

DESCRIPTION

This course provides the student with information on driver responsibilities, recognized standards, and related laws for fire apparatus. Topics include basic inspections, documentation, maintenance, and troubleshooting fire apparatus, and techniques on driving and positioning fire apparatus. Each student also has the opportunity to increase his or her driving skills during simulated driving conditions.

NOTE: If possible, student should bring agency apparatus. Student must possess a valid Class A, B or C California Driver's License.

Additional State Fire training Fees apply and will be collected by instructor on the first day of class.

Contact Instructor before purchasing text.
