSS 98.04, GSS 98.05, GSS 98.06, GSS 98.08, GSS 98.09, GSS 98.12, GSS 98.13, GSS 98.21, GSS 98.22, GSS 98.23, GSS 98.24, GSS 112, GSS 112B, GSS 114, GSS 116, GSS 117, GSS 119, GSS 120, GSS 120B, GSS 123, GSS 124, GSS 127, GSS 129A, GSS 129B, GSS 129C, GSS 130, GSS 133, GSS 134, GSS 135, GSS 136, GSS 143, GSS 147, GSS 148

History/Social Science/Sociology/Anthropology

ANTH 1, ANTH 2, ANTH 3, GEOG 2, HIST 14, HIST 15, HIST 16, HIST 17, HUM 1, HUM 2, PLSC 1, PLSC 11, PSY 1, PSY 2, PSY 3, PSY 5, PSY 6, PSY 18, PSY 31/CD 31, PSY 33, SOC 1, SOC 2, SOC 3, SOC 4

Humanities

BS 156, CD 17, (and All Music Courses) MUS 1, MUS 6, MUS 7, MUS 12, ANTH 1, BUS 27, ENGL 1, ENGL 2, ENGL 3, ENGL 4, ENGL 5, ENGL 7, ENGL 9, ENGL 10, ENGL 12, ENGL 22, ENGL 33, ENGL 34, ENGL 105, ENGL 105A, ENGL 150, ENGL 151, ENGL 155, ES 1, ESL 155, FILM 1, GEOG 2, HUM 1, HUM 2, PHIL 1, PHIL 2, PHIL 10, SPAN 1, SPAN 2, SPCH 1

Human Services

(All HUS Courses) HUS 10, HUS 22, HUS 24, HUS 25, HUS 30, HUS 31, HUS 32, HUS 35, HUS 37, HUS 40, HUS 41, HUS 42, HUS 48.05, HUS 49, HUS 61

Information Systems

GIS 1, GIS 2, GIS 3, GIS 4, GIS 5

Mathematics /Natural Science

ANTH 1, ASTR 1 (and All Bio Courses) BIO 1, BIO 10, BIO 20, BIO 25, BIO 26, BIO 32, BIO 32L, BUS 84, COT 59 (and All Chem Courses) CHEM 1A, CHEM 1B, CHEM 8, CHEM 45, GEOL 1, GEOL 5, GEOG 1, (and All Phys Courses) PHY 2A, PHY 2B, PHSC 1, (and All Math Courses) MATH 1A, MATH 1B, MATH 7, MATH 8, MATH 11A, MATH 11B, MATH 40, MATH 60, MATH 156, MATH 164, MATH 187, MATH 168, and FS 91

Physical Education

HLTH 2, HLTH 25, and HO 120, HUS 30, (and All PE Courses) PE 15, PEAC 2A, PEAC 2B, PEAC 2C, PEAC 2D, PEAC 5A, PEAC 5A.02, PEAC 5B, PEAC 5C, PEAC 5C.02, PEAC 5D, PEAC 6, PEAC 6B, PEAC 6D, PEAC 7, PEAC 7D, PEAC 9, PEAC 9B, PEAC 9D, PEAC 10, PEAC 10D, PEAC 16, PEAC 32D, PEAC 34, PEAC 44

Vocational Nursing/Allied Health

CD 50, (and All HO Courses) HO 3, HO 49, HO 70, HO 71, HO 80A, HO 88, HO 120, (and All EMT Courses) EMT 21, EMT 60, EMT 61 and FS 20, (and All VN Courses) VN 50, VN 51, VN 52, VN 53, VN 54, VN 55, VN 56, VN 57, VN 58, VN 59, VN 60

Welding Technology

GSS 124, IT 22, IT 72 (and All WT Courses) WT 20, WT 21, WT 22, WT 23, WT 25, WT 31, WT 32, WT 36, WT 37, WT 38, WT 39, WT 42, WT 43, WT 44, WT 45, WT 49, WT 50, WT 51, WT 52, WT 52

Special Educational Programs:

Developmental Studies

(All DS Courses) DS 110, DS 111, DS 112, DS 113, DS 114, DS 115, DS 116, DS 120, DS 121, DS 122, DS 153, DS 155, DS 158, BS 156, BS 170, BS 171

Work Experience

CARS 2, CARS 151, CARS 153 (and all 49 courses) AGR 49, AJ 49, ART 49, AT 49, BUS 49, CD 49, CT 49, FS 49, GSS 49, HO 49, HUS 49, JOUR 49, WT 49, WE 1, WE 2

ATTACHMENT G

DEFINITION OF TERMS

Assessment.....	The process of judging student behavior or product in terms of some criteria (Clark, 1975). It includes various means of gathering information about the quantity, quality and progress of students, their performance and academic work.
Assessment Cycle.....	The assessment cycle in higher education is generally annual and fits within the academic year. In order to incorporate recommendations into Lassen Community College planning and budgeting processes, the LCC IPRs are conducted over the course of an academic year, culminating in September.
Assessment Results.....	The data/information acquired from the implementation of an assessment tool.
Assessment Tool.....	A tool that has been designed to collect objective data about students' attitudes and skill level. An appropriate learning outcomes assessment tool measures students' abilities to integrate a set of individual skills into a meaningful, collective demonstration. Some examples of assessment tools include standardized tests end-of-program skills test, student inquiries, common final exams, and comprehensive embedded test items.
C-ID.....	Course Identification Number
Core Course.....	Courses within a discipline specifically required for a degree or certificate.
Course Embedded Assessment.....	The review of materials generated in the classroom. In addition to providing a basis for grading students, such materials allow faculty to evaluate approaches to instruction and course design.
Description/Evaluation.....	A subsection provided within the IPR to allow faculty to identify and analyze the current situation within the program to justify recommended changes to the current situation.
Direct Cost per Program.....	All identified direct costs charged to a program as defined by TOP (e.g., instructor salaries, supplies, etc.).
Direct Measures of Learning.....	Students display knowledge and skills as they respond directly to the assessment itself.
Full-time Equivalent Faculty (FTEF).....	The amount of instructional employee time expressed in a proportion to that required in a full-time teaching position, with 1.0 representing one full-time position. FTE is derived by dividing the amount of time taught in a position by the amount of teaching hours required in a corresponding position.
Full-time Equivalent Student (FTES).....	For state accounting purposes, an FTES is a full-time student who attends 15 hours per week for 35 weeks (two primary terms). The rule is: 15 hours x 35 weeks = 525 total WSCH = 1 FTES. To determine FTES, multiply number of students by the number of hours per week and number of weeks, then divide by 525.

General Education or Transfer Programs	For the purposes of this review, general education refers to courses satisfying Associate degree requirements, CSU Certification, or IGETC.
Indirect Measures of Learning	Assessment tools such as surveys and interviews, which ask student to reflect on their learning rather than to demonstrate it.
IGETC	Intersegmental General Education Transfer Curriculum - completion of the IGETC guarantees that a transferring community college student has satisfied the lower division general education requirements of the CSU/UC systems.
Instructional Program	For the purpose of this review, a program shall be defined as follows: a program is an organized sequence course or series of courses leading to a definite objective, a degree, certificate, diploma, a license, or transfer to another institution of higher education.
Planning Agenda	A subsection provided within the IPR to allow faculty to make recommendations for improvement of their programs. Recommendations are divided into those that require institutional support and those to be implemented by the program faculty.
Prerequisite	A condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or program.
Program Learning Outcome	A measurable educational objective as a consequence of participation in an organized sequence of courses (i.e. ability to perform specific work place competencies).
Program Outcome	A measurable objective as a consequence of participation in an organized sequence of courses (i.e. employment, receipt of degree or certificate).
Recommended Preparation	A condition of enrollment that a student is advised, but not required, to meet before, or in conjunction with, enrollment in a course or program.
Statistical Data	The Offices of Institutional Research and Instruction will provide departmental staff with the minimum statistical data as required by the state-wide accountability model.
Student Learning Outcome	An overarching specific observable characteristic developed by local faculty that allows them to determine or demonstrate evidence that learning has occurred as result of a specific course, program, activity, or process.
Weekly Student Contact Hours (WSCH)	The class hour or contact hour is the basic unit of attendance for computing average daily attendance. A contact hour is the basic period of not less than fifty minutes of scheduled instruction. Weekly student contact hours are the total number of student contact or class hours per week.
WSCH per FTE	A ratio of weekly student contact hours to full-time faculty equivalency. This is a measure of faculty load.

Facility Condition Assessment

FUSION (Facilities Utilization, Space Inventory Options Net) is a database of 80 million square feet of California Community College facilities that tracks the condition assessments and develops cost modeling for maintenance projects, enabling colleges to plan budgets and help facilitate the passing of much-needed bond measures. The FUSION project team is

comprised of representatives from California's 72 community college districts, the Foundation for California Community Colleges, and the California Community Colleges Chancellor's Office.

Facility Condition Assessment

Our Facility Condition Assessment (FCA) program provides discounted and quality-assured assessments for all California Community Colleges. An FCA is a professional, methodical review of a facility's key components and systems such as foundation and waterproofing, heating, ventilation, and electrical, in order to define problems, develop cost estimates, and create plans for repairs.

There are two levels of FCA—a life cycle systems assessment (Level 1) and a comprehensive assessment (Level 2).

Comprehensive Assessment (Level 2)

A Level 2 (L-2) assessment is a detailed physical survey of the condition of existing facilities, during which the assessors document hundreds or thousands of current deficiencies. These deficiencies are added to the L-1 Component building system life cycles to determine a comprehensive facility evaluation of both current deficiencies and future renewal costs. It is a tool for facility managers to identify specific deferred maintenance and capital renewal items to repair or replace.

The Comprehensive Assessment delivers a facility database and cohesive planning and construction programs based on reliable data. As a result, we can better procure repair and correction work economically.

The FCA program provides data gathered by architects and engineering teams. These teams may be supplemented with building-type or system-specific specialists when appropriate. Using national cost database modeling, existing records, plant staff interviews, onsite surveys, and facility experience, our team identifies facility and infrastructure architectural, structural, mechanical, electrical, and plumbing conditions, focusing on what is new, old, good, bad, broken, expiring, renewed, missing, or inadequate. The findings are stored in software that catalogs current deferred maintenance and future capital renewal costs.

FCA Benefits

Improve Facilities Data

- Define facility problems to discover what is broken and what is missing.
- Validate needs for funding programs, community, support, bonds, etc.

Download the FUSION fact sheet >

- Gather defensible data from independent third parties for justifying capital expenditures.
- Define parity and equity issues between county, district, campus, or individual buildings.
- Develop mandated reports and address code issues.

Streamline Facilities Management and Improve Facility Conditions

- Allow facilities and maintenance personnel to better plan, manage, and direct work.
- Support facility renovation and renewal to protect mission-critical teaching, research, and support functions.
- Provide schools with a local database system with facilities data.
- Facilitate one-time data entry.
- Prioritize short-term planning issues.
- Create budgets for deficiency corrections.
- Identify long-term strategic planning approaches to develop a Capital Renewal/Deferred Maintenance program.

Lower Facilities Maintenance Costs

- Enable horizontal procurements and enhanced project development.
- Improve ability to complete projects on time and within scope and budget.
- Purchase from current and future Collegebuys.org facility contracts and obtain significant discounts on selected construction materials and equipment.

Facility Condition Index

An FCI represents the ratio of the cost to correct a facility's deficiencies to the current replacement value of the facility. For example, if a building's replacement value is \$1,000,000 and the cost of correcting its existing deficiencies is \$100,000, the building's FCI is $\$100,000 \div \$1,000,000$; that's 0.10 or 10 percent. The larger the FCI, means poorer condition of the facility. General industry guidelines are: 0 - 5% is good; 5.01 - 10% is fair; and greater than 10% is poor. An FCI uses as the basis for analysis an FCA.

Facility Utilization Standards

Facility Utilization Standards are used to help assure that the three segments of higher education use their facilities with a reasonable degree of efficiency. Utilization standards specify the amount of time an instructional station (typically a desk in a classroom or a work space in a teaching laboratory) is occupied and in use

Introduction

CAMPUS MAP

Lassen Community College

To help document the need for funding the necessary replacement and upgrading of facilities within California's community college districts and to assist districts in preparing for bond issues, the Foundation for California Community Colleges (FCCC) negotiated a discounted-pricing agreement for facilities condition assessments with 3D/International. In Summer 2001, the FCCC issued a formal Request For Information (RFI) in a public newspaper and subsequently reviewed, considered, and evaluated the respondents' experience and quality of work, particularly work with higher education clients. Lassen Community College District (LCCD) elected to participate in the joint agreement and contracted with 3D/I to assess and document the facility repair, rehabilitation, modernization requirements relative to the LCCD.

Over a period of about two months, a staff of six 3D/International planning and construction professionals working with the Chancellor's Office performed an Existing Facility Assessment. The following report presents 3D/International's findings.

The Report is organized into the following 2 sections:

- Introduction
- Lassen Community College Reports

The Assessment of Existing Facilities section reports on the current physical condition of fifteen buildings, totaling approximately 192,424 gross square feet.

The results of the assessment will provide LCCD with the technical information needed to make informed decisions regarding the disposition of existing facility maintenance funds and the need and cost of a capital improvement program.

Aerial Photo of Lassen Community College

3D/International conducted a visual inspection of fifteen of the existing LCCD facilities to identify the condition and to estimate the cost to perform the necessary repairs and renovations.

Existing Facility Assessment Findings

The generally accepted range of Facility Condition Index (FCI) for establishing a buildings condition is shown below. This standard has been adopted by the Building Owners and Managers Association, the Council on Education Facilities, and the American University Planners Association, and a number of other national facilities groups.

Condition	FCI
Good	0 to 5%
Fair	6 to 10%
Poor	10% and above

The results of our assessment are summarized in the FCI table on page 7. The estimated initial cost to repair these fifteen facilities totals \$19,852,840.

The overall FCI rating of 37.21% for the fifteen buildings assessed means that, in general, the facilities are in poor condition despite being generally well maintained. This is to be expected due to the age of the buildings, ten of which were built prior to 1975.

Two buildings have an FCI less than 10%, the range for good or fair condition.

Three buildings have FCI ratings in excess of 50%. When the FCI is greater than 70% the building should be considered for replacement, as opposed to investing the substantial costs to repair a 25 to 30 year old building with systems well beyond their useful lives.

A more detailed discussion on the methodology and findings for each of the District buildings is provided in the Assessment of Existing Facilities section of this report.

Assessment of Existing Facilities

Administration Building

In 2002, Lassen Community College District authorized 3D/International to perform a district-wide, comprehensive facility condition survey assessment. The costs associated with correcting deficiencies can be identified as follows:

Deferred Maintenance – maintenance work that has been deferred on a planned or unplanned basis due to lack of funds in the annual budget cycle – excluding normal maintenance that has already been scheduled, planned or funded within the current budget cycle.

Capital Renewal – future renewal requirements for building systems that reach the end of their expected useful life.

The comprehensive facilities assessment performed for LCCD is a detailed visual, non-destructive, inspection of each building. 3D/I's software, "COMET" – Condition Management Estimation Technology – is used as the database for recording all deficiencies. The survey assessment is a comprehensive room-by-room inventory of defined key elements and characteristics. The result of the inspection is a populated database that catalogs every deficiency costing over a certain value.

In parallel with the FCCC-3D/I agreement for discounted facility condition assessment services, an information technology project referred to as the Facility Utilization, Space Inventory Options Net or "FUSION" Project is underway. This project will design and deliver a centralized database and software in which the facility condition assessment data will reside and be used and managed by the districts to better manage their real asset portfolio.

Approach

The assessment teams are comprised of design professionals, typically an architect and an engineer. For each building, the teams collected much of the facility's historical information prior to visiting the facility. This research included a review of existing drawings, meetings with the campus maintenance staff, and a review of previous renovations. The assessment teams then conducted a site visit to verify data already gathered as well as to record additional information found during the inspection. Based on visual observations and discussions with facility occupants and maintenance staff, the assessors determined what deficiencies existed and the general conditions of key building systems. A written description of the facility, including an overview of the facility's construction, building systems and general condition, was then developed.

Background

Lassen Community College is located on 165 acres in Susanville, California. It is a public institution with an approximate enrollment on the Susanville campus of 2,000 students. Of those 2,000 students, approximately 700 are full-time students. The District has various Outreach Centers growing the overall District enrollment to over 3,000 students.

The California Community Colleges Chancellor’s Office encouraged districts within the CCC System to take advantage of the discounted assessment service to generate an unbiased appraisal of the school’s physical conditions and to obtain recommendations for building system replacement based on priorities and expected useful life.

Facilities

One of the findings of the assessment process is the determination of the Facility Condition Index, or “FCI.” The FCI is a ratio of the estimated cost to repair the identified deficiencies divided by the estimated replacement value of the facility. It describes the relative state of physical condition of a building (or its components, or a group of buildings) against a cost model of the original building as if it were at the beginning of its useful life, fully “renewed” to today’s standards.

Summary of Findings

The costs presented below are a summary of the findings of the assessment for the current deficiencies. The costs do include soft costs associated with a rehabilitation project. These costs can change based on the packaging of repair and renovation projects.

Condition	FCI
Good	0 to 5%
Fair	6 to 10%
Poor	10% and above

Campus	Estimated Repair Cost	Gross Square Feet	FCI %	Replacement Cost
Lassen CC	\$19,852,840	192,424	37.21%	\$53,359,075
Hard Cost	14,760,467			39,672,152
Soft Cost	5,092,373			13,686,923

Based on current industry standards, the campus FCI indicates the facilities are in poor condition.

Building System Classifications

The following chart gives a breakdown of the recorded deficiencies by their respective building systems for the entire campus.

In general, the majority of the costs identified in the assessment are for mechanical and electrical systems. Within mechanical systems, most costs are for adding or replacing chillers, boilers, and associated components such as air handlers and ductwork. The majority of the electrical system costs are for replacing lighting fixtures and providing additional capacity to the main service and branch circuits.

Facility FCI by Type Structure

The following is a list of the campus facilities grouped by building number displaying the Current Repair Cost, Replacement Cost and FCI.

<i>Facility</i>	<i>Gross SQ FT</i>	<i>Yr Built</i>	<i>Repair Cost</i>	<i>Replacement Cost</i>	<i>FCI</i>
Lassen College Campus					
01 Creative Arts	30,067	1981	\$1,946,078	\$9,188,923	21.18%
02 Trades	17,758	1980	\$2,331,830	\$5,148,843	45.29%
06 Bookstore	2,745	1979	\$239,519	\$797,521	30.03%
07 Administration	4,096	1971	\$189,327	\$1,203,162	15.74%
08 Humanities	17,331	1971	\$1,833,450	\$5,143,548	35.65%
09 Vo Tech Careers	10,334	1971	\$987,973	\$2,996,749	32.97%
10 Gunshop	6,840	1971	\$801,753	\$1,983,527	40.42%
12 Sports Complex	31,756	1971	\$5,235,006	\$10,397,359	50.35%
14 Cafeteria	10,136	1973	\$1,672,760	\$3,029,600	55.21%
15 Dormitory	22,683	1972	\$2,103,073	\$5,383,869	39.06%
16 Math Science	14,187	1974	\$1,513,488	\$4,044,934	37.42%
17 Student Services	5,885	1975	\$267,935	\$1,728,663	15.50%
18 Maintenance/Receiving	8,686	1975	\$729,991	\$1,248,455	58.47%
23 Agriculture Building #1	3,920	1993	\$0	\$201,531	0.00%
32 AG Production Barn	6,000	1998	\$657	\$862,391	0.08%
Lassen CCD Totals					
	192,424		19,852,840	53,359,075	37.21%

It is accepted practice within the field of professional property management to consider replacement rather than repair of an asset when the FCI for that facility is in the range of 60 – 70% or higher. For facilities with an FCI in or near this range, the master planning process should carefully weigh issues such as:

- Student population (current versus planned) of the school in question
- The condition of the existing foundations and superstructures.
- The need for additional space, i.e., new construction.
- The appropriateness of the location of current assets.

Bookstore

Provided in this report are cost estimates to renovate the facilities and eliminate the identified deficiencies. Please note that these estimates reflect incorporating current building standards, codes, and livability issues into the renovation. The cost estimates *do not* reflect upgrades to:

- the architectural program—e.g., additional square footage for another educational mission;
- finishes—e.g., terrazzo tile in lieu of concrete; and/or
- systems—replacement of a 200 Amp electrical service with a 300 Amp service, which may in fact be more applicable for today's educational mission/program but would require further engineering and study to determine the appropriate service for today's learning environment.

Capital Renewal

Funding Requirements – 10 Year Renewal Projection

The following chart illustrates the 10-year total funding requirements for the Lassen Community College District for three (3) funding scenarios. It shows the combined funding needed for correcting the assessed deficiencies and the predicted capital renewal requirements. Using this chart, we can query:

- “How much funding is required to maintain the current FCI?”
- “What level of funding is required to achieve an FCI of 10%?”
- “What level of funding is required to achieve an FCI of 5%?”

Future Facility Funding vs FCI for Lassen

Funding Plan	2004	2005	2006	2007	2008	2009	2010	2011	2012	2013	Total
Red	\$346,531	\$1.5 M	\$2.3 M	\$3.4 M	\$0	\$17,215	\$109,493	\$1.3 M	\$4.2 M	\$4.6 M	\$17.8 M
Blue	\$1.9 M	\$3.0 M	\$3.8 M	\$5.0 M	\$1.7 M	\$1.7 M	\$1.9 M	\$3.1 M	\$6.2 M	\$6.6 M	\$34.9 M
Green	\$2.1 M	\$3.3 M	\$4.1 M	\$5.4 M	\$2.0 M	\$2.0 M	\$2.2 M	\$3.6 M	\$6.4 M	\$7.0 M	\$38.1 M

Three scenarios are shown:

- **Current FCI: Keep the current FCI Stable (Red)**

The red line assumes no spending in the current year (2003) for current deficiencies. Capital renewal costs, as shown, over the next 10 years would be required to maintain the current FCI. The total to keep the FCI stable is approximately \$17.8 million.

- **Required funding: Reduce the FCI to 10% (Blue)**

The green line assumes no spending in the current year (2003) for all current deficiencies. It assumes a consistent level of funds for the next 10 years to buy-down the current deficiencies and additional funding for capital renewal items to achieve an FCI of 10%. (Minimal standard as published by APPA.) The total to reduce the FCI to 10% is approximately \$34.9 million.

- **Required funding: Reduce the FCI to 5% (Green)**

The blue line assumes no spending in the current year (2003) for all current deficiencies. It assumes a consistent level of funds for the next 10 years to buy-down the current deficiencies and additional funding for capital renewal items to achieve an FCI of 5%. The total to reduce the FCI to 5% is approximately \$38.1 million.

Facility Renewal Forecast for Lassen

20 Year Capital Renewal Forecast

The cost models for each building give us a method to predict future needs for capital renewal. Each model allows us to assess the remaining life of each of the main systems in the building and to enter the expected time of replacement of such systems. Although each model is only a rough approximation for one building, over a larger sample size use of these cost models produces a reliable estimate of the yearly cost to replace building systems. This chart illustrates a 20-year projection of capital renewal funding requirements, excluding current deficiencies for the entire district.

Conclusions

The overall FCI of the facilities in the Lassen Community College District is 37.21%, typical of what we find for facilities of similar age and function across the nation. While this is a “poor” FCI, (as defined by the APPA) the facilities are generally well maintained.

The majority of the deferred maintenance requirements are of the type that can be renewed without demolition of the facility. (e.g., mechanical and electrical systems, wall and floor finishes, and exterior doors and windows.) Not all facilities should be renovated; however, renovation should remain an option as the planners consider educational master plans, new buildings, high growth areas, population, etc.

COMET Assessments

Condition Management Estimation
Technology – 3D/International Facility
Management Software

Student Services

Facilities Assessment Methodology

The basic level of surveys to be performed within the CCC System is referred to as “Level 1” or “Level 2” assessments. A Level 1 (L-1) assessment is a mathematical model of a facility’s component building systems, which is used to determine their conditions based on the components’ planned life cycles. It is a strategic tool for programming and budgeting capital renewal costs; a macro view of facility status. A Level 2 (L-2) assessment is a detailed physical survey of the condition of existing facilities wherein the assessors document hundreds or thousands of current deficiencies. These deficiencies are added to the L-1 component building system life cycles to determine a comprehensive facility evaluation of both current deficiencies and future renewal costs. It is a tool for facility managers to identify specific deferred maintenance and capital renewal items to repair or replace.

The majority of the facility condition assessment being performed by 3D/I, for Districts within the California Community College System, are Level 2 assessments. For this type of assessment, data is collected from a review of as-built drawings and other current documents as well as a complete but non-destructive visual inspection of facilities. Typical areas of buildings that are investigated include roofs, mechanical rooms, and exterior support areas extending to 5 feet from the building.

The first phase of an L-2 assessment is the review of the floor plans of each facility to be assessed. Next a hierarchical structure (a “tree” or “parent/child” relationship) that captures the facilities and all interior rooms and spaces is designed in the COMET software. The tree structure provides the assessor a road map of the building and the lowest level of the tree structure is where the deficiencies are recorded. The next step is developing cost models for the life cycles of building systems. This includes reviewing existing documents to determine types, ages, and components of the buildings, and the dates and scope of any recent renovations.

3D/I’s cost models are based on RS Means building material estimates and the Business Owners and Managers Association (BOMA) estimated useful life of building components. However, COMET can be customized to reflect individual client’s project or O&M cost histories and to account for particular environmental or operational conditions—such as excessive moisture and heat or continuous operation. Also considered are preventative maintenance efforts, since they can often significantly affect the number of years a system can remain in operation.

Filters

Priorities

Each deficiency is assigned a “Priority” as described below.

- **Priority 1: Directly Affects the Educational Mission** – Systems or elements within systems that should be repaired or replaced to mitigate issues *that prevent the educational mission* of the facility.
- **Priority 2: Indirectly Affects the Educational Mission** - Systems or elements within systems that should be replaced or repaired *to maintain the educational mission* of the facility or mitigate additional damage to the facility.
- **Priority 3: Beyond Expected Useful Life** – Systems or elements within systems that should be replaced or repaired *to maintain the mission* of the facility but potentially have some life left.
- **Priority 4: Finishes and Improvements** – Systems or elements within systems that should be replaced or repaired or upgraded that have *minimal impact on the educational mission* of the facility.

Categories

Each deficiency is classified into one of the following categories.

Life Safety Code Compliance
Building Code Compliance
Accessibility Code Compliance
Capital Renewal
Deferred Maintenance
Energy Efficiency Improvement
Hazmat

Adverse Effects

Each deficiency is assigned one of the following risk potentials.

Campus / Facility Closure
Safety Hazard
Disruption of Program
Code Violation
Greater Future Damage / Cost
Inconvenience
Potential / Future Damage / Cost

Definitions

City Cost Index (CCI)

The R.S. Means data used to develop the cost models and price the deficiencies is based on a national average. In order to reflect pricing indicative of this area of the country, a CCI is applied to all pricing and cost models. The CCI used for Lassen CCD is 147.69%.

Facility Condition Index (FCI)

The FCI represents the relative physical condition of facilities. The FCI measures the estimated cost of the recommended improvements and compares that to the replacement cost of the facility. The total cost of repairs divided by the facility replacement cost is the FCI. A higher FCI indicates a facility in worse shape. For example, if a building has a replacement value of \$1,000,000 and has \$100,000 of existing deficiencies, the FCI is \$100,000/\$1,000,000 or 0.10. The generally accept rule of thumb in building condition assessments is:

Condition	FCI
Good	0 to 5%
Fair	6 to 10%
Poor	10% and above

Facility Systems

- Conveying: Elevators
- Electrical includes alarms and communications, lighting, power, service and distribution.
- Excavation includes any digging for underground access or removal of soil.
- Exterior Closure includes exterior doors, trim, caulking, etc.
- Exterior Walls includes refinishing and painting exterior surfaces and materials.
- Fire Sprinkler includes fire protection systems.
- Foundations include work to repair footings or level slabs, etc.
- Heating & Cooling System includes boilers, cooling, HVAC piping, insulation, mechanical components like pumps and controls.
- Interior construction includes ceiling finishes, flooring finishes, interior doors, stairs, wall finishes and walls.
- Plumbing includes potable and sanitary piping and plumbing fixtures.

Agriculture Building

- Roof includes all components of a roofing system including the deck, insulation, membrane, and any special work such as gutters or repairing flashing, etc.
- Slab on Grade includes any repairs, removal, or replacement after other work is done.
- Special Construction includes chalk and tack boards, seating, etc.
- Structural includes framing system, columns, beams, and slabs.
- Superstructure includes the exterior walls.
- Windows includes repair or replacement of window units.
- Structural: superstructure (columns, beams, footings, foundations, slab-on-grade, etc)

Facility Replacement Cost

This represents the derived expense to rebuild the existing facilities in a manner representing the desired construction. The replacement cost is determined by multiplying the gross area of the facility by the estimated cost per square foot cost value associated with the pertinent cost model.

Renewal Premiums

The costs developed in the models are typical of permanent new construction. When a renovation project is undertaken, certain additional costs are incurred for some systems because of demolition and difficulty. For other systems, not all items in the assembly are replaced. In these instances the reduction in work overcompensates for the demolition costs, and a lower cost is incurred. The table below details our strategy for this issue by system group.

System Name	Life (yrs)	% Renewal
Conveying	25	75%
Electrical	30	90%
Exterior Closure	25	105%
Exterior Walls	100	100%
Fire Protection	25	95%
Foundations	100	100%
IntCeil	13	105%
IntDoor	40	110%
IntFinish	10	100%
IntFloor	10	105%
IntPart	40	110%
Mechanical	30	90%
Plumbing	30	90%
Roof Deck	100	120%
Roofing	20	120%
RoofOpSp	20	120%
Special Construction	25	110%
Special Electrical	10	90%
Stairs	100	100%
Structural	100	100%
Structural walls	100	100%
Windows	25	105%

Hard and Soft Costs

Hard Costs include the installing contractors cost (RS Means data), site work, the contractor’s general conditions, the general contractors overhead and profit and an amount for construction contingency. Soft costs are additional costs, which are necessary to accomplish the work, but are not directly attributable to the general contractor or the deficient system. Soft costs vary by user but can include design fees; specialized investigations such as geotechnical, environmental, or hazardous material; program management fees; and various administrative fees. The soft costs used in this assessment are as follows:

New Construction Cost Breakdown for Cost Models

Description	Percentage
Hard Cost	
1. Total Subcontractor/Specialty Costs	R.S. Means Assembly price
2. Site Work	12.0% of 1
3. Area Location Factor	8.0% of 1
4. General Conditions	15.0% of (1+2+3)
5. Contractor Overhead and Profit	10.0% of (1+2+3+4)
6. Construction Contingency	5% of (1+2+3+4+5)
7. General Contract	1+2+3+4+5+6
Soft Cost	
8. Architecture & Engineering	15.0% of General Contract
9. Plan Check/Permits/Fees	2.0% of General Contract
10. Hazardous Materials	0.5% of General Contract
11. Materials Testing & Inspection	2.0% of General Contract
12. Bonds & Insurance	2.0% of General Contract
13. Temporary Storage and Relocation	1.0% of General Contract
14. Furniture & Equipment	7.0% of General Contract
15. Construction Management	5.0% of General Contract

**Renovation Cost Breakdown for deficiencies pricing**

Description	Percentage
Hard Cost	
1. Total Subcontractor/Specialty Costs	R.S. Means per unit price
2. General Conditions	15.0% of 1
3. Contractor Overhead and Profit	10.0% of (1+2)
4. Construction Contingency	15% of (1+2+3)
5. General Contract	1+2+3+4
Soft Cost	
6. Architecture & Engineering	15.0% of General Contract
7. Plan Check/Permits/Fees	2.0% of General Contract
8. Hazardous Materials	3.0% of General Contract
9. Materials Testing & Inspection	2.0% of General Contract
10. Bonds & Insurance	2.0% of General Contract
11. Temporary Storage and Relocation	1.0% of General Contract
12. Furniture & Equipment	7.0% of General Contract
13. Construction Management	5.0% of General Contract

It is important to note that these costs may vary once plans for executing the work are created. If variations do occur over time, the data in COMET can be easily updated to reflect the changing costs.

Facility Executive Summary

Facility: California Community Colleges\Lassen\Lassen College\01 Creative Arts

Attributes:
None

General Information:

Function:		Year Built:	1981
Last Renovation:		Cost Model:	CC Class MSnCP WF
Gross Area:	30,067 S.F.		

Facility Description:

01 Creative Arts is located in the North side of the Lassen Community College of the Lassen Community College District in Susanville, CA. The two story, 30,067 square foot building contains audio visual, radio, and TV classrooms, class labs, and offices. Originally constructed in 1981, there have been no additions or renovations. The building is a permanent facility.

Site:

Concrete sidewalks immediately adjacent to the facility are in good condition and pose no hazards.

Structural/Exterior Closure:

The building foundation is a concrete slab on grade with deepened concrete perimeter footings. The exterior is tilt-up precast concrete panels with architectural textured stone panels and formed and pour concrete structural members that are in good condition. The second floor is wood framed with wood deck. The roof is wood framed with wood decking and a metal standing seam roof system. The standing seam roof is in good condition. The structure's exterior is in good condition. The exterior walls have aluminum storefront doors and a tinted glass aluminum window system. Service doors are flat faced steel in steel frames. The windows are single paned glass in aluminum frames.

Interiors:

The partitions in the building are typically gypsum board. The ceilings are glue-on ceiling tile throughout the building that is in good condition. Floors are smooth concrete, carpeting, and VCT in the main areas. The carpet is worn and stained and needs replacement in some areas. Concrete floors are stained and need refinishing. VCT is worn and also needs replacement. Interior doors are wood with slab faces in steel frames. Door hardware is in serviceable condition. Restrooms have ceramic tile floors and wainscot that is in good condition. Toilet compartments are metal. The second floor is serviced by an elevator.

Mechanical/Plumbing:

Heating is provided by oil fired boilers located in the Sports Complex. Cooling is provided by an air cooled chiller and supplemented by an evaporative cooler. The heating/cooling distribution system is a 4-pipe system using factory built air handling units. Fresh air is provided by air handling units. Ceiling mounted exhaust fans are installed in restrooms and ventilation is inadequate. Plumbing fixtures are typically in poor condition and copper piping is original.

Electrical:

The electrical system is fed from a pad mounted transformer that delivers 120/208 V and 277/480 V, 3 phase, 4-wire power to the facility. Lighting is typically fluorescent and illumination is generally inadequate. Emergency lights are present. Emergency exit signs are present and are typically illuminated. The building shares the campus emergency generator.

Fire Protection/Life Safety Systems:

The fire alarm system consists of audible and strobe annunciators in classrooms and corridors. The system is activated by pull stations and is centrally monitored. The building has a fire sprinkler system.

Facility Executive Summary

Facility: California Community Colleges\Lassen\Lassen College\02 Trades**Attributes:**
None**General Information:**

Function:	Year Built:	1980
Last Renovation:	Cost Model:	CC Class 1SwCP CF
Gross Area:	17,758 S.F.	

Facility Description:

02 Trades is located in the East side of the Lassen Community College of the Lassen Community College District in Susanville, CA. The single story, 17,758 square foot building contains classrooms, class labs, and offices. Originally constructed in 1980, there have been no additions or renovations. The building is a permanent facility.

Site:

Concrete sidewalks and asphalt paving immediately adjacent to the facility are in good condition and pose no hazards.

Structural/Exterior Closure:

The building foundation is a concrete slab on grade with deepened concrete perimeter footings. The exterior is wood framed with wood paneling that is in good condition. The roof is wood framed with wood decking and standing seam metal roof system. The roof is in good condition. The structure's exterior is in good condition. The exterior walls have aluminum storefront doors and a tinted glass aluminum window system. Overhead coiling roll-up metal door service the shop areas. Service doors are flat faced steel in steel frames. The windows are single paned glass in aluminum frames.

Interiors:

The partitions in the building are typically gypsum board. The ceilings are glue-on ceiling tile throughout the building that is in good condition. Floors are smooth concrete, carpeting, and VCT in the main areas. The carpet is worn and stained and needs replacement in some areas. Concrete floors are stained and need refinishing. VCT is worn and also needs replacement. Interior doors are wood with slab faces in steel frames. Door hardware is in serviceable condition. Restrooms have ceramic tile floors and wainscot that is in good condition. Toilet compartments are metal.

Mechanical/Plumbing:

Heating is provided by an oil fired boiler. The building is not cooled. The heating distribution system is a 2-pipe system using fan coil units and finned tube radiators. The 2-pipe heating system is damaged and needs to be replaced. Fresh air is provided by fan coil units. Ceiling mounted exhaust fans are installed in restrooms and ventilation is inadequate. Plumbing fixtures are typically in poor condition and copper piping is original.

Electrical:

The electrical system is fed from a pad mounted transformer that delivers 120/208 V and 277/480 V, 3 phase, 4-wire power to the facility. Lighting is typically fluorescent and high pressure sodium and illumination is generally inadequate. Emergency lights are not present. Emergency exit signs are not present. The building shares the campus emergency generator.

Fire Protection/Life Safety Systems:

The fire alarm system consists of audible and strobe annunciators in classrooms, corridors, and common spaces. The system is activated by pull stations and is centrally monitored. The building does not have a fire sprinkler system.

Surveyor:

Woody Nelson

Date:

18-Dec-2002

Repair Costs:

\$2,331,829.59

Replacement Cost:

\$5,148,843.31

FCI:

45.29%

Facility Executive Summary

Facility: California Community Colleges\Lassen\Lassen College\06 Bookstore

Attributes:
None

General Information:

Function:	Year Built:	1979
Last Renovation:	Cost Model:	CC SC 1SnCP TW
Gross Area:	2,745 S.F.	

Facility Description:

06 Bookstore is located in the North side of the Lassen Community College of the Lassen Community College District in Susanville, CA. The single story, 2,745 square foot building contains merchandise areas, lounge, and office. Originally constructed in 1979, there have been no additions or renovations. The building is a permanent facility.

Site:

Concrete sidewalks immediately adjacent to the facility are in good condition and pose no hazards.

Structural/Exterior Closure:

The building foundation is a concrete slab on grade with deepened concrete perimeter footings. The exterior is tilt-up precast concrete panels with architectural textured stone panels and formed and pour concrete structural members that are in good condition. The roof is wood framed with wood decking and aluminum shingle roof system. The shingle roof is failing and needs replacement. The structure's exterior is in good condition. The exterior walls have aluminum storefront doors and a tinted glass aluminum window system. Service doors are flat faced steel in steel frames. The windows are single paned glass in aluminum frames.

Interiors:

The partitions in the building are typically gypsum board. The walls need repainting. The ceilings are glue-on ceiling tile throughout the building that is in good condition. Floors are primarily carpet that is worn and needs replacement. Interior doors are wood with slab faces in steel frames. Door hardware is in serviceable condition. Restrooms have ceramic tile floors and wainscot that is in good condition.

Mechanical/Plumbing:

Heating is provided by oil fired boilers located in the Sports Complex. Cooling is provided by evaporative coolers. The heating/cooling distribution system is a 4-pipe system using factory built air handling units. Fresh air is provided by air handling units. Ceiling mounted exhaust fans are installed in restrooms and ventilation is adequate. Plumbing fixtures are typically in poor condition and copper piping is original.

Electrical:

The electrical system is fed from a pad mounted transformer that delivers 120/208 V and 277/480 V, 3 phase, 4-wire power to the facility. Lighting is typically fluorescent and illumination is generally inadequate. Emergency lights are present. Emergency exit signs are present and are typically illuminated. The building shares the campus emergency generator.

Fire Protection/Life Safety Systems:

The fire alarm system consists of audible and strobe annunciators in offices and common spaces. The system is activated by pull stations and smoke detectors and is centrally monitored. The building does not have a fire sprinkler system.

Facility Executive Summary

Facility: California Community Colleges\Lassen\Lassen College\07 Administration

Attributes:
None

General Information:

Function:	Year Built:	1971
Last Renovation:	Cost Model:	CC Admin 1SnCP TW
Gross Area:	4,096 S.F.	

Facility Description:

07 Administration is located in the center of the Lassen Community College of the Lassen Community College District in Susanville, CA. The one story, 30,067 square foot building contains offices. Originally constructed in 1971, there have been no additions or renovations. The building is a permanent facility.

Site:

Concrete sidewalks immediately adjacent to the facility are in good condition and pose no hazards.

Structural/Exterior Closure:

The building foundation is a concrete slab on grade with deepened concrete perimeter footings. The exterior is tilt-up precast concrete panels with architectural textured stone panels and formed and pour concrete structural members that are in good condition. The roof is wood framed with wood decking and standing seam metal roof system. The metal roof is in good condition. The structure's exterior is in good condition. The exterior walls have aluminum storefront doors and a tinted glass aluminum window system. Service doors are flat faced steel in steel frames. The windows are single paned glass in aluminum frames.

Interiors:

The partitions in the building are typically gypsum board. The ceilings are glue-on ceiling tile throughout the building that is in good condition. Floors are carpet in the main areas. The carpet is worn and stained and needs replacement. Interior doors are wood with slab faces in steel frames. Door hardware is in serviceable condition. Restrooms have ceramic tile floors and wainscot that is in good condition.

Mechanical/Plumbing:

Heating is provided by oil fired boilers located in the Sports Complex. Cooling is provided by packaged air conditioning units. The heating/cooling distribution system is a 4-pipe system using factory built air handling units. Fresh air is provided by air handling units. Ceiling mounted exhaust fans are installed in restrooms and ventilation is inadequate. Plumbing fixtures are typically in poor condition and copper piping is original.

Electrical:

The electrical system is fed from a pad mounted transformer that delivers 120/208 V and 277/480 V, 3 phase, 4-wire power to the facility. Lighting is typically fluorescent and illumination is generally inadequate. Emergency lights are present. Emergency exit signs are present and are typically illuminated. The building shares the campus emergency generator.

Fire Protection/Life Safety Systems:

The fire alarm system consists of audible and strobe annunciators in corridors and offices. The system is activated by pull stations and smoke detectors and is centrally monitored. The building has a fire sprinkler system.

Facility Executive Summary

Facility: California Community Colleges\Lassen\Lassen College\08 Humanities

Attributes:
None

General Information:

Function:	Year Built:	1971
Last Renovation:	Cost Model:	CC Class MSnCP TW
Gross Area:	17,331 S.F.	

Facility Description:

08 Humanities is located in the center of the Lassen Community College of the Lassen Community College District in Susanville, CA. The two story, 30,067 square foot building contains classrooms and offices. Originally constructed in 1971, there have been no additions or renovations. The building is a permanent facility.

Site:

Concrete sidewalks immediately adjacent to the facility are in good condition and pose no hazards.

Structural/Exterior Closure:

The building foundation is a concrete slab on grade with deepened concrete perimeter footings. The exterior is tilt-up precast concrete panels with architectural textured stone panels and formed and pour concrete structural members that are in good condition. The second floor is wood framed with a wood deck. The roof is wood framed with wood decking and standing seam metal roof system. The metal roof is in good condition. The structure's exterior is in good condition. The exterior walls have aluminum storefront doors and a tinted glass aluminum window system. Service doors are flat faced steel in steel frames. The windows are single paned glass in aluminum frames.

Interiors:

The partitions in the building are typically gypsum board. The ceilings are glue-on ceiling tile throughout the building that is in good condition. Floors are carpeting in most areas. The carpet is worn and stained and needs replacement throughout the building. Interior doors are wood with slab faces in steel frames. Door hardware is in serviceable condition. Restrooms have ceramic tile floors and wainscot that is in good condition. Toilet compartments are metal.

Mechanical/Plumbing:

Heating is provided by oil fired boilers located in the Sports Complex. The building does not have any cooling. The heating distribution system is a 2-pipe system using fan coil units and finned tube radiators. Fresh air is provided by fan coil units. Ceiling mounted exhaust fans are installed in restrooms and ventilation is adequate. Plumbing fixtures are typically in good condition and copper piping is original.

Electrical:

The electrical system is fed from a pad mounted transformer that delivers 120/208 V and 277/480 V, 3 phase, 4-wire power to the facility. Lighting is typically fluorescent and illumination is generally inadequate. Emergency lights are present. Emergency exit signs are present and are typically illuminated. The building shares the campus emergency generator.

Fire Protection/Life Safety Systems:

The fire alarm system consists of audible and strobe annunciators in classrooms, corridors, offices, and other common spaces. The system is activated by pull stations and smoke detectors and is centrally monitored. The building has a fire sprinkler system.

Facility Executive Summary

Facility: California Community Colleges\Lassen\Lassen College\09 Vo Tech Careers**Attributes:**
None**General Information:**

Function:	Year Built:	1971
Last Renovation:	Cost Model:	CC Class 1SnCP TW
Gross Area:	10,334 S.F.	

Facility Description:

09 Vo Tech Careers is located in the center of the Lassen Community College of the Lassen Community College District in Susanville, CA. The single story, 10,334 square foot building contains classrooms, class labs, and offices. Originally constructed in 1971, there have been no additions or renovations. The building is a permanent facility.

Site:

Concrete sidewalks immediately adjacent to the facility are in good condition and pose no hazards.

Structural/Exterior Closure:

The building foundation is a concrete slab on grade with deepened concrete perimeter footings. The exterior is tilt-up precast concrete panels with architectural textured stone panels and formed and pour concrete structural members that are in good condition. The roof is wood framed with wood decking and standing seam metal roof system. The metal roof and the structure's exterior are in good condition. The exterior walls have aluminum storefront doors and a tinted glass aluminum window system. Service doors are flat faced steel in steel frames. The windows are single paned glass in aluminum frames.

Interiors:

The partitions in the building are typically gypsum board. The walls are in good condition. The ceilings are glue-on ceiling tile throughout the building that is stained and needs replacement in some areas. Floors are primarily VCT that is worn and needs replacement in most areas. Interior doors are wood with slab faces in steel frames. Door hardware is in serviceable condition. Restrooms have ceramic tile floors and wainscot that is in good condition. Toilet compartments are metal.

Mechanical/Plumbing:

Heating is provided by oil fired boilers located in the Sports Complex. Cooling is provided by evaporative coolers. The heating distribution system is a 2-pipe system using fan coil units. Fresh air is provided by fan coil units. Ceiling mounted exhaust fans are installed in restrooms and ventilation is inadequate. Plumbing fixtures are typically in poor condition and copper piping is original.

Electrical:

The electrical system is fed from a pad mounted transformer that delivers 120/208 V and 277/480 V, 3 phase, 4-wire power to the facility. Lighting is typically fluorescent and illumination is generally inadequate. Emergency lights are present. Emergency exit signs are present and are typically illuminated. The building shares the campus emergency generator.

Fire Protection/Life Safety Systems:

The fire alarm system consists of audible and strobe annunciators in corridors and offices. The system is activated by pull stations and smoke detectors and is centrally monitored. The building has a fire sprinkler system.

Lassen Community College District 130

List the address and acreage of every land unit owned by the district (Education Code 81821(e)). Please identify all locations, both on-campus and off-campus, grouped according to their "parent" institution. In the event the list is long or complicated, please substitute copies of college bulletins or other notices to the public which display similar information. The list should be current as of October the prior year.

Lassen Community College District 130

List the address and acreage of every land unit owned by the district (Education Code 81821(e)). Please identify all locations, both on-campus and off-campus, grouped according to their "parent" institution. In the event the list is long or complicated, please substitute copies of college bulletins or other notices to the public which display similar information. The list should be current as of October the prior year.

Notes: (1) Title 5 Standard for capacity/load ratio: A 100% cap/load ratio in lecture space is equivalent to one station every 15 ASF that is filled to 66% capacity for 48 hours per week.

(2) For a 5-day week, 48 hours per week = 68.6%; For a 7-day week, 48 hours per week = 49%.

California Community Colleges

Institutional Effectiveness

**Institutional Effectiveness Partnership Initiative
Partnership Resource Teams
Institutional Innovation and Effectiveness Plan
Date: December 11, 2020**

Name of Institution: Lassen Community College

Area of Focus	Objective	Responsible Person	Target Date for Achievement	Action Steps	Measure of Progress	Status As of Date:
A. Integrated Planning/ Educational Master Plan	- Review and refine the college planning process	CEO; CIO; CSSO; CBO; DIT/IE; ASP	March 2021	a. Hire consultant to assist in review of planning processes	a. Consultant(s) identified and selected for planning process	
			May 2021	b. Develop new planning process through consensus and referencing other colleges documentation, as suggested by PRT	b. Planning process developed	
			June 2021	c. Implement a multi-year program review process, integrated with SLO assessment, possibly integrated with course curriculum review (and 2-year CTE program cycles), with annual updates to keep resource requests current.	c. Planning process approved by Academic Senate and Consultation Council	
	- Review and refine EMP	CEO; CIO; CSSO; CBO; DIT/IE; ASP	March 2021	a. Hire consultant to assist in development of new EMP format (e.g., Statewide Academic Senate, RP Group, retired administrator with expertise).	d. Consultant(s) identified and selected for EMP format	
			June 2021	b. Develop new EMP format that also aligns to CCCCO's Vision for Success goals and other planning efforts (prioritize and unify goals).	e. New EMP format developed f. New EMP format approved by Academic Senate and Consultation Council	

	- Review and update the purpose (and necessity) of each college master plan	CEO; CIO; CSSO; CBO; DIT/IE; ASP	May 2021	c. Determine the necessity and purpose of each separate plan currently used by the college in terms of how that plan informs budgeting	Necessity and purpose decided; changes developed.
			May 2021	d. Determine the necessity and purpose of each separate plan currently used by the college in terms of how that plan informs resource allocation	Changes approved via shared governance and implemented.
			May 2021	e. Determine the necessity and purpose of each separate plan currently used by the college in terms of how that plan informs decision making.	
			May 2021	f. Consider whether Institutional Effectiveness needs its own plan, if its primary purpose is to assist in assessment of the effectiveness of all the major plans at the college. (<i>This would eliminate the IE Master Plan</i>)	Determination made and any change is approved via shared governance.
	- Implement a new, separate Budget Committee	CEO; CIO; CSSO; CBO; DIT/IE; ASP	May 2021	g. Determine Committee Charge and structure for a new Budget Committee (Full committee or as a Sub-committee?)	Committee charge and structure developed.
			May 2021	h. Distinguish between the annual budget development/resource allocation process and the master planning process	Determination made and any change is approved via shared governance.
			May 2021	i. Maintain a link between resource requests and EMP/Strategic Goals (e.g., indicate which goals are addressed by each request), but establish a clear distinction between master planning as a high-level, multi-year, goal-oriented process and departments' annual opportunity to update and address their basic operational needs.	A clear distinction is determined and approved via shared governance.
			May 2021	j. Decide whether objectives (e.g., floor and stretch targets on each of your overarching goals) should be part of each long-term Master Plan, or placed in a shorter-term document.	A clear distinction is determined and approved via shared governance.
			May 2021	k. Consider whether " <u>Promote Institutional Stability</u> ," "Advance Institutional Effectiveness," or something similar should be one of Lassen College's longer-term strategic goals.	Determination made and any change to the Strategic Plan is approved via shared governance.
	- Review and refine the glossary of the terms in the Planning Budget Development Handbook (Appx. D)	CEO; CIO; CSSO; CBO; DIT/IE; ASP	May 2021	l. Review to ensure that the glossary is a common text, a framework to help the college as a shared planning vocabulary.	Glossary revised to more appropriately serve shared planning processes.

Area of Focus	Objective	Responsible Person	Target Date for Achievement	Action Steps	Measure of Progress	Status As of Date:
B. Strategic Enrollment Management	A. Explore the feasibility of applying for appropriate grants, such as Title III and Title V Grants	CEO; CIO; CSSO; CAO; DIT/IE; Grants Manager	Spring 2021	A. Research/Investigate grant opportunities and required application timelines to provide multi-year support for data access and analysis.	Grant opportunities identified	
	B. Review and formalize SEM Plan Components	CEO; CIO; CSSO; CBO; DIT/IE; ASP	May 2021 June 2021	A. Document what is working will with our SEM Plan B. Add specific components needed (e.g., marketing, retention, scheduling/pathways, outreach).	-Existing processes/successes Documented -Specific components added to above SEM document	
	C. Establish data required for SEM and implement visualizations	CEO; CIO; CSSO; CBO; DIT/IE; ASP	May 2021 September 2021	C. Identify what specific data points are needed to inform SEM D. Create useful reports or dashboards presenting those data. (Also: Reference Fred Trapp report requests)	Data/data points identified -Reports developed and disseminated -Dashboards developed and disseminated	
	D. Evaluate current programs offered and use data to identify ways to streamline pathway choices for students	CEO; CIO; CSSO; CBO; DIT/IE; ASP	September 2021	E. Establish nested programs/stackable certifications within areas of study and remove one-off courses not essential to the pathway	-Nested programs established	
	E. Identify ways to improve service to target student populations	CEO; CIO; CSSO; CBO; DIT/IE; ASP	June 2021 June 2021 September 2021	F. Identify who your main target student populations are G. Identify specific strategies to more effectively communicate with each of them, including student input on these H. Determine whether there are other populations that might be underserved (e.g., evening students, itinerant workers, distance learners, etc.).	-Main target student populations identified -Communications strategies identified and implemented -Other underserved populations identified	
	F. Identify other potential SEM resources	CEO; CIO; CSSO; CBO; DIT/IE; ASP	June 2021	G. Access and explore the SEM resources in the CCCC Vision Resource Center.	Other resources identified	

Area of Focus	Objective	Responsible Person	Target Date for Achievement	Action Steps	Measure of Progress	Status As of Date:
A. Professional Development	Identify professional development opportunities and methods of delivery	CEO; CIO; CSSO; CBO; DIT/IE; ASP	September 2021 September 2021 September 2021	<p>A. Create opportunities for entire campus to learn and grow together (shared vocabulary, opportunities for all-campus gatherings, sharing knowledge learned in conferences with others-showcases).</p> <p>B. Identify key professional development opportunities that are supported by the college, which support college mission and goals</p> <p>C. Provide training to groups of faculty, classified, managers, and administrators as data coaches, to help train others in college to navigate institutional data and bring knowledge to college committees and projects.</p>	<p>-PD opportunities identified</p> <p>-Methods of delivery identified</p> <p>-Trainings conducted/attended</p>	

Request for IEPI Resources to Support Institutional Innovation and Effectiveness Plan

Applicable Area(s) of Focus <i>(Copy from table above.)</i>	Applicable Objective(s) <i>(Copy from table above.)</i>	Description of Resource Needed <i>(Refer to Action Steps above as appropriate.)</i>	Cost of Resource
A. Integrated Planning/ Educational Master Plan	-Develop appropriate Educational Master Plan	- Bring in a consultant to help the college define and integrate their planning processes (e.g., Statewide Academic Senate, RP Group, retired administrator with expertise).	\$50,000
	-Improve Educational Master Plan structure and overall planning process		\$25,000
	-Improve data collection and analytical processes to improve planning and decision making relating to planning	-Consultant for data collection and analysis -Grant Writer/consultant for Title III, Title V, or other appropriate Grant	\$10,000
B. Strategic Enrollment Management	-Develop appropriate Strategic Enrollment Management Plan -Implement Software application -Marketing and Outreach -Student Services	Consultant to develop and implement software for appropriate administration of enrollment management	\$50,000
C. Professional Development	Complete professional development training to improve institutional effectiveness	Conduct and/or Attend Enrollment Management Training Attend Conferences relating to student success, Institutional Effectiveness	\$50,000 \$25,000
Total IEPI Resource Request (not to exceed \$200,000 per college)			\$200,000

LASSEN COMMUNITY COLLEGE INSTRUCTIONAL PROGRAM REVIEW

OVERVIEW and GOALS

Instructional Program Review (IPR) built on the analysis of data including the assessment of student learning and outcomes, as required by the state and the Western Association of Schools and Colleges (WASC) through the Accrediting Commission for Community and Junior Colleges (ACCJC), is an integral part of the total process of integrated planning driving institutional decisions including budget allocation at Lassen Community College. The recommendations from each program review provide the basis for informed decision-making for academic planning, human resource planning, student services planning, technology planning and facilities planning and are incorporated into the LCC Comprehensive Institutional Master Plan as well as individual Master Plans. The IPR process is an effective vehicle for accountability. Through this process, colleagues can cooperatively share ideas to strengthen the college's instructional programs. In addition, with the submission of completed program review documents to Consultation Council for review by all constituent groups, the IPR process allows for dialogue between faculty, staff and administration regarding the status and future of an instructional program.

The proposed model rests on the following assumptions:

1. Statistical data that is accurate and valid is necessary for an objective review and evaluation of instructional programs and must be included in an LCC IPR.
2. Statistical data alone (Cost per FTE, WSCH/FTE, etc.) is insufficient to evaluate and assign priority to institutional programs.
3. Combined subjective judgments or empirical results of qualified professionals are valid components of the total assessment of a program when combined with evaluation of statistical data.
4. Criteria used for the purpose of evaluating one program may not be necessarily appropriate for evaluating another program.
5. Priority shall be given to educational considerations over cost considerations without ignoring those cost considerations.

The program review process is an opportunity for faculty members to actively participate in the growth of their own programs and the growth of the college as a whole. Institutional planning and budget considerations will be based on the recommendations and justifications provided by this process.

REVIEW PROCEDURE

The faculty teaching within all transfer instructional programs and special academic programs at Lassen Community College will conduct a major review by completing an IPR once every four years. All career/technical instructional programs will conduct a major review by completing an IPR once every two years. Those programs including both transfer and terminal degrees will follow the career/technical two-year program review cycle. In addition, each recognized instructional program at Lassen Community College will be encouraged to complete an annual update. A complete IPR is considered to be a one-year process with curriculum review, student evaluation and assessment occurring during the fall semester and additional student evaluation, writing and acceptance of the written report occurring during the first half of the spring semester.

Instructional Program Reviews rely on:

- Data provided by the Office of Institutional Effectiveness
- Self-evaluation based on evaluation of sound quantitative and qualitative data, provided by the Office of Institutional Effectiveness, and faculty input
- Feedback from student evaluations
- Assessment results from student learning outcomes and dialog based on the outcome assessment results

A “fill-in” IPR template is provided in Attachment A of this document, and Attachment C of this document provides a student evaluation to be used in IPR completion. Programs may modify the student evaluation to gather information specific to a program.

The IPR team is composed of faculty of the program being evaluated (see Attachment E, Faculty Reference by Program). The IPR team will be assigned at least one mentor by the Academic Senate. The function of the mentor is limited to advisement and interpretation of the program review process. Mentors will be current members of the Academic Senate familiar with the IPR process. In addition to a Senate mentor, the IPR team is encouraged to work closely with its Division Chair(s).

It is the responsibility of the Academic Senate to inform Academic Services, by September, which program(s) will have IPRs scheduled for completion in the subsequent spring semester.

The Academic Dean or Vice President and Academic Senate President will jointly send a memorandum to the faculty members of programs informing them of the upcoming IPRs.

The Academic Senate President, Academic Dean or Vice President and Director of Institutional Effectiveness will conduct joint faculty orientations for the subject area faculty of upcoming IPRs in October for program reviews scheduled for completion during the following spring semester. The orientations will cover: 1) IPR format, 2) identification of a faculty mentor (assigned by the Senate), and 3) the appropriate inclusion of statistical data in the attachments of the document.

To facilitate completion of the IPR, the following statistical data for each session (F, S, SS) during the preceding four years or as indicated will be provided by the Office of Institutional Effectiveness and Academic Services to the appropriate program area faculty at the IPR orientation meeting in October:

- FTE's generated by program.
 - Total program FTEs
 - FTEs generated separately by course, by semester, by modality, by time of day, by full-time and by part-time faculty.
 - FTEs generated per class, per semester and per class, per modality.
 - LCC FTE data to match program categories should be provided to allow for comparisons between individual programs and all instructional programs.

- Number of FTE faculty (FTEF) in program by semester and year.
 - Total FTEF
 - FTEF for full-time faculty only – including overloads
 - FTEF for full-time faculty only – without overloads
 - FTEF for full-time faculty only – overloads only
 - FTEF for part-time faculty.

- Enrollment data
 - Total program enrollment data at census and completion of course.
 - Enrollment data at census and completion of course for each class, each modality, and each time of day offering.

- Student outcomes (transfer, awarded degrees and certificates, basic skills improvement, retention, employment status, etc.)
 - Student completion, retention and success rates by program, class, modality, and time of day
 - Persistence from course to course. Initially, this is most important in sequential courses in Basic Skills, Math and English but should be expanded to include all prerequisite courses as data is made available.
 - Transfer data
 - Awarded degrees and certificates
 - Additional data requested by faculty will be considered as priorities allow

- Capital outlay equipment
 - List of equipment
 - Age of equipment
 - Replacement schedule
 - Existing maintenance/service agreements

- Student Learning Outcome (SLO) assessment results dating back to the previous IPR.

Data should be provided in a raw and visual format, either as chart, pie chart, bar graph, or other visual presentation deemed appropriate by the Office of Institutional Effectiveness.

Should the faculty of the program being reviewed disagree with the data as provided, this disagreement will be included in the final report. All areas of the IPR need to be completed regardless of whether or not statistical data has been provided.

INSTRUCTIONAL PROGRAM REVIEW PREPARATION

Preparation of the IPR is viewed as a primary vehicle for evaluating a program and its effectiveness in regards to student learning as well as developing plans and strategies for the improvement of a program. This self-evaluation approach allows the faculty (full and part-time as applicable) who are directly involved in the program to assume primary responsibility for the examination and strengthening of their program.

An IPR Template has been created to ease the work of completing the IPR (See ATTACHMENT A: IPR Template). This form is available electronically from Academic Services, on the planning webpage, or through the Lassen College portal. The data contained in the planning tables generated from completion of the IPR TEMPLATE, will be reviewed by the institutional planning committees as part of the institutional planning and budgeting processes.

The Chief Instructional Officer (CIO) and Academic Senate together will designate an IPR lead faculty member from within the program being reviewed. The lead faculty member will call the first meeting to establish the timeline and schedule meetings for all listed full-time and part-time faculty to complete the IPR.

Each IPR should begin with a title page including the name of the program, names of individuals working on the IPR (full-time faculty, part-time faculty and support staff), and the acceptance dates for Academic Senate, Consultation Council and Governing Board.

IPR FORMAT

The IPR is organized into four sections consistent with the four sections of the comprehensive institutional master plan:

1. Academic Planning Section
 - a. Program Objectives/Student Learning Outcomes
 - b. Student Outcomes/Student Learning Outcomes (program impact on student success)
 - c. Curriculum
 - d. Equipment
 - e. Outside Compliance Issues (if applicable)
 - f. May also include recommendations specific to Student Services Planning and Institutional Effectiveness Planning
2. Human Resource Planning Section
3. Facilities Planning Section

Each section and sub-section of the IPR is subdivided into two parts, plus referenced attachments, at the end of the document:

1. Description/Evaluation
2. Planning Agenda (The planning agenda should be substantiated by the description/evaluation subsection and/or referenced attachments and should be divided into plans to be implemented by program staff and plans requiring institutional resources)

Referenced Attachments

- Supporting Documentation [to be included as attachments at the end of document]

Each subsection may be completed using lists, narrative description, or attachments as appropriate. Address only those sections that apply to your program. Statements in parentheses are suggestions for your

consideration and are not prescriptive. Supporting documentation for each section should be included at the end of the document.

Upon completion of the IPR process, the final document must be compiled into PDF format and submitted to the Academic Dean and the Academic Senate for subsequent Senate approval and joint presentation to Consultation Council and the Governing Board. Upon acceptance of the document by the Governing Board, Academic Services will provide electronic IPR copies to I.T. for posting on the Lassen College website. Academic Services will provide institutional decision-making bodies copies of Prioritized Recommendations charts as they pertain to planning documents.

STUDENT EVALUATION OF PROGRAM

The Student Evaluation is designed to solicit comments concerning the program only and is not an evaluation of instructors. It is important to insure the students understand that the focus of the survey is on the program and not the faculty in the area. This is to avoid confusion with the faculty evaluation process. The recommended Student Evaluation is included as Attachment C, although programs may modify the form to gather additional information or may remove items not relevant to the program.

An anonymous questionnaire is considered to be the most effective format to obtain student input. This will encourage the students to be frank in their responses. The Student Evaluation will be scheduled and administered by the Office of Institutional Effectiveness twice, once during October of the instructional review process and again in February.

Academic Services staff will consult with the faculty members of the IPR Team to determine the student sampling and consider any program-specific revisions to the student survey. The sampling will consist of a minimum of three core courses and other courses as selected by the IPR Team. (Example: The basic skills program might wish to survey courses with high enrollment of former basic skills students.)

REVITALIZATION AND DISCONTINUANCE POLICY

Lassen Community College is committed to supporting programs and classes that fulfill the goals of the Mission Statement as these are elaborated in the Educational Master Plan. Following Title 5, section 55000, "program" is defined as an organized sequence of courses leading to a defined objective, e.g., a degree, a certificate, a diploma, a license or transfer to another institution of higher education. As this applies to LCC, a program is defined as a whole and not individual degrees, certificates, or courses within the program as detailed in the LCC course catalog. Only programs with low or declining enrollment, decreasing demand for service or clear obsolescence shall be considered for discontinuance. The service provided to the college and the community by the program will be the primary consideration for a program's discontinuance. More information regarding this policy can be found by searching AP 4021.

TIMELINE FOR PROCEDURES

October	The Vice President of Instruction, in consultation with the Academic Senate, notifies faculty of the upcoming IPR. Academic Senate appoints faculty members to the mentors list.
October	Faculty Orientation for IPRs are scheduled and held. Distribution of quantitative data by the Academic Services to the IPR Team (fiscal and census information, as previously outlined, for the previous four years, and a copy of the previous final IPR document) for reviews scheduled the following year.
October	Student evaluation #1 administered and compiled by the Office of Instruction Effectiveness
November/December	Initial meeting of the IPR Team and Senate mentor (if desired).
November-May	The IPR Team conducts the curriculum review, submitting review and revision documents to the Curriculum/Academic Standards Committee for approval.
February	Student evaluation #2 administered and compiled by the Office of Institutional Effectiveness
August	The IPR team submits the completed IPR documents to the Academic Senate and the Academic Dean.
September	The Academic Senate takes action to accept the IPR and with the Academic Dean jointly presents IPR to Consultation Council and the Governing Board.
October	IPR recommendations are distributed to planning committees for consideration in master planning and budgeting documents. Upon acceptance, Academic Services will maintain the original IPR electronic file online and forward electronic copies to the institutional planning committees for inclusion in the planning and budgeting processes.

LASSEN COMMUNITY COLLEGE EDUCATIONAL PROGRAMS

For the purpose of the Instructional Program Review process, a program is defined as an organized sequence of courses leading to a defined objective, a degree, certificate, diploma, a license, or transfer to another institution of higher education (Title V, Section 55000). A special academic program provides instruction in support of certificate or degree completion or as part of another certificate or degree but may not offer an organized sequence of courses that lead to a degree, certificate, license or transfer as with transfer and career/technical programs. See Attachment D for a list of degrees and certificates included within each program.

Transfer-only Programs — 4-yr cycle

Fine Arts (including Art History and Studio Art)
 Humanities (including English)
 Mathematics/Natural Science
 History/Social Science/Sociology/Psychology/Anthropology
 Physical Education

Career/Technical Programs — 2-yr cycle

Administration of Justice (including related POST information)
 Agriculture
 Automotive Technology
 Business (including Accounting, Business Administration, Economics, and Office Administrative Assistant) Child Development (including transfer degree in Early Childhood Education)
 Information Systems
 Graphic Design
 Fire Technology
 Gunsmithing (including related NRA)
 Human Services
 Allied Health (including Vocational Nursing, CNA, Medical Assisting)
 Welding Technology

Special Academic Programs — 4-yr cycle

Athletics
 Developmental Studies
 Work Experience

INSTRUCTIONAL PROGRAM REVIEW CYCLE

The following IPR review cycle has been established by the Academic Senate:

<u>Scheduled Date of IPR Review</u>	<u>Transfer or Special Academic Program Completing IPR</u>
Academic Year 2020-2021	Developmental Studies including Basic Skills
Academic Year 2021-2022	Mathematics/Natural Science (Area A and D2) Physical Education (Area E2) Athletics
Academic Year 2022-2023	History/Social Science/Sociology/Psychology/Anthropology (Area B/E1) Work Experience
Academic Year 2023-2024	Fine Arts (including Art History/Studio Art) Humanities (including English) (Area C and D1)

<u>Scheduled Date of IPR Review</u>	<u>Career/Technical Program Completing IPR</u>
Academic Year 2020-2021	Fire Technology Gunsmithing Human Services Allied Health Welding
Academic Year 2021-2022	Administration of Justice Automotive Technology Agriculture Business Child Development Information Systems Graphic Design
Academic Year 2022-2023	Fire Technology Gunsmithing Human Services Allied Health Welding
Academic Year 2023-2024	Administration of Justice Automotive Technology Agriculture Business Child Development Information Systems Graphic Design

ANNUAL UPDATES & IPR REVISIONS

Given that program changes occur on an annual basis, completion of an annual update by all recognized programs, whether transfer, career/technical, or special academic programs, is encouraged to better integrate program review into the planning and budgeting processes. Basic data, including FTES, FTEF, completion, success, and program scheduling for the previous year, will be provided by the Office of Institutional Effectiveness by November of each year. Annual updates are due by the end of August or special request by office of instruction and are submitted to Academic Services and Academic Senate following the same procedures as the IPR. The purpose of the annual updates is to recognize and document changes within a program, and identify, and more effectively incorporate, emerging program needs into the budget and planning processes than the 2 or 4 year cycle currently allows. Institutional planning decisions are based on the recommendations contained within the IPR. Revisions to specific sections of the IPR may be necessary between scheduled IPRs and/or annual updates to accommodate changes in program priorities. Program faculty may revise specific IPR sections at any time. The annual update containing the revised section(s) will be forwarded to the Academic Senate and Academic Dean. The annual update will follow the same sequence of steps for acceptance as the IPR. Upon acceptance by the Governing Board, the annual update will be attached to the original IPR in Academic Services and electronic copies forwarded to the institutional planning committees.

REVIEW OF INSTRUCTIONAL PROGRAM REVIEWS OUT OF SEQUENCE

A. Early Program Reviews:

Program faculty, the President/Superintendent or the Governing Board may request an early program review for compelling reasons. Such reasons may include:

- Enrollment considerations
- Fiscal consideration
- Facilities review
- Recent loss or addition of full-time subject area faculty within the program
- Recent significant changes to the curriculum

The request for an early program review must be accompanied by written justification submitted to the Academic Senate. After reviewing the written recommendations: the Academic Senate will take action. The action will permanently move the IPR for the program within the review cycle.

B. Instructional Program Review Extensions:

Program faculty or the Academic Dean may request an extension of the due date of an IPR. Requests for due date extensions of an IPR will be accompanied by a written justification submitted to the Academic Senate. Extensions may be granted through Senate action. IPRs with granted extensions will not be considered late for budget and planning purposes and will retain their original position within the review cycle.

C. Late Instructional Program Reviews:

IPRs retain their positions within the cycle regardless of their date of acceptance. All changes of position within the review cycle require official Academic Senate action.

IPR TEMPLATE

SECTION 1: ACADEMIC PLANNING

I. . Program Overview, Objectives, and Student Learning Outcomes

[Click here to insert a brief overview of the program \(this is optional\).](#)

Description/Evaluation:

- a. Describe and evaluate the program objectives against the LCC strategic plan, specifically the mission statement and strategic goals [available online or in the current catalog].

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

- b. Identify and evaluate the Program Student Learning Outcomes including the relationship between course, program and institutional student learning outcomes utilizing information provided by the Office of Institutional Effectiveness

[Click here to enter text.](#)

- c. Evaluate any changes in the program since last review. Include summary of Annual Updates completed since last review.

[Click here to enter text.](#)

- d. Analyze program-related promotional materials/advertising as appropriate

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Student Services Planning, and/or Institutional Effectiveness Planning tables at the end of the section for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

II Student Outcomes

A. Trends and Patterns in Student Outcomes

Description/Evaluation:

1. Provide in tabular form followed by an analysis
 - a. Number of degrees and certificates awarded during the last four years.
[Click here to enter text.](#)
 - b. Transfer numbers for the last four years
[Click here to enter text.](#)
 - c. Completion, retention and success data for the last four years
[Click here to enter text.](#)
2. Analyze program effectiveness based on available quantitative data and qualitative experiences.
[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Student Services Planning, and/or Institutional Effectiveness Planning tables at the end of the section for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself, “What are we going to change?” Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

B. Student Learning Outcome Assessment

SLO assessment is important to maintain and improve an effective learning experience for LCC students. Evaluating SLO results regularly is helpful for evaluating student learning and identifying emerging program needs. By contract, faculty are required to measure at least one SLO for every class taught each semester; these records are maintained in the online Data Management and Visualization tool (CLIC) and are available for review by faculty at any time through its self-updating, interactive dashboards and reports.

Description/Evaluation:

1. Attach an SLO assessment summary as provided by Office of Institutional Effectiveness.

2. Provide an analysis of findings of the assessments completed and recommendations being made in individual assessments. Consider the impact or influence of the assessment results at the program level. Consider how SLO results may be leveraged to support equipment, facility, staffing, or other budget and planning need and include the justification in your analysis.

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

Planning Agenda:

List recommendations and actions necessitated by the above evaluation of SLO results. Complete Academic Planning, Student Services Planning, and/or Institutional Effectiveness Planning tables at the end of the section for any recommendations requiring institutional action. For any items needing Human Resources Planning, Institutional Technology Planning, or Facilities Planning action, please make sure to include the information within the appropriate section and table later in the program review document.

[Click here to enter text. Ask yourself, “What are we going to change?” Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

C. Student Evaluation Summary

The student survey portion of the evaluation procedure is designed to solicit comments concerning the program only, and is not an evaluation of instructors (See Attachment F, Student Survey).

An anonymous questionnaire is considered to be the most effective format. This will encourage the students to be frank in their responses. The student evaluation will be scheduled and administered by the Office of Instruction during October/November and February/March of each instructional review process. The Office of Instruction staff will consult with the members of the self-evaluation group to determine the student sampling and consider any program-specific revisions to the student survey. The sampling will consist of a minimum of three core courses and other courses as selected by the self-evaluation team. (Example: The basic skills program might wish to survey courses with high enrollment of former basic skills students.)

Description/Evaluation:

Attach Student Evaluation Summary provided by Office of Academic Services and provide an analysis of the results of the student evaluations

For the evaluation portion, ask yourself “How is it working?” Good? Bad?

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Student Services Planning, and/or Institutional Effectiveness Planning tables at the end of the section for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself, “What are we going to change?” Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

III. Curriculum

A. Degrees and/or Certificates

Description/Evaluation:

- List degree and/or certificates offered in the program. Review/revise two-year plan(s). Update scheduling sequence listed on course outline where needed (course outline and/or program revisions need Curriculum Committee approval) attach the approved two-year plan for each degree and certificate (see Attachment D, Degrees/Certificates by Program). Degree and certificate student learning outcomes, if different from program student learning outcomes, should be included in this section.
- Faculty should analyze progress made on the assessment of program (degree/certificate) learning outcomes
- Evaluate the need for courses, degrees and/or certificates
- Transfer programs: Evaluate the core courses against the major preparation requirements for an entering junior at receiving four-year institutions (e.g. CSU System and UC System).
- Transfer programs: Evaluate the courses against the specific area requirements needed to satisfy the general education requirements for associate degrees and transfer. Consider whether there are adequate opportunities to meet the area requirements in combination with all disciplines within each general education area. Is there an adequate number of course and discipline options within each area, and can those courses be offered in a manner that maximizes student enrollment in each section? Do courses need to be added or deleted from any general education area?
- Career/Technical programs: Attach dates of Advisory Committee meetings (a minimum of two meeting per year). Reference Committee Member Rosters and Minutes located in the Office of Academic Services. Summarize the advisory committee recommendations for program curriculum enhancement or improved student competencies

- Career/Technical programs: Use advisory committee recommendations, labor market or other standards to answer the following question: Do the core courses in the certificates and degrees meet current employer skill requirements for the field?
- Special Programs: By nature, special programs themselves do not lead to a degree or certificate. However, special programs may have coursework that is included in transfer or vocational degrees or certificates. Note the relationship between special program courses and LCC transfer or vocational degrees or certificates.

[Click here to address the items above. For the evaluation portion, ask yourself, “How is it working?” Good? Bad?](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning table at the end of the section for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

B. Courses

Description/Evaluation

1. Identify courses added or deleted from the instructional program since the last IPR.

[Click here to enter text.](#)

2. Each course offered within the instructional program must be reviewed for accuracy and currency (see Attachment I, Course List by Program). Review of each course outline should include asking the following questions:
 - Should the Disciplines of Assignment remain the same or be changed?
 - Should the Catalog/Schedule description remain the same or be updated?
 - Is the course repeatable? Is the repeatability reflected in the SLOs, Objectives, and Course Content sections? What is the basis for repeatability: legal requirement or increased skill level?
 - If the course meets a core requirement within specific degrees or certificates, is it accurately noted on the outline?
 - If the course satisfies a specific area within the general education requirement for an associate degree or transfer, is it accurately noted on the outline?
 - Are course-level student learning outcomes included on each course outline? Are learning outcomes included for each allowable repetition?
 - Does the course require a prerequisite or have recommended preparation? Are content review forms on file for each recommended preparation and/or prerequisite?

- Do any of the learning outcomes or objectives need revision?
 - Does any content need to be updated?
 - Are any changes necessary in the Methods of Instruction, Assignments, Critical Thinking or Methods of Evaluation sections?
 - Is the course being considered for distance education offering? If so, has it been approved for specific distance education delivery?
 - Is the textbook current (within the last 7 years for transfer courses) and is the publication date included?
 - Does the course outline match the two year plan with regard to sequence of course offerings?
3. Whether changes to a course outline are necessary or not, a Revision to Existing Course Form for each course must be completed and submitted to the Curriculum/Academic Standards Committee for action. When changes are necessary, indicate the revisions on the form. Where no changes are necessary, simply indicate on the Revision Form that “the course has been reviewed as part of the program review and no changes are necessary.” Revision forms will be retained in the Instructional Office with the Curriculum agenda packets.
 4. Following the Curriculum/Academic Standards Committee action on all submitted Revision to Existing Course Forms, a summary Instructional Program Curriculum Review Form will be completed by the Curriculum/Academic Standards Subcommittee Chair and given to the program faculty for inclusion in the program review.
 5. The signed Instructional Program Curriculum Review Form is to be included with your completed program review documents

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning table for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snapshot of the items in the table\(s\) below.](#)

C. Articulation/Integration of Curriculum

Description/Evaluation:

1. Attach a tabular comparison of Lassen Community College courses articulating with UC and CSU, indicating courses with approved C-ID designations as applicable (Obtain copies of Articulation Agreements from the Transfer Center)
2. Provide a narrative reviewing the Lassen Community College courses and courses at four-year institutions for course alignment. (i.e. two courses at Lassen needed to articulate with one

course at UC).and the units requirements for Lassen Community College courses as compared to four-year institutions.

[Click here to enter text.](#)

Planning Agenda:

Complete Student Services Planning table (see below) for any proposed changes to articulation or C-ID designation

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

III. Scheduling and Enrollment Patterns

Description/Evaluation:

1. Describe and explain any deviation from the two-year plan in course scheduling during the last four years.

[Click here to enter text.](#)

2. Evaluate the relationship between schedule, enrollment patterns and FTE generated statistics.

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

3. Using FTE data provided, evaluate how the scheduling of courses within the program has served the needs of a variety of students (e.g. day, evening, single parents, employed full-time). Include the following considerations:
 - a. Number of sections (too many/too few to serve student needs)
 - b. Variety of times (three times a week, twice a week, one day a week and morning/afternoon/evening)
 - c. Length of courses (traditional semester/short term)
 - d. Method of delivery (traditional/technology-mediated/correspondence delivered instruction).

[Click here to enter text.](#)

4. Evaluate student access to general education courses within the context of the scheduling of the instructional program courses.

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

Planning Agenda:

Complete Academic Planning table (see below) for any proposed changes in the schedule that might improve enrollment patterns and better meet student needs.

[Click here to enter text.](#) Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table(s) below.

IV. Equipment

Description/Evaluation:

1. List capital outlay equipment, age of equipment and replacement schedule

[Click here to enter text.](#)

2. Identify any existing equipment maintenance/service agreements

[Click here to enter text.](#)

3. Evaluate the condition of capital outlay equipment in light of the replacement schedule and available funds.

[Click here to enter text.](#) For the evaluation portion, ask yourself “How is it working?” Good? Bad?

4. Evaluate the effectiveness of and need for additional maintenance/service agreements.

[Click here to enter text.](#) For the evaluation portion, ask yourself “How is it working?” Good? Bad?

5. Justify any proposed modification or additions to equipment available for students and/or faculty/instructional assistants within the program.

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Student Services Planning, Facilities Planning, or Technology Planning tables as appropriate for any recommendations requiring institutional action.

[Click here to enter text.](#) Ask yourself, “What are we going to change?” Go into detail here and provide a snap shot of the items in the table(s) below.

V: Outside Compliance Issues (if appropriate for program)

Description:

If appropriate, describe the role of outside compliance issues on the Special Program.

[Click here to enter text.](#)

Evaluation:

Assess changes in compliance or identification of compliance-related needs and the impact on the Special Program.

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Facilities Planning, Technology Planning and Human Resource Planning Forms as appropriate for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

VI. Prioritized Recommendations

A. Prioritized Recommendations for Implementation by Program Staff

List all recommendations made in Section One that do not require institutional action (i.e. curriculum development) in order of program priority.

[Click here to enter text.](#)

B. Prioritized Recommendations for Inclusion in the Planning Process

List all recommendations made in Section One that should be included in Lassen College’s planning and budgeting process, specifically in the Educational Master Plan, Student Services Master Plan, or Institutional Effectiveness Master Plan. Separate recommendations into the appropriate plan(s). Items to be included in the Human Resource Master Plan, Institutional Technology Master Plan, or Facilities Master Plan should be addressed in Sections Two, Three or Four in lieu of or in addition to inclusion in the Academic Master Plan. See Attachment C, Master Plan Overview, in the IPR handbook to determine where recommendations are best placed.

Prioritized Recommendations for Inclusion in Education Master Plan: The EMP addresses the instructional planning needs of the college.

[Click here to enter Program Name & Year](#)

Strategic Goal	Planning Agenda Item	Implementation Time Frame	Estimated Cost (implementation & ongoing)	Expected Outcome

Prioritized Recommendation for Inclusion in Student Services Master Plan: The SSMP

highlights the services needed to maximize the student experience through a variety of key student support services.

[Click here to enter Program Name & Year](#)

Strategic Goal	Planning Agenda Item	Implementation Time Frame	Estimated Cost (implementation & ongoing)	Expected Outcome

Prioritized Recommendations for Inclusion in Institutional Effectiveness Master Plan: The IEMP addresses college needs not addressed in other plans. These needs include research, governance, outcome assessment, and administrative operations.

Strategic Goal	Planning Agenda Item	Implementation Time Frame	Estimated Cost (implementation & ongoing)	Expected Outcome

Section Two: Human Resource Planning

I. Program Staffing

Description/Evaluation:

1. List the current staffing for the program include: full-time and part-time faculty positions, instructional assistants and classified staff

[Click here to enter text.](#)

2. This section provides an opportunity for analysis and justification of projected staffing needs to support the program. Clerical support by the Office of Academic Services and work-study needs may be included.

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning and Human Resources Planning Forms as appropriate for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself, "What are we going to change?" Go into detail here and provide a snap shot of the items in the table\(s\) below.](#)

II. Professional Development

Description/Evaluation:

1. If available, reference Flex Contracts for full-time faculty teaching in the program for each of the last two years. [Copies may be available in the Office of Instruction].

[Click here to enter text.](#)

2. Describe the professional development and professional activities of the program faculty/instructional assistants in addition to flex obligation relevant to program improvement that has occurred during the period under review. (Workshops, conferences, staff development, sabbatical leaves, work experience, etc.)

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning and Human Resources Planning Forms as appropriate for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table below](#)

III. Student Outcomes**Description/Evaluation:**

Description/ Evaluation:

Describe any results from assessment of learning outcomes that affect human resource planning

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning and Human Resources Planning Forms as appropriate for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table below](#)

IV. Prioritized Recommendation**Prioritized Recommendations for Implementation by Program Staff**

List all recommendations made in Section Two that do not require institutional action (i.e. curriculum development) in order of program priority.

[Click here to enter text.](#)

Prioritized Recommendations for Inclusion in the Planning Process

List all recommendations made in Section Two that should be included in Lassen College’s planning and budgeting process. See Attachment C, Master Plan Overview, in the IPR handbook to determine where recommendations are best placed.

Prioritized Recommendations for Inclusion in Human Recourse Master Plan: The HRMP identifies and manages the administrative functions of recruitment, selection, evaluation, and professional development needs of the College to ensure a fully-staffed and highly functioning team of employees.

[Click here to enter Program Name & Year](#)

Strategic Goal	Planning Agenda Item	Implementation Time Frame	Estimated Cost (implementation & ongoing)	Expected Outcome

Section Three: Facilities Planning

I. . Facilities

Description/Evaluation:

1. Describe and evaluate the Lassen Community College facilities available to the program.

[Click here to enter text.](#)

2. Describe and evaluate additional facilities utilized off-campus by the program (attach any relevant rental agreements)

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

3. Describe any facilities needs identified by assessments of student learning outcomes

[Click here to enter text.](#)

4. Justify any proposed modifications or additions to existing facilities that would better serve the program planned for the next five years.

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Facilities Planning, and Technology Planning Forms as appropriate for any recommendations requiring institutional action.

[Click here to enter text. Ask yourself “What are we going to change?” Go into detail here and provide a snapshot of the items in the table below](#)

II. . Prioritized Recommendations

Prioritized Recommendations for Implementation by Program Staff

List all recommendations made in Section Three that do not require institutional action (i.e. curriculum development) in order of program priority.

[Click here to enter text.](#)

Prioritized Recommendations for Inclusion in the Planning Process

List all recommendations made in Section Three that should be included in Lassen College’s planning and budgeting process. See Attachment C, Master Plan Overview, in the IPR handbook to determine where recommendations are best placed.

Prioritized Recommendations for Inclusion in the Facilities Master Plan: The FMP addresses the physical infrastructure, facility, and maintenance needs of the campus.

[Click here to enter Program Name & Year](#)

Strategic Goal	Planning Agenda Item	Implementation Time Frame	Estimated Cost (implementation & ongoing)	Expected Outcome

Section Four: Technology Planning

I. . Technology

Description/Evaluation:

1. Describe and evaluate technology and technology support provided for instruction and instructional support.

[Click here to enter text. For the evaluation portion, ask yourself “How is it working?” Good? Bad?](#)

2. Describe any technology and technology support needs identified by assessment of student learning outcomes.

[Click here to enter text.](#)

Planning Agenda:

List recommendations and necessary actions necessitated by the above evaluation. Complete Academic Planning, Facilities Planning, Technology Planning and Human Resource Planning Forms as appropriate for any recommendations requiring institutional action.

[Click here to enter text.](#) Ask yourself “What are we going to change?” Go into detail here and provide a snap shot of the items in the table below

II. Prioritized Recommendations

Prioritized Recommendations for Implementation by Program Staff

List all recommendations made in Section Four that do not require institutional action (i.e. curriculum development) in order of program priority.

[Click here to enter text.](#)

Prioritized Recommendation for Inclusion in the Planning Process

List all recommendations made in Section Four that should be included in Lassen College’s planning and budgeting process. See Attachment C, Master Plan Overview, in the IPR handbook to determine where recommendations are best placed.

Prioritized Recommendations Inclusion in Institutional Technology Master Plan: The ITMP addresses the technology needs of the campus.

ATTACHMENT B**LASSEN COMMUNITY COLLEGE
MASTER PLAN OVERVIEW**

Six master plans comprise the Comprehensive Institutional Master Plan. Recommendations from program reviews will be input into the selected master plans as determined by faculty in the prioritized recommendation spreadsheets. To better understand which master plan might be most appropriate for each program recommendation, a summary/objective of each plan is included below. More information can be found in the Shared Governance and Consultation Council Handbook and the Comprehensive Institutional Master Plan.

Educational Master Plan (EMP): The EMP addresses the instructional planning needs of the college.

Facilities Master Plan (FMP): The FMP addresses the physical infrastructure, facility, and maintenance needs of the campus.

Human Resources Master Plan (HRMP): The HRMP identifies and manages the administrative functions of recruitment, selection, evaluation, and professional development needs of the College to ensure a fully-staffed and highly functioning team of employees.

Institutional Effectiveness Master Plan (IEMP): the IEMP addresses college needs not addressed in other plans. These needs include research, governance, outcome assessment, and administrative operations.

Institutional Technology Master Plan (ITMP): The ITMP addresses the technology needs of the campus.

Student Services Master Plan (SSMP): The SSMP highlights the services needed to maximize the student experience through a variety of key student support services.

**LASSEN COMMUNITY COLLEGE
INSTRUCTIONAL PROGRAM REVIEW - STUDENT EVALUATION**

Name of Program: _____ Date Survey Completed: _____

Current Course: _____

Overview:

Instructional programs are reviewed periodically by LCC faculty. The _____ Instructional Program is currently undergoing its periodic review. The _____ Instructional Program is made up of the courses leading to a degree or certificate of achievement in _____. The courses in this program include: _____

As a student enrolled in one of these courses, your insight about the course and program can provide valuable information to assist the program faculty in making program improvements. This student survey is your opportunity to provide information to the program faculty. This is a student survey of the course and program, NOT the instructor. Instructor evaluations occur at a different time.

Instructions for Completion:

Please be as objective and concise as possible when answering the following questions. Read and evaluate each question and check the responses, which most closely relate to your views. Space has been provided at the end, for any additional comments you would like to make.

Tell Us About Yourself:

**1. Educational Goal: What is your educational objective at Lassen Community College?
(Check all that apply).**

General Education:

Transfer to a 4-year Institution

IGETC Certification

CSU Certification

Transfer to another Community College

Degrees/Certificates:

AA/AS

Certificate of Achievement
Certificate of Completion

Certificate of
Accomplishment

Title of Degree or Certificate:

General Interest:

Job Requirement

Continuing Education

Personal Development

2. Your Need for this Course: Why are you taking this course?

Core Requirements for degree or certificate

Job Requirements

- Elective for degree or certificate
- General Education course for degree or transfer
- Other: Please Specify _____
- Continuing Education
- Personal Development

1. **Does the course content reasonably compare with the catalog/schedule description?**
 YES NO
2. **Did the catalog clearly explain the order in which the courses in this program should be taken?**
 YES NO
3. **Was any cost for this course/program, beyond registration and books clearly identified in the catalog?**
 YES NO
4. **Did instructors use the required textbooks in the program?**
 YES NO N/A
5. **Are the textbooks purchased for this program useful to you?**
 YES NO N/A

Scheduling:

6. **Did the scheduling of this course meet your needs?**

- current schedule met my needs
- needed morning offering
- needed afternoon offering
- needed evening offering
- needed one day a week schedule
- needed summer offering
- needed week-end offering
- needed short-term (less than semester) offering
- other: Please Specify _____

Facilities/Equipment: Do the facilities for this course/program adequately meet your needs?

7. **I was provided with reasonable access to the facilities?**

- YES NO

8. **The temperature of the facilities in summer or fall is:**

- OFTEN TOO HOT FOR THE SEASON
 COMFORTABLE FOR THE SEASON
 OFTEN TOO COLD FOR THE SEASON
 N/A

9. The lighting of the facilities is?

- TOO BRIGHT ADEQUATE TOO DARK N/A

10. The chairs/tables/desks are?

- ADEQUATE INADEQUATE N/A

11. Is there enough space for you to do your work in class?

- YES NO N/A

12. Please elaborate on your responses and include any additional facilities-related comments:

13. Did the course/program provide the necessary equipment?

- YES NO N/A

14. Is enough time on equipment allowed for each student?

- YES NO N/A

15. Is equipment current?

- YES NO N/A

16. Is equipment generally in good operating condition?

- YES NO N/A

17. Describe how this course/program could be improved to better meet the needs of the students at Lassen Community College.

18. Provide any additional comments on the course or program:

**LASSEN COMMUNITY COLLEGE
EDUCATIONAL PROGRAMS AND DEGREES/CERTIFICATES/LICENSES BY PROGRAM**

For the purpose of the instructional review process, a program is defined as an organized sequence of courses leading to a defined objective, a degree, certificate, diploma, a license, or transfer to another institution of higher education (Title V, Section 55000).

Administration of Justice/Correctional Science

Associate in Science Degree in Administration of Justice for Transfer
Associate in Art Degree in Administration of Justice
Certificate of Achievement in Administration of Justice
Certificate of Accomplishment in Administration of Justice

Agriculture

Associate in Science in Agriculture Animal Science for Transfer
Associate in Science in Agriculture Business for Transfer
Associate in Arts Degree University Studies: Emphasis in Agriculture Sciences
Associate in Science Degree in Agriculture Science and Technology
Certificate of Achievement in Agriculture Science and Technology
Certificate of Accomplishment in Animal Science
Certificate of Accomplishment in Horsemanship
Certificate of Accomplishment in Agriculture Business
Certificate of Accomplishment in Agriculture Irrigation

Art History/Studio Art

Associate in Arts Degree in Art History for Transfer
Associate in Arts Degree in Studio Art for Transfer

Automotive Technology

Associate in Science Degree in Automotive Technology
Certificate of Achievement in Advanced Mechanics
Certificate of Achievement in Engine Repair
Certificate of Accomplishment Basic Mechanics
Certificate of Accomplishment in Electrical
Certificate of Accomplishment in General Mechanics
Certificate of Achievement in Auto Chassis and Maintenance

Business

Associate in Science Degree in Business Administration for Transfer
Associate in Science Degree in Accounting
Associate in Arts Degree in Economics for Transfer
Associate in Science Degree Administrative Office Technician
Certificate of Achievement Administrative Office Technician
Certificate of Achievement in Small Business Management

Child Development

Associate in Science Degree in Early Childhood Education for Transfer
Associate in Arts Degree in Child Development
Certificate of Achievement in Child Development
Certificate of Accomplishment in Child Development-Associate teacher

Fire Technology

Associate in Science Degree in Fire Technology
 Certificate of Achievement in Fire Technology
 Certificate of Accomplishment in Fire Technology
 Certificate of Accomplishment in Basic Fire Fighter

Gunsmithing

Associate in Science Degree in Firearms Repair
 Associate in Science Degree in General Gunsmithing
 Certificate of Achievement in Firearms Repair
 Certificate of Achievement in General Gunsmithing
 Certificate of Accomplishment in Gunsmith Machinist and Metal Finishing
 Certificate of Accomplishment in Long Guns
 Certificate of Accomplishment in Pistolsmith
 Certificate of Accomplishment in Riflesmith

Health Occupations/Medical Assisting

Certificate of Achievement in Medical Assisting
 Certificate of Accomplishment in Administrative Medical Assisting
 Certificate of Accomplishment in Clinical Medical Assisting

History/Social Science/Sociology/Psychology

Associate in Arts Degree University Studies: Emphasis in Social Sciences
 Associate in Arts Degree General Studies: Emphasis in Social Sciences
 Associate in Arts Degree in History for Transfer
 Associate in Arts Degree in Sociology for Transfer
 Associate in Arts Degree in Psychology for Transfer
 Associate in Science Degree in Anthropology for Transfer
 Certificate of Achievement California State University General Education
 Certificate of Achievement in Intersegmental General Education Transfer Curriculum

Human Services

Associate in Science Degree in Drug and Alcohol Paraprofessional
 Associate in Science Degree in Human Services
 Certificate of Achievement in Drug and Alcohol Paraprofessional Certificate of Achievement in Human Services

Humanities

Associate in Arts Degree University Studies: Emphasis in Humanities
 Associate in Arts Degree in English for Transfer

Information Systems

Certificate of Achievement in Geographic Information Systems

Natural Science

Associate in Arts Degree University Studies: Emphasis in Natural Sciences
 Associate in Arts Degree General Studies: Emphasis in Natural Sciences
 Associate in Science Degree in Geology for Transfer
 Associate in Science Degree in Biology for Transfer
 Associate in Science in Nutrition and Dietetics for Transfer

Physical Education

Associate in Arts Degree in Kinesiology for Transfer
 Associate in Arts Degree University Studies: Emphasis in Physical Education
 Associate in Arts Degree General Studies: Emphasis in Physical Education

Vocation Nursing/Allied Health

Associate in Arts Degree University Studies: Emphasis in Allied Health

Associate in Science Degree in Vocational Nursing

Certificate of Achievement in Vocational Nursing

Certificate of Accomplishment in Administrative Medical Assisting

Certificate of Accomplishment in Clinical Medical Assisting

Welding Technology

Associate in Science Degree in Welding Technology

Two-Year Certificate of Achievement in Welding Technology

One-Year Certificate of Achievement in Welding Technology

Certificate of Accomplishment in Welding Technology

Special Instructional Programs (no degrees or certificates)

Athletics

Developmental Studies

Work Experience

ATTACHMENT G

DEFINITION OF TERMS

Assessment.....	The process of judging student behavior or product in terms of some criteria (Clark, 1975). It includes various means of gathering information about the quantity, quality and progress of students, their performance and academic work.
Assessment Cycle.....	The assessment cycle in higher education is generally annual and fits within the academic year. In order to incorporate recommendations into Lassen Community College planning and budgeting processes, the LCC IPRs are conducted over the course of an academic year, culminating in September.
Assessment Results.....	The data/information acquired from the implementation of an assessment tool.
Assessment Tool.....	A tool that has been designed to collect objective data about students' attitudes and skill level. An appropriate learning outcomes assessment tool measures students' abilities to integrate a set of individual skills into a meaningful, collective demonstration. Some examples of assessment tools include standardized tests end-of-program skills test, student inquiries, common final exams, and comprehensive embedded test items.
C-ID.....	Course Identification Number
Core Course.....	Courses within a discipline specifically required for a degree or certificate.
Course Embedded Assessment.....	The review of materials generated in the classroom. In addition to providing a basis for grading students, such materials allow faculty to evaluate approaches to instruction and course design.
Description/Evaluation.....	A subsection provided within the IPR to allow faculty to identify and analyze the current situation within the program to justify recommended changes to the current situation.
Direct Cost per Program.....	All identified direct costs charged to a program as defined by TOP (e.g., instructor salaries, supplies, etc.).
Direct Measures of Learning.....	Students display knowledge and skills as they respond directly to the assessment itself.
Full-time Equivalent Faculty (FTEF).....	The amount of instructional employee time expressed in a proportion to that required in a full-time teaching position, with 1.0 representing one full-time position. FTE is derived by dividing the amount of time taught in a position by the amount of teaching hours required in a corresponding position.
Full-time Equivalent Student (FTES).....	For state accounting purposes, an FTES is a full-time student who attends 15 hours per week for 35 weeks (two primary terms). The rule is: 15 hours x 35 weeks = 525 total WSCH = 1 FTES. To determine FTES, multiply number of students by the number of hours per week and number of weeks, then divide by 525.

General Education or Transfer Programs	For the purposes of this review, general education refers to courses satisfying Associate degree requirements, CSU Certification, or IGETC.
Indirect Measures of Learning	Assessment tools such as surveys and interviews, which ask student to reflect on their learning rather than to demonstrate it.
IGETC	Intersegmental General Education Transfer Curriculum - completion of the IGETC guarantees that a transferring community college student has satisfied the lower division general education requirements of the CSU/UC systems.
Instructional Program	For the purpose of this review, a program shall be defined as follows: a program is an organized sequence course or series of courses leading to a definite objective, a degree, certificate, diploma, a license, or transfer to another institution of higher education.
Planning Agenda	A subsection provided within the IPR to allow faculty to make recommendations for improvement of their programs. Recommendations are divided into those that require institutional support and those to be implemented by the program faculty.
Prerequisite	A condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or program.
Program Learning Outcome	A measurable educational objective as a consequence of participation in an organized sequence of courses (i.e. ability to perform specific work place competencies).
Program Outcome	A measurable objective as a consequence of participation in an organized sequence of courses (i.e. employment, receipt of degree or certificate).
Recommended Preparation	A condition of enrollment that a student is advised, but not required, to meet before, or in conjunction with, enrollment in a course or program.
Statistical Data	The Offices of Institutional Research and Instruction will provide departmental staff with the minimum statistical data as required by the state-wide accountability model.
Student Learning Outcome	An overarching specific observable characteristic developed by local faculty that allows them to determine or demonstrate evidence that learning has occurred as result of a specific course, program, activity, or process.
Weekly Student Contact Hours (WSCH)	The class hour or contact hour is the basic unit of attendance for computing average daily attendance. A contact hour is the basic period of not less than fifty minutes of scheduled instruction. Weekly student contact hours are the total number of student contact or class hours per week.
WSCH per FTE	A ratio of weekly student contact hours to full-time faculty equivalency. This is a measure of faculty load.

BP 2430 Delegation of Authority to Superintendent/President

References:

Education Code Sections 70902(d), 72400
ACCJC Accreditation Standards IV.B.5, IV.C.12 and IV.D.1

The Board delegates to the Superintendent/President the executive responsibility for administering the policies adopted by the Board and executing all decisions of the Board of Trustees requiring administrative action.

The Superintendent/President may delegate any powers and duties entrusted to him or her by the Board of Trustees, but will be specifically responsible to the Board for the execution of such delegated powers and duties.

The Superintendent/President is empowered to reasonably interpret Board Policy. In situations where there is no Board Policy direction, the Superintendent/President shall have the power to act, but such decisions shall be subject to review by the Board. It is the duty of the Superintendent/President to inform the Board of such action and to recommend written Board Policy if one is required.

The Superintendent/President is expected to perform the duties contained in the Superintendent/President job description and fulfill other responsibilities as may be determined in annual goal-setting or evaluation sessions. The job description and goals and objectives for performance shall be developed by the Board of Trustees in consultation with the Superintendent/President.

The Superintendent/President shall ensure that all relevant laws and regulations are complied with, and that required reports are submitted in timely fashion.

The Superintendent/President shall make available any information or give any report requested by the Board of Trustees as a whole. Individual Board member requests for information shall be met if, in the opinion of the Superintendent/ President, they are not unduly burdensome or disruptive to District operations. Information provided to any Board member shall be available to all Board members.

The Superintendent/President shall act as the professional advisor to the Board in policy formation.

Board of Trustees

BP 2430 Delegation of Authority to Superintendent/President

References: Education Code Sections 70902(d), 72400, ~~81655, and 81656~~;
ACCJC Accreditation Standards ~~IV.B.1.j and IV.B.2~~ **IV.B.5, IV.C.12 and IV.D.1**

The Board delegates to the Superintendent/President the executive responsibility for administering the policies adopted by the Board and executing all decisions of the Board of Trustees requiring administrative action.

The Superintendent/President may delegate any powers and duties entrusted to him or her by the Board of Trustees, but will be specifically responsible to the Board for the execution of such delegated powers and duties.

The Superintendent/President is empowered to reasonably interpret Board Policy. In situations where there is no Board Policy direction, the Superintendent/President shall have the power to act, but such decisions shall be subject to review by the Board. It is the duty of the Superintendent/President to inform the Board of such action and to recommend written Board Policy if one is required.

The Superintendent/President is expected to perform the duties contained in the Superintendent/President job description and fulfill other responsibilities as may be determined in annual goal-setting or evaluation sessions. The job description and goals and objectives for performance shall be developed by the Board of Trustees in consultation with the Superintendent/President.

The Superintendent/President shall ensure that all relevant laws and regulations are complied with, and that required reports are submitted in timely fashion.

The Superintendent/President shall make available any information or give any report requested by the Board of Trustees as a whole. Individual Board member requests for information shall be met if, in the opinion of the Superintendent/ President, they are not unduly burdensome or disruptive to District operations. Information provided to any Board member shall be available to all Board members.

The Superintendent/President shall act as the professional advisor to the Board in policy formation.

~~The Board delegates to the Superintendent/President the authority to supervise the general business procedures of the District to assure the proper administration of property and contracts; the budget, audit and accounting of funds; the acquisition of supplies, equipment and property; and the protection of assets and persons. All transactions shall comply with applicable laws and regulations, and with the California Community Colleges Budget and Accounting Manual.~~

~~No contract shall constitute an enforceable obligation against the district until it has been approved or ratified by the Board.~~

The above lined out text is included in Allen Hancock's BP

~~The Superintendent/President shall make appropriate periodic reports to the Board and shall keep the Board fully advised regarding the financial status of the District.~~

Absent: None

4. Discussion/Action on item(s) removed from Consent Agenda**5. Information-Reports**Information, Report: 5.01 Academic Senate President's Report

Adam Runyan, Academic Senate President, submitted the following report which was read by Julie Johnston:

Good Evening, We would like to congratulate our faculty that are receiving Tenure this evening. Item 8.02 on tonight's agenda highlights some of their accomplishments as faculty at LCC. We are truly lucky to have such committed faculty that have a vision to grow their programs and serve our students. Our Senate has been busy working on catching up with our IPR's. You will see the Child Development IPR is on your agenda this evening. We should have 6 for you to review by next month. We are still working closely with our Accreditation Tri Chairs and consultant making sure that we are checking off the boxes of the recommendations and requirements ACCJC has for us. The ASCCC has asked us to complete a Diversity Equity and Inclusion (DEI) survey, due by the end of this month, specifically looking at how we are embedding DEI efforts across our campus with students, staff, faculty, administration, and our board. Overall, we are "in progress" for many of their questions and initiatives, but have a long way to go to make sure we are looking at everything we do through a lens of Diversity, Equity, Inclusion, and

anti-racism, from our hiring practices, to our curriculum development, we are making headway. Thank you for your commitment as a board to our DEI efforts. As always, if you have any questions or concerns, please reach out to me. Thank you, Adam Runyan.

Information, Report: 5.02 Associated Student's Report

None

Information, Report: 5.03 Interim Superintendent/President's Report

Dr. Trevor Albertson, Interim Superintendent/President stated he wanted to join Adam to congratulate those receiving tenure tonight. Dr. Albertson went on to say that for those receiving tenure, and those that received it a year ago we will have a party bigger than before. This was put under due to CoVid hitting. Congratulations to all receiving tenure and well done. It's March, and that means spring is approaching rapidly. With spring comes the opening of blossoms and buds on the trees and flowers. Such is meaningful symbolism for where the campus is headed in the coming months, as well. As we move into a period of reopening and, honestly, renewal, there is a great deal to consider. When this all started, I remember saying it would be more difficult to reopen that it was to move off-campus. Well, that difficult task is upon us. In an effort to ease that transition, the leaders of various campus constituencies and I will be meeting soon to discuss what is important to them as this process is undertaken. Following that, there will be planning exercises within the administration to ensure the campus team will be able to safely reopen upon their return. More or less, we will be working out the kinks before everyone shows up. But there, too, there will be a degree of thought applied to the process by which everyone is reintroduced to campus. Rather than bringing everyone back in a mass-wave of folks, the return will be layered, coming back in small groups. Finally, once everyone is back, the process of monitoring the situation for safety will go on. Frankly, it will be a continual process. Covid is not going away, and neither should our vigilance. Turning to the budget, we continue to occupy a strong cash position. In fact, even with the deferrals we are expecting from the State, we are likely to have enough cash on-hand to cover our expenses and payroll without having to draw on a tax-free TRAN. To be safe, however, we do intend to employ a taxable TRAN to ensure the steady availability of funds—should unforeseen needs arise. That's all for tonight. But, as always, keep up the great work and continue to serve our students and community. -Trevor

President Wages asked for an update on the Presidential search. Vickie Ramsey, Director of Human Resources advised she had planned to update the Board in closed session tonight, but her comments are not confidential. Ms. Ramsey advised the first committee meeting has been set for next Monday, March 15th from 2-3:30 p.m. at which time they will discuss paper screening and go through training and questions the committee may have as well as formulate questions for the interview.

Information, Report: 5.04 Board Comments

Trustee Sandra Jonas gave her congratulations to those receiving tenure tonight and congratulations to our two retirees, Jeff and Carol.

Trustee David Trussell stated he wished to say the same as Sandy said. Trustee Trussell stated he wished we could give those parties tonight for the tenured faculty. Congratulations with the two retirees, enjoy.

Trustee Buck Parks gave his congratulations to the retirees and tenured faculty. Trustee Parks gave a thank you to Alan for his time on the Board and that he thinks he wanted to stay on the Board, but there are things we are bound by. Trustee Parks stated they have done provisional appointments in the past, and it is a process we will have to do. Best wishes to Alan.

Trustee Kim Dieter gave her congratulations to everyone.

Trustee Louis Hamilton stated ditto. He would like to say what Buck said about Alan. Appreciates Alan being on the Board, and it was too bad he was not qualified to stay.

President Sophia Wages stated she wants to congratulate the tenure employees and Carol and Jeff and thank Alan for his service. President Wages added that they may not all agree, but she appreciates everyone's opinions. Thank you all again.

6. Administration First Reading Board Policy (No Action Required)

Discussion, Information: 6.01 BP 2430 - Delegation of Authority to Superintendent/President (First Reading-No Action Required)

Dr. Albertson reported this open airing is designed to bring this policy into greater requirements for accreditation. Dr. Albertson noted the Tri Chairs are doing a wonderful job. This item is a technicality. It removes a technical barrier.

Discussion, Information: 6.02 AP 2430 - Delegation of Authority to Superintendent/President (First Reading-No Action Required)

Dr. Albertson reported that again this is more of a technical matter for the President to have the authority in line with accreditation standards.

7. Administration - Second Reading and Approval Board Policy

Action, Discussion, Information: 7.01 BP 2310 - Regular Meetings of the Board (Second Reading and Approval)

Dr. Trevor Albertson advised this BP codifies the need to hold a second meeting if needed and allows the Board flexibility in scheduling the December meeting to meet the requirements of AB2449.

Motion by Buck Parks, second by David Trussell

Final Resolution: Motion carries.

Ayes: Kim Dieter, Louis Hamilton, Sandra Jonas, Buck Parks, David Trussell, Sophia Wages

Noes: None

Absent: None

8. Administration

Action, Discussion, Information: 8.01 CCCT Board Elections Nominations - 2021

President Wages called for a board member to volunteer to research the candidates for the CCCT Board noting that Trustee Hamilton had performed this research for the Board last year. Trustee Hamilton agreed to research the nominees and bring forward his recommendations to the Board at the April 13, 2021 Regular meeting. President Wages thanked Trustee Hamilton.

Action: 8.02 Faculty Evaluations

Dr. Albertson said that the faculty evaluations were completed and well done adding that the new deans are doing great with this as well as the faculty.

Motion by Sandra Jonas, second by Kim Dieter

Final Resolution: Motion carries.

Ayes: Kim Dieter, Louis Hamilton, Sandra Jonas, Buck Parks, David Trussell, Sophia Wages

Noes: None

Absent: None

Information: 8.03 Faculty Tenure Commendations

Dr. Albertson advised this is giving commendations to the Board as to who received tenure. These faculty have been serving the college for at least the last 5 years and these faculty have made a difference for our students. President Wages congratulated the faculty receiving tenure on their commitment.

Action: 8.04 Setting of Non-Resident Tuition Fee for FY 2021-2022

Dr. Albertson reported that in setting the non-resident tuition fee for 2021-2022, it is actually a decrease of \$10 per unit which is what everyone else has done to remain competitive. This is ready to go and will keep us competitive for any students looking to attend any community college. It is recommended the Non-Resident Tuition Fee be set at \$270 per unit for the 2021-2022 fiscal year.

Motion by David Trussell, second by Buck Parks

Final Resolution: Motion carries.

Ayes: Kim Dieter, Louis Hamilton, Sandra Jonas, Buck Parks, David Trussell, Sophia Wages

Noes: None

Absent: None

Action: 8.05 Instructional Program Review (IPR) 2020-2021 - Child Development

Dr. Albertson reported that the Instructional Program Review (IPR) for 2020-2021 for Child Development was completed by Laura Greer, our Early Childhood Education instructor. She has done a phenomenal job and should be commended for what she has produced. It is noted the Board conveys their thanks for her hard work.

Motion by Sandra Jonas, second by Buck Parks

Final Resolution: Motion carries.

Ayes: Kim Dieter, Louis Hamilton, Sandra Jonas, Buck Parks, David Trussell, Sophia Wages

Noes: None

Absent: None

Discussion, Information: 8.06 Review of Surplus Disposal Plan

Dr. Albertson reported that this was a hot item. They have figured out where the problems were. Dr. Albertson stated he wanted to commend Greg and his staff for making it happen. They got the desks out of the weather and other items moved. This plan is for starting to dispose of things. Some of it needs to be disposed of as it has not sold at the previous sale. Other items need to be assessed in the system which are high value items, so we can turn them back into items the community can use and dollars for our students. Trustee Hamilton stated he wanted to thank them for cleaning up the backyard. He went by tonight and that is the way it should be kept. Yes, there are items that are surplus, but we need to have those items put up to store them. One area is the CoGen and hopefully we can get them out and sold.

Trustee Hamilton stated he does not agree with all of the plan. For the items we have that are surplus, we have state code that we have to follow and state code is what he would like reassurance we are following. Trustee Hamilton advised he wants to see us get the most money that we can. Trustee Hamilton reported he was on the Board in 2012 for the last sale and there are items that are on the list, that he has now found are still here. We need to get rid of them.

Information: 8.07 COVID Update

Dr. Albertson advised that it is less of a concern about what we need to do to keep people off campus, but to get people back up here. Today Julie and he were having a very spirited conversation about how we were going to do this with signage. Dr. Albertson stated he cannot stand out there with a clip board making sure people have been vaccinated. People are not just

returning after CoVid, but in some cases it is their first time to campus. Dr. Albertson advised a meeting has been scheduled with various campus principles to start this discussion on returning to campus.

Information: 8.08 District Budget Update

Dr. Albertson advised that the Status and Analysis says it all. Dr. Albertson stated that about pulling the TRAN, we have no short fall to prove to the State, and we think we are going to have the money we think we may need if something bad were to occur. The TRAN is something about having it if we need it as a safety net. Dr. Albertson advised that it is peace of mind for the Board and him and is worth it.

Information: 8.09 Accreditation Update

Dr. Albertson reported that accreditation is moving forward, and he spoke with Toni Sommer, our accreditation representative. To the Tri Chairs, thank you and thank you to all of the faculty and staff putting in hours on this. It is not something that happens overnight. It requires brain work to get done and after hours, but they are making that time. Thank everyone working hard to do this.

9. Information Items

Information, Procedural: 9.01 Calendar of Events

President Wages referred those present to the Events tab on the website and that hopefully soon we will have events back on campus.

10. Future Dates and Reports

Information: 10.01 Future Dates and Reports

5. Information-Reports

Information, Report: 5.01 Academic Senate President's Report

Mr. Adam Runyan, Academic Senate President, submitted the following report which was read by Julie Johnston:

Good Evening, Our Faculty Accreditation Tri Chairs have been busy working closely with our Accreditation consultant and the rest of campus to submit our Accreditation Response Report to the ACCJC. We will have our first read of the report this Wednesday in Senate. Senate will give feedback and then push it along to Consultation Council. The Tri Chairs should be commended for their hard work. We have two more IPR's for you to view this evening, Nursing/Allied Health/EMT and Fire Technology. The Faculty should be commended, especially new faculty learning our intense program review process. I will be attending the ASCCC statewide spring Plenary next week where I will learn about initiatives coming down from the State and vote on resolutions that will have an effect on our campus. I will make sure to bring back any pertinent information and present to our faculty and the board. Thank you for your service to our campus. Adam Runyan, Academic Counselor/Academic Senate President

Information, Report: 5.02 Associated Student's Report

None

Information, Report: 5.03 Interim Superintendent/President's Report

Dr. Trevor Albertson, gave the following report:

Good evening Trustees, colleagues, students, and members of the community. Today has been a tough day, among many in the last year and half. But this one hits close to home. With the announced and pending closure of CCC (California Correctional Center), this college, and the community as a whole, needs to prepare to find a new way ahead—to define a new method of success in the wake of CCC's closure. Within the Mandarin Chinese character for crisis there are two brush strokes: one for danger and one for opportunity. I feel this situation presents the same circumstances. We have both opportunity and danger staring us in the face. The first step in responding to this crisis is to make the dedicated decision to be successful and overcome the challenge. The second step is to organize. And that is what I am calling for tonight. We must, as a region, decide we are going to succeed in the face of this decision and to organize as one to take advantage of the opportunity before us. In the few short hours since this announcement I have conducted some research and inquiry into possibilities. One option is to establish a Fire-Training facility in the soon to be former CDCR facility. Another is to build an Agriculture Training Academy at CCC. Yet another reuse would be to conduct homeless reintegration. There are myriad possibilities in front of us. Whatever happens, however, we have to decide to be successful and must work with our regional and community partners. So, tonight, I am calling all on those leaders, followers, and people in between to get behind this effort. To quote the late Senator Paul Wellstone, "Because when we all do well—we all do well." Thank you.

President Wages inquired if Dr. Albertson has had any contact with the County CEO or Supervisors? Dr. Albertson advised he has calls in but has not heard back from him. Dr. Albertson further advised that David and Randy have run numbers on terms due to the closure and the numbers are looking at approximately 150-200 depending on the year. Trustee Trussell inquired if we had heard if we would lose the fire camp and was advised by Dr. Albertson that it appears it will remain under the Sierra Conservation at Jamestown. Dr. Albertson stated that the college has to put some effort in this, but if we can get out in front, that would be a positive.

Trustee Louis Hamilton stated that he has to commend Dr. Albertson on getting out there in front of this today. Dr. Albertson advised there are approximately five different grants out there. When people have closed military bases, and it has done appropriately, McClelland down in Sacramento, it was dovetailed and reuse was accomplished.

Trustee Buck Parks advised he would like to see this topic, maybe as a discussion topic, and it could be discussed at the meeting. Trustee Hamilton advised we have a retreat on April 27th. Dr. Albertson further

advised the "Choose Lassen" grant is out and 26 applications have come in already today. Additionally, you may have seen signs, big billboard signs around campus. We will have 1,000 people on campus tomorrow, and they will have to stare at those billboards. Plus they will get a flier that showcases the "Choose Lassen" grant and the Welcome Center. Staff came together and did a great job. Also, there are new billboard signs on the CoGen. Dr. Albertson stated we have tons of advertising opportunity for \$2,000.

Information, Report: 5.04 Board Comments

Trustee Sandra Jonas advised that she attended the Women's History month virtual presentation on campus and was very impressed, adding that it was done very well. Trustee Jonas stated she tried to attend Consultation Council and is appreciative of staff working on accreditation and all the hard work behind the scenes. Trustee Jonas stated she notices and appreciates the work.

Trustee David Trussell stated that the accreditation Tri Chairs are doing some amazing stuff. Good job!

Trustee Kim Dieter gave a thank you for all the cooperation with the Covid 19 shots. She has heard many good comments and how well organized it was.

Trustee Louis Hamilton advised he has to say something about fire science and people like his grandson that have been hired. His grandson is up north and the people he is with are very jazzed about it. Very excited about any of our students that go through and then have a job. Trustee Hamilton stated it is sad when students go through anything and then get out and have no jobs and have to flip burgers. Trustee Hamilton thanked Trevor for being on top of this. Trustee Hamilton reported that the Foundation "Choose Lassen" grant is out. He has brochures, and they need to get out everywhere.

President Sophia Wages stated she cannot wait until Women's History month is back in person. In the past they have had Grade K-8 attend in person, and it is always nice to see the kids get involved. President Wages also wanted to say that the campus is looking fabulous. The grass is looking good and it looks the best she has seen it in a long time. Thank you to all the staff. President Wages quoted a principal she knew at one time that said, "if the classroom is not clean, the teachers are not happy." President Wages advised she appreciates all their hard work.

6. Administration - Second Reading Board Policy

Action, Discussion, Information: 6.01 BP 2430 - Delegation of Authority to Superintendent/President (Second Reading and Approval)

Dr. Albertson advised that this is the second reading and approval for the revisions for BP 2430 Delegation of Authority to Superintendent/President.

Motion by Buck Parks, second by Sandra Jonas

Final Resolution: Motion carries.

Ayes: Kim Dieter, Louis Hamilton, Sandra Jonas, Buck Parks, David Trussell, Sophia Wages

Noes: None

Absent: None

Action, Discussion, Information: 6.02 AP 2430 - Delegation of Authority to Superintendent/President (Second Reading and Approval)

Dr. Albertson advised that this is the second reading and approval for the revisions for the operating procedure, AP 2430 Delegation of Authority to Superintendent/President.

Motion by Louis Hamilton, second by Kim Dieter

Final Resolution: Motion carries.

Ayes: Kim Dieter, Louis Hamilton, Sandra Jonas, Buck Parks, David Trussell, Sophia Wages

Noes: None

Absent: None

7. Administration

Action, Discussion, Information: 7.01 CCCT Board Elections Nominations - 2021

President Wages advised that Trustee Hamilton would give us his recommendations for the CCCT Board. Trustee Hamilton stated that we have actually nominated one person in the past, Shaun Giese, and that was

the only selection that year. Then we have gone with the North State and added anyone else we felt strong about to the list as a 7th candidate. Trustee Hamilton reported that he has six (6) people North State, Livermore, some from Shasta and Yosemite. One other school Trustee Hamilton recommends we support is Copper Mountain. They are very small, just a little bigger than we are. Trustee Hamilton stated he has to make a comment about this being the first time in all the years where he has received an email that we as a group are being told to have seven people as an entity have an administrator recommend you. They had seven names of people recommended by this individual. Trustee Hamilton stated that it is getting very political but feels we need to stand on our own. President Wages asked if there were any outstanding characteristics in some of these candidates? Trustee Hamilton advised that some have doctorates and are well versed, however, he feels supporting the North is the way to go and he hopes we will get some representation but there is no guaranty we will get some.

Trustee Hamilton advised his six picks are as follows, and he would list by their numbers going down the ballot:

- 3 - Marguerite Bulkin, Yosemite CCD
- 4 - Edralin Maduli, Chabot - Las Positas CCD
- 7 - Kendall Pierson, Shasta-Tehama-Trinity Joint CCD
- 10 - Cindi Reiss, Peralta CCD
- 14 - Margaret Fishman, Sonoma County Junior College District
- 15 - Mary Lombardo, Copper Mountain CCD

Motion by Buck Parks to accept the six (6) recommendations, second by Kim Dieter

Final Resolution: Motion carries.

Ayes: Kim Dieter, Louis Hamilton, Sandra Jonas, Buck Parks, David Trussell, Sophia Wages

Noes: None

Absent: None

Information: 7.02 Faculty Tenure Commendations

Dr. Albertson advised that this will take a few minutes as we have a number of folks that received tenure. Dr. Albertson stated he would like to take the time to read their commendations.

Faculty Tenure - 2019-2020

Name: Roxanna Haynes

Discipline: Business

Contributions to the profession (committee involvement, accolades, etc.): Prior to my Interim appointment as Dean of Instruction for CTE/Adult Education/Incarcerated education, I was a Division Chair and Academic Senate President. I enjoyed representing my faculty colleagues and participating in the growth and governance of our campus. I continue to mentor local business owners as a contribution to the community and it's also my way of giving back to a business community that has been supportive of my family's small business.

Future goal for your program: I am honored to continue working with my colleagues in the area of CTE and Incarcerated Education while working to grow our Adult Education program offerings, including our new noncredit certificate. Workforce Development and CTE continues to be an important piece of the economic recovery for many students seeking a role in the workplace and I look forward to leading and supporting our faculty as they respond to these demands.

Name: James Kleckner

Discipline: Fine Art/Graphic Design

Contributions to the profession (committee involvement, accolades, etc.): My professional contributions include: facilities and technology committee involvement, art program and curriculum updates and revisions, recurring annual curatorial exhibitions for student and faculty art shows at Lassen Arts Council, community outreach at Lassen County schools and Lassen County Fair, personal artwork comprises various juried exhibitions, including to exhibit at the Los Angeles Center for Digital Art titled Ten Artists to Watch. Future artwork involves publishing a graphic novel, book of illustrations, and creating a new body of work in the form of large-scale charcoal drawings exploring movement, figures, and various animals.

Future goal for your program: Future goals for the Arts Program at LCC include: finding a permanent gallery space to exhibit student, faculty, regional, and national art exhibitions on campus, develop a recurring visiting artist program (where artists exhibit and provide public talks and demonstrations for the county and

community of LCC), provide more community-based art programs, and expand arts program via correspondence and online learning.

Name: Christi Myers

Discipline: Nursing and Allied Health

Contributions to the profession (committee involvement, accolades, etc.): Re-establishment of LVN program (along with Celeste) & EMT, CMA, Phlebotomy. Development of CNA program. Committee involvement, currently safety committee, leading from the middle.

Future goal for your program: Develop an RN program

Name: Andy Rupley

Discipline: Business

Contributions to the profession (committee involvement, accolades, etc.): Academic Senate Representative, Full-Time Negotiator for LCFA, Division Chair of Business/Science, Curriculum Committee, and Educational Master Plan Committee. In 2020, earned Ph.D. in Organizational Leadership and passed the California Real Estate Exam to become a licensed Real Estate Agent.

Future goal for your program: Want to help build the non-credit offers for Lassen College through transitioning certain business course offerings as well as possibly creating a non-credit real estate program. In addition, creating a new accounting certificate and re-writing the office technology certificate to more align with the industry as well as more approachable from a student perspective.

Faculty Tenure - 2020-2021

Name: Hasib Azhand

Discipline: Business

Contributions to the profession (committee involvement, accolades, etc.): Helped the business department in implementing its new Small Business Certificate Program. Was Flex Chair for academic years of 2018-2019 and 2019-2020. Assisted in bring personal development training on campus. Influential in teaching incarcerated students face to face business courses to help lower recidivism rates. Helped complete the Entrepreneurship Certificate Program for our incarcerated students.

Future goal for your program: Create an amazing adult education program for small business owners.

Name: Laura Greer

Discipline: Child Development

Contributions to the profession: Site Supervisor Permit from the Commission on Teacher Credentialing. Involved in the Lassen Planning Council. Certified in the HighScope Curriculum (a curriculum for the 0-5 year age group).

Future Goal for Program: I hope to grow this program and increase enrollment.

Name: Shar Murphy

Discipline: Librarian

Contributions to the profession: Secured a full-time library technician, Christina Madrid, who is a fabulous addition to the College Library; secured and expanded loanable hotspots, Chromebooks, & textbooks; implemented a state-wide library system; arranged award-winning author visits to campus, area schools & public; Flex presentations; serve as secretary to Institutional Technology Planning Committee; received two commendations on College's Accreditation Report.

Future goals for your program: Continue to expand the Library's resources & services via Canvas and in-person; expand the Library's hours & days; secure a security system; further literacy work with the community.

On a personal note, I want to thank the College for my opportunities to work and live here. LCC, Susanville, and Lassen County have immensely blessed my life. The support offered is immeasurable. In gratitude, Shar

Name: Celeste Wiser

Discipline: LVN Nursing Instructor

Contributions to the profession (committee involvement, accolades, etc.): Academic Senate (first year), Student Service Master Planning Committee.

Past committees: Scholarship, Discipline Committee. Future goal for your program: From a conversation about re-starting the nursing program with a stranger over a cup of coffee to graduating our fifth class this May I am

confident that the sky is the limit for our nursing program. That said stranger- Christi Myers, now director of the program(s) and I have been living by our philosophy- "It will all make sense one day." With the help of the school, support from administration, colleagues, and community we have been able to graduate over 60 students since December 2017.

Future goals are to keep giving the best education we can provide to the nursing students and continue having a successful NCLEX pass rates. Our Simulation Lab have been instrumental in the students learning also. We plan to keep improving our Simulation to encourage stronger critical thinking. A LVN-RN Bridge program is a future goal that we are working hard to provide for our community. Being a RN in the community, I see the need of nurses- LVN and RN. I am happy to be part of the team who is helping bridge the gap and provide our community with the most evidence based practice education and skilled nurses. I feel excited when a past nursing student is providing my family and me medical care. I know they are in good hands and that's how I know we are doing it right!

Dr. Albertson finished by advising that once we are able, we will have a party for all of our new tenured faculty.

Action: 7.03 Instructional Program Review (IPR) - Nursing/Allied Health/EMT

Dr. Albertson advised that this is one of the most phenomenal IPR's he has ever seen. It has been very well done and have done a phenomenal job in telling their story.

Motion by David Trussell, second by Louis Hamilton

Final Resolution: Motion carries.

Ayes: Kim Dieter, Louis Hamilton, Sandra Jonas, Buck Parks, David Trussell, Sophia Wages

Noes: None

Absent: None

Action: 7.04 Instructional Program Review (IPR) – Fire Technology

Dr. Albertson stated it is great not only to have the IPR here and done, but they did such a nice job writing it. They have students graduating and getting jobs. Dr. Albertson added that Anna Pasqua was very helpful in getting this IPR done, and he would like to recognize her work.

Motion by Louis Hamilton, second by Buck Parks

Final Resolution: Motion carries.

Ayes: Kim Dieter, Louis Hamilton, Sandra Jonas, Buck Parks, David Trussell, Sophia Wages

Noes: None

Absent: None

Action: 7.05 Approval of Provisional Appointment for Board of Trustees - Area 1

Dr. Trevor Albertson, Interim Superintendent/President advised he would like to offer some remarks before we launch into this. Dr. Albertson advised that following up from the April 8th Special Meeting, he was questioned by Trustee Jonas that in case of a tie, what do we do? Dr. Albertson advised he discussed this with legal counsel, and pursuant to Title 5 in case of a tie, we go to an election. What happens if tonight the board provisionally selects someone, tomorrow April 14, the notice for the provisional appointment would be made and would end on 5/13. On May 11 we would swear this provisional trustee in. This would give this trustee time to learn the rules and get some board training. The Community College of California may offer board training on 5/4 and 5/5. Dr. Albertson continued and stated that the Board has before it tonight to appoint someone or send to a special election. The rest of the process is administrative.

President Wages asked if they could check to see if either of the two candidates are online? David Corley, Director of Technology and Research advised that he is able to see that Becky Hubbard is on and a phone number believed to be Cort Cortez. President Wages inquired if they could hear her? President Wages stated that before we make a final decision by vote, I would like to take this opportunity to thank each of you for coming forward to represent the Students that are attending our College now and in the future as a potential Trustee. Your commitment to serve on this Board is recognized and we appreciate your willingness to represent your Trustee Area and your community. As you will know Trustees will disagree from time to time, and when the final vote is taken, the majority rules and the Trustees are committed to upholding that decision, should you personally disagree. This is stressed in our Board Policy and by the Community College League. As Trustees, we are here to support the Students first, implement policy and procedure and ensure the financial stability of this institution and to support the President/Superintendent with their goals and recommendations to grow our institution while partnering with state and federal agencies, including the CC League, Accrediting Commission, Chancellor's Office, and local businesses within our service area, along with

our citizens of Lassen County. I know you both take this position very seriously, and we appreciate you coming forward.

President Wages asked the Trustees if anybody on the Board has one final question to ask of each candidate? This would be the time and then discuss as well. None of the Trustees had an additional question for the candidates. President Wages stated that she has a question for Mr. Hubbard and asked Mr. Corley to unmute the line. Mr. Hubbard's wife came on and advised that he is in a school board meeting tonight. President Wages stated that her question would have been to him if he would have any problem with him attending the meetings and a conflict with him attending the high school board meeting and our board meeting at the same time. President Wages asked the Trustees if they wished to have discussion or would prefer to go ahead and have a vote? Trustee Jonas advised she was ready for a vote.

Dr. Albertson advised that someone would need to call for a motion and a second and then a roll call vote would be completed. The vote was recorded three different ways:

Each Trustee called out the name of the applicant for their vote:

Trustee Sandra Jonas: Cort Cortez
 Trustee David Trussell: BJ Hubbard
 Trustee Buck Parks: BJ Hubbard
 Trustee Kim Dieter: Cort Cortez
 Trustee Louis Hamilton: BJ Hubbard
 Trustee Sophia Wages: Cort Cortez

Motion by Kim Dieter for Applicant Cort Cortez, second by Sandra Jonas

Final Resolution: Motion fails.

Ayes: Kim Dieter, Sandra Jonas, Sophia Wages

Noes: Louis Hamilton, Buck Parks, David Trussell

Absent: None

Motion by David Trussell for Applicant BJ Hubbard, second by Buck Parks

Final Resolution: Motion fails.

Ayes: Louis Hamilton, Buck Parks, David Trussell

Noes: Kim Dieter, Sandra Jonas, Sophia Wages

Absent: None

Dr. Albertson advised that since the motions have failed by half they are required to proceed to a special election.

Information: 7.06 COVID Update

Dr. Albertson reported that we are getting ready to move into Phase 2 and start a slow reopening process. This will change who can and cannot be on campus. Masks will remain on campus as well as thermometers that you walk up to that takes your temperature and immediately tells you if it is normal or not. Dr. Albertson stated that we will continue to record who will be coming into buildings. It is still the goal of this institution to reopen by fall and have students in the dorm. President Wages stated she has heard we are in the red zone and our numbers are so low, the mask thing is not as much an issue, but still wearing them to protect those that may be susceptible. Dr. Albertson advised that our rate is so low, two people could throw off the rate in the county. Dr. Albertson stated he does not want this institution to throw off the numbers. The more people we have socially distance, and wear masks, the better. Trustee Hamilton inquired about sports and how is it working with testing and are they being tested before games? Dr. Albertson advised that they had results that were held up before the game in Shasta so they pushed back the game. Dr. Albertson reported it was with Virus Geeks, the testing company, and not our problem. Trustee Parks asked if we are keeping track of the numbers of testing procedures and what it is costing the institution? We have baseball up and running at this time. Trustee Parks asked what else is required for testing? Dr. Albertson advised that for rodeo through NIRA, rodeo students are not required to test. CCCAA requires testing for the other sports. We are testing those applicants for rodeo still, which makes sense because they are interacting with folks off campus who may or may not be following the same protocols. Our students have been doing a great job: rodeo, baseball, all have been doing a phenomenal job. Dr. Albertson advised that Coach has a tight ship. Trustee Parks asked about the numbers for testing and if it will start pulling budget dollars? Dr. Albertson reported that he can get the numbers and text or send them to you or provide them for the next meeting. Trustee Parks stated he was

just wondering if there are any budget shortfalls? Dr. Albertson advised that we received Cares Act funds to pay for this, so we do not have to pull from Fund 11. There is off set money available. In the end we will spend \$5,000-\$10,000 for this. Trustee Trussell inquired about the face-to-face classes, and if we will be following really stringent requirements for masking, temperature check, etc? Dr. Albertson reported that Randy Joslin, our VP for Administrative Services, has a 6' pole and every time we need to prepare a room, he walks around and measures. We are currently waiting to hear from the State whether they will be downsizing from 6' to 3'. Trustee Trussell stated he has a concern about the Fire Technology students getting into shelters for the fire classes. How do we sanitize in between? What are our plans to handle this? Dr. Albertson advised they are taking every measure to make sure those students are safe. We could require for those students to be tested. Trustee Trussell stated he would like to see the shelters disinfected in between uses.

Information: 7.07 District Budget Update

Dr. Albertson reported that the college just received \$963,000 total in relief funding including the original \$167,000 from the Cares Act, so nearly a million dollars split between Fund 11 and 12 availability. There are some creative ways to offset Fund 12, and general availability of Fund 11 dollars. This will be a huge win for this college with \$450,000 in general fund dollars. We still have to off set the expenditures for CoVid. We have to hire XYZ for CoVid, and we can offset from this for CoVid. Dr. Albertson advised he has yet to see the Federal government deny something.

Dr. Albertson further advised that we finished the TRAN with the highest in rating. Kudos to the staff.

Information: 7.08 Accreditation Update

Dr. Albertson advised that in Mr. Runyan's remarks, the Tri Chairs are doing honest work. Without the Tri Chairs and everybody that has contributed to this, we would not be an institution. In a conversation he recently had with Ms. Toni Sommers, our Consultant, she has been amazed at what they have done. Toni stated she feels we have a very good chance of not being continued on sanctions, but could be brought off in one fell swoop. We are not going to get into worse sanctions, but they could remove us and ask us to remove a few things in a follow-up report.

8. Information Items

Information, Procedural: 8.01 Calendar of Events

President Wages referred those present to the Events tab on the website.

9. Future Dates and Reports

Information: 9.01 Future Dates and Reports

April 27, 2021	Retreat Meeting	Board Room	12:00 p.m.
May 13, 2021	Regular Meeting	Board Room	5:30 p.m.
June 8, 2021	Regular Meeting	Board Room	5:30 p.m.

President Wages reminded the Trustees that if you have anything of particular interest for the Retreat meeting, to let her or Trevor know. President Wages advised that she does have some topics already submitted. Trustee Jonas inquired about Graduation and was advised by Dr. Albertson that Graduation is May 28th and will be in person for the graduates. The plan is to do it outside and we will have a back up plan for weather. Trustees will be present but they are still working out all the details. Dr. Albertson advised he thinks it would be good for the trustees to be on stage masked up. We can ask family members to log in and view online as we can only do a certain percentage of occupancy. Trustee Trussell asked if we can give students any kind of reception afterwards? Dr. Albertson advised that he believes Brady had a meeting yesterday. President Wages asked if graduates would be tested and if they were tested, could we have a reception? Dr. Albertson advised that the concern is getting everyone in that close proximity with mask off to eat something. There is a possibility we could set up tables and bring to the tables. Have cake pre-cut and in containers.

10. Public Comment on Closed Session Agenda Items

Procedural: 10.01 Public Comment on Closed Session Agenda Items

None

11. Adjourn to Closed SessionProcedural: 11.01 Adjourn to Closed Session

The Board of Trustees of the Lassen Community College District will adjourn to closed session under authority of Government Code Section 54962 to conduct the following business:

It was moved by Trustee Parks, seconded by Trustee Hamilton and carried unanimously to go into CLOSED SESSION at 6:40 p.m.

Lassen Community College District Policy

CCLC No. 2430

Board of Trustees

BP 2430 Delegation of Authority to Superintendent/President

References: Education Code Sections 70902(d), 72400, ~~81655, and 81656~~;
ACCJC Accreditation Standards ~~IV.B.1.j and IV.B.2~~ **IV.B.5, IV.C.12 and IV.D.1**

The Board delegates to the Superintendent/President the executive responsibility for administering the policies adopted by the Board and executing all decisions of the Board of Trustees requiring administrative action.

The Superintendent/President may delegate any powers and duties entrusted to him or her by the Board of Trustees, but will be specifically responsible to the Board for the execution of such delegated powers and duties.

The Superintendent/President is empowered to reasonably interpret Board Policy. In situations where there is no Board Policy direction, the Superintendent/President shall have the power to act, but such decisions shall be subject to review by the Board. It is the duty of the Superintendent/President to inform the Board of such action and to recommend written Board Policy if one is required.

The Superintendent/President is expected to perform the duties contained in the Superintendent/President job description and fulfill other responsibilities as may be determined in annual goal-setting or evaluation sessions. The job description and goals and objectives for performance shall be developed by the Board of Trustees in consultation with the Superintendent/President.

The Superintendent/President shall ensure that all relevant laws and regulations are complied with, and that required reports are submitted in timely fashion.

The Superintendent/President shall make available any information or give any report requested by the Board of Trustees as a whole. Individual Board member requests for information shall be met if, in the opinion of the Superintendent/ President, they are not unduly burdensome or disruptive to District operations. Information provided to any Board member shall be available to all Board members.

The Superintendent/President shall act as the professional advisor to the Board in policy formation.

~~The Board delegates to the Superintendent/President the authority to supervise the general business procedures of the District to assure the proper administration of property and contracts; the budget, audit and accounting of funds; the acquisition of supplies, equipment and property; and the protection of assets and persons. All transactions shall comply with applicable laws and regulations, and with the California Community Colleges Budget and Accounting Manual.~~

~~No contract shall constitute an enforceable obligation against the district until it has been approved or ratified by the Board.~~

The above lined out text is included in Allen Hancock's BP

~~The Superintendent/President shall make appropriate periodic reports to the Board and shall keep the Board fully advised regarding the financial status of the District.~~

Recommended Action Recommend the Board Policy Committee approve the revisions to AP 2430 - Delegation of Authority to Superintendent/President, as presented.

Lassen Community College District Procedure

CCLC No. 2430

Board of Trustees

AP 2430 DELEGATION OF AUTHORITY TO SUPERINTENDENT/PRESIDENT

References:

Education Code Section 70902;

ACCJC Accreditation Standard IV.B.1.j and IV.B.2 IV.B.5, IV.C.12, and IV.D.1

The Superintendent/President may delegate any powers and duties entrusted to him or her by the Board of Trustees (including the administration of colleges and centers), but will be specifically responsible to the Board for the execution of such delegated powers and duties.

~~Since the Superintendent/President is the chief executive officer of the District, all communications and recommendations from the staff of the District shall be conveyed through that personage to the District Governing Board. (The Superintendent/President shall make available to the Governing Board all data requested by said Board in a timely manner.)~~

~~This policy does not preclude discussion by Board members with staff on matters of college business.~~

The Superintendent/President shall be responsible for reasonable interpretation of Board Policy. In situations where there is no Board Policy direction, the Superintendent/ President shall have the power to act, but such

decisions shall be subject to review by the Board of Trustees. It is the duty of the Superintendent/President to inform the Board of such action and to recommend written Board Policy if one is required.

The Superintendent/President is expected to perform the duties contained in the Superintendent/President's job description and fulfill other responsibilities as may be determined in annual goal-setting or evaluation sessions.

The Superintendent/President shall ensure that all relevant laws and regulations are complied with, and that required reports are submitted in timely fashion.

4. Discussion/Action on item(s) removed from Consent Agenda**5. Information-Reports**Information, Report: 5.01 Academic Senate President's Report

Adam Runyan, Academic Senate President, submitted the following report which was read by Julie Johnston:

Good Evening, We would like to congratulate our faculty that are receiving Tenure this evening. Item 8.02 on tonight's agenda highlights some of their accomplishments as faculty at LCC. We are truly lucky to have such committed faculty that have a vision to grow their programs and serve our students. Our Senate has been busy working on catching up with our IPR's. You will see the Child Development IPR is on your agenda this evening. We should have 6 for you to review by next month. We are still working closely with our Accreditation Tri Chairs and consultant making sure that we are checking off the boxes of the recommendations and requirements ACCJC has for us. The ASCCC has asked us to complete a Diversity Equity and Inclusion (DEI) survey, due by the end of this month, specifically looking at how we are embedding DEI efforts across our campus with students, staff, faculty, administration, and our board. Overall, we are "in progress" for many of their questions and initiatives, but have a long way to go to make sure we are looking at everything we do through a lens of Diversity, Equity, Inclusion, and

anti-racism, from our hiring practices, to our curriculum development, we are making headway. Thank you for your commitment as a board to our DEI efforts. As always, if you have any questions or concerns, please reach out to me. Thank you, Adam Runyan.

Information, Report: 5.02 Associated Student's Report

None

Information, Report: 5.03 Interim Superintendent/President's Report

Dr. Trevor Albertson, Interim Superintendent/President stated he wanted to join Adam to congratulate those receiving tenure tonight. Dr. Albertson went on to say that for those receiving tenure, and those that received it a year ago we will have a party bigger than before. This was put under due to CoVid hitting. Congratulations to all receiving tenure and well done. It's March, and that means spring is approaching rapidly. With spring comes the opening of blossoms and buds on the trees and flowers. Such is meaningful symbolism for where the campus is headed in the coming months, as well. As we move into a period of reopening and, honestly, renewal, there is a great deal to consider. When this all started, I remember saying it would be more difficult to reopen that it was to move off-campus. Well, that difficult task is upon us. In an effort to ease that transition, the leaders of various campus constituencies and I will be meeting soon to discuss what is important to them as this process is undertaken. Following that, there will be planning exercises within the administration to ensure the campus team will be able to safely reopen upon their return. More or less, we will be working out the kinks before everyone shows up. But there, too, there will be a degree of thought applied to the process by which everyone is reintroduced to campus. Rather than bringing everyone back in a mass-wave of folks, the return will be layered, coming back in small groups. Finally, once everyone is back, the process of monitoring the situation for safety will go on. Frankly, it will be a continual process. Covid is not going away, and neither should our vigilance. Turning to the budget, we continue to occupy a strong cash position. In fact, even with the deferrals we are expecting from the State, we are likely to have enough cash on-hand to cover our expenses and payroll without having to draw on a tax-free TRAN. To be safe, however, we do intend to employ a taxable TRAN to ensure the steady availability of funds—should unforeseen needs arise. That's all for tonight. But, as always, keep up the great work and continue to serve our students and community. -Trevor

President Wages asked for an update on the Presidential search. Vickie Ramsey, Director of Human Resources advised she had planned to update the Board in closed session tonight, but her comments are not confidential. Ms. Ramsey advised the first committee meeting has been set for next Monday, March 15th from 2-3:30 p.m. at which time they will discuss paper screening and go through training and questions the committee may have as well as formulate questions for the interview.

Information, Report: 5.04 Board Comments

Trustee Sandra Jonas gave her congratulations to those receiving tenure tonight and congratulations to our two retirees, Jeff and Carol.

Trustee David Trussell stated he wished to say the same as Sandy said. Trustee Trussell stated he wished we could give those parties tonight for the tenured faculty. Congratulations with the two retirees, enjoy.

Trustee Buck Parks gave his congratulations to the retirees and tenured faculty. Trustee Parks gave a thank you to Alan for his time on the Board and that he thinks he wanted to stay on the Board, but there are things we are bound by. Trustee Parks stated they have done provisional appointments in the past, and it is a process we will have to do. Best wishes to Alan.

Trustee Kim Dieter gave her congratulations to everyone.

Trustee Louis Hamilton stated ditto. He would like to say what Buck said about Alan. Appreciates Alan being on the Board, and it was too bad he was not qualified to stay.

President Sophia Wages stated she wants to congratulate the tenure employees and Carol and Jeff and thank Alan for his service. President Wages added that they may not all agree, but she appreciates everyone's opinions. Thank you all again.

6. Administration First Reading Board Policy (No Action Required)

Discussion, Information: 6.01 BP 2430 - Delegation of Authority to Superintendent/President (First Reading-No Action Required)

Dr. Albertson reported this open airing is designed to bring this policy into greater requirements for accreditation. Dr. Albertson noted the Tri Chairs are doing a wonderful job. This item is a technicality. It removes a technical barrier.

Discussion, Information: 6.02 AP 2430 - Delegation of Authority to Superintendent/President (First Reading-No Action Required)

Dr. Albertson reported that again this is more of a technical matter for the President to have the authority in line with accreditation standards.

7. Administration - Second Reading and Approval Board Policy

Action, Discussion, Information: 7.01 BP 2310 - Regular Meetings of the Board (Second Reading and Approval)

Dr. Trevor Albertson advised this BP codifies the need to hold a second meeting if needed and allows the Board flexibility in scheduling the December meeting to meet the requirements of AB2449.

Motion by Buck Parks, second by David Trussell

Final Resolution: Motion carries.

Ayes: Kim Dieter, Louis Hamilton, Sandra Jonas, Buck Parks, David Trussell, Sophia Wages

Noes: None

Absent: None

8. Administration

Action, Discussion, Information: 8.01 CCCT Board Elections Nominations - 2021

President Wages called for a board member to volunteer to research the candidates for the CCCT Board noting that Trustee Hamilton had performed this research for the Board last year. Trustee Hamilton agreed to research the nominees and bring forward his recommendations to the Board at the April 13, 2021 Regular meeting. President Wages thanked Trustee Hamilton.

Action: 8.02 Faculty Evaluations

Dr. Albertson said that the faculty evaluations were completed and well done adding that the new deans are doing great with this as well as the faculty.

Motion by Sandra Jonas, second by Kim Dieter

Final Resolution: Motion carries.

Ayes: Kim Dieter, Louis Hamilton, Sandra Jonas, Buck Parks, David Trussell, Sophia Wages

Noes: None

Absent: None

Information: 8.03 Faculty Tenure Commendations

Dr. Albertson advised this is giving commendations to the Board as to who received tenure. These faculty have been serving the college for at least the last 5 years and these faculty have made a difference for our students. President Wages congratulated the faculty receiving tenure on their commitment.

Action: 8.04 Setting of Non-Resident Tuition Fee for FY 2021-2022

Dr. Albertson reported that in setting the non-resident tuition fee for 2021-2022, it is actually a decrease of \$10 per unit which is what everyone else has done to remain competitive. This is ready to go and will keep us competitive for any students looking to attend any community college. It is recommended the Non-Resident Tuition Fee be set at \$270 per unit for the 2021-2022 fiscal year.

Motion by David Trussell, second by Buck Parks

Final Resolution: Motion carries.

Ayes: Kim Dieter, Louis Hamilton, Sandra Jonas, Buck Parks, David Trussell, Sophia Wages

Noes: None

Absent: None

Action: 8.05 Instructional Program Review (IPR) 2020-2021 - Child Development

Dr. Albertson reported that the Instructional Program Review (IPR) for 2020-2021 for Child Development was completed by Laura Greer, our Early Childhood Education instructor. She has done a phenomenal job and should be commended for what she has produced. It is noted the Board conveys their thanks for her hard work.

Motion by Sandra Jonas, second by Buck Parks

Final Resolution: Motion carries.

Ayes: Kim Dieter, Louis Hamilton, Sandra Jonas, Buck Parks, David Trussell, Sophia Wages

Noes: None

Absent: None

Discussion, Information: 8.06 Review of Surplus Disposal Plan

Dr. Albertson reported that this was a hot item. They have figured out where the problems were. Dr. Albertson stated he wanted to commend Greg and his staff for making it happen. They got the desks out of the weather and other items moved. This plan is for starting to dispose of things. Some of it needs to be disposed of as it has not sold at the previous sale. Other items need to be assessed in the system which are high value items, so we can turn them back into items the community can use and dollars for our students. Trustee Hamilton stated he wanted to thank them for cleaning up the backyard. He went by tonight and that is the way it should be kept. Yes, there are items that are surplus, but we need to have those items put up to store them. One area is the CoGen and hopefully we can get them out and sold.

Trustee Hamilton stated he does not agree with all of the plan. For the items we have that are surplus, we have state code that we have to follow and state code is what he would like reassurance we are following. Trustee Hamilton advised he wants to see us get the most money that we can. Trustee Hamilton reported he was on the Board in 2012 for the last sale and there are items that are on the list, that he has now found are still here. We need to get rid of them.

Information: 8.07 COVID Update

Dr. Albertson advised that it is less of a concern about what we need to do to keep people off campus, but to get people back up here. Today Julie and he were having a very spirited conversation about how we were going to do this with signage. Dr. Albertson stated he cannot stand out there with a clip board making sure people have been vaccinated. People are not just

returning after CoVid, but in some cases it is their first time to campus. Dr. Albertson advised a meeting has been scheduled with various campus principles to start this discussion on returning to campus.

Information: 8.08 District Budget Update

Dr. Albertson advised that the Status and Analysis says it all. Dr. Albertson stated that about pulling the TRAN, we have no short fall to prove to the State, and we think we are going to have the money we think we may need if something bad were to occur. The TRAN is something about having it if we need it as a safety net. Dr. Albertson advised that it is peace of mind for the Board and him and is worth it.

Information: 8.09 Accreditation Update

Dr. Albertson reported that accreditation is moving forward, and he spoke with Toni Sommer, our accreditation representative. To the Tri Chairs, thank you and thank you to all of the faculty and staff putting in hours on this. It is not something that happens overnight. It requires brain work to get done and after hours, but they are making that time. Thank everyone working hard to do this.

9. Information Items

Information, Procedural: 9.01 Calendar of Events

President Wages referred those present to the Events tab on the website and that hopefully soon we will have events back on campus.

10. Future Dates and Reports

Information: 10.01 Future Dates and Reports

5. Information-Reports

Information, Report: 5.01 Academic Senate President's Report

Mr. Adam Runyan, Academic Senate President, submitted the following report which was read by Julie Johnston:

Good Evening, Our Faculty Accreditation Tri Chairs have been busy working closely with our Accreditation consultant and the rest of campus to submit our Accreditation Response Report to the ACCJC. We will have our first read of the report this Wednesday in Senate. Senate will give feedback and then push it along to Consultation Council. The Tri Chairs should be commended for their hard work. We have two more IPR's for you to view this evening, Nursing/Allied Health/EMT and Fire Technology. The Faculty should be commended, especially new faculty learning our intense program review process. I will be attending the ASCCC statewide spring Plenary next week where I will learn about initiatives coming down from the State and vote on resolutions that will have an effect on our campus. I will make sure to bring back any pertinent information and present to our faculty and the board. Thank you for your service to our campus. Adam Runyan, Academic Counselor/Academic Senate President

Information, Report: 5.02 Associated Student's Report

None

Information, Report: 5.03 Interim Superintendent/President's Report

Dr. Trevor Albertson, gave the following report:

Good evening Trustees, colleagues, students, and members of the community. Today has been a tough day, among many in the last year and half. But this one hits close to home. With the announced and pending closure of CCC (California Correctional Center), this college, and the community as a whole, needs to prepare to find a new way ahead—to define a new method of success in the wake of CCC's closure. Within the Mandarin Chinese character for crisis there are two brush strokes: one for danger and one for opportunity. I feel this situation presents the same circumstances. We have both opportunity and danger staring us in the face. The first step in responding to this crisis is to make the dedicated decision to be successful and overcome the challenge. The second step is to organize. And that is what I am calling for tonight. We must, as a region, decide we are going to succeed in the face of this decision and to organize as one to take advantage of the opportunity before us. In the few short hours since this announcement I have conducted some research and inquiry into possibilities. One option is to establish a Fire-Training facility in the soon to be former CDCR facility. Another is to build an Agriculture Training Academy at CCC. Yet another reuse would be to conduct homeless reintegration. There are myriad possibilities in front of us. Whatever happens, however, we have to decide to be successful and must work with our regional and community partners. So, tonight, I am calling all on those leaders, followers, and people in between to get behind this effort. To quote the late Senator Paul Wellstone, "Because when we all do well—we all do well." Thank you.

President Wages inquired if Dr. Albertson has had any contact with the County CEO or Supervisors? Dr. Albertson advised he has calls in but has not heard back from him. Dr. Albertson further advised that David and Randy have run numbers on terms due to the closure and the numbers are looking at approximately 150-200 depending on the year. Trustee Trussell inquired if we had heard if we would lose the fire camp and was advised by Dr. Albertson that it appears it will remain under the Sierra Conservation at Jamestown. Dr. Albertson stated that the college has to put some effort in this, but if we can get out in front, that would be a positive.

Trustee Louis Hamilton stated that he has to commend Dr. Albertson on getting out there in front of this today. Dr. Albertson advised there are approximately five different grants out there. When people have closed military bases, and it has done appropriately, McClelland down in Sacramento, it was dovetailed and reuse was accomplished.

Trustee Buck Parks advised he would like to see this topic, maybe as a discussion topic, and it could be discussed at the meeting. Trustee Hamilton advised we have a retreat on April 27th. Dr. Albertson further

advised the "Choose Lassen" grant is out and 26 applications have come in already today. Additionally, you may have seen signs, big billboard signs around campus. We will have 1,000 people on campus tomorrow, and they will have to stare at those billboards. Plus they will get a flier that showcases the "Choose Lassen" grant and the Welcome Center. Staff came together and did a great job. Also, there are new billboard signs on the CoGen. Dr. Albertson stated we have tons of advertising opportunity for \$2,000.

Information, Report: 5.04 Board Comments

Trustee Sandra Jonas advised that she attended the Women's History month virtual presentation on campus and was very impressed, adding that it was done very well. Trustee Jonas stated she tried to attend Consultation Council and is appreciative of staff working on accreditation and all the hard work behind the scenes. Trustee Jonas stated she notices and appreciates the work.

Trustee David Trussell stated that the accreditation Tri Chairs are doing some amazing stuff. Good job!

Trustee Kim Dieter gave a thank you for all the cooperation with the Covid 19 shots. She has heard many good comments and how well organized it was.

Trustee Louis Hamilton advised he has to say something about fire science and people like his grandson that have been hired. His grandson is up north and the people he is with are very jazzed about it. Very excited about any of our students that go through and then have a job. Trustee Hamilton stated it is sad when students go through anything and then get out and have no jobs and have to flip burgers. Trustee Hamilton thanked Trevor for being on top of this. Trustee Hamilton reported that the Foundation "Choose Lassen" grant is out. He has brochures, and they need to get out everywhere.

President Sophia Wages stated she cannot wait until Women's History month is back in person. In the past they have had Grade K-8 attend in person, and it is always nice to see the kids get involved. President Wages also wanted to say that the campus is looking fabulous. The grass is looking good and it looks the best she has seen it in a long time. Thank you to all the staff. President Wages quoted a principal she knew at one time that said, "if the classroom is not clean, the teachers are not happy." President Wages advised she appreciates all their hard work.

6. Administration - Second Reading Board Policy

Action, Discussion, Information: 6.01 BP 2430 - Delegation of Authority to Superintendent/President (Second Reading and Approval)

Dr. Albertson advised that this is the second reading and approval for the revisions for BP 2430 Delegation of Authority to Superintendent/President.

Motion by Buck Parks, second by Sandra Jonas

Final Resolution: Motion carries.

Ayes: Kim Dieter, Louis Hamilton, Sandra Jonas, Buck Parks, David Trussell, Sophia Wages

Noes: None

Absent: None

Action, Discussion, Information: 6.02 AP 2430 - Delegation of Authority to Superintendent/President (Second Reading and Approval)

Dr. Albertson advised that this is the second reading and approval for the revisions for the operating procedure, AP 2430 Delegation of Authority to Superintendent/President.

Motion by Louis Hamilton, second by Kim Dieter

Final Resolution: Motion carries.

Ayes: Kim Dieter, Louis Hamilton, Sandra Jonas, Buck Parks, David Trussell, Sophia Wages

Noes: None

Absent: None

7. Administration

Action, Discussion, Information: 7.01 CCCT Board Elections Nominations - 2021

President Wages advised that Trustee Hamilton would give us his recommendations for the CCCT Board. Trustee Hamilton stated that we have actually nominated one person in the past, Shaun Giese, and that was

the only selection that year. Then we have gone with the North State and added anyone else we felt strong about to the list as a 7th candidate. Trustee Hamilton reported that he has six (6) people North State, Livermore, some from Shasta and Yosemite. One other school Trustee Hamilton recommends we support is Copper Mountain. They are very small, just a little bigger than we are. Trustee Hamilton stated he has to make a comment about this being the first time in all the years where he has received an email that we as a group are being told to have seven people as an entity have an administrator recommend you. They had seven names of people recommended by this individual. Trustee Hamilton stated that it is getting very political but feels we need to stand on our own. President Wages asked if there were any outstanding characteristics in some of these candidates? Trustee Hamilton advised that some have doctorates and are well versed, however, he feels supporting the North is the way to go and he hopes we will get some representation but there is no guaranty we will get some.

Trustee Hamilton advised his six picks are as follows, and he would list by their numbers going down the ballot:

- 3 - Marguerite Bulkin, Yosemite CCD
- 4 - Edralin Maduli, Chabot - Las Positas CCD
- 7 - Kendall Pierson, Shasta-Tehama-Trinity Joint CCD
- 10 - Cindi Reiss, Peralta CCD
- 14 - Margaret Fishman, Sonoma County Junior College District
- 15 - Mary Lombardo, Copper Mountain CCD

Motion by Buck Parks to accept the six (6) recommendations, second by Kim Dieter

Final Resolution: Motion carries.

Ayes: Kim Dieter, Louis Hamilton, Sandra Jonas, Buck Parks, David Trussell, Sophia Wages

Noes: None

Absent: None

Information: 7.02 Faculty Tenure Commendations

Dr. Albertson advised that this will take a few minutes as we have a number of folks that received tenure. Dr. Albertson stated he would like to take the time to read their commendations.

Faculty Tenure - 2019-2020

Name: Roxanna Haynes

Discipline: Business

Contributions to the profession (committee involvement, accolades, etc.): Prior to my Interim appointment as Dean of Instruction for CTE/Adult Education/Incarcerated education, I was a Division Chair and Academic Senate President. I enjoyed representing my faculty colleagues and participating in the growth and governance of our campus. I continue to mentor local business owners as a contribution to the community and it's also my way of giving back to a business community that has been supportive of my family's small business.

Future goal for your program: I am honored to continue working with my colleagues in the area of CTE and Incarcerated Education while working to grow our Adult Education program offerings, including our new noncredit certificate. Workforce Development and CTE continues to be an important piece of the economic recovery for many students seeking a role in the workplace and I look forward to leading and supporting our faculty as they respond to these demands.

Name: James Kleckner

Discipline: Fine Art/Graphic Design

Contributions to the profession (committee involvement, accolades, etc.): My professional contributions include: facilities and technology committee involvement, art program and curriculum updates and revisions, recurring annual curatorial exhibitions for student and faculty art shows at Lassen Arts Council, community outreach at Lassen County schools and Lassen County Fair, personal artwork comprises various juried exhibitions, including to exhibit at the Los Angeles Center for Digital Art titled Ten Artists to Watch. Future artwork involves publishing a graphic novel, book of illustrations, and creating a new body of work in the form of large-scale charcoal drawings exploring movement, figures, and various animals.

Future goal for your program: Future goals for the Arts Program at LCC include: finding a permanent gallery space to exhibit student, faculty, regional, and national art exhibitions on campus, develop a recurring visiting artist program (where artists exhibit and provide public talks and demonstrations for the county and

community of LCC), provide more community-based art programs, and expand arts program via correspondence and online learning.

Name: Christi Myers

Discipline: Nursing and Allied Health

Contributions to the profession (committee involvement, accolades, etc.): Re-establishment of LVN program (along with Celeste) & EMT, CMA, Phlebotomy. Development of CNA program. Committee involvement, currently safety committee, leading from the middle.

Future goal for your program: Develop an RN program

Name: Andy Rupley

Discipline: Business

Contributions to the profession (committee involvement, accolades, etc.): Academic Senate Representative, Full-Time Negotiator for LCFA, Division Chair of Business/Science, Curriculum Committee, and Educational Master Plan Committee. In 2020, earned Ph.D. in Organizational Leadership and passed the California Real Estate Exam to become a licensed Real Estate Agent.

Future goal for your program: Want to help build the non-credit offers for Lassen College through transitioning certain business course offerings as well as possibly creating a non-credit real estate program. In addition, creating a new accounting certificate and re-writing the office technology certificate to more align with the industry as well as more approachable from a student perspective.

Faculty Tenure - 2020-2021

Name: Hasib Azhand

Discipline: Business

Contributions to the profession (committee involvement, accolades, etc.): Helped the business department in implementing its new Small Business Certificate Program. Was Flex Chair for academic years of 2018-2019 and 2019-2020. Assisted in bring personal development training on campus. Influential in teaching incarcerated students face to face business courses to help lower recidivism rates. Helped complete the Entrepreneurship Certificate Program for our incarcerated students.

Future goal for your program: Create an amazing adult education program for small business owners.

Name: Laura Greer

Discipline: Child Development

Contributions to the profession: Site Supervisor Permit from the Commission on Teacher Credentialing. Involved in the Lassen Planning Council. Certified in the HighScope Curriculum (a curriculum for the 0-5 year age group).

Future Goal for Program: I hope to grow this program and increase enrollment.

Name: Shar Murphy

Discipline: Librarian

Contributions to the profession: Secured a full-time library technician, Christina Madrid, who is a fabulous addition to the College Library; secured and expanded loanable hotspots, Chromebooks, & textbooks; implemented a state-wide library system; arranged award-winning author visits to campus, area schools & public; Flex presentations; serve as secretary to Institutional Technology Planning Committee; received two commendations on College's Accreditation Report.

Future goals for your program: Continue to expand the Library's resources & services via Canvas and in-person; expand the Library's hours & days; secure a security system; further literacy work with the community.

On a personal note, I want to thank the College for my opportunities to work and live here. LCC, Susanville, and Lassen County have immensely blessed my life. The support offered is immeasurable. In gratitude, Shar

Name: Celeste Wiser

Discipline: LVN Nursing Instructor

Contributions to the profession (committee involvement, accolades, etc.): Academic Senate (first year), Student Service Master Planning Committee.

Past committees: Scholarship, Discipline Committee. Future goal for your program: From a conversation about re-starting the nursing program with a stranger over a cup of coffee to graduating our fifth class this May I am

confident that the sky is the limit for our nursing program. That said stranger- Christi Myers, now director of the program(s) and I have been living by our philosophy- "It will all make sense one day." With the help of the school, support from administration, colleagues, and community we have been able to graduate over 60 students since December 2017.

Future goals are to keep giving the best education we can provide to the nursing students and continue having a successful NCLEX pass rates. Our Simulation Lab have been instrumental in the students learning also. We plan to keep improving our Simulation to encourage stronger critical thinking. A LVN-RN Bridge program is a future goal that we are working hard to provide for our community. Being a RN in the community, I see the need of nurses- LVN and RN. I am happy to be part of the team who is helping bridge the gap and provide our community with the most evidence based practice education and skilled nurses. I feel excited when a past nursing student is providing my family and me medical care. I know they are in good hands and that's how I know we are doing it right!

Dr. Albertson finished by advising that once we are able, we will have a party for all of our new tenured faculty.

Action: 7.03 Instructional Program Review (IPR) - Nursing/Allied Health/EMT

Dr. Albertson advised that this is one of the most phenomenal IPR's he has ever seen. It has been very well done and have done a phenomenal job in telling their story.

Motion by David Trussell, second by Louis Hamilton

Final Resolution: Motion carries.

Ayes: Kim Dieter, Louis Hamilton, Sandra Jonas, Buck Parks, David Trussell, Sophia Wages

Noes: None

Absent: None

Action: 7.04 Instructional Program Review (IPR) – Fire Technology

Dr. Albertson stated it is great not only to have the IPR here and done, but they did such a nice job writing it. They have students graduating and getting jobs. Dr. Albertson added that Anna Pasqua was very helpful in getting this IPR done, and he would like to recognize her work.

Motion by Louis Hamilton, second by Buck Parks

Final Resolution: Motion carries.

Ayes: Kim Dieter, Louis Hamilton, Sandra Jonas, Buck Parks, David Trussell, Sophia Wages

Noes: None

Absent: None

Action: 7.05 Approval of Provisional Appointment for Board of Trustees - Area 1

Dr. Trevor Albertson, Interim Superintendent/President advised he would like to offer some remarks before we launch into this. Dr. Albertson advised that following up from the April 8th Special Meeting, he was questioned by Trustee Jonas that in case of a tie, what do we do? Dr. Albertson advised he discussed this with legal counsel, and pursuant to Title 5 in case of a tie, we go to an election. What happens if tonight the board provisionally selects someone, tomorrow April 14, the notice for the provisional appointment would be made and would end on 5/13. On May 11 we would swear this provisional trustee in. This would give this trustee time to learn the rules and get some board training. The Community College of California may offer board training on 5/4 and 5/5. Dr. Albertson continued and stated that the Board has before it tonight to appoint someone or send to a special election. The rest of the process is administrative.

President Wages asked if they could check to see if either of the two candidates are online? David Corley, Director of Technology and Research advised that he is able to see that Becky Hubbard is on and a phone number believed to be Cort Cortez. President Wages inquired if they could hear her? President Wages stated that before we make a final decision by vote, I would like to take this opportunity to thank each of you for coming forward to represent the Students that are attending our College now and in the future as a potential Trustee. Your commitment to serve on this Board is recognized and we appreciate your willingness to represent your Trustee Area and your community. As you will know Trustees will disagree from time to time, and when the final vote is taken, the majority rules and the Trustees are committed to upholding that decision, should you personally disagree. This is stressed in our Board Policy and by the Community College League. As Trustees, we are here to support the Students first, implement policy and procedure and ensure the financial stability of this institution and to support the President/Superintendent with their goals and recommendations to grow our institution while partnering with state and federal agencies, including the CC League, Accrediting Commission, Chancellor's Office, and local businesses within our service area, along with

our citizens of Lassen County. I know you both take this position very seriously, and we appreciate you coming forward.

President Wages asked the Trustees if anybody on the Board has one final question to ask of each candidate? This would be the time and then discuss as well. None of the Trustees had an additional question for the candidates. President Wages stated that she has a question for Mr. Hubbard and asked Mr. Corley to unmute the line. Mr. Hubbard's wife came on and advised that he is in a school board meeting tonight. President Wages stated that her question would have been to him if he would have any problem with him attending the meetings and a conflict with him attending the high school board meeting and our board meeting at the same time. President Wages asked the Trustees if they wished to have discussion or would prefer to go ahead and have a vote? Trustee Jonas advised she was ready for a vote.

Dr. Albertson advised that someone would need to call for a motion and a second and then a roll call vote would be completed. The vote was recorded three different ways:

Each Trustee called out the name of the applicant for their vote:

Trustee Sandra Jonas: Cort Cortez
Trustee David Trussell: BJ Hubbard
Trustee Buck Parks: BJ Hubbard
Trustee Kim Dieter: Cort Cortez
Trustee Louis Hamilton: BJ Hubbard
Trustee Sophia Wages: Cort Cortez

Motion by Kim Dieter for Applicant Cort Cortez, second by Sandra Jonas

Final Resolution: Motion fails.

Ayes: Kim Dieter, Sandra Jonas, Sophia Wages

Noes: Louis Hamilton, Buck Parks, David Trussell

Absent: None

Motion by David Trussell for Applicant BJ Hubbard, second by Buck Parks

Final Resolution: Motion fails.

Ayes: Louis Hamilton, Buck Parks, David Trussell

Noes: Kim Dieter, Sandra Jonas, Sophia Wages

Absent: None

Dr. Albertson advised that since the motions have failed by half they are required to proceed to a special election.

Information: 7.06 COVID Update

Dr. Albertson reported that we are getting ready to move into Phase 2 and start a slow reopening process. This will change who can and cannot be on campus. Masks will remain on campus as well as thermometers that you walk up to that takes your temperature and immediately tells you if it is normal or not. Dr. Albertson stated that we will continue to record who will be coming into buildings. It is still the goal of this institution to reopen by fall and have students in the dorm. President Wages stated she has heard we are in the red zone and our numbers are so low, the mask thing is not as much an issue, but still wearing them to protect those that may be susceptible. Dr. Albertson advised that our rate is so low, two people could throw off the rate in the county. Dr. Albertson stated he does not want this institution to throw off the numbers. The more people we have socially distance, and wear masks, the better. Trustee Hamilton inquired about sports and how is it working with testing and are they being tested before games? Dr. Albertson advised that they had results that were held up before the game in Shasta so they pushed back the game. Dr. Albertson reported it was with Virus Geeks, the testing company, and not our problem. Trustee Parks asked if we are keeping track of the numbers of testing procedures and what it is costing the institution? We have baseball up and running at this time. Trustee Parks asked what else is required for testing? Dr. Albertson advised that for rodeo through NIRA, rodeo students are not required to test. CCCAA requires testing for the other sports. We are testing those applicants for rodeo still, which makes sense because they are interacting with folks off campus who may or may not be following the same protocols. Our students have been doing a great job: rodeo, baseball, all have been doing a phenomenal job. Dr. Albertson advised that Coach has a tight ship. Trustee Parks asked about the numbers for testing and if it will start pulling budget dollars? Dr. Albertson reported that he can get the numbers and text or send them to you or provide them for the next meeting. Trustee Parks stated he was

just wondering if there are any budget shortfalls? Dr. Albertson advised that we received Cares Act funds to pay for this, so we do not have to pull from Fund 11. There is off set money available. In the end we will spend \$5,000-\$10,000 for this. Trustee Trussell inquired about the face-to-face classes, and if we will be following really stringent requirements for masking, temperature check, etc? Dr. Albertson reported that Randy Joslin, our VP for Administrative Services, has a 6' pole and every time we need to prepare a room, he walks around and measures. We are currently waiting to hear from the State whether they will be downsizing from 6' to 3'. Trustee Trussell stated he has a concern about the Fire Technology students getting into shelters for the fire classes. How do we sanitize in between? What are our plans to handle this? Dr. Albertson advised they are taking every measure to make sure those students are safe. We could require for those students to be tested. Trustee Trussell stated he would like to see the shelters disinfected in between uses.

Information: 7.07 District Budget Update

Dr. Albertson reported that the college just received \$963,000 total in relief funding including the original \$167,000 from the Cares Act, so nearly a million dollars split between Fund 11 and 12 availability. There are some creative ways to offset Fund 12, and general availability of Fund 11 dollars. This will be a huge win for this college with \$450,000 in general fund dollars. We still have to off set the expenditures for CoVid. We have to hire XYZ for CoVid, and we can offset from this for CoVid. Dr. Albertson advised he has yet to see the Federal government deny something.

Dr. Albertson further advised that we finished the TRAN with the highest in rating. Kudos to the staff.

Information: 7.08 Accreditation Update

Dr. Albertson advised that in Mr. Runyan's remarks, the Tri Chairs are doing honest work. Without the Tri Chairs and everybody that has contributed to this, we would not be an institution. In a conversation he recently had with Ms. Toni Sommers, our Consultant, she has been amazed at what they have done. Toni stated she feels we have a very good chance of not being continued on sanctions, but could be brought off in one fell swoop. We are not going to get into worse sanctions, but they could remove us and ask us to remove a few things in a follow-up report.

8. Information Items

Information, Procedural: 8.01 Calendar of Events

President Wages referred those present to the Events tab on the website.

9. Future Dates and Reports

Information: 9.01 Future Dates and Reports

April 27, 2021	Retreat Meeting	Board Room	12:00 p.m.
May 13, 2021	Regular Meeting	Board Room	5:30 p.m.
June 8, 2021	Regular Meeting	Board Room	5:30 p.m.

President Wages reminded the Trustees that if you have anything of particular interest for the Retreat meeting, to let her or Trevor know. President Wages advised that she does have some topics already submitted. Trustee Jonas inquired about Graduation and was advised by Dr. Albertson that Graduation is May 28th and will be in person for the graduates. The plan is to do it outside and we will have a back up plan for weather. Trustees will be present but they are still working out all the details. Dr. Albertson advised he thinks it would be good for the trustees to be on stage masked up. We can ask family members to log in and view online as we can only do a certain percentage of occupancy. Trustee Trussell asked if we can give students any kind of reception afterwards? Dr. Albertson advised that he believes Brady had a meeting yesterday. President Wages asked if graduates would be tested and if they were tested, could we have a reception? Dr. Albertson advised that the concern is getting everyone in that close proximity with mask off to eat something. There is a possibility we could set up tables and bring to the tables. Have cake pre-cut and in containers.

10. Public Comment on Closed Session Agenda Items

Procedural: 10.01 Public Comment on Closed Session Agenda Items

None

11. Adjourn to Closed SessionProcedural: 11.01 Adjourn to Closed Session

The Board of Trustees of the Lassen Community College District will adjourn to closed session under authority of Government Code Section 54962 to conduct the following business:

It was moved by Trustee Parks, seconded by Trustee Hamilton and carried unanimously to go into CLOSED SESSION at 6:40 p.m.

12. Closed SessionAction, Information: 12.01 Employee Discipline/Dismissal/Release (One Matter)

With respect to every item of business to be discussed in closed session pursuant to Government Code Section 54957(b):

PUBLIC EMPLOYEE DISCIPLINE/DISMISSAL/RELEASE

One Matter

Action Taken by the Board: No Reportable Action

Action, Discussion, Information: 12.02 Conference with Labor Negotiators (Three Matters)

1. *With respect to every item of business to be discussed in closed session pursuant to Government Code Section 54957.6:*

CONFERENCE WITH LABOR NEGOTIATORS

Agency Designated Representative: Dr. Trevor Albertson, Interim Superintendent/President

Employee Organization: LCFA

Action Taken by the Board: No Reportable Action

2. *With respect to every item of business to be discussed in closed session pursuant to Government Code Section 54957.6:*

CONFERENCE WITH LABOR NEGOTIATORS

Student Conduct & Rights

Student Rights, Privileges, and Expectations

The Board of Trustees recognizes that as citizens of the Lassen Community College District, students are free, individually and collectively, to express their interest. Students of the College are afforded certain rights and privileges, in addition to the freedom to learn. However, these privileges carry with them an obligation to respect the rights and privileges of others, as well as an obligation to abide by rules and regulations set by the College, its various agencies, and its agents.

Academic Honesty

Student integrity is an expectation as well as an essential part of success at Lassen College. Students should strive to maintain high ethical standards in their scholarship, as members of the campus community, and in their personal lives. It is critical that students understand this responsibility and that they act with integrity in all their intellectual pursuits. The responsibility to act in an ethical manner is fundamental in the search for knowledge and failure to maintain high ethical standards may result in disciplinary.

Student Conduct and Rights

The Lassen Community College District believes that each student has an earnest purpose and that students will adhere to acceptable standards of personal conduct. In the development of responsible student conduct, disciplinary proceedings play a role substantially secondary to example, counseling, and admonition. In the exceptional circumstances, when these preferred means fail to produce student acceptance of responsibility commensurate with student freedom,

due process shall be observed to protect the student from the unfair and arbitrary imposition of serious penalties. The College has developed procedures for protecting student rights. The rights protected under these procedures include, but are not limited to, those guaranteed by the established rules and regulations of the Lassen Community College District, the Education Code of the State of California, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973. The Superintendent/President is authorized to suspend any student for good cause for an indefinite period of time as prescribed by code. Inquiries regarding student conduct, rights, and discipline procedures should be directed to the Vice President for Student Services. Phone: (530) 257-6181 x8970 Location: Main Campus – Creative Arts (CA), Room 209.

Grounds for Disciplinary Action

The following categories of behavior constitute good and sufficient cause for disciplinary action. Inappropriate behavior includes, but is not limited to, the following categories:

Dishonesty This includes cheating, plagiarism, or knowingly furnishing false information to the College.

Cheating This is the willful and intentional fraud and deception for the purpose of improving a grade or obtaining course credit, and includes all behavior by a student which is intended to gain unearned academic advantage by fraudulent and/or deceptive means. If charges are brought and proved, the consequences are severe, ranging from failure in an individual course to long-term suspension from the College.

Forgery This includes altering or issuing College documents, records, or identification.

Obstruction/Disruption This includes obstruction or disruption of teaching, research, computing services, administration, disciplinary procedures, or other College activities, including its public service functions and other College-authorized activities.

Physical Abuse This includes the physical abuse of any person on College-owned or controlled property or at College-sponsored or supervised functions, or conduct which threatens or endangers the health of any such person.

Property Theft/Damage This includes printed or software materials of the College, a member of the College community, or a campus visitor.

Policy/Regulation Violations This includes violation of College policies or campus regulations, including regulations concerning the registration of student organizations, the use of College facilities, or the time, place, and manner of public expression.

Alcohol and/or Narcotics This includes the use, possession, sale, or distribution of narcotics or other restricted drugs and alcoholic beverages on campus or at College-sponsored activities.

Discrimination This includes discrimination due to race, color, creed, sexual orientation, age, physical or mental disability, veteran status, political affiliations, ancestry, religion, national origin, marital status, or any other protected characteristic.

Harassment This includes harassment of a student or employee and sexual harassment.

Student Disciplinary Action

As defined in Board Policy 5500 (<http://go.boarddocs.com/ca/lccca/Board.nsf/goto?open&id=8SCTCN76BC2E>), the Superintendent/President shall establish procedures for the imposition of discipline on students in accordance with the requirements for due process of the federal and state law and regulations. The purpose of Board Policy 5500 (<http://go.boarddocs.com/ca/lccca/Board.nsf/goto?open&id=8SCTCN76BC2E>) is to define conduct that constitutes good cause for discipline, including but not limited to the removal, suspension, or expulsion of a student. The purpose of Administrative Procedure 5520 (<http://go.boarddocs.com/ca/lccca/Board.nsf/goto?open&id=8UEQT86AD12C>) is to provide a prompt and equitable means to address violations of the Standards of Student Conduct. Board Policy 5500 (<http://go.boarddocs.com/ca/lccca/Board.nsf/goto?open&id=8SCTCN76BC2E>) and Administrative Procedure 5520 (<http://go.boarddocs.com/ca/lccca/Board.nsf/goto?open&id=8UEQT86AD12C>) provide definitions of misconduct, definitions of disciplinary sanctions, and outlines the disciplinary hearing procedure. Disciplinary action involving students is primarily the responsibility of the Vice President for Student Services. Inquiries regarding student conduct, rights, and discipline procedures should be directed to the Vice President for Student Services. Phone: (530) 257-6181 x8970 Location: Main Campus – Creative Arts (CA), Room 209.

Student Conduct, Complaint and Grievance Procedures

Grievance or complaint action may be initiated by a student against another student, an instructor, or administrator, or any other District employee, and the College may initiate a grievance against a student. The following list indicates acts that are grounds for grievance: a) Violation of student rights; b) Act or threat of intimidation or harassment by a District employee or by a student; and c) Act or threat of physical aggression by a District employee or by a student.

- View Administrative Procedure 5530 (https://mylassen.lassencollege.edu/_layouts/15/Ellucian/SSO/ColleagueUI.aspx?showUI=true<http://go.boarddocs.com/ca/lccca/Board.nsf/goto?open&id=8STTY7799BAE>), Student Rights and Grievances, for complaints or grievances involving a violation of student rights.
- View Administrative Procedure 3410 (<http://go.boarddocs.com/ca/lccca/Board.nsf/goto?open&id=8SRVY782FB54>), Nondiscrimination, for complaints or grievances involving discrimination or harassment on the basis of any protected class.

Contact the Vice President for Student Services Office for assistance with grievances or complaints applicable to the grounds for grievance as listed above in (a), (b), or (c) that do not fall under Administrative Procedures 5530 or 3400. Phone: (530) 257-6181 x8970 Location: Main Campus – Creative Arts (CA), Room 209.

Student Complaints Regarding an Instructor

Students should attempt to work out a resolution with their instructors first. Student complaints regarding a faculty member should be referred to the Dean of Instruction in the Academic Services Office. If you are challenging your grade in a class, please see Grade Changes, Academic Grievances and Appeals in the catalog. If the complaint is regarding accommodations for a disability, please contact the Disabled Students Programs and Services Office, Phone: (530) 251-8867 Creative Arts (CA), Room 208.

Hazing Policy

Participation in any kind of hazing is a misdemeanor. Hazing is defined as "Any method of initiation into a student organization or any pastime or amusement engaged in with respect to such an organization which causes, or is likely to cause, bodily danger of physical harm to any student or other person attending the College."

Substance Abuse Policy

In accordance with Public Law 101-226, "Drug Free Schools and Communities Act Amendment of 1989", the Board of Trustees of the Lassen Community College District prohibits the unlawful possession, use, or distribution of illicit drugs and alcohol by students or employees on Lassen College property and as part of any Lassen College sponsored or sanctioned activity. Any student or employee who is in violation of this policy is subject to disciplinary action up to, and including, expulsion from Lassen College or termination of employment for violations of the standards of conduct. The decision to take disciplinary action in any instance rests with the Superintendent/President of Butte College. The possession, use, and sale of alcoholic beverages by anyone on Lassen College-controlled property is a misdemeanor as per California Business Code 25608 (community college) and a violation of the Standards of Student Conduct. The use, sale or possession of any illegal drug is a violation of state law and any person found in violation may be subject to arrest by federal, state, local, or campus law enforcement authorities. Criminal prosecution is separate from any administrative discipline that may be imposed by the District.

Disciplinary Actions

Use, possession or distribution of narcotics or other restricted drugs and alcoholic beverages on campus is subject to disciplinary actions.

Legal Sanctions

Drug or alcohol abuse on campus or at college-sponsored functions could result in suspension, expulsion, or criminal prosecution. Students should be aware of these penalties. Possession or use of alcohol: one year in jail and/or fine. Possession or use of alcohol by minor: one year in jail and/or fine. Possession of marijuana -- less than 1 oz: a fine; -- more than 1 oz: county jail and/or fine. Possession of cocaine: imprisonment for one year.

Sale of any illegal drug: imprisonment in a state prison.

Students are required to report any convictions within five days of the occurrence. If students are a student employee, their employment may be terminated. Students will be ineligible for financial aid.

HUMAN RESOURCES

Lassen College (/Pages/Home.aspx) » About LCC (/about/Pages/default.aspx) » Human Resources (/about/human-resources/Pages/default.aspx) » Title IX

Title IX

What Is Title IX?

Title IX of the Education Amendments of 1972 is a federal civil rights law that prohibits sex discrimination on the basis of sex in education programs, including athletic programs, or activities that receive federal funding.

"No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving federal financial assistance."

Your Rights Under Title IX

Education Code Section 221.8

1. You have the right to fair and equitable treatment and you shall not be discriminated against based on your sex.
2. You have the right to be provided with an equitable opportunity to participate in all academic extracurricular activities, including athletics.
3. You have the right to inquire of the athletic director of your school as to the athletic opportunities offered by the school.
4. You have the right to apply for athletic scholarships.
5. You have the right to receive equitable treatment and benefits in the provision of all of the following:
 - Equipment and supplies.
 - Scheduling of games and practices.
 - Transportation and daily allowances.
 - Access to tutoring.
 - Locker rooms.

- Practice and competitive facilities.
 - Medical and training facilities and services.
 - Publicity
1. You have the right to have access to a gender equity coordinator to answer questions regarding gender equity laws.
 2. You have the right to contact the State Department of Education and the California Interscholastic Federation to access information on gender equity laws.
 3. You have the right to file a confidential discrimination complaint with the United States Office of Civil Rights or the State Department of Education if you believe you have been discriminated against or if you believe you have received unequal treatment on the basis of your sex.
 4. You have the right to pursue civil remedies if you have been discriminated against.
 5. You have the right to be protected against retaliation if you file a discrimination complaint.

For more information on your rights under Title IX please visit the following websites:

California Department of Education Office for Civil Rights (<http://www.cde.ca.gov/re/di/eo/>)

United States Department of Education Office for Civil Rights
(<https://www2.ed.gov/about/offices/list/ocr/index.html>)

What is Sexual Misconduct?

Sexual Misconduct is defined as unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical contact of a sexual nature. Sexual Misconduct is conduct that explicitly or implicitly affects a person's employment or education or interferes with a person's work or educational performance or creates an environment such that a reasonable person would find the conduct intimidating, hostile, or offensive.

Sexual Misconduct may include incidents between any members of the District community, including faculty, staff, students, student employees, volunteers, and non-student or non-employee participants in District programs. Sexual harassment may occur in hierarchical relationships, between peers or between individuals of the same sex.

Some examples of harassing behavior include, but are not limited to:

- Insults, name-calling, and offensive jokes;
- Intimidating words or actions;
- Unwelcome or inappropriate touching;
- Sexually suggestive remarks or gestures;
- Unsolicited pornographic materials;
- Obscene messages (via text or computer);
- Pressure for sexual activity or a date; and

- Sexual assault and rape.

Filing a Complaint / Reporting an Incident

The College has a strong interest in supporting victims and survivors of sexual harassment, sexual violence, stalking and intimate partner violence and encourages all individuals or third party witnesses to report any incident to the College.

Making a report means telling someone in authority what happened -- in person, by telephone, in writing or by email. At the time a report is made, a Complainant does not have to decide whether or not to request any particular course of action, nor does a Complainant need to know how to label what happened. Choosing to make a report, and deciding how to proceed after making the report, can be a process that unfolds over time. The College provides support that can assist each individual in making these important decisions, and to the extent legally possible will respect an individual's autonomy in deciding how to proceed. In this process, the College will balance the individual's interest with its obligation to provide a safe and non-discriminatory environment for all members of the College community.

Any individual who reports sexual harassment, sexual violence, stalking or intimate partner violence can be assured that all reports will be investigated and resolved in a fair and impartial manner. A Complainant, a Respondent and all individuals involved can expect to be treated with dignity and respect. In every report under this policy, the College will make an immediate assessment of any risk of harm to the Complainant or to the broader campus community and will take steps necessary to address those risks. These steps will include interim measures to provide for the safety of the individual and the campus community.

Complainants and third-party witnesses are encouraged to report sexual harassment, sexual violence and intimate partner violence as soon as possible in order to maximize the College's ability to respond promptly and effectively. The College does not, however, limit the time frame for reporting. If the Respondent is not a member of the Shasta community, the College will still seek to meet its Title IX obligation by taking steps to end the harassment, prevent its recurrence, and address its effects, but its ability to take disciplinary action against the Respondent may be limited.

An incident does not have to occur on campus to be reported to the College. Off-campus conduct that is likely to have a substantial effect on the Complainant's on-campus life and activities or poses a threat or danger to members of the Shasta community may also be addressed under this policy.

To file a Title IX complaint/report online, use this link: Title IX Reporting Form
(https://cm.maxient.com/reportingform.php?LassenCC&layout_id=0)

Yes Means Yes: Consent Law

Title IX: Sexual Harassment and Assault

Yes Means Yes Together we can make sure that when sex happens it is a positive experience for everyone involved. This positive experience is based upon consent, mutual agreement by both parties involved to every action that occurs along the way. Consent means both of you are ready and willing to share that moment and that both of you have control over what that moment will be like. In other words, both people have to say "Yes" and to continue to say "Yes" as the interactions continue—this is what healthy intimacy is all about!

How Do I Know If It's a Yes?

While someone might not always verbally say "Yes" to sex, there are some basic guidelines to follow to make sure both parties consent:

- Consent is informed. It's something you decide to do, not just let happen. It's okay to talk about what you're feeling and what you want to do—that's how you'll know that you both agree on moving forward.
- Consent is voluntary. It's never okay to force someone to have sex, including threatening, intimidating, or pressuring them.
- Consent can be taken back. Just because someone agrees to one form of sexual activity doesn't mean she or he is willing to do other forms of sexual activity. Positive sexual activities require both persons to check in with each other along the way and to make sure each new step is okay. It's also okay for someone to change his or her mind and not want to continue a certain form of sexual activity.
- Consent is aware. A person can't consent to sex when she or he is incapacitated, such as being drunk, under the influence of drugs, sleeping, or affected by a physical or mental impairment that makes them unable to decide to consent.
- Silence does not mean Yes.

Consent Law

In 2014, The State of California enacted Senate Bill 967 setting the standard of affirmative consent for all colleges and universities. Affirmative consent means "affirmative, conscious, and voluntary agreement to engage in sexual activity" and is "the responsibility of each person involved in the sexual activity to ensure that he or she has the affirmative consent of the other or others to engage in the sexual activity." To learn more about this law, click [here](https://leginfo.legislature.ca.gov/faces/billNavClient.xhtml?bill_id=201320140SB967) (https://leginfo.legislature.ca.gov/faces/billNavClient.xhtml?bill_id=201320140SB967).

LASSEN COMMUNITY COLLEGE CORRESPONDENCE DEPARTMENT

TO: LCC INCARCERATED STUDENTS
FROM: LCC CORRESPONDENCE
SUBJECT: Grade Changes, Academic Grievances and Appeals

Grade Changes, Academic Grievances and Appeals

Education Code, Title 3, Section 76224, states in the absence of mistake, fraud, incompetence or bad faith, the determination of a student's grades by an instructor shall be final once they have been filed with the Admissions and Records Office. If the presence of mistake, fraud, bad faith or incompetence is determined, the Vice President of Academic Services may delete the grade from the transcript.

Students are responsible for maintaining standards of academic performance established for each course in which they are enrolled. Situations creating concern should first be discussed directly with the instructor. If this action does not produce adequate clarification of the issue and a satisfactory resolution, a student may process an appeal. The Vice President of Academic Services will administer the appeal process.

Please follow Step 1 or Step 2 to challenge a grade after receiving your official transcript copy.

Step 1

- Contact your Institution College Coordinator and ask them to email the LCC Correspondence Coordinator regarding your grade issue.
- Include your Name, CDCR #, LCC ID #, Semester, Class and Instructor.
- Attach documentation for the Instructor if needed.

Or Step 2

- Write a letter to the Instructor and include your LCC ID#, the semester & class for the grade you are challenging and mail to the LCC Correspondence Department. Provide any documents to support your grade in question.

Thank you
Lassen Community College
Correspondence Office

Correspondence

Face to Face Semester (circle one):

Fall
Spring
Summer: _____
Year

Student Inquiry Form

Incarcerated Student Education Program

This form is for all Student Requests for Information that are beyond specific course material in face-to-face classes.

You must be a registered student with Lassen Community College to use this form.

Student Name: _____ Student ID: _____

Prison/Yard: _____ Housing Unit: _____

Date Submitted: _____

Follow these steps, then submit the form to the college coordinator or LCC inbox.
(Incomplete forms will be denied):

1. Completely fill out this form.
2. Clearly indicate (by checking the appropriate box) which area your question is directed. If it covers more than one area, check the box with the most pressing issue.
3. Please be patient for a response.

NOTE: Do not submit this form for registration sign up or to drop a class

Please check a box below and explain the reason for your inquiry here (additional room on the back of this form):

Request an Educational Advising "Ed Plan", including transcript evaluation. Attach any relevant forms or information, i.e. transcripts and list previous colleges attended: _____

Transcript request or question regarding transcripts received, including transcript evaluation

Petition to graduate form needed. List semester intending to graduate:

Request for missing grade or grade dispute (Class Name and Semester): _____

I would like to continue with LCC (online or on campus) upon release - Date if within 6 months: _____

Other, please write in your request using the box above

Lassen Community College District Strategic Plan

Recommendation for revisions by Consultation Council – October 12, 2020

Approved by Board of Trustees – December 15, 2020

Vision

❖ Lassen College will be a highly efficient self-sustaining rural community college, a catalyst for the region's image, economy, and human capital, and an example of a "we can" culture" of collective impact by being:

- The academic leader by ensuring quality instruction and encouraging student success
- The educational leader by expanding outreach and student access with an equity mindset
- The trusted steward by providing capable leadership and accountability
- The economic and workforce development leader for the community
- The cultural leader in the community
- The civic and social leader in the community

Mission

Lassen Community College provides educational programs for all pursuing higher education goals. The core programs offer a wide range of educational opportunities including transfer degrees and certificates, economic and workforce development, and basic skills instruction. The College serves diverse students, both on campus and in outreach areas in its effort to build intellectual growth, human perspective and economic potential.

Strategic Goals

1. **Institutional Effectiveness:** Provide the governance, leadership, integrated planning and accountability structures, and processes to effectively support an inclusive learning environment, while ensuring responsible stewardship of public trust and resources.
2. **Learning Opportunities:** Provide an array of rigorous academic programs delivered via a variety of modalities that promote student equity and learning while meeting the needs of the local and global community.
3. **Resource Management:** Manage human, physical, technological and financial resources to sustain fiscal stability and to effectively support the learning environment.
4. **Student Success:** Provide a college environment that reaches-out-to and supports students, minimizes barriers, and increases opportunity and success through access and retention to enable student attainment of educational goals including completion of degrees and certificates, transfer, job placement and advancement, improvement of basic skills, and self-development through lifelong learning.

Institutional Student Learning Outcomes

1. **Communication** - Ability to listen and read with comprehension and the ability to write and speak effectively
2. **Critical Thinking** - Ability to analyze a situation, identify and research a problem, propose a solution or desired outcome, implement a plan to address the problem, evaluate progress and adjust the plan as appropriate to arrive at the solution or desired outcome
3. **Life Long Learning** - Ability to engage in independent acquisition of knowledge; ability to access information including use of current technology; ability to use the internet and/or library to access and analyze information for relevance and accuracy; ability to navigate systems
4. **Personal/Interpersonal Responsibility** - Ability to develop and apply strategies to set realistic goals for personal, educational, career, and community development; ability to apply standards of personal and professional integrity; ability to cooperate with others in a collaborative environment for accomplishment of goals; ability to interact successfully with other cultures

Lassen College Values:

Student Success:

- Students reaching their goals
- Students being prepared for transfer to four-year institutions
- Students being prepared for employment
- Doing what is best for students
- Learning as a priority over teaching
- Student needs; they are paramount in the learning process
- Recognizing and minimizing barriers to student success

Educational Excellence:

- Equitable student learning as the focal point of every experience
- High quality educational delivery
- Highly qualified instructors
- High quality technology and materials
- Well-equipped classrooms

Honesty/Integrity:

- Trust in relationships
- Dependability
- Transparency
- Collaboration
- Sustainability
- Accountability

Dignity & Respect:

- Open forum for exchange of ideas
- Civility
- Collegiality
- Diversity & Equity
- Active listening and communication

Institution Set Standards

These Institution-Set Standards for Lassen Community College are applicable across the entire institution, as mandated by the Higher Education Act and applicable accreditation standards. This document provides insight on the associated data elements and methodology used to determine goals for these standards.

Baseline and Stretch goals were derived for ISS #1 through #5 using longitudinal analysis to determine overall and rolling averages (of three and five years), over a study period of at least ten years, Baseline and Stretch goals are derived for ISS #6 using longitudinal data and historical precedence, and for ISS #7 using state-mandated goals under Perkins Core IV reporting, as noted below. All goals resulting from analysis are then reviewed and discussed through shared governance processes prior to final approval and implementation, with the dates of these approvals being annotated at the end of this document.

ISS #1: Completion Rate

The completion rate attainment strategy utilized the Chancellor's Office definition of completion as students receiving a grade of A, B, C, CR, or Pass. The data was gathered from the LCC Datatel database.

Baseline Goal = **71.20%**; Stretch Goal = **73.48%**

ISS #2: Fall-to-Fall Retention Rate

The fall-to-fall retention rate attainment focused on first-time degree seeking students and followed term to term persistence from fall to fall. The data was gathered from the LCC Datatel database.

Baseline Goal = **28.82%**; Stretch Goal = **30.75%**

ISS #3: Number of Degrees Awarded

The certificates attainment strategy followed the Chancellor's Office reporting on degrees awarded for academic years. The data was gathered from the LCC Datatel database.

Baseline Goal = **214**; Stretch Goal = **261**

ISS #4: Number of Certificates Awarded

The certificates attainment strategy followed the Chancellor's Office reporting on certificates awarded for academic years. The data was gathered from the LCC Datatel database.

Baseline Goal = **134**; Stretch Goal = **144**

ISS #5: Four-Year Transfer Rate

The four-year transfer attainment strategy utilized the Chancellors transfer pathways tool and Student Centered Funding Formula (SCFF) 'Exhibit C' reports to report transfers to four-year California state schools by fiscal year.

Baseline Goal = **55**; Stretch Goal = **64**

ISS #6: Licensure Pass Rate

The institution set standards were developed based on the longitudinal data and historical precedence for licensure exams for the following program(s).

Vocational Nursing Baseline Goal = **85.00%** Pass Rate; Stretch Goal = **90.00%** Pass Rate

ISS #7: Job Placement Rates

The Baseline Employment Performance Goal for all programs listed below is **61.47%** and the Stretch Goal is **66.09%**, based on the standards published in the Perkins IV Performance Trend Reports for the most recent two years. This CTE Perkins VI core indicators (Core IV - Employment) data can be accessed at: https://misweb.cccco.edu/perkins/Core_Indicator_Reports/Summ_coreIndi_TOPCode.aspx.

Administrative of Justice

- Associate in Science Degree in Administration of Justice for Transfer
- Associate in Art Degree Administration of Justice
- Certificate of Achievement in Administration of Justice
- Certificate of Accomplishment in Administration of Justice

Agriculture

- Associate in Arts Degree University Studies: Emphasis in Agriculture Sciences (transfer)
- Associate in Science in Agriculture Animal Science for Transfer (transfer)
- Associate in Science in Agriculture Business for Transfer (transfer)
- Associate in Science Degree in Agriculture Science and Technology
- Certificate of Achievement in Agriculture Science and Technology
- Certificate of Accomplishment in Animal Science
- Certificate of Accomplishment in Horsemanship
- Certificate of Accomplishment in Agriculture Business
- Certificate of Accomplishment Agriculture Irrigation

Allied Health/Nursing

- Associate in Arts Degree University Studies: Emphasis in Allied Health
- Associate in Science Degree in Vocational Nursing
- Certificate of Achievement in Vocational Nursing
- Certificate of Achievement in Medical Assisting
- Certificate of Accomplishment in Administrative Medical Assisting
- Certificate of Accomplishment in Clinical Medical Assisting

Automotive Technology

- Associate in Science Degree in Automotive Technology
- Certificate of Achievement in Engine Repair
- Certificate of Achievement in Advanced Mechanics
- Certificate of Accomplishment Basic Mechanics
- Certificate of Accomplishment in Electrical
- Certificate of Completion in Automotive Chassis and Maintenance (non-credit)

Business

- Associate in Science Degree in Business Administration for Transfer (transfer)
- Associate in Arts Degree in Economics for Transfer (transfer)
- Certificate of Achievement Administrative Office Technician
- Certificate of Achievement in Geographic Information Systems
- Certificate of Completion IT Support Specialist (non-credit)

Child Development

- Associate in Science Degree in Early Childhood Education for Transfer (transfer)
- Associate in Arts Degree in Child Development
- Certificate of Achievement in Child Development
- Certificate of Accomplishment of Child Development-Associate Teacher

Fire Technology

- Associate in Science Degree in Fire Technology
- Certificate of Achievement in Fire Technology
- Certificate of Achievement Basic Wildland Firefighter
- Certificate of Accomplishment in Fire Technology

Gunsmithing

- Associate in Science Degree in Firearms Repair
- Associate in Science Degree in General Gunsmithing
- Certificate of Achievement in Firearms Repair
- Certificate of Achievement in General Gunsmithing
- Certificate of Accomplishment in Gunsmith Machinist and Metal Finishing
- Certificate of Accomplishment in Long Guns
- Certificate of Accomplishment in Pistolsmith
- Certificate of Accomplishment in Riflesmith

Welding Technology

- Associate in Science Degree in Welding Technology
- Two-Year Certificate of Achievement in Welding Technology
- One-Year Certificate of Achievement in Welding Technology
- Certificate of Accomplishment in Welding Technology

Institution Set Standards

These Institution-Set Standards for Lassen Community College are applicable across the entire institution, as mandated by the Higher Education Act and applicable accreditation standards. This document provides insight on the associated data elements and methodology used to determine goals for these standards.

Baseline and Stretch goals were derived for ISS #1 through #5 using longitudinal analysis to determine overall and rolling averages (of three and five years), over a study period of at least ten years, Baseline and Stretch goals are derived for ISS #6 using longitudinal data and historical precedence, and for ISS #7 using state-mandated goals under Perkins Core IV reporting, as noted below. All goals resulting from analysis are then reviewed and discussed through shared governance processes prior to final approval and implementation, with the dates of these approvals being annotated at the end of this document.

ISS #1: Completion Rate

The completion rate attainment strategy utilized the Chancellor's Office definition of completion as students receiving a grade of A, B, C, CR, or Pass. The data was gathered from the LCC Datatel database.

Baseline Goal = **71.20%**; Stretch Goal = **73.48%**

ISS #2: Fall-to-Fall Retention Rate

The fall-to-fall retention rate attainment focused on first-time degree seeking students and followed term to term persistence from fall to fall. The data was gathered from the LCC Datatel database.

Baseline Goal = **28.82%**; Stretch Goal = **30.75%**

ISS #3: Number of Degrees Awarded

The certificates attainment strategy followed the Chancellor's Office reporting on certificates awarded for academic years. The data was gathered from the LCC Datatel database.

Baseline Goal = **214**; Stretch Goal = **261**

ISS #4: Number of Certificates Awarded

The certificates attainment strategy followed the Chancellor's Office reporting on certificates awarded for academic years. The data was gathered from the LCC Datatel database.

Baseline Goal = **134**; Stretch Goal = **144**

ISS #5: Four-Year Transfer Rate

The four-year transfer attainment strategy utilized the Chancellors transfer pathways tool and Student Centered Funding Formula (SCFF) 'Exhibit C' reports to report transfers to four-year California state schools by fiscal year.

Baseline Goal = **55**; Stretch Goal = **64**

ISS #6: Licensure Pass Rate

The institution set standards were developed based on the longitudinal data and historical precedence for licensure exams for the following program(s).

Vocational Nursing Baseline Goal = **85.00%** Pass Rate; Stretch Goal = **90.00%** Pass Rate

ISS #7: Job Placement Rates

The Baseline Employment Performance Goal for all programs listed below is **61.47%** and the Stretch Goal is **66.09%**, based on the standards published in the Perkins IV Performance Trend Reports for the most recent two years. This CTE Perkins VI core indicators (Core IV - Employment) data can be accessed at: https://misweb.cccco.edu/perkins/Core_Indicator_Reports/Summ_coreIndi_TOPCode.aspx.

Administrative of Justice

- Associate in Science Degree in Administration of Justice for Transfer
- Associate in Art Degree Administration of Justice
- Certificate of Achievement in Administration of Justice
- Certificate of Accomplishment in Administration of Justice

Agriculture

- Associate in Arts Degree University Studies: Emphasis in Agriculture Sciences (transfer)
- Associate in Science in Agriculture Animal Science for Transfer (transfer)
- Associate in Science in Agriculture Business for Transfer (transfer)
- Associate in Science Degree in Agriculture Science and Technology
- Certificate of Achievement in Agriculture Science and Technology
- Certificate of Accomplishment in Animal Science
- Certificate of Accomplishment in Horsemanship
- Certificate of Accomplishment in Agriculture Business
- Certificate of Accomplishment Agriculture Irrigation

Allied Health/Nursing

- Associate in Arts Degree University Studies: Emphasis in Allied Health
- Associate in Science Degree in Vocational Nursing
- Certificate of Achievement in Vocational Nursing
- Certificate of Achievement in Medical Assisting
- Certificate of Accomplishment in Administrative Medical Assisting
- Certificate of Accomplishment in Clinical Medical Assisting

Automotive Technology

- Associate in Science Degree in Automotive Technology
- Certificate of Achievement in Engine Repair
- Certificate of Achievement in Advanced Mechanics
- Certificate of Accomplishment Basic Mechanics
- Certificate of Accomplishment in Electrical
- Certificate of Completion in Automotive Chassis and Maintenance (non-credit)

Business

- Associate in Science Degree in Business Administration for Transfer (transfer)
- Associate in Arts Degree in Economics for Transfer (transfer)
- Certificate of Achievement Administrative Office Technician
- Certificate of Achievement in Geographic Information Systems
- Certificate of Completion IT Support Specialist (non-credit)

Child Development

- Associate in Science Degree in Early Childhood Education for Transfer (transfer)
- Associate in Arts Degree in Child Development
- Certificate of Achievement in Child Development
- Certificate of Accomplishment of Child Development-Associate Teacher

Fire Technology

- Associate in Science Degree in Fire Technology
- Certificate of Achievement in Fire Technology
- Certificate of Achievement Basic Wildland Firefighter
- Certificate of Accomplishment in Fire Technology

Gunsmithing

- Associate in Science Degree in Firearms Repair
- Associate in Science Degree in General Gunsmithing
- Certificate of Achievement in Firearms Repair
- Certificate of Achievement in General Gunsmithing
- Certificate of Accomplishment in Gunsmith Machinist and Metal Finishing
- Certificate of Accomplishment in Long Guns
- Certificate of Accomplishment in Pistolsmith
- Certificate of Accomplishment in Riflesmith

Welding Technology

- Associate in Science Degree in Welding Technology
- Two-Year Certificate of Achievement in Welding Technology
- One-Year Certificate of Achievement in Welding Technology
- Certificate of Accomplishment in Welding Technology

Approved by Academic Senate: (March 24, 2021)
Approved by Consultation Council: (April 12, 2021)
Approved by Governing Board: (May 11, 2021)

Lassen Community College District Policy

CCLC No. 2410

Board of Trustees

BP 2410 Board Policy and Administrative Procedure

References:

Education Code Section 70902;

ACCJC Accreditation Standard IV.B.1.b and e

The Board of Trustees may adopt such policies as are authorized by law or determined by the Board to be necessary for the efficient operation of the District. Board policies are intended to be statements of intent by the Board on a specific issue within its subject matter jurisdiction.

The policies have been written to be consistent with provisions of law, but do not encompass all laws relating to District activities. All District employees are expected to know of and observe all provisions of law pertinent to their job responsibilities.

Policies of the Board may be adopted, revised, added to, or amended at any regular Board meeting by a majority vote in accordance with AP 2410.

Administrative procedures are to be issued by the Superintendent/President as statements of method to be used in implementing Board Policy. Such administrative procedures shall be consistent with the intent of Board Policy. Administrative procedures may be revised as deemed necessary by the Superintendent/President.

The Superintendent/President shall provide each member of the Board with copies of the administrative procedures. The Board of Trustees reserves the right to direct revisions of the administrative procedures should they, in the Board's judgment, be inconsistent with the Board's own policies.

Copies of all policies and administrative procedures shall be readily available to District employees through the Lassen Community College website at www.lassencollege.edu and through the college's eGovernance system (BoardDocs) link on the front page of the website.

Academic Senate Meeting March 10, 2021 @ 3:00 p.m. Virtual Via Zoom

1. Call to Order at 3:01pm

1.01 Roll Call

Senators Present: Baker, Downing, Lin, Rupley, Runyan, Wisner

Guests: Carie Camacho, Lisa Gardiner, Sue Kelley, James Kleckner, Chad Lewis, Carrie Nyman, Alison Somerville

1.02 Approval of Agenda

(Rupley/Lin MSCU)

1.03 Approval of the Minutes for the 2/24/2021 meeting

(Rupley/Runyan MSCU)

2. Public Comment

None

3. Action

3.01 Agriculture IPR

Second review of IPR for approval. Curriculum form not up to date. Motion to table pending completion.

(Downing/Rupley MSCU)

3.02 Fine Arts IPR

Second review of IRP for approval. Motion to approve

(Rupley/Wisner MSCU)

3.03 Humanities IPR

Second review of IRP for approval. Senators Runyan Baker gave feedback to faculty on the IPR and updates have not been made yet. It is expected to be completed for next Senate meeting. Motion to table.

(Baker/Runyan MSCU)

3.04 Physical Education IPR

Second review of IRP for approval. Motion to approve

(Rupley/Runyan MSCU)

3.05 AP/BP Policy Review Schedule

A need for this schedule was born out of the accreditation process, finding we had no formal schedule for the review of Board and Academic Policies. It creates a timeline policy for review. Motion to approve

(Downing/Lin MSCU)

3.06 Institutional Set Standards

We received an accreditation finding that we had no process to periodically review some set standards. Those standards included Student Achievement, Job Placement in CTE, and

Licensure Exams Pass Rates. Creates policy for review of these standards. Motion to approve
(Wiser/Baker MSCU)

3.07 AP 4102

Update AP 4102 - Career/Technical Programs

Discussed making changes to this AP, to simplify the membership numbers language, adding “designee” language, and quorum requirements. Due to significant changes made in discussions at the meeting it was decided to table for a vote at next Senate meeting. Motion to table.

(Baker/Rupley MSCU)

4. Discussion

4.01 Digital Graphic Design IPR

First review. It is planned to come back for approval next meeting. Program will be discontinued.

4.02 Human Services IPR

First review. Senator Baker wrote this IPR on extra assignment contract we LCC have no current faculty in this program. Will come back at next meeting for approval.

4.03 SLO Handbook/SLO Assessment

Lisa Gardiner informed Senate that this item comes out of our accreditation process. The handbook was old and in “draft” form. The handbook has been updated with our current standards and spells out the SLO assessment and review process. Handbook should be reviewed and will be approved at a later Senate meeting.

4.04 Academic Renewal Policy

At last meeting we discussed best practices for time lapsed in order to complete Academic Renewal. Currently, 2 years must have elapsed. It is suggested that we adopt a 1 year policy as a best practice. Research indicated majority of other institutions adopted the 1 year policy. Research was conducted of 38 institutions. 20 had a 1 year policy, 8 had a 2 year policy, and the remainder had no policy, or something different than above. Recommended to bring back the AP for approval with a 1 year policy.

4.05 Senate Academic Scholarship

It came to Senate President Runyan’s attention that this scholarship has not been granted in some time and some faculty have been contributing to the fund through automatic debit of their pay checks. Discussion ensued and the consensus was that Senators wanted to reactivate the scholarship and award to a student. Runyan will research the appropriate procedures and forms to facilitate. It was also suggested that we advertise this scholarship to faculty as they may want to contribute.

5. Information

5.01 Senate Elections

Colleen Baker, Tom Downing and Celeste Wiser's seats are up for election this year. More information to come at next meeting related to timeline for nominations and election.

5.02 ASCCC Diversity Equity Inclusion Survey

This survey is due March 22, 2021. President Runyan will complete but would like any input prior to completion. He has worked with the LCC Diversity Committee and will send to senators for review.

6. Reports

6.01 Administration

Carie Camacho advised that the new EMP process is beginning.

6.02 Senators

None

6.03 LCFA

Ratification vote of the new salary schedule that faculty received in their email should be soon.

6.04 Guided Pathways

None

7. Closed Session

None

8. Meeting Closing

8.01 Adjournment – 4:11 pm
(Rupley/Baker MSCU)

Respectfully Submitted,

T. Downing

Monday, March 22, 2021
 Consultation Council 3:00 pm via Zoom-

Administration:	Classified:	Faculty:	Management:	Student:
Dr. Trevor Albertson		Alison Somerville		
Dr. Randy Joslin	Carol Montgomery	Yuting Lin	David Corley (ITP)	
Garrett Taylor	Tara Bias	Chad Lewis	Michell Williams

		Lisa Gardiner		

Chairs: Chairs of Academic Planning Committee (Carie Camacho/Roxanna Haynes), Facilities Planning Committee, Human Resource Planning Committee (Sue Kelley), Institutional Effectiveness Committee, Institutional Technology Planning Committee, and Student Services Planning Committee (Brady Reed)

(if not already members)

Kim Clain, Seaira Harrington, Dana Armeson, Roxanna Haynes, Tom Downing, Jennifer Tupper, Tiffany Montgomery, Thomas Robb, Codi Mortell, Vickie Ramsey, Chrisdee Pelfrey, Sandra Jonas (board member), Carie Nyman, Melissa Hill

1. Meeting Opening

1.01 Call to Order and Roll Call

1.02 Approval of Agenda –approved by consensus

1.03 Approval of Minutes 03/08/2021 - approved by consensus

2. Governance

2.01 Policy Review Schedule-Randy Joslin – This is the same one we looked at before. It went to Senate to look it over. It was cleaned up, dates were established and then Senate approved it. Now it is on our agenda to be approved. Having something like this helps so much for people in leadership to make sure we are on track. -approved by consensus

2.02 CTE Advisory Board-Adam Runyan – AP 4102. It was a little confusing. We changed some language and helped clean it up. It needed to be clearer. - approved by consensus

2.03 Transfer Form-Adam Runyan – This is the same form that we saw last time, the fax number was fixed, an email was created and it was made fillable. It was already approved. But we are looking for approval again with the changes. - approved by consensus

3. Consultation

3.01 ACCJC Annual Report-Randy Joslin – This is an annual report for student achievement. The sections are pretty self-explanatory. The goals were set eight years ago. We will be updating it and bringing it back to Consultation Council after Senate looks at it. We report three years running, if there are less than 10 students to complete, the course is not considered reportable. This report can be found on our website, in the public area, under about and then accreditation.

3.02 LCC Budget and Planning Calendar (standing item)- We will continue to add to it so we just have one calendar and use it as a management calendar. Master plans need to be done ASAP if we are going to stay on track.

4. Guided Pathways

4.01 Guided Pathways Update-Brady Reed – The main things we are working on right now are the Career Pathways. They are really accelerating, we are working with Pacific Sky to create logos. We are looking at partnering with Bakersfield to use their program mapper. It helps with our articulation to the UC and our own mapping at LCC will be easier. We are moving forward with a grant we received to engage student voice on campus. Brady assigned that to Jennifer Tupper. We are looking to hire up to 8 students.

5. Accreditation-

5.01 Accreditation Update - We have a SLO handbook going to Senate for approval. It will help people get the SLOs done more efficiently. We are lacking some software that we need to assess ISLO and PSLO data. We came up with creating an assessment project to at least help us assess PSLO and ISLO's to get data. There are some simple forms for students to fill out to help us get data. Rough drafts are due to Toni Sommer this week, so if we could get your feedback that would be great.

6. Other-Information/Communication

6.01 Budget update-Garrett Taylor – The prioritization process does need to stay on track like Randy said. The skip rates are going up to maybe a 1.5% rate. There is a cola built into that. There is not a lot of new money. There are some one time funding from the governor. Many community colleges have had a decrease of enrollments. We will wait and see a little longer to see what the chancellor is going to do. In terms of the TRAN, we are sitting on a little over 8

million dollars. Which means we would be 1.5 million dollars in the plus in June, 2021. We want to create a buffer for our budget though so we got a 1.75 million dollar TRAN just as a buffer in case something does come up. It will have a fee of around \$20,000-\$25,000.

6.02 Good of the Order: Questions for Trevor- Trevor Albertson –

- We are getting ready to complete in ink a partnership with UC Merced.
- Trevor made a goof in a board meeting. He did not read the accommodation for those who have received tenure. He will read it at the next meeting and is going to throw a big party once the COVID-19 regulations are lifted.
- Alan Siemer has resigned as a board member. He moved out of his district. We have an open spot. There are three options. 1) Immediately assigning someone that night. 2) Call a special election, they cost a lot of money. 3) Allow community members to submit applications. The board chose option three. The person elected would serve through the end of Alan Siemer's term. The application is out there on social media, etc. We have put the information out there. We do not have a preconceived winner. It is all about the best candidate who is willing to serve. We will interview the candidates publicly April 8, 2021. It will ultimately be a vote of the board. Weren't there two people who already ran for these seats? Why didn't we select those people? We could only select one person and the board did not want to seem or create reality that they had a pre-determined idea who they wanted to take the seat. Those two people have the opportunity to put in an application.
- Trevor will not be doing a lot of talking on Wednesday, he will be doing a lot of listening. We cannot totally predict what will come at us, a new variance of COVID, summer fires, etc. We will have to work with whatever happens. Our main goal will be to make the right choices and keep everyone safe. We are in phase two of opening our campus. We are trying to figure out the best options for EVERYONE and we have to work by "what if" scenarios right now.
- Do you know if we are still vaccinated against the variances that are showing up if we already got vaccinated? Depending on the vaccine you received, some of the variance are covered. Some of the vaccines are protecting 100% against the variances.
- Are we doing the April 14, 2021 drive-thru still? Yes, we are planning on it. We will figure out employees coming onto campus that day. It will be up to their supervisors.
- The Women's History Event is tomorrow night at 6:00pm via Zoom. We hope everyone who can, will attend.

7. Meeting Closing

7.01 Future Meetings April 12, 2021. Next week is Spring Break.

7.02 Adjourn @ 3:55pm
